Alexandros - SV2ATD

To keimeno:

"Yahoo is now using something called "Web Beacons" to track Yahoo Group users around the net and see what you're doing - similar to cookies. Take a look at their updated privacy statement: http://privacy.yahoo.com/privacy/us/pixels/details.html

About half-way down the page, in the section "Outside the Yahoo! Network", you'll see a little "click here" link that will let you opt-out of their new method of snooping. I recommend doing this. Once you have clicked that link, you are opted out. Notice the "Successfull" message at the top of the next page. Be careful because on that page there is a "Cancel Opt-out" button that, if clicked, will *undo* the opt-out."

This unwelcome news comes from http://www.amsatnet.com

2002 November 23
Press Release for Immediate Distribution

P5/4L4FN QRT

I just received word from Ed, P5/4L4FN that the
unfortunate and worst possible thing has just happened.

Friday evening, 2002 November 22, Ed was called into
a meeting with the "Radio Regulation Board" without any
explanation, he was politely asked to quit all transmissions
and pack all his radio equipment.

Saturday, he spent all day on the roof disassemblying
his antennas and packing boxes. At 2:30pm on of the
government officials came by, sealed all the boxes and
when he leaves on December 10 for his two weeks R&R he
is to take everything with him out of the country.

This really hits the ham communtity hard. I for one was
looking forward to a satellite contact on AO-40. I know
that many of you were still awaiting your first QSO.

Ed will keep all the equipment for his next duty station.
Any money received from now on will be donated to help
ZL1AMO's emergency air ambulance trip from Figi back home.

For more info see: http://www.amsatnet.com/p5.html

Θα ήθελα μια ξεκάθαρη τοποθέτηση του SV2EVS που φαίνεται να ελέγχει ή να
δημιούργησε αυτή την λίστα
Αν η συγκεκριμένη λίστα αφορά σε Ελληνικά Ραδιοερασιτεχνικά Θέματα ή αν
είναι
επί παντός επιστητού.

Προσωπικά δεν έχω χρόνο να διαβάζω θεωρίες συνθήματα και προτροπές για
θέματα που υπάρχει
σωρεία άλλων λιστών και σελίδων στο Internet. Αν το θέμα της λίστας είναι ο
Ελληνικός
ραδιοερασιτεχνισμός τότε με ενδιαφέρει αλλά κρατήστε όλα τα off topic ή
άσχετα θέματα για αλλού.

Τέλος παρακαλώ γράφετε Ελληνικά. Για όλα computers και τα λειτουργικά
υπάρχουν λύσεις και για
οποίον δεν έχει βρει να τον βοηθήσουμε.
Είναι κρίμα να στραβώνουμε την αισθητική των ματιών μας με Φραγκολεβαντίνικα

και νομίζω ότι
το αλφάβητό μας είναι αρκετά όμορφο και ταυτισμένο με την γλώσσα μας και
είναι κρίμα να παραποιείται βάναυσα.

Ευχαριστώ Τάσος Ζαχαρίου sv1rd

Οχι βέβαια, αλλά πίστευα οτι ο Σπύρος SV2EVS ήταν ο πιό αρμόδιος
να του δώσει την απάντηση που του έδωσε ο Κώστας (SV1XV) και ταυτόχρονα
να βγάλει τον canadianet από την λίστα αφού προφανώς είναι άσχετος και να
τον τοποθετήσει στην spam list.

```

```

....
Δεν μπορώ να καταλάβω τι σκοπό είχε ο συνάδελφος με το
ψευδώνυμο canadianet (που δεν αναφέρει στο προφιλ του
ούτε το όνομα του) να μεταφέρει το περιεχόμενο μιας
σελίδας από το site του SV2EVS. Δηλαδή ο συγκεκριμένος
φίλος έχει γυρίσει όλα τα site και "κατακρίνει" το
περιεχόμενο τους. Δηλαδή να περιμένω και εγώ μια
τέτοια λεκτική και φραστική "επίθεση" γιατί έχω γράψει
στις σελίδες μου ότι έχω κάνει επαφές στα 11 μέτρα
μέχρι να πάρω την άδεια??????
....

Δεν υπάρχουν PC προβληματικά αλλά πρόβλημα στο configuration του mailer
μία λύση είναι .txt ή .rtf με attachment ή άλλη είναι να διορθώσεις το
configuration

From: sv1rd@nbg.gr
Topic: 122   Message: 122

Για όσους ενδιαφέρονται για χάρτες APRS παραθέτω μερικά ενδιαφέροντα links
που θα
βρείτε χάρτες της Ελλάδας

`UIview`

http://ham.gr/aprs/maps/ από τον SV1LL
http://www.qsl.net/sv2bzq/map_aprs.htm από τον SV2BZQ
http://www.zl2umf.wallace.net.nz/ από τον ZL2UMF
http://www.qsl.net/sv3eao/aprsg.html από τον SV3EAO
http://www.athnet.ampr.org/~sv1rd/3bef_maps.zip από τον SV3BEF

`PocketAPRS - Palm`

http://www.homepages.hetnet.nl/~pe1dnn/zip/greece.zip από τον PE1DNN

`WinAPRS - Xastir`

ftp://aprs.rutgers.edu/pub/hamradio/APRS/map02/Europe/EUROPE_P.zip από τον
WU2Z

WinAPRS CE
http://www.qsl.net/sv2bzq/map_aprs.htm από τον SV2BZQ

Τέλος για μετατροπή ενός χάρτη του UiView σε image χαρτη για το WinAPRS
χρειάζεται

1. Μετατροπή του σε .gif format
2. Με βάση το .inf αρχείο δημιουργία ενός .geo αρχείου αρχής και τέλους
συντεταγμένων
των πάνως αριστερά και κάτς δεξια ακραίων pixel της εικόνας.

Πολλά 73 Τάσος sv1rd@qsl.net

Σπύρο,

Επειδή τα μηνύματά σου είναι ακαταλαβίστικα σου στέλνω τις ρυθμίσεις που έχω
στον
Microsoft Outlook 2000 στο qrl μου.
Πιστέυω ότι αντίστοιχα θα βρείς τι γίνεται στον δικό σου

Εργαλεία
Επιλογές
Μορφή Αλληλογραφίας
Στην Αποστολή μυνήματος επέλεξα
Απλό κείμενο
Στις διεθνείς επιλογές έχω τσεκάρει το
Αγγλικά για κεφαλίδες μηνυμάτων σε απαντήσεις και προωθήσεις
Στην χρήση κωδικοποίησης για εξερχόμενα Ελληνική (ISO)
Στην χρήση κωδικοποίησης για εισερχόμενα Ελληνική (ISO)

Στις Γραμματοσειρές έχω επιλλέξει Arial , Arial, Courier New
Γραμματοσειρές επιστολόχαρτων επέλεξα την Γραματοσειρά χρήστη κατά την
απάντηση και προώθηση

Ελπίζω να σε βοηθήσει κατά τα άλλα τα 2 μηνύματα που έστειλες ήταν
ακατάληπτα σε εμένα
στο σπίτι έχω το Eudora και θα δώ και εκέι πως φαίνονται

73 Τασος

From: 9A2NX@...

I wish to offer an cheap solution for solid work with CAT control with your transceiver Kenwood TS-50S and PC. After long examinations and testing.
I found out following solutions as most acceptable:

Interface IF-10D (227DM) and serial interface RS-232C (283DM) with program.
Interface IF-10D,line DIN6P connector and DB9 for PC (COM1), 2 germanium diodes, 2 condesators 10nF, which acts as RS-232C !
Small home made interface, in SMD technology, on the PCB 2x3 cm,integrate with TS-50S on the lower side of its PCB. The connecting line with PC can be home made. This can be done by specialists which can achieve an cheap solution.
The most convenient solution is mentioned under 2. Software is selected between 40 different solutions.The best one that made by N3EQF, RIG-EQF ver. 1.02. He is well known author for LOG-EQF software. This software is produced for TS-940S ?, but it works OK with TS-50S. The program runs after command RIG-EQF 1, for COM1 and RIG-EQF 2, for COM2. I tested program on laptop T2200SX25 and on PC 80386DX40.
The program is easy to use, with simple commands. The program can be activated only if all his hardwware is on, interface, PC and TS-50S. When the program is active the working frquecy is displayed,very precisely registering each change, then RIT control, modulation, VFO A and B, SPLIT etc.
Option O has possibility to input 22 different QRGs, modulations, descriptions and call sigs. Then you can choose any of them with coursor.
With key P is possible to obtain scanning of frequency in the wished range,then step raster and speed.
The second program , witch works the same things, but in litlle bit reduced range, is KEN-AE6G, dated 1990. it has VFO A and B control, and M memmory control. It is intended for use with TS-440 and TS-940s!
I include the plan of connection for IF-10D to DB9 pin PC port. The software can be downloaded from BBS and programs are very well sorted on FBBS of IV3LAV-8 via IR3GO (gonode). Using yapp protocol all can be quickly dowwnloaded from subfolder RTX. Names are RIG-EQF.ZIP 71.005 bytes, and TS50.ZIP - 6.847 byta. Detail description, schemas and know-how will be published in "Radio HRS",edition of 9A union.

On my TS-50S I tried the work with 2 computers: laptop worked with CAT-control, while PC 386 worked with SSTV (Hi)! The work was stable.

I wish to all CAT enthusiasts a lot of pleasure.

Vy 73 de IKO-9a2nx@... !

Connection "home made" cable to IF-10D to PC:

```

Οχι βέβαια συνεχίζουν
έχω μία σελίδα με αρκετούς χάρτες για να δεις απο το web και αρκετά link στο FindU

`http://www.athnet.ampr.org/~sv1rd/java.html`

Οι περισσότεροι είναι κεντραρισμένοι στην Ελλάδα και έχουν Ελληνικό ή Ευρωπαικό traffic

Αυτό που γράφει "Greece Greece Map Blast" έχει μόνο Ελληνικό traffic και ίσως έιναι το πλέον χρήσιμο
για κάποιον που δεν θέλει να δει Ευρώπη κλπ και να του έρχεται πολύ traffic.
Το απευθείας link για τον χάρτη αυτό είναι
http://www.athnet.ampr.org/~sv1rd/gr_java_M.html

>>> 425 DX NEWS SURVEY <<<

The 425 DX News DXCC Most Wanted Survey for the year 2003 is up and
running
on our web site - if you want to participate, please
go to
http://www.425dxn.org/surv2003/

C5 - Look for the C53M team from The Gambia [425DXN 602] to be
QRV in
the ARRL 160 Meter Contest this weekend. QSL via
OH3RM. [TNX
N0DY]

DL_ant - Felix Riess, DL5XL will be working as radio
operator and
electronics engineer at the German "Neumayer" base
(WABA DL-03)
on the Eckstrom Ice Shelf (AN-016), Antarctica during the
austral
winter (not summer, as reported in 425 DX News #603)
season, from
March through November 2003. He plans to operate
when time
permits, mainly on CW (but also on SSB, RTTY, PSK31 and
HELL) as
DP1POL. QSl via DL1ZBO either direct (Rainer
Hilgardt,
Hans-Sachs-Weg 38, D-64291 Darmstadt, Germany) or
through the
DARC bureau. For further information on Neumayer
Station, please
visit http://www.awi-
bremerhaven.de/Polar/neumayer1.html [TNX
DL5XL]
FO - Alain, F2HE/FO5RH will be back to French Polynesia on 6
December;
he plans to be on Maupiti Island (OC-067) around
Christmas. [TNX
F6AJA]
I - Special call IU7LE will be aired from ARI Lecce
during the
weekends in December to celebrate the 75th anniversary
of ARI,
the Italian amateur radio IARU society. QSL via
I7PXV either
direct or through the bureau. [TNX IK7JWX]
KL - John, KL7JR has been on Shemya Island (NA-037) since 24
November
[425DXN 602] and will be back on the amateur radio
bands on 1
December. Look for him around 28495 or 14260 kHz after
20 UTC.
QSL direct to home call. [TNX KL7JR]
LU_ant - Dominik, DL5EBE reports that three Argentine Antarctic
stations
are expected to show up on 30 November on 21365 kHz at 21
UTC, on
a net controlled by Masa, JE1LET. They are LU1ZD
from "San
Martin" base (WABA LU-11), located on Barry Island in
Marguerite
Bay (AN-016); LU1ZG from "Belgrano II" base (WABA LU-08),
located

on the Luitpold Coast of Coats Land (AN-016);
LU1ZV from
"Esperanza" base (WABA LU-06), located on the Trinity
Peninsula
(AN-016).
P4 - Ken, K6TA (P40TA) and Kay, K6KO (P40K) will be active
from Aruba
(SA-036) on 3-17 December, including operations in the
ARRL 10
Meter Contest (P40K, multi-single) and in the and ARRL
160 Meter
CW Contest (P40TA, single operator). Outside the
contests they
will concentrate on the WARC bands and hopefully 6
metres. QSLs
via WM6A. [TNX The Daily DX]
UA - Weather permitting, Lex, RU0LM will be active as
RU0LM/0 from
Shikotan Island (AS-062) in early December for about
five days.
[TNX UA0MF]
VK9_xms - Kunio, JA8VE will be active (mainly on 20 and 15 metres
SSB) as
VK9XE from Christmas Island (OC-002) on 7-14 December.
QSL via
JA1KJW (Nakayama Hisashi, 1-17-8 Shibuya, Yamato,
242-0023
Japan). [TNX JA1ELY]
ZD8 - Jim, N6TJ will be active again as ZD8Z from
Ascension Island
(AF-003) on 6-17 December, including an entry in the
ARRL 10
Meter Contest. He will operate on all bands, most likely
also on
6 metres. QSL via VE3HO. [TNX The Daily DX]
ZK3 - Atsu, 5W1SA will operate from Tokelau (OC-048) for a
couple of
weeks starting on 2 December. His ZK3 callsign
(hopefully ZK3SA)
will be issued upon arrival. QSL via JH7OHF. [TNX JH7OHF]
ZS - Rudi, ZS6DX will be running special event station ZS02AM
(the AM
standing for African Moment) from 30 November to 31
December. The
first "special event" to celebrate will be the
total solar
eclipse on 4 December. Rudi will be active on 160-6
metres SSB
and CW. QSL via ZS6DX.
ZS_ant - Dominik, DL5EBE reports that Anton, ZS7/ZS4AGA will be

staying at
"E-Base" (WABA ZS-04) for the next week. He plans to be
on 21275
kHz at 17 UTC on Monday, while USA amateurs should look
for him
on 14160 at 22 UTC. QSL via ZS4A.

PACIFIC CRUISE ---> The Daily DX reports that Harry, W6YOO will be
cruising
from Los Angeles (departure 2 December) to Sydney (arrival 3
January) and
expects to visit several islands during his voyage. He plans to
operate QRP
(mostly on 14040 and 14260 kHz) for a few hours from as many of the
following
stops as possible:
December 8 Honolulu (Hawaii), OC-019 W6YOO/KH6
9 Maui (Hawaii), OC-019 W6YOO/KH6
10 Hilo (Hawaii), OC-019 W6YOO/KH6
13 Christmas Island, OC-024 T32??
16 Bora Bora (French Polynesia), OC-067 FO/W6YOO
17 Moorea (French Polynesia), OC-046 FO/W6YOO
18-19 Papeete (French Polynesia), OC-046 FO/W6YOO
20 Raiatea (French Polynesia), OC-067 FO/W6YOO
23 Pago Pago (American Samoa), OC-045 W6YOO/KH8
24 Apia (Wetsern Samoa), OC-097 5W0HA
27 Yasawa (Fiji), OC-156 3D2YOO
29 Vanuatu, OC-035 YJ0??
30-31 Noumea (New Caledonia), OC-032 FK/W6YOO
He will also operate as VK2IWV from Sydney and as C6AOO/MM while
cruising.

ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

3C, EQUATORIAL GUINEA (Update). Erik, SM0AGD, spoke to Vitaly, 3C2MV (aka
VE6JO) over the telephone from Malabo and was asked to pass on the following
info to the OPDX bulletin. Vitaly worked 1400 QSOs in the CQWW CW Contest.
Outside the contest, he has made about 4500 QSOs so far. He is astonished
by the continuous big pile-ups! For 40 and 80 meters, he is using an
Inverted Vee. He has no antenna for 160 meters and does not intend to
be active on that band. Due to an upcoming election in Equatorial Guinea,
he might have to change his itinerary and leave Malabo a week earlier
than expected (possibly December 8th, but that is not definite yet).
Over the past weekend, Vitaly was heard on 7016 kHz around 0530z, 10116
kHz between 2045-2130z, 24911 kHz between 1130-1730z, 28522 kHz between
1200-1345z and 28016 kHz after 1430z. QSL via VE6JO.

5T, MAURITANIA (Also, S0, Western Sahara). A group of operators from the
Amateur International Radio Volunteers (IARV) will be active as 5T5PBV
(JA1PBV), 5T5RUZ (JA8RUZ), 5T5RQ (JA6RQ) and 5T5CPS (JA1CPS) now through
December 7th. QSL via their home callsigns. A group, consisting of JA1UT,
JA1UPA, JA1PBV, JA8RUZ, JA1CPS and JA6RQ, will make a side trip to Western
Sahara and be active as S07U from December 2-5th. A special effort will
be made on 160 and 30 meters. QSL via JA1UT.

8P, BARBADOS. John, K4BAI, will be active as 8P9HT from December 10-17th
which includes an entry in the ARRL 10 Meter Contest as 8P9Z. During
the contest he will be active on both modes using high power if an
amplifier is available. Outside of the contest, look for John to be
active on 160-6 meters CW/SSB. QSL both callsigns via K4BAI.

9N, NEPAL. Toshi, JA1ELY, informs OPDX that Kiyo, JH3PAS, will be active
once again from Kathmandu as 9N7AS between December 23-30th. Also, following
the 9N7AS activity, look for Kazu, JA8MWU, to be active as 9N7WU, also
from Kathmandu, between December 30th and January 6th. Both operations

will be on all bands, 160-6 meters. 9N7AS will operate SSB, CW, RTTY
and PSK31, but 9N7WU will only be active on SSB. QSL via their home
callsigns direct or the JARL Bureau.
JH3PAS - Kiyotaka Ichikawa, 1-74-3 Issiki-Nishi Hiraoka, Kakogawa,

9S, DEM. REP. OF CONGO. Michel, F6COW, who was active in the CQWW CW
Contest as 9S1X, continues to be on the air until December 8th. He has
been very active on 20/17/12 meters CW/SSB and 40 meters CW. QSL via
F2YT.

D88/HL0, SOUTH SHETLAND ISLANDS. It has been reported that Lee,
DS4CNB,
will be joining the team at the Korean base King Sejong (WABA HL-01),
located on King George Island, South Shetlands (AN-010). He is
expected
to work at the base until November 30, 2003. Activity will be on all
bands and modes as either HL0KSJ or D88S. QSL via his home callsign:
Lee Dae Ryung, P.O Box 30, Tongyung 650-600, South Korea.

C6, BAHAMAS (IOTA/Lighthouse Op). Wade/AA8LL and Liz/K8LIZ will be
active from here January 18-20th. They will be operating from Crooked
Island, Bahamas, NA-113 as AA8LL/C6A and K8LIZ/C6A. They also have
permission to operate as C6ALB from Bird Rock Lighthouse, LH-0118 for
the World Lighthouse Award, and BAH 005 for the Amateur Radio
Lighthouse
Society. Bird rock is also NA-113. Operation will be mostly SSB near
the
IOTA frequencies from 40-10 meters. This time there will be CW on
request
for those who always request it. QSL to their home callsign and C6ALB
to
AA8LL. They also now have a Web site at: http://home.att.net/~aa8ll

CRUISING THE PACIFIC ISLANDS. "The Daily DX" reports that Harry,
W6YOO,
will be cruising the Pacific now through January 3rd. He is expected
to
depart Los Angeles on December 2nd and plans to visit several islands
on
his way to Sydney, Australia, on January 3rd. He activity will be QRP
mainly on 14040 and 14260 kHz using a FT-817. Operations will only be
a
few hours from each island, CW and SSB. The main purpose of this trip
is
for sightseeing, seeing a lot of the Pacific and to be active from as
many
stops as possible. He has received permission from all locations
expect

T32 and YJ0 (permission may be received before his depature). While cruising
the Pacific between the islands Harry will be using the callsign C6YOO/mm.
Here is his expected stops and island schedule:
December
8th - Honolulu, Hawaii, IOTA OC-019, callsign W6YOO/KH6
9th - Maui, Hawaii, IOTA OC-019, callsign W6YOO/KH6
10th - Hilo, Hawaii, IOTA OC-019, callsign W6YOO/KH6
13th - Christmas Island, IOTA OC-024, callsign T32??
16th - Bora Bora, French Polynesia, IOTA OC-067, callsign FO/W6YOO
17th - Moorea, French Polynesia, IOTA OC-046, callsign FO/W6YOO
18-19th- Papeete, French Polynesia, IOTA OC-046, callsign FO/W6YOO
20th - Raiatea, French Polynesia, IOTA OC-067, callsign FO/W6YOO
23rd - Pago Pago, American Samoa, IOTA OC-045, callsign W6YOO/KH8
24rd - Apia, Wetsern Samoa, IOTA OC-097, callsign 5W0HA
27th - Yasawa, Fiji, IOTA OC-156, callsign 3D2YOO
29th - Vanuatu, IOTA OC-035, callsign YJ0??
30-31st- Noumea, New Caledonia, IOTA OC-032, callsign FK/W6YOO
January 3-6th - Sydney, Australia IOTA OC-001, callsign VK2IWV

DP1, ANTARCTICA. Felix, DL5XL, will be spending the upcoming winter season
2003 (March through November) as a radio operator and electronics engineer
at the German research base "Neumayer" in Antarctica. When his job/work
duties permit, he will try to be active on the amateur radio bands, mainly
on CW, but also on SSB, RTTY, PSK31 and HELL. His callsign will be DP1POL.
The Neumayer Station is located on the Ekstroem Shelf Ice, Atka Bay, in
the Northeast Weddell Sea (70"39'S, 08"15'W). Important reference numbers
are: DXCC - Antarctica (CE9/KC4), IOTA AN-016, WABA DL-03, CQ Zone 38 and
ITU Zone 67. QSL cards (including SWL reports will be welcome) will be
handled by Ray, DL1ZBO. Bureau cards are fine. If you prefer a direct
reply, please enclose an SAE and sufficient return postage: 1 IRC or 1 USD
will cover postage to Europe, all others need 1 IRC or 2 USD for air mail.
The QSL address is: Rainer Hilgardt, Hans-Sachs-Weg 38, D-64291 Darmstadt,
Germany. More information about Neumayer Station (and a link to the

Neumayer's webcam) is available at the official Web page at:
http://www.awi-bremerhaven.de/Polar/neumayer1.html

DX SURVEY. The "425 DX News DXCC Most Wanted Survey" for the year 2003
is up and running on their Web site. If you would like to participate,
please visit their Web page at: http://www.425dxn.org/surv2003/

FO, FRENCH POLYNESIA. Alain, F2HE, will be back in Polynesia as
FO5RH. He
will leave on December 6th. For Christmas he will be on Maupiti Island
(OC-067). His FO5RH address is: Alain Claverie, PO Box 51.690, 98716
Pirae,
Tahiti, Polynesie Francaise.

IOTA NEWS.................
NA-160. Hiro, HR3/JA6WFM, reports he had to cancel their planned
IOTA
DXpedition Cayo Cochino. The arrangement with the hotel
was
not possible. He will be finishing his work in Honduras
and
return home to Japan on December 8th.

SA-060. Operators PY8AZT, PY8DAN, PT2ND and PT2PS will activate
ZW8P
from Cotijuba Island, December 12-17th for the 2002 ARRL
10
Meter Contest. Two stations will be active on 80-6 meters.
QSL via the Bureau or direct to PT2PS. Also, visit the Web
page at: http://www.zw8p.hpg.ig.com.br

LU, ARGENTINA (Mountain Expedition). In 2003, Robert, 3A2MY, will be
signing
LU/homecall from January 16-23rd, from the Aconcagua, the highest peak
of the South American Andes mountains, 6959 meters ASL. He will be
there
with the Alibert expedition members.=Robert will use a home made QRP
transceiver with 5 watts out supplied by solar cells. Frequencies and
mode are: 14280 to 14290 SSB. A special QSL card will be issued when
he
returns to Monaco. QSL via his home callsign.

NORTH KOREA HAS GONE SILENT AGAIN! This surprising news was released
on
the KK6DO Web page during the CQWW DX CW Contest on November 23rd:
"P5/4L4FN QRT -- I (Bruce, KK5DO) just received word from Ed,
P5/4L4FN,
that the unfortunate and worst possible thing has just happened.
Friday evening, 2002 November 22, Ed was called into a meeting
with
the 'Radio Regulation Board' without any explanation, he was
politely

asked to quit all transmissions and pack all his radio equipment.
Saturday, he spent all day on the roof disassemblying his antennas
and
packing boxes. At 2:30pm one of the government officials came by,
sealed
all the boxes, and when he leaves on December 10 for his two weeks
R&R,
he is to take everything with him out of the country.
This really hits the ham communtity hard. I for one was looking
forward to a satellite contact on AO-40. I know that many of you
were
still awaiting your first QSO.
Ed will keep all the equipment for his next duty station. Any
money
received from now on will be donated to help ZL1AMO's emergency air
ambulance trip from Figi back home."
OPDX InterNet Subscribers will receive (as an additional
bulletin)
a copy of a message from Ed, 4L4FN, that was posted on the KK5DO Web
Page expressing his feelings on the situation and thanking the ham
community.

QSL INFO AND NEWS................
Activity by 8Q7DC was Juergen, DL8LE. QSL via home call either
direct
or through the bureau.

9K2ZZ QSL INFO. Leo Fry, K8PYD, is one of the many volunteers at
the
ARRL incoming 8th Area QSL Bureau. He states, "We receive many QSLs
each month for 9K2ZZ and 9K9Z to be forwarded to QSL Manager W8CNL.
However, the operator does not prefer to QSL any bureau cards.
Therefore,
we have been asked NOT to forward these cards to the QSL Manager."
In
the past years, they would stamp incoming QSLs stating that the
manager
will only answer these cards if sent directly to the manager. They
would then been returned to the sender to be forwarded direct. Leo
now states, "Due to the large quantity of incoming QSL cards they
will
NOT be returned to sender but destroyed! Please pass this
information
on to the many DXers needing 9K2 confirmed so they do not waste
sending
cards via the bureau." QSL Manager W8CNL's address is: Ray McClure,
5 McKenzie Circle, North Augusta, SC 29841-4319, USA.

Kaz, JA1IST, informs OPDX that he was active after the contest
(CT9L),
and operated as CT3/DJ2AA at Santana, Madeira. QSL via Bureau to

JA1IST
or direct to WR6M via the address on QRZ.com. PLEASE DO NOT send
QSLs
to DARC Bureau.

CY0MM's on-line log has been updated as of November 29th. The log
now
contains 49511 QSOs and is current as of November 29th, 2002 at
1228z.
The on-line log can be found at: http://dx.fireroute.com/cy0mm

Pascual, EA5EYJ, informs OPDX that QSL routes for stations active
in
the recent 2002 CQWW DX CW Contest are now available on the Web
page
at: http://www.arrakis.es/~ea5eyj

Activity by both Pavel/UA0YAY (in Kyzyl, Tuva Region, CQ Zone 23)
and
Nick/UN7JX during the last CQWW CW Contest should be QSLed via
their
QSL Manager IK2QPR.

Edwin Musto, ZS5BBO, informs OPDX that he is not the QSL Manager
for
Ian, ZS9IL, anymore. He has not received a log book from him and
has
been trying to contact him. Also, Edwin doesn't think Ian is very
active
at this time - well, Edwin hasn't heard him on the band. Edwin
feels
embarrassed as people are asking him for cards, but he can't get a
logbook from Ian to verify these contacts.

S2, BANGLADESH. Takeda, JF1EQA, is in Dhaka and has been active as
S21YY
on RTTY and SSTV. Watch 15 meters. IMPORTANT NEW QSL ROUTE: Yoshitomo,
JM1HXU, is now Takeda's QSL Manager. At the beginning of Takeda's
operation,
he gave his own callsign as the QSL route since a QSL Manager was not
decided yet. All QSLs sent to JF1EQA will be forwarded to JM1HXU
manually.
Takeda states JM1HXU is very close to his home station (JF1EQA).

SILENT KEY. Excerpts from W1AW's ARRL Bulletin NR 70 reports: "Former
ARRL
Headquarters staff member Robert L. White, W1CW, of Seffner, Florida,
died
November 22nd from complications arising from pneumonia. He was 83.
Known
to many as 'Mr DXCC', White was the manager of the ARRL's DX Century
Club

program from 1952 until 1976, establishing the award--and its stringent
standards--as Amateur Radio's premier DX achievement. White codified the
rules for the DXCC program and oversaw the checking of some 250,000 QSL
cards submitted yearly, often working as many as 90 hours a week to ensure
that the job got done right. During his tenure at Headquarters, White also
oversaw the ARRL QSL Service. He belonged to the ARRL for 62 years and
was a Life Member. White was an avid DXer and CW enthusiast. Active in
the First-Class CW Operators' Club, White was also inducted into the CQ
DX Hall of Fame in 1998. His wife Ellen, W1YL, and his son Jim, K4OJ,
survive him; both are former ARRL staff members."
Friends may send condolence messages via E-mail to:
w1cw@...
Or send via mail to: 6607 Flicker Ct, Seffner, FL 33584. The family invites
memorial donations to the W1CW Memorial Fund-Florida Contest Group,
c/o Frederick M Perkins Jr, 3437 Lake Josephine Dr, Lake Placid FL 33852.
OPDX and its readers would like to send out our deepest sympathy to
Bob's family and friends.

SPECIAL EVENT (REMEMBERING THE RADIO OPS OF WWII). The event that lead
to the United States becoming involved in World War II will be commemorated
by Amateur Radio. A group of survivors of the Japanese attack on Pearl
Harbor will visit the USS Hornet and take to the air this coming December
7th. The ship's callsign will be NB6GC. QSL Manager will be KO6HA. The
operating hours will be from 0900-1700 Pacific Standard Time (1700-0100z).
The suggested frequencies are:
SSB - 7260, 14320, 21320 and 28320 kHz
CW - 3530, 7030, 14030, 21030 and 28030 kHz.
A special QSL card will be made available for those who make contact.

TI9, COCOS ISLAND. Jose Pastora, TI2JJP, informs OPDX that he will be
active as TI9JJP between December 10-25th. QSL via: P.O Box 2048-2050,
San Pedro Montes Oca, San Jose, Costa Rica, America Central.

TM7, FRANCE. Look for Laurent, F5MUX, will be active as TM7XX during the
upcoming ARRL 10 Meter Contest (December 14-15th) as a Single-Op/High Power/
Mixed Mode entry. QSL via F5MUX.

TO2, GUADELOUPE. Jack, F6HMJ, will be active as TO2FG from December 16th
to January 14th. Activity will be on all bands (6m included). QSL via F6HMJ.

V7, MARSHALL ISLANDS. There have been several reports indicating that
Bruce, AC4G, will be active from here starting this week as V73CW. The
length of his stay is unknown at this time. As this went to print, no QSNs
have been reported. QSL via AC4G, direct or bureau.

WEB PAGES OF INTEREST.....
The Canadian Island Awards program has a new site and new webmaster.
The Web site manager is James Davidson, VE3TPZ. The new Web site URL
is: http://www.qsl.net/ve3tpz/cisa

Gil, F5NOD, reports that the "TOP DX EXPEDITION" Web site has been
updated and can be view at: http://www.qsl.net/f5nod/topdxexpe.html
Send him your Expedition statistics. Fill out the form on:
http://www.qsl.net/f5nod/topdxexpe_submit.html

XV3, VIETNAM. Roi, JA1TAA, will be in Vietnam between December 12-20th
for a low band operation. His callsign will be XV3TAA, and his activities
will mainly be on 160-30 meters CW. Roi will put up a delta loop antenna
for 160/80 meters, so there will be one or two days for low band DXing.
There will be a online log search at the following URL address:
http://www.asahi-net.or.jp/~kw2m-szk
QSL ONLY direct (Sorry NO BUREAU) to JA1TAA with a SASE to: Hiroshi Hotta,
4-12-53 Kameino, Fujisawa, 252-0813 JAPAN.

ZA, ALBANIA (IOTA/Lighthouse Op). Alfredo, IK7JWX, and other members of
the Salantro DX Group are planning to be active from Sazan Island (EU-169)
between December 16-21st. They will be using ZA/homecalls. They also
plan to activate the Sazan Island Lighthouse (ALB-004). QSL via the
individual's home callsign.

ZD8, ASCENSION ISLAND. Look for Jim, N6TJ, to be active again as ZD8Z
from December 6-17th. His activity will include an entry in the ARRL 10
Meter Contest. Oustside of the contest, look for him to be on all bands
including 6 meters. QSL via VE3HO.

ZD8, ASCENSION ISLAND. Glenn, K6NA, who has been active as ZD8A since
November 22nd, continues to be on the air for the next two weeks. He has
been very active on 160-15 meters, mostly CW with a little SSB. His

QSL
Manager Terry, N6CW, informed OPDX to remind everyone that E-mail requests
for ZD8A Bureau cards can also be obtained at: qslvian6cw@...
ADDED NOTE: Terry, N6CW, states E-mail requests for his recent operation
as N6CW/PP5 can be sent also to the same E-mail address.

ZK3, TOKELAU. Atsu, 5W1SA, will be active from here for a couple of weeks.
By the time you read this, his activity should have already started
(December 2nd). Currently his ZK3 callsign is unknown and will be issued
to him upon his arrival. He is hoping for ZK3SA.

ZS6, SOUTH AFRICA (SPECIAL EVENT). Just a reminder to look for special
event station ZS6SOL (Refer to OPDX.584). Activity will take place between
now and December 7th to cover the upcoming total eclipse of the sun in the
Limpopo Province, South Africa, on December 4th. QSL via ZS5WI.

ZL1AMO UPDATE. Judy, AA7UC, continues to supply up-to-date info on Ron's,
ZL1AMO, health via Ron's daughter Terri. Early last week reports indicated
that Ron was awake for a bit and tried to talk, however it was difficult
to understand him. The family believed that he was trying to tell them
that he wanted to go home. The family told him that his ham radio
friends have been E-mailing with prayers and get well wishes, and also
that they are all looking forward to meeting him on the air again, soon.
Before going to print, the latest word from Terri (as of November 28th)
is:"... the family had a meeting with Ron's doctors. The doctors informed
them that the pneumonia has not improved; Ron has no body mass; he still
requires a breathing machine; and his body may be too weak to cope with
another infection. Following visits to the hospital, family members feel
that Ron is looking a little better. Thank you all for your support and
prayers. Let us continue to keep the faith!"

Καλησπερα σε όλους,

Δεν ξέρω αν είχατε τα ίδια καιρικά φαινόμενα με την Θεσ/νίκη, πάντως εμείς εδώ είχαμε πολύ δυνατό αέρα το Σαββάτο. Δεν ξέρω αν είχαμε τίποτα "ατυχήματα" με κεραίες, ελπίζω όμως πως όχι..Αυτός ο αέρας ήταν όντως μια καλή δοκιμή για τις κεραίες πάντως.
35-73km/hour νομίζω οτι ήταν πολύ δυνατοί άνεμοι, εγώ προσωπικά έχω καιρό να δω τόσο αέρα και για τόσο μεγαλή διάρκεια...

We will participate on arrl 10m contest with te call SW1W, cw and ssb
We hope to work all of you
Be careful to listen right our call because in last cqww many stations were hearing sp and not sw on cw
By the way seems to be the last time to activate this prefix because in new year this prefix will be for the new vhf only licenses
qsl via SV1CIB buro or direct.

ANNA MARIA ISLAND, W4, NA-034
Ivan,G3IZD, will be on the air with his American callsign AE4WK
from Dec 12-15.

ASCENSION ISLAND, ZD8, AF-003
Jim,N6TJ, is QRV on HF and 6m signing ZD8Z from Dec 6-17
(including
the ARRL 10m Contest). QSL via VE3HO, direct only.

BARBADOS, 8P9, NA-021
K4BAI will use the calls 8P9Z during the ARRL 10m Contest and
8P9HT in CW/SSB on 160-6m during the rest of the time from Dec
10-17.
QSLs for both calls to K4BAI.

CAYE CAULKER, V3, NA-073
Jay,V31MX, and Cal,V31MF, are QRV in SSB on 20/15/10m from Dec
11-17.
QSL via K0BCN.

CHRISTMAS ISLAND, VK9/x, OC-002
Saito,JA8VE, plans to activate VK9XE in SSB on 3570, 3798, 7080,
14170,
18130, 21270, 24940 and 28470 kHz from Dec 7-14. QSL via JA1KJW.

COCOS ISLAND, TI9, NA-012
Jose,TI2JJP, will be QRV as TI9JJP from this island from Dec 10-
25.
QSL via PO Box 2048-2050, San Pedro Montes Oca, San Jose, Costa
Rica.

FERNANDO DE NORONHA, PY0/f, SA-003
Tony,PY8IT, plans to sign PY0FT mainly in digital modes from Dec 8-10.
QSL via JA1ELY.

FRENCH POLYNESIA, FO
Alain,F2HE, is on the air again with his callsign FO5RH starting Dec 6.
He will spend his Christmas time on Maupiti (OC-067).

GAMA ISLAND, LU, SA-022
The Argentinian Bahia Blanca DX Group is visiting this island from
Dec 6-9. LW3DKC, LW4DRH, LW4DRV, LW8DMK, LW9EAG, LU4ETN, LU6EPR, LU6DRD, LU7DSY, LU8DWR, LU8EBK, LU8ECF, LU8EBJ, LU8EXN and LU9ESD will be QRV as homecall/D on all bands. QSLs via LY7DSY.

HONDURAS, HR
Gerard,HR5/F2JD, will be active in SSB/CW on 160-6m between Dec 10 and
Mar 3, 2003. QSL via F6AJA.

JOHNSTON ISLAND, KH3, OC-023
Gary,KH6GMP, will stay on Johnston from Dec 11-17. Look for KH6GMP/KH3
in SSB, RTTY and PSK31. QSL via KH6GMP, bureau ok.

NORTH KOREA, P5
On Nov 22 the North Korean authorities asked Ed,P5/4L4FN, to cease his
amateur radio activities and dismantle his station.

PHILIPPINES, DU
Alan,K6ACZ/DU, will be QRV through December and plans to take part in
the ARRL 10m Contest as well. QSL via K6ACZ.

SOUTH SHETLAND ISLANDS, VP8/ss, AN-010
Starting on Dec 5 Lee,DS4CNB, is working at the South Korean research
base "King Sejong" on King George Island. He will be QRV either as
HL0KSJ or as D88S until Nov 30, 2003. QSL via DS4CNB.

ST MARTIN, FS, NA-105
Ann,W2AZK, Brian,KF2HC, Gene,K2KJI, Maryann,K2RVH, Bob,W5GJ, and Mike,WA2VUN, are on the air with two stations signing FS/homecalls
from Dec 4-11. They are planning to operate in CW/SSB/PSK31 on HF/6m.
QSLs via homecalls.

VIETNAM, XV3
Roi,JA1TAA, will be on the air as XV3TAA on 160-30m from Dec 12-20.
He will publish his logbook at http://www.asahi-net.or.jp/~kw2m-szk.
QSL direct only to Hiroshi Hotta, 4-12-53 Kameino, Fujisawa, 252-0813,
Japan.

ΣΠΥΡΟ ΓΕΙΑ ΣΟΥ

ΔΥΣΤΥΧΩΣ, ΜΕΡΙΚΕΣ ΦΟΡΕΣ ΤΑ WINDOWS ΕΧΟΥΝ ΑΠΡΟΒΛΕΠΤΗ ΣΥΜΠΕΡΙΦΟΡΑ. ΠΑΡΟΜΟΙΑ ΠΡΟΒΛΗΜΑΤΑ ΕΧΟΥΝ ΔΗΜΙΟΥΡΓΗΘΕΙ ΚΑΙ ΣΕ ΕΜΕΝΑ. ΑΝ ΚΑΙ ΤΑ '98 ΕΙΝΑΙ ΑΠΟ ΤΑ ΠΙΟ ΣΤΑΘΕΡΑ ΚΑΙ ΑΞΙΟΠΙΣΤΑ ΛΕΙΤΟΥΡΓΙΚΑ ΣΥΣΤΗΜΑΤΑ, ΜΕΡΙΚΕΣ ΦΟΡΕΣ ΣΥΜΠΕΡΙΦΕΡΟΝΤΑΙ ΠΕΡΙΕΡΓΑ ΜΕ ΔΙΑΦΟΡΕΣ ΜΗ-MICROSOFT ΕΦΑΡΜΟΓΕΣ. ΣΕ ΕΣΕΝΑ ΕΤΥΧΕ ΝΑ ΕΙΝΑΙ ΤΟ LOGGER.

ΑΥΤΟ ΔΗΜΙΟΥΡΓΕΙΤΑΙ ΑΠΟ ΤΗΝ ΕΜΜΟΝΗ ΤΗΣ ΚΑΤΑΣΚΕΥΑΣΤΡΙΑΣ ΕΤΑΙΡΙΑΣ (MICROSOFT) ΝΑ ΦΟΡΤΩΝΕΙ ΤΟ ΛΕΙΤΟΥΡΓΙΚΟ ΚΑΙ ΕΝ ΣΥΝΕΧΕΙΑ ΤΟΝ Η/Υ ΜΕ PROCESSES ΤΑ ΟΠΟΙΑ ΣΤΟΝ ΚΟΙΝΟ ΧΡΗΣΤΗ ΕΙΝΑΙ ΕΝΤΕΛΩΣ ΑΧΡΗΣΤΑ. ΣΥΝΕΠΕΙΑ ΑΥΤΟΥ ΕΙΝΑΙ ΤΟ ΛΕΓΟΜΕΝΟ 'ΓΟΝΑΤΙΣΜΑ' ΤΟΥ ΣΥΣΤΗΜΑΤΟΣ, ΟΠΟΤΕ, ΕΚΕΙ ΠΑΡΑΤΗΡΟΥΝΤΑΙ ΚΑΙ ΟΙ ΠΕΡΙΣΣΟΤΕΡΕΣ ΠΕΡΙΠΤΩΣΕΙΣ ΑΝΕΞΕΛΕΓΚΤΗΣ ΣΥΜΠΕΡΙΦΟΡΑΣ ΑΠΟ ΤΟ ΛΕΙΤΟΥΡΓΙΚΟ ΣΥΣΤΗΜΑ.

ΤΟ ΔΙΚΟ ΜΟΥ ΜΟΤΤΟ ΕΙΝΑΙ : 'LONG LIVE DOS, UNIX AND VMS-VME'
HI HI HI

ΤΟ LINUX ΕΧΕΙ ΑΚΟΜΑ ΠΟΛΛΑ ΧΙΛΙΟΜΕΤΡΑ ΜΠΡΟΣΤΑ ΤΟΥ ΓΙΑ ΝΑ ΑΠΟΔΕΙΧΘΕΙ ΑΞΙΟΠΙΣΤΟ, ΑΝ ΚΑΙ ΦΑΙΝΕΤΑΙ ΝΑ ΥΠΟΣΧΕΤΑΙ ΠΟΛΛΑ ΜΕ ΤΗΝ ΑΝΟΙΚΤΗ ΑΡΧΙΤΕΚΤΟΝΙΚΗ ΤΟΥ. ΕΙΔΟΜΕΝ...............

ΑΝ ΕΠΙΤΡΕΠΕΤΑΙ, ΜΟΥ ΛΕΣ ΓΙΑΤΙ ΕΚΑΝΕΣ FORMAT? ΚΑΙ ΕΑΝ ΗΤΑΝ LOW LEVEL Ή ΑΠΛΟ HARD DISK REFORMAT?

Γεια σου Μανώλη.
Ευχαριστώ για την απάντηση.
Ναι, το γνωρίζω για το νέο 32bit logger, αλλά είναι πολύ περίεργο διότι
έχοντας το ίδιο computer ,το ίδιο CD με τα windows 98SE και το ίδιο file
709logger.zip εν τούτοις παρουσαίζεται το φαινόμενο μα μην υπάρχουν
όλες οι
γραμματοσειρές στο window packet cluster με αποτέλεσμα τα spot του
cluster
να μην είναισε μια κανονική σειρά.
Τέλος όμως ας περιμένουμε.... το 32bit logger...

4W - Alan, VK4AAR reports that the 4W6AN activity from East Timor
[425DXN
606] has been postponed. Further information will be given
in due
course.
9N - Kiyo, JH3PAS will be active (on 6-160 metres SSB, CW, RTTY and
PSK-31)
as 9N7AS from Kathmandu, Nepal on 23-30 December. QSL via
home call,
either direct (Kiyotaka Ichikawa, 1-74-3 Issiki-Nishi
Hiraoka,

Kakogawa, 675-0117 Japan) or through the JARL bureau. [TNX
The Daily
DX]
CE - CA6TBB (Gladys), CE6AMN (Carlos), CE6TBN (Marco), CE6AKH
(Jaime),
XQ5SM (Fernando) and CE6NE (Mario) will be active as CE6M
from Mocha
Island (SA-061) on 15-18 January. They plan to operate
on 160-10
metres SSB and CW. QSL to P.O.Box 591, Temuco, Chile. [TNX
CE6NE]
CX - Look for CV1F to be aired from San Gabriel Island (SA-
057) and
Lighthouse (URU-025) on 10-13 January. QSL via EA5KB. [TNX
EA5KB]
G - As part of the "Lighthouse Christmas Lights 2002" event,
Anvil Point
Lighthouse (ENG-001) will be activated on 27-30 December.
Look for
GB2APL on 10-160 metres CW, SSB, RTTY and PSK31. QSL via
G0PSE either
direct or through the bureau (e-mail requests for bureau
cards are
welcome at g0pse@...). [TNX G0PSE]
G - Scout special event station GB2COS from the City of Chester
will be
active on most HF bands, but especially on 10, 15 and 20
metres, on
4-5 January in order to link up with the World Jamboree
Station in
Thailand [425DXN 605]. QSL via the bureau or direct to
G7BQY. [TNX
G7BQY]
JA - Look for Takeshi, JI3DST to be active (on 40, 17, 15, 12,
10 and 6
metres SSB) as JI3DST/6 from Miyako Island (AS-079) from
around 6 UTC
on 29 December to 00.00 UTC on 5 January. QSL via
home call,
preferably via the JARL bureau. [TNX JI3DST]
KH0 - Nozomu, JE8KKX will be active as AH2K/KH0 from Saipan (OC-
086) on
28-30 December. He plans to operate on 40-6 metres and to
concentrate
on RTTY. QSL via home call either direct (Nozomu
Takahashi, 2-5
5-chome 18-jo Toko, Asahikawa, Hokkaido, 078-8358 Japan) or
through
the JARL bureau. [TNX JE8KKX]
KP2 - Joe Pater, W8GEX and John Walker, WZ8D will be active as N8Z

from St.
Croix, Virgin Islands (NA-106) from 30 December to 8
January. They
will be at the QTH of WP2Z and will operate on 6-160 metres.
John will
will monitor 50.125 for the USA and 50.110 for Europe; if
the band
opens look for him on 50.122 CW or SSB. QSL direct to WZ8D.
[TNX WZ8D]
PY - A group of operators from LABRE-Pernambuco and the Guara DX
Group will
be active as PV7G, from Itamaraca Island (SA-046, DIB 18)
until 22
December. They plan to have to stations active on 80-10 metres
SSB, CW
and RTTY. QSL via PY7XC (Jemesson Faria, Rua Dhalia
228 AP401,
51020-290 Recife - PE, Brazil). [TNX PY7XC]
V6 - Bert, V73GOD will be active (mostly on 6, 10, 12 and 17 metres
SSB) as
V63USA from Kosrae Island (OC-059), Micronesia from 26
December until
1 January. QSL to P.O. Box 1480, APO AP 96555, USA. [TNX The
Daily DX]
VP8 - Martin, G3ZAY left England early this week on a 3-week trip
to the
Falklands, South Georgia, South Orkneys, South Shetlands and
Antarctic
Peninsula. The exact landing spots/bases will be determined by
weather
and ice conditions, but he may be heard from time to time
signing
VP8DFK. [TNX G3ZAY]
W - John, W2AGN will operate as W2C during the "Lighthouse
Christmas
Lights 2002" event. He plans to to be active between 14
UTC on 21
December to 19 UTC on the 22nd from Finn's Point Rear
Range Light
(USA-285), Salem County, NJ. QSL via W2AGN (John L.
Sielke, 1353
Samuel Dr, Vineland, NJ 08360, USA). [TNX VA3RJ]
W - Special event call K1D will be aired (on 28380, 21380, 14270
and 7230
kHz) between 21 December and 5 January to celebrate Kid's
Day (4
January) and Amateur Radio Awareness. The operators will
be Peter
(W1DAD) and Jeanne (K1MOM) Schipelliti. QSL via
W1DAD (Peter

Schipelliti, 7 Dearborn Ridge Rd, Atkinson, NH 03811,
USA). [TNX
W1DAD].
W - Steve, K2ZPF/p plans to be active (mainly on 17 and 20
metres) from
three Florida islands between 23 and 31 December. His prime
location
will be on St. George Island (NA-085, USI FL-007S), and he
will try to
operate also from St. Vincent Island (not IOTA, USI FL-006S)
and Dog
Island (not IOTA, USI FL-005S). QSL via home call, either
direct or
through the bureau. [TNX VA3RJ]
XU - Jaak Meier, ES1FB reports he will be active as
XU7ACE from
Shianoukville, Cambodia unitl 27 December. QSL via ES1FB
either direct
or through the bureau.
ZK3 - Atsu, 5W1SA is finally active as ZK3SA from Tokelau (OC-
048). His
original plans [425DXN 604] were to remain there for a
couple of
weeks. QSL via JH7OHF.
ZL - Steve, G4EDG will be active as ZL4/G4EDG from Stewart Island
(OC-203)
from 17 January for approximately four full days. He will run
100w and
operate CW only mostly on 20 metres. QSL via home call,
either direct
or through the bureau. [TNX ZL4HU]

**** GOOD TO KNOW ... ****
===========================
Edited by I1JQJ & IK1ADH

10 YEARS OF 9A ---> 2002 marks the 10th anniversary of allocation of the 9A
prefix to Croatia and the Croatian Amateur Radio Association sponsors a
special award (http://www.hamradio.hr/award.asp) for contacts made with 9A
stations between 5 July and 31 December. The first 97 awards have been mailed
and the deadline for applications, to be sent to
Denis, 9A3Z
(9a3z@...), is 31 March 2003. The 9A CW Contest, which is held this
weekend, is a good opportunity to work the award. [TNX 9A3Z]

40 METRES ---> John, NT5C, one of the more successful 40m SSB US DXers,
reminds non-US stations where to transmit on 40 meters in order to be heard
in the USA: "below 7100, most integral multiples of 5KHz (7050, 7055, 7065,
7085, etc) are 'owned' by nets and ragchewers in Central and South America
and Canada. The odds are much better for the DX if they get between those
integral 5KHz multiples. Good frequencies to try are 7047, 7052 and 7057,
which are above most of the CW, but below the RTTY."

KH6GMP/KH3 ---> Gary, KH6GMP ended up his activity from Johnston Atoll with
just a little less than 3000 QSOs. He lost his main antenna on 13 December
and had to go with a very low wire multiband that had been installed probably
many years ago and only 2 or 3 feet above the steel reinforced

concrete roof
of the building. By the way, The Daily DX reports that "the
building which
houses the radio station will be demolished in January and no
station nor
antennas will remain". [TNX YO3/DL4AAZ]

PIRATE ---> QRZ-DX reports that someone pirated 9S1X on 80
metres on 13
December. Patrick, 9Q1A and his wife Nicole, 9Q1YL are moving from
Kinshasa
to Matadi [425DXN 603] and expect to resume activity on the
amateur radio
bands in early January.

QSL HL1VAU ---> Han, HL1VAU is working on the QSL cards received
for his
HL1VAU/4 (AS-093, April 2002) and HL1VAU/3 (AS-080, July 2002)
operations and
hopes to process them all within the end of the year. Bureau
cards will
follow. He apologizes for the delay, due to circumstances beyond his
control.

QSL VY0/W2NTJ ---> As the QSL manager for VY0/W2NTJ's operations in
2000 and
2001, Cezar, VE3LYC has received a lot of inquiries regarding his
operations
in 2002. Jack did not contact VE3LYC before his departure to VY0,
and as of
19 December Cezar had received neither information nor logs
regarding these
activities. "I suggest for now that you restrain yourselves from
sending
direct QSL requests for contacts with him made this year", Cezar
says. [TNX
N1HRW]

QSL VIA DJ0LZ ---> Those who still need a QSL for YU1KW, YU1CV or
YU8DX can
send theirs to DJ0LZ, who also handles cards for Z32FD and UT1QK.
QSL direct
only to Ace Jevremov, P.O. Box 14, D-82378 Peissenberg, Germany. [TNX
DJ0LZ]

QSL VIA LU8VCC ---> Effective 1 January 2003 the new address for
LU8VCC (QSL
manager for LT5V) is: Alex Rocca, 217 Bis 1128, 8332 Roca,
Rio Negro,
Argentina. [TNX LU8VCC]

ZL1AMO ---> Judy, AA7UC reports that Ron's conditions are improving. His
tracheal tube has been removed and as a result he looks better, feels better
and can talk.

ΚΑΛΗΜΕΡΙΖΩ ΤΗΝ ΛΙΣΤΑ

ΤΑΣΟ ΚΑΛΗΜΕΡΑ

ΠΡΩΤΑ ΑΠ' ΟΛΑ ΤΟ ΜΗΝΥΜΑ ΣΟΥ ΔΕΝ ΗΛΘΕ ΟΛΟΚΛΗΡΟ.
ΠΑΝΩ ΠΟΥ ΓΙΝΟΤΑΝ ΠΟΛΥ ΕΝΔΙΑΦΕΡΟΝ..... ΠΑΠΑΛΑ.

ΩΠΑ... ΜΟΛΙΣ ΗΛΘΕ ΚΑΙ ΤΟ ΥΠΟΛΟΙΠΟ..

ΤΩΡΑ ΣΕ ΑΝΑΓΝΩΡΙΖΩ....

ΒΑΛΕ ΤΑ ΤΣΙΠΟΥΡΑ, ΒΑΖΩ ΤΙΣ ΤΣΙΠΟΥΡΕΣ.

ANYWAY, ΠΟΥ ΛΕΜΕ ΚΑΙ ΕΜΕΙΣ ΟΙ ΕΛΛΗΝΕΣ.

ΜΟΛΙΣ ΔΙΑΒΑΣΑ ΤΟ ΑΡΘΡΟ ΠΟΥ ΑΝΑΦΕΡΕΙΣ..

ΤΑΣΟ ΜΟΥ ΟΛΑ ΑΥΤΑ ΕΙΝΑΙ ΠΟΛΥ ΣΩΣΤΑ. ΔΕΝ ΒΛΕΠΩ ΟΜΩΣ (ΜΙΛΑΩ ΩΣ COMPUTER ENGINEER) ΤΗΝ ΣΧΕΣΗ ΠΟΥ ΕΧΟΥΝ ΟΙ ΤΥΠΟΠΟΙΗΜΕΝΕΣ ΨΗΦΙΑΚΕΣ, ΣΧΕΔΟΝ ΟΛΟΚΛΗΡΩΤΙΚΑ ΕΝΣΥΡΜΑΤΕΣ, ΔΙΑΣΥΝΔΕΣΕΙΣ ΤΟΥ ΔΙΑΔΙΚΤΥΟΥ, ΜΕ ΤΗΝ ΑΙΓΛΗ ΤΟΥ ΠΕΙΡΑΜΑΤΙΣΜΟΥ ΓΙΑ ΜΙΑ ΚΑΛΛΙΤΕΡΗ ΑΠΟΔΟΣΗ ΤΗΣ ΚΕΡΑΙΑΣ, ΓΙΑ INTEGRATION ΜΕΤΑΞΥ ΔΙΑΦΟΡΕΤΙΚΩΝ ΤΥΠΩΝ ΚΕΡΑΪΚΩΝ ΣΥΣΤΗΜΑΤΩΝ (ΜΙΑ ΚΑΙ ΤΑ ΚΑΙΝΟΥΡΙΑ ΜΗΧΑΝΗΜΑΤΑ ΔΕΝ ΜΑΣ ΔΙΝΟΥΝ ΚΑΙ ΠΟΛΛΕΣ ΔΥΝΑΤΟΤΗΤΕΣ ΝΑ «ΠΑΙΞΟΥΜΕ» ΜΕ ΑΥΤΑ) ΚΑΙ ΓΕΝΙΚΑ ΠΕΙΡΑΜΑΤΑ ΕΠΑΝΩ ΣΤΗΝ ΑΣΥΡΜΑΤΗ ΕΠΙΚΟΙΝΩΝΙΑ.

ΠΑΡΌΛΑ ΑΥΤΑ, ΤΟ INTEGRATION ΜΕΤΑΞΥ ΕΝΟΣ Η/Υ ΚΑΙ ΕΝΟΣ Π/Δ ΤΟ ΒΡΙΣΚΩ ΣΥΝΑΡΠΑΣΤΙΚΟΤΑΤΟ (ΓΡΑΦΗ ΠΡΩΤΟΚΟΛΛΟΥ ΕΠΙΚΟΙΝΩΝΙΑΣ, ΚΑΤΑΣΚΕΥΗ INTERFACE ΚΛΠ ΚΛΠ ΚΛΠ.).

ΑΥΤΟ, ΟΜΩΣ, ΤΟ ΟΠΟΙΟ ΔΕΝ ΒΡΙΣΚΩ ΣΥΝΑΡΠΑΣΤΙΚΟ ΕΙΝΑΙ ΤΟ ΝΑ ΠΑΤΑΣ ΤΟ PTT ΣΕ ΕΝΑ ΦΟΡΗΤΟ FM 5W, ΚΑΙ ΜΕ ΕΝΑ ΑΠΛΟ SETUP (ΤΟ ΟΠΟΙΟ ΕΝΔΕΧΕΤΑΙ ΝΑ ΣΤΟ ΕΧΕΙ ΚΑΝΕΙ ΚΑΙ ΚΑΠΟΙΟΣ ΑΛΛΟΣ, ΟΠΩΣ ΚΑΛΑ ΕΙΠΕΣ) ΝΑ ΜΙΛΑΣ ΜΕ ΤΗΝ ΑΛΛΗ ΑΚΡΗ ΤΟΥ ΚΟΣΜΟΥ, ΧΩΡΙΣ ΝΑ ΕΧΕΙΣ ΓΝΩΣΗ ΚΑΙ ΕΠΙΓΝΩΣΗ ΤΟΥ ΤΙ ΜΕΣΟΛΑΒΕΙ ΜΕΤΑΞΥ ΕΣΟΥ ΚΑΙ ΤΟΥ ΑΝΘΡΩΠΟΥ ΜΕ ΤΟΝ ΟΠΟΙΟ ΜΙΛΑΣ ΕΚΕΙΝΗ ΤΗΝ ΣΤΙΓΜΗ, ΚΑΙ ΝΑ ΑΙΣΘΑΝΕΣΑΙ ΠΩΣ ΕΚΕΙΝΗ ΤΗΝ ΣΤΙΓΜΗ ΕΧΕΙΣ ΚΑΝΕΙ ΕΝΑ QSO......

ΟΛΟΙ ΜΑΣ ΞΕΡΟΥΜΕ ΤΟ ΠΟΣΟ ΕΠΙΠΟΝΗ ΚΑΙ ΧΡΟΝΟΒΟΡΑ ΕΡΓΑΣΙΑ ΕΙΝΑΙ ΤΟ ΣΩΣΤΟ TUNING ΤΩΝ Π/Δ ΚΑΙ ΤΩΝ ΚΕΡΑΙΩΝ ΜΑΣ ΓΙΑ ΝΑ ΓΙΝΕΙ ΜΙΑ 'ΣΩΣΤΗ' ΕΠΑΦΗ ΜΕΤΑΞΥ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΩΝ ΟΙ ΟΠΟΙΟΙ ΒΡΙΣΚΟΝΤΑΙ ΔΙΑΦΟΡΕΤΙΚΑ ΜΕΡΗ ΤΟΥ ΚΟΣΜΟΥ Ο ΕΝΑΣ ΑΠΟ ΤΟΝ ΑΛΛΟΝ.

ΟΠΩΣ ΛΕΣ, ΟΝΤΩΣ, ΕΠΙ ΕΠΟΧΗΣ SSB ΚΑΙ CW, ΥΠΗΡΧΑΝ ΠΟΛΛΟΙ ΣΥΝΑΔΕΛΦΟΙ ΟΙ ΟΠΟΙΟΙ ΗΤΑΝ ΜΟΝΟΝ ΧΕΙΡΙΣΤΕΣ. ΟΜΩΣ, ΤΟ ΝΑ ΧΕΙΡΙΣΤΕΙΣ ΤΟΝ Π/Δ, ΤΟ ANTENNA TUNER (ΕΚΕΙΝΗ ΤΗΝ ΕΠΟΧΗ ΥΠΗΡΧΑΝ ΛΙΓΟΣΤΑ ΑΥΤΟΜΑΤΑ) ΚΑΙ ΤΟ KEYER, ΕΙΝΑΙ ΚΑΠΩΣ ΔΙΑΦΟΡΕΤΙΚΟ ΑΠΟ ΤΟ ΝΑ ΧΕΙΡΙΣΤΕΙΣ ΤΟ PTT ΕΝΟΣ 5W FM PORTABLE Π/Δ ΚΑΙ ΑΥΤΟΜΑΤΑ ΝΑ ΜΙΛΗΣΕΙΣ ΜΕ CALIFORNIA.

ΔΕΝ ΘΕΛΩ ΝΑ ΠΑΡΕΞΗΓΗΘΩ ΚΑΙ ΝΑ ΜΕ ΕΚΛΑΒΕΤΕ ΩΣ ΟΠΙΣΘΟΔΡΟΜΙΚΟ. ΟΠΩΣ ΞΕΡΕΙΣ, ΤΑΣΟ, ΗΜΟΥΝ ΑΠΟ ΤΟΥΣ ΠΡΩΤΟΥΣ ΕΛΛΗΝΕΣ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΕΣ ΠΟΥ ΕΝΣΩΜΑΤΩΣΑΝ ΤΟ APRS ΣΤΗΝ ΔΡΑΣΤΗΡΙΟΤΗΤΑ ΤΟΥΣ, ΟΠΩΣ ΞΕΡΕΙΣ ΚΑΙ ΤΗΝ ΣΥΝΕΙΣΦΟΡΑ ΜΟΥ ΣΤΙΣ ΟΕΑ (ΑΣΧΕΤΑ ΕΑΝ ΔΕΝ ΑΣΧΟΛΟΥΜΑΙ ΠΛΕΟΝ ΓΙΑ ΕΝΤΕΛΩΣ ΠΡΟΣΩΠΙΚΟΥΣ ΛΟΓΟΥΣ)

ΑΡΚΕΤΑ, ΟΜΩΣ, ΣΑΣ ΖΑΛΙΣΑ.

ΤΑΣΟ ΘΑ ΤΑ ΠΟΥΜΕ ΚΑΙ ΣΤΑ 600, 900, 1800 ΚΑΙ ΟΠΟΥ ΑΛΛΟΥ ΒΡΕΘΟΥΜΕ.

ΚΑΛΕΣ ΓΙΟΡΤΕΣ ΣΕ ΟΛΟΥΣ

73s de

Subject: RE: [The Greek Ham Radio] Re. Link

Τον Δεκέμβριο του 1993 γράψαμε ένα γράμμα με τον Κώστα sv1xv που δημοσιεύτηκε στο περιοδικό της ΕΕΡ (SVNEWS) σχετικό με το θέμα. Το άρθρο αυτό δημοσιεύεται στην σελίδα http://w4u.eexi.gr/~sv1rd/inet_ham.txt και φυσικά είναι ξεπερασμένο μετά από 9 χρόνια.

Η αίσθηση μη πληρότητας είναι προφανής, όσο η επικοινωνία γίνεται ποιο έμμεσα (τεχνικά) και όχι δια ζώσης (visavi δηλ Ελληνικά) και οι ψυχολόγοι
λένε κατά καιρούς πολλά για το θέμα στα οποία δεν θέλω να προσθέσω τα δικά
μου.

Παρόλα αυτά σαν ραδιοερασιτέχνες νομίζω, δεν έχουμε σκοπό να λύσουμε τα ψυχολογικά προβλήματα του πλανήτη (προς το παρόν τουλάχιστον), αλλά να πειραματιστούμε με νέες μορφές επικοινωνίας και νέες τεχνολογίες.

Δεν είναι πειραματισμός να διασυνδέεις διαφορετικές τεχνολογίες και ειδικότερα τον παραδοσιακό αναλογικό τρόπο ασύρματης επικοινωνίας μέσα από
ένα ψηφιακό δίκτυο?
Δεν είναι πειραματισμός να διασυνδέεις ασύρματα ψηφιακά δίκτυα μέσα από ένα
επίγειο ψηφιακό δίκτυο όπως κάναμε παλιά στο Amprnet και τώρα στο APRS?
Δεν είναι πειραματισμός να ψάχνεις να εφευρίσκεις και να χρησιμοποιείς νέους
τρόπους επικοινωνίας?

Θα προσθέσει βέβαια κάποιος, ότι όταν έχεις έτοιμο το D7 ή το computer σου
και ένας φίλος στα συνδέσει ή ξεκινάς με ένα φορητούλι για να μιλήσεις με
όλο τον κόσμο, εσύ είσαι απλός χειριστής τι παίρνεις από όλα αυτά, τι εμπειρίες τι γνώσεις.

Αλλά εγώ θα αντιτείνω ότι και την εποχή που οι μόνες ραδιοερασιτεχνικές επικοινωνίες γινόντουσαν με cw ή ssb υπήρχαν πολλοί συνάδελφοι που άλλοι τους κολλούσαν μέχρι και τους κονέκτορες στην κεραία δηλαδή πάλι ήταν χειριστές.

Ο σωστός ραδιοερασιτέχνης, κατά την γνώμη μου, είναι ο άνθρωπος που και πειραματίζεται και ερευνά. Ετσι μόνο θα έχει την γνώση του πως επικοινωνεί,
και δεν θα είναι απλός χειριστής, ανεξάρτητα από το mode ή τον τρόπο επικοινωνίας.

Για αυτό τον λόγο, είναι μεγάλη (ακόμα) η συμβολή μας σε περιπτώσεις έκτακτης ανάγκης, γιατί είμαστε σε μεγάλο βαθμό και χειριστές και "γνώστες"
και "τεχνικοί" του θέματος της επικοινωνίας. Κάτι που σε επαγγελματικά δίκτυα είναι δύσκολο.

Τώρα φίλε μου Μανώλη αν θες επικοινωνία με πληρότητα, να έρθεις μια μέρα στην Ραφήνα (και αφού ρίξεις τα απαραίτητα δολώματα) να βάλουμε κάτω ένα τσιπουράκι να το κανονίσουμε. Για τους εχθρούς του οινοπνεύματος έχουμε και
καλό καφέ και εξαιρετικό τσάι.

Πολλά 73 σε όλους Τάσος SV1RD

> ΕΠΙΚΟΙΝΩΝΙΑ.

Μανώλη ?ου η κάθε εποχή έχει τα δικά της, παλιά ένα αυτοκίνητο , ?ε ελλάχιστες γνώσεις, ?πορούσες να το διαλύσεις ?ίδα ?ίδα και να το ξαναφτιάξεις, τώρα τα πράγ?ατα έχουν γίνει πολύπλοκα, έτσι και στις επικοινωνίες. Αν και κατά την γνώ?η ?ου, δεν υπάρχουν αρκετά περιθώρια νέας γνώσης στα συστή?ατα εκπο?πής και λήψης, όλος ο σα?ατάς τώρα στα παρελκό?ενα που έχουν να κάνουν ?ε αυτο?ατισ?ούς και σύνθεση αναλογικών και ψηφιακών τεχνολογιών. Εν τούτοις και σε ε?ένα αρέσει ο παλιός κλασικός τρόπος επικοινωνίας, και σή?ερα είναι κάτι που ούτως ή άλλως πρέπει να τον ξέρεις εκτός αν όλη η δραστηριότητα των ραδιοερασιτεχνών είναι ? ένα φορητό πο?ποδέκτη.

> ΕΧΕΙΣ ΚΑΝΕΙ ΕΝΑ QSO................

Φο?ά?αι ότι ξαναρχό?αστε στην εποχή της Βα?έλ. Δυστυχώς υπάρχουν συνάδελφοι που νο?ίζουν ότι ο ραδιοερασιτεχνισ?ός είναι η χρήση κάποιων ραδιοσυσκευών και τα γνωστά καφενεία που ?ιλά?ε ?ε κάποιους φίλους. Υπάρχουν άλλοι που θα σου πουν ότι ο ραδιοερασιτέχνης είναι πειρα?ατιστής κλπ κλπ αλλά η δραστηριότητα τους ?άλλον προς στην προηγού?ενη κατηγορία κλείνει.

Αρα εί?αστε αναγκασ?ένοι να ξαναγυρίσου?ε στους ορισ?ούς, για να δού?ε τι ση?αίνει τελικά ραδιοερασιτέχνης. Γιατί η ITU και όλες οι χώρες του κόσ?ου, ?ας έχουν παραχωρήσει ?εγάλο κο??άτι από το πολύτι?ο πλέον φάσ?α ραδιοσυχνοτήτων να χρησι?οποιού?ε, για να ?ιλά?ε άραγε ?εταξύ ?ας και να συζητά?ε για τον καιρό στον τοπικό ή ?ακρινό επαναλήπτη; ή ?ήπως για αλλάζου?ε reports (ok man 5 9 next call please)

Δεν αποποιού?αι την χρησι?ότητα της ανταλλαγής wx report ή συ?ετοχή σε contests κλπ αλλά ο ραδιοερασιτέχνης κατά την γνώ?η ?ου είναι κάτι περισσότερο. Αν ?η τι άλλο αδικείται να είναι ?όνο αυτό.

> ΜΕΡΗ ΤΟΥ ΚΟΣΜΟΥ Ο ΕΝΑΣ ΑΠΟ ΤΟΝ ΑΛΛΟΝ.

Πόσο ?άλλον η επικοινωνία να γίνεται σε mode που δεν ?εσολα?εί το ανθρώπινο αυτί και θα πρέπει να συνδέσεις ψηφιακές συσκευές επιπλέον.

> ΟΠΩΣ ΛΕΣ, ΟΝΤΩΣ, ΕΠΙ ΕΠΟΧΗΣ SSB ΚΑΙ CW, ΥΠΗΡΧΑΝ ΠΟΛΛΟΙ ΣΥΝΑΔΕΛΦΟΙ ΟΙ ΟΠΟΙΟΙ ΗΤΑΝ ΜΟΝΟΝ ΧΕΙΡΙΣΤΕΣ.
> ΟΜΩΣ, ΤΟ ΝΑ ΧΕΙΡΙΣΤΕΙΣ ΤΟΝ Π/Δ, ΤΟ ΑΝΤΕΝΝΑ TUNER (ΕΚΕΙΝΗ ΤΗΝ ΕΠΟΧΗ ΥΠΗΡΧΑΝ ΛΙΓΟΣΤΑ ΑΥΤΟΜΑΤΑ) ΚΑΙ ΤΟ
> KEYER, ΕΙΝΑΙ ΚΑΠΩΣ ΔΙΑΦΟΡΕΤΙΚΟ ΑΠΟ ΤΟ ΝΑ ΧΕΙΡΙΣΤΕΙΣ ΤΟ PTT ΕΝΟΣ 5W FM PORTABLE Π/Δ ΚΑΙ ΑΥΤΟΜΑΤΑ ΝΑ
> ΜΙΛΗΣΕΙΣ ΜΕ CALIFORNIA.

Ανάλογα την εποχή . Το 80-82 που ξεκίνησα να ασχολού?αι, ήδη κυκλοφορούσαν τα ic-725, 730 και άλλα και αν ρύθ?ιζες τα δίπολά σου αρχικά, δεν χρειαζόσουν τίποτα άλλο, εκτός από το να επιλέξεις συχνότητα, και να πατήσεις το press. (Τότε γνώρισα "συνάδελφο" που ακό?α και τους κονέκτορες του, τους κόλλαγε φίλος του.)

> ΔΕΝ ΘΕΛΩ ΝΑ ΠΑΡΕΞΗΓΗΘΩ ΚΑΙ ΝΑ ΜΕ ΕΚΛΑΒΕΤΕ ΩΣ ΟΠΙΣΘΟΔΡΟΜΙΚΟ. ΟΠΩΣ ΞΕΡΕΙΣ, ΤΑΣΟ, ΗΜΟΥΝ ΑΠΟ ΤΟΥΣ
> ΠΡΩΤΟΥΣ ΕΛΛΗΝΕΣ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΕΣ ΠΟΥ ΕΝΣΩΜΑΤΩΣΑΝ ΤΟ APRS ΣΤΗΝ ΔΡΑΣΤΗΡΙΟΤΗΤΑ ΤΟΥΣ, ΟΠΩΣ ΞΕΡΕΙΣ

> ΚΑΙ ΤΗΝ ΣΥΝΕΙΣΦΟΡΑ ΜΟΥ ΣΤΙΣ ΟΕΑ (ΑΣΧΕΤΑ ΕΑΝ ΔΕΝ ΑΣΧΟΛΟΥΜΑΙ ΠΛΕΟΝ ΓΙΑ ΕΝΤΕΛΩΣ ΠΡΟΣΩΠΙΚΟΥΣ ΛΟΓΟΥΣ)

Ούτε εγώ σαν λάτρης της τεχνολογίας. Εί?αστε ίσως η τελευταία γενιά που γνωρίσα?ε την τεχνολογία αυτή από την αρχή της και όλες τις ?εταλλαγές της ?έχρι σή?ερα και αισθάνο?αι τυχερός, οι επό?ενες γενιές που γεννιούνται ?έσα στα έτοι?α ψηφιακά ?πλη?πλήκια , θα τους είναι δύσκολο (ήδη συ??αίνει αυτό) να κατανοήσουν τι υπάρχει από πίσω και την λογική της τεχνολογίας που υπάρχει ?έσα τους. Προσωπικά (επειδή φο?ά?αι τα emergency) πιστεύω ότι όσο εξαρτό?αστε από ποιό πολύπλοκες συσκευές και εξαρτό?αστε απο παροχείς υπηρεσιών για ότιδήποτε κάνου?ε (ΟΤΕ, ΔΕΗ, κινητά, Internet) τόσο οι πιθανότητες για emergency είναι ?εγαλύτερες. Θυ?άστε τότε που ένα εργοστάσιο ?ε ?νή?ες στην Ιαπωνία κάηκε, που για 6 ?ήνες οι τι?ές στις ?νή?ες Η/Υ πήραν "φωτιά";
Αλλο ένα κακό της άκρατης αυτής ε?πορευ?ατικοποίησης και επι?ολής ολο και καινούργιων και πιό πολύπλοκων συσκευών είναι η εξαφάνιση ηλεκτρονικών εξαρτη?άτων απο τα ?αγαζιά. Υπάρχει ?εγάλη δυσκολία να ?ρεις από transistors έως και απλά διοδάκια Zener.

Αλλο παράδειγ?α στην δουλειά ?ου, κάποτε είχα?ε απλές γρα??ές SDLC , που ξεκινούσαν από τον mainframe (στο qrl ?ου) και πήγαιναν σε κάθε κατάστη?α και ?εσολα?ούσαν 2 modems. Όταν ?ία γρα??ή είχε πρό?λη?α αυτό φαινόταν οπτικά από τα λα?πάκια του modem , και ?άζοντας ?ια τάση 4v στην γρα??ή αυτή καθάριζε, ειδάλλως αναλά??ανε ο ΟΤΕ την επισκευή της, το κάθε κατάστη?α είχε και ένα ups οπότε οι πιθανότητες ?λά?ης ήταν ελάχιστες, τώρα οι γρα??ές ?εν ?ειώθηκαν λόγω της συγκέντρωσης πολλών καταστη?άτων πίσω από κό??ους, αλλά έχουν ?πει επιπλέον routers, switches, hubs, ψηφιακές γρα??ές Hellascom και ένα σωρό άλλα συ?πράγκαλα και τώρα οι πιθανότητες ?λά?ης τελικά είναι περισσότερες, αν σκεφτείς πόσες συσκευές ?εσολα?ούν επιπλέον από τα 2 αρχικά modems, την πληθώρα των γρα??ών που ?εσολα?ούν και την επάρκεια αδιάλειπτου ρεύ?ατος σε όλα τα ?εσολα?ούντα κέντρα και ση?εία ακό?α και του ΟΤΕ. Βάλε και την πληθώρα εφαρ?ογών που τρέχουν, συν την πληθώρα εργαλείων ελέγχου , καταλα?αίνει κανείς ότι οτιδήποτε από όλα αυτά να κτυπήσει τότε έχου?ε πρό?λη?α.
Από την άλλη έχου?ε ?εγαλύτερες δυνατότητες για περισσότερες εφα?ρογές Internet, mail κλπ και περιορισ?ένο κόστος γρα??ών κάτι δίνεις κάτι παίρνεις δηλαδή.

Το θέ?α είναι οτι προς τα εκεί κατευθυνό?αστε είτε το θέλου?ε ή όχι, άρα θα πρέπει να γίνει σωστά και να γνωρίζου?ε τι κάνου?ε και όχι να εί?αστε operators που χρησι?οποιούν ?αύρα κουτιά.

Τελικά τι είναι Ραδιοερασιτέχνης?

Πολλά 73 Τάσος

****

>>> 425 DX NEWS MAGAZINE, INDEX & SURVEY <<<

The 425 DX News monthly edition (December issue) and the 425 DX
News Index
for 2002 can be downloaded in either .pdf or .doc
formats at
http://www.425dxn.org
The deadline for the 425 DX News DXCC Most Wanted Survey is 6
January 2003.
If you want to participate, please go to
http://www.425dxn.org/surv2003/

3C - Alan, G3XAQ reports he will be visiting Malabo,
Bioco Island
(AF-010), Equatorial Guinea on 9-21 January and expects to
operate
on 160-10 metres, with an emphasis on the low bands CW.
Callsign

3C5XA has been requested. QSL direct to G3XAQ.
9G - Arno, DL1CW and Andy, DL3GA plan to be active from Ghana on 5-18
February. Requested calls are 9G5AP (DL1CW) and 9G5GA (DL3GA); they
will operate on 10-80 metres (hopefully on 6 metres as well) CW,
RTTY and some SSB. Participation in the WPX RTTY and ARRL DX CW
Contests is also being planned. [TNX DL3GA]
C6 - Bill, KM1E (C6AGN) will be active on 160-6 metres from the Bahamas
from 4 January to 4 March. QSL via W1DIG. [TNX The Daily DX]
D4 - Al, 4L5A will participate in the following contests as D4B from Cape
Verde:
CQ 160 Meter CW 24-26 January single operator
ARRL International DX CW 15-16 February SOAB HP or single band
CQ 160 Meter SSB 21-23 February single operator
ARRL International DX SSB 1-2 March SOAB HP or single band
Further information at http://www.qsl.net/d44tt [TNX NG3K]
DU - Chris, VK3FY/DU8 has been on Mindanao (OC-130) since 26 December and
planned to be active on and off from an island in OC-235 as of 1
January for some ten days. Day operations will be from 8 to 18 local
time, but there is a possibility of an overnight stay. Due to a
sensitive local situation, this operation could be terminated
without notice. QSL via EA7JX. The Contact Point for further
information is Stuie, VK8NSB (vk8nsb@...). [TNX OPDX
Bulletin]
F - Fabrice/F5NBQ, Bertrand/F6HKA and Jean-Louis/F5UJK will be active as
F5NBQ/P from Oleron Island (EU-032) on 25-27 January, including an
entry in the CQ WW 160 Meter CW DX Contest. [TNX The Daily DX]
HC - Andy Stchislenok, NP3D will be active (on all HF bands plus 6 metres
SSB and CW) as HC1/NP3D from Ecuador on 22-27 January, including an
entry in the CQ 160 Meter CW Contest. QSL via W3HNK. [TNX NG3K]

HI - John, F5VHQ (ex OE5TGL) will operate (on 40-10 metres SSB) as
F5VHQ/HI9 from the Dominican Republic (NA-096) on 16-24 January. QSL
via home call either direct or through the bureau. [TNX F5VHQ]
HR - Wayne, K9YNF reports he will be active as K9YNF/HR9 from Roatan
Island (NA-057) on 11-18 January. He will operate SSB only on 14260,
18128, 24950, 28460 and 28560 +/- QRM. QSL via home call either
direct or through the bureau.
JD1_og - Fukushige, JM6DZB will be working on Iwo Jima (AS-030), Ogasawara
Islands until the end of 2003. He plans to operate as JM6DZB/JD1 on
80, 40 and 15 metres SSB during his free time. QSL via home call,
preferably through the bureau. [TNX JI3DST]
UA - Eugene, UA4HUR will be celebrating the new year as UE4HNY until 15
January. QSL via home call (Eugene Vihanov, P.O. Box 1228,
Togliatti, 445032, Russia). [TNX RU4HP]
UT - Special event station EM60USB will be active from 23 January through
2 February to commemorate the 60th anniversary of the Battle of
Stalingrad. QSL via UT5UKY either direct (Vladimir Prikhodko, P.O.
Box 54, Kiev 04213, Ukraine) or through the bureau. [TNX UT5UKY]
V3 - Art Phillips, NN7A, will operate as V31JZ/p from South Water Caye
(NA-180), Belize on 17-20 January. NA-180 was activated for the
first time by Art himself and Mike Sharp, NG7S/V31RL back in
February, 1993. This will be a part-time one-person operation with
100 watts, vertical and wire antennas. Art will operate mostly CW on
40-10 metres, WARC bands included, with some 80m and 160m. Some SSB
on 20 and 15 metres is possible, conditions permitting. QSL via NN7A
either direct (Art Phillips, P.O. Box 201, Flagstaff, AZ 86002, USA)
or through the bureau. [TNX NN7A]

V3 - Gisela, DK9GG and Gerd, DJ4KW will be active (CW and SSB)
as V31GW
and V31YN from Belize from 9 January until 25
February. On 8
February thry will be joined by Frank, DL2SWW and Gabi,
DG2TM (V3
calls not known) and the four plan to operate from NA-073
on 21-23
February. QSL via home calls. [TNX DL2VFR]
VE - Gerald/VE2ACP, Gervais/VE2UE and Steve/VE2TKH will be
active from
Zone 2 on 14-17 January. Gerald and Gervais plan to
operate as
VO2UE, while Steve expects to use either VE2TKH/VO2 or, if
he gets
it in time, VO2ZT. This will be a generator and battery
operation,
with a G5RV and vertical antennas on most HF bands, mostly
SSB with
some CW. QSL VO2UE via VE2ACP, QSL VE2TKH/VO2 (or VO2ZT) via
VE2TKH.
Further information will be available at
http://www.qsl.net/ve2tkh
[TNX NG3K]
VP6 - Ed, W2SN reports he will operate as VP6EM from
Pitcairn Island
(OC-044) on 4 February, between 17.00 and 23.59 UTC, on
10, 15
and/or 20 metres SSB, depending on propagation. QSL via home
call.
VP6_duc- JR2KDN, FO3BM, VP6AZ, VP6DB, VP6MW and other operators
from Japan
expect to be active (on 10-160 metres CW, SSB and RTTY)
from Ducie
Island (OC-182) for one week starting around 8 March. [TNX
The Daily
DX]
VR2 - Terry, VE7TLL plans to operate as VR2/VE7TLL from
Lantau Island
(AS-006), Hong Kong between 30 January and 10 February. This
is not
a DXpedition, but he will try to be as active as possible
on the
usual IOTA frequencies. [TNX VE7TLL]
W - The Marconi Radio Club (W1AA) and the Marconi Cape Cod
Memorial
Radio Club (KM1CC) will operate a special event station
on 11-19
January to celebrate the 100th anniversary of Guglielmo
Marconi's

first wireless transmission between the United States and
Europe.
Operations will take place from the former Coast Guard
station at
Coast Guard Beach in Eastham, Massachusetts, from near the
site of
the original Marconi 1903 station. For
details see
http://personal.tmlp.com/k1vv/w1aa [TNX K1VV]
W - Look for Bob, W2SF/p to be active (on SSB, CW and RTTY)
from Lower
Matecumbe Key (USI FL-062S) in the Florida Keys (NA-062)
until June.
QSL via home call, either direct or through the bureau. [TNX
VA3RJ]
ZK2 - Bert, PA3GIO will be active as ZK2GI from Niue Island (OC-
040) on
approximately 18-26 January. He will operate SSB only with
100 watts
and a Doublet antenna. QSL via PA3GIO, preferably through
the bureau
(e-mail requests for bureau cards are welcome at
qsl@..., no
attachments and no eQSLs please). Direct QSLs to Bert
vd Berg,
Parklaan 38, NL-3931 KK Woudenberg, The Netherlands. The
web pages
for the operation are at
http://www.pa3gio.nl/ZK2GI/ and
http://www.qsl.net/pa3gio/ZK2GI/ [TNX PA3GIO]
ZL - Bert, PA3GIO will be active as ZL1/PA3GIO/p from
Waiheke Island
(OC-201) on 10 January only. QSL via PA3GIO, preferably
through the
bureau (e-mail requests for bureau cards are
welcome at
qsl@..., no attachments and no eQSLs please). The
web pages
for the operation are at
http://www.pa3gio.nl/ZL/ and
http://www.qsl.net/pa3gio/ZL/ [TNX PA3GIO]
ZS - Members of the Vaal Triangle ARC will operate as ZS90SAP on
80, 40,
20, 10 and 6 metres through 31 December to celebrate
the 90th
anniversary of the South African Police Service. QSL via
bureau or
direct to ZS6ZYM (Jan Swanepoel, P.O. Box 14393,
Zuurfontein 1912,
South Africa). [TNX OPDX Bulletin]

235. sad news :-(

Yahoo group: thegreekhamradio
Date: 2003-01-05 23:37:21 UTC
From: sxanthop
Topic: 235 Message: 235

From: SV1CIB@...
To : NEWS@GRC

The following very sad news comes from Roger Balister, G3KMA, RSGB
IOTA=
Manager:

Dear All

It is with deep regret that I have to report that Victor Rusinov,
UT8LL died=
in the plane crash on Monday 23 December near Esfahan, while on a
business=
trip to Iran. This sad news breaking over the holiday period turned
our joy=
into sorrow for the loss of one who had become a very dear friend to
Gill=
and to me.

Victor travelled extensively round the world for his work, in recent
years=
making regular visits to the UK. He visited Chobham every few
months, most=
recently in November following his operation from Qeys (Kish) Island
as=
EP6KI. Over the years Victor was a keen supporter of the IOTA
programme, in=
earlier days as UB5LGM and more recently as UT8LL. He helped his
Ukrainian=
team-mates put on operations, in many cases first-time operations,
from=
EU-119 (4K3MI), AS-005 (4K4D), AS-086 (4K4I), AS-039 (EZ0Z), AS-104
(4K4N),=
the Black Sea island groups EU-179, 180 and 182 (EM5UIA), as well
as, of=
course, just a few weeks ago AS-166 (EP6KI). During his visits to
Chobham=
he was always discussing possibilities for "the next operation" with
boyish=
enthusiasm although his frenetically busy business schedule was
often to=
frustrate these plans. Even so he managed to find time to take off
more=
than just two or three days to participate in the very successful
D68C=
operation in 2001 from the Comoros. During this and his regular=

participation in the RSGB HF and IOTA Conventions at Windsor he developed a=
wide circle of friends in the UK to add to his many friends in the IOTA=
community and, of course, in his native Ukraine.

Victor was a man with a big heart, a huge sense of humour, and great charm.=
With this went real generosity - for the IOTA Programme we shall always be=
grateful for the financial contribution he made to fund an ongoing=
programme of annual trophies. And Victor was a "doer" - he made things=
happen as people who have been with him on expeditions will know.

Recent years were not easy. Victor and his wife, Valentina, experienced=
great personal sadness with the death of their only son while undergoing=
training in the UK. The loss now of Victor himself must be doubly sad for=
his family and dear ones. Our hearts go out to them.

Τα υπόλοιπα δύσκολα ποια είναι?
Από ότι θυμάμαι, η ΕΡΒΕ δεν έκανε ούτε μία πρόταση για την διαμόρφωση του καινούριου νόμου, παρά τις επανειλημμένες προσκλήσεις της ΕΕΡ.
Θα ήθελα, όμως, να μου γνωστοποιήσεις τους λόγους για τους οποίους λες πως
τα "πράγματα" είναι πολύ "διαφορετικά".
Τουλάχιστον οι υπόλοιποι, οι οποίοι εκφέρουν γνώμη, έχουν βάλει έστω και ένα λιθαράκι στην προσπάθεια διαμόρφωσης της καινούριας νομοθεσίας, και ας μην ακούστηκαν, τελικά, οι γνώμες τους.
Το να κρίνεις αποτελέσματα είναι εύκολο. Το να διαμορφώνεις εξελίξεις, έστω και κατά το ελάχιστο δυνατό, είναι αυτό το οποίο διαχωρίζει τον μαχητή από τον θεατή.
Δεν θέλω να παρεξηγηθώ, η παρούσα προσπάθεια (το group) είναι κάτι το οποίο έλειπε από τον Ελληνικό ραδιοερασιτεχνισμό και είναι, αν μη τι άλλο, ένα βήμα από το οποίο όλες οι φωνές ακούγονται.
Άλλο φωνή όμως, και άλλο κριτική χωρίς εμπεριστατωμένο λόγο, μόνο και μόνο για να έχουμε κάτι να πούμε.

Όλη η ιστορία με εξέταση στο μορσικό αλφάβητο στα 25 γράμματα το λεπτό είναι άδικη και χαμένη προσπάθεια. Σκεφτείτε τι κόπος χρειάζεται μετά για να πάει κανείς στην κανονική ταχύτητα των 100 - 125 γραμμάτων ή στα 150+ που χρειάζονται για DX. Μακάρι σύντομα να καταργηθεί το μορς τελείως και όποιος θέλει να το μαθαίνει σωστά αρχίζοντας από τα 60 γράμματα.

Όσο για τις προτάσεις της ΕΡΒΕ, από τη μια πλευρά είναι λυπηρό ότι μόνο 4 σύλλογοι υπέβαλαν προτάσεις. Από την άλλη όμως, ίσως κατάλαβαν ότι το παιχνίδι ήταν ψιλοστημένο και τους γύρισαν την πλάτη. Εγώ προσωπικά αισθάνομαι βλάκας που μπήκα στον κόπο να στείλω τις προτάσεις μου για να καταλήξουν στο καλάθι των αχρήστων.

Καλυνύχτα

Κώστας

P.S. Όσοι περιμένετε κάρτα QSL από το SZ8LH, ήδη ο SV8DTD τις ταχυδρόμησε.

Οπωσδήποτε οι εξετάσεις δεν είναι γιά _κάθε_ δωδεκάχρονο, αλλά για όποιον έχει τη σχετική υποστήριξη μέσα από την οικογένειά του. Ακόμα και για τους μεγάλους υπάρχει δυσκολία λόγω ελείψεως κατάλληλων βοηθημάτων.

Το εύρος των θεμάτων είναι μεγάλο αλλά το βάθος που θα ζητηθούν στην πράξη είναι ακόμα άγνωστο. Πάντως θα πρέπει να ξεχωρίζουν οι διαβασμένοι από τους "περαστικούς" χωρίς το μπαμπούλα του Morse (*).

Οι διάφοροι σύλλογοι θα πρέπει να εκδώσουν τώρα βοηθήματα μελέτης για τη νέα ύλη. Η Ε.Ε.Ρ. κάτι είχε κάνει παλιά, πρέπει βέβαια να το αναπροσαρμόσει.

73 Κώστας SV1XV

(*) Υπόψιν ότι στη νέα WARC θα τεθεί θέμα απαλοιφής της απαίτησης για γνώση μορσικής τηλεγραφίας από τους ραδιορασιτέχνες. Σχεδόν όλες οι μεγάλες χώρες είναι υπέρ της πρότασης, εκτός από τη Ρωσία που θέλει διατήρηση του Morse. Αν αποφασισθεί η κατάργηση στην ITU, μάλλον θα τροποποιηθεί και το σύστημα των ελληνικών εξετάσεων.

Καλημέρα σε όλους.

Ποτέ δεν είπα πως η θεωρία ή κάτι άλλο είναι εύκολα. Στο κάτω-κάτω, το hobby μας είναι οι ραδιοτηλεπικοινωνίες. Αυτό σημαίνει πως για να σου δώσει το κράτος άδεια ραδιοερασιτέχνη, πρέπει να αποδείξεις πως είσαι ικανός να ασκήσεις την συγκεκριμένη ασχολία με ασφάλεια προς εσένα και άλλους (μην ξεχνάμε πως οι τηλεπικοινωνίες άπτονται της εθνικής ασφαλείας, της αεροπλοήγησης κλπ.), και πως έχεις υποτυπώδεις γνώσεις όσον αφορά στη λειτουργία των μηχανημάτων τα οποία χρησιμοποιείς. Ουδείς είπε πως η γνώση, την οποία αποκτάς διαβάζοντας για τις εξετάσεις, είναι πανεπιστημιακού επιπέδου, ή πως για να περάσεις τις εξετάσεις, πρέπει οι γνώσεις σου να είναι του επιπέδου ενός ηλεκτρολόγου μηχανικού.

Όσον αφορά στο 12χρονο παιδί, δεν έχω αποφασίσει ακόμα εάν συμφωνώ στο να δίνεται άδεια σε ένα παιδί το οποίο δεν έχει αναπτύξει ακόμη κριτική σκέψη, δεν έχει ακόμη διαμορφώσει άποψη πάνω στα τεκταινόμενα, το οποίο όταν του κάνεις την ερώτηση "γιατί θέλεις να γίνεις ραδιοερασιτέχνης" θα σου απαντήσει με την αφέλεια η οποία διακρίνει την ηλικία του, και που στο 99% των περιπτώσεων δεν μπορεί να αφομοιώσει τις γνώσεις οι οποίες είναι αναγκαίες για να ασχοληθεί με τον ραδιοερασιτεχνισμό, καταστώντας εαυτό επικίνδυνο για την ασφάλεια του ιδίου και άλλων.

Από ότι κατάλαβες, δεν υπερασπίζομαι ούτε την ΕΕΡ ούτε προσπαθώ να δυσφημίσω την ΕΡΒΕ. Απλά είπα πως δεν υπήρξε καμία πρόταση από την ΕΡΒΕ όσον αφορά στη διαμόρφωση του συγκεκριμένου νόμου, αν και υπήρξαν επανειλημμένες προσκλήσεις προς όλους τους φορείς από την ΕΕΡ.

Τέλος, σίγουρα, ο νόμος δεν είναι τέλειος. Είναι, όμως, πιο πλήρης από τους παλαιοτέρους.

[ EVRT™ Virus Warning issued for <http://support.centralcommand.com/cgi-bin/command.cfg/ph
p/enduser/std_adp.php?p_refno=030125-000006> W32/SQLSlammer ]

Complete description can be read online by <http://support.centralcommand.com/cgi-bin/comm
and.cfg/php/enduser/std_adp.php?p_refno=030125-000006> clicking here

Details:

Name: <http://support.centralcommand.com/cgi-bin/command.cfg/php/enduser/std_adp.php?p_ref
no=030125-000006> W32/SQLSlammer
Alias: SQL.Slammer
Type: Worm
Discovered: January 25, 2003
Home users: LOW RISK
Corporate users: HIGH RISK

Description:
```

<http://support.centralcommand.com/cgi-bin/command.cfg/php/enduser/std_adp.php?p_refno=030125-000006> W32/SQLSlammer is a fileless worm that targets Microsoft SQL 2000 servers. If a vulnerable server is found, W32/Slammer installs itself into memory and does not write a file to the hard disk. An exploited server will then create traffic on UDP port 1434. To correct and fix an affected server an administrator will have to apply the necessary patch to avoid re-infection and reboot the server.

This worm can generate massive IP traffic to effect the quality of service of the network.

Microsoft has issued a patch which protects users against this vulnerability. It can be downloaded from here:

281. Logbook of the World

Yahoo group: thegreekhamradio
Date: 2003-01-27 06:19:29 UTC
From: Costas Krallis SV1XV
Topic: 281 Message: 281

From Ohio/Penn DX Bulletin #596

LIMITED "LOGBOOK OF THE WORLD" TESTING IS A HIT, states the ARRL Letter (Vol. 22, No. 04) dated January 24, 2003. An excerpt from the "ARRL Letter" states: "The long-anticipated "Logbook of the World" (LoTW)--the ARRL's secure electronic contact-confirmation system--took a major leap toward public release this month with several weeks of limited-- or "alpha" -- testing.

Dozens of Amateur Radio operators checked out a preliminary version of the LoTW software, which is still under development. Once it's ready, LoTW will provide a means for participants to qualify for awards such as DXCC or WAS without having to first collect hard-copy QSL cards.

LoTW beta testing for the general Amateur Radio public is expected to begin soon. The ARRL has not announced a specific inauguration date for Logbook of the World. To read the complete press release, go to the ARRL Web page at: http://www.arrl.org

FROM THE 425 DX-NEWS
QSP DE SV1XV

>>> AH3D <<<

The following announcement comes from Bernie McClenny, W3UR, Editor of The Daily DX:

The U.S. Environmental Protection Agency (EPA) has approved a plan to permanently close a chemical weapons disposal facility on Johnston Island. After the completion of the cleanup facility on Johnston Island is expected to close soon and an administration change will soon put the U.S. Fish and Wildlife Service (FWS) in charge of the overall operations of this U.S. territory. Future DXpeditions to Johnston Island, KH3, may be much more difficult.

On top of all of this the Johnston Island Club station KJ6BZ will be dismantled. Finnish operators OH2BH, Martti Laine, and OH2PM, Pertti Simovaara, along with DX editor W3UR, Bernie McClenny have obtained special permission to visit, document and operate from the club station for one week and just before the demolition, which is scheduled just days after the operation.

In the spirit of "cleanup," the ham radio team is going to do its best to "clean up the demand" for KH3 for Europe, low bands and WARC bands. The AH3D crew will also "tidy up" on 6 meters and RTTY. The all band CW, SSB and RTTY operation is scheduled to take place from January 27 to February 4.

The group will use proven sanitation materials, and the recently launched DXpedition grade Yaesu FT-857 and FT-897 radios with multiple amplifiers. They will use a variety of antennas to spray their signals across the airwaves including a TH11, 3-element 10 meter beam, duo bander for 12 and 17 meters and various wires for the low bands.

To help manage the cleanup K6GNX, Dr. Bill Avery, will step in as the team's pilot station. He will act as a point person to relay news between the operating crew and the DX community. Bill can be reached via e-mail to bavery@....

This may very well be the last big sweep from Johnston Island for a long time. Those wishing to fill their needed list should monitor the following frequencies:

CW 1827.5, 3506, 7006, 10106, 14024, 18075, 21024, 24895, 28024, 50105
SSB 3795, 7082, 14195, 18145, 21295, 24945, 28495, 50105
RTTY 14085 or 21085

QSL via OH2BH, 2003 Johnston Atoll DXpedition, P.O. Box 73, 02380 Espoo, Finland.

FROM THE 425 DX-NEWS
QSP DE SV1XV

>>> AH3D <<<

The following announcement comes from Bernie McClenny, W3UR, Editor of
The
Daily DX:

The U.S. Environmental Protection Agency (EPA) has approved a
plan to
permanently close a chemical weapons disposal facility on Johnston
Island.
After the completion of the cleanup facility on Johnston Island is
expected
to close soon and an administration change will soon put the U.S. Fish
and
Wildlife Service (FWS) in charge of the overall operations of this
U.S.
territory. Future DXpeditions to Johnston Island, KH3, may be much
more
difficult.

On top of all of this the Johnston Island Club station KJ6BZ
will be
dismantled. Finnish operators OH2BH, Martti Laine, and OH2PM,
Pertti
Simovaara, along with DX editor W3UR, Bernie McClenny have obtained
special
permission to visit, document and operate from the club station for one
week
and just before the demolition, which is scheduled just days after

the
operation.

In the spirit of "cleanup," the ham radio team is going to do its
best to
"clean up the demand" for KH3 for Europe, low bands and WARC bands. The
AH3D
crew will also "tidy up" on 6 meters and RTTY. The all band CW, SSB and
RTTY
operation is scheduled to take place from January 27 to February 4.

The group will use proven sanitation materials, and the recently
launched
DXpedition grade Yaesu FT-857 and FT-897 radios with multiple
amplifiers.
They will use a variety of antennas to spray their signals across
the
airwaves including a TH11, 3-element 10 meter beam, duo bander for 12
and 17
meters and various wires for the low bands.

To help manage the cleanup K6GNX, Dr. Bill Avery, will step in as the
team's
pilot station. He will act as a point person to relay news between
the
operating crew and the DX community. Bill can be reached via
e-mail to
bavery@....

This may very well be the last big sweep from Johnston Island for a
long
time. Those wishing to fill their needed list should monitor the
following
frequencies:

CW 1827.5, 3506, 7006, 10106, 14024, 18075, 21024, 24895, 28024, 50105
SSB 3795, 7082, 14195, 18145, 21295, 24945, 28495, 50105
RTTY 14085 or 21085

QSL via OH2BH, 2003 Johnston Atoll DXpedition, P.O. Box 73, 02380

Subject: [The Greek Ham Radio] SX1R - RTTY WPX operation

Γειά σας και πάλι - στο RTTY WPX contest το ερχόμενο
σαββατοκύριακο 8-9/2/2003 θα χρησιμοποιήσω το διακριτικό
κλήσεως SX1R. Το ίδιο διακριτικό θα χρησιμοποιήσω και
στα άλλα 2 WPX contests (SSB Μαρτίου και CW Μαίου).

Οπως με ενημέρωσαν από το Υπουργείο, το SW1R που είχα
πάρει παλιότερα δεν το δίνουν πλέον, μια και τα SW
είναι για τις νέες άδειες κατηγορίας 2.

Θα προσπαθήσω να κάνω QSO με ελληνικούς σταθμούς στους
3.5 και 7 MHz.

Καλησπέρα σε όλους,

Έστειλα ένα σύντομο μύνημα στο radiomagazine.com και επίσης στο 5-9 Report (online magazine) για ενημέρωση προς περισσότερους ραδιοερασιτέχνες για αυτή την προσπάθεια που γίνεται εδώ έτσι ώστε να βρισκόμαστε όλοι μαζί για να συζητούμε για τα διάφορα του hobbie μας.
Ελπίζω αυτή η προσπάθεια να βρει ανταπόκριση και απο άλλους συναδέλφους...

```
73 de SV2EVS - "Moderator"
```

Υ.Γ Σας ευχαριστώ θερμά όλους για την υποστίρηξη αυτής της προσπάθειας...

Περιμένουμε τώρα να δούμε τι έκαναν οι φίλοι μας από την Ηπειρο - SX6A. Χάρηκα που σε πέτυχα στα 80 m, το QSO δεν μετράει για μένα βέβαια, αφού ήμουν SOSB/15, αλλά ελπίζω να άξιζε το multiplier SX1.

Καλό ταξίδι

73 Κώστας SV1XV (SX1R in WPX contest)

6Y - John, K3TEJ will be active (on 10-160 metres CW) as
6Y5/K3TEJ from
Jamaica (NA-097) on 11-18 February. He will participate in
the ARRL
DX CW Contest as 6Y0T. QSLs via K3TEJ. [TNX OPDX Bulletin]
9V - John Davies, 9V1VV is quite active (CW only) from
Singapore. He
prefers 80, 40 and 30 metres and his operating hours are
14 UTC to
about 22 UTC. John would welcome more QSOs with
Europe. QSL
information is at qrz.com [TNX 9V1VV]
CE - Atacama Desert DX Group operators CA2WUI, XQ1ZW,
XQ1IDM, CE1URH,
CE1VLY, CE1RQB and CE1FLS will be active as 3G1P from Pan
de Azucar
(SA-085) on 14-17 March. They will operate on 6-160 metres
SSB, CW,

PSK31, RTTY and maybe SSTV. QSL via XQ1IDM (Nicolas Herrera
G., P.O.
Box 345, Antofagasta, Chile). A web page is under
construction at
http://www.qsl.net/3g1p [TNX XQ1IDM]
CE0_eas- Ralph, K0HML will be active (mainly on 20 metres SSB, with
some 17,
15 and 10 metres) as CE0Y/K0HML from Easter Island (SA-0019
on 11-14
February. QSL via home call. [TNX ARRL DX Bulletin]
CO - The following nine special event stations will be
activated on all
bands and modes by the Federacion de Radioaficionados de
Cuba (FRC)
to celebrate the 150th anniversary of the birth of Cuban
national
hero Jose Marti: CO0J (8-9 February), CO0O (8-9 March),
CO0S (11-13
April), CO0E (10-11 May), CO0M (14-15 June), CO0A (12-13
July), CO0R
(9-10 August), CO0T (13-14 September), CO0I (11-12
October). All
QSOs will be confirmed automtically via bureau. A special
award will
be issued to those who will work all of the nine
stations. [TNX
CO2QQ]
D4 - UA3TT will participate in the CQ/RJ WW WPX RTTY
Contest (8-9
February) as D44AC (SOSB - 10 metres, LP) from the
D44TT/D4B contest
station. QSL via RW3TN. [TNX NG3K]
FG - Marco, IK1ACX reports he will be active (on 10, 12, 15,
17, 20 and
40 metres) as FG/IK1ACX from Guadeloupe on 12-23 February.
FM - Ed, AJ6V will be active as FM5BH from Martinique (NA-107)
on 11-18
February, includin a SOAB entry in the ARRL DX CW
Contest. Before
and after the contest he will concentrate on SSB. QSL
via W3HNK.
[TNX OPDX Bulletin]
HP - Jean-Michel, F6AJA from "Les Nouvelles DX reports that
Joel, F5PAC
is returning to Panama from 23 February until 24 March.
He will
operate from a few IOTA groups as follows:
25-27 February NA-170 11-12 March NA-071
03-05 March NA-202 15-16 March NA-203
08-09 March NA-088 19-20 March NA-072

His web site is at http://www.qsl.net/f5pac
KG4 - Don W4ZYT/KG4ZK, Chuck N8CH/KG4NW, Gordon KU4EC/KG4EC, and Chet
N6ZO/KG4ZO will be active from Guantanamo on 11-19 February,
including an entry in the ARRL DX CW Contest as KG4DZ (QSL via
W4SD). [TNX QRZ-DX]
KH2 - Yuki/JH1NBN, Kaoru/JA3MCA and Kai/JE3NJZ will be active on 160-6
metres CW, SSB and digital modes from Guam (OC-026) on 13-17
February. The calls will be K3ZB/KH2 (QSL via JH1NBN), W3MCA/KH2
(QSL via JA3MCA) and N3JZ/KH2 (QSL via JE3NJZ). [TNX JA1ELY]
OZ - OZ0J, OZ2KL and OZ1ETA will participate in the ARRL DX CW Contest as
OZ0Q (Multi-Single HP). QSL via bureau or direct. Web page at
http://www.oz7ham.dk [TNX OZ0J]
PJ4 - K2NG, K2TW, NO2R will participate in the ARRL DX CW Contest (15-16
February) as PJ4G (Multi-Single) from Bonaire (SA-006). QSL via
WA2NHA. They will be active on all bands also before and after the
contest. [TNX OPDX Bulletin]
VP5 - Look for VP5/K3LP, VP5/WX3B, VP5/N3SB and VP5/N7DD to be active (on
160-10 metres CW, SSB and Satellite) from North Caicos (NA-002) on
12-19 February. They will participate in the ARRL CW DX Contest as
VP5LP. QSL direct only via N4ZH. [TNX The Daily DX]
XT - Fred, G4BWP is due to leave for Burkina Faso on 10 February to
operate with his XT2WP call during the ARRL DX CW Contest (SOSB 15
metres). Time permitting beforehand he will be QRV from 11 February
on 30, 17 and 12 metres CW, as well as on 6 metres. He expects to
QRT on 17 February. QSL via G4BWP. [TNX The Golist]
ZS - Phil/G3SWH, David/G3UNA, Vidi/ZS1EL, Kosie/ZS1SR, Malcolm/ZS1MC,
Andrew/ZS1AN and Hester/ZS1ESU will be active as ZS1RBN from
Robben Island (AF-064) on 4-7 April. They plan to have two
stations active 24 hours a day on 10-40 metres SSB and CW.

QSL via
G3SWH, either direct (Phil Whitchurch, 21
Dickensons Grove,
Congresbury, Bristol BS49 5HQ, England) or through the
RSGB bureau.
[TNX G3SWH]

**** GOOD TO KNOW ... ****
===========================
Edited by I1JQJ & IK1ADH

AH3D ---> The three operators were due to leave the island at 23 UTC on 4
February. Their schedule was to shut down around 19 UTC, but they went off
the air at about 12 UTC, packed up gear and antennas, and after six hours of
sleep got back on the air using the equipment at the local amateur radio
club. They were able to operate until almost 00 UTC, when they were told the
airplane was ready to board. AH3D made a total of 28,808 QSOs (17744 SSB,
10295 CW, 769 RTTY) in six days of operating. [TNX The Daily DX]

CELTIC CONNECTIONS ---> The GMDX Group introduces "Celtic Connections" to
encourage activity by all radio amateurs worldwide to contact areas with
Celtic origins: Galicia and Asturias (Spain), Ireland, Brittany (France),
Cornwall (England), Isle of Man, Northern Ireland, Scotland, Wales and Nova
Scotia (Canada). This "activity weekend" is to be held on the third weekend
in April each year (in 2003 it will start 00:00 UTC on 19 April and last
until 24.00 UTC on the 20th). Reports on activity are welcome and
certificates of participation will be awarded to anyone who submits a report.
Further details from GM3YOR (Drew Givens, 5 Langhouse Place, Inverkip, PA16
0EW, Scotland, UK) or from the GMDX Group web site (http://www.gmdx.org.uk).
[TNX GM3YOR]

DXCC HONOR ROLL ---> In order to appear in the next list, that will appear in
August 2003 QST, you must be current on the DXCC Honor Roll as of 31 March
2003. Applications must be received, or postmarked, 31 March. With the
addition of Ducie Island in 2002, the minimum number of entities required is
326, and these include only current entities. Deleted entities do not count
towards Honor Roll. For Number One Honor Roll, the total is 335 current
entities.

NEW AWARD ---> The GMDX Group announces the new "Celtic Knot Award" for
working stations in lands generally agreed to be those of the Celtic peoples,
namely Scotland (GM), Northern Ireland (GI), Ireland (EI), Isle of Man (GD),
Wales (GW), Cornwall (G), Brittany (F), Galicia and Asturias (EA1) and to
celebrate its Scottish heritage, Nova Scotia (VE1). The GMDX Group sponsors
also the "Worked All Scottish Prefix Award", which is available to licenced
amateurs and SWLs for confirmed/heard contacts with radio amateur stations
located in Scotland. Requirements and further information are available from
the GMDX Group web site (http://www.gmdx.org.uk). [TNX GM3YOR]

NOT THE MANAGER ---> Gary, NM7G has not been manager for James, Z21CA for a
decade. "I have received no logs since 1992", he says. "James is now 9J2CA
and has no manager to my knowledge".

PIRATE ---> OD5CM, who has been active for several months on 160 and 80
metres CW, appears to be a pirate. RAL President OD5CN states that this call
"belongs to John Turner, an American who left Lebanon 35 years ago". [TNX
OE-1002419]

QSL 6W#/F8IXZ ---> Jean-Marc, F8IXZ reports that all of the 6W1/F8IXZ and
6W4/F8IXZ direct cards were sent out between 31 January and 3 February. The
remaining QSOs have been confirmed automatically through the bureau.

Jean-Marc logged 1350 QSOs during his trip to Senegal in December 2003.

QSL FW8FP ---> The QSL cards are expected to arrive from the printer this
coming week and Bill, VK4FW will start processing the requests immediately.
All mail received has been put in date order and will be answered the same.
Please do not send second cards. [TNX VK4FW]

QSL HK6PSG ---> Due to the cost of the mail in Colombia, all QSL cards
(direct and bureau) for Luis, HK6PSG should be sent to his QSL manager,
EA5OL. [TNX HK6PSG]

QSL K1B (SSB) ---> "I completely understand the problems that many of you are
having getting the SSB K1B QSL cards", Roman Thomas, RZ3AA says.
"Unfortunately the mail situation in my country certainly has room for
improvement. In hindsight it was probably not a good choice to use a Russian
QSL address". Roman and Dave, K4SV (ex KW4DA, a K1B team member) have now
arranged for a QSL manager in North America to handle K1B SSB QSL cards. Send
your QSL card, plus SAE and return postage (SASE for US stations) (1 USD
preferred, 1 large IRC accepted) to K4YL (ex W4SMG): Stephen M. Grose, P.O.
Box 183, Flat Rock, North Carolina 28731-0183, USA (e-mail
K4YL@...). All cards will be processed in the order they are
received and depending on the demand, some delay might result if additional
cards have to be printed. Please note that this QSL route is for DIRECT SSB
CARDS ONLY: bureau cards still go to RZ3AA, while CW and Digital requests are
still to be sent to YT1AD. [TNX K4SV]

QSL KL7J & VY1JA ---> As of 1 February 2003, Kim Larson, daughter of N3SL, is
the QSL manager for "J", VY1JA and Les, KL7J. She is handling all of the
VY1JA cards EXCEPT for Japan, which remain with Akio, JA3JM. QSL direct or

bureau. QSLs for KL7J are via direct ONLY. The address is Kim
Larson, 22 N
Hidden Acres Dr, Sioux City, IA 51108, USA. The logs of both of
these active
stations, al well as QSL instructions, can be
found at
http://www.qsl.net/n3sl/manager.htm [TNX N3SL]

QSL ZL7C ---> "Please be patient regarding the issue of ZL7C QSL
cards", Ken
Holdom, ZL4HU says. The cards have been received and Ken is working
on them.
Do not send 2nd QSL requests, as they cause further delays in
processing.

QSL MANAGER OFFERED ---> Peppe Gerace, IZ8EBI is willing to act
as a QSL
manager for one or more stations. His web site
is at
http://space.virgilio.it/iz8ebi@.../ and he can be
contacted at
iz8ebi@...

S.I.A. ---> The Sicilian Islands Award (SIA) is sponsored by ARI
Siracusa
(http://siracusanet.it/arisiracusa) and is available to either
licenced
amateurs and SWLs. Further information is available from the
Award Manager
Salvo Costantino, IT9HLR (e-mail it9hlr@...)

From: sxanthop
Topic: 315 Message: 315

From: DL6KAC @ DB0KOE.#NRW.DEU.EU (Christian)
To: DXNEWS @ WW

The Kermadec Dx Association wishes to announce the the blank QSL
cards for
the Chatham Islands DXpedition which took place in October 2002
arrived in
New Zealand on the 27th January. The cards were provided courtesy of
Vertex Standard (formerly Yaesu, Japan) who have been one of our
major
sponsors for many years.

With the almost 5000 envelopes containing many thousands of QSO's
received
to date we have begun processing these cards and we expect this
process to
continue for approximately another 2 - 3 weeks.

We have already noticed that there is a significant number (in
excess of
100 to date) that do not contain Self Addressed Envelopes OR return
postage. These cards WILL be sent via the bureau with a suitable
notation.

To those who sent more than the minimal number of IRC's or
greenstamps we
thank you for your support which will be used offset some of our
expenses.

We hope to have all incoming cards answered within the next two
weeks and
we will be doing a BULK mail out by ECOMOMY POST on 1 March 2003.
Please
be patient and await the arrival of your cards If by the end of
April you
do not have your cards then may we suggest that this is an
appropriate time
to consider whether to send a 2nd request.

All second requests received before the 1 May will not be answered
until
all cards have been filed When filing is complete a check will be
made to
see if the first requests have been answered. As it will be some
weeks
after the 1st May before all our cards are sorted please do not ask

if we
have received your cards in the interim.

Incoming bureau cards along with those that did not include return
addressed envelopes or return postage will be processed when time
permits.

To all those who used our previous Wellington Addresses I cannot
guarantee
that we will have received your cards.

Please feel free to pass the above information on by whatever means
to as
many others as possible.

Finally, we have enjoyed your company to make ZL7C yet another very
successfull Kermadec DX Association DXpedition. With our three
DXpeditions
to date we have put in excess of 200,000 QSO's in the logs of many
fellow
hams and we are delighted to have provided new ones for some of you.

Please note that any replies to this message should be direct and
not via
the reflectors.

Kind Regards and good Dxing

THE BEST QNEWS YOU'LL GET ALL WEEK

QNEWS 24/7 with the following bulletin in Audio Segment One
when you visit the QNEWS NEWSROOM on www.wia.org.au/vk4

NATIONAL NEWS
WIA FEDERAL PRESIDENT IS ERNEST HOCKING VK1LK
president@...

Keith VK4TT will be operating the Queensland Divisions entry in the
upcomming BERU or "Commonwealth Contest".
Look out for institute call VK4WIA for those "extra points" March 8-
9

Chris Flak VK2CF Bookshop Manager of VK2 advises us that the
2003 Callbooks have arrived at the WIA NSW office!

The DXCC Certificate has "achievement labels" that can be readily
attached.
Those that have achieved a greater Country total than 100 can now
apply
for special achievement rewards that increment from 100 in steps of
25.

Announcing this this week, Federal WIA Awards Chairman Malcolm
Johnson VK6LC
said " These have been designed to be placed neatly along the
bottom
edge of the DXCC certificate.

"Free" DXCC smart achievement labels can be requested via the
Federal
Awards Manager with a stamped address envelope, they are issued only
once to a single certificate.

The complete story, as announced this week is on the QNEWS website
at www.wia.org.au/vk4 just click the RED link.

ACA NEWS
www.aca.gov.au
WIA ACA LIAISON OFFICERS are VK1GH, VK1ZKM, VK2BPN, VK4DU

ACA have added a new spectrum embargo to R-A-L-I MS3.
Embargo 35 prohibits assignments to new services in the frequency band
418.0875-420 MHz.
The purpose of this embargo is to reduce the further use of this band
in Victoria by other communications users, in anticipation of it being
required to support a public safety mobile radio initiative.
(audio by vk4bat)

CSIRO NEWS
SATELLITE ECOLOGY
Advances in Satellite technology have made the ecologist's task of keeping
an eye on our landscape much easier. They can look at more area and in
more detail.
CSIRO's Vanessa Chewings explains to Wes Turnbull.

CSIRO AUDIO REPORT

Details from 13 0036 3400
(audio vk4fuq/csiro)

EDUCATION
THE WIA FEDERAL EDUCATION OFFICER IS RON SMITH VK4AGS.
VK2DQ Ron Bertrands Internet course is on the web at
http://www.radioelectronicschool.com
Morse Training Transmission 3699 kHz on air 24 hours a day.

This is Ronnee Meachen VK4CO with a word to the young.... and not so young.

"How to Make Ham Radio More Kid Friendly" is the topic that Amateur Radio Newsline has chosen for this years Ham Radio Town Meeting and they are looking for some younger hams who might want to take part.

"The Town Meeting is held each May at the Dayton Hamvention. This years Hamvention theme is the "Year of the Young" and planners tell
QNEWS that the three day show will focus on the young ham and on bringing 12 to 18 year olds into amateur radio.

Its no secret that recruiting youngsters into the hobby is getting
harder and harder. Keeping most of them is all but impossible.
There is organized sports. There are those numerous after school activities. And lets not forget the lure of the World Wide Web with
its license free ham-radio like chat rooms. All of this makes it a

real challenge to get youngsters licensed and keep them
interested."

If you are a young ham planning to attend Hamvention 2003 and would like 10 minutes to present your ideas, drop ARNewsLine an e-mail. newsline@...

Back here in VK, if you're a ham radio operator involved in education,
then Matt Ryan V-K-2-K-V-E would like to hear from you.

Matt is setting up a national (and international) list of schools able to participate in amateur radio activities.

He is looking at ways that amateur radio can service the needs
of the various primary and secondary syllabi (the sciences & geography in
particular) and would, at this stage, like to make contact with as many
schools as possible which have the capability for amateur radio through
either a teacher at the school or a local mentor.

If you're a teacher operator (or know of one) and would like to get your
classes involved in national and international contacts with other students
please send an email to mjaryan@.... You'll receive a short
questionnaire to email back, and you'll be providing your students with a
most unique opportunity to become involved with their peers in stimulating,
interesting and unique educational activities.
(VK2KVE/VK2WI/arnewsline/audio vk4co)

INTRUDER WATCH - ENFORCEMENT ZONE

Chris VK2UW in Tweed Heads with the IARUMS report...

Our Region III IARUMS Coordinator is Arasu, V-U-2-U-R
and I-A-R-U Monitoring System International Coordinator, Robert Z-L-1-B-A-D.

Region 1: The MS Report of Region can now be found at:
http://www.iarums.com
Reports of intrusions from Iran, China, Eritrea and Russia were logged
by OM Pekka of Finland MSC; OM Dick PA5GN commented on the wobbling
jammers and beacons on 40 metres, USKA (Switzerland) reported
310 Morse transmissions on 14320 kHz. VoBM from
Eritrea and the Single Letter Russian Beacons were heard all over too.

Remember all intruders should be reported to the IARUMS team ASAP.

INTERNATIONAL

ITU
WIA ITU Conference Group CONSISTS OF VK1GH, VK1ZKM, VK3ADW, VK3APM

HARMONIZED 7 MHz ALLOCATION GAINS SUPPORT IN THE AMERICAS
A dozen countries in the Americas have agreed to support a proposal for a
"harmonized" 300-kHz amateur band in the vicinity of 7 MHz. The issue of a
uniform worldwide 40-meter allocation is on the agenda of the World
Radiocommunication Conference 2003 (WRC-03), set to be held in Geneva this
June and July.

Argentina, Canada, Colombia, Costa Rica, Dominican Republic, El Salvador,
Guatemala, Honduras, Mexico, Paraguay, Peru and Venezuela agreed to the
Canadian-sponsored IAP for a 300-kHz amateur band--from 7 to 7.3 MHz--in
all three ITU radio regions. That position is in line with what the
International Amateur Radio Union (IARU) has been calling for.
(AUDIO VK4BAT / sourced from arrl letter)

NEW ZEALAND - ZL - TECHNOLOGY CONVENTION.
This Easter, April 19th & 20th, Technology Convention will be hosted by
the Hamilton Amateur Radio Club in the Hamilton Astronomical Society,
adjacent to the Hamilton Zoo and has plenty of parking.
If the weather permits, some viewing of the night sky from the

optical telescope.
It is planned to have forums and presentations on such subjects as microwave equipment construction, homebrew test equipment, APRS, 10 GHz ATV, plus others state of the art Amateur radio disciplines.

If you have any enquires about the Technology Convention, or visiting ZL
from overseas, write to:
Technology Convention 2003
PO Box 606
Hamilton
Or email Gavin Petrie at gavinwp@...

JOHNSON ATOLL - KJ6 - QRT
Bert KJ6BZ {V73GOD} on the Pacific Inter Island Net, was to be the last contact with the Johnston Island Amateur Radio Club.
Last contact at 0825 hrs Zulu on 14.315 mhz.

Final contacts were made with Frank K-H-6-C-D-O, John K-H-7-H-J and Chris VK2UW

The Airforce has closed down Johnston Island and demolition will start shortly on the remaining buildings.
The history of the Amateur Radio Club will be held in the archives of the Airforce.

There will be probably DXpeditions to the island later but not under
the call of KJ6BZ.

This is a sad time in the history of amateur radio but will be part of our history of Amateur Radio.
We thank Bert V73GOD for giving us the oportunity of being the last to make contact with KJ6BZ
(Chris VK2UW)

SINGAPORE - 9V - UHF APPROVAL
iDA have approved the following UHF spot frequencies for Amateurs in
Singapore.

433.425MHz, 433.450MHz and 438.450 MHz. Maximum power 5 watts erp.

The SARTS UHF repeater should soon be in action Input (Rx) is 433.425 MHz
and output 438.425MHz (Tx).

Contact Ian, 9V1WD for more information, email
ian9v1wd@...

TURKEY
Sergei Rebrov, M0SDX, the Ukrainian international footballer who moved

to Tottenham Hotspur in an 11-million deal in 2000, has moved to
Turkish side Fenerbahçe.

Sergei, whose Ukrainian callsign is UT5UDX, is a keen HF contester
and
has been very active as M0SDX from his home in Essex and from other
locations in the British Isles over the last two years.

He is now in the process of obtaining a Turkish callsign.
(audio g4njh - gb2rs news reader)

FINLAND - OH - BEACON STOLEN
Martin Harrison, G3USF, the IARU Region 1 HF Beacon Coordinator,
writes
that users of the five-band NCDXF network will have noticed the
absence
in recent weeks of transmissions from the Finnish beacon, OH2B.

RSGB news reports it is now learned that the transmitter was stolen
some time ago. It is expected that transmissions will resume in the
European spring.

The beacons in South Africa and Peru are also off the air at
present,
while signals from the Siberian beacon remain garbled.
(audio g4njh - gb2rs news reader)

UNITED KINGDOM - PHONE HOME AND FREE
A press release from the Department of Trade and Industry on the
18th of
February, gives the results of a new study of the emissions from
mobile
phone masts.

The Government study examined mobile phone masts at 109 sites
across the UK:
The study showed that readings ranged from hundreds to millions of
times
below international guidelines.

The Government announced it will continue the study of masts in
2003.

Telecoms Minister Stephen Timms said: "We are aware of public
concerns
and it is important to give the public the information they need.
These
results continue to show that exposure levels of the public are well
below recommended limits."

The exposure limits are set by the International Commission for
Non-Ionizing Radiation Protection.

SPECIAL EVENTS
* denotes new on calender

MARCH 6-9
V-I-3-G-P callsign for the 2003 Australian Grand Prix

EMDRC will be once again activating the special commemerative station
VI-3-G-P. Listen out for V-I-3-G-P on the bands, give them a contact
and you'll secure yourself a unique commerative QSL card.

A roster is currently being drawn up with planned operating frequencies,
so listen out and we will give you updates as the event draws closer.

* TILL MARCH 14
The replica of Captain Cook's ship Endeavour is undergoing a major refit
in Cardiff until the 14th of March.
Members of the Barry Amateur Radio Society are operating special event
station GB0CCE, standing for 'Captain Cook's Endeavour', each weekend
until mid-March.

Operation will be mainly on the HF bands. For further details contact
Brian Brown, GW0PUP.
(AUDIO - G4NJH THE RSGB NEWS READER)

* MARCH 15 - 17
EI Activity Day 2003
All EI stations are asked to make a special effort to get on the air
for their annual EI Activity Day which this year is a three-day event,
to be held from Saturday March 15th to Monday 17th inclusive.

EI stations are still in great demand by stations trying complete
their Worked EI Counties Award and many overseas stations are also
collecting Worked All Ireland Squares.

* MARCH 23RD ENDS *
Dennis Green zs4bs@... tells us of the ZS Cricket
World Cup.

The Oakdale Amateur Radio Club in Cape Town has been granted a
special event call sign for the CRICKET WORLD CUP being played
in the
Republic of South Africa.

The call sign is ZS03CWC and ise operating on all bands
80 m to 10 m until the 23 March 2003.

QSL's can be sent to ZS03CWC, PO Box 2132 Bellville 7535 for
ZS stations and via ZS1AU on QRZ.COM for DX stations.

* MARCH 29
Saturday March 29 - commemorating the 25th anniversary of the
release
of the movie "Run Silent, Run Deep" which featured Clark Gable,
Burt Lancaster, USS Redfish, and USS Kidd.
The USS Kidd Amateur Radio Club will "open all ports".
Operating 20 Meters around 14.250 to 14.320.
CW activity will be in the QRP area.
Other bands are possible.

VP8ROT is active from Rothera base on Adelaide Island, Antarctica.
The island counts as AN-001 for the RSGB Islands on the Air awards
He has been active on 20 metres between 0200 and 0500UTC.

* 25th and 26th of February are the Kuwaiti National and Liberation
Days and in most years there is increased activity by 9K stations
for
several days either side of this holiday. Special event station
9K2NLD -
standing for 'National Liberation Day' - is also usually activated

during this period.

* G3SJJ, G3SVL and G3UEG are active as P3F from Cyprus in the CQ 160 Metre
SSB Contest this weekend.

V31GW and V31YN from Belize until the 25th of February.

* F5PAC <http://www.qsl.net/f5pac> Panama until 24th of March.
He will operate from several IOTA groups including NA-170 from the 25th to 27th of February.

* TILL MARCH 3
IK4UPB will be active on 10 to 160 metres SSB and CW as D44TD from the
Cape Verde Islands between the 25th of February and the 3rd of March.

* Jamaica, 6Y5/WN9O and 6Y5/WO9Z between the 22nd of February and 9th of March.

* F5CWU will be guest operating from 9S1X in the Democratic Republic of
Congo from the 24th of February to the 10th of March.

TILL MARCH 12
F-6-FXS, will be active from Guadeloupe.
He will operate only CW into a wire antenna.
40 through 10 meters. QSL direct or via the bureau. (OPDX)

* PJ7/W8EB to be active on 160 to 10 metres SSB, CW, RTTY and PSK-31 from
Saint Maarten from the 23rd of February until the 23rd of March.

* Starting Sunday, the 23rd of March, a group of Swedish amateurs
will be active as JW/SM0BSO, JW/SM0LQB and JW/SM1TDE from Svalbard.
Activity will be on all bands from 160 to 6 metres on CW, SSB, RTTY and
other digital modes.

*
F5PAC <http://www.qsl.net/f5pac> Panama until 24th of March.

A4/IV3NCC from Oman till end of March active on the low bands.

Cook Islands; April DXPedition. June VK4SJ has told her ARClub
another DXpedition to the Cook Islands should take place in April
and said "it would be nice to have as many club members contact
me as possible. More details to follow as the time draws near."

Les, 7Q7LA, is active from Malawi till middle of April.

* Mexiana Island will be on the air May 21st through the 25th.
Five operators will activate Mexiana on 40 through 10 SSB only.

Mexiana is considered the most wanted Islands on the Air group
in all of South America. More information is on the web at
http://www.mexianaisland2003.hpg.com.br

JM6DZB/JD1 Iwo Jima in the Ogasawara Islands until the end of 2003.
80, 40 and 15 metres SSB.

(AUDIO THANKS TO RSGB AND JEREMY BOOT G4NJH)

Και βέβαια, Τουρκική Δημοκρατία, αμ πώς,
Ένα πράγμα σαν να λέμε.... Αλβανός - θεσμικός επενδυτής, δημοκρατικός - φασίστας, Ολυμπιακός - ομάδα , και γενικά όλα αυτά τα οξύμωρα τα οποία κάνουν τη ζωή μας ενδιαφέρουσα και ωραία.
Αναρωτιέμαι, όμως, το 1BXXX που το βρήκε ο κερατούκλης?

Και τώρα το τραγουδάκι μας....
ΟΛΟΙ ΜΑΖΙ ΠΑΙΔΙΑ .....

Μ'ΑΛΕΞΙΠΤΩΤΟ ΠΗΔΩ
ΜΕΣ' ΤΟ ΤΟΥΡΚΙΚΟ ΧΩΡΙΟ .... κλπ κλπ κλπ

Α ΡΕ ΚΑΤΑΚΑΗΜΕΝΗ ΚΟΡΥΤΣΑ........

Subject: [The Greek Ham Radio] Re: N. Cyprus pirates

...είναι παλιά ιστορία αυτή παιδιά, έχει συμβεί πολλές
φορές στον παρελθόν. Φυσικά η επαφή αυτή είναι άχρηστη
για όποιους "ηλίθιους" κάνουν το QSO. Μία χώρα πρέπει
ν'αναγνωρίζεται από κάποιους διεθνείς οργανισμούς για
να έχει υπόσταση και σαν ραδιοχώρα και το ψευδοκράτος
δεν έχει αναγνωριστεί από κανένα εκτός από την "μαμά" του!
Επομένως είναι παράνομο-πειρατικό διακριτικό στην ουσία!
'Οσοι λοιπόν μιλάνε με τον σταθμό αυτό είναι σαν να μιλούν
με ραδιοπειρατή! Αυτό μπορούμε να το λέμε π.χ. στο Cluster
αλλά αν και το έχω πράξει στο παρελθόν, εν τούτοις τον
καλούν πολλοί... τι να κάνουμε, είπαμε "ηλίθιοι" !
Πάντως, θα σας πώ και κάτι ευτράπελο: κάποια φορά, στη
συχνότητα που εξέπεμπε εγώ έλεγα ότι είναι πειρατής και
του "έσπασα" τελείως το pilup. Αυτός με ρώτησε ποιος είμαι
που τα λέω αυτά και εγώ του απήντησα ότι το διακριτικό μου
είναι αυτό και είναι νόμιμο, το δικό σου του είπα είναι
παράνομο και δεν δικαιούσαι να εκπέμπεις.... εεε, δεν θα
το πιστέψετε αλλά μου έστειλε και κάρτα ! θράσος εεε?

Club: Rhein Ruhr DX Association
Comments:
First night reasonable conditions to NA with about 65 statiions and a really
nice sunrise lift. Second night extremely poor except for about 10
NA-stations
at my sunrise. Highlight: being called by VK6VZ who was a genuine 59 !
Amazing
signal from XE1RCS who was 20dB over 9 at my sunrise! I called dozens of
US-stations that were very loud but kept calling CQ... Very frustrating.

Importance: High

VIRUS WARNING ISSUED BY CENTRALCOMMANDR
on February 24, 2003
for Worm/Lovegate.B

VIRUS WARNING The Central CommandR Emergency Virus Response TeamT
(EVRTT) has received virus infection reports for the new Internet
<http://support.centralcommand.com/cgi-bin/command.cfg/php/enduser/std_a
dp.php?p_refno=030224-000006> Worm/Lovegate.B. Due to increased customer
inquires and infection reports the EVRT is issuing a VIRUS WARNING.

You are receiving this news letter because you are a subscriber to the
Central Command Virus News mailing list.

[EVRTT Virus Warning issued for
<http://support.centralcommand.com/cgi-bin/command.cfg/php/enduser/std_a
dp.php?p_refno=030224-000006> Worm/Lovegate.B]

Details:

Name:
<http://support.centralcommand.com/cgi-bin/command.cfg/php/enduser/std_a
dp.php?p_refno=030224-000006> Worm/Lovegate.B
Alias: Worm_Lovgate.B
Type: Internet Worm
Discovered: February 24, 2003
ITW: Yes
Platform: Microsoft Windows 95/98/Me/NT/2000/XP

Description:

<http://support.centralcommand.com/cgi-bin/command.cfg/php/enduser/std_a
dp.php?p_refno=030224-000006> Worm/Lovegate.B is an Internet worm that
spreads through e-mail by using addresses it collects in the Microsoft

Outlook Address Book. It also contains backdoor functionalities.

If executed, the worm copies itself in the \windows\%system% directory under the filenames "syshelp.exe", "winrpc.exe", "WinGate.exe", "WinRpcsrv.exe", and "rpcsrv.exe".

Additionally, the C:\Windows\win.ini file also gets modified:

Run=
Run=rpcsvr.exe

So that it gets run each time a user restart their computer the following registry keys get added:

HKEY_LOCAL_MACHINE\Software\Microsoft\Windows\CurrentVersion\Run
syshelp = "C:\windows\%system%\syshelp.exe"

HKEY_LOCAL_MACHINE\Software\Microsoft\Windows\CurrentVersion\Run
WinGate initialize = "C:\windows\%system%\WinGate.exe -remoteshell"

HKEY_LOCAL_MACHINE\Software\Microsoft\Windows\CurrentVersion\Run
Module Call initialize = "RUNDLL32.EXE reg.dll ondll_reg"

Additionally, the following key is also created so that the worm will get run each time a file with the extansion .txt is opened.

HKEY_CLASSES_ROOT\txtfile\shell\open\command
(Default) = "winrpc.exe %1"

<http://support.centralcommand.com/cgi-bin/command.cfg/php/enduser/std_adp.php?p_refno=030224-000006> Worm/Lovegate.B also contains backdoor functions. It drops the files, "ily.dll", "task.dll", "reg.dll", and "1.dll" into the \windows\%system% directory. After registering the services, it opens TCP/IP port 10618. Once the port is opened an email is sent off to various email addresses alerting the owners of these email addresses that the machine has been compromised and is vulnerable for command execution.

SY8A contest coments.

Δυστυχώς ...χάσαμε όπως θα έλεγε και ο ποιητής !!!

Εγώ όμως λέω ότι χάσαμε μεν, καρδίσαμε δε.....

Σαν τελικό αποτέλεσμα (total points = 258.000) είναι καλό δεδομένου ότι
σαν QSO έκανα 783 (περισσότερα από τον ON4UN kai EI7M)
σαν DX εκανα 61 χώρες (πάλι περισσότερες από τους προαναφερόμενους)
αλλά μόνο 6 states.....
Αυτό είναι φυσιολογικό για δύο βασικούς παραγοντες για τα 160μ.
1) Η γεωγραφική θέση της Ελλάδος ως προς την Αμερική και
2) Το Ελληνικό band plan (1830-1850)
Εαν μπορούσαμε να πάμε από το 1810 έως το 1910 τότε εκεί είναι πολλές συχνότητες
καθαρές με αποτέλεσμα να γίνουν ποιό πολλές επαφές με USA.
Αλλο είναι να εκπέμπεις από την Ιρλανδία και άλλο από Ζάκυνθο!!! για qso's με USA.
Ο φίλος μου ο καράφλας (κατά κόσμο ON4UN) πάλι καλά
που μας παρουσίασε ότι έκανε μόνο 28 states.
Αλλες φορές δηλώνει ότι κάνει 49 η 50 states!!!!
Πως είναι δυνατόν σε ένα μικρό χρονικό διάστημα που ανοίγει η διάδωση με Αμερική
να κάνει κάποιος 50 states!!! ΠΡΟΣΟΧΗ οχι 50 QSO's αλλά 50 States.
Δηλαδή μόνο την Αλάσκα και την Χαβάη δεν κάνει??????

Στο περυσινό contest που δεν είχαμε άνοιγμα με Αμερική είχα κάνει 60.000 points
με αποτέλεσμα να είμαι πρώτος σε όλες τις ηπείρους εκτός USA.

Καλά DX και σε άλλα......

Για τον Κώστα
Εκτός από αυτά που έγραψε ο SV1XV συμπληρώνω
ότι είχε πάει και ο Αρης Γερμάνης SV1GA με χαρακτηριστικό SY1A νομίζω.
Επίσης πήγαν και κάποιοι απο Θεσσαλονίκη SV2RE , SV2UA κλπ...δεν θυμάμαι χαρακτηρισικό.
Κώστα εαν τηλεφωνήσεις του SV2RE θα σου πει.
Ακόμη h ARRL έκανε δεκτή και μια dxpedition κάποιου γερμανού DL???
Αδεια εκπομπής από το Αγιο όρος (από το Πατριαρχείο και τον Πάπα) είχαν και
κάποιοι Ιταλοί (I0IJ,I0GPV,I0ER) οι οποίοι έφτασαν μ΄χρι το την Ουρανούπολη αλλά οι δικοί μας
από Θεσσαλονίκη και Αθήνα (για να μη λέμε callsigns)
ξεσικωσαν τον κόσμο με αποτέλεσμα η Ιερά επιστασία του Αγίου Ορους
να μην τους αφίσει να μπούν μέσα από το συρματόπλεγμα της πύλης
που χωρίζει το Αγιο Ορος με την Ουρανούπολη.
Απο εκεί και πέρα έχουμε την περίπτωση Απολλό...

Χωρίς να είμαι ειδικός στα DX και την ιστορία του
ραδιοερασιτεχνισμού, από το link που έστειλα εδώ χθές,
προκύπτουν τα ακόλουθα DX peditions:

SY1MA 1972 (by SV1DB κλπ)
SV1GA/A 1975
SV1DC/A 1980 (με SV1DC/A, SV1IW/A, SV1JG/A)
SV2RE/SY 1987 (με SV2RE/SY, SV2UA/SY, SV2QO/SY,
SV2UF/SY, SV2WT/SY, SV2TX/SY)
SY/DJ6SI 1991
SV2ASP/A (μόνιμος κάτοικος)

Σύμφωνα με το βιβλίο του SV1AIA η Ε.Ε.Ε.Ρ. και
ο SV1DB έκαναν 2 DX-peditions.

Ισως να υπάρχει και άλλη DX-pedition από αλλοδαπούς,
εκτός από την Ιταλική που γράφει ο SV8CS.

Ισως ο Κώστας SV1DPI μπορεί να γράψει το πλήρες ιστορικό
και να το δημοσιεύσει σε κάποιο περιοδικό ή στις
ιστοσελίδες του.

Προσωπικά δεν έχω ασχοληθεί με τα 160 m γιατί δεν έχω δυνατότητα για κεραία και επιπλέον έχω πολύ ηλεκτρικό θόρυβο.

Η κατανομή στα 160 m διαφέρει πολύ στις διάφορες χώρες. Οι περισσότερες χώρες έχουν 1810 - 2000 kHz μετά την κατάργηση του LORAN-A. Στην Ελλάδα η κατανομή του ΕΚΚΖΣ είναι η εξής (ΚΥΑ 21229/83, ΦΕΚ 550 Β/21-9-1983):

1800-1810...Υπηρεσίες Ραδιοεντοπισμού
1810-1830...Ναυτική Κινητή Υπηρεσία και Στρατός
1830-1850...Ραδιοερασιτέχνες
1850-2000...Ναυτική Κινητή Υπηρεσία και Στρατός

Στις άδειές μας αναφέρεται ακριβώς αυτό (1830-1850).

Φυσικά ούτε ο Στρατός ούτε οι Παράκτιοι κάνουν πλέον χρήση της ζώνης, αλλά η επίσημη εκχώρηση έμεινε.

Στην τροποποίηση του ΕΚΚΖΣ (ΚΥΑ 58980/94, ΦΕΚ 157 Β/8-3-1994) δεν υπάρχει τροποποίηση της κατανομής αυτής.

Ενδεικτικά αναφέρω την κατανομή στη Μ. Βρετανία, που έχουν όλη τη ζώνη:

1810-1838 CW only
1838-1842 Digital (εκτός AX.25 packet), CW
1840-2000 Phone, CW
1843 QRP
1950-2000 Novice

Στις Η.Π.Α. η εκχώρηση είναι 1800-2000 σε όσους έχουν άδεια General, Extra ή Advanced σε όλα τα modes. Το bandplan εκεί είναι:

```
1800-1840 CW (DX 1830-1840)
1800-1840 RTTY (DX 1830-1840)
1840-2000 Phone (DX 1840-1850)
```

```
1840-2000 SSTV
1802.3 Packet
```

Φίλε Κώστα θα πρέπει να ξεκαθαρίσουμε σαν πολίτες κάτι

Αλλο κανονισμός που βγάζει το ΥΜΕ και άλλο νόμος του κράτους που είναι ο

ίδιος με αυτά που δεχτήκαμε σαν χώρα και υπογράψαμε στην WARC και
νομιμοποίησε η Ελληνική Βουλή.

Αυτο που ισχύει αν μια υπόθεση πάει σε δικαστήριο είναι η νομοθεσία
τίποτα
άλλο, καμμιά υπουργική απόφαση, κανένας κανονισμός δν υπερισχύει του
νόμου
που ψηφίστηκε στην βουλή.

Ελπίζω να βοήθησα

Σχετικά με το θέμα αυτό, να προσθέσω ότι πριν λίγα χρόνια το British Amateur Radio Teleprinter Group (BARTG) άρχισε να κάνει ηλεκτρονικό cross-check στα logs. Στο BARTG Spring RTTY Contest του 2001 έκανε disqualify τους F6AUS, UP5P και UT9F γιατί είχαν τεράστιους αριθμούς unique calls (91, 117 και 104 αντίστοιχα). Ειδικά οι δυο τελευταίοι θα είχαν πάρει την πρώτη και δεύτερη θέση αντίστοιχα στην κατηγορία multi-single.

Από την επόμενη χρονιά (2002) όλοι ήταν αρνάκια και δέν έγινε disqualify κανένας.

Κώστα, συμφωνώ απόλυτα μαζί σου, αλλά από ότι φαίνεται το "direct only", "via CBA" ή "via QRZ.COM" έχει γίνει επιδημία. Και έχουμε και εμείς αρκετά μαύρα πρόβατα. Κάθε φορά που έρχονται κάρτες από ARRL και Ιαπωνία, το 30% απευθύνεται σε συγκεκριμένο έλληνα συνάδελφο που δεν παίρνει μέσω bureau και πληρώνουμε για να τις στείλουμε πίσω...

383. K1B SSB card Info

Yahoo group: thegreekhamradio
Date: 2003-02-28 23:42:51 UTC
From: sxanthop
Topic: 383 Message: 383

From The Ohio/Penn DX PacketCluster
DX Bulletin No. 597:

K1B QSL UPDATE/CHANGE. Roman Thomas, RZ3AA (K1B, K5K, 3D2CI etc.), reports,
"I completely understand the problems that many of you are having getting
the SSB K1B QSL cards. I feel bad for each of you who have still not
received your QSL card. Unfortunately the mail situation in my country
certainly has room for improvement. In hindsight it was probably not a good
choice to use a Russian QSL address." Roman explains he processed more than
3000 direct QSL requests that were returned direct and has received more
than 1000 bureau QSL cards that have all been sent back via the bureau.
However, he has received about 300 direct QSL card requests which were
already opened and were missing IRCs or postage money, these have been
answered via the bureau. Also, he has received at least 200 E-mail requests
asking for status on specific cards which never arrived. Roman suspects many
more card requests were lost somewhere in the mail system. To date, Roman
still receives about 20 direct requests per week, all being returned direct.
If you would like to pick up a K1B SSB QSL card in person, Roman will be at
Dayton this year and he is prepared to hand out cards there. Watch for an
announcement. --- OR -- Due to Roman's mail situation a new QSL route has
been announced. If you worked K1B using "SSB ONLY", QSL requests can now be
sent to K4YL (ex-W4SMG) to the following address: Stephen M. Grose, P.O.Box
183, Flat Rock, North Carolina 28731-0183. Please include the following:
Your QSL Card indicating Time in GMT, Date, Band, Mode and Report.
A Self Addressed Envelope (SAE) with all necessary addressing information

(USA send SASE).
One Green Stamp (preferred) or One Large IRC is accepted.
Please make sure the envelope contains the three items shown
above. "NO"
Bureau cards will be accepted. Please send Bureau cards via Roman,
RZ3AA,
via the Russian Bureau. All cards will be processed in the order
they are
received. PLEASE send ONLY SSB cards. Depending on the demand, some
delay
might result if additional cards have to be printed. All CW and
Digital
requests are to be sent to Hrane, YT1AD. Any questions can be E-
mailed to
Stephen, K4YL at: K4YL@...

Σωστή απάντηση Κώστα, αλλά όσοι συνάδελφοι δεν επιθυμούν να παίρνουν το ταχυδρομείο τους μέσω του bureau, πρέπει να επισημαίνουν στην αλληλογραφία τους την πρόθεση τους να ανταλλάσσουν το ταχυδρομείο τους μέσω QSL MANAGER ή DIRECT.

Φιλικά Μανώλης

πάντως θα ήθελα να προτίνω προς αυτούς που διαχειρίζονται το buro,
μετά απο κάθε εγγραφή που έχουν...στα καινούργια μέλη να _στέλνουν
κάποιες οδηγίες_ π.χ πως να χωρίζουν τις κάρτες τους...Εγώ δεν ήξερα
πως να το κάνω ακριβώς και με πήρε προχθές ένας συνάδελφος
και "ξέσπασε" επάνω μου γιατί δεν είχα καλά χωρισμένες τις κάρτες
όπως θα έπρεπε....ήταν και αρκετές...όχι οτι τον δικαιολογώ...ήταν
απαράδεκτος ο τρόπος ομιλίας του και ας είναι εθελοντής όπως μου
είπε και μάλλον παλιό μέλος της ΕΕΡ.

Δεν γεννηθήκαμε να τα γνωρίζουμε όλα !

Μανώλη μου δεν με ενδιαφέρει ποιος ήταν...ας ήταν και ο πρόεδρος της
ΕΕΡ....Δεν με καίει αυτό...εγώ απλά σαν καινούργιο έστειλα κάρτες
(αρκετές) και απλά σε μερικές π.χ στα ΕΑ είχα μάλλον ξεχάσει και τα
ΕΙ π.χ.....και αυτό ενόχλησε τόσο πολύ φαίνεται !

Καλησπέρα σε όλους,

Αυτό το μύνημα έρχεται προς ενημέρωση όλων
των μελών αυτής εδώ της
λίστα/yahoo group.

Κατόπιν μιας πολύ καλής επίδειξης ενδιαφέροντος
για αυτήν εδώ την
προσπάθεια, ο συνάδελφος Μανώλης (SV1FZE) δημιούργησε
μια σελίδα για
αυτό εδώ το yahoo group. Η σελίδα φυσικά έχει
ακόμα αρχική μορφή
όπως μου είπε και ο Μανώλης, ελπίζουμε όμως
με την καλή συνεργασία
που έχει ήδει δείξει σύντομα να την αλλάξουμε
σε κάτι που θα
αντιπροσωπεύει το ΠΟΛΥ ΚΑΛΟ ΕΠΙΠΕΔΟ αυτής εδώ
της λίστας/group.

Θέλω προσωπικά -σαν moderator αυτής της λίστα-
να ΕΥΧΑΡΙΣΤΩ ΚΑΙ ΝΑ
ΣΥΓΧΑΡΩ τον συνάδελφο Μανώλη για την ΑΨΟΓΗ
κίνηση του, την οποία
βέβαια θα έπρεπε να είχα κάνει εγώ, αλλά
λόγω ΜΗ ενδιαφέροντος απο
τον λίγο κόσμο που υπήρχε παλιότερα εδώ
ΑΜΕΛΗΣΑ να κάνω.

Τώρα, αν κάποιος θέλει να κάνει προτάσεις ως
προς το τι επιθυμεί να
δει μέσα σε αυτή την σελίδα είναι φαντάζομαι
ευπρόσδεκτες όλες οι
απόψεις. Υπόψην παιδιά οτι εγώ προσωπικά δουλεύω
με το Frontpage και
κάποια στιγμή θα εγκαταστήσω το MX πακέτο της
Macromedia. Οπότε μην
ζητήσετε κάτι που θέλει π.χ Java/Javascripts
γιατί τουλάχιστον εγώ
δεν μπορώ να ανταποκριθώ....

Η διεύθηνση της σελίδας είναι:http:
//www.qsl.net/tghr/index.htm

Αυτά....

Και πάλι συγχαρητήρια στον ΜΑΝΩΛΗ και ΤΟΝ ΕΥΧΑΡΙΣΤΩ για την
πρωτοβουλία αυτή. Παρακαλείστε όπως αν θέλετε προσθέστε αυτή την
σελίδα σε κάποια λίνκς σε άλλες για να υπάρξει και η σχετική
κίνηση/διαφήμιση που πιστεύω θα κάνει καλό.

Υ.Γ Μανώλη και πάλι συγνώμη για την καθυστέρηση.

Παιδιά καλησπέρα,

Δεν έχει σημασία το ποιος άρχισε την σελίδα στο net.
Σημασία έχει να γίνει η προσπάθεια αυτή συλλογική, έτσι ώστε να
αντικατοπτρίζει τις ανάγκες της λίστας και του ραδιοερασιτεχνισμού στην
Ελλάδα. Περιμένω προτάσεις και σαφώς παρατηρήσεις.

Το όνομα "THGR" είναι τα αρχικά της λίστας διότι μετά από τηλεφωνική
συνομιλία μου με τον Al Waller (ιδιοκτήτης του QSL.NET) είπαμε πως το
όνομα
"The Greek Ham Radio" είναι κάπως ογκώδες για URL.

ΟΣΟΙ ΠΙΣΤΟΙ ΠΡΟΣΕΛΘΕΤΕ, ΛΟΙΠΟΝ, ΚΑΙ ΣΥΝΕΙΣΦΕΡΕΤΕ ΜΕ ΙΔΕΕΣ ΚΑΙ (ΓΙΑΤΙ

Καλημέρα παιδιά,

Ορισμένα πράγματα πρέπει να λύνονται άμεσα και δια της προσωπικής επαφής.

Το qth μου είναι Αθήνα (Πατήσια και ξηγιόμαστε στα ίσια hi hi hi).
Το qth του Al είναι στην πολιτεία Delaware (η πρωτεύουσα της πολιτείας αυτής είναι η Washington DC).

Φιλικά Μανώλης

Μανώλη καλησπέρα...Μάλλον δεν θα σε προλάβω μέχρι να βάλεις το icq όπως είπαμε στο τηλέφωνο...οπότε, απλά παρατηρώ οτι είναι ΒΑΡΙΕΣ σελίδες...Αν γίνεται να ελαφρύνει λίγο, γιατί αν κατάλαβα εσύ έχεις isdn ή κάτι τέτοιο...Εγώ με την δική μου τώρα και με 44κ σύνδεση ΣΕΡΝΕΤΑΙ....Θα τα πούμε, αν βάλεις το icq σφύρα κανονικά να τα πούμε...όσο για το cd ελπίζω εντώς μερικών ημερών.

Καλησπέρα σε όλους,

Θα ήθελα να ακούσω την γνώμη όλων σας για το site.
Η εμπειρία μου στην κατασκευή sites δεν είναι και η μεγαλύτερη στον πλανήτη, άρα κάθε γνώμη-συμβουλή-παρατήρηση θα ωφελούσε και θα ήταν, σαφώς, ευπρόσδεκτη.

Πάντα φιλικά

Μανώλης

Σωστά Τάσο....ο Μανώλης εκεί, ξεκίνησε με μεράκι για αυτό που κάνει
και ελπίζω να μπορέσω να τον βοηθήσω σύντομα...υπομονή λίγο κάντε
και πιστεύω σε συνεργασία όσοι μπορούν να βοηθήσουν, να κάνουμε κάτι
που θα μπορούμε ΟΛΟΙ να είμαστε ευχαριστημένοι.

Αλέξανδρε καλημέρα.

Μας κούφανες όλους.
Τι εννοείς βρε φίλε????

Το site ονομάστηκε THGR λόγω του ότι θα ήταν πολύ μεγάλο το άλλο όνομα
και επειδή το QSL.NET EINAI FREE!!!!!!!!!!!!!!!! (HI HI HI HI HI HI)

Πως σκέφτεσαι να το κάνεις αυτό το μαγικό???

Φιλικά Μανώλης

Παίδες καλημέρα,
πρέπει να το προσέξουμε πολύ αυτό, διότι συνήθως τα redirections τα χρησιμοποιούν sites με περιεχόμενο στενών επαφών όλων των τύπων και είθισται να βγαίνουν pop-ups όταν ανοίγει η σελίδα. Τα pop-ups αυτά έχουν ως αντικείμενο από On-Line Casinos έως Porno κλπ.
Εγώ προσωπικά, ως Webmaster, δεν είμαι αντίθετος ως προς την ιδέα.
Απλά θέλω να το ψάξουμε καλά και προσεκτικά για να μην ξεφτιλιστούμε.

Φιλικά Μανώλης.

Ούτε εγώ έχω ακούσει τίποτα προς το παρόν.....όταν λες top τι εννοείς; hi,hi

Εγω πάντως μάλλον θα περιμένω απο τους τελευταίους....γιατί και η διάδοση όταν νυχτώνει είναι χάλια...20-15-10 μέτρα μόνο με την vertical....πικρααααααααα

456. VP6 rx report

Yahoo group: thegreekhamradio
Date: 2003-03-10 07:32:14 UTC
From: Makis
Topic: 456 Message: 456

..σήμερα το πρωί, 08.00 τοπική ώρα στο 14.195 ακουγόταν
αρκετά καλά το VP6, γύρω στις 8.15' είχε peaking γύρω στα
6 S , πεντακάθαρη αποδιαμόρφωση. Η κεραία ακρόασης ήταν
μία FD3 Fritzel, τίποτα το ιδιαίτερο δηλαδή. Βέβαια τα
Flux ήταν στο 153 και είχε 225 κηλίδες, μάλλον καλύτερα από
τις προηγούμενες μέρες, οπότε μάλλον θα το κάνουμε αν διατηρηθεί
η διάδοση σε παρόμοια ή καλύτερα επίπεδα .
Βέβαια το Pilup ήταν τρομερό, άκουγε από 200-225 ! Φώναξα περίπου
45' και .... έκλεισε η φωνή μου!
'Οσοι λοιπόν δεν έχετε Linear + Beams, πάρτε τουλάχιστον ένα Voice-
recorder !

3D2 - Mike, DF8AN hopes to have his old 3D2MN call renewed for
his 12-27
March stay in Nadi, Fiji Islands. He plans to operate
mostly CW on
all bands, 6 metres included. QSL via home call. [TNX The
Daily DX]
9N - After a couple of weeks spent at home Hugo, LA5YJ/9N7YJ is
back to
Kathmandu, Nepal for a longer stay on an U.N. assignment.
He now has
a better transceiver and trapped dipoles for 160, 80, 40,
30, 17 and
12 metres, and will try to get a linear amplifier. Please
note that
he does not work on RTTY or PSK31. Updates will be
published at
http://www.qsl.net/la6fja/9n7yj.html. QSL direct only to
Bjorn Hugo

Ark, Rute 504 - Paulsrud, NO-2840 Reinsvoll, Norway. [TNX
LA6FJA]
A4 - Look for Younis, A41MA/p to be active from Suwadi Island
(AS-112)
through 8 March. The web page for the
operation is at
http://www.geocities.com/suwadi_island [TNX A41MA]
EA6 - Christian, DL6KAC will be active again (manily SSB with
some RTTY
and/or PSK31) as EA6/DL6KAC from Mallorca (DIE E-021),
Balearic
Islands (EU-004) from 11 March to 10 April. QSL via home
call either
direct or through the DARC bureau. [TNX DL6KAC]
HB0 - Pascal, F5RZJ will be active on SSB and CW as
HB0/F5RZJ/P from
Liechtenstein on 15-16 March. QSL via home call. [TNX F5NZO]
J5 - Simone, IV3NVN will leave Europe for Guinea-Bissau on 8
March. His
first stop will be in the capital city of Bissau, where
he will
collect his licence and will be QRV for some five days.
Then he will
go and operate from Pecixe Island in the Guinea-
Bissau Coastal
Region group (AF-???). He plans to be there for about one
week and
to be active mostly on 15 and 6 metres (beacon on 50.096
MHz) SSB
and CW (possibly on 12, 17, 20, 30 e 40 metres as well).
Around 20
or 21 March he will travel to Caboxanque in the southern
part of the
country, where he will try to operate also on 80 and 160
metres CW
and on digital modes. He will participate in the CQ WW
WPX SSB
Contest as SOSB on 10 metres. On 3 April he will be back
to Bissau
for another couple of days before returning home. QSL
direct to
IV3NVN (Simone Candotto, P.O. Box 4, 33050 Castions di
Strada - UD,
Italy). Please do not include old style IRCs and note
that Simone
anticipates he will not be able to start QSLling before
August. [TNX
IV3NVN]
JA - Look for Taka, JR3TVH/6 and his wife Nuts, JJ3NAW/6 to
be active

from Miyako Island (AS-079) on 8-10 March. They plan to
operate on
15, 10, 20, 17 and 12 metres SSB and CW and to pay special
attention
to 6 metres (they will have a beacon on 50138 kHz). QSLs
via bureau.
[TNX JR3TVH]
OY - Tom/GM4FDM and Bill/AK0A have joined the team of Dutch
operators
(namely PA3EWP, PA3FQA and PA5ET) who will be active on
all bands
and modes from the Faroer Islands from 24 March and 3
April [425DXN
617]. They will have three stations (one for digital
modes) with
amplifiers and plans are to concentrate on 80 & 160 metres
and the
WARC bands. The callsigns to be used are OY7ET
(operator PA5ET),
OY7QA (operator PA3FQA), OY7TW (operator GM4FDM), OY7WB
(operator
AK0A) and OY7WP (operator PA3EWP), plus OY8PA for
80/160 metres,
digital modes and the CQ WW WPX SSB Contest. QSL for all
via PA5ET.
Latest information can be found at
http://www.qsl.net/lldxt [TNX
PA5ET]
PY - The ZY8C operation from Caviana Island (SA-042) [425DXN
617] has
been postponed and it now scheduled to take place from
27 March
through 3 April, including a M/S effort during the CQ WW
WPX SSB
Contest. [TNX PY8AZT
ST - Claudio, IV3OWC has received his licence and now he will
operate as
ST2CF (not ST1C as previously announced). He will be in
Sudan on
16-31 March, including an entry in the CQ WPX SSB
Contest. QSL
direct only via home call. [TNX IV3OWC]
SV9 - Dick, G3URA reports he will be on 20 metres only from his
house on
Crete as SV9/G3URA during the BARTG RTTY Spring
Contest (15-16
March). QSL via home call.
T8 - Seiji, JH6RTO will be active (on 80-6 metres CW, SSB and
RTTY) as
T88FS from Palau on 13-17 March. QSL via home call (Seiji

Fukushima,
1182-2506 Hase, Atsugi-city 243-0036 Japan). [TNX OPDX
Bulletin]
UA - Special station UE3RDA will be active on 8-15 March
from rare
districts for the Russian District Award
(http://rdaward.org). QSL
via RW3RN (Alex Kuznetsov, P.O. Box 57, Tambov-23, 392023
Russia).
[TNX RW3RN]

8 March 2003 No 618
$425WW618B
===========================
*** 4 2 5 D X N E W S ***
**** DX INFORMATION ****
===========================

VK - Bill, VK4FW reports he will be on Fraser Island (OC-
142) from 8
March for about four days. "I will be extremely busy",
he says,
"however I hope to get a little time for the radio". He
will operate
mainly CW in his late afternoon and some night. QSL direct
only to
Bill Horner, P.O. Box 1343, Maroochydore 4558, Australia.
VK - VI5WCP is the special call to be used from Waldegrave
Island in the
South Australia State West Centre Group (OC-???)
[425DXN 615].
Tom/VK3ZZ, Peter/VK3QI, Keith/VK3FT and Jack/VK3WWW
will now be
active (on all bands except 160 metres, SSB and CW) on 17-
22 April.
The operation will celebrate the historical naming of the
island by
Matthew Flinders during his coastal exploration of 1802/03.
QSL via
VK3ZZ either direct (Thomas Marlowe, P.O. Box 368,
Leongatha,
Victoria 3953, Australia) or through the bureau. [TNX VK3ZZ]
VP5 - Look for David, VP5/KY1V (www.ky1v.com) to be active
from Whitby,
North Caicos Island (NA-002) on 11-18 March. QSL via home
call. [TNX
NG3K]
VP6_di - Stu Greene, WA2MOE reports that the Ducie Island team
expects to
arrive on 8 March in their morning (Ducie time is UTC -8).
To avoid
pirates, the call sign will not be released until the
operation has

begun. Suggested frequencies are the following:
CW 10.102 or 10.124 listen up per instructions
14.020 up 9
18.070 up 9
21.020 up 9
24.900 up 9
28.020 up 9
SSB 14.195 up .215
18.130 up .140
21.295 up .305
24.950 up .955
28.445 up .455
RTTY 21.080 up .100-120 (primary band as long as there
is demand)
14.080 up .085 (second band)
6m 50.110 SSB/CW on operators instruction, a
beacon will be
there 24 hours
"Please don't ask about 40, 80 or 160, because I do not
know at this
time", WA2MOE says.
The pilots for the operation are JE2EHP
(je2ehp@...), DJ8NK
(C_Harders@...) and WA2MOE
(wa2moe@...). QSL
via JR2KDN Yuichi Yoshida, 4F Kato Building, 529 Rokugaike,
Kita-Ku,
Nagoya 462-0002, Japan). The web sites are at
www.qsl.net/wd4ngb/ducie.htm and
www.qsl.net/aa0mz/ducie2.htm.

CARIBBEAN TOUR ---> Nigel, G3TXF will be active as VP2EN from
Anguilla
(NA-022) through 12 March. He hopes to be QRV during the RSGB's
Commonwealth
Contest (8-9 March). On 13-18 March Nigel plans to operate as
FS/G3TXF/p from
Tintamarre Island (NA-199), St. Martin. These are likely to be
daytime only
operations from about 14 UTC to 22 UTC. Both operations will be CW
only and
Nigel will try to "stick to the zeroes" (i.e 14030 or 14040, 18080
or 18090,
21030 or 21040, 24900 or 24910, 28030 or 28040). QSL via
G3TXF. Further
details on http://www.G3TXF.com [TNX NG3K]

SOUTH AMERICA TOUR ---> From 14 to 30 March Rick, NE8Z will be
operating from
Argentina, Uruguay and Brazil as LU/NE8Z (various
locations), CX/NE8Z

(Colonia) and PY5/NE8Z (Iguazu Falls). He plans to operate on 40-10 metres CW
(most activity on WARC bands). QSL via NE8Z (Rick Dorsch, P.O. Box 616,
Hamburg, MI 48139, USA). [TNX NE8Z]

SOUTH SHETLANDS (AN-010) ---> Oleg (UA1PBA) is currently active as DP1ANF
from the Eduard Dallmann Laboratory (WABA DL-07) on King George Island, but
will have to QRT on 8 March (actual time will depends on the weather which is
very poor at the moment). QSL via RK1PWA. Due to poor propagation, Oleg and
Alex (UA1PAW) logged some 1400 QSOs only during their recent R1ANF/p
operation from the Teniente Ballve refuge of Argentina (WABA LU-22). [TNX
DL5EBE]

**** GOOD TO KNOW ... ****
===========================
Edited by I1JQJ & IK1ADH

DXCC NEWS ---> TT8ZZ (24 September to 8 November 2002) has been approved for
DXCC credit. [TNX NC1L, DXCC Manager]

IOTA CONTEST ---> The results for the IOTA Contest 2002 are now available at
http://www.blacksheep.org/hfcc/results/IOTA-2002/IOTA%20Contest%202002.html

LCRA ---> Good news from Beto, HK3DDD, who reports that the Liga Colombiana
de Radioaficionados is still alive. During the meeting held on 1 March
[425DXN 517] they agreed not to dissolve the society, "so the bureau service
is active 100%". [TNX VE3EXY]

NIGER ---> Peter, VY0PW (ex VK8PW and VE8PW) has been trying for many months
to get a licence for his QTH in eastern Niger where he has been working since
early 2002. He has now received the official news that a licence for this
part of the country cannot be issued. This is due to serious concerns by the
government relating to the internal security in various parts of Niger. A HF
radio in private hands is considered too much of a risk. The present
licencing policy seems to restrict the issuing of new licences to the capital
Niamey or the immediate surroundings. [TNX DK8MZ]

OPERATIONS ABORTED ---> The 3B8/DK7AO operators, who were supposed to be

active from Mauritius on 9-15 February, were unable to get their licence ("we are very frustrated and disappointed", Peter, DL3APO says).
Maurice, F5NQL reports that Pierre, FG/F6FXS, who was supposed to operate from Guadeloupe until 12 March, had to go QRT on 28 February due to the death of his mother.

PIRATE ---> Claudio, IV3OWC reports that Marco Nobili, ST1MN currently has not time for amateur radio and above all he does not operate CW.

PIRATE ---> Raul, LU6EF reports he is not the QSL manager for ZR2A, which is believed to be a slim.

QSL MANAGER OFFERED ---> Noel Schechtman, PT2ND is a member of The QSL Manager's Society (http://www.qsl.net/qslmanagers) and offers his services to stations in need. He can be contacted at pt2nd@...
QSL FW8FP ---> All QSL cards received as at 28 February have been processed and mailed. QSL direct only via VK4FW. [TNX VK4FW]

QSL KC4AAC ---> Larry, K1IED has finally received the log for KC4AAC (AN-012) and the QSL cards have been printed. He plans to mail most if not all of the direct QSL requests over the next 2-3 weeks. [TNX VE3LYC]

QSL MQ0CBM ---> Rod, M0CBM reports that two packets of QSL cards for MQ0CBM were lost in the post. Anyone needing a QSL from 13.30 on 27 June 2002 through 23.00 on the 30th please contact Rod at rod.newman@...
[TNX M0CBM]

QSL OX2K ---> Allis, OZ1ACB reports she has run out of cards. Please be patient while a new batch of QSLs is being printed.

QSL ZC4DW ---> The new address for Dez, G0DEZ (ZC4DW, ZD8DEZ, 5B4AGW) is Dez Watson, 7 Darwin Close, Lichfield, Staffordshire WS13 7ET, England. [TNX The Golist]

QSL ZY7USA ---> Ciro, PY7ZY reports that all the direct cards

(http://www.qsl.net/py7zy/zy7usa.htm) for the ZY7USA operation
have been
answered. If you do not receive your QSL within 10 days, please
contact Ciro
at py7zy@...

QSL VIA DF6PB ---> Alexander, DF6PB is the QSL manager for UN1F,
UN2E, UN6T
and UN9FD. His new address is Alexander Schwindt, Josef-Kunz
Str.3, 76726
Germersheim, Germany. [TNX DF6PB]

QSL VIA G0IAS ---> Allan, G0IAS reports that too many direct
requests for
7Q7RM, 7Q7HB and 7Q7LA still do not include return postage. Please
note that
these cards will never get a reply, as Allan has no access to the
bureau.

QSL VIA WB2RAJ ---> Long time QSL Manager, WB2RAJ, has a new QTH
and a new
mailing address. Send all QSL requests to Dick Kashdin, 4591 West
Overlook
Drive, Williamsville, NY 14221, USA. WB2RAJ is QSL Manager for
EM3W, FK5DX,
FK8GM, J39BW, LZ2TU (1992 only), ST2/G4OJW, ST2AA (up to 25
February 1995),
ST0K, UZ3AYR and WB2RAJ/VP9. [TNX WB2RAJ]

+ SILENT KEY + The Russian Robinson Club reports the death of
Vladimir
Lukjanchuk, RX3DQU, who was killed in a plane crash on 1 March.
Vladimir was
one of the RK3DZJ island team in 2000 and 2001. [TNX WRC/RRA
Bulletin and
MDXC]

Edited by I1JQJ & IK1ADH

LOGS: The 9K2USA logs are now available on
line at
http://dx.qsl.net/cgi-bin/logform.cgi?9k2usa.
Hamad, 9K2HN
reports he has "just taken over this QSLling job
from the
previous QSL manager"; if you have any QSL problem,

please let
him know at dxer@...
RRA: The new updated Island List for the Russian Robinson
Award is
now available at
http://www.hamradio.ru/rrc/AWARDS/RRA/rra_new.asp (if
you need
your own e-copy, please contact Eugene,
RZ3EC at
rz3ec@...). [TNX WRC/RRA Bulletin and MDXC]
QSL GALLERIES: A collection of 1000+ QSL cards is available on Les
Nouvelle
DX's web site at
http://LesNouvellesDX.free.fr - five
different galleries include cards for each of the
58 deleted
DXCC entities, obsolete prefixes, Antarctic
bases & TAAF
(Terres Australes and Antarctiques Francaises) and
pre-1945
countries. [TNX F6AJA]
QSL MANAGERS: The latest update of ON6DP's QSL Manager Database
(some 63,000
QSL routes) is now available at
http://www.on6dp.be.tf [TNX
ON6DP]

Subject: Central Command Virus Advisory for Worm/Deloader
Importance: High

VIRUS ADVISORY ISSUED BY CENTRALCOMMANDR
on March 10, 2003
for Worm/Deloader

VIRUS ADVISORY The Central CommandR Emergency Virus Response TeamT (EVRTT) has received virus infection reports for the new Internet <http://support.centralcommand.com/cgi-bin/command.cfg/php/enduser/std_adp.php?p_refno=030310-000019> Worm/Deloader. Due to increased customer inquires and infection reports the EVRT is issuing a VIRUS ADVISORY.

You are receiving this news letter because you are a subscriber to the Central Command Virus News mailing list.

[EVRTT Virus Advisory issued for <http://support.centralcommand.com/cgi-bin/command.cfg/php/enduser/std_adp.php?p_refno=030310-000019> Worm/Deloader]

Name:
<http://support.centralcommand.com/cgi-bin/command.cfg/php/enduser/std_adp.php?p_refno=030310-000019> Worm/Deloader
Alias: WORM_DELODER.A
Type: Internet Worm
Discovered: March 9, 2003
Size: 745.984 Bytes
Plattform: Microsoft Windows 2000/XP and Server 2003

<http://support.centralcommand.com/cgi-bin/command.cfg/php/enduser/std_adp.php?p_refno=030310-000019> Worm/Deloader is a network aware Internet worm that spreads via open network shares. It infects only Windows Xp and 2000 systems. It does not run on Windows 9x machines.

It scans random IP addresses looking for machines that have TCP port 445 open that allows users outside the network access to the Window file shares. It does so by trying to log on as administrator using a list of 85 passwords:

If the worm logs on successfully to the remote system, it copies itself automatically into the following directories:

- C:/WINDOWS/Start Menu/Programs/Startup/INST.EXE
- C:/WINNT/All user/start Menu/Programs/Startup/INST.EXE
- C:/Documents and Settings/All user/start Menu/Programs/Startup/INST.EXE (so that with the next system start it will be automatically executed).

By copying over these files, it would allow anyone remote access

It also copies over itslef as the file DVLDR32.EXE.

So that it gets run each time a user restart their computer the following registry key gets added:

HKEY_LOCAL_MACHINE\Software\Microsoft\Windows\CurrentVersion\Run
messnger = %WurmPfad%/Devldr32.exe

Worm/Deloder then drops the file PSEXEC.EXE into the common listing. This file is a tool provided by the company Sysinternals and does not have any damaging functions. Worm/Deloder tries to load a Backdoor program down from the Internet and stores this as RUNDLL32.EXE in the Windows system listing.

Βασίλη γειά σου,

Δεν νομίζω ότι τέθηκε τέτοιο θέμα εδώ (χρηματοδότηση DX-pedition από κάρτες QSL) από οποιονδήποτε. Ουτε ο Κώστας SV1DPI άφησε να εννοηθεί κάτι τέτοιο, ούτε η απάντησή μου στο Σταμάτη SV1EML αναφέρεται στο θέμα.

Αλλωστε αυτοί που βγάζουν χρήματα από τις κάρτες δεν είναι οι DX-peditions αλλά κάποιοι τυχεροί που μένουν σε μισο-σπάνιες χώρες και από το DX βγάζουν χαρτζηλίκι (βλέπε EY, UN, UJ, EK, EZ, EX, EU, ER...)

Νομίζω πάντως ότι το θέμα μάλλον το εξαντλήσαμε.

Πριν 1-2 χρόνια παρολίγο να την πατήσω από ανάλογη φάρσα.
Ένας ξένος ραδιοερασιτέχνης (ο award manager της RSGB αν
θυμάμαι καλά) μου είχε στείλει ένα ανάλογο warning. Ευτχώς
μου έκοψε και αντί να το εξαφανίσω, κράτησα ένα αντίγραφο
σε δισκέτα. Μόλις αποκαλύφθηκε η απάτη απλώς το αντέγραψα
πάλι στο σκληρό δίσκο.

ΚΑΛΗΜΕΡΑ ΣΕ ΟΛΟΥΣ

ΑΝΕΓΚΕΦΑΛΕ, ΙΔΙΩΤΗ, ΥΠΑΝΘΡΩΠΕ ORFEUS20,

Η ΛΙΣΤΑ ΑΥΤΗ ΑΠΟΤΕΛΕΙΤΑΙ ΑΠΟ ΑΤΟΜΑ ΜΕ ΕΝΑ ΚΟΙΝΟ ΣΗΜΕΙΟ ΕΝΔΙΑΦΕΡΟΝΤΟΣ.
ΑΤΟΜΑ, ΤΑ ΟΠΟΙΑ ΜΕΣΑ ΑΠΟ ΤΟ FORUM ΑΥΤΟ ΑΝΤΑΛΛΑΣΣΟΥΝ ΑΠΟΨΕΙΣ ΚΑΙ ΕΜΠΕΙΡΙΕΣ ΕΠΙ ΤΟΥ
ΘΕΜΑΤΟΣ ΤΟ ΟΠΟΙΟ ΛΕΓΕΤΑΙ «ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΙΣΜΟΣ». ΕΝΑ ΘΕΜΑ ΓΙΑ ΤΟ ΟΠΟΙΟ ΕΣΥ ΔΕΝ ΕΧΕΙΣ
ΟΥΤΕ ΓΝΩΣΗ, ΟΥΤΕ ΑΠΟΨΗ.
ΕΙΝΑΙ ΑΝΑΝΔΡΟ, ΚΑΙ ΣΕ ΧΑΡΑΚΤΗΡΙΖΕΙ ΩΣ ΑΝΑΡΧΙΔΟ, ΤΟ ΓΕΓΟΝΟΣ ΟΤΙ ΜΕΣΑ ΑΠΟ ΤΗΝ ΑΝΩΝΥΜΙΑ, ΤΗΝ ΟΠΟΙΑ ΣΟΥ
ΕΞΑΣΦΑΛΙΖΕΙ ΤΟ ΔΙΑΔΙΚΤΥΟ, ΥΒΡΙΖΕΙΣ ΑΤΟΜΑ ΤΑ ΟΠΟΙΑ ΔΕΝ ΓΝΩΡΙΖΕΙΣ, ΔΕΝ ΣΕ ΕΧΟΥΝ ΘΙΞΕΙ ΚΑΙ, ΕΝ ΚΑΤΑΚΛΕΙΔΙ,
ΕΚΦΡΑΖΟΥΝ, ΕΛΕΥΘΕΡΑ, ΤΗΝ ΑΠΟΨΗ ΤΟΥΣ ΓΙΑ ΤΟ HOBBY ΤΟΥΣ.
ΑΥΤΗ ΤΗΝ ΕΛΕΥΘΕΡΙΑ ΤΗΣ ΕΚΦΡΑΣΗΣ ΠΡΟΣΠΑΘΕΙΣ, ΕΣΥ, ΝΑ ΦΙΜΩΣΕΙΣ ΜΕ ΤΗΝ ΕΛΕΕΙΝΗ ΚΑΙ ΑΝΑΝΔΡΗ ΣΥΜΠΕΡΙΦΟΡΑ ΣΟΥ.
Ο ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΗΣ ΕΙΝΑΙ ΑΝΘΡΩΠΟΣ ΕΥΓΕΝΙΚΟΣ ΚΑΙ ΜΕ ΑΝΟΙΚΤΟ ΜΥΑΛΟ, ΔΕΚΤΙΚΟΣ ΣΤΙΣ ΑΠΟΨΕΙΣ ΤΩΝ ΑΛΛΩΝ,
ΕΣΤΩ ΚΑΙ ΕΑΝ ΔΕΝ ΣΥΜΦΩΝΕΙ ΜΑΖΙ ΤΟΥΣ.
ΕΙΝΑΙ ΠΑΣΙΦΑΝΕΣ ΠΩΣ, ΕΣΥ, ΤΙΣ ΙΔΙΟΤΗΤΕΣ ΑΥΤΕΣ ΔΕΝ ΤΙΣ ΕΧΕΙΣ.
ΑΝΤΙΘΕΤΩΣ, ΟΙ ΙΔΙΟΤΗΤΕΣ ΟΙ ΟΠΟΙΕΣ ΣΕ ΔΙΑΚΡΙΝΟΥΝ ΕΙΝΑΙ Η ΑΝΑΝΔΡΙΑ, Η ΘΡΑΣΥΔΕΙΛΙΑ ΚΑΙ Η ΑΣΕΒΕΙΑ ΠΡΟΣ ΠΡΟΣΩΠΑ ΚΑΙ ΚΑΝΟΝΕΣ.
ΑΥΤΕΣ ΟΙ ΙΔΙΟΤΗΤΕΣ ΣΟΥ, ΤΑΙΡΙΑΖΟΥΝ ΠΕΡΙΣΣΟΤΕΡΟ ΣΤΑ ΧΑΜΑΙΤΥΠΕΙΑ ΣΤΑ ΟΠΟΙΑ ΣΥΧΝΑΖΕΙΣ ΚΑΙ ΑΠΟ ΤΑ ΟΠΟΙΑ ΔΕΝ ΚΑΝΕΙΣ ΚΑΜΙΑ
ΠΡΟΣΠΑΘΕΙΑ ΝΑ ΑΠΟΚΟΛΛΗΘΕΙΣ.
ΨΥΧΟΠΑΘΗΤΙΚΑ ΑΤΟΜΑ, ΟΠΩΣ ΕΣΥ, ΔΕΝ ΧΩΡΑΕΙ Η ΛΙΣΤΑ ΑΥΤΗ.
ΠΙΣΤΕΥΩ ΠΩΣ ΕΚΠΡΟΣΩΠΩ ΤΟ ΚΟΙΝΟ ΑΙΣΘΗΜΑ ΤΩΝ ΜΕΛΩΝ ΤΗΣ ΛΙΣΤΑΣ ΑΥΤΗΣ ΟΤΑΝ ΣΕ ΚΑΛΩ ΝΑ:
1. ΖΗΤΗΣΕΙΣ, ΑΜΕΣΑ, ΣΥΓΝΩΜΗ ΑΠΟ ΤΟΝ ΚΩΣΤΑ ΚΑΙ ΤΑ ΥΠΟΛΟΙΠΑ ΜΕΛΗ ΓΙΑ ΤΗΝ ΙΤΑΜΗ ΚΑΙ ΑΚΡΩΣ
ΠΡΟΣΒΛΗΤΙΚΗ ΣΥΜΠΕΡΙΦΟΡΑ ΣΟΥ
2. ΝΑ ΔΗΛΩΣΕΙΣ ΤΟ ΔΙΑΚΡΙΤΙΚΟ ΚΑΙ ΤΟ ΟΝΟΜΑ ΣΟΥ
3. ΕΑΝ ΔΕΝ ΚΑΝΕΙΣ ΚΑΙ ΤΑ ΔΥΟ ΠΡΟΗΓΟΥΜΕΝΑ, ΝΑ ΤΣΑΚΙΣΤΕΙΣ ΚΑΙ ΝΑ ΦΥΓΕΙΣ ΑΠΟ ΤΗ ΛΙΣΤΑ
ΑΥΤΗ (ΚΟΙΝΩΣ, ΤΟ ΚΟΥΒΑΔΑΚΙ ΣΟΥ ΚΑΙ ΣΕ ΑΛΛΗ ΠΑΡΑΛΙΑ ΓΙΑΤΙ ΒΡΩΜΑΝΕ ΤΑ ΧΝΩΤΑ ΣΟΥ).

Προσωπικά δεν ?ε ενόχλησε το λεξιλόγιο του Orfeus20 (κρί?α το όνο?α) ούτε η ανωνυ?ία (ο κάθε ένας δικαιούται να έχει τα complex του) αλλά το ύφος και το αναιτιολόγητο.

Ας ?ας εξηγήσει που ακρι?ώς στηρίζει αυτά που λέει και το κακό ύφος του, και αν ?ας πείσει, εγώ θα το δεχτώ (sory Κώστα).

Ετσι θα δικαιολογήσει και το όνο?α του Ορφέα που έχει (αν ?πορεί) ειδάλως ας το αλλάξει είναι κρί?α.

Τάσος

Subject: [The Greek Ham Radio] Tourkokyprioi...

Σήμερα έψαχνα λίγο DX-spots προηγούμενων ημερών στο
DX-cluster και βρήκα τα ακόλουθα δυο ενοχλητικά.

7037.5 1B0AG 8-Mar-2003 2131Z RTTY 1600Hz QSL VIA TA2DS <IZ7DMT>
7035.8 1B0AG 8-Mar-2003 2018Z RTTY <OK1YM>

Πληροφοριακά 1B είναι το "ανεπίσημο" prefix για το
κατεχόμενο μέρος της Κύπρου, αναγνωρίζεται μόνο από
τους Τούρκους και δεν μετράει για DXCC.

Για τον TA2DS το QRZ.COM CD-ROM δίνει:

Selim Kanbeken (ex TA2CS)
P.O. Box 30
81411 Kartal, Istanbul

A group of German operators will be active from Sudan as ST0RY.
They will depart from Frankfurt on March, 16 and will stay for
aprox. 3 Weeks. First activity is to be expected on March 20./21
after clearing customs and setting up the Station.
Their main focus wil be on Lowbands, WARC, RTTY and 6m.
They will use 3 complete stations with PA, vertical, Beam and some
wire.

The Operators are:

DK7YY, Falk, CW
DL3DXX, Dietmar, CW
DL5NAM, Chris, SSB/RTTY
DL7FER, Felix, SSB/RTTY
DL9NDS, Uwe, SSB/RTTY

QSL to DL5NAM via buro or direct to

Christoph Sauvageot
Guttenburg 19
91322 Graefenberg
Germany

For more Information see their homepage at

523. BARTG RTTY contest

Yahoo group: thegreekhamradio
Date: 2003-03-17 09:10:11 UTC
From: Costas
Topic: 523   Message: 523

Γειά σας,

Πως σας φάνηκε το χτεσινό BARTG RTTY contest; Είδα αρκετά callsigns: SV8CS, SV1DPP, SV1CIB, SV2AEL, SV8DTD κ.α.

Το contest είχε και τα τυχερά του: συμμετείχε ο DP1POL από την Ανταρκτική (AN-016) με εξαιρετικά αδύνατο σήμα και εμφανίσθηκε (χωρίς να συμμετέχει) το Svalbard JW0HU στους 21 MHz.

Την Κυριακή το πρωΐ περνούσε η Ιαπωνία στα 10 m αρκετά καλά. Οταν εγώ λέω ότι περνάει, κάποιοι συνάδελφοι κάνουν 150 QSO με Ιάπωνες, μια και με εμποδίζουν τα Τουρκοβούνια.

Προσωπικά δεν το κυνήγησα συστηματικά, μια και δεν μπορούσα να αφιερώσω τον αναγκαίο χρόνο, όμως το διασκέδασα αρκετά, με εξαίρεση το βράδυ της Κυριακής που κάηκε ο ανορθωτής του τροφοδοτικού ενώ είχα QSO με τον GU0SUP στους 7 MHz.

Πληροφορούμαι επίσης ότι ο SV1BJW έκανε μεγάλο score στο Russian DX σε CW.

Can't resist this one. Just received several items of mail here
which had
been lost for several months on the LL system. Some it if was sent
in October
2002. What amazed me was the mail meant for this part of the world
was sent
to anyone who would take it and it travelled over Europe from
North America
till it finally got moved onto the radio system on the 19th of
March 2003. I
must admit it was held up by one station who must have been off
line for
several months.

Once it hit the radio forward system, it arrived intact in
less than 24
hours. Quite a bit quicker than the LL system it would appear.

The Internet is not used at VK5ATB BBS. This is an Amateur RADIO
site.
VK5ATB, putting RADIO back into Digital Store and Forward Networking.

Best 73. Pops, VK5ATB @ VK5ATB.#BVL.#SA.AUS.OC

3A - Max, IK2YSE reports the will be active (on 10-40 metres CW
with some
PSK31) as 3A/IK2YSE from Monaco on 28-31 March. All of the
QSOs will
be confirmed automatically via the bureau.
6W - John, F5VHQ will be active (on 40-10 meters SSB) as
6W/F5VHQ from
Saint Louis, Senegal from 19 April to 1 May. QSL via home
call. [TNX
F5NQL]
9M2 - Keith Kerr, GM4YXI is going again to Malaysia and, as
always, he
will try to activate various islands. Firm plans thus
far include
Pulau Tioman (AS-046) with Rich, G4ZFE on 22-23 March.
Look for
9M2/GM4YXI (SSB) and 9M2/G4ZFE (CW) on 20, 17, 15, 12 and
10 metres.

QSL 9M2/GM4YXI via N3SL, QSL 9M2/G4ZFE via home call
(bureau) or
direct to Richard Everitt, #2601, PNB Darby Park Jalan
Binjai, Kuala
Lumpur 50450, Malaysia. [TNX GM3WOJ and N3SL]
A3 - Six German operators (namely DL3OI, DL4WG, DL5LYM,
DL8DYL, DL8YRM
and DL9DRA) will be active as A35XM from Tonga from 19
March to 4
April. Further information at
http://www.df3cb.com/a35xm; QSL via
DL8YRM (e-mail requests for bureau cards are
welcome at
dl8yrm@...). [TNX NG3K]
A3 - Janusz, SP9FIH reports he will be active (on 10-80 metres
SSB) from
Tonga from 19 March to 14 April. He will collect his
licence upon
arrival. QSL via SP9FIH (Janusz Wegrzyn, P.O. Box
480, 44-100
Gliwice, Poland).
CO - The CL9 prefix will be aired for the first time during
the CQ WW
WPX SSB Contest, when a group of operators from the
Federacion de
Radioaficionados de Cuba (http://frc.co.cu) will be
using CL9C
(Multi-Multi). [TNX CO2OJ]
F - The Radio Club of the Council of Europe will be active
as TP6CE
during the BARTG Spring RTTY Contest (15-16 March). QSL
via F5LGF.
[TNX F6FQK]
FM - Bernard, F5LBG will be active as FM/F5LBG from Martinique
(NA-107,
DIFO MN-001) from 13 March to 12 April. He will
operate on 6-80
metres CW. QSL via home call either direct or through
the bureau.
[TNX F5NQL]
FO_mar - I2MOV, I2YSB, IK1AOD, IK1PMR, IK2DIA, IK2GNW and IK2WXV
will be
active from the Marquesas Islands (OC-027) from 25 April
through 9
May. They plan to have three stations on all HF bands
plus one
station for 6 metres (a beacon will be active every hour
and every
half hour for 5 minutes on 50105). The call is still
unknown. QSL

via I2YSB. Further information at
http://digilander.libero.it/i2ysb/
[TNX I2YSB]
HH - Al/K3VN has had to drop from the Team Haiti [425DXN 611]
due to work
commitments, but has been replaced by another Florida
DXPedition
Group member, Bob/K9MDO. Look for HH4/K4QD, HH4/W4WX,
HH4/N2WB and
HH4/K9MDO to be active from the Northwest Haiti
Christian Mission
until 21 March. Look for them to participate in the
BARTG RTTY
Contest as a Multi-Single entry using HH4/K4QD. The
Team Haiti's
web site is at http://www.geocities.com/n2wb2003/ [TNX
K4QD]
HL - A group of operators from the Korea AnSung DX Club will
be active
(on 80-10 metres CW, SSB and RTTY) as D70HL/2 from
Chebu Island
(AS-105) on 4-6 April. QSL via bureau. [TNX JI6KVR]
I - Andrea, IK7YTT reports he will operate from San
Domino in the
Tremiti Islands (IL7, EU-050) from 28 March to 1
April. He will
participate in the CQ WW WPX SSB Contest, possibly as IL7T
(SOSB 20
metres Low Power).
I - A group of operator from "Radio Group Etna" will be
active from
Filicudi Island (EU-017, IIA ME-003) on 24-27 April.
The plan to
operate on HF /SSB and CW), 6 and 2 metres. QSL via
IT9EJW either
direct (Alfio Bonanno, P.O. Box 18, 95028 Valverde - CT,
Italy) or
through the bureau. Further information at
http://www.rgetna.org
[TNX IT9EJW]
J5 - Simone, IV3NVN/J5UDX became active as J5UCX from
Pecixe Island
(AF-093) on 12 March. He expects to be there until around
17 March,
then he will return to the mainland and be active again
as J5UDX
until early April [425DXN 618].
JA - Look for Take, JI3DST/6 to be active (on 40, 17, 15, 12,
10 and 6
metres SSB) from Miyako Island (AS-079) on 20-23

March. QSL via
bureau. [TNX OPDX Bulletin]
JA - A group of operators from Kitagawa ARC will be active
(on 80-6
metres SSB and CW) as JH1ZHU/1 (but they might also
use their
individual calls/1) from the North Izu Islands (AS-008)
on 21-23
March. QSL via JH1ZHU/1 via JH1ZHU, others via their
respective home
call, either direct or through the JARL bureau. [TNX
JI6KVR]
JA - Taka, JR3TVH/6 will be again active from Miyako Island
(AS-079)
starting around 9 UTC on 1 May until around 10 UTC on the
5th. Look
for activity on 6, 10, 12, 17 and 20 metres SSB and CW.
QSL via home
call either direct or through the bureau. [TNX JI6KVR]
JA - Look for Toshi, JM1PXG/6 to be active from Tokara
Kuchino-shima
(AS-049) starting around 1 UTC on 3 May until around 2
UTC on the
4th. He plans to operate on 40, 20, 17, 15, 12 and 10
metres CW
only. QSL via home call either direct or through the
JARL bureau.
[TNX JI6KVR]
JA_ant - Obi, JA0WJN is currently active as 8J1RF from Dome
Fuji Station
(WABA JA-04), Antarctica (AN-016). [TNX JA0WJN]
JW - Francois, F8DVD will be active (on 10-80 metres SSB) as
JW/F8DVD
from Svalbard on 20-24 April. He will operate from the
JW5E club
station in Longyearbyen, Spitzbergen (EU-026). QSL via
home call
either direct or through the bureau. [TNX F5NQL and F6DWX]
KH3 - Bert, V73GOD/WH7USA will return to Johnston on 18-20 March.
He plans
to operate as either KJ6BZ or KH3/WH7USA during his spare
time. [TNX
The Daily DX]
OH - Special event station OH3T will be active (on at least on
80, 40,
20, 15 and 10 metres SSB, possibly also CW) on 22 March to
celebrate
the European Year for the Disabeld. QSL via bureau. [TNX
OH2HSJ]
OZ - Look for Ela, OZ/DL3YMK and Torsten, OZ/DH3YMG to be

active on 40,
20 and 15 metres from Vendsyssel-Thy (EU-171) on 5-17
April. [TNX
www.rsgbiota.org]
P4 - Andy, AE6Y will be active as P40Y from Aruba (SA-036)
on 22-30
March, CQ WW WPX SSB Contest included. QSL via home call.
[TNX AE6Y]
PY0_spp- Joca, PS7JN [425DXN 615] confirms he will be active from
St. Peter
and St. Paul Rocks (SA-014) during the first two weeks of
April. He
will operate as ZW0S mainly on 20, 15 and 10 metres SSB,
with some
activity on 40 metres and the WARC bands. He currently
has computer
problems, and he is unlikely to be able to operate RTTY.
Joca will
be working on the island, and he plans to be QRV after 19
UTC until
3 UTC. QSL via PS7JN. Updates will be
posted at
http://www.qsl.net/ps7jn
R1F - Valery/RD3AF, Valery/RX3DU and Victor/UA3AKO were
expected to be
active (on 160-10 metres CW, SSB and RTTY) as R1FJ (QSL
via DL6ZFG)
from Franz Josef Land (EU-019) until 19 March. However,
latest news
from Boris, RU3AX is that all flights in the region are
grounded due
to bad weather; if there is not any imrpvement in the
near future,
the operation will be cancelled.
ST - The ST0RY group of operators [425DXN 608] will arrive in
Khartoum on
the 17 March and will be there until 2 April. They will
concentrate
on the low bands, WARC, RTTY and 6 metres with three
stations.
Further information, including pilots, is
available at
http://www.qsl.net/st0ry.
SV5 - Goran, SM0CMH will be active (on 10-80 metres CW) as
SV5/SM8C from
Kalymnos (EU-001) from 24 March to 4 April. QSL via home
call either
direct or through the bureau. [TNX SM0CMH]
T8 - Tosy, JA6VZB will be active (on 160 metres only) as
T88JA from

Peleliu Island, Palau (OC-009) on 19-22 March. QSL via
home call.
[TNX The Daily DX]
TF - TF3W is the new contest call for the IRA (Icelandic Radio
Amateurs)
radio club. They are currently moving to a new club house
and most
of the antennas are down, but they will try to participate
in the CQ
WW WPX SSB Contest using a vertical. [TNX TF3AO]
TU - David, F5THR will be active as TU5CD from the Ivory Coast
from 23
March to 1 July. QSL via F8BON either direct or through
the bureau.
[TNX La Gazette du DX]
UA - RZ0OH, UA0OO, UA0OZ and RZ0OA plan to operate, possibly as
RZ0OWI/p,
from the Lake Baikal's Chivyrkujsky Bay South (RR-2108,
not IOTA)
and North Islands (RR-2107, not IOTA) on 13-17 March.
[TNX WRC/RRA
Bulletin]
VK - Steve, G0UIH reports he will be active again as VK2IAY/4
between 21
November and 21 December. Exact itinery is yet to be
finalised, but
the following activations are in the initial stages of
planning:
Hook Island (OC-160) around 1 December for 7 days,
Dunk Island
(OC-171) around 9 December for 5 days and Moreton
Island (OC-137)
around 15 December for 4/5 days. Further information is
expected in
due course. QSL via G0UIH either direct or through
the bureau.
Pictures and information on Steves' activations is
2002 (OC-142,
OC-137 and OC-172) are available at
www.rsgbiota.org/vk2iay.htm
W - The Fall River ARC will operate on all bands as W1ACT from
Martha's
Vineyard (NA-046) on 2-4 May. QSL via N1JOY (Roland
Daignault, 19
Davis Road, Westport, MA 02790, USA), [TNX
www.rsgbiota.org]
XE - Next month a group of operators from Radio Club Cancun
will be
active (on 10-160 metres CW, SSB and RTTY) as XF3RCC
from the

following islands: Cozumel (NA-090) on 3-6 April, Holbox
(NA-045) on
6-8 April, Mujeres (NA-045) on 8-11 April and Contoy
(NA-045) on
11-13 April. The operation will celebrate the first
anniversary of
RCC. QSL via XE3RCC (P.O.Box 1883, Cancun, Quintana
Roo 77500,
Mexico). [TNX XE2NN]
XZ - Frank, DL4KQ (XY4KQ) is planning an IOTA operation
from the
Yangon/Irrawaddy/Pegu Region group (AS-???), Myanmar for
3-4 days
between 6 and 12 April. Actual dates depend on local
situation and
are stiil to be decided, as well as the call to be used.
Frank, who
might be joined by another operator, plans to be active
on 10-80
metres CW and SSB. QSL via DL4KQ. Further information will
available
at http://www.dx-pedition.de [TNX DL4KQ]
YB - Ten operators from Indonesia (namely YB0AI, YB0DPO,
YB0ECT, YB0KLI,
YB0LBK, YB8BHV, YB8CR, YB8HGM, YB8HZ and YC8CPV) will be
active as
YE8A from Takabonerate (OC-242) on 26-31 March. They plan
to operate
on 10-80 metres SSB, CW, SSTV, RTTY, PSK31 and Satellite
(AO-40) and
to participate in the CQ WW WPX SSB Contest. QSL via
YB8BRI. The web
site for the operation is at
http://takabonerate.aerocity.net [TNX
YB0ECT]
YB - Look for Rivai, YB2MTA/p and Pri, YC2CJQ/p to be active
from Panjang
Island (OC-237) on 28-30 March. On Friday they will
try to work
PSK31 and CW, then they will participate in the CQ
WW WPX SSB
Contest. QSL for both via via EA7FTR (Francisco
Lianez Suero,
Asturias 23, 21110 Aljaraque, Huelva, Spain). [TNX EA7FTR]
YK - Saad, N5FF plans to operate again from Syria next month.
His current
and tentative plan is to be active as YK1BA from 15 until
27 April,
give or take a day or two, and possibly extend his stay
for few more

days up to one week. The purpose of the trip is not
amateur radio,
so Saad's operating will be very spotty and not extensive
at all. He
hopes to be able to operate at least 3-4 hours a day,
mainly on 20
metres (+/- 14195 kHz SSB and 14045 kHz CW) unless the
propagation
is better on other bands (10-40 metres) at the time. He
plans to
work the Americas and Pacific between 1-4 UTC, Europe
and Africa
between 19-22 UTC and possibly some local afternoons (11-
14 UTC).
QSL via N5FF, either direct or through the bureau. [TNX
The Golist]
YS - Holger (DL7IO, http://www.dl7io.de/news.html), Birgit
(DL7IQ) and
Cisco (YS1CF) will be active (on 10-80 metres SSB, SSTV,
RTTY and
CW) from various sites in El Salvador between 24 March and
11 April.
They will be using YS1/homecall from the San Salvador area
and HU1M
(Multi-Single) during the CQ WW WPX SSB Contest. They
also plan to
operate from Meanguera Island (NA-190) as YS3/homecall and
to take a
side trip to Honduras and be active as HR4/homecall from
El Tigre
(NA-060). QSLs for all via DK7AO. [TNX VE3LYC]
ZL - Steve, G4EDG will be active as ZL1/G4EDG from
Waiheke Island
(OC-201) from about 14 March for 4-5 days. This will be a
20m QRP CW
only operation, best time for Europe is around 6 UTC. QSL
via home
call. [TNX G4EDG]
ZP - Tom/ZP5AZL and Jorge/CX6VM will participate in the CQ WW
WPX SSB
Contest as ZP40Z (Multi-Single) from Asuncion,
Paraguay. QSL via
W3HNK. [TNX CX6VM]

PACIFIC TOUR ---> Jeffrey, KI0RO reports he will be active (on 10-
40 metres
CW and SSB) from the Marshall Islands and Micronesia as follows:
23-28 March V73/KI0RO Roi-Namur, Kwajalein (OC-028)
30 March-2 April V63JE Kosrae (OC-059)
4-7 April V63JE Pohnpei (OC-010)

This is not a DXpedition and Jeffrey will be QRV as time permits.
All QSLs
via KI0RO.

MDXC ---> Antonio, IZ8CCW reports that several members of the Mediterraneo DX
Club (http://www.mdxc.org) will be using special calls between 1 and 6 April
to celebrate the 5th anniversary of the Club. Look for IB0MDC (from Ventotene
Island, EU-045), IR1MDC, IR2MDC, IR6MDC, IR8MDC, IU8MDC, IR8M (from the MDXC
HQ), IO8MDC (from Dino Island, EU-144), II8MDC and IR9MDC from Italy, as well
as for YC3MDC from OC-021 and EA8MDC from the Canary Islands (AF-004). A
special QSL will be available from the MDXC (P.O. Box 245, 87100 Cosenza -
CS, Italy); bureau cards should be routed via IZ8BGY. The operators involved
in the celebration are EA8AKN, I8JOQ, IK1NLZ, IK2TDM, IK2THN, IK2UVR, IK2VUC,
IK2WZQ, IK2ZJN, IK6QGD, IK6TUP, IK8TPB, IK8UHA, IK8VRH, IK8VRN, IK8YVG,
IT9DAA, IT9EJW, IT9SSI, IW8AXU, IW8ERC, IW8EUE, IW8RMN, IZ1BZV, IZ1DUI,
IZ2ABN, IZ2ACG, IZ2EIH, IZ6AWB, IZ6EGW, IZ8AZZ, IZ8BGY, IZ8CCW, IZ8DDG,
IZ8DPL, IZ8DPO, IZ8DWJ, IZ8DWL, IZ8EPX, IZ8EQB, IZ8FAV, IZ8FBZ, YC3BDJ,
YC3DIK, YC3IZK and YC3TT.

Καλησπέρα σε όλους,

Έστειλα ένα e-mail σε αυτούς τους κυρίους και περιμένω απάντηση τους.

Αυτά τα οποία τους έγραψα είναι τα εξής:

Αγαπητοί Κύριοι,

Στον δικτυακό σας τόπο έχετε μια σελίδα στην οποία αναγράφονται οι συχνότητες των L.P.D. τα οποία χρησιμοποιείτε στις διάφορες επαγγελματικές σας δραστηριότητες.

Με το παρόν σας γνωστοποιώ τα εξής

1. Οι συχνότητες τις οποίες χρησιμοποιείτε, ανήκουν στο φάσμα ραδιοσυχνοτήτων τις οποίες η Ε.Ε.Τ.Τ. (Εθνική Επιτροπή Τηλεπικοινωνιών και Ταχυδρομείων) έχει εκχωρήσει δια νόμου στην υπηρεσία ραδιοερασιτέχνη.
2. Στις προαναφερθείσες συχνότητες επιτρέπεται να εκπέμπουν ΑΠΟΚΛΕΙΣΤΙΚΑ ΚΑΙ ΜΟΝΟΝ ραδιοερασιτεχνικοί σταθμοί. Οι εν λόγω σταθμοί κατέχουν διακριτικό κλήσης επίσημα εκχωρημένο από το Υπουργείο Μεταφορών και Επικοινωνιών, και οι χειριστές των σταθμών είναι επίσημα αναγνωρισμένοι από το Ελληνικό κράτος και είναι κάτοχοι Πτυχίου Ραδιοερασιτέχνη το οποίο εκχωρείται ΜΟΝΟΝ από το Υπουργείο Μεταφορών και Επικοινωνιών.
3. Οι εν λόγω συχνότητες χρησιμοποιούνται αποκλειστικά για ερασιτεχνικούς σκοπούς και ΟΧΙ για επαγγελματικούς, όπως εσείς κάνετε.

Από τα παραπάνω, καταλαβαίνετε πως η χρήση των ραδιοσυχνοτήτων αυτών από άτομα χωρίς άδεια ραδιοερασιτέχνη και διακριτικό κλήσης είναι παράνομη.
Ο σκοπός για τον οποίο χρησιμοποιείτε τους ασυρμάτους σας είναι επαγγελματικός, άρα θα έπρεπε να κάνετε μια απλή αίτηση στη Ε.Ε.Τ.Τ. για να σας εκχωρηθούν άδειες ραδιοδικτύου, ασυρμάτου, και ορισμένες συχνότητες στις οποίες θα μπορέσετε να λειτουργείτε νόμιμα.

Σας ευχαριστώ για την κατανόηση

Ζαμπέτας Εμμανουήλ

Χλωμό να βάλει κάποιος linear νομίζω σε ένα τέτοιο πομποδέκτη
παιδιά...
> Από ότι ξέρω στην Ελλάδα για επικοινωνίες φωνής επιτρέπονται
> μόνο οι πομποδέκτες PMR (446 MHz). Νομίζω LPD επιτρέπονται
> μόνο για data και με περιορισμούς διάρκειας εκπομπής.
Εγώ δεν γνωρίζω πολλά, απλά ξέρω οτι τα pmr έχουν αντικαταστήσει
πλέον τα lpd εδώ και κάποιο χρονικό διάστημα.
> Δυστυχώς δεν είναι "η μπάντα μας". Και εμείς την έχουμε σε
> δευτερεύουσα βάση γιατί το ΥΜΕ προσπαθεί να εξυπηρετήσει
> διάφορα συμφέροντα.
Ποια δεν είναι η μπάντα μας, τα uhf; Σοβαρά μιλάμε ;
> Οσον αφορά τα linears, δεν έχουν. Ομως με μια μικρή επέμβαση
> στον πομποδέκτη εκπέμπουν με αρκετά μεγάλη ισχύ.
Γύρω στο μισό watt αν δεν κάνω λάθος.

>> Τα LPD (Low Power Devices) διαθέτουν 68 κανάλια από 433,075Mhz έως
>> 434,750Mhz με βήμα 25Khz.
>> Είναι σύννομη η χρήση τους μέσα στην μπάντα μας;
>
> ...είναι διεθνώς πλέον κατοχυρωμένες οι συχνότητες αυτές για χρήση LPD μέσα
> στην μπάντα μας, συνεπώς δεν καταλαβαίνω γιατί πρέπει ν'ανησυχούμε...

Για να τα βάλουμε σε μια σειρά, γιατί πρέπει να καθορίσουμε με ακρίβεια τι επιτρέπεται και τι όχι, με βάση τις διατάξεις που μας επιβάλουν οι Μανδαρίνοι. Συγγνώμη που θα είμαι λίγο φλύαρος, αλλά καλύτερα να είμαστε ενημερωμένοι σωστά.

Αρχικά το θέμα προέκυψε από κάποια λέσχη 4x4 η οποία προτείνει στους εκδρομείς να χρησιμοποιούν για επικοινωνία μεταξύ αυτοκινήτων φορητούς πομποδέκτες LPD (10 mW στους 430 MHz) ορίζει ως συχνότητα κλησεως το δίαυλο 38 (434000 kHz). Μάλιστα συνιστά να μην χρησιμοποιούνται οι δίαυλοι 63 και 67 που συμπίπτουν με την έξοδο των επαναληπτών RU-1 και RU-5. Βλέπε και http://www.4x4ekdromes.gr/radio.htm .

Στη ζώνη 430 - 440 με τον ισχύοντα ΕΚΚΖΣ σε πρωτεύουσα βάση είναι τα RADAR (radiolocation service -RL). Πρόκειται για στρατιωτικά RADAR έρευνας αέρος μεγάλης εμβελείας. Από ότι γνωρίζω οι ελληνικές Ε.Δ. δεν διαθέτουν τέτοια. Στο διαγωνισμό για το ΑΣΕΠΕ (AWACS) υπήρχε μια υποψηφιότητα με RADAR στους 430 MHz (το E-2C Hawkey) αλλά έχασε, και το Eriye που κέρδισε έχει, ευτυχώς, RADAR στους 3.2 GHz. Δυστυχώς πρόσφατα υπάρχει ενδιαφέρον από διάφορες χώρες για την λειτουργία RADAR τηλεπισκόπησης εγκατεστημένων σε δορυφόρους.

Σε δευτερεύουσα βάση είναι η Ραδιοερασιτεχνική Υπηρεσία (AT). Αυτό σημαίνει ότι δεν μπορούμε να ζητάμε προστασία από παρεμβολές που προέρχονται από τα RADAR.

Επιπλέον εφαρμόζονται οι υποσημειώσεις 34B, 34E, 57 και 58. Η υποσημείωση 58 είναι ανώδυνη, αναφέρεται στη λειτουργία της Υπηρεσίας Ερασιτέχνου μέσω Δορυφόρου.

Η 57 αναφέρεται σε χρήση για βιομηχανικές, επιστημονικές και ιατρικές εφαρμογές, με ειδική άδεια και συντονισμό με γειτονικές χώρες. Αυτές οι εφαρμογές μπορεί να έχουν μεγάλη ισχύ αλλά μικρό μόνο μέρος ακτινοβολείται ελέυθερα (433.050 - 434.790 MHz, κεντρική συχνότητα 433.920 MHz).

Η υποσημείωση 34B επιτρέπει τη λειτουργία συσκευών τηλεμετρίας και τηλεχειρισμού χαμηλής ισχύος σύμφωνα με τη Σύσταση T/R 20-05 του CEPT. Χαρακτηριστικό παράδειγμα πολλές ηλεκτρονικές κλειδαριές αυτοκινήτων και κάποιοι ασύρματοι μετεωρολογικοί σταθμοί που κυκλοφορούν στην αγορά (433.150 - 433.650 MHz). Αυτά τα συστήματα μέχρι στιγμής δεν έχουν προκαλέσει σοβαρά προβλήματα στους έλληνες ραδιοερασιτέχνες.

Στην περιοχή μου (Κυψέλη) λαμβάνω πολύ ασθενή τηλεμετρικά σήματα σε συχνότητες 433875.0 και 433962.5 kHz καθώς και carrier S5 στην έξοδο του RU-2 (434650.0 kHz).

Η 34E είναι η πιό επικίνδυνη. Αυτή επιτρέπει πομποδέκτες μικρής ισχύος LPD (έως 10 mW) στη ζώνη ISM (433.050 - 434.790 MHz) σύμφωνα με τη σύσταση T/R CEPT 01-04. Επομένως οι πομποδέκτες LPD είναι νόμιμοι στην Ελλάδα και δεν μπορούμε να διαμαρτυρηθούμε.

> ... αυτοί που πρωτοστάτησαν στις εισαγωγές παρόμοιων συσκευών,
> είναι αντιπρόσωποι δικών μας πομποδεκτών, που δυστυχώς είναι
> ΚΑΙ αδειούχοι.

Σε μερικές χώρες κυκλοφόρησαν πομποδέκτες φωνής χαμηλής ισχύος για τη ζώνη αυτή. Πραγματικά με 10 mW και ενσωματωμένες (μη αφαιρούμενες κεραίες) δεν δημιουργείται πρόβλημα. Οι κατασκευαστές όμως των πομποδεκτών (ασιάτες βασικά) έχουν διαμορφώσει τα κυκλώματα έτσι ώστε με ένα μικρό jumper ή και απλό αναπρογραμματισμό να εκπέμπουν με ισχύ 0.5 W ή και περισσότερο. Εδώ έχουν την ευθύνη οι έμποροι, οι οποίοι στην προσπάθειά να πουλήσουν κάνουν την μετατροπή επί τόπου και πωλούν μια συσκευή που δεν είναι σύμφωνη με τις προδιαγραφές γιατί εκπέμπει με μεγάλη ισχύ.

Πολύ σωστή και η παρατήρηση για "αδειούχους".

Υπάρχει φώς στον ορίζοντα? Μάλλον ναι, αφού ευτυχώς νομιμοποιήθηκαν οι πομποδέκτες PMR στη νέα ζωνη 446 - 446.1 MHz. Η αγορά έχει γεμίσει πλέον με PMR και οι υφιστάμενοι πομποδέκτες φωνής PLD (πειραγμένοι και απείραχτοι) σταδιακά εξαφανίζονται.

> Εκείνο που θα μπορούσαμε να κάνουμε σαν αντίμετρα, είναι να
> εκπέμπουμε όσοι περισσότεροι μπορούμε στις συχνότητες αυτές, με

> όση ισχύ μας επιτρέπει η άδειά μας....

Ναι, αυτή είναι μια σωστή κίνηση. Στην πραγματικότητα με χρήση tone squelch δεν υφιστάμεθα σοβαρές ενοχλήσεις από τόσο ασθενή σήματα και ίσως αναγκάσουμε τους απομένοντες χρήστες LPD να μας αδειάσουν τη γωνιά. Καλόν είναι να χρησιμοποιούμε τη συχνότητα 434000 kHz για επικοινωνίες simplex με όση ισχύ έχουμε στη διάθεσή μας.

>> Βασικά πρέπει πρώτα η Ένωση Ελλήνων Ραδιοερασιτεχνών να
>> ενημερώσει το 4x4 group σχετικά με τη νομοθεσία για τα
>> PMR και τα LPD.
>
> ε, ναι, αν εμπλακεί η ενωση, τα προβλήματα μας "τέλος"!
> Μπορούμε να κοιμόμαστε..... ήσυχοι!!!!

Δυστυχώς δεν πρόκειται να ασχοληθεί, όπως κατάλαβα με λύπη μου απόψε.

>υπεύθυνους των επαναληπτών.
Έχω επανελλημένα "ενοχλήσει" με e-mail και PACKET MAILS την ΕΕΡ για
τα ΧΑΛΙΑ του Ρ-6 της Θεσ/νίκης αλλά δεν έχουν γίνει και
πολλά..Δυστηχώς έχουμε και τους μόνιμου repeater-άκιδες όπως τους
αποκαλεί ένας συνάδελφος και του ΈΧΟΥΝ ΒΓΑΛΕΙ τα μάτια..΄
>Και ότι σύμφωνα με τους νόμους οι επαναλήπτες πρέπει να δουλεύουν
>σωστά.
no comments,
> ένας επαναλήπτης δεν λειτουργεί σωστά για πάνω από 6 μήνες (και
>δεν είναι αποκλεισμένος από το χιόνι) θα χάνει την άδειά του και ο
>εγκαθιστών σύλλογος θα πρέπει να τον κατεβάσει"
χλωμόooooo,
> αποδείξει με ηχογράφηση ή με άλλο τρόπο πιά ήταν η αντικανονική
> λειτουργία και θ πρέπει να καθοριστέι ο τρόπος αντίδρασης , δηλ
> σύστάσεις, γράμμα στο ΥΜΕ, κλείσιμο του επαναλήπτη κλπ.
Συμφωνώ ΑΠΟΛΥΤΑ...Μόνο που δεν εφαρμόζεται στην Ελλάδα.
> συλλόγους και να τους πιέζετε, μόνο τότε θα αναλάβουν τις
>υποχρεώσεις τους πολλα 73 Τάσος
Μάλλον έχεις δίκιο...κάπως έτσι είναι τα πράγματα...δυστηχώς λίγοι
είναι active πλεόν στα v/u...Ας βγουν οι καινούργιοι να "πάρουν τα
ηνία"...

3X - Leo, UT1WL is currently working in Conakry (Guinea) and has
recently
received the licence to operate as 3XY1L during 2003. This
is not a
DXpedition and Leo will be active (with a battery powered
rig mostly
on 20 and 15 metres, but later on he will try to be QRV on
40 metres
as well) as time permits, typically after 18 UTC and

during the
weekends. He also plan to operate from both the
IOTA groups
allocated to Guinea, i.e the Loos Islands (AF-051)
and the
unnumbered Tristao Islands. Details are expected in due
course. QSL
via UY5XE either direct (George Chlijanc, P.O. Box 19,
79000 Lviv,
Ukraine) or through the bureau. [TNX UR5WCW]
9G - Derek, F5VCR reports he will be active again as 9G5MD
from Ghana
between 23 March and 4 April, including a SOAB LP entry in
the CQ WW
WPX SSB Contest. QSL via home call.
9Y - Sigi, DL7DF will be active as 9Y4/DL7DF from 23 March to
10 April.
He plans to operate on all bands CW, SSB, RTTY, PSK-31
and SSTV.
[TNX NG3K]
C5 - Six operators from Latvia, Lithuania and Russia will
operate from
The Gambia between 25 March and 7 April. Look for C53CW
(YL3CW),
C53KL (YL2KL), C53ZF (YL1ZF), C56HF (RZ4HF), C56HTX
(RZ4HTX) and
C56TA (LY2TA) to be active on all HF bands CW, SSB and
RTTY. During
the CQ WW WPX SSB and EA RTTY contests they will use C5P
(QSL via
YL2KL). [TNX YL2KL]
CT - CS5M is the special callsign to be used on 23 March (9-18
UTC) by
AARVM's (Associacao de Radioamadores da Vila de
Moscavide) members
to celebrate the 75th anniversary of the town of
Moscavide. [TNX
A.A.R.V.M., http://www.qsl.net/arvm/]
EW - EW5HST is the special call to be used during the 5th
High Speed
Telegraphy World Championship (http://hst2003.osto.by/)
which is to
take place in Minsk, Belarus, on 4-8 May. The call is
currently used
by the organizers, typically on 14.030 kHz around 18 UTC.
QSL via
EU1SA. [TNX EU1SA]
FG - F6HQM, F6GWV and F6ASS will be active as TO4T from
Guedeloupe
between 25 March and 4 April, CQ WW WPX SSB Contest

included. QSL
via F6HMQ. [TNX La Gazette du DX]
FM - Danny, T93M will be active as FM/T93M from the QTH of
Laurent, FM5BH
on Martinique (NA-107) on 25-31 March. He will participate
in the CQ
WW WPX SSB Contest as TO3M; outside the contest he will
concentrate
on the WARC and low bands. QSL for both calls via DJ2MX,
whose new
address is: Mario Lovric, Kampenwandstrasse 13, D-81671
Muenchen,
Germany. [TNX T93Y]
HC8 - Diego, LU8ADX will be active (on SSB and possibly
RTTY) as
HC8/LU8ADX from the Galapagos Islands (SA-004) on 24-31
March. He
will participate in the CQ WW WPX SSB Contest as HC8N
(Multi-Multi)
with N5KO, OH0XX, K5KA, XE1KK, KI7WX and NM5M. QSL HC8N
via W5UE.
[TNX The Golist]
HS - E20HHK, E20NTS, E20RRW, E21LSE, HS0GBI, HS0NNU,
HS1CKC, HS6MYW,
HS6TIM and HS9IFG will be active as HS0GBI/P (on 80 and
40 metres
CW, QSL via home call), HS1CKC/P (SSB, QSL via home
call) and
E20HHK/P (CW, QSL via E21EIC) from Chang Island (AS-
125) on 5-7
April. Questions should be sent to
Winit, HS1CKC
(hs1ckc@...). This IOTA group was activated only
twice, by
HS50A, back in December 1996 and May 1997. [TNX E21EIC]
I - Andrea/IK2XDE, Giovanni/IK2JYT, Antonio/IK2ZJR,
Dario/IK4MED and
Angelo/I2ADN will be active as IE9/homecall from
Ustica Island
(EU-051, IIA PA-001, WWL JM68OR) from 26 March to 1 April,
CQ WW WPX
SSB Contest included. They plan to operate on 10-80 metres
SSB, CW,
RTTY, PSK31 and some SSTV, plus 6 metres and Satellite.
QSL via
burea to home calls. [TNX IK2XDE]
J3 - Harry, AC8G will be active from Grenada (NA-024) on 28-
31 March,
including an entry in the CQ WW WPX SSB Contest possibly as
J37K or

with a J3** call. QSL via AC8G. [TNX VA3RJ]
JW - Bjorn/LA9IY, Morten/LA9GY and Martin/LA3JJA will
participate in the
CQ WW WPX SSB Contest as JW8G from Longyearbyen,
Spitsbergen
(EU-026). Outside the contest they will operate on CW
and other
modes as JW9IY and JW9GY and JW3JJA, respectively. QSL
JW8G via
LA9GY (Morten Antonsen, Hallsetreina 6, N-7027 Trondheim,
Norway),
others via home calls. Please note that 1 USD does not
cover the
postage fee from Norwayt to extra-European
countries. Further
information will be available at
http://www.qsl.net/la8g and
http://home.online.no/~antonsen [TNX LA9GY]
OY - Due to a strike by Smyril Line (the ferry
line between
Denmark-Shetland Islands-Faroe Islands) the LLDXT team
has had
postopone their activity [425DXN 618] to 31 March-10
April. The
callsigns to be used are still OY7ET, OY7QA, OY7TW, OY7WB
and OY7WP,
plus OY8PA for 160 metres and probably digital modes (on
80 metres
they will use their individual calls). QSL for all via
PA5ET. If the
strike continues, the group will operate from the Isle
of Man.
Latest information can be found at
http://www.qsl.net/lldxt [TNX
PA5ET]
P2 - Dan, JA1PBV, who is active as H44V from the Solomon islands
until 24
March, will then move to Papua New Guinea and operate as
P29SI until
29 March. QSLs for both calls via JA1PBV. [TNX The Daily DX]
PY - Club station PY3ARD has been granted permission to operate
as ZW90S
in 2003 to celebrate the the 90th anniversary of the
Gerge Black
Scout Group, the oldest Scout Group in Brazil. The special
callsign
will be aired for the first time during the CQ WW WPX SSB
Contest.
QSL via PY3ARD either direct (Associacao dos
Radioamadores da

SOGIPA, Rua Barao do Cotegipe 400, 90540-020 Porto
Alegre - RS,
Brazil) or through the bureau. [TNX PY3DX]
ST - The German team has been active as ST0RY since late
Thursday (20
March) and will leave Sudan on 2 April. The pilots
are N5FG
(floydgee@...), K6GNX
(bavery@...), DF3CB
(Bernd.Koch@...) and JA3AAW (ja3aaw@...).
QSL via
DL5NAM. The web site for the operation
is at
http://www.df3cb.com/st0ry/
V6 - Joe, I2YDX and Robert, IK2WXZ will be active as V63DT
and V63ZR
respectively from Micronesia from 28 March until 6 April.
They will
try to activate some rare/new IOTA groups in the area. Look
for them
on the usual IOTA CW and SSB frequencies. QSL via home
calls.
V7 - Neil, WD8CRT is active as WD8CRT/V73 (but he has applied
for V73NS)
from Kwajalein (OC-028), Marshall Islands "until an
unknown date".
Look for him after 12 UTC and between 00.00-03.00 UTC,
around 14029,
10116, 21004 and 28021 kHz. QSl route on www.qrz.com
[TNX OPDX
Bulletin]
VE - Dana, VE1VOX plans to operate as VE1VOX/p on 21-23 March
from the
following C.I.S.A (not IOTA) islands and lighthouses:
Sherose Island
(NS-023), Cape Sable Island (NS-006) and possibly
Lighthouse
(CAN-106), Cape Forchu Island (CISA new) and Lighthouse
(CAN-097).
QSL via home call. [TNX VE1VOX]
VP5 - Mike/WA2VQW and Rob/WB2NVR will be active on 160-10
metres as
VP5/homecalls from Providenciales (NA-002) from 27 March to
1 April,
including an entry as VP5RZS in the CQ WW WPX SSB Contest.
[TNX OPDX
Bulletin]

PACIFIC TOUR ---> Jeffrey, KI0RO reports that due to bad
weather, his

departure has been delayed. The new dates for his trip to the
Marshall
Islands and Micronesia [425DXN 619] are as follows:
26-31 March V73/KI0RO Roi-Namur, Kwajalein (OC-028)
2-7 April V63JE Kosrae (OC-059)
9-14 April V63JE Pohnpei (OC-010)

**** GOOD TO KNOW ... ****
===========================
Edited by I1JQJ & IK1ADH

NOT THE MANAGER ---> Rod Huckabay, KA5EJX is not and has never been
the QSL
manager for KH3AF. As for SV0HW/SV9 (operated in 1990-91), he used
to be his
manager, but cards now go direct to Frank, WA1ECA. [TNX KA5EJX]

PT2FM ---> After being active as PU2DXS (2001-02) and PT2PS
(2002-03),
Philippe Schmitt is now PT2FM. The interesting news is that he is
14 years
old, and has been licensed since he was 11. Phil has now
full licence
privileges.

PS7AHR ---> This is the official station of "The Brazilian
Amateur Radio
Historical Archive", the only organization in Brazil that is
devoted to
documenting and preserving the history of amateur radio in that
country. QSL
via bureau or direct to P.O. Box 2021, 59094-970 Natal - RN,
Brazil. [TNX
PS7AB]

QSL C53M & C56R ---> The last batch of direct cards left Finland on
17 March.

Juha, OH9MM has replaced OH3RM as QSL manager, but there is no need to
resubmit. Should you have problems with the QSLs, please contact Juha at
oh9mm@... [TNX OH9MM]

QSL EP6KI ---> On 15 March Phil, G4WFZ received two boxes of blank QSL cards
from Ukraine and has started processing the many requests received so far.
"It might take some time to send all the cards out", he says, "because I have
to check the hard copy log for the QSOs". Please be patient and do not sent
second cards.

QSL K1B ---> Stephen, K4YL (K4YL@...) has now answered about 2,000
QSL requests and is still receiving an average of 25 a day from all over the
world. Please remember Stephen only handles direct requests, which should be
sent to Stephen Grose, P.O. Box 183, Flat Rock, NC 28731-0183, USA. [TNX
K4SV]

QSL MANAGER OFFERED ---> Petr, OK1DOT (http://www.qrz.com/ok1dot) offers his
services as QSL manager to stations in need. He can be contacted at
gustab.petr@...

QSL VK4DX ---> The new QSL route for Mike Sivcevic, VK4DX is direct only (1
IRC or 1 Euro, other currencies are not accepted) to P.O Box 4485, Eight Mile
Plains, QLD 4113, Australia. Mike maintains and International Contest
Calendar at http://www.vk4dx.net [TNX VK4DX]

SP DX CONTEST ---> PZK - Polski Zwiazek Krotkofalowcow (Polish Amateur Radio
Union) and the SP DX Club invite amateur radio operators and SWLs to
participate in the SP DX Contest. This year the event (SSB and CW) will take
place from 15 UTC on 5 April through 15 UTC on the 6th. Detailed information
can be found at either
http://www.sp5pbe.waw.pl/SPDXC/ and
http://www.sp5zcc.waw.pl/spdxc/en/index.php [TNX SP7IWA]

ST2X ---> Gerben, PA5NT reports he has changed his plans [425DXN 616] and
will not operate again as ST2X from Sudan. He expects the QSL cards for his
January activity to arrive from the printer soon.

XQ3/IZ6BRN ---> Sergio, IZ6BRN (ex AP2WAP, VU3CUR, 9N7RN and CE3/IZ6BRN) is
active mainly on 12 and 17 metres. QSL to IZ6BRN via the ARI bureau or direct
to Sergio Curina, Calle Juan Bautista Pastene 3101, Vitacura - Santiago,
Chile.

Αγαπητοί συνάδελφοι καλημέρα,εδώ και αρκετό καιρό εχω παρατηρήσει ενα
περίεργο σήμα,χωρίς να έχω προσδιορίσει καποιο απο τα γνωστά digital
modes (AMTOR,SITOR,FAX,RTTY,PACTOR κ.α.) που υπάρχουν απο διάφορες
πηγές,και το οποίο ακούγεται σχεδόν σε ολο το φάσμα των βραχέων.
Δειγματοληπτικά θα αναφέρω ορισμένες συχνότητες αυτές που ακούω 9+/,
2404,2584,3307,3825,4578,4776,5239,5283,6257,6725,8112,8635,10562,1145
7,12693,13135,14355,14725,16360,17220,18854,23593.
Το σήμα υπάρχει και σε άλλες 60 συχνότητες,σίγουρο είναι οτι δέν
ειναι τοπικό παράσιτο και οτι ακούγεται και εκτος Ελλάδος.
Οποιος συνάδελφος θέλει και εχει την περιέργια ας ρίξει μια ματια
στις παραπάνω συχνότητες και ιδιαίτερα για αυτους που ασχολούνται με
ραδιοαστρονομία και natural rf sources.

Πολλά 73 SV2WU Τσαγκαράκης Βασίλης

Καλησπέρα και καλό Σαββατο-Κύριακο. Στέλνω τις αγγελίες του SV1AWL αλλά με κάποιο πρόβλημα. Δεν μπορώ να αλλάξω κάποια απο τα ελληνικά....έτσι όπως τα λαμβάνω στο packet, αν κάνω copy/paste κατευθείαν εμφανίζονται όπως τα βλέπετε εδώ...Αλλάζοντας γραμματοσειρά, τα πράγματα είναι χειρότερα. Η γραμματοσειρά που χρησιμοποιώ είναι η fixedsys που νομίζω υπάρχει σε όλους τους υπολογιστές. Γνωρίζει κανείς κάποιο τρόπο να διορθώσω το πρόβλημα ;

\---
-------/

3D2 - Tad, JF6OJX will be active as 3D2JX from Mana Island (OC-
121), Fiji

on 19-24 April. He will concentrate on 80-30 metres for
Europe, but
will also operate on 6-20 metres (160 metres if possible).
QSL via
JN1HOW. Logs will be available at
http://www.NDXA.jp/pedi/3d2-2003/
after the end of the operation. Hisa, 7K1WLE
(WLE@...) and
Ted, JJ1LIB (ted@...) will be in contact with him on
an almost
daily basis. [TNX JJ1LIB]
5B - G3SJJ, G3SVL, G3UEG will participate in the CQ 160 Meter
SSB Contest
as P3F from Cyprus. QSL via 5B4AGN. [TNX NG3K]
6Y - WN9O and WO9Z will be active as 6Y5/homecall from Jamaica
(NA-097)
from 22 February to 9 March. They will participate in the
ARRL DX
SSB Contest as 6Y8Z (QSL via WO9Z). [TNX The Daily DX]
9H - Gaby, OE8YDQ and Chris, OE8CIQ will be active as
9H/homecall from
Malta on 20-27 April. Theirs will be a holiday style
operation on
10-80 metres SSB and CW. QSL via home calls either direct
or through
the bureau. More information at http://www.oe8ydq.com
9Q - Flo, F5CWU will be guest operating from 9S1X, Democratic
Republic of
Congo, from 24 February to 10 March, including entries in
the Coupe
du REF (SSB) and the ARRL International DX Contest (SSB).
QSL via
F2YT. [TNX 9Q1A]
CE - A group of operators from the Southern Cross DX Group
has been
granted permission to operate from Quiriquina Island (SA-
070) on
22-23 February. They will be active as 3G5Q on all bands
SSB, CW and
FM QSL via XQ5SM (P.O. Box 2841, Concepcion, Chile). The
web page
for the expedition is at http://www.qsl.net/3g5q [TNX
CE4USW]
CN - Look for W7EJ to participate in the CQ 160 Meter SSB
Contest as CN2R
from Morocco. He plans to be on or around 1836 kHz. QSL
via W7EJ.
[TNX NG3K]
CO - Juan, CO8TW will participate in the ARRL DX CW Contest on
160 metres

(1820-1840 kHz) low power. QSL via IZ8CCW. Logs will be
available at
http://www.qsl.net/co8tw/ [TNX CO8TW]
CT3 - Look for Rosel, CT3/DL3KWR and Hardy, CT3/DL3KWF to be
active from
Madeira (AF-014) on 6-20 March. They plan to concentrate on
the WARC
bands CW. QSL via home calls; bureau card requests are
welcome at
dl3kwr@... [TNX DL3KWF]
D4 - Gabriele, IK4UPB will be active (on 10-160 metres SSB
and CW) as
D44TD from 25 February to 3 March, including a SOSB
entry in the
ARRL DX SSB Contest. QSL via CT1EKF. [TNX IK4UPB]
DL - Look for DL4OK/p to be active from Poel Island (EU-098, O-
002 for
the German Islands Award) on 14-18 February. From time to
time he
will also operate from Gollwitz Lighthouse (ARLHS FED-092).
QSL via
bureau. [TNX DL2VFR]
EA8 - Wayne, N7NG reports he will activate the Gran Canaria
superstation
EA8BH for the upcoming ARRL DX CW Contest. "Although
it's been
several years since I have operated SOAB", he says, "I hope
to be up
to the challenge". QSL via OH2BH.
F - Jean-Marc, F5SGI will be active on 10-80 metres CW as
TM6ILE from
Groix Island (EU-048, DIFM AT-012) on 7-12 April. QSL via
home call
either direct or through the bureau. [TNX F5NQL]
FG - Wayne, W9AE, will be active as FG/W9AE on the AO40
satellite from
Guadeloupe (grid FK96) on 21-26 February. The operating
window to
Europe will be 1500-2000 UTC on 23 February. QSL via
home call
(Wayne Estes, 18673 W. Meadow Lane, Mundelein, IL 60060,
USA). [TNX
W9AE]
FM - Stefano, IK2QEI will participate in the ARRL DX SSB
Contest (1-2
March) as TO1A (SOAB) from FM5BH's shack on Martinique (NA-
107). QSL
via IK2QEI. [TNX NG3K]
FY - Oliver, F5MZN will participate in the ARRL DX CW Contest
as FY5KE

(SOAB) from French Guyana. QSL via bureau. [TNX NG3K]
GJ - Mat, F5SHQ will participate in the ARRL DX CW Contest as MJ0ASP
(SOSB 20 metres) from Jersey. QSL via home call. [TNX NG3K]
HR - Tom, W0GLG will be in Puerta Limpera, Honduras from 14 February
until 5 March and will try to check into the 247 net or hang out
around 14195 kHz when he has the chance. From around 2 to 4 March he
will be active (on 20, 15 and 10 metres SSB) from Cayos Cochinos
(NA-160). QSL via W0GLG. [TNX KD0JL]
HR - Ray, WQ7R will operate (SSB and CW, as well as RTTY and PSK) as
WQ7R/HR9 from Roatan Island (NA-057) from 27 March through 4 April,
including an entry in the CQWW WPX SSB Contest as HQ9R (SOAB LP).
QSLs via N6FF. [TNX OPDX Bulletin]
IS0 - Freddy, IZ1EPM reports he will be active from Santa Teresa di
Gallura, Sardinia (EU-024) from 19 April to 2 May. He plans to
operate on 10-40m and to concentrate on 30 metres. QSl via home
call, direct or bureau.
JA - Toshi, JM1PXG and others will be active from the Daito Islands
(AS-047) on 25-28 July. They will participate in the IOTA Contest as
JM1PXG/6. QSL via home calls either direct or through the bureau.
[TNX JI6KVR]

15 February 2003 No 615
$425WW615B
===========================
*** 4 2 5 D X N E W S ***
**** DX INFORMATION ****
===========================

KH4 - Bill, KH4/NH6D expects to be active from Midway Island
until 21-22
February. QSL via N6FF. [TNX The Daily DX]
LU - Javi, LU5FF reports he will participate in the ARRL DX CW
Contest as
SOAB LP. QSL via EA7JX.
LX - LX1KQ, LX1UN and LX2AJ will participate in the CQ 160
Meter SSB
Contest as LX9UN. QSL via LX1NJ, [TNX NG3K]
LZ - Special event call LZ125O will be aired on all bands CW,
SSB and
RTTY by Balkan Contest Club (LZ1KZA/LZ5A) on 1-31 March.
QSL via
LZ1KZA (P.O. Box 36, 4300 Karlovo, Bulgaria). [TNX LZ1ZF]
P2 - A few days ago Bernhard, DL2GAC/P29VMS had announced
through Jim
Smith, VK9NS he would be active from the Tauu (aka
Mortlock) Islands
(OC-???) starting around 13 February. There should
have been a

change in the boat's schedule, as on 11 February
Bernhard was in
Rabaul (New Britain, OC-008) after operating from OC-256,
OC-257 and
OC-231 (a total of around 2200 QSOs). His plans were to
travel by
plane on the 13th and reach the town of Wewak (OC-034). He
will then
go and operate for 3-5 days from one of the nearby
islands, like
Kairiru or Muschu, that count for the Papua New
Guinea's Coastal
Islands North group (OC-???). Around 20-25 February he will
go back
to the Solomon Islands (H4). Bernhard reminds island
chasers that,
since he operates with a 70AH car battery recharged by
solar panel,
he is "not fond at all of multiple QSO attempts". QSL
via DL2GAC.
[TNX P29VMS]
PJ7 - Look for PJ7/W8EB to be active (on 160-10 metres SSB, CW,
RTTY and
PSK-31) from Sint Maarten (NA-105) from 23 February
through 23
March. He will participate in the ARRL DX SSB Contest
as PJ7B
(SOAB). QSLs via home call. [TNX NG3K]
PY0_spp- Joca, PS7JN is planning to return to St. Peter and St.
Paul Rocks
(SA-014) in the first half of April. He expects to
operate on 40,
20, 15 and 10 metres SSB and RTTY; other modes and bands
will depend
on the equipment he will be able to have. Further
details are
expected in due course; his web site is at
http://www.qsl.net/ps7jn
[TNX PS7JN]
PY0_tr - Linneu, PY1ON will be active (on +/- 7050, 14200, 21300
and 28490
kHz) as ZY0T from Trindade (SA-010) on 17-19 February.
QSL via
PY1YB. [TNX CT1END and PS7AB]
SM - SM0GNS, SM0HPL, SM0IHR, SM0MXO, SM0OGQ, SM5AJV, SM5DJZ
and SM5HJZ
will participate in the ARRL DX CW Contest as 8S5X (M/M).
QSL via
SM5HJZ. [TNX NG3K]
SP - George, SP2PI will operate as HF2VL from 25 February to 31

March to
celebrate his 45th anniversary of activity on the
amateur radio
bands. QSL via home call (Jerzy H. Wojniusz, Matejki
56/39, 87-100
Torun, Poland). [TNX SP2PI]
SV - Spiros, SV8CS will participate in the CQ WW 160 Meter SSB
Contest as
SY8A from his QTH on Zakynthos (EU-052). [TNX NG3K]
TG - Dennis Motschenbacher, K7BV will participate in the
ARRL DX CW
Contest as TG0AA (SOAB) thanks to the generosity of
Club de
Radioaficionados de Guatemala and the communication
assistance of
Juan, TG9AJR. QSL routing information via club for all
contacts will
be released after arrival in-country. [TNX N4GN]
TR - Christian (TT8DX) is active as TR8SA from Gabon until 8
March. [TNX
La Gazette du DX]
V3 - Charlotte, KQ1F (V31QQ) and Paul, K1XM (V31XM) will be
active from
Turneffe Island (NA-123) from 26 February to 5 March.
They will
participate in the ARRL DX SSB Contest as V31QQ.
Operations before
26 February will be from mainland Belize. QSLs via KQ1F.
[TNX KQ1F]
V6 - Bert/V73GOD (WH7USA) expects to be active as V63USA
from Kosrae
Island (OC-059), Micronesia for one week starting on 15
February.
[TNX The Daily DX]
V7 - Jim Todd, KC7OKZ/V73KZ and his wife Carol, KC7TSX/V73SX
[425DXN 579]
are now back on Majuro (OC-029), Marshall Islands, after
spending
most of the last six months in the U.S. due to
various family
problems. "Our IOTA adventures are back on the front
burner", Jim
says, "Because the weather window will not be good
for Taongi
(OC-???) until summer, we will visit Enewetak and Ujelang
(OC-???)
first. We plan on sailing to Enewetak (OC-087) early in
April". If
interested in joining Jim and Carol, please visit their web
site at

http://www.qsl.net/kc7okz or e-mail wingsdx@... [TNX
G3ZAY]
VE - Neil, VE8CQ reports that at least five operators from
the Western
Arctic Amateur Radio Association will participate in
the IOTA
Contest as VE8NET from Sachs Harbour, Banks Island (NA-
129). QSL via
VE8CQ.
VK - VK3ZZ, VK3FT, VK3WWW and VK3QI will be active from
Waldegrave Island
in the South Australia State West Centre Group (OC-???)
on 16-21
April. They will operate SSB and CW on all HF bands
except 160
metres with a special call to be announced in due
course. [TNX
VK3ZZ]
VP5 - Rodger, GM3JOB and Willie, GM4ZNC will be active
again as
VP5/homecalls from North Caicos (NA-002) on 5-19 April.
They plan to
be QRV on most bands SSB and CW. QSL via home calls,
either direct
or through the bureau. [TNX GM4ZNC]
XE - XE1VIC, XE1ME, XE1JG, XE1YJY and XE1KK will participate
in the CQ
160 Meter SSB Contest (21-23 February) as XE1RCS. [TNX NG3K]
ZF - Yuri, VE3DZ is active as ZF1DZ from Little Cayman Island
(NA-016)
until 17 February. QSL via home call.
ZK1 - Nik, HB9EAA will be active mainly on CW from the Cook
Islands in
March. He will first go and operate from Penrhyn Atoll
(OC-082),
North Cooks on 8-15 March; then he will move to Aitutaki
(OC-083),
South Cooks and be active on until 22 March. Requested
call is
ZK1EAA, which he hopes will be confirmed when he
collects his
licence upon arrival. QSL via HB9EAA either direct
(Niklaus Oser,
Pfarrgasse 10, CH-4114 Hofstetten, Switzerland) or
through the
bureau. The web page for the operation
is at
http://www.qsl.net/hb9eaa/dxped03/ [TNX HB9EAA]

SOUTH SHETLANDS (AN-010) ---> Due to logistic reasons Oleg, UA1PBA has
postponed until March his planned DP1ANF activity [425DXN 611] from the
Eduard Dallmann Laboratory (WABA DL-NEW) on King George Island. Oleg and Alex
are now active as R1ANF/A for at least one more week from the Teniente Ballve
Refuge of Argentina (WABA LU-22) on Ardely Island. QSL via RK1PWA. [TNX
DL5EBE]

**** GOOD TO KNOW ... ****
===========================
Edited by I1JQJ & IK1ADH

AH3D ---> Bernie, W3UR provides a few more details about the
recent AH3D
operation from Johnston Island. The band by band break down is:
Band SSB CW RTTY Total
----
160 23 718 0 741
80 1312 1629 0 2941
40 1107 1879 0 2986
30 0 2242 0 2242
20 4897 1402 43 6342
17 606 1962 0 2568
15 3569 401 726 4696
12 1877 62 0 1939
10 4349 0 0 4349

Total 17740 10295 769 28804
"One of our main goals was to give as many people a new one,
especially in
Europe", Bernie says. "In Europe we worked 1459 on CW, 3209 on SSB
and 39 on
RTTY for a total of 3,237 QSOs or about 11.2 % of the total QSOs".
The group
is now working on getting the logs ready for on line search.

IOCA CHECKPOINTS ---> IOCA Manager Emir, 9A6AA
(http://www.inet.hr/9a6aa)
repots that two local checkpoints have been appointed to deal
with IOCA
(Islands Of Croatia Award) applications from their own country.
They are
Antonio, IZ8CCW for Italy (iz8ccw@...) and Fredy, DE0MST
for Germany
(fresti@...).

IR4A ---> IQ (India Quebec) is currently being issued as ordinary
prefix for
club stations in Italy, and since it is no longer a special prefix,
those who
held an IQ contest callsign shall change it. The Monte Capra
Contest Team
(formerly IQ4A, three times CQWW M/S World Champion in the past 14
years and
current holder of the European CQWW M/S all time record) will now
be using
IR4A. QSL via IK4QJH. [TNX I4VEQ]

JOHNSTON ISLAND ---> KJ6BZ is the club call used by Bob/V73HT and
Bert/V73GOD
(WH7USA) in the past few days while dismantling the club
station on the
island. QSL for this operation should go to LTC Bert Godlewski,
P.O. Box
1480, APO AP 96555, USA. [TNX The Daily DX]

OX3FV ---> Joergen, OZ8AE reports that Kim Andersen, OX3FV is now
QRT from
Groennedal, Greenland and his new call is OZ5FV. QSL OX3FV via OZ5FV.

QSL CE6M ---> The QSL cards for the recent CE6M
operation
(http://www.qsl.net/ce6ne/CE6M.htm) from Mocha Island (SA-061)
have been
received from the printer and direct requests are being processed
right now.
[TNX CE6TBN]

QSL DU1/SQ9BOP ---> Andy, SP6GVU reports he still has logs and cards for
Jacek's activity from the Philippines (September 2001 - April 2002). QSL
direct to Andrzej Kaleta, P.O. Box 498, Wroclaw 2, Poland or through the
bureau.

QSL FO5RH ---> La Gazette du DX reports that F6CTL is no longer the QSL
manager for Alain. QSL cards for FO5RH, as well as for FG/F2HE, FS/F2HE,
FO0CLA and TX5BTY, should be sent direct to Alain Claverie, P.O. Box 51690,
98716 Pirae, Tahiti.

QSL HK5MQZ ---> Jairo Vargas, HK5MQZ, an active DXers who operated from
Malpelo back in 2001, reports that air mail has increased 100% in Colombia
this year. He suggests to use registered mail, if possible, and to enclose
"two greenstamps or two IRCs" when sending for cards.

QSL T77CD ---> Giovanni, T77CD was active during the CQ/RJ WW WPX RTTY
Contest last weekend (1590 QSOs). Cards should be sent direct only to I0MWI
(Stefano Cipriani, Via Taranto 60, 00055 Ladispoli - RM, Italy). [TNX I0MWI]

QSL ZL7C ---> The blank QSL cards for the ZL7C DXpedition to the Chatham
Islands (October 2002) arrived in New Zealand on 27 January. Some 5,000
direct requests have been received so far: "we have begun processing these
cards", Ken Holdom, ZL4HU reported on 9 February, "and we expect this process
to continue for approximately another 2-3 weeks. We will be doing a bulk mail
out by economy post on 1 March 2003. If by the end of April you do not have
your cards, then may we suggest that this is an appropriate time to consider
whether to send a 2nd request. Direct requests that do not contain SAE or
return postage will be sent via the bureau. Incoming bureau cards will be
processed when time permits".

QSL MANAGER OFFERED ---> Antonello Passarella, IK2DUW is willing to
act as a
QSL manager for one or more stations. He can be contacted at
ik2duw@...

QSL VIA BA4DW ---> David, BA4DW is receiving cards for FR5/BA4DW,
which was
pirated on 5 December 2002. Do not waste your time and money on
this one.
David can confirm contacts made with BA4DW/2 (AS-158), BA4DW/2
(AS-151),
BA4DW/4 (AS-150), BA4DW/5 (AS-137), BD4DW, BG4DW, BX2/BA4DW
(Taiwan, AS-020)
and BZ4DJW. His address is: David Y. J. Zhou, P.O. Box 040-088,
Shanghai,
200040, China. [TNX BA4DW]

QSL VIA VE3LYC ---> Cezar, VE3LYC has received W2NTJ's log for his operations
of 2002. Jack operated as VE2/W2NTJ (11 July-22 October and again 21
November-6 December) from near Namaska, Quebec, and as VY0/W2NTJ (23
October-20 November and again 7-28 December) from North Twin Island (NA-173,
CISA NT-008), Nunavut. QSL direct to VE3LYC. Direct requests already received
were sent out early this week. [TNX VE3LYC]

SFDXA ---> The newly elected officers of the South Florida DX Association for
the year 2003 are: William Marx/W2CQ (President), Esteban Romagni/W4DTA
(Vice-President), Richard Gillingham/W1RG (Secretary), John Bohnovic/K4WJ
(Treasurer), Michael Raskin/W4UM, Donald Search/W3AZD, Bruce Phegley/W4OV and
Peter Rimmel/ N8PR (Directors at Large).

586. S05X - DX-Pedition

Yahoo group: thegreekhamradio
Date: 2003-04-17 21:03:34 UTC
From: sxanthop
Topic: 586   Message: 586

Παιδιά εμφανίστηκε,

Είναο το S05X, είναι dx-pedition στην Δυτική Σαχάρα και κατάφερα να το δουλέψω σήμερα στα 10μ cw. Ελπίζω να μπορέσω να το κάνω και αλλού...

Γίνεται πανικό όμως, μιλάμε για φοβερά pile-ups....

Καλη επιτυχία...

Σημασία έχει οτι το δούλεψες Κώστα...Τώρα "πρέπει" να το κάνω και σε μια μπάντα στην φωνή (14-21-28 που παίζει καλά η vertical) για να πω οτι κάτι έχει γίνει..Θα περιμένουμε και το on-line log για την επιβεβαίωση.

Εγώ το θέλω σε RTTY αλλά δεν το βρήκα στα 20 m, που είναι η μόνη
μπάντα που έχω κεραία (folded dipole από ποντικόσκαλα με baloon
4:1). Ελπίζω να εμφανισθεί σήμερα.

592. Press release for S05X

Yahoo group: thegreekhamradio
Date: 2003-04-18 14:40:16 UTC
From: Emmanuel F. Zambetas
Topic: 592   Message: 592

Press Release #3 for Western Sahara Desert Dxpedition 2003

The S05X multi-national team are now fully operative and as of 19 UTC on 17 April, when the pilots updated them on the messages arrived, they had logged over 10000 QSOs (1300 with US stations). Yesterday they had good conditions with the US on 40 and 80 metres, but no good openings towards Asia (less than 100 QSOs so far).

Unfortunately this morning they were not able to upload the first batch of logs due to unstable and slow satellite connection. A new attempt is expected for tomorrow (18 April).

They still have two stations active on SSB and/or CW, one station for digital modes and a fourth station for 6 metres (beacon on 50.110 MHz).

S05X will be QRV for Asia on 30 and 40 metres starting around 20.30 UTC today, and on 20 metres LP from 8.30 UTC tomorrow.

Their priorities are still US - West Coast, plus Iowa, Minesota, North Dakota, South Dakota, Wisconsin - Asia and Oceania. Please avoid dupe contacts on the same band and mode in order to give others a chance and please stop calling when the operators look for stations from specific areas (Japan, North America, Africa, etc).

QSL via EA4URE either direct or through the bureau.

Full details on the DXpedition are available at
<http://www.pagus.it/s05x/> http://www.pagus.it/s05x/

The pilots stations are Maurizio, I1-21171/IZ1CRR
(i121171@...) and Mauro, I1JQJ (i1jqj@...); please
send your messages to the both of them and put "S05X" in the subject line.

Good Luck in working the DXpedition, de
Maurizio Bertolino, IZ1CRR and Mauro Pregliasco, I1JQJ

Περαστικά σου,
> άνοιξα το hf, και έκανα τον S05X πολύ εύκολα σε 5 μπάντες, αλλού
> cw και αλλού ssb, και στα 15μ rtty.
Εγώ μέχρι στιγμής όπως ανέφερα και σε προηγούμενο μύνημα, το έχω
κάνει μόνο 10m cw. Ελπίζω όμως να μην μείνω εκεί, σήμερα το άκουγα
άψογα στα 15 ssb αλλά δεν με άφησε ένας γείτονας που έχει παρεμβολή
σε μία απο τις τηλεοράσεις του να τον κάνω !!! :-(
> πιο σπανίων για το rtty.
Αχ, πίκρααααα !!!

From ARRL Letter, 425 DX-news etc:

IRAQ/YI ---> Reports on US Military personnel operating as YI/homecall
from Iraq include Jim Dunkerton, YI/KT4CK and Mark Smith, YI/NG5L.
Wayne Mills, N7NG (ARRL Membership Services Manager) says that "the League
will accept for DXCC credit YI operations from Iraq by US or British
military personnel provided the operator has written permission from
his/her commanding officer, until an interim Iraqi government is in place".
After that point, operators would need documented permission from Iraqi
authorities.

Πάτρα ; Λευκάδα ; καλά η Ρόδος που είναι στο packet ;
> χαίρομαι που νέοι ραδιοερασιτέχνες, όπως ο Σπύρος, ενδιαφέρονται
> ακόμη και καταλαβαίνουν ότι είναι πιό χρήσιμο και πιό
> ραδιοερασιτεχνικό να παίρνει κανείς το e-mail του σε REALTIME από
>το ασύρματο δίκτυο, παρά από το Internet.
Αυτό νομίζω είναι ραδιοερασιτεχνισμός !!! και όχι μόνο...για να μην
φανώ κακός με τα υπόλοιπα Modes που κάνω και εγώ μερικά απο αυτά.
> Ετσι το PACKET στην παραδοσιακή του μορφή έχει πιά γίνει το mode
>των ολίγων και αυτών που καταλαβαίνουν.
Καιρός να γίνει και τον πολλών...να καταλάβουν και άλλοι...Γιατί
όχι ;
> από κάτι άλλο. Το κάθε MODE είναι για διαφορετική δουλειά!!!
Και το Packet για ΠΟΛΛΕΣ παιδιά, πιστέψτε με !!!
> μπορούν να δημιουργήσουν. Νομίζω ότι αφού 40 παλληκάρια είμαστε
>όλοι κι όλοι πρέπει να τα βρίσκουμε και να μην τα σπάμε!!!
Όχι, σαφώς όχι παιδιά...Μην αρχίσουμε κανένα flame εδώ τώρα, hobby
κάνουμε....Χαλαρά, ας κάνουμε μια συζήτηση περί του packet και ιδιώς
οι παλιότεροι ας ενημερώσουν εμάς του ποιο καινούργιους ή αυτούς που
δεν ξέρουν για το Packet !!!

610. Re: Iraq current status

Yahoo group: thegreekhamradio
Date: 2003-04-22 13:02:28 UTC
From: Costas
Topic: 599 Message: 610

Αναμεταδίδω από το DX Newsletter της DARC τα
τελευταία νέα από το Ιράκ:

```
IRAQ, YI Several radio amateurs are underway with
the American/British troops in Iraq at the moment.
Mark,YI/NG5L, and Jim,YI/KT4CK, showed up on the
bands already. Steve,KB0QHV, and Bob,9K2ZZ/K4CY,
shall be there as well and it is most likely that
more amateurs will join them soon. 4L4FN is waiting
for his permit to enter the country with the UN
World Food Program. We have to wait and see how far
the QSLs will be approved for DXCC credit.
WFWL - Work first, worry later.
```

Την Κυριακή 20/4 πέτυχα τον YI/NG5L στο 14200 και
είχα ένα πολύ σύντομο QSO. Επίσης μάθαμε ότι ο
σταθμός της ραδιολέσχης YI1BGD αποσυναρμολογήθηκε
πριν από τον πόλεμο και τα μηχανήματα αποθηκεύτηκαν.
Αν όλα πάνε καλά θα είναι πάλι στον αέρα όταν
ομαλοποιηθεί η κατάσταση.

Τουλάχιστον τα 9600, πιστεύω και εγώ οτι είναι εφικτό να γίνουν
πανελλάδικά...σιγά-σιγά...δεν είπαμε με την μία...εξάλλου θέλει και
το βασικότερο: ΛΕΦΤΑ.
> ΚΑΙ ΓΙΑ ΝΑ ΜΗΝ ΞΕΧΝΙΟΜΑΣΤΕ:
> H O B B Y K A N O Y M E Π A I Δ I A:
Επίσης βασικό.
> P.S. Τάσο αν διαβάσεις καμμιά PACKET BBS θα δείς πως το PACKET MAIL
>ακόμη χρησιμοποιείται σχεδόν σε όλη την Ευρώπη. Βέβαια αυτοί
>οικουτόφραγκοι θα μας δασκαλέψουν?
Όχι μόνο χρησιμοποιείται, αλλά και η διακύνηση των μυνημάτων γίνεται
σε πολλές χώρες ΧΩΡΙΣ να παρεμβαίνει και το ϊντερνετ....

Δεν μπορεί να το καταδικάσει κανείς Δημήτρη...όπως και να έχει, ας μιλήσουμε για το packet για να μάθουν οι νεότεροι και οι παλιότεροι γι'αυτό...Και γίατι όχι, να προσπαθήσουμε (αν και "αργά") να το αναβιώσουμε...πιστεύω οτι γίνεται...

4S - Ivan, ex-8Q7VR [425DXN 616] is now active as 4S7DXG from
Sri Lanka
until 1 May. QSL via UR9IDX (P.O. Box 85, Mariupol 87531,
Ukraine).
[TNX UA3FDX]
5N - Vaclav Voldrich, OK1DXE has been sporadically active as
5N0W from
the Czech Embassy in Nigeria since 1 July 2000. He now
hopes to be
able to spend more time on the air as either 5N0W
(club station
call) and 5N0HVC (his personal call). QSL via OK1DXE
direct or via
bureau. [TNX OK1DXE]
5Z - Don Gardner, KC7JDC (ex 7Q7DC) has now moved to live in
Nairobi and
has been allocated the call 5Z4DE. He is the first US
citizen in 12
years to obtain a 5Z licence and will be active as soon as
he puts
up his mast and beams. QSL direct only to G0IAS. [TNX G0IAS]
6W - A groups of operators from the ARAS (Association des
Radioamateurs
Senegalais, http://www.radio6w.org/) Radio Club will be
active (on
SSB and CW) as 6V1A from Goree Island (AF-045) on 7-9 June.
QSL via
bureau to 6W6JX. [TNX F5NQL]
7P - Look for 7P8CF (K5LBU), 7P8TA (WW5L), 7P8MJ (W5MJ) and
7P8NK (VA7DX)
to be active (on SSB, CW, PSK31, RTTY) from Lesotho on 18-
25 July.
They will probably have at least one station on 24 hours a
day. QSL
via home calls. [TNX NG3K]
9N - Dov, 4Z4DX (http://www.qrz.co.il/4z4dx) will be active
(on 160-6
metres CW and digital modes) as 9N7DX from Nepal from 22
April to 12
May. QSL via home call (Dov Gavish, 27 Hamitnahalim
St., Ramat
Hasharon 47203, Israel). [TNX 4Z4DX]
BY - Nicola, I0SNY and Gianni, I8KGZ have cancelled their 6-29
May trip
to China [425DXN 613]. They will go to Mongolia
instead and be
active as JT1Y and JT7Y with the help of Khosbayar,
JT1CD. [TNX
I0SNY]
CX - The CV1T activity from Cabo Polonio Lighthouse (URU-
005) [425DXN

621] will take place on 26-27 April. Look for operations on
160, 80,
40 and 10 metres CW and SSB. QSL via EA5KB. [TNX CX2TG and
EA5KB]
CY9 - N5VL, N0RN, KO4RR, W4WY and possibily others will be
active (on
2-160 metres CW, SSB and RTTY) from St. Paul Island (NA-
094) from 24
July to 2 August, including and entry in the IOTA
Contest. Further
information is expected in due course. [TNX The Daily DX]
F - Special event station TM6ACO will be activated on 7-15
June to
celebrate the 71th edition of the 24 Hours of Le Mans. QSL
via F6KFI
either direct (P.O. Box 22088, 72002 Le Mans Cedex 1,
France) or
through the bureau. Further
information at
http://asso.proxiland.fr/aras72/ [TNX F5TJC]
F - Jean-Marc, F8IXZ reports he will be active as TM0GAY from
20 June to
4 July for the Gay Pride parades in France. QSL via home
call.
FO - Look for Fabien, FO/F8CFU to be active from the Tuamotu
Archipelago
(OC-066), French Polynesia and Tubuai Island (OC-
152), Austral
Islands from 20 April to 16 May. QSL via home call. [TNX
F0CRS]
HK0_sa - Eight members of the Florida DXPedition Group will be
operating with
4-5 stations from San Andres Island (NA-033) on 20-28
October, CQ WW
DX SSB Contest included (requested contest call is
5J0X). The
Florida DXPedition Group has entered the CQWW SSB Contest
from a DX
location since 1996 and in the past they have never asked
for any
assistance, but this year they are asking for donations
to help
offset the cost. Donations should be sent to Bill
Gallier, FDXPG,
2694 North Camel Ave., Middleburg, FL 32068. The web pages
for the
operations are at
www.geocities.com/hk02003 and
www.geocities.com/w4wx1/upcoming [TNX W4WX]
HR - Look for HQ9W to be aired on 40, 20 and 15 metres from

Water Cay
(NA-057) on 12-14 April. QSL via HR2HCH. [TNX HR2JRP]
I - Sergio, IK4JPR will guest operate (SSB and CW) from the
Guglielmo
Marconi Foundation, IY4FGM on 12 April in the local
morning. QSL via
IK4UPU.
I - Angelo, I2ADN will be active as IE9/I2ADN from Ustica (EU-
051, IIA
PA-001, WWL JM68OR) during the Contest Lazio 50Mhz on 12
April. [TNX
IK2XDE]
I - Walter, IN3XUG will be active as IC8/IN3XUG from Ischia (EU-
031, IIA
NA-001) on 16-27 April. He plans to operate on 10, 15, 20,
40 and 80
metres SSB and RTTY. QSL via home call either direct or
(preferably)
thorugh the bureau. [TNX IN3XUG]
I - The newly issued IQ2VA call will be aired for the first
time on 27
April. This club call belongs to Busto Arsizio ARI Branch;
QSL via
bureau or direct to Sezione ARI, P.O. Box 125, 21052 Busto
Arsizio -
VA, Italy. [TNX IK2UVR]
I - Ruggero, IK2PZC reports he will be active (on 40, 20,
15 and 10
metres SSB) as IG9/IK2PZC from Lampedusa (AF-019, IIA AG-
001) on
3-10 May. During the ARI International DX Contest (3-4 May)
he will
operate also RTTY.
JA - Look for JI1PLF/1, JA1UNS/1, 7N1GMK/1 and 7L4PVR/1 to be
active (on
10-80 metres SSB, CW and PSK31) from Hachijo Island (AS-
043) on 6-9
June. QSL direct to home calls or via the JARL bureau. [TNX
JI6KVR]

===========================
*** 4 2 5 D X N E W S ***
**** DX INFORMATION ****
===========================

OH - In ancient times witches were believed to fly around
Finland on
Easter eve. Nowadays amateur radio "witches"
Jatta/OH2IO,
Anne/OH2MXS and Annika/OH2HSJ will "fly around" Finland
with their
pilot Lasse, OH1LQP on 18-20 April. They plan to
operate as
OH2YLS(/#) on 80, 40, 20, 10 and 2 metres (possibly also
15m) SSB
with some CW. QSL via bureau. They also expect to be
active as
OH1LAG (QSL via OH2IO), OH6MXS (QSL via OH2MXS) and OH4CNX
(QSL via
OH2HSJ). This will be a good chance to collect points for
the OH YL
and the OH County Awards
(rules at
http://www.sral.fi/award_eng.html). [TNX OH2HSJ]

OH0 - Look for OH0/DF8QJ, OH0/DL2VB, OH0/DK6QW, OH0/DG1YTF and
OH0/DL6YFB
to be active (on 80-2 metres CW, SSB and RTTY) from
the Aland
Islands (EU-002) on 19-25 April. QSL via home calls. [TNX
DL2VFR]
OZ - Look for Peter, OZ/DL4AMK to be active on 10, 12, 15, 17,
20 and 40
metres SSB from Aro Island (EU-172, JY-003 for the
Danish Islands
Award) on 16-21 April. QSL via home call either direct
or through
the DARC bureau. [TNX DL4AMK]
OZ - Ben, OZ6B will be active from Bornholm Island (EU-030, BO-
001 for
the Danish Islands Award) on 19-26 June. Look for him on
+/- 14265
kHz. QSL via bureau or direct. [TNX OZ6B]
OZ - Jurgen, OZ0J will be active (SSB and CW) as OZ0J/p
from Laesoe
Island (EU-088, DIA NK-003) on 26-28 July. The main
objective of
this trip is the participation in the IOTA Contest. Those
who want
to arrange a sked before/after the IOTA event,
can e-mail
oz0j@... not later than 20 July. QSL via home
call, either
direct or through the bureau. Log serach will be
available at
http://www.oz0j.dk/ [TNX OZ0J]
PY - LABRE-RJ club station PY1AA will be active as ZW1AA to
celebrate the
Brazilian Communications Day on 3-4 May. [TNX PY1XP]
S0 - Joe, KO4RR has joined the S05X multi-national team
scheduled to
begin all-band all-mode operations on 15 April. The
group now
includes YT1AD, YU1AU, I8NHJ, CT1BWW, N6TQS, KO4RR,
EA1BT, EA2RC,
EA5RM, EA5XX and S01MZ. Donations to help offset the trip
will be
gratefully accepted and can be sent via the QSL manager,
EA4URE (URE
- Union de Radioaficionados Espanoles, Avda. Monte
Igueldo 102,
Madrid 28053, Spain; e-mail ure@...). Full
details on the
DXpedition are available at http://www.pagus.it/s05x/ The
pilots are

Mauro, I1JQJ (i1jqj@...) and Maurizio I1-
21171/IZ1CRR
(i121171@...); please send your messages to the
BOTH OF
THEM and put "S05X" in the subject line.
SM - Eric, SM1TDE will be active from Gotland Island (EU-020)
on 12-18
April. He plans to focus on CW and the WARC bands, with
some RTTY
and SSB. QSL via bureau. [TNX SM1TDE]
SV5 - Ermanno, IK2WZD reports he will be active on digital
modes as
SV5/IK2WZD from Lipsi Island, Dodecanese (EU-001) from
24 April
through the summer. QSL via home call either direct or
through the
bureau.
UN - Vlad, UN7EX will be active as UQ1EDX from Kokchetav,
Kazakhstan on
19-20 April. QSL via RW6HS or direct to home call. [TNX
UN8CC]
VE - VE3UUH and VE3GID will operate as VB3MCC (further
information
www.storm.ca/~scalver) from 27 June to 4 July to celebrate
the 100th
anniversary of Military Communications in Canada. Note that
Industry
Canada has authorized the use of the following special
prefixes for
this anniversary between 1 July and 31 August: XM for all
VE, XL for
all VA, XN for all VO and XO for all VY. [TNX VA3RJ and
VE3UUH]
W - Rick, AI5P reports he hopes to be active from the
islands of
Martha's Vineyard on 15-18 April and Nantucket on 21-25
April. Both
of them counts for NA-046. QSL via AI5P.
W - The Maritime Radio Historical Society
(http://www.radiomarine.org)
is pleased to announce that K6KPH will be on the air on
26 April
(starting at 17 UTC) to participate in the annual
International
Marconi Day. K6KPH uses the original transmitters,
receivers and
antennas of famous ex-RCA coast station KPH. The
transmitters are
located at the transmitting station founded by the
American Marconi

Co. in 1913 at Bolinas, CA. The receivers and operators
will be at
the KPH receiving station about 20 miles north at Pt.
Reyes, CA.
K6KPH transmitting frequencies will be 7050, 14050 and
21050 kHz
(3545 may also be activated if conditions warrant).
QSLs and
reception reports should be sent to Ms. D.A. Stoops, P.O.
Box 381,
Bolinas CA 94924-0381, USA. [TNX F5NQL and W6AWO]
W - W1T will be a special event station operated by WA2VUY and
K2MVW on
all bands from 5 July through the 27th to commemorate
the 100th
anniversary of the Tour de France. QSL via WA2VUY (the
card will
have a photograph of 21 of the 22 living Tour champions
taken on 24
October 2002 in Paris). [TNX WA2VUY]
V2 - A group of operators from the recently formed Antigua
& Barbuda
Radio Club (V21ARC) will be having a DXpedition on the
sister island
of Barbuda on 18-21 April. They plan to operate as V21BBQ
on 160-10
metres with three HF stations. QSL to Antigua & Barbuda
Radio Club,
P.O. Box 965, St.John's, Antigua, West Indies. [TNX NG3K]
VP2V - Bob, N6RFM will be active as VP2V/N6RFM from the
British Virgin
Islands on 22-25 April. This will be a vacation
and casual
DXpedition as time permits. Operation will be PSK31 QRP on
20 metres
only. QSL via home call. [TNX N6RFM]
ZC4 - Bill, G4EHT will be visiting his son Dez, ZC4DW between
14 and 28
April. This will be a family holiday but Bill hopes to
spend some on
HF CW. He will operate from the Eastern Sovereign Base
club using
their callsign, ZC4ESB. Please be patient with Bill as he
has not
worked pile-ups for many years. QSL via G4EHT (Bill Watson,
7 Darwin
Close, Lichfield, Staffordshire, WS13 7ET, England). [TNX
ZC4DW]
ZD8 - Jim, N6TJ will activate his ZD8Z station on Ascension
Island on

16-26 April. He will operate on all bands, SSB and CW. Jim will make
an effort on 160 metres, especially on the 18, 19 and 20th. QSL
direct only via VE3HO. [TNX The Daily DX]

*** 4 2 5 D X N E W S ***
**** GOOD TO KNOW ... ****
===========================
Edited by I1JQJ & IK1ADH

CELTIC CONNECTIONS ---> The GMDX Group introduces "Celtic
Connections" to
encourage activity by all radio amateurs worldwide to contact
areas with
Celtic origins: Tras-os-Montes (Portugal), Galicia and Asturias
(Spain),
Ireland, Brittany (French Departments 22, 29, 35, 56 and 44),
Cornwall
(England), Isle of Man, Northern Ireland, Scotland, Wales and
Nova Scotia
(Canada). This "activity weekend" is to be held on the third weekend
in April
each year (in 2003 it will start at 00:00 UTC on 19 April and
last until
24.00 UTC on the 20th). Further details from the GMDX Group
web site
(http://www.gmdx.org.uk). [TNX GM3YTS]

ES OPEN HF CHAMPIONSHIP ---> It will take place on 40 and 80 metres SSB and
CW from 05.00 through 08.59 UTC on 19 April. Results of past editions and
rules are available at http://www.erau.ee [TNX ES5TV]

EU SPRINT 2003 ---> The four 2003 European Sprint Contests will be held on
20, 40 and 80 metres only from 15.00 UTC until 18.59 UTC on the following
dates: 12 April (Spring SSB, managed by G4BUO), 19 April (Spring CW, managed
by I2UIY), 4 October (Autumn SSB, managed by I2UIY), 11 October (Autumn CW,
managed by OK2FD). Full details can be found at
http://www.qsl.net/eusprint

GACW WW DX CONTEST ---> It will be held on 19-20 April, detailed information
is available at http://gacw.no-ip.org [TNX LU6EF]

IARU NEWS ---> Three new members have been admitted to the International
Amateur Radio Union effective 4 April 2003, They are the National Association
Radioamateurs of Georgia (NARG) the Federation of Radiosport of the Republic
of Armenia (FRRA) and the Vietnam Amateur Radio Club (VARC).

INTERNATIONAL MARCONI DAY ---> This year the IMD will run from 00.00 UTC to
23.59 UTC on 26 April. The event is organized by the Cornish Amateur Radio
Club which offers awards to stations in various classes.
Please visit
http://www.gb4imd.co.uk/ for details.

IQ2GM ---> This club call has been assigned to the Gallarate ARI Branch and
was aired for the first time on 11 April. QSL via bureau. [TNX IK2UIZ]

NOT THE MANAGER ---> Norbert, DL9NEI is not the QSL manager for LX5A. Cards
should be routed via LX1RQ or bureau.

NOT THE MANAGER ---> Henryk, SQ1GYH is till receiving cards for T99C, but he
is not the QSL manager for this station.

OH0CO ---> The 10-16 April operation from the Aland Islands by Ben, SM6CCO
[425DXN 622] has been cancelled. [TNX NG3K]

PIRATE ---> Before you begin wondering if I1JQJ (a) has become unable to use
his second VFO, (b) has become deaf or (c) has become crazy, be advised that
yesterday, 11 April, someone pirated your Editor's call over and over again
on XY4KQ's transmitting frequency, on both 15 and 20 metres CW. I apologize
on behalf of the perpetrator and I am grateful to those who have expressed
their sympathy on the PacketCluster and by e-mail.

PIRATE ---> Luis, LU1BR reports someone pirated his call as VP8/LU1BR on 13
March (21.40-22.40 UTC on 28006 and 24896 kHz). Apparently this pirate is
also used to calling as "LU1BR" on DX stations transmitting QRG during split
frequency operations.

PORTUGAL DAY ---> Sponsored by REP (Rede dos Emissores Portugueses), the
Portugal Day DX Contest (SSB only) will be held on 14 June (00.00-24.00 UTC).
For full information (soon available also in English) please visit
http://www.rep.pt/dia_de_portugal.htm [TNX CT1END]

PORTUGUESE NAVY CONTEST ---> It will be held on 17-18 May. Details are
available at http://www.marinha.pt [TNX CT1CZT]

===========================
*** 4 2 5 D X N E W S ***
**** GOOD TO KNOW ... ****
===========================

QSL 5R8FU ---> All direct cards have been sent out as of 11
April. John,
SM5DJZ anticipates he will not be able to answer future QSLs
until early
August because of his work commitments.

QSL 5T5SN ---> Nicolas Sinieokoff, 5T5SN (www.qsl.net/5t5sn) reports
that his
QSL manager is IZ1BZV (not F5RUQ, as reported in 425DXN #618).
Cards should
be sent to Giorgio Tabilio, P.O. Box 95, 19100 La Spezia - SP, Italy.

QSL CL9C ---> Al Bailey, K8SIX is the QSL manager for CL9C. The
artwork has
not been received yet, please be patient as it will take some time
to print
the cards. Al is also the QSL manager for CO2OJ.

QSL PX5E ---> The QSL route is direct only via VE3HO. The
recent PX5E
operator was PP5JR [425DXN 622] from ZX5J contest location.

QSL ST2X ---> Gerben, PA5NT, reports that all direct cards for ST2X have been
answered. Those who worked him on all the 7 bands that were activated will
receive a special award.

QSL JY8WW ---> Mark Demeuleneere, ON4WW operated as JY8WW in March 2003.
Direct cards were expected to be mailed this week, other contacts have been
confirmed automatically via bureau.

QSL VIA UA9OBA ---> Yuri Zaruba, UA9OBA reports that all of the direct QSLs
for the 16 April-2 May 2001 DXpedition to "The Lost Islands" - namely RI0B
(AS-156), RU0B (AS-057), RS0B (AS-042), RU0B/p (AS-050), RS0B/p (AS-068) and
R3CA/0 (AS-005) - were answered by RW3GW and UA9OBA himself in 2002.
Remaining QSOs were confirmed automatically via bureau. Those who still need
a direct card, should send their request to UA9OBA (Yuri V. Zaruba, P.Box 1,
Novosibirsk-92, 630092, Russia). Do not enclose USD or EUR, use IRCs instead
and note that 1 IRC covers air mail postage up to 20 grams.

ST2CF ---> Claudio, IV3OWC logged some 30,000 QSOs during his recent activity
from Sudan. Logs are expected to be available soon at http://www.irae2.com
[TNX IV3OWC]

THE LOST ISLANDS VIDEO ---> The professionally produced "Lost Islands" video
was presented for the first time at the RSGB International HF & IOTA
Convention back in October 2002. Copies are now available in either PAL and
NTSC versions and can be ordered at www.nsiradio.com. The expedition to
Ushakova and Uyedineniya (RI0B and RU0B) was awarded the IOTA Trophy for the
Most Courageous IOTA DXpedition in 2001.

WARD AWARD ---> The WARD (World Amateur Radio Day) Award commemorates the
World Amateur Radio Day celebrated by IARU on 18 April each year. The award
is sponsored by MK QTC (the Polish Amateur Radio Journal) with the Polish

Amateur Radio Union's support, and it is issued to licenced amateurs and SWLs
for contacts made/heard between 00.00 and 24 UTC on 18 April. For further
information please e-mail Sylwester Jarkiewicz, SP2FAP at qtc@...

+ SILENT KEY + Claus Stehlik, OE6CLD reports the sad new of the passing of
Selim, OE6EEG on 30 March after a long illness. Selim, who also held a
Sudanese callsign, was known for his DXpeditions (for instance to Abu-Ail in
1979) as well as for his activity on the European DX Net.

Αγαπητοί φίλοι Χρόνια Πολλά.

Για το θέμα του packet radio δεν έχω να προσθέσω κάτι από αυτά που είπα ήδη, μολονότι ενοχλεί η γνώμη μου, δεν μπορώ να την αλλάξω γιατί δεν έχω δει μέχρι στιγμής καμιά άλλη αξιόπιστη και βιώσιμη πρόταση για αναγέννηση του κλασσικού Packet Radio, από όσα τουλάχιστον ακούστηκαν. Και μόνο το πλήθος όσων είπαν την γνώμη τους για το θέμα (2.5 με εμένα 3.5) είναι ενδεικτικό πόσο απασχολεί το θέμα τον μέσο Έλληνα ραδιοερασιτέχνη.

Οι ευχές και οι συναισθηματισμοί είναι καλοί και χρήσιμοι για να αισθανθούμε για λίγο καλά, αλλά δεν λύνουν το πρόβλημα ούτε δίνουν ζωή στο κλασικό packet.

Με αφορμή λοιπόν την συζήτηση για την νομιμότητα ή όχι του AWMN έψαξα και βρήκα διάφορα στοιχεία, διαβάστε τα με προσοχή και περιμένω τις απόψεις σας.

Στο μήνυμα επισυνάπτω σε μορφή .zip to .rtf αρχείο με τις απόψεις μου που έφτιαξα για το θέμα. Είναι σε αυτή την μορφή για εύκολη δημοσίευση τους στο Internet αλλά και γιατί περιέχει πολλά links και είναι χρήσιμα σε όλους πιστεύω τους ενδιαφερόμενους σαν μελλοντική αναφορά για το θέμα.

Πολλά 73 Τάσος

> παραπάνω 3 γραμμούλες).
Επίσης.....Δεν βλέπω και εγώ τίποτα απο τις 3 γραμμές.
> ραδιοερασιτέχνες! Λες και πιά είναι τόσο δύσκολο να πάρει κανείς
> άδεια σήμερα. Ούτε MORSE δεν χρειάζονται πιά!!!
Κάτσε, ακόμα μην λέτε οτι θα είναι εύκολο....Ακόμα δεν έδωσαν
εξετάσεις...να δούμε πόσοι θα είναι και τι θα δώσουν και ΠΩΣ θα
δώσουν και μετά...
> τα ήδη υπάρχονται, έστω και αν είναι αργά, ραδιοερασιτεχνικά
>δίκτυα, όταν τα χρειαστούμε πραγματικά θα κλαίμε όλοι μαζί γιατί
>δεν θα υπάρχουν.
Αυτό είναι αλήθεια.
>έχει καμμία απολύτως σχέση με τον ραδιοερασιτεχνισμό? Τόσο άχρηστοι
>γίναμε πιά?
Ελπίζω πως όχι και πως κάποιοι θα "ξυπνήσουν" κάποια στιγμή και θα
ασχοληθούν και με το ελληνικό ψηφιακό δίκτυο...Εγώ πιστεύω οτι έστω
μια αναβάθμιση του στα 9600 θα ΕΙΝΑΙ ΕΣΤΩ ΑΝΑΒΑΘΜΙΣΗ...!!! ΕΣΤΩ !
> Τελειώνοντας θέλω να σου υπενθυμίσω ότι υπάρχουν ακόμη
> ραδιοερασιτεχνικά δίκτυα 1200/9600, όπως το ATHNET, αλλά και αυτό
>της Θεσσαλονίκης
Εκτός απο το Athnet, άστο τις Θεσσαλονίκης γιατί δεν έχουμε τίποτα
αξιόλογο εδώ και το ξέρεις αν εξαιρέσεις οτι το gateway είναι στα
9600 απο εκεί και πέρα ΠΟΙΟ ΚΑΛΟ ΕΙΝΑΙ να κάνεις AX.25 παρά να
μιλήσεις για τα 9600 tcp/ip...Μην το "ανοίξω" τώρα το στόμα μου,
ξέρεις εσύ ! ;-)
> αντίστοιχα της Ευρώπης. Βέβαια οι κουτόφραγκοι δεν πήγαν από τα
> 1200bps κατευθείαν στα 100Mbps, αλλά αυτοί είναι όπως είπαμε

Σίγουρα τα πράγματα θα είναι ποιο εύκολα, δεν το συζητάμε...εξάλλου
είναι γνωστό οτι λίγο-πολύ μπορείς να "κλέψεις" στις
εξετάσεις....έστω και λίγο.

>είναι.
9600 AX.25 έχουν μόνο πλέον οι δύο bbs που έχουν μείνει στο ax.25
στο 438.150....Τίποτα παραπάνω...Σαν "δίκτυο" δεν υπάρχει τίποτα απο
όσο ξέρω εγώ τουλάχιστον...Και το gate στα 9600 για το tcp/ip..Αυτό
είναι.

Κύριοι καλησπέρα σας, χρόνια πολλά και ΧΡΙΣΤΟΣ ΑΝΕΣΤΗ.

Βλέπω κάτι μέρες τώρα την συζήτηση για τις λέξεις που δεν διαβάζονται.

Πιστεύω πως εάν πηγαίνατε στο «ΠΡΟΒΟΛΗ – ΚΩΔΙΚΟΠΟΙΗΣΗ – ΕΛΛΗΝΙΚΑ» του OUTLOOK, το πρόβλημα θα είχε λυθεί.
Σαφώς, είναι αργά τώρα.

Φιλικά, Μανώλης

> Ο Αετός στην Καλαμάτα και ίσως και η Ρόδος αλλά με άλλο διακριτικό
Εκεί μπορεί να μας πει πολύ εύκολα ο SV5BYP ή ο SV5BYR τι έχει γίνει
τελικά.
> Το Πήλιο δεν λειτουργούσε στα vhf στο packet παρά μόνο uhf άρα δεν
> μετράει σαν αλλαγή.
Ακόμα λειτουργεί το uhf packet digi στο πήλιο και μέσω αυτού γίνεται
κάποια ανταλαγή μυνημάτων Αθήνας-Θεσσαλονίκης.
> ποτε. Αραγε η Θάσος δουλεύει ακόμα σαν Net/rom ή όχι και πόσο
>καιρό. //
Απο όσο προσπαθώ να στείλω μύνημα, δεν γίνεται τίποτα. Όσο δούλευαν
τα συστήματα του SV2JL του Φώτη, περνούσαν...Τώρα δεν ξέρω τι
γίνεται εκεί...
> Τώρα για το θέμα του ραδιοερασιτεχνικού Packet Radio, ακόμα
>περιμένω μία καλή πρόταση και όχι μονο ευχές.
Να προσπαθήσουμε να φτιάξουμε ένα δίκτυο αλλά πλέον στα 9600
ΤΟΥΛΑΧΙΣΤΟΝ, και να συμπεριλαμβάνει και κάποια νησιά ΤΟΥΛΑΧΙΣΤΟΝ. Τι
άλλο να θέλει το packet....καλύτερα μόνο αν μπει το χέρι ΠΟΛΥ βαθειά
στην τσέπη. Φυσικά για την αναβάθμιση ποιός θα τα δώσει, αυτό είναι
το πρόβλημα !!

ΧΡΙΣΤΟΣ ΑΝΕΣΤΗ ΣΕ ΟΛΟΥΣ ΤΟΥΣ ΣΥΝΑΔΕΛΦΟΥΣ .
ΕΔΩ ΚΑΙ ΚΑΙΡΟ ΒΛΕΠΩ ΟΤΙ ΑΡΧΙΣΑΜΕ ΝΑ ΑΣΧΟΛΟΥΜΑΣΤΕ ΠΑΛΙ ΜΕ ΤΟ PACKET ΠΟΛΛΑ
ΛΟΓΙΑ ΠΟΛΛΕΣ ΚΟΥΒΕΝΤΕΣ ΓΙΑ ΤΟ ΤΙΠΟΤΑ .
ΔΕΝ ΑΠΑΝΤΗΣΑ ΑΜΕΣΩΣ ΓΙΑΤΙ ΕΨΑΞΑ ΝΑ ΒΡΩ ΕΝΑ ΤΕΥΧΟΣ ΑΠΟ ΡΑΔΙΟΤΗΛΕΠΙΚΟΙΝΩΝΙΕΣ
ΤΟΥ 2001 ΟΠΟΥ Ο ΣΥΝΑΔΕΛΦΟΣ SV1RD ΣΕ ΚΑΠΟΙΟ ΣΗΜΕΙΟ ΓΡΑΦΕΙ .
"ΤΟ PACKET ΜΕ ΤΑΧΥΤΗΤΑ 1,2KBITS (ΕΙΝΑΙ ΑΣΤΕΙΟ ΠΟΥ ΤΟ ΓΡΑΦΟΥΜΕ)...........
....
Η ΔΗΜΙΟΥΡΓΙΑ ΚΟΜΒΩΝ NETROM ΚΑΙ ΣΤΑΘΜΩΝ BBS , ΑΝΤΙ ΝΑ ΒΟΗΘΗΣΕΙ ΣΤΗΝ ΔΙΚΤΥΩΣΗ
ΚΑΙ ΕΞΕΛΙΞΗ , ΒΟΗΘΗΣΕ ΣΤΟ ΝΑ ΕΜΦΑΝΙΣΤΟΥΝ ΚΑΛΟΘΕΛΗΤΕΣ "ΣΥΣΟΠΕΣ" ΠΟΥ ΤΟ ΜΟΝΟ
ΠΟΥ ΤΟΥΣ ΕΝΔΙΕΦΕΡΕ ΗΤΑΝ Η ΠΡΟΣΩΠΙΚΗ ΤΟΥΣ ΠΡΟΒΟΛΗ , Η ΜΟΝΟΠΩΛΗΣΗ ΤΩΝ ΔΙΚΤΥΩΝ
ΓΙΑ ΝΑ ΕΠΙΚΟΙΝΩΝΟΥΝ ΟΙ BBS ΤΟΥΣ ΚΑΙ Ο ΑΡΙΘΜΟΣ ΤΩΝ ΠΕΛΑΤΩΝ ΤΟΥΣ , ΔΥΣΤΥΧΩΣ
ΕΜΠΛΕΚΟΝΤΑΣ ΚΑΙ ΤΟΥΣ ΣΥΛΛΟΓΟΥΣ ΣΤΗΝ ΕΓΩΙΣΤΙΚΗ ΤΟΥΣ ΤΑΚΤΙΚΗ ."
ΘΑ ΣΥΜΦΩΝΗΣΩ ΚΑΙ ΘΑ ΠΡΟΣΘΕΣΩ:
ΜΗΠΩΣ ΜΠΟΡΟΥΝΕ ΜΟΝΟ ΜΕΧΡΙ ΕΔΩ ΚΑΙ ΟΧΙ ΠΑΡΑΠΕΡΑ ΚΑΙ ΜΟΝΟ ΛΟΓΙΑ , ΛΟΓΙΑ ,
ΛΟΓΙΑ . (ΜΙΛΩ ΜΟΝΟ ΓΙΑ ΘΕΣ/ΝΙΚΗ)
ΚΑΙ ΑΣ ΣΤΑΜΑΤΗΣΟΥΜΕ ΤΗΝ ΚΑΡΑΜΕΛΑ ΟΤΙ ΤΑ 9600 ΕΙΝΑΙ ΑΚΡΙΒΗ ΥΠΟΘΕΣΗ .

Σίγουρα δεν είναι και φθηνή. Αν εξαιρέσου?ε τα D700 που στην πλειοψηφία τους
απορόφησε το APRS, και τα περισσότερα είναι εγκατεστη?ένα σε αυτοκίνητα,
λίγους ξέρω να έχουν αγοράσει tnc 9600 ακό?α και στις 2 ?εγάλες πόλεις που
θα είχαν λόγο να το χρησι?οποιήσουν.
Η λύση SoundBlaster είναι σαφώς φθηνότερη αλλά πάλι δεν ?λέπω να ανε?αίνουν
οι χρήστες στα 9600 του κλασικού Packet Radio.
Αρα τελικά το κόστος είναι κάτι που συ??άλει, αλλά δεν είναι το ?όνο.

ΕΠΑΝΕΡΧΟΜΑΙ ΣΤΟΝ ΤΑΣΟ ΤΟΝ RD ΓΙΑ ΤΗΝ ΔΗΜΙΟΥΡΓΙΑ ΕΝΟΣ ΠΑΝΕΘΝΙΚΟΥ ΣΧΕΔΙΑΣΜΟΥ
ΓΙΑ ΔΙΚΤΥΑ ΥΨΗΛΗΣ ΤΑΧΥΤΗΤΑΣ ΟΠΩΣ ΣΤΗΝ ΓΕΡΜΑΝΙΑ........
ΤΑΣΟ ΠΩΣ ΘΑ ΓΙΝΕΙ ΑΥΤΟ ΟΤΑΝ ΟΙ ΣΥΛΛΟΓΟΙ ΧΡΗΜΑΤΟΔΟΤΟΥΝ ΜΟΝΟ ΟΤΙ ΘΕΛΟΥΝ......

Νο?ίζω πως αυτό ακρι?ώς εννοούσα όταν είπα ότι το ?λέπω δύσκολο έως αδύνατο.
Οι Γερ?ανοί έφτιαξαν εξαιρετικό δίκτυο Packet Radio κατά την γνώ?η ?ου για
συγκεκρι?ένους λόγους:

1. Δυσκολία στην σύνδεση ?ε Internet
2. Εταιρείες - Βιοτεχνίες που φτιάχνουν έτοι?ο Hardware ποιότητας
3. Οργάνωση του συγκεκρι?ένου λαού
4. Διαφορετική Οργάνωση στους συλλόγους τους και καλύτερη συνεργασία.

Στην Αγγλία που σαφώς έχουν καλύτερη οργάνωση από την δική ?ας δεν κατάφεραν να φτιάξουν τέτοιο δίκτυο, εκτώς από περιορισ?ένες νησίδες.

Μόνο που οι κουτόφραγκοι Γερ?αναράδες, το έφτιαξαν τότε που έπρεπε, τώρα το έχουν και υπάχει και εύκολα γίνεται upgrade σε κάτι καλύτερο όταν θέλουν.
Εδώ ε?είς οι πανέξυπνοι Ελληνες, δεν καταφέρα?ε να έχου?ε ακό?α και σή?ερα 2003 ένα σωστό δίκτυο 1200, και φυσικά δεν έχει πλέον νόη?α κάτι τέτοιο σε αυτή την ταχύτητα σή?ερα.

ΤΕΛΕΙΩΝΩ ΜΕ ΤΗΝ ΕΞΗΣ ΠΡΟΤΑΣΗ .
ΑΣ ΠΡΟΣΠΑΘΗΣΟΥΜΕ ΝΑ ΑΝΑΒΑΘΜΙΣΟΥΜΕ ΤΟ APRS ΠΟΥ ΜΑΣ ΔΙΝΕΙ ΚΑΙ ΑΛΛΕΣ ΔΥΝΑΤΟΤΗΤΕΣ , ΝΑ ΤΟΠΟΘΕΤΗΣΟΥΜΕ DIGI ΚΑΙ ΣΕ ΑΛΛΕΣ ΠΕΡΙΟΧΕΣ ΟΠΩΣ Η ΘΡΑΚΗ , ΓΙΑΤΙ ΚΑΙ ΕΚΕΙ ΥΠΑΡΧΟΥΝ ΛΙΓΟΙ ΣΥΝΑΔΕΛΦΟΙ ΟΙ ΟΠΟΙΟΙ ΔΕΝ ΕΧΟΥΝ ΔΥΝΑΤΟΤΗΤΕΣ ΛΟΓΩ ΤΟΥ ΟΤΙ ΕΙΝΑΙ ΠΟΛΥ ΛΙΓΟΙ ΚΑΙ ΧΩΡΙΣ ΒΟΗΘΕΙΑ ΑΠΟ ΠΟΥΘΕΝΑ .
ΜΗΠΩΣ ΑΥΤΟΣ Ο ΠΑΝΕΘΝΙΚΟΣ ΣΧΕΔΙΑΣΜΟΣ Η"ΠΑΝΕΛΛΑΔΙΚΟΣ ΠΡΕΠΕΙ ΝΑ ΑΡΧΙΣΕΙ ΚΑΙ ΜΑΛΙΣΤΑ ΑΠΟ ΕΚΕΙ ΠΟΥ ΕΙΝΑΙ ΛΙΓΟΙ .
ΚΑΙ ΝΑ ΑΦΗΣΟΥΜΕ ΤΟΥΣ ΟΡΙΣΜΕΝΟΥΣ ΝΑ ΑΣΧΟΛΟΥΝΤΑΙ ΜΕ ΑΥΤΑ ΠΟΥ ΜΟΝΟ ΜΠΟΡΟΥΝ Η" ΠΟΥ ΕΜΑΘΑΝ .
ΕΠΙΣΗΣ ΠΡΕΠΕΙ ΝΑ ΑΓΚΑΛΙΑΣΟΥΜΕ ΚΑΙ ΝΑ ΒΟΗΘΗΣΟΥΜΕ ΑΤΟΜΑ ΚΑΙ ΕΝΕΡΓΕΙΕΣ ΑΤΟΜΩΝ ΠΟΥ ΠΡΟΣΠΑΘΟΥΝ ΚΑΙ ΔΙΝΟΥΝ ΠΟΛΛΑ ,
ΧΩΡΙΣ ΝΑ ΣΝΟΜΠΑΡΟΥΜΕ ΜΕ ΤΟΝ ΕΙΔΙΚΟ ΔΙΚΟ ΜΑΣ ΤΡΟΠΟ , ΟΤΙ ΣΩΣΤΟ ΠΡΟΣΠΑΘΕΙ ΝΑ ΣΤΗΘΕΙ .
ΓΙΑΤΙ ΠΙΣΤΕΥΩ ΟΤΙ Η ΨΗΦΙΑΚΗ ΕΠΙΚΟΙΝΩΝΙΑ ΔΕΝ ΕΙΝΑΙ ΑΠΙΑΣΤΟ ΟΝΕΙΡΟ Η" ΟΝΕΙΡΟ ΛΙΓΩΝ .

ΕΥΧΑΡΙΣΤΩ
ΙΩΑΝΝΗΣ ΙΑΚΩΒΙΔΗΣ
SV2BWR

Γιάννη ?ου συ?φωνώ ?αζί σου, αυτός είναι ο λόγος που πίστεψα στο APRS και η εξέλιξη νο?ίζω δικαίωσε. Μέσα σε 2 χρόνια από το πρώτο digi γε?ίσα?ε όλη την Ελλάδα, και για πρώτη φορά έχου?ε ένα δίκτυο ψηφιακό, αισίως από το 2002 να ?ιλάει σχεδόν σε όλη την Ελλάδα και ακό?α σε mobiles.

Τους λόγους που προχώρησε το APRS σε αντίθεση ?ε το κλασσικό Packet Radio τους ανέλυσα νο?ίζω.
Αυτό που ?ένει τώρα για την σε ?εγάλο ?αθ?ό κάλυψη της χώρας είναι η περιοχή της Αν Μακεδονίας & Θράκης. Επίσης είναι πλέον εφικτή η εξάπλωση των 9600.
Εχου?ε 1 digi στην Αθήνα 2 στην Μακεδονιά και ετοι?άζεται και το Πήλιο.
Αν γίνει και αυτό και όλα συνδεθούν ?εταξύ τους θα έχου?ε σε άλλον 1 χρόνο ένα ενδιαφέρον δίκτυο 9600 APRS, και στο χέρι ?ας είναι να το επεκτείνου?ε.

Το ξανατονίζω ό?ως, το κλασικό Packet Radio είναι άλλη ιστορία. Για να αναπτυχθεί κατά την γνώ?η ?ου θέλει:
1. Σχεδίαση συνολικού δικτύου (δεν φτάνει το να ?άζει ο καθε ένας στο κάθε ?ουνό κάτι που δεν θα έχει λογική συνάφεια ?ε τα άλλα και εκτός αυτού πρέπει και να αποφασιστεί κοινή ?έθοδος αντι?ετώπισης των προ?λη?άτων του "κρυ??ένου πο?πού" Δηλαδή αν θα χρησι?οποιηθεί Dama - Full duplex - Point to point ή κάτι άλλο)
2. Πανεθνική συνεργασία, συλλόγων και ατό?ων για την χρη?ατοδότησή, κατασκευή και εγκατάσταση του, και τέλος
3. Συνεργασία για την διασύνδεση και έλεγχό του.

Και φυσικά ξέχασα κάτι εξίσου ση?αντικό. Επειδή οι σύλλογοί ?ας δεν ενδιαφέρθηκαν καθόλου από οτι φαίνεται για την ?πάντα των 1296 MHz και η ?πάντα αυτή δεν ?ας ανήκει για επίγειες επικοινωνίες, Πρέπει στην σχεδίαση την αρχική να χωρέσει όλο το Bandwith που θέλου?ε για Backbone και user access (και πιθανά Full duplex) στα vhf και uhf ή σε συγκεκρι?ένες ?ικροκυ?ατικές ίσως 10GHZ αν θυ?ά?αι καλά (γιατί σε συνεργασία ?ε το ΥΜΕ δεν νο?ίζω να ?ας αφήσουν ούτε στους 2.4 ούτε στους 5 GHz ?ε τον χα?ό που γίνεται εκεί).

Αραγε έχει σκεφτεί κανείς το κόστος του δικτύου ?όνο; ή όλοι φαντάζονται ότι θα ?άλουν ?ία SB για να συνδεθούν σε ένα ?αγικά εγκατεστη?ένο δίκτυο; Θα είναι όλο το δίκτυο και Backbone και users 9600 bps; Σκεφτήκατε σε 2-4 χρόνια που θα ολοκληρωθεί (αν) το δίκτυο πως θα σας φαίνονται τα 9600 και αν θα ?πορεί να γίνει ανα?άθ?ισή του σε τι;

Και κάτι άλλο που ειπώθηκε σε προηγού?ενα ?ηνύ?ατα, αξίζει τον κόπο να ξοδευτούν τόσα χρή?ατα για εγκατάσταση και συντήρηση ενός τέτοιου δικτύου ?όνο για Emergency την στιγ?ή που ?ε 200χιλ και 1 hf ένα Τηλεπικονωνιακό Κέντρο από το ση?είο της καταστροφής ?πορεί να περάσει γραπτά κεί?ενα αξιόπιστα ?ε Pactor III-II;

Σε όλα αυτά περι?ένω ακό?α καλοπροαίρετα διατυπω?ένες, λογικές προτάσεις από τους συναισθη?ατικούς φίλους ?ου, (που νο?ίζουν ότι κατηγόρησα το κλασικό Packet Radio) και που τις προτάσεις αυτές που θα ειπωθούν θα ?πορούν να τις δεχθούν και να τις υιοθετήσουν οι Ελληνες Ραδιοερασιτέχνες και φυσικά να δεχθούν να τις πληρώσουν.

Πολλά 73 Τάσος Ζαχαρίου

Καλημέρα

Από ότι θυμάμαι, ο Αετός είχε μείνει για κάμποσα χρόνια στην συχνότητα
144.675 όταν όλα υπόλοιπα είχαν αλλάξει. Όπως καταλαβαίνετε, ουδείς
μπορούσε να το χρησιμοποιήσει. Από ότι θυμάμαι, ουδείς ενδιαφέρθηκε για
να αξιοποιηθεί ο Αετός μέχρι πρότινος, όταν άλλαξε σε APRS στο 144.800.
Διερωτώμαι, λοιπόν, σε ποιόν έλειψε ο Αετός και γίνεται τόσος λόγος περί
αυτού;
Για ποιες "ανησυχίες" μιλάμε εδώ;

Φιλικά, Μανώλης

Αγαπητέ Δημήτρη,

Δεν έχω ασχοληθεί και τόσο πολύ με το "κλασσικό PACKET", όπως εσύ το
εννοείς.
Θα ήθελα, όμως, να με διαφωτίσεις όσον αφορά στο "περί τίνος πρόκειται",
για να είμαι και εγώ ενήμερος.
Πάντως, έχω την πεποίθηση πως ο ραδιοερασιτέχνης είναι άτομο το οποίο
έχει απελευθερωθεί από αγκυλώσεις οι οποίες τον/την κρατούν δέσμιο
παρελθόντων καταστάσεων και είναι από τους πρώτους που αγκαλιάζουν, και
ας μην υιοθετούν, καινούριες ιδέες και τεχνολογίες.

Φιλικά, Μανώλης

Φίλε Δημήτρη,

Άρα είμαστε σε πλήρη συμφωνία απόψεων.
Όταν κάτι χρησιμοποιείται πρέπει και να υποστηρίζεται. Το συγκεκριμένο
Net/Rom δεν χρησιμοποιείτο, όμως.
Όσον αφορά στα "ΝΕΑ" modes έχεις απόλυτο δίκιο. Υπάρχουν ελάχιστα
καινούρια modes. Τα περισσότερα καινούρια που πλασάρονται, δεν είναι
παρά νέοι τρόποι αξιοποίησης των "παλαιών" modes.
Ελπίζω να μην παρεξήγησες την λέξη "ΔΙΑΦΩΤΙΣΗ". Δεν το εννόησα όπως το
κατάλαβες. Ίσως να μην το επικοινώνησα εγώ σωστά.

Εν κατακλείδι ... HOBBY ΚΑΝΟΥΜΕ, ΑΣ ΤΟ ΑΠΟΛΑΥΣΟΥΜΕ !!!!!!!!!!!!!

Φιλικά πάντα, Μανώλης

Αγαπητέ φίλε,

Συμφωνώ στο ότι ο ραδιοερασιτέχνης πρέπει να αγκαλιάζει όλες τις νέες
ιδέες
και μέχρι σήμερα αυτό ακριβώς έχω κάνει στη ζωή μου, χωρίς όμως να
προσπαθώ να
μειώσω τους παλιούς τρόπους επικοινωνίας, οι οποίοι όπως όλοι μας πολύ
καλά
ξέρουμε έχουν πάντα τη θέση τους στον ραδιοερασιτεχνικό κόσμο. Ποτέ δεν
πρόκειται π.χ. οι ραδιοερασιτέχνες να απαρνηθούν το CW επειδή στο κάτω
κάτω
HOBBY κάνουμε! Δεν πρέπει ποτέ να το ξεχνάμε αυτό και φυσικά στο HOBBY
υπάρχουν πολλά ενδιαφέροντα και πολλές γνώμες. Πρέπει λοιπόν κάποτε,
έστω και
τώρα, να μάθουμε να σεβόμαστε ο ένας τη γνώμη του άλλου και να μήν
καταδικάζουμε αβασάνιστα κάτι που μπορεί να αρέσει σε άλλους.

Οπως ακριβώς σε μερικούς αρέσει ακόμη το CW, σε άλλους μόνο το SSB και
σε
άλλους κάτι άλλο, έτσι κι εδώ στα ψηφιακά υπάρχουν και τα "παλιότερα;;;"
modes
που ακόμη αρέσουν σε αρκετούς, όπως υπάρχουν και τα "νέα;;;" modes!!!
Βέβαια
κατά πόσο είναι νέα ωρισμένα modes που πλασάρονται ώς νέα από κάποιους,
αυτό
θέλει πολύ συζήτηση!

Οσο για τη διαφώτιση που αναφέρεις, ποτέ μου δεν χρημάτισα ως
διαφωτιστής και
έτσι δυστυχώς αλλά δεν θα μπορέσω να σου κάνω το χατήρι. Υπάρχουν πολλοί
που
τους αρέσει αυτός ο ρόλος.

>ΚΛΑΣΣΙΚΟ PACKET RADIO ΕΧΕΙ ΤΕΛΕΙΩΣΕΙ ΕΔΩ ΚΑΙ ΜΕΡΙΚΑ ΧΡΟΝΙΑ .ΝΑΙ ΣΤΟ
>APRS ΚΑΙ ΣΕ ΟΛΕΣ ΤΙΣ ΔΥΝΑΤΟΤΙΤΕΣ ΤΟΥ ΠΟΥ ΕΙΝΑΙ ΠΟΛΛΕΣ .ΟΣΟ ΓΙΑ ΤΟ
Εγώ εξακολουθώ να λέω ΝΑΙ ΚΑΙ ΣΤΟ PACKET, εφόσον οι δυνατότητες του
είναι ΠΟΛΛΕΣ και δεν τις έχουμε εξερευνήσει όλες.
>ΑΛΛΑ ΟΥΤΕ ΤΕΡΑΣΤΙΟ , ΓΙΑ ΚΑΠΟΙΟΝ ΠΟΥ ΕΝΔΙΑΦΕΡΕΤΕ ΠΡΑΓΜΑΤΙΚΑ ΘΑ
>ΚΑΝΕΙ ΤΗΝ ΑΓΟΡΑ ΚΑΠΟΙΟΥ TNC ΚΑΙ ΔΕΝ ΘΑ ΠΑΡΕΙ ΚΑΠΟΙΟ ΑΛΛΟ ΕΙΔΟΣ >
>(ΚΕΡΑΙΑ , ΚΑΙΝΟΥΡΓΙΟ VU Η" HF κα) .
Σαφώς η αγορά μπορεί να γίνει Γιάννη μου, αλλά το θέμα είναι να
μπορεί να αξιοποιηθεί κατάλληλα ο εξοπλισμός και όχι να μιλάμε για
επικοινωνία μόνο μεταξύ χρηστών...
>ΑΠΛΑ Η ΨΗΦΙΑΚΗ ΕΠΙΚΟΙΝΩΝΙΑ ΚΑΙ ΟΙ Η/Υ ΣΕ ΛΙΓΑ ΧΡΟΝΙΑ ΘΑ ΚΑΛΥΨΟΥΝ ΤΟ
>60-70% ΤΟΥ ΧΟΜΠΥ ΜΑΣ.....(ΒΛΕΠΕ CW)
Απλα το βασικό είναι να υπάρχει ΕΝΗΜΕΡΩΣΗ....σε γενική έννοια...και
απο συλλόγους και σε προσωπικό επίπεδο.
>ΚΑΙ ΝΑ ΚΑΝΩ ΜΙΑ ΕΡΩΤΗΣΗ ΠΡΟΣ ΟΛΟΥΣ .ΓΙΑΤΙ ΤΟ APRS ΣΕ ΤΟΣΟ ΛΙΓΟ
>ΚΑΙΡΟ ΑΝΑΠΤΥΧΘΗΚΕ ΚΑΙ ΑΝΤΙ ΝΑ ΜΕΙΝΕΙ ΣΤΑΣΙΜΟ ΕΞΕΛΙΣΕΤΕ ?
Γιατί πολύ απλά δεν θέλει ιδιαίτερες γνώσεις για να ασχοληθείς !!!
ΚΑΛΟ ΜΗΝΑ ΣΕ ΟΛΟΥΣ SV2BWR

> καταλάβει στην Ελλάδα μας και γιαυτό δεν προχώρησε το PACKET στα
>9600 σε επίπεδο διαδικτύωσης μεταξύ των πόλεων, γιατί σε τοπικό
>επίπεδο υπάρχει 9600.
Σίγουρα ένας καλός πομποδέκτης είναι απαραίτητος για να κάνει
κάποιος Packet >9600.
> και γιαυτό λέμε πως υποδομή στο PACKET υπάρχει τελικά αλλά θέλουν
>να την πεθάνουν κάποιοι.
Όταν θα λειτουργήσουν (αν και όταν) gate σε όλη την Ελλάδα, είναι
σίγουρο οτι τα πράγματα θα είναι πολύ εύκολα στην μεταξύ μας ψηφιακή
επικοινωνία. Και ας είναι half amateur....
> Ας μήν ξεχνάμε τη συμβολή των SV1AAW, SV1CPO και SV2BXO/SV2AMK
>σ'αυτόν τον τομέα, των οποίων τα ονόματα δεν έχουν ακουσθεί σχεδόν
>καθόλου. Γιατί άραγε?
Δεν ξέρω για τον SV2BXO γιατί δεν τον έχω προλάβει μάλλον. Ο SV1AAW
ας είναι καλά, εξακολουθεί να διακινεί mail απο την bbs του και έτσι
μπορούμε να πέρνουμε αρκετά μυνήματα μέσω e-mail. ο 1CPO ο Δημήτρης,
επίσης απο οτι γνωρίζω ασχολείται εκεί στο αγρίνιο αρκετά και έχει
κάνει πολλά πράγματα και για το packet αλλά και για το aprs.
Εδώ θεσ/νίκη πάντως δεν μπορώ εγώ να παραλείψω τον SV2RQ, τον Σάκη
που ακόμα ασχολείται με την "τροφοδοσία" των bbs με μυνήματα...και
υπάρχει και ένα HF gate (10m) το οποιό το επανα-λειτούργησε για
τυχόν χρήση HF Forward μυνημάτων.

Της πάτρας δεν την γνώριζα οτι υπάρχει και αν υπάρχει πρόσβαση μέσω διαδικτύου. Δυστηχώς για την Ρόδο, δεν γνωρίζω περισσότερα..απλά οτι ο Μίχάλης θα έστηνε το σύστημα σε ένα καινούργιο μέρος...Αλλά δυστηχώς λόγως τις κακής λειτουργίας του ampr στην Θεσ/νίκη, δεν μπορώ να το τσεκάρω...

Subject: [BAWUG] Licensed to War Drive in N.H.

(coincidential "peterson" name collision, or a relative of matt's?)

Wired News
Licensed to War Drive in N.H.
02:00 AM Apr. 29, 2003 PT

DURHAM, New Hampshire -- A land where white pines easily outnumber wireless computer users, New Hampshire may seem an unlikely haven for the free networking movement.

But the state, known for its Live Free or Die motto, could become the first in the United States to provide legal protection for people who tap into insecure wireless networks.

A bill that's breezing through New Hampshire's legislature says operators of wireless networks must secure them -- or lose some of their ability to prosecute anyone who gains access to the networks.

House Bill 495 would, experts say, effectively legalize many forms of what's known as war driving -- motoring through an inhabited area while scanning for open wireless access points.

Increasingly popular with businesses and consumers, wireless networks use radio waves to transmit data between computers in a network. The convenient, low-cost equipment often is deployed to allow employees or household members to
share a single Internet connection.

To simplify installation, wireless systems typically ship without any security features enabled. Because the radio waves broadcast by wireless base stations are relatively powerful, it's not uncommon for residential neighbors or adjacent businesses to inadvertently connect to each other's wireless networks.

Some wireless owners leave their access points unsecured on purpose. A grassroots effort known as the open network movement is attempting to create a worldwide grid of Internet-connected wireless access points. A computer enthusiast with a DSL or cable modem at home may, for example, intentionally provide free wireless access to the connection while he's away at work.

New Hampshire's proposed wireless law was hailed as "enlightened" by the Electronic Frontier Foundation, a California-based digital rights advocacy group.

Lee Tien, a lawyer for the EFF, said the bill would help clarify the legality of the open networking movement.

"It seems like a fairly clean way of accommodating the geek-culture practice of
having open wireless access points without doing anything bad for security," said Tien.

The appeal of tapping into free Internet connections while on the go has led to
an activity known as war chalking, in which wireless fans scratch special markings on pavement to indicate open connections. Thousands of wireless "hotspots" offered by hotels, restaurants and other commercial establishments also are listed in online databases such as 80211hotspots.com.

To understand the genesis of New Hampshire's proposed law, just boot up a wireless-enabled laptop at the Fusion Internet Cafe and Espresso Bar on Elm Street in Manchester, the state's largest city.

Fusion has been offering free wireless access to coffee drinkers for the past four months. But co-owner Carlos Pineda said he sometimes turns on his laptop at the cafe and finds himself connected instead to a wireless local-area
network, or WLAN, operated by the CVS drugstore located across the street.

"I don't even think their employees are aware the signal from their Internet is
being broadcast outside of their space," said Pineda. "That means I have access
to their (Internet protocol) address so I can break into their system. Personally I can't, but other, more-savvy people could do it."

The legality of such inadvertent wireless network intrusions is murky. Last year, a Texas man was indicted, but later cleared, on charges that he illegally
gained access to the wireless network of the Harris County district clerk.

Like most state and federal computer crime laws, New Hampshire's existing statute says it is a crime to knowingly access any computer network without authorization. By analogy, just because someone leaves his house unlocked doesn't mean you are authorized to walk inside, sit on the couch or help yourself to the contents of the fridge.

But HB 495 turns that thinking upside down, experts said. It defines an operator's failure to secure a wireless network as a form of negligence. According to the proposed amendment, "the owner of a wireless computer network shall be responsible for securing such computer network."

What's more, if an alleged intruder can prove he gained access to an insecure wireless network believing it was intended to be open, the

defendant may be able to get off the hook using an "affirmative defense" provision of the existing law.

As a result, some legal experts contend that New Hampshire's proposed amendment to its computer laws could make it harder to throw the book at criminals who take advantage of insecure wireless systems.

"If (wireless network operators) want to be able to prosecute people for hacking into their wireless networks, they need to have done something to have secured the networks," said Mark Rasch, a former head of the Justice Department's computer crime unit.

Despite repeated warnings from experts, at present many wireless users haven't secured their systems.

A 10-minute war drive down the main business district of Manchester earlier this month using a laptop with a standard wireless card revealed nearly two dozen open wireless access points, including some operated by banks and other businesses.

A variety of techniques can deter, if not eliminate, unauthorized access to wireless networks. For example, enabling a technology called Wired Equivalent Privacy, or WEP, can provide some security by encrypting wirelessly transmitted
data. Wireless networks also can require users to provide a password before connecting. Another technique, called MAC address filtering, only allows access
to computers on a designated list.

But according to Jeff Stutzman, CEO of ZNQ3, a provider of information security services, such security techniques are beyond the ken of many home and
small-business users.

"When I do a vulnerability assessment for a client, one of the first things I do is test for open (wireless) access points. And I've been in places where every access point I've picked up is un-WEPed," said Stutzman.

Pineda said the salesman at Best Buy who sold Fusion Internet Cafe its wireless gear didn't even bring up the subject of enabling security features.

"People talk about wireless technology but no one talks about the security problems ... people stealing the signal, hacking your system," said Pineda. "That's not their concern. Their concern is to push a product out of the store."

Passed by the New Hampshire House last month, HB 495 currently is being reviewed by the state's Senate Judiciary Committee. If signed into law, it would take effect in January 2004.

Committee Chairman Andrew Peterson said the goal of the proposed law is to protect those who innocently stumble upon insecure wireless networks. But

Peterson said the committee is open to arguments from anyone who believes the bill could undercut existing protection for victims of wireless hacking.

"We want to be sure that it wasn't the case that, through trying to protect people under certain circumstances, we were opening up greater opportunity for criminal activity," said Peterson. *******************************

Λογικό αυτό που λές. Κανείς δεν δίνει σαφή απάντηση γιατί
η σχετική διάταξη της Ε.Ε.Τ.Τ. είναι γραμμένη με τέτοιο
τρόπο ώστε ο καθένας να την ερμηνεύει όπως τον βολεύει.

Είναι σαφές ότι επιτρέπονται point-to-point links στους
2.4 GHz με εξαιρετικά απλουστευμένες διαδικασίες αδειοδότησης
υπό προϋποθέσεις. Για περισσότερα στοιχεία μπορεί κανείς
να ανατρέξει στα ακόλουθα URL:

http://www.eett.gr/gr_pages/telec/wireless/asirm_zeyksi_idia/asyrmati_
zeyksi_idia.htm

http://www.eett.gr/gr_pages/telec/kanonistika_keimena/APOF2002/APOF254
-72FEK.pdf

και στο site του AWMN:

http://www.awmn.gr/

Ισως έτσι σχηματίσει μια κάπως σαφέστερη εικόνα.

Πριν απαντηθεί αν το AWMN είναι νόμιμο, πρέπει να απαντηθούν
τα εξής δυο ερωτήματα:

1. Η διασύνδεση LAN και λοιπές εφαρμογές μεταφοράς
μηχανογραφικών δεδομένων (εκτός τηλεχειρισμού και
τηλεμετρίας) καλύπτονται από την απόφαση 254/72?

2. Ο τρόπος λειτουργίας του AWMN συνιστά "ίδια χρήση"
ή "παροχή τηλεπικοινωνιακών υπηρεσιών" ?

Προφανώς αρμόδιοι να απαντήσουν είναι η Ε.Ε.Τ.Τ. και τα
Διοικητικά Δικαστήρια και όχι εμείς.

Ελπίζω να σας διαφώτισα λίγο, διαβάστε τα παραπάνω URL
για να σχηματίσετε προσωπική εικόνα.

Συ?φωνώ
τους λόγους τους ανέφερα ήδη
Το APRS είναι φθηνό, απλό σαν πρωτόκολλο χωρίς πολλά retries, χρησι?οποιεί
κοινά alias και έτσι ξεπερνάει το πρό?λη?α συνεννοησης των συλλόγων (σε ένα
?αθ?ό φυσικά), και έχει ενδιαφέρουσες πληροφορίες σε ωραία γραφική
απεικόνιση. Επίσης ?εγάλη ευκολια στην εγκατάσταση πληθώρας προγρα??άτων.
Αυτοι είναι κατά την γνώ?η ?ου οι λόγοι που έγινε γρήγορα. Επίσης δεν πρέπει
να ξεχαστεί και η δραστηριότητα του αρχικού APRS group που δούλεψε αρκετά
για να πίασει την πρώτη χρονία το 2000 δηλαδή (παρά τα γνωστά προ?λή?ατα
Ψειλορήτης παρε??ολές κλπ)

Πολλά 73 Τάσος

Διερωτώμαι… Γιατί τα μηνύματα αυτά πρέπει να τα διαβάζουμε όλοι?

Πιστεύω πως όλοι έχουμε τις προσωπικές διευθύνσεις των υπολοίπων.

Γράφω τις γραμμές αυτές διότι διαβλέπω προσωπική αντιπαράθεση.

Φιλικά, Μανώλης

Χμμ,

Δηλαδή το SPAM στις λίστες είναι σωστό πράγμα? Καλό θα ήταν να
είμαστε λίγο πιό ταπεινοί να μην περιαυτολογούμε συνεχώς Τάσο. Μην
ξεχνάς ότι το PACKET RADIO είναι HOBBY και δεν είναι όχημα προσωπικής
προβολής του καθενός. Υπάρχουν και πιό σημαντικά πράγματα στη ζωή μας
από το PACKET RADIO. Αλλοίμονο αν περιμέναμε από το HOBBY και μόνο να
ξεχωρίσουμε!!!

Καλό θα είναι να σκεφτόμαστε πρίν μιλήσουμε!

Re: AWMN & 2.4 Ghz

Αναμετάβίβαση χθεσινού μηνύματος που δενξέρω γιατί δεν πέρασε αλλά είναι
ακόμα
επίκαιρο

Στίς Thu, 01 May 2003 01:49:23 +0300 "Demetre Valaris" έγραψε:

> Τελικά κανείς δεν είπε ποιοί ραδιοερασιτέχνες ασχολούνται με το AWMN!

> ραδιοερασιτέχνες να λάβουν μέρος στο δίκτυο? Αρχίζω να αναρωτιέμαι μήπως
> κρύβεται κάτι τελικά πίσω από όλα αυτά! Πολύ μυστήριο έπεσε σε όλη την
> υπόθεση!!!
>
>
>

Γιατί δεν κάνεις μία ερώτηση στο Forum του AWMN να ρωτήσεις δεν νομίζω
ότι θα θέλουν να κρυφτούν. Ανέκαθεν οι ραδιοερασιτέχνες ασχολιόντουσαν με
όλα τα περιφερειακά στον ραδιοερασιτεχνισμό χόμπι όπως το
SWListening
SW utility stn listening
TVRO
TV Band I receiving
WX SATS 13& MHz receiving
PMR - Family Radio
CB
V-Uhf Scanners
Radio Control for Models
Radio Astronomy
Και νομίζω πάντα ήταν περίφανοι για αυτά, και δημοσιεύεις σε
ραδιοερασιτεχνικά περιοδικά γίνονται για πολλές από αυτές τις
δραστηριότητες που δεν είναι by the law amateur radio.

Αρα κάνε μία ερώτηση εκεί για να βρείς ποιοί είναι. Προσωπικά έχω ακούσει
για τουλάχιστον 3 ραδιοερασιτέχνες

> Πάντως ούτε οι σταθμοί APRS μιλάνε ταυτόχρονα όπως λές για τους
>σταθμους του κλασικού Packet Radio.
Αν δοκιμάσουν 4 άτομα να ανταλάξουν μυνήματα την ίδια στιγμή,
γινεταί ΠΑΝΙΚΟΣ !!!
> Προφανώς ξέχασες την κατάσταση στο 144.675 πριν από το 1990 όταν
> προσπαθούσες να κάνεις conect σε 2-3 hops απόσταση και αυτό
>συνέβαινε μετά από 1 ώρα. Οταν Netrom/Nodes BBS και users
>ανταγωνιζόντουσαν ο ένας τον άλλον.
Για να αλλάξεις περιοχή εδώ στην Θεσ/νίκη δεν το συζητώ..Για
να "βγεις" Αθήνα μέσω digi's στα 1200 κάνει ΠΟΛΥ ώρα...Ποιό γρήγορα
έκανα connect στην αγγλία μέσω hf gate στα 1200 παρά στην Αθήνα.
> Ακόμα και direct συνδεόσουν σε μία BBS και περίμενες ώρες για να
>κάνεις απλό list των μηνυμάτων.
Χρησιμοποιείς agwbbs ή winpack και είσαι "άνετος"
> Ξέχασες ότι ήταν το Βασίλειο της ισχύος και του Presist. Οποιος
>είχε τεράστια ισχύ και μικρό persist και είχε καλή επαφή με τον
>ανταποκριτή του έβαζε ένα yapp download και έκλεινε το κανάλι;
Καλά, δεν το συζητώ αυτό το θέμα για ax.25 γιατί δεν γίνονται
τουλάχιστον τελευταία αυτά...Για τα 9600 tcp/ip.....no comment.
> χρήστες και να αρχίσουν τα Bad Lists για να μιλάνε μόνο
>συγκεκριμένες BBS;
Αυτό το έχω ξανακούσει πολλές φορές !!! Πάμε καλά ;
> Ξέχασες ότι έστελνες μήνυμα που δεν έφθαναν ποτέ ή μετά από 2-3
>μέρες,
Χμ, αρκετά μυνήματα έρχονται πίσω ακόμα και τώρα...Τους λόγους δεν
τους γνωρίζω όμως.
> Για πρώτη φορά έχουμε ένα ψηφιακό δίκτυο (APRS) από άκρη σε άκρη
>(σχεδόν) σε όλη την Ελλάδα, που δημιουργήθηκε σε χρόνο ρεκόρ παρά
>τις γνωστές συνθήκες και κόντρες των συλλόγων, και που όλοι μπορούν
>να το δουλέψουν και εσύ κάνεις τον δύσκολο και αυστηρό κριτή ?
Καλή η όλη φάση με το aprs, κανείς δεν αμφιβάλει οτι είναι καλό και
οτι αναπτύχθηκε γρήγορα...Γιατί να μην μπορεί να συμβεί και με το
packet όμως αυτό ;
> ανάστασης του και εγώ μαζί τους. Δεν φταίει το APRS που θαύτηκε το
>packet.
Σαφώς και δεν φταίει και πιστεύω οτι τώρα που περισσότεροι
έχουν "tnc" μπορούν να ασχοληθούν και με το Packet.
> Γιατί δεν ρωτάς κανένα Καλαματιανό αν δούλεψε ποτέ τον Αετό, και
>αν του ήταν χρήσιμος.
Χμ,
> Γιατί δεν διαμαρτύρονται που έχασαν το εξαιρετικό δίκτυο με τις
>φανταστικές δυνατότητες οι ίδιοι να ζητήσουν από την ΕΕΡ να το
>κάνει πάλι NetWrong(παράφραση του NET/ROM).
Κανείς δεν αντιλέγει οτι είναι αργό το Packet όπως είναι

τώρα...σχετικά αργό...αλλά οχι και να λέμε οτι δεν έχει
δυνατότητες !!! Έχει !
> Νομίζεις ότι αν οι κλασικοί Netrom άλλαζαν ταχύτητα και πήγαιναν
>στα 9600 θα άλλαζε τίποτε. Δεν θα αλληλοπαρεμβαλόντουσαν όπως στα
>200?.
Πιστεύω οτι μπορεί να βρεθεί λύση...Μόνο λένε του σπανού τα γένια
δεν γίνοται...!
> Είναι οι "hidden terminals", το ακριβότερο hardware και η έλλειψη
> επικοινωνίας συλλόγων και ενδιαφερομένων που είναι απαραίτητη για
>άτι τέτοιο.
Correct 98%. Δεν είναι ακριβό το να κάνεις 9600 πλέον...Για
μεγαλύτερη ταχύτητα...το χέρι μπαίνει στην τσέπη.
> απόγειο έχεις πολλά χρόνια ενασχόλησης και προσπαθειών. Στο Packet
>Radio δεν υπάρχει δυνατότητα να κερδίσεις σε γνώση και εμεπειρίες
>περισσότερα από ένα όριο που σε 1-3 χρόνια το έχεις καταφέρει. Το
>ίδιο βέβαια ισχύει και για το APRS.
Στο packet, αυτό που συμβαίνει είναι η συλλογή πληροφοριών χωρίς να
χρειάζεται να ψάχνει κανείς ώρες στο internet.
>φθάνεις γρήγορα σε ένα όριο που δεν μπορείς να ξεπεράσεις (παλιά το
>λέγανε και η μοναξιά του Packet)
Έχουμε φτάσει σε αυτό το σημείο ποτέ ;

686. RE: [The Greek Ham Radio] Re: OVERH EAD (ήταν ΡΙΖΙΚΕΣ ΑΛΛΑΓΕΣ)

Yahoo group: thegreekhamradio
Date: 2003-05-02 11:51:31 UTC
From: Emmanuel F. Zambetas
Topic: 672 Message: 686

ΡΕ ΣΥ ΔΗΜΗΤΡΗ ΜΟΥ, ΤΟ ΠΡΟΒΛΗΜΑ ΠΟΙΟ ΕΙΝΑΙ ΤΕΛΙΚΑ?

Ο ΑΝΘΡΩΠΟΣ ΤΟ ΣΤΕΛΝΕΙ ΑΠΟ ΤΟ QRL ΤΟΥ, ΚΑΙ ΤΟ «OVERHEAD» ΑΥΤΟ ΜΠΑΙΝΕΙ ΑΥΤΟΜΑΤΑ ΜΕ ΤΗΝ ΑΠΟΣΤΟΛΗ ΤΟΥ ΜΗΝΥΜΑΤΟΣ.

ΟΛΟΙ ΓΝΩΡΙΖΟΥΜΕ ΤΙ ΕΙΝΑΙ ΤΟ «NBG»

ΘΑ ΑΝΤΙΠΑΡΑΤΕΘΟΥΜΕ ΚΑΙ ΓΙΑ ΑΥΤΟ ΤΕΛΙΚΑ??????????????????

Ο ΧΡΙΣΤΟΣ ΚΑΙ Η ΠΑΝΑΓΙΑ.

ΟΠΟΙΟΣ ΕΧΕΙ ΣΥΓΚΕΚΡΙΜΕΝΕΣ ΠΡΟΤΑΣΕΙΣ ΓΙΑ ΤΟ PACKET ΑΣ ΤΙΣ ΚΑΝΕΙ.

ΤΟ ΒΗΜΑ ΕΙΝΑΙ ΑΝΟΙΚΤΟ ΓΙΑ ΟΛΟΥΣ. ΟΤΑΝ ΛΕΩ ΟΛΟΥΣ ΕΝΝΟΩ ΟΛΟΥΣ.

ΤΟ ΝΑ ΠΑΡΑΠΟΝΙΟΜΑΣΤΕ ΚΑΙ ΝΑ ΛΕΜΕ ΤΟ ΚΛΑΣΣΙΚΟ «ΕΓΩ ΤΟ ΕΙΧΑ ΠΕΙ ΤΟΤΕ» Ή ΤΟ ΑΝΕΠΑΝΑΛΗΠΤΟ «ΑΧ ΤΑ ΕΛΕΓΑ ΕΓΩ» 'Η ΤΟ ΦΟΒΕΡΟ «ΤΩΡΑ ΕΠΙΒΕΒΑΙΩΝΟΝΤΑΙ ΟΙ ΥΠΟΨΙΕΣ ΜΟΥ» ΔΕΝ ΒΟΗΘΑΜΕ ΤΗΝ ΚΑΤΑΣΤΑΣΗ ΤΗΝ ΟΠΟΙΑ ΕΜΕΙΣ, ΩΣ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΕΣ, ΔΗΜΙΟΥΡΓΗΣΑΜΕ ΣΤΟ ΠΑΡΕΛΘΟΝ, ΔΙΑΤΗΡΟΥΜΕ ΣΤΟ ΠΑΡΟΝ ΚΑΙ ΔΙΑΙΩΝΙΖΟΥΜΕ ΣΤΟ ΜΕΛΛΟΝ.

ΟΛΟΙ, ΑΝΕΞΑΙΡΕΤΩΣ, ΕΙΜΑΣΤΕ ΥΠΑΙΤΙΟΙ ΓΙΑ ΟΛΑ ΤΑ ΔΕΙΝΑ ΤΑ ΟΠΟΙΑ ΜΑΣΤΙΖΟΥΝ, ΣΗΜΕΡΑ, ΤΟΝ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΙΣΜΟ.

ΕΔΩ ΔΕΝ ΜΠΟΡΟΥΜΕ ΝΑ ΣΥΜΦΩΝΗΣΟΥΜΕ ΣΤΑ ΑΥΤΟΝΟΗΤΑ, ΠΕΡΙΜΕΝΟΥΜΕ ΝΑ ΣΥΜΦΩΝΗΣΟΥΜΕ ΣΤΑ ΕΠΙ ΜΕΡΟΥΣ???????.

ΡΕ ΠΑΙΔΙΑ, ΕΙΜΑΣΤΕ ΠΕΡΙΠΟΥ 3000 ΑΤΟΜΑ ΚΑΙ ΕΧΟΥΜΕ 150 ΣΥΛΛΟΓΟΥΣ, ΤΟ ΕΧΕΤΕ ΠΑΡΕΙ ΧΑΜΠΑΡΙ?????????????

ΚΑΙ ΜΗΝ ΑΡΧΙΣΕΙ ΚΑΝΕΝΑΣ ΝΑ ΜΟΥ ΛΕΕΙ ΟΤΙ ΦΤΑΙΕΙ «ΑΥΤΟΣ Ο ΣΥΛΛΟΓΟΣ» 'Η «Ο ΑΛΛΟΣ ΣΥΛΛΟΓΟΣ» ΔΙΟΤΙ ΕΙΝΑΙ ΒΛΑΚΩΔΕΣ.

ΟΙ ΣΥΛΛΟΓΟΙ ΑΠΑΡΤΙΖΟΝΤΑΙ ΑΠΟ ΑΤΟΜΑ. ΤΑ ΔΙΟΙΚΗΤΙΚΑ ΣΥΜΒΟΥΛΙΑ ΤΩΝ ΣΥΛΛΟΓΩΝ ΑΠΑΡΤΙΖΟΝΤΑΙ ΑΠΟ ΑΤΟΜΑ. ΕΑΝ ΔΕΝ ΜΑΣ ΚΑΝΟΥΝ, ΤΑ ΑΛΛΑΖΟΥΜΕ ΣΤΙΣ ΕΠΟΜΕΝΕΣ ΕΚΛΟΓΕΣ.

ΕΝΑ ΑΛΛΟ ΔΕΙΝΟ, ΤΟ ΟΠΟΙΟ ΜΑΣ ΜΑΣΤΙΖΕΙ, ΕΙΝΑΙ Ο ΤΟΠΙΚΙΣΜΟΣ. ΧΑΡΑΚΤΗΡΙΣΤΙΚΕΣ ΦΡΑΣΕΙΣ ΕΙΝΑΙ ΟΙ ΕΞΗΣ : «ΔΕΝ ΘΑ ΑΦΗΣΟΥΜΕ ΤΟΥΣ ΕΠΑΝΩ Ή ΤΟΥΣ ΚΑΤΩ, Ή ΤΟΥΣ ΔΙΠΛΑ Ή ΤΟΥΣ ΧΑΜΟΥΤΖΗΔΕΣ Ή ΤΟΥΣ ΤΑΔΕ, Ή ΤΟΥΣ ΔΕΙΝΑ…….. ΝΑ ΚΑΝΟΥΝ ΟΤΙ ΓΟΥΣΤΑΡΟΥΝ». ΑΝΤΙ ΠΡΟΤΑΣΕΩΝ, ΛΟΙΠΟΝ, ΔΗΜΙΟΥΡΓΕΙΤΑΙ ΣΥΛΛΟΓΟΣ. ΟΤΑΝ ΔΗΜΙΟΥΡΓΕΙΤΑΙ ΣΥΛΛΟΓΟΣ, ΑΠΟΔΥΝΑΜΩΝΕΤΑΙ ΤΟ ΣΩΜΑ ΤΩΝ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΩΝ. ΕΑΝ ΥΠΑΡΧΕΙ ΑΠΟΡΙΑ ΓΙΑ ΤΟ ΠΩΣ ΑΠΟΔΥΝΑΜΩΝΕΤΑΙ ΤΟ ΣΩΜΑ, ΘΑ ΧΑΡΩ ΙΔΙΑΙΤΕΡΩΣ ΝΑ ΣΑΣ ΤΟ ΕΞΗΓΗΣΩ ΕΚΤΟΣ REFLECTOR.

ΑΛΛΟ ΕΝΑ ΔΕΙΝΟ ΕΙΝΑΙ Η ΠΡΟΣΠΑΘΕΙΑ ΠΡΟΣΩΠΙΚΗΣ ΠΡΟΒΟΛΗΣ ΜΕΣΩ ΤΟΥ HOBBY.

ΚΑΠΟΙΕΣ ΠΡΟΤΑΣΕΙΣ ΠΑΝΩ ΣΕ ΑΥΤΑ ΕΧΟΥΜΕ ΝΑ ΚΑΝΟΥΜΕ, Ή ΑΠΛΑ ΜΙΛΑΜΕ ΓΙΑ ΝΑ ΕΧΟΥΜΕ ΚΑΤΙ ΝΑ ΠΟΥΜΕ?????

ΓΙΑ ΠΟΙΟ PACKET ΚΑ ΠΟΙΟ APRS ΜΙΛΑΜΕ???

ΘΥΜΑΜΑΙ ΠΩΣ ΟΤΑΝ ΕΙΧΕ ΜΠΕΙ ΤΟ DIGI ΣΤΟΝ ΥΜΗΤΤΟ (J41VAE), ΟΛΟΙ ΟΣΟΙ ΕΞΑΙΡΟΥΜΕ, ΤΩΡΑ, ΤΗΝ ΣΩΣΤΗ ΟΡΓΑΝΩΣΗ ΤΟΥ APRS ΣΤΗ ΧΩΡΑ ΜΑΣ, ΑΡΧΙΣΑΜΕ ΝΑ ΦΩΝΑΖΟΥΜΕ ΠΩΣ ΗΤΑΝ ΠΑΡΑΝΟΜΟ, ΚΑΙ ΠΩΣ ΕΠΡΕΠΕ ΝΑ ΒΓΕΙ.

ΑΚΟΥΩ ΚΑΙ ΑΛΛΕΣ ΠΡΟΤΑΣΕΙΣ, ΛΟΙΠΟΝ.

ΕΧΟΥΜΕ ΚΑΜΙΑ??????????

Δηλαδή υπήρχε η ιδέα και ήταν μυστική για να μην στην κλέψει κάποιος. Η για
να μην προλάβει και την εφαρμόσει πριν από εσάς? ποιούς δηλαδή.
Χμ, ραδιοερασιτεχνική σκέψη δεν λέω.

>
> Επίσης δεν πήγαμε να συνεργαστούμε με πειρατές προτιμώντας την εύκολη
> λύση του AWMN!!!

Καλά δεν θα σε βάλουμε στην black list αφού έχεις καλές ιδέες για το δίκτυο
και τις κρατάς δικές σου (άκρως ραδιοερασιτεχνικό) δεν μπορεις να συνδεθείς
σε ένα μη ραδιοερασιτεχνικό δίκτυο.

> Δεν είναι αυτό, αλλά κυρίως η καταγραφή όλων των μυνημάτων που
> γίνεται όπως πολύ καλά ξέρεις! Εδώ τί λύση έχεις να μην στέλνουμε

> κουτσομπολιό? Εχω άδικο λοιπόν νο το αποκαλώ BIG BROTHER?

Φυσικά και γίνεται καταγραφή καταρχήν από το FindU, εγώ προσωπικά κρατάω log
όπως και ο νόμος ορίζει
και πιθανόν και άλλοι. Οι επικοινωνίες στις ραδιοερασιτεχνικές συχνότητες
είτε σε φωνή ή σε data είναι ανοικτές όπως λέει και ο νόμος. Οτιδήποτε πεις
σε ένα επαναλήπτη η σε simplex συχνοτητα ακουγεται και από άλλους, άν είναι
σε ψηφιακή μορφή καταγραφεται πιό ευκολα. Δεν καταλαβαίνω γιατί σε ενοχλεί

αυτό. Περίεργοι πάντα υπήρχαν και υπάρχουν . Αλλά οι επικοιινωνίες μας σαν υπηρεσία μεταξύ μας δεν έχουν απόρρητο. Αλλωστε αφού υποτίθεται το χρησιμοποιείς για ραδιοερασιτεχνική χρήση τι σε ενοχλεί. Θα πεις τα μυστικά του κράτους ή θα κατηγορήσεις κανένα μήπως?

> P.S. Για του λόγου το αληθές σου επισυνάπτω απάντηση που έστειλα

> στους άλλους για να πειραματιστούν κι εκείνοι.

Καλό ειναι να προωθήσουμε ναι εδώ μπορείς να το πεις σαν πρόταση αλλα θολή δεν λες συγκεκριμένα πράγματα

Οπως και να έχει έγραψα και πριν η διανόησή μου δεν τα κατάφερε. Σε ευχαριστώ που μου τα θύμισες

Ας δούμε λοιπόν πιά είναι η ιδέα για να την βελτιώσουμε

Δημιουργία δικτύου στους 2.4 GHz σαν backbone για να διασυνδέσει χαμηλής ταχύτητας δίκτυα κλασικού Packet Radio στα 9600

Απολήξεις σε 9600 σαν backbone για μακρινές δυσκολες περιοχές (πχ νησιά)

Τι όνομα να του δώσουμε Ας πουμε Hellenic Amateur Radio High Speed Network?

Χμμ,

Δηλαδή το SPAM στις λίστες είναι σωστό πράγμα? Καλό θα ήταν να
είμαστε λίγο πιό ταπεινοί να μην περιαυτολογούμε συνεχώς Τάσο. Μην
ξεχνάς ότι το PACKET RADIO είναι HOBBY και δεν είναι όχημα προσωπικής
προβολής του καθενός. Υπάρχουν και πιό σημαντικά πράγματα στη ζωή μας
από το PACKET RADIO. Αλλοίμονο αν περιμέναμε από το HOBBY και μόνο να
ξεχωρίσουμε!!!

Καλό θα είναι να σκεφτόμαστε πρίν μιλήσουμε!

73 de SV1UY

δεν κατάλαβα πιός περιμένεις να μιλησει για την δραστηριότητα των
συναδέλφων ?
O GH, o IW ή o AWL?
Εσύ ήσουν ο πληρης γνώστης της δραστηριότητάς τους και ασχολήσαι με Email,
Internet και τα λοιπά
για πιό SPAM μιλάς.

Θέλεις πρόταση Μανώλη; : ΜΙΑ ΣΥΝΑΝΤΗΣΗ ΣΕ ΠΡΟΣΕΧΕΣ HAMFEST και ΜΙΑ
ΕΠΙΤΟΠΟΥ ΣΥΖΗΤΗΣΗ ΓΙΑ ΝΑ ΒΡΕΘΕΙ ΛΥΣΗ ΓΙΑ ΤΑ ΨΗΦΙΑΚΑ ΚΑΙ ΤΙ ΜΠΟΡΕΙ ΝΑ
ΓΙΝΕΙ. ΚΑΤΙ παρόμοιο που είχε γίνει στην Λάρισα για το aprs πριν απο
μερικά χρόνια.

Φίλτατε,

Την γνώμη μου την είπα. Οποιος έχει λίγο μυαλό καταλαβαίνει. Τώρα δεν θα

καθήσουμε εδώ να αρχίσουμε τις υψηλές αναλύσεις!!!

Τα πολλά λόγια είναι φτώχια!!!

Σπύρο μου ο Δημήτρης είναι ένας εξαιρετικός ραδιοερασιτέχνης και συνάδελφός μου. Έχει προσφέρει πολλά στο Amprnet και αρκετά στο APRS και παλιότερα στο SWLing και από ότι ξέρω στην SSTV. Έχει όμως κατά την γνώμη μου κάτι που τελικά είναι κακό για το σύνολο προφανώς χωρίς να το θέλει συνειδητά. Ότι κάνει αποσκοπεί κυρίως στην προσωπική του ενασχόληση και ευχαρίστηση (αυτό δεν είναι κακό το κάνουν το 95% των ραδιοερασιτεχνών) αλλά για τα κοινά έχει μία απέχθεια ενασχόλησης (ούτε αυτό είναι κακό και εγώ τα απεχθάνομαι). Είναι όμως πολύ ειρωνικός για ότι κάνουν οι άλλοι που ασχολούνται έμμεσα ή άμεσα για το κοινό καλό. Αυτό δεν σημαίνει ότι μερικές φορές δεν έχει δίκιο. Είναι κουραστικό όμως να ακούς συνέχεια εκ του ασφαλούς εύκολες κριτικές, και είναι κουραστικό να κολλάμε στο παρελθόν. ειναι επίσης κακό για όλους μας να κολλάμε ταμπέλες

Ηδη έβγαλε με το τσιγκέλι μία ιδέα (εντάξει και εγώ ήμουν δύσκολος), δεν αναλαμβάνει όμως τις συνέπειες που μπορεί να σημαίνει ίσως αυτό.

Παρόλα αυτά η συμβολή του και ολων μας (των λιγων τελικά μπροστά στους κουρτινιάριδες της λίστας) είναι σημαντική στον να καταλάβουμε σαν ραδιοερασιτέχνες πόσο δύσκολος είναι ο διάλογος, αν και είμαστε κοντά πόση απόσταση έχουμε μεταξύ μας, πόσο δύσκολα εκμαιεύονται καλές ιδέες, και πόσο ακόμα δυσκολότερη η εφαρμογή τους.

Αφού λοιπόν υπάρχει έφεση, αξίζει ίσως τον κόπο να το προχωρήσουμε να δούμε που ίσως θα μας βγάλει.
Δεν φθάνουν όμως 3 άνθρωποι θέλει περισσότερη συμμετοχή και λιγότερες αιχμές για το παρελθόν που μας καταδυναστεύει και θα μας καταδυναστεύει πολύ ακόμα.

και που ξέρετε μπορεί να βγει κάτι καλό.

Πολλά 73 Τάσος

Subject: RE: [The Greek Ham Radio] Re: OVERHEAD (ήταν ΡΙΖΙΚΕΣ ΑΛΛΑΓΕΣ)

ΡΕ ΣΥ ΔΗΜΗΤΡΗ ΜΟΥ, ΤΟ ΠΡΟΒΛΗΜΑ ΠΟΙΟ ΕΙΝΑΙ ΤΕΛΙΚΑ?

Ο ΑΝΘΡΩΠΟΣ ΤΟ ΣΤΕΛΝΕΙ ΑΠΟ ΤΟ QRL ΤΟΥ, ΚΑΙ ΤΟ «OVERHEAD» ΑΥΤΟ ΜΠΑΙΝΕΙ ΑΥΤΟΜΑΤΑ ΜΕ ΤΗΝ ΑΠΟΣΤΟΛΗ ΤΟΥ ΜΗΝΥΜΑΤΟΣ.

ΟΛΟΙ ΓΝΩΡΙΖΟΥΜΕ ΤΙ ΕΙΝΑΙ ΤΟ «NBG»

ΘΑ ΑΝΤΙΠΑΡΑΤΕΘΟΥΜΕ ΚΑΙ ΓΙΑ ΑΥΤΟ ΤΕΛΙΚΑ??????????????????

Ο ΧΡΙΣΤΟΣ ΚΑΙ Η ΠΑΝΑΓΙΑ.

ΟΠΟΙΟΣ ΕΧΕΙ ΣΥΓΚΕΚΡΙΜΕΝΕΣ ΠΡΟΤΑΣΕΙΣ ΓΙΑ ΤΟ PACKET ΑΣ ΤΙΣ ΚΑΝΕΙ.

ΤΟ ΒΗΜΑ ΕΙΝΑΙ ΑΝΟΙΚΤΟ ΓΙΑ ΟΛΟΥΣ. ΟΤΑΝ ΛΕΩ ΟΛΟΥΣ ΕΝΝΟΩ ΟΛΟΥΣ.

ΤΟ ΝΑ ΠΑΡΑΠΟΝΙΟΜΑΣΤΕ ΚΑΙ ΝΑ ΛΕΜΕ ΤΟ ΚΛΑΣΣΙΚΟ «ΕΓΩ ΤΟ ΕΙΧΑ ΠΕΙ ΤΟΤΕ» Ή ΤΟ ΑΝΕΠΑΝΑΛΗΠΤΟ «ΑΧ ΤΑ ΕΛΕΓΑ ΕΓΩ» ‘Η ΤΟ ΦΟΒΕΡΟ «ΤΩΡΑ ΕΠΙΒΕΒΑΙΩΝΟΝΤΑΙ ΟΙ ΥΠΟΨΙΕΣ ΜΟΥ» ΔΕΝ ΒΟΗΘΑΜΕ ΤΗΝ ΚΑΤΑΣΤΑΣΗ ΤΗΝ ΟΠΟΙΑ ΕΜΕΙΣ, ΩΣ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΕΣ, ΔΗΜΙΟΥΡΓΗΣΑΜΕ ΣΤΟ ΠΑΡΕΛΘΟΝ, ΔΙΑΤΗΡΟΥΜΕ ΣΤΟ ΠΑΡΟΝ ΚΑΙ ΔΙΑΙΩΝΙΖΟΥΜΕ ΣΤΟ ΜΕΛΛΟΝ.

ΟΛΟΙ, ΑΝΕΞΑΙΡΕΤΩΣ, ΕΙΜΑΣΤΕ ΥΠΑΙΤΙΟΙ ΓΙΑ ΟΛΑ ΤΑ ΔΕΙΝΑ ΤΑ ΟΠΟΙΑ ΜΑΣΤΙΖΟΥΝ, ΣΗΜΕΡΑ, ΤΟΝ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΙΣΜΟ.

ΕΔΩ ΔΕΝ ΜΠΟΡΟΥΜΕ ΝΑ ΣΥΜΦΩΝΗΣΟΥΜΕ ΣΤΑ ΑΥΤΟΝΟΗΤΑ, ΠΕΡΙΜΕΝΟΥΜΕ ΝΑ ΣΥΜΦΩΝΗΣΟΥΜΕ ΣΤΑ ΕΠΙ ΜΕΡΟΥΣ???????.

ΡΕ ΠΑΙΔΙΑ, ΕΙΜΑΣΤΕ ΠΕΡΙΠΟΥ 3000 ΑΤΟΜΑ ΚΑΙ ΕΧΟΥΜΕ 150 ΣΥΛΛΟΓΟΥΣ, ΤΟ ΕΧΕΤΕ ΠΑΡΕΙ ΧΑΜΠΑΡΙ?????????????

ΚΑΙ ΜΗΝ ΑΡΧΙΣΕΙ ΚΑΝΕΝΑΣ ΝΑ ΜΟΥ ΛΕΕΙ ΟΤΙ ΦΤΑΙΕΙ «ΑΥΤΟΣ Ο ΣΥΛΛΟΓΟΣ» ‘Η «Ο ΑΛΛΟΣ ΣΥΛΛΟΓΟΣ» ΔΙΟΤΙ ΕΙΝΑΙ ΒΛΑΚΩΔΕΣ.

ΟΙ ΣΥΛΛΟΓΟΙ ΑΠΑΡΤΙΖΟΝΤΑΙ ΑΠΟ ΑΤΟΜΑ. ΤΑ ΔΙΟΙΚΗΤΙΚΑ ΣΥΜΒΟΥΛΙΑ ΤΩΝ ΣΥΛΛΟΓΩΝ ΑΠΑΡΤΙΖΟΝΤΑΙ ΑΠΟ ΑΤΟΜΑ. ΕΑΝ ΔΕΝ ΜΑΣ ΚΑΝΟΥΝ, ΤΑ ΑΛΛΑΖΟΥΜΕ ΣΤΙΣ ΕΠΟΜΕΝΕΣ ΕΚΛΟΓΕΣ.

ΕΝΑ ΑΛΛΟ ΔΕΙΝΟ, ΤΟ ΟΠΟΙΟ ΜΑΣ ΜΑΣΤΙΖΕΙ, ΕΙΝΑΙ Ο ΤΟΠΙΚΙΣΜΟΣ. ΧΑΡΑΚΤΗΡΙΣΤΙΚΕΣ ΦΡΑΣΕΙΣ ΕΙΝΑΙ ΟΙ ΕΞΗΣ : «ΔΕΝ ΘΑ ΑΦΗΣΟΥΜΕ ΤΟΥΣ ΕΠΑΝΩ Ή ΤΟΥΣ ΚΑΤΩ, Ή ΤΟΥΣ ΔΙΠΛΑ Ή ΤΟΥΣ ΧΑΜΟΥΤΖΗΔΕΣ Ή ΤΟΥΣ ΤΑΔΕ, Ή ΤΟΥΣ ΔΕΙΝΑ…….. ΝΑ ΚΑΝΟΥΝ ΟΤΙ ΓΟΥΣΤΑΡΟΥΝ». ΑΝΤΙ ΠΡΟΤΑΣΕΩΝ, ΛΟΙΠΟΝ, ΔΗΜΙΟΥΡΓΕΙΤΑΙ ΣΥΛΛΟΓΟΣ. ΟΤΑΝ ΔΗΜΙΟΥΡΓΕΙΤΑΙ ΣΥΛΛΟΓΟΣ, ΑΠΟΔΥΝΑΜΩΝΕΤΑΙ ΤΟ ΣΩΜΑ ΤΩΝ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΩΝ. ΕΑΝ ΥΠΑΡΧΕΙ ΑΠΟΡΙΑ ΓΙΑ ΤΟ ΠΩΣ ΑΠΟΔΥΝΑΜΩΝΕΤΑΙ ΤΟ ΣΩΜΑ, ΘΑ ΧΑΡΩ ΙΔΙΑΙΤΕΡΩΣ ΝΑ ΣΑΣ ΤΟ ΕΞΗΓΗΣΩ ΕΚΤΟΣ REFLECTOR.

ΑΛΛΟ ΕΝΑ ΔΕΙΝΟ ΕΙΝΑΙ Η ΠΡΟΣΠΑΘΕΙΑ ΠΡΟΣΩΠΙΚΗΣ ΠΡΟΒΟΛΗΣ ΜΕΣΩ ΤΟΥ HOBBY.

ΚΑΠΟΙΕΣ ΠΡΟΤΑΣΕΙΣ ΠΑΝΩ ΣΕ ΑΥΤΑ ΕΧΟΥΜΕ ΝΑ ΚΑΝΟΥΜΕ, Ή ΑΠΛΑ ΜΙΛΑΜΕ ΓΙΑ ΝΑ ΕΧΟΥΜΕ ΚΑΤΙ ΝΑ ΠΟΥΜΕ?????

ΓΙΑ ΠΟΙΟ PACKET ΚΑ ΠΟΙΟ APRS ΜΙΛΑΜΕ???

ΘΥΜΑΜΑΙ ΠΩΣ ΟΤΑΝ ΕΙΧΕ ΜΠΕΙ ΤΟ DIGI ΣΤΟΝ ΥΜΗΤΤΟ (J41VAE), ΟΛΟΙ ΟΣΟΙ ΕΞΑΙΡΟΥΜΕ, ΤΩΡΑ, ΤΗΝ ΣΩΣΤΗ ΟΡΓΑΝΩΣΗ ΤΟΥ APRS ΣΤΗ ΧΩΡΑ ΜΑΣ, ΑΡΧΙΣΑΜΕ ΝΑ ΦΩΝΑΖΟΥΜΕ ΠΩΣ ΗΤΑΝ ΠΑΡΑΝΟΜΟ, ΚΑΙ ΠΩΣ ΕΠΡΕΠΕ ΝΑ ΒΓΕΙ.

ΑΚΟΥΩ ΚΑΙ ΑΛΛΕΣ ΠΡΟΤΑΣΕΙΣ, ΛΟΙΠΟΝ.

ΕΧΟΥΜΕ ΚΑΜΙΑ??????????

Έχεις απόλυτο δίκιο,
Συγγνώμη παιδιά αλλά αυτόν τον υπολογιστή τον χρησιμοποιώ και για τα επαγγελματικά e-mails. Όπως καταλαβαίνετε, μερικές φορές μου ξεφεύγει (τι μερικές δηλαδή, σχεδόν πάντα μου ξεφεύγει)

Και πάλι συγγνώμη.

Μανώλης

Subject: [The Greek Ham Radio] Ìçíýìáôá ôùí 205 Kbytes

Αγαπητοί συνάδελφοι,

Καλό θα ήταν να μήν στέλνουμε μηνύματα εμπλουτισμένα με κώδικα HTML τα οποία πολλές φορές είναι ακατάληπτα και φτάνουν το μέγεθος των 205 Kbytes για να περάσουμε ένα μύνημα της τάξεως των μερικών εκατοντάδων bytes!

Εχετε προσπαθήσει να κάνετε REPLY σε κάποιο τέτοιο μύνημα μέσω του WEB ποτέ να δείτε τί γίνεται;

Επίσης μην ξεχνάμε ότι μερικοί από εμάς λαμβάνουν το e-mail από τις ραδιοερασιτεχνικές λίστες που είναι γραμμένοι μέσω ασυρμάτου δικτύο PACKET και δεν είναι αναγκαίο να βαραίνουν τα ασύρματα δίκτυα με HTML κώδικα που τίποτε δεν προσφέρει στην αναγνωσιμότητα του μηνύματός σας. Μόνο προβλήματα δημιουργεί σε όλους τους υπόλοιπους. Δεν έχουμε όλοι ADSL γραμμές!

Και ξαφνικά ακούστηκε μόνον το παράπονο για τον τύπο και το μέγεθος του ταχυδρομείου.
Για τυχόν προτάσεις, ούτε λέξη.
Suggestions are free παιδιά. Δεν κοστίζουν τίποτα, ακόμα και στους φίλους οι οποίοι παίρνουν το ταχυδρομείο τους μέσω ασυρμάτου δικτύου PACKET, και δεν είναι τυχεροί σαν και εμάς με τις ADSL γραμμές.

Έχεις απόλυτο δίκιο,
Συγγνώμη παιδιά αλλά αυτόν τον υπολογιστή τον χρησιμοποιώ και για τα επαγγελματικά e-mails. Όπως καταλαβαίνετε, μερικές φορές μου ξεφεύγει (τι μερικές δηλαδή, σχεδόν πάντα μου ξεφεύγει)

Και πάλι συγγνώμη.

Μανώλης

From: Emmanuel F. Zambetas
Topic: 706   Message: 710

ΡΕ ΣΥ ΔΗΜΗΤΡΗ ΜΟΥ, ΤΟ ΠΡΟΒΛΗΜΑ ΠΟΙΟ ΕΙΝΑΙ ΤΕΛΙΚΑ?

Ο ΑΝΘΡΩΠΟΣ ΤΟ ΣΤΕΛΝΕΙ ΑΠΟ ΤΟ QRL ΤΟΥ, ΚΑΙ ΤΟ «OVERHEAD» ΑΥΤΟ ΜΠΑΙΝΕΙ ΑΥΤΟΜΑΤΑ ΜΕ ΤΗΝ ΑΠΟΣΤΟΛΗ ΤΟΥ ΜΗΝΥΜΑΤΟΣ.

ΟΛΟΙ ΓΝΩΡΙΖΟΥΜΕ ΤΙ ΕΙΝΑΙ ΤΟ «NBG»

ΘΑ ΑΝΤΙΠΑΡΑΤΕΘΟΥΜΕ ΚΑΙ ΓΙΑ ΑΥΤΟ ΤΕΛΙΚΑ??????????????????

Ο ΧΡΙΣΤΟΣ ΚΑΙ Η ΠΑΝΑΓΙΑ.

ΟΠΟΙΟΣ ΕΧΕΙ ΣΥΓΚΕΚΡΙΜΕΝΕΣ ΠΡΟΤΑΣΕΙΣ ΓΙΑ ΤΟ PACKET ΑΣ ΤΙΣ ΚΑΝΕΙ.

ΤΟ ΒΗΜΑ ΕΙΝΑΙ ΑΝΟΙΚΤΟ ΓΙΑ ΟΛΟΥΣ. ΟΤΑΝ ΛΕΩ ΟΛΟΥΣ ΕΝΝΟΩ ΟΛΟΥΣ.

ΤΟ ΝΑ ΠΑΡΑΠΟΝΙΟΜΑΣΤΕ ΚΑΙ ΝΑ ΛΕΜΕ ΤΟ ΚΛΑΣΣΙΚΟ «ΕΓΩ ΤΟ ΕΙΧΑ ΠΕΙ ΤΟΤΕ» Ή ΤΟ ΑΝΕΠΑΝΑΛΗΠΤΟ «ΑΧ ΤΑ ΕΛΕΓΑ ΕΓΩ» ‘Η ΤΟ ΦΟΒΕΡΟ «ΤΩΡΑ ΕΠΙΒΕΒΑΙΩΝΟΝΤΑΙ ΟΙ ΥΠΟΨΙΕΣ ΜΟΥ» ΔΕΝ ΒΟΗΘΑΜΕ ΤΗΝ ΚΑΤΑΣΤΑΣΗ ΤΗΝ ΟΠΟΙΑ ΕΜΕΙΣ, ΩΣ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΕΣ, ΔΗΜΙΟΥΡΓΗΣΑΜΕ ΣΤΟ ΠΑΡΕΛΘΟΝ, ΔΙΑΤΗΡΟΥΜΕ ΣΤΟ ΠΑΡΟΝ ΚΑΙ ΔΙΑΙΩΝΙΖΟΥΜΕ ΣΤΟ ΜΕΛΛΟΝ.

ΟΛΟΙ, ΑΝΕΞΑΙΡΕΤΩΣ, ΕΙΜΑΣΤΕ ΥΠΑΙΤΙΟΙ ΓΙΑ ΟΛΑ ΤΑ ΔΕΙΝΑ ΤΑ ΟΠΟΙΑ ΜΑΣΤΙΖΟΥΝ, ΣΗΜΕΡΑ, ΤΟΝ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΙΣΜΟ.

ΕΔΩ ΔΕΝ ΜΠΟΡΟΥΜΕ ΝΑ ΣΥΜΦΩΝΗΣΟΥΜΕ ΣΤΑ ΑΥΤΟΝΟΗΤΑ, ΠΕΡΙΜΕΝΟΥΜΕ ΝΑ ΣΥΜΦΩΝΗΣΟΥΜΕ ΣΤΑ ΕΠΙ ΜΕΡΟΥΣ???????.

ΡΕ ΠΑΙΔΙΑ, ΕΙΜΑΣΤΕ ΠΕΡΙΠΟΥ 3000 ΑΤΟΜΑ ΚΑΙ ΕΧΟΥΜΕ 150 ΣΥΛΛΟΓΟΥΣ, ΤΟ ΕΧΕΤΕ ΠΑΡΕΙ ΧΑΜΠΑΡΙ?????????????

ΚΑΙ ΜΗΝ ΑΡΧΙΣΕΙ ΚΑΝΕΝΑΣ ΝΑ ΜΟΥ ΛΕΕΙ ΟΤΙ ΦΤΑΙΕΙ «ΑΥΤΟΣ Ο ΣΥΛΛΟΓΟΣ» ‘Η «Ο ΑΛΛΟΣ ΣΥΛΛΟΓΟΣ» ΔΙΟΤΙ ΕΙΝΑΙ ΒΛΑΚΩΔΕΣ.

ΟΙ ΣΥΛΛΟΓΟΙ ΑΠΑΡΤΙΖΟΝΤΑΙ ΑΠΟ ΑΤΟΜΑ. ΤΑ ΔΙΟΙΚΗΤΙΚΑ ΣΥΜΒΟΥΛΙΑ ΤΩΝ ΣΥΛΛΟΓΩΝ ΑΠΑΡΤΙΖΟΝΤΑΙ ΑΠΟ ΑΤΟΜΑ. ΕΑΝ ΔΕΝ ΜΑΣ ΚΑΝΟΥΝ, ΤΑ ΑΛΛΑΖΟΥΜΕ ΣΤΙΣ ΕΠΟΜΕΝΕΣ ΕΚΛΟΓΕΣ.

ΕΝΑ ΑΛΛΟ ΔΕΙΝΟ, ΤΟ ΟΠΟΙΟ ΜΑΣ ΜΑΣΤΙΖΕΙ, ΕΙΝΑΙ Ο ΤΟΠΙΚΙΣΜΟΣ. ΧΑΡΑΚΤΗΡΙΣΤΙΚΕΣ ΦΡΑΣΕΙΣ ΕΙΝΑΙ ΟΙ ΕΞΗΣ : «ΔΕΝ ΘΑ ΑΦΗΣΟΥΜΕ ΤΟΥΣ ΕΠΑΝΩ Ή ΤΟΥΣ ΚΑΤΩ, Ή ΤΟΥΣ ΔΙΠΛΑ Ή ΤΟΥΣ ΧΑΜΟΥΤΖΗΔΕΣ Ή ΤΟΥΣ ΤΑΔΕ, Ή ΤΟΥΣ ΔΕΙΝΑ…….. ΝΑ ΚΑΝΟΥΝ ΟΤΙ ΓΟΥΣΤΑΡΟΥΝ». ΑΝΤΙ ΠΡΟΤΑΣΕΩΝ, ΛΟΙΠΟΝ, ΔΗΜΙΟΥΡΓΕΙΤΑΙ ΣΥΛΛΟΓΟΣ. ΟΤΑΝ ΔΗΜΙΟΥΡΓΕΙΤΑΙ ΣΥΛΛΟΓΟΣ, ΑΠΟΔΥΝΑΜΩΝΕΤΑΙ ΤΟ ΣΩΜΑ ΤΩΝ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΩΝ. ΕΑΝ ΥΠΑΡΧΕΙ ΑΠΟΡΙΑ ΓΙΑ ΤΟ ΠΩΣ ΑΠΟΔΥΝΑΜΩΝΕΤΑΙ ΤΟ ΣΩΜΑ, ΘΑ ΧΑΡΩ ΙΔΙΑΙΤΕΡΩΣ ΝΑ ΣΑΣ ΤΟ ΕΞΗΓΗΣΩ ΕΚΤΟΣ REFLECTOR.

ΑΛΛΟ ΕΝΑ ΔΕΙΝΟ ΕΙΝΑΙ Η ΠΡΟΣΠΑΘΕΙΑ ΠΡΟΣΩΠΙΚΗΣ ΠΡΟΒΟΛΗΣ ΜΕΣΩ ΤΟΥ HOBBY.

ΚΑΠΟΙΕΣ ΠΡΟΤΑΣΕΙΣ ΠΑΝΩ ΣΕ ΑΥΤΑ ΕΧΟΥΜΕ ΝΑ ΚΑΝΟΥΜΕ, Ή ΑΠΛΑ ΜΙΛΑΜΕ ΓΙΑ ΝΑ ΕΧΟΥΜΕ ΚΑΤΙ ΝΑ ΠΟΥΜΕ?????

ΓΙΑ ΠΟΙΟ PACKET ΚΑ ΠΟΙΟ APRS ΜΙΛΑΜΕ???

ΘΥΜΑΜΑΙ ΠΩΣ ΟΤΑΝ ΕΙΧΕ ΜΠΕΙ ΤΟ DIGI ΣΤΟΝ ΥΜΗΤΤΟ (J41VAE), ΟΛΟΙ ΟΣΟΙ ΕΞΑΙΡΟΥΜΕ, ΤΩΡΑ, ΤΗΝ ΣΩΣΤΗ ΟΡΓΑΝΩΣΗ ΤΟΥ APRS ΣΤΗ ΧΩΡΑ ΜΑΣ, ΑΡΧΙΣΑΜΕ ΝΑ ΦΩΝΑΖΟΥΜΕ ΠΩΣ ΗΤΑΝ ΠΑΡΑΝΟΜΟ, ΚΑΙ ΠΩΣ ΕΠΡΕΠΕ ΝΑ ΒΓΕΙ.

ΑΚΟΥΩ ΚΑΙ ΑΛΛΕΣ ΠΡΟΤΑΣΕΙΣ, ΛΟΙΠΟΝ.

ΕΧΟΥΜΕ ΚΑΜΙΑ??????????

Ημαρτον ρε Μανώλη,

Γράψε τουλάχιστον φραγκολεβαντίνικα!!! Δεν ξέρω αν φταίει ο YAHOO, ή
αν φταίει το INTERNET EXPLORER 6 που έχω, αλλά μόνο από εσένα όταν
γράφεις σπάνια καταλαβαίνω τι λές!!!

Οι άλλοι τα καταλαβαίνετε όταν τα διαβάζετε από το WEB???

Όντως, έχεις απόλυτο δίκιο.
Όλα όσα είπαμε εδώ είναι φούσκες, οι οποίες αξίζουν του ενθουσιώδους εναγκαλισμού και της αδιάσπαστης προσοχής σου, την οποία αγόγγυστα, και χωρίς κανένα παράπονο, τόσο απλόχερα δίνεις.
Είσαι φωτεινό παράδειγμα συντεταγμένης σκέψης, και φάρος λαμπερός μέσα στο ομιχλώδες τοπίο του ραδιοερασιτεχνισμού. Εάν ήμουν ένας από τους ανθρώπους οι οποίοι θα ήθελαν να γίνουν αδειούχοι ραδιοερασιτέχνες, και διάβαζα τα τελευταία μηνύματα που έχουν ανταλλαγεί στην λίστα, θα άρχιζα να τρέχω για να βρεθώ όσο πιο μακριά γίνεται από τους ραδιοερασιτέχνες, θεωρώντας μας ραδιούργους, κουτοπόνηρους, κενούς, δύστροπους, παραπονιάρηδες, εγωιστές, αλαζόνες, ανάδελφους και, γενικά, ανθρώπους με τους οποίους δεν θα ήθελε κανένας να έχει ούτε την παραμικρή επαφή, πόσο μάλλον προσωπική φιλία.

Φίλε Δημήτρη,
Κάθε δράση έχει και αντίδραση. "τα ίδια και τα γίδια"
Τον χαρακτηρισμό "υβριστής των πάντων" στον επιστρέφω.
Όσον αφορά στα σκυλάδικα.... γαβ (κοινώς, θεωρώ το σχόλιο σου άστοχο)
Το επώνυμο μου δεν νομίζω να σε βλάπτει σε κάτι.
Όσον αφορά στην ύβρη επισυνάπτω το μήνυμα σου :

"" Φίλτατε,
Την γνώμη μου την είπα. Οποιος έχει λίγο μυαλό καταλαβαίνει. Τώρα δεν θα καθήσουμε εδώ να αρχίσουμε τις υψηλές αναλύσεις!!!
Τα πολλά λόγια είναι φτώχια!!! ""

Ίσως εγώ να το παρεξήγησα..... αλλά νομίζω πως υπαινίσσεσαι ότι δεν έχω λίγο μυαλό;;;;; Και πάλι λέω πως ίσως εγώ να το παρεξήγησα. Εάν είναι έτσι, τότε συγγνώμη.
Όσον αφορά στις "υψηλές αναλύσεις" ίσως να είναι ακριβώς αυτό που λείπει από τη σαλάτα.
Τα πολλά λόγια είναι φτώχια, αλλά εμείς έχουμε σταματήσει να μιλάμε πλέον.
Ίσως να έπρεπε να ξαναρχίσουμε.

Συνεχίζω να πιστεύω, όμως, πως βγάζουμε τα μάτια μας μόνοι μας.

Ακόμα περιμένω τις προτάσεις

Υ.Γ.
Μπήκα στο site σου προηγουμένως. Μου άρεσε. Ιδίως το QRP section.

Ελπίζω η αντιπαράθεση να λήξει εδώ.

Φιλικότατα και κουρασμένος, Μανώλης

Δηλαδή ούτε ένα σύγχρονο email δεν μπορεί να διαχειριστεί το bandwidth του 9600 ασύρματου packet.?

Πολλά 73 Τάσος

>βρώ στο πληκτρολόγιο).

Δεν είναι πρόβλημα μου αυστηρά Δημήτρη, αλλά πρόβλημα του συνόλου και δεν
αναφέρεται σε αυτά που επισύναψες αλλά σε αυτά που δεν.
Αυτά που επισύναψες ήταν απλά συνοδευτικά για να μην φανεί τόσο χοντρό όσο
είναι στην πραγματικότητα το πρόβλημα που εκφράζεις με τα λεγόμενά σου.

Επειδή όμως ανταλλάχθηκαν πολλά μηνύματα θα κάνω μία σύνοψη στο πως κατάλαβα
εγώ την ιστορία όλη.

Ο Σπύρος έγραψε ένα ενδιαφέρον γράμμα στο περιοδικό 5-9 προσπαθώντας να
αναβιώσει το Packet Radio στην χώρα μας.
Ο Τάσος (υποφαινόμενος) έστειλε μία δημοσίευση σαν απάντηση που γράφει ότι
το Packet Radio δεν πήγε καλά λόγω συγκεκριμένων προβλημάτων που αναφέρονται
στο κείμενο και ότι το μόνο αντίστοιχο project που φαίνεται να έχει μέλλον
είναι το www.awmn.gr
Ο αγαπητός κατά τα άλλα Σπύρος την 21/4 βλέποντας ευκαιρία για να
αναζωογονηθεί η λίστα του, πέταξε τις κατάλληλες κουβέντες για να επαναλάβω
την δημοσίευση εδώ.
Από εδώ ξεκίνησε η ανταλλαγή που θέλω κάποια στιγμή να παραβάλω όλα όσα
ειπώθηκαν για να βγουν συμπεράσματα για το επίπεδο συνεννόησής μας.

Τελικά όμως σύμφωνα με την δική μου εκτίμηση άμεσο συμπέρασμα δεν βγήκε.

Ο Γιάννης θέλει να επεκταθεί το APRS στις περιοχές που δεν υπάρχει ακόμα.

Ο Σπύρος εύχεται να είχαμε ένα δίκτυο PACKET σε όλη την Ελλάδα 9600.
Χωρίς να μας λέει ποιος θα το χρηματοδοτήσει ποιος θα το ελέγχει, πέρα από
την σχεδίαση και τα τεχνικά προβλήματα που όλοι τα παρακάμψατε σαν να μην

υπάρχουν.

Ο Δημήτρης υποστηρίζει να βοηθήσουμε το Athnet, να μην κατηγορούμε το Packet Radio (βλέπε να μην λέμε την γνώμη μας) να φτιάξουμε δικά μας δίκτυα στους 2.4GHz (η κρυφή ιδέα)

Το θέμα του Athnet δεν νομίζω ότι έχει να κάνει με την συζήτηση. Είναι τοπικό δίκτυο κομμάτι του Amprnet κολλημένο στο Internet και για να καλύψει όλη την Ελλάδα εκτός Internet θέλει κόμβους σε βουνά.

Αυτό που έχει να κάνει είναι με την χρήση του 2.4 GHz. Νομίζω είναι το πιο σημαντικό. Αλλά πως το φαντάζεται κανείς.?

Δίκτυο τοπικό μέσα στην πόλη σαν επέκταση του Athnet ? Δεν κάνουμε τίποτε μένουμε κολλημένοι στο Ιντερνετ.

Για επικοινωνία κόμβων στα βουνά ίσως? Θέλουμε λεφτά και οργάνωση

Τι έχεις να πεις αγαπητέ Δημήτρη για όλα αυτά.

73 Τάσος

Όταν λες πως βρίζω, τι ακριβώς εννοείς; Αυτό, στ'αλήθεια, δεν το έχω
καταλάβει ακόμη, εκτός εάν εκλαμβάνεις την ειρωνεία ως ύβρη.
Για τα 200kb έχω ήδη απαντήσει.
Όσον αφορά στο «εύγε παιδί μου» σε ευχαριστώ ΜΠΑΜΠΑ.
Ουδεμία «λαϊκή» παροιμία περιέχει την λέξη «ΣΚΥΛΑΔΙΚΟ». Τουλάχιστον όχι
όσες γνωρίζω, και, πίστεψε με, γνωρίζω πολλές.
Όσον αφορά στο εάν η γλώττα θα έπρεπε να είναι προπομπός της διανοίας,
σε παραπέμπω στα λεγόμενα σου περί 'ΥΒΡΙΣΤΗ ΤΩΝ ΠΑΝΤΩΝ'.

Βλέπω, πάντως, πως εκλαμβάνεις την υποχωρητικότητα για να δοθεί λήξη σε
αυτή την αντιπαράθεση, ως αδυναμία, και συνεχίζεις να είσαι υπερόπτης.
Σε πληροφορώ πως αυτή είναι η λανθασμένη τακτική αντιπαράθεσης με το
πρόσωπο μου και σε καλώ να τη σταματήσεις πάραυτα.

Πιστεύω πως είναι στο συμφέρον ΟΛΩΝ να λήξουν εδώ τα εκατέρωθεν
προσβλητικά μηνύματα.
Εγώ το λήγω εδώ λέγοντας πως ΔΕΝ θα απαντήσω σε μηνύματα της αυτής υφής
και ύφους.

Πάντα φιλικά, Μανώλης Φ. Ζαμπέτας (και σε όποιον αρέσει. οοοοοαααααααααα
επειδή τυγχάνω ανιψιός του αείμνηστου Γιώργου Ζαμπέτα)

```

Πάντως βλέπω ότι τελικά σταμάτησες να βρίζεις και δεν στέλνεις 200
Kbytes για 20 γραμμές μυνήματος! Προοδεύουμε βλέπω! Αυτό είναι καλό.
Εύγε παιδί μου!!!

> Το επώνυμο μου δεν νομίζω να σε βλάπτει σε κάτι.

Ε τώρα με κάνεις να σου πώ ότι όποιος έχει τη μύγα μυγιάζεται.
Ούτε τις λαϊκές μας παροιμίες δεν ξέρεις; Αν δεν ξέρεις ρώτα
τουλάχιστον! Κάποιος από τη λίστα θα σου πεί φαντάζομαι. Ομως δεν

είναι σωστό η γλώττα να προτρέχει της διανοίας!!!

>επαναλάβω την δημοσίευση εδώ.
WRONG !!! Καμμία σχέση με την λίστα. Απλά επειδή έχουν γραφτεί εδώ
κάποια άτομα που γνωρίζουν 5 πράγματα είπα μήπως μπορέσουμε και
βγάλουμε κάποια συμπεράσματα όσον αφορά το πως θα κάνουμε το Packet
να "ξαναζήσει".
> Ο Γιάννης θέλει να επεκταθεί το APRS στις περιοχές που δεν υπάρχει
>ακόμα.
Δεν είναι κακό...θα γίνει, αργά η γρήγορα.
> Ο Σπύρος εύχεται να είχαμε ένα δίκτυο PACKET σε όλη την Ελλάδα
>9600.Χωρίς να μας λέει ποιος θα το χρηματοδοτήσει ποιος θα το
>ελέγχει, πέρα από την σχεδίαση και τα τεχνικά προβλήματα που όλοι
>τα παρακάμψατε σαν να μην υπάρχουν.
Κάποιοι σύλλογοι πιστεύω.
Ποιος θα το ελέγχει ; Καλό ερώτημα...αυτοί που γνωρίζουν ίσως ;
Τα τεχνικά ζητήματα είναι θέμα πολλών και όχι δικό μου που είμαι και
ολίγον τι άσχετος.
> Ο Δημήτρης υποστηρίζει να βοηθήσουμε το Athnet, να μην κατηγορούμε
>το Packet Radio (βλέπε να μην λέμε την γνώμη μας) να φτιάξουμε δικά
>μας δίκτυα στους 2.4GHz (η κρυφή ιδέα)
Και το athnet σαν χρήση δεν είναι καθόλου άσχημη...Αλλά ούτε αυτό
βλέπω να γίνεται (υποστίρηξη).
> Για επικοινωνία κόμβων στα βουνά ίσως? Θέλουμε λεφτά και οργάνωση
Πόσα άραγε ; Μπορεί κανείς να κάνει ένα "πλάνο" ;

Φίλε Δη?ήτρη

λές στο κεί?ενο σου και σου απαντώ.

>Λυπάμαι που τίποτε δεν κατάλαβες από την όλη κουβέντα που είχαμε
<?xml:namespace prefix = o ns = "urn:schemas-microsoft-com:office:office" />

>γιατί δεν σε αφήνει δυστυχώς το εγώ σου. Δηλαδή έπρεπε να συμπεριλάβω

>τα πάντα ακόμη και το DISCLAIMER της ΕΘΝΙΚΗΣ ΤΡΑΠΕΖΑΣ για να είαμι

>σωστός; Οχι Τάσο δεν θα ακολουθήσω την λανθασμένη τακτική σου.

Αυτό δείχνει ότι δεν κατάλαβες τίποτα από αυτά που είπα. Ανέτρεξε στο κείμενο που έκανες quote και δες 2 γραμμές πάνω ή κάτω. Αν πάλι δεν κατάλαβες τότε σε ζηλεύω γιατί είσαι ευτυχής άνθρωπος.

>> Ο Σπύρος έγραψε ένα ενδιαφέρον γράμμα στο περιοδικό 5-9

>> προσπαθώντας να αναβιώσει το Packet Radio στην χώρα μας.

>>Δηλαδή έκανε και κακό από πάνω ο Σπύρος;

Το «ενδιαφέρον» και «αναβιώσει» το μεταφράζεις σαν «κακό» εσύ Δημήτρη ή σε κουβέντα να βρισκόμαστε?

>> Ο Τάσος (υποφαινόμενος) έστειλε μία δημοσίευση σαν απάντηση που

>> γράφει ότι το Packet Radio δεν πήγε καλά λόγω συγκεκριμένων

>> προβλημάτων που αναφέρονται στο κείμενο και ότι το μόνο αντίστοιχο

>> project που φαίνεται να έχει μέλλον είναι το www.awmn.gr

>

>Σωστά έκανες, αλλά πρέπει να μάθεις να ακούς και τη γνώμη των άλλων!

Ναι μπαμπά εσύ ?

>> Ο αγαπητός κατά τα άλλα Σπύρος την 21/4 βλέποντας ευκαιρία για να

>> αναζωογονηθεί η λίστα του, πέταξε τις κατάλληλες κουβέντες για να

>> επαναλάβω την δημοσίευση εδώ.

>

>Συνηθισμένη τακτική να πετάμε λάσπη προς όλες τις κατευθύνσεις.

>Δυστυχώς είναι η κατάρα της φυλής.

Η λάσπη πια είναι? Ούτε το κατέκρινα ούτε πέταξα λάσπη απλά το ανέφερα σαν γνώμη μου και στο πως ξεκίνησε η συζήτηση, πιθανόν στην θέση του να έκανα το ίδιο.

>Πολύ καλά κάνει και εύχεται και προτείνει. Για πές μας το AWMN ποιός

>θα το χρηαμτοδοτήσει;

>

Δημήτρη θέλεις να βάλεις τα λεγόμενα κάποιου στα δικά σου καλούπια βάζοντας εύκολα ταμπέλες.

Όταν είπα ότι το awmn έχει μέλλον και είναι ενδιαφέρον. Δεν το είπα για να γυρίσουμε όλοι στο awmn. Και δεν θα μπορούσα να το προτείνω αν πρώτος εγώ δεν το έκανα. Είπα ότι αυτό το project θα πάει μπροστά και γιατί θα πάει φαίνεται εύκολα από τις συζητήσεις και το επίπεδο συνεννόησης που γίνεται στα forum του, επειδή δεν έχει σχέση με τα προβλήματα των ραδιοερασιτεχνικών συλλόγων. Είναι μία νέα αρχή. Μπορεί στο μέλλον να έχει και αυτό προβλήματα όπως και οι σύλλογοί μας. Αλλά αυτή τη στιγμή οι οιωνοί είναι καλοί. Είπα

Το ποιος το χρηματοδοτεί μπορείς να τους ρωτήσεις στο www.awmn.gr αν δεν μπορείς να καταλάβεις από αυτά που λέγονται..

Σίγουρα θα πρέπει να καταλάβουμε κάτι που θα πρέπει να μας βοηθήσει στον διάλογο. Όταν κάποιος Χ λέει την γνώμη του για κάτι και σε κάποιον άλλον φαίνεται ότι είναι θετική για το κάτι αυτό δεν σημαίνει ότι ο Χ θα γίνει και δικηγόρος του κάτι.

Ειδάλλως κάτι δεν πάει καλά στην νοημοσύνη μας

>Ξέρεις το πρόβλημά σου, αγαπητέ κατά τα άλλα Τάσο, είναι ότι νομίζεις

>ότι μόνο εσύ δικαιούσαι να μιλάς και να κάνεις προτάσεις. Αυτό το

>εκφράζεις σε κάθε ευκαιρία και με κάθε τρόπο. Δεν είσαι ο μόναδικός

>που μπορεί να κάνει προτάσεις, υπάρχουν και άλλοι. Μην γίνεσαι σαν

>τους παλιούς συσώπους φίλε Τάσο. Με λυπεί αφάνταστα το γεγονός να σε

>βλέπω σε αυτή την κατάσταση.

Αν αυτό είναι το πρόβλημα μου όπως λές γιατί σε τσιγκλάω συνέχεια εσένα αλλά και τους υπόλοιπους για να δώσετε προτάσεις? Αλλωστε εγώ δεν έκανα καμιά πρόταση. Αν την έκανα Δημήτρη μου θα ήταν συγκεκριμένη και ξεκάθαρη ή θα την έλεγα σαν ιδέα στο forum εδώ για να την επεκτείνει το σύνολο ή κάποιος άλλος. Ούτε κρυφή θα ήταν ούτε θολή.

Ξέρεις δε καλά ότι ποτέ δεν υπήρξα συσωπάς με άλλους με μπερδεύεις ίσως και με τον εαυτό σου για ψάξτο καλύτερα.

>>

>> Ο Δημήτρης υποστηρίζει να βοηθήσουμε το Athnet, να μην κατηγορούμε

>> το Packet Radio (βλέπε να μην λέμε την γνώμη μας) να φτιάξουμε δικά

>> μας δίκτυα στους 2.4GHz (η κρυφή ιδέα)

>

>Εδώ πάλι μας τα λές όπως σε βολεύουν φίλε Τάσο. Αν δεν κάνω λάθος εσύ

>πρώτος άρχισες πλασσάροντάς μας το πειρατικό AWMN τη στιγμή που ο

>Σπύρος έκανε πρόταση για το ραδιοερασιτεχνικό PACKET και μόλις σου

>ανέφερα ότι το ATHNET υπάρχει ακόμη, εσύ εξεμάνεις! Τί σχέση έχει το

>πειρατικό AWMN με το ραδιοερασιτεχνικό PACKET;

Ξαναδιάβασε τι λες και τι λέω

Εξεμάνειν λες αναφέροντας περιληπτικά τις «προτάσεις» σου?

Που βλέπεις παραπάνω να αναφέρομαι στο awmn?

>> Το θέμα του Athnet δεν νομίζω ότι έχει να κάνει με την συζήτηση.

>> Είναι τοπικό δίκτυο κομμάτι του Amprnet κολλημένο στο Internet και

>> για να καλύψει όλη την Ελλάδα εκτός Internet θέλει κόμβους σε βουνά.

>

>Πρός το παρόν καλύπτει αρκετά μέρη της Ελλάδος και της υπόλοιπης

>υδρογείου με τον τρόπο που διασυνδέεται και το APRS (ο θεός να το

>κάνει δίκτυο δηλαδή).

Νομίζω ότι κάνεις εσκεμμένα λάθος. Το τι και αν είναι δίκτυο νομίζω πήρες την απάντηση σου ήδη. Μην επανέρχεσαι για λόγους εντυπώσεων λέγοντας περιφρονητικά 3 φορές μέχρι στιγμής «ο θεός να το κάνει δίκτυο». Αφού το περιφρονείς ή θέλεις να το περιφρονείς τόσο πολύ γιατί το χρησιμοποιείς?

Όταν σε κάθε σχετική αναφορά μιλάς για κάτι υποτιμητικά δεν είναι ότι λές την γνώμη σου αλλά ότι δημιουργείς εντυπώσεις για κάτι που δεν θα ήθελες να δεις στα μάτια σου γιατί άραγε?

Το APRS δεν στηρίζεται αποκλειστικά στο Internet για να επικοινωνήσει, ούτε φτιάχτηκε για αυτό. Αυτό μπήκε εκ των υστέρων για να δώσει την δυνατότητα και μόνο μηνυμάτων σε παγκόσμια κλίμακα αρχικά και για να έχουμε από ένα σημείο από το Internet και μόνο το παγκόσμιο traffic.

Το Amprnet αν και πάλι δεν φτιάχτηκε για να στηρίζεται αποκλειστικά στο Internet, εντούτοις δουλεύει παντού (εκτός Γερμανίας)σε μικρά LANS γύρα από Internet gates.

Και δεν υπάρχει σήμερα άλλη δυνατότητα να επικοινωνήσουν το Athnet με κάποιο άλλο Amprnet lan, ασύρματα αλλά μόνο με το Internet Ενώ στο APRS είναι προφανές ότι παρά τα προβλήματα που πάντα υπάρχουν έχουμε για πρώτη φορά στην Ελλάδα ένα πανελλήνιο ασύρματο ψηφιακό δίκτυο.

Η δεν είναι έτσι Δημητράκη μου?

>> Αυτό που έχει να κάνει είναι με την χρήση του 2.4 GHz. Νομίζω είναι

>> το πιο σημαντικό. Αλλά πως το φαντάζεται κανείς.?

>>

>> Δίκτυο τοπικό μέσα στην πόλη σαν επέκταση του Athnet ? Δεν κάνουμε

>

>Δηλαδή οι πειρατές του AWMN θα βάλουν και κόμβους πάνω στα βουνά τώρα

>με κατοπτρικές κεραίες όπως του ARRESIBO?

>

Αν νομίσεις ότι αυτό είναι απάντηση τότε πάλι σε ζηλεύω για την ευτυχία σου.

Εσύ έκανες υποτίθεται την σχετική πρόταση πως το φαντάζεσαι?

>Τάσο θέλω να πώ ότι με καταδίκες δεν θα πάμε ποτέ μπροστά. Ούτε με το

>να προσπαθούμε να δείξουμε ότι είμαστε πιό έξυπνοι από τους άλλους

>και ότι έχουμε τις καλύτερες προτάσεις από τους άλλους, ούτε

>παραποιόντας την ιστορία σε διάφορα περιοδικά επειδή αυτοί με τους

>οποίους κάποτε συμφωνούσες έχουν τραβήξει το δικό τους δρόμο επειδή

>έχουν διαφορετικές αντιλήψεις από εσένα, ούτε θάβοντας το παραδοσιακό

>PACKET διαδίδοντας ψευδείς ειδήσεις ότι το 9600 είναι πανάκριβο και

>ότι το μόνο που αξίζει είναι το WiFi και το AWMN.

>

Μόνο που εγώ δεν έκανα πρόταση ειδικά στο forum για τίποτα. Ούτε στην δημοσίευση πρότεινα κάτι άλλο από την ευχή να είμαστε κοντά στο awmn και να τους φέρουμε στο χόμπυ μας.

Τώρα θα είχε ενδιαφέρον να μου πεις που παραποιήθηκε η ιστορία και γιατί αν έγινε αυτό δεν υπήρξε αντίδραση?

Αν μιλάς για τον ΣΡΕ όλη η επικοινωνία είναι δημοσιευμένη στο Internet. Μπορεί κάποιος να την διαβάσει και να κρίνει.

Αλλά γιατί μιλάς αόριστα (όπως και οι προτάσεις σου) και δεν μιλάς συγκεκριμένα για να πάρεις συγκεκριμένη απάντηση.?

>Τάσο ξεχνάς ότι στο HOBBY πρέπει ο ραδιερασιτέχνης να είναι ανεκτικός

>και υπομονετικός και ότι πρέπει να υπάρχει χώρος για όλους. Ξεχνάς

>ότι ένας από τους κανόνες του CW operator είναι να έχει υπομονή και

>να χειρίζει αργά όταν αντιληφθεί ότι κάνει QSO με κάποιον νέο και

>αργό χειριστή; Τον ξέχασες αυτόν τον κανόνα; Αν και απ' ότι μου έχεις

>πεί δεν έκανες και ποτέ QSO σε CW δεν ξέρεις. Ομως κανονικά έστω και

Πολύ ενδιαφέρον που απαντάς για θέματα ψηφιακής τεχνολογίας με το αν γνωρίζω cw.

Μολονότι δεν ενδιαφέρει την παρέα μας ούτε και χρειάζεται να σου απαντήσω ναι έχω κάνει qso και έχω και κάρτες από ανύποπτη εποχή.

>τώρα στην ύστατη στιγμή καιρός είναι να μάθεις ότι ο ραδιοερασιτέχνης

>είναι συγκαταβατικός ακαι έχει ανοικτό μυαλό αλλιώς θα συνεχίσεις να

>χλευάζεις το PACKET, τα 1200, τα 9600 και οτιδήποτε πιό αργό από το

Μήπως έχεις χάσει την έννοια των λέξεων. Άνοιξε το λεξικό σου Δημήτρη να δεις τι σημαίνει Χλευασμός . Ενδιαφέρουσα η σύνδεση του cw με την ανεκτικότητα

και με το Packet αλλά κατά την γνώμη μου άσχετη.

>WiFi. Αλήθεια Τάσο πόσον καιρό δούλεψες 9600 στο AMPRnet; Μήπως ότι

>ζηλεύουμε το ρεζηλεύουμε;

Ενδιαφέρουσα απάντηση κάντην αντίστοιχα για αυτά που «ρεζιλεύεις» εσύ στον εαυτό σου τώρα.

Για ξαναδές με άλλο μάτι το «ο θεός να το κάνει δίκτυο» που λές νωρίτερα, Ζήλεψες που ένα δίκτυο όπως το APRS μέσα σε 3 χρόνια έχει τόση ανάπτυξη και προχωράει γρήγορα στα 9600 και δεν ήταν το Athnet ή κάποιο άλλο που να έχεις κάποια ίσως εξουσία σε αυτό ή να μην φαίνεσαι από τους πρώτους ίσως? Γιαυτό κοροϊδεύεις τον Δημητράκη τον SV1EDZ ακόμα και στον αέρα στο APRS γιατί το βοήθησε ενεργά και ουσιαστικά? Τον SV1IW για το πρόγραμμα που στέλνει το traffic του δικτύου αποκαλώντας το ρουφιάνο επειδή κάποια στιγμή ασχολήθηκε και αυτός με το APRS και υπάρχον από παλιά κόντρες για το παλιό Net/rom Athnet debate?

Ζηλεύεις που έκανα δημοσιεύσεις για το APRS. Κάνε τις δικές σου αν θέλεις, κανένας δεν σε απέκλεισε από το να πεις την γνώμη σου. Μάλλον λοιπόν πρέπει να κάνεις τώρα την δική σου αυτοκριτική για το ποιος ακριβώς ζηλεύει τι.

Δεν μπορώ να σε βοηθήσω σε αυτό, καταλαβαίνω τώρα γιατί μου στρέφεις τα βέλη. Μόνο που ότι έκανα για το APRS δεν το έκανα για να χάσει το Athnet κάτι. Ούτε είχα λόγο. Όλα τα υπόλοιπα έγιναν από την δυναμική των πραγμάτων.

Τώρα αν αυτό σημαίνει ότι θα πρέπει να φιμωθώ και να μην λέω την γνώμη μου εδώ ή σε περιοδικά επειδή δεν θα σου αρέσει Δημήτρη μου και θα την θεωρείς θάψιμο ή ότι προωθώ «πειρατικά» δίκτυα τότε να με συγχωρείς δεν θα σου κάνω την χάρη. Οπως είπα και νωρίτερα πάντα γινόντουσαν δημοσιεύσεις και πάντα οι ραδιοερασιτέχνες παρακολουθούσαν και χρησιμοποιούσαντα περιφερειακά χόμπυ του ραδιοερασιτεχνισμου και πάντα ήταν περίφανοι. Οσο για το πειρατικό οπως λες, γιατί δεν κάνεις καταγκελια στην ΕΕΤΤ για να αναλλάβεις και την ευθύνη αυτού που λες? Εχεις κάθε δικαίωμα διαπιστωσες την λειτουργεία πειρατικού δικτύου έτσι? Κάνε μια έγραφη καταγκελία και στείλε μας την απάντηση που θα πάρεις, θα έχει ενδιαφέρον πριν βάλουμε ταμπέλες να ξέρουμε τι λέμε.

Δεν θα σου κοστίσει περισσότερο από το να ετοιμάσεις ένα email και να το στείλεις στην www.eett.gr <http://www.eett.gr>

>Τάσο ας μάθουμε πρώτα να ακούμε τους άλλους και μετά ΄θα ξαναπούμε

>ταις προτάσεις και όλα τα υπόλοιπα. Εχεις καταντήσει μονότονος

>ζητώντας συνεχώς προτάσεις, αλλά όταν οι άλλοι τις λένε εσύ κάνεις

>πως δεν ακούς ή πως δεν βλέπεις και λές για τσιγκέλια και ιστορίες

>για όρθια τραίνα!!!

Νομίζω ότι πλέον είναι καταφανές ότι δεν υπάρχουν συγκεκριμένες προτάσεις

Το μόνο που θέλεις είναι να απαντάς θολά, δεν αναλαμβάνεις τις ευθύνες των θολών «προτάσεών» σου και επιμένεις να τις αφήνεις θολές γιατί προφανώς ουτε εσύ έχεις κάτι στο μυαλό σου που θα βγάλει το Packet Radio από την στενωπό. Το μόνο που σε απασχολεί είναι ίσως η πελατεία του Athnet (κάτι μου θυμίζει από παλιά αυτό Συσοπιλίκι το λένε, κάπως έτσι)

Σίγουρα όμως δεν σου φταίω εγώ που απλά δηλώσα μία πραγματικότητα.

Η ουσία σίγουρα είναι σε αυτά που ειπώθηκαν κυρίως από τον Μάκη και τον Μανώλη άλλα έμεσσα ή άμεσα όλοι εκτός του Δημήτρη το έθιξαν.

Αν δεν αλλάξει η κατάσταση δομικά στην σχέση των συλλόγων δεν πρόκειται να γίνει τίποτα.

Υπάρχει εξαίρεση ?

Ναι να δημιουργηθεί από τους ενδιαφερόμενους ένας σύλλογος νέος για ψηφιακά και μόνο και να απαιτήσει να έχει μόνο αυτός λόγο για τα ψηφιακά με πολλή δουλειά φυσικά.

Οικονομία δικτύου.?

Στο γράμμα σου στο APRS group Έλεγε πριν λίγες μέρες.

O Κατά τη γνώμη μου είναι καλύτερο να στήσουμε λίγα DIGIs και σωστά
> παρά να γεμίσουμε τη χώρα με DIGIs στην ίδια συχνότητα, όπου πατάει ο
> ένας τον άλλο και επιβιώνει τελικά ο ισχυρότερος, και μετά για να
> λύσουμε το πρόβλημα του κακού σχεδιασμού μας να λέμε στους χρήστες
> ότι δεν πρέπει να χρησιμοποιούν μακρυνά PATHS και να βάζουμε
> πλείστους όσους περιορισμούς προσπαθώντας να κρύψουμε τον κακό
> σχεδιασμό

Μολονότι δεν διαφωνώ με την ουσία των λεγομένων εδώ έχουμε 2 διαφορετικά πράγματα που τα μπλέκεις για άλλους λόγους.

Την σχεδίαση ενός δικτύου και το policy ή την οικονομία του δικτύου. Το θέμα είναι υπάρχει ευθεία σχέση της οικονομίας και του κακού σχεδιασμού?

Συμφωνώ ότι δεν πρέπει να υπάρχει σπατάλη bandwidth όπως για παράδειγμα. Αν βαριόμαστε ή δεν μπορούμε να απαντήσουμε σε ένα γράμμα επί της ουσίας που βγήκε λίγο μακρύ να το κάνουμε όλο quote και να λέμε

O Αν δεν είναι το παρακάτω OVERHEAD τότε τί είναι??

Όπως έκανες εσύ για παράδειγμα στις 2/5

Αυτό όμως που ξέρω είναι ότι όταν ένας έχει αργή ή προβληματική σύνδεση με το Internet είτε dialup είτε κάτι άλλο, φροντίζει στον συγκεκριμένο λογαριασμό να παίρνει μόνο προσωπικό Email ή mail από ήσυχες λίστες.

Αποφεύγει δε να γράφεται σε λίστες που έχουν πολύ κίνηση.

Αυτό φυσικά που δεν γίνεται είναι το πρόβλημα που έχει κάποιος (δηλαδή περιορισμένο bandwith) να το επιβάλει πάνω σε όλους του υπόλοιπους στο Internet όταν αυτός ανήκει στην μεγάλη μειοψηφία.

Αν υπάρχουν λοιπόν αρκετοί συνάδελφοι σε αυτή την λίστα που παίρνουν το Email και θέλουν να την διαβάζουν ασύρματα ας γίνει μία γρήγορη ψηφοφορία ή ας αποφασίσει ο υπεύθυνος της. Για την χρήση της.

Άλλωστε πια υπάρχουν πολλές άλλες λίστες για να επικοινωνήσουμε σαν άνθρωποι.

Ο σκοπός του μηνύματος και όπως και του άρθρου στο 59Report ήταν
μόνο ώς προς το να προσπαθήσω να επαναφέρω στα υπόψην των συναδέλφων
οτι υπάρχει ακόμα το packet και λειτουργεί. Δεν με ενδιαφέρει αν η
λίστα έχει 1 μύνημα/βδομάδα ή 100....Αν θέλει κάποιος να επικοινωνεί
με συναδέλφους σίγουρα υπάρχουν και άλλοι τρόποι και όχι μόνο μια
list ή δύο που υπάρχουν.

ΔΙΑΦΩΝΩ ΚΑΘΕΤΩΣ και ΟΡΙΖΟΝΤΙΩΣ !!!! ΤΟ APRS ΕΙΝΑΙ ΜΙΑ ΜΟΡΦΗ PACKET
ως ΓΝΩΣΤΟΝ ΚΑΙ ΔΕΝ ΕΙΝΑΙ ΚΑΛΥΤΕΡΟ, ΑΠΛΑ ΕΙΝΑΙ ΜΙΑ ΕΦΑΡΜΟΓΗ ΠΟΥ ΙΣΩΣ
ΘΕΩΡΕΙΤΕ ποιο χρήσιμη απο κάποιους....Όσο για το AWMN, υπάρχουν
σίγουρα αντίστοιχα "modes" σε ποιο ραδιοερασιτεχνικό επίπεδο.

Subject: [aprssig] Re: APRS High-Site BACKBONES

> > The HIGH sites must be silenced or converted to backbones.

Now here is an easy overnight cold-turkey phase-1 approach.... Leave these digis in place, listening on 144.39 but transmit on UHF. I call these HIGHx sites. At these sites, install multiple 144.39 receivers but with separate BEAMS situated so that packets arriving from different directions do NOT collide, but are each processed simultaneously. For example, a HIGH3 site has three different beams in 3 directions...

HIGH1: 1 RX on 144.39. hears everything but transmits on UHF.
HIGH2: 2 RX on 144.39. Beams to valleys on either side
HIGH3: 3 RX on 144.39. 3 directions covered with narrower beams
HIGH4: 4 RX on 144.39. 4 directions covered with low tower leg beams

They all transmit only on UHF so thats a 50% channel booster already even for a HIGH1 site. A HIGH4 site can see a 8 fold increase in traffic...

Notice the INSTANT advantages of these HIGHx site conversions:

1) Factor of 2, 4, 6 or 8 improvement in throughput and reduction in QRM. First a factor of two because each HIGH digi is now operating cross band full duplex. So it is not adding to channel QRM. Additional factors of X because each site has X multiple receivers.

2) Notice that even for the HIGH4 digi, the output can still be 1200 baud! Since the ALOHA saturation rate is on the order of 18%, then that means 5 such channels can all be heard at a HIGH4 site and fed into a single 1200 baud UHF transmitter without saturation.

3) Instant gratification in that this is still just a DUMB digipeater, and no software, firmware or anythign has to be developed. ALthough I think DIGI_NED software on an old PC may be required for the multiple ports.

4) Regional IGates simply listen to the UHF output of their HIGH digi so they can still hear everything, just like what the HIGH site hears.

5) FIxed stations or mobiles desiring to see everything the HIGH site is hearing can also just tune in to the UHF output for their area. They still transmit on 144.39.

6) Coordination (other than to get a UHF freq) is not required. The HIGH sites only listen on 144.39, so they cannot add to QRM on 144.39.

7) Low local digis still listen and transmit on 144.39 and provide full 100% APRS connectivity to everyone in the local area, but their digipeated packets go no further than the nearest HIGH site where they then are backboned to the internet, or adjacent other HIGH sites or whatever..

USERS: Users may think that they are being cut off. But this should not be the case. What it does is eliminate all out-of-area QRM from their area so that now they CAN hear their "local" low area digi. They can hear the HIGH stuff any time by tuning in the UHF downlink.

Now LOCAL areas can gain BACK some control over their 144.39 LAN by installing their OWN low-area 144.39 digis for their area of interest. These digis support the APRS universal RELAY,WIDE and WIDEn-N so that APRS gets back to working like it is supposed to. A few hops through these low digis should cover quite an area. And everything gets into an IGate somewhere for FINDU and all the other magic of APRS...

This will give us a year or two of breathing room to develop any higherorder backbone logic that would then LINK the HIGH's together.

For HIGH2,3, or 4's, remember, that you dont need sensitivity, what you need is DIRECTIVITY. SO you can run 100 feet or RG58 if you need to one beam on one side of the hill (low down) and then another cable to the other side of the hill at the base of the tower so that both independent 144.39 receivers do in fact hear two different areas at the same time.

Yes, they will hear opposite side signals too, but they should be 10 dB or more weaker and that is all you need for FM capture effect. These directional receivers are NOT intended to hear mobiles, but only the cluster of LOW digis on that side of the mountain. The multiple low digis are supposed to hear the mobiles and they CAN because they are no longer QRM'ed by bazillions of other cross state traffic on 144.39 coming in from the mountaintops...

It would be fun to sit down with a TOPO map of SOCAL and look at each HIGH digi and figure out whether it needs to be a HIGH1,2,3 or 4 site...

In summary, GET CONTROL OVER YOUR LAN.
1) Shut down the XMTRS of the really high sites
2) Convert them to crossband outputs on UHF
3) IGates listen to the high site UHF outputs
4) Start installing more low site RELAY,WIDE,WIDEn digis

Just a suggestion. Again, this only applies to HIGH site digis that can see LARGE population densities. It does NOT necessarily apply to HIGH site digis in remote areas. Each area needs to design to TOPOGRAPHY. Every site is different.

Sir,

You addressed this flame to me so I will answer. APRS is a distributed network for communicating instantly in real time to a large number of people on frequency at the same time. It does tracking and bulletins and special status very well. It does not do multi-line messaging very well and should not be used as a method for passing bulk traffic, point-to-point traffic or multi-hop routine traffic.

I have never and will never propose or support that APRS be used for significant point-to-point messaging. It wont work well. HAMs need to understand this and they also need to have networks in place for passing bulk and distant point-to-point traffic. If they try to use APRS for this purpose they will fail. And such failure is not due to any shortcoming of APRS. It would be becuse they are using the wrong tool for the job.

Every APRS group that plans on doing real-time communications support under stress should also exercise its people and its resources for passing packet traffic on other frequencies and networks. Paging should definately be on a different frequency and system. But that

does not preclude an interface from APRS for accepting a page
message, and transfering it over to the amateur packet paging channel
where it belongs.

> in every disaster situation, so I think there is a time and
> a place for each disipline.

Interesting comment. Let me comment. Every disaster or event I have
seen, the proponderance of "voice" traffic begins with "where is
xxxxx".

What I think some people may missunderstand about APRS and PACKET is
that APRS is not intended at all to replace "packet" communications.
It it totaly different. APRS was intended to replace a lot of the
REAL-TIME *voice* traffic and to make it digital, error-free, and
self-logging, and widely distributable and displayed on a common
situational display.

It has nothing to do with passing "message traffic". Messages in
APRS are for the operators to use as a back-channel to augment their
management of the tactical picture. It should not be use for and
should not be planned for passing "traffic". Such planning is doomed
to not only fail to pass traffic, but to also JAM the APRS system so
that it also fails to keep the real-time picture current.

Another common missunderstanding is that APRS is a "Vehicle Location"
system. This is also dead WRONG. That is a secondary result of
providing a tactical-REAL-TIME common situational display.

But too many systems have spun off such that we do not have a "common"
situational display, nor a common approach. Different "APRS" systems
display things differently, treat maps differently, dont even support

the common RANGE SCALE concept or other details so that different
operators can see the "same picture". These details are cruical to
presenting to ALL users, a common situational awareness, yet not
common in most programs.. I better not go on, I get too upset...

Now that we are making some progress with getting all the WIDEn-N
digis in the country on to the NOID standard, so that the originating
DIGIpeater data is not obliterated by ID digis, the experiment I am
dying to conduct is to get some trucker to just put a TNC (no GPS) on
his rig, and set it to beacon once every 10 minutes ONLY a BText via
the path of WIDE,WIDE2-2.

Then see if we can track him (without GPS) all over the country by
watching the PATH and seeing DIGIx,WIDE2-n.

This is called "viciniity tracking" and is built into APRSdos. It
works like this:

If you hear a new station and have no position data from that station,
APRSdos places him on the map (using a big questino mark ICON) within
a 1 mile vicinity of the DIGIx where his packet was first heard.
The "?" ICON shows all observers that this is a "vicinity" plot and
is not real.
Further, the plot uses an ambiguity circle as well just to make sure
no one missinterprets the plot.

But for long distance travelers all over the country, this is a
convenient way to at least show what town or city he is in. And the
REAL neat thing about it is:

1) It needs no GPS
2) It works in buildings and under things which otherwise block GPS
3) A TNC and XMTR can be built into a cigarette pack and since it only transmits a single 1 sec packet once every 10 minutes or hour or so, it can run a YEAR on just 4 AA cells...

A nice way to track objects of HAM radio interest...

`73 de SV2EVS`

Αν υπάρχουν αρκετά αιτήματα σαν του Δημήτρη, δηλαδή να είναι μικρά και λιτά
τα μηνύματα επειδή υπάρχουν αρκετοί που τα λαμβάνουν από αργά ή ασύρματα
δίκτυα.

Υπάρχουν άλλοι εκτός του Δημήτρη ??

Αυτό βέβαια θα αλλάξει και τον χαρακτήρα της λίστας το θέλουμε σαν σύνολο ή
σαν moderator?

Σπύρο μου το να δίνω μια υποθετική αιτία δεν σημαίνει ότι μιλάω για δόλο.
Φυσικά και τα πράγματα δεν είναι άσπρα ή μαύρα όπως τα θεωρεί ο φίλος μου
Δημήτρης.
Δέχομαι τις εξηγήσεις σου μολονότι δεν ήταν αναγκαίες και δεν είναι κακό
κάποιος να θέλει
η λίστα που δημιούργησε να έχει κίνηση. Αλλωστε το γεγονός και μόνο της
δημιουργίας της λίστας και της ευκαιρίας που έχουμε να βγούν και να
συζητηθούν τα προβλήματα που μας ταλανίζουν είναι συμαντική και έλλειπε από
την χώρα μας.

Το σύνηθες πάντως (αλλά όχι υποχρεωτικό) , είναι όταν λέγεται μία θέση
κάπου, εκεί να δίνεται και η απάντηση.
Η αλήθεια είναι ότι από ότι φαίνεται είχαμε πολλά μέσα μας που δεν θα
χωρούσαν σε ένα περιοδικό.

>από το ATHNET.

ΔΙΑΦΩΝΩ ΚΑΘΕΤΩΣ και ΟΡΙΖΟΝΤΙΩΣ !!!! ΤΟ APRS ΕΙΝΑΙ ΜΙΑ ΜΟΡΦΗ PACKET

ως ΓΝΩΣΤΟΝ ΚΑΙ ΔΕΝ ΕΙΝΑΙ ΚΑΛΥΤΕΡΟ, ΑΠΛΑ ΕΙΝΑΙ ΜΙΑ ΕΦΑΡΜΟΓΗ ΠΟΥ ΙΣΩΣ

ΘΕΩΡΕΙΤΕ ποιο χρήσιμη απο κάποιους....Όσο για το AWMN, υπάρχουν

σίγουρα αντίστοιχα "modes" σε ποιο ραδιοερασιτεχνικό επίπεδο.

> 73 Δημήτρης SV1UY

73 de SV2EVS

Σπύρο το θέμα δεν είναι τι είναι καλύτερο. Θα πρέπει να ξεκαθαρίσουμε τις καταστάσεις

Ως προς την ευκολία εγκατάστασης και την χρήση εδώ και 15 χρόνια δεν καταφέραμε να έχουμε ένα σωστό δίκτυο packet Radio

Ενώ με το APRS μέσα σε 2 χρόνια καλύψαμε την χώρα. Δεν είναι θέμα καλύτερου η χειρότερου.

Ως προς την εξέλιξη τώρα.

Με τον απλό τρόπο που έγινε το 1200 μπορεί να γίνει και το 9600 APRS

Για το packet radio το κόστος θα ήταν θεωρητικά το ίδιο. Υπάρχει όμως το μεγάλο πρόβλημα του ποιος θα ελέγχει τον κάθε κόμβο (κάτι που στο APRS δεν έχει ιδιαίτερη σημασία) αλλά στο Packet στο παρελθόν μας χώρισε σε 2 ή 3 δίκτυα bad lists κλπ

Ως προς το τεχνικό θέμα στο packet έχουμε connected πακέτα και διαδικασία σύνδεσης τελικά από το ένα άκρο στο άλλο. Ενώ στο APRS έχουμε απλή εκπομπή του πακέτου χωρίς να περιμένουμε επιβεβαίωση.

Αυτό δίνει την δυνατότητα κάποια πακέτα να περνούν (όχι όλα γιατί καραδοκεί το φαινόμενο του "κρυμμένου πομπού») αλλά στην τελική επικοινωνία δεν έχει

άμεσο αποτέλεσμα μέχρι κάποια όρια σαφώς ανώτερα του κλασικού ax.25 το οποίο θέλοντας συνεχή επιβεβαίωση αν στην διάρκεια της σύνδεσης ξεπεραστούν τα retries κάποια στιγμή κλείνει την επικοινωνία.

Όσοι έχουν δουλέψει στους παλιούς Net/rom κόμβους και στο κλασικό AX.25 όπως ο Μάκης ξέρουν ακριβώς τι συμβαίνει. Και ο Δημήτρης φυσικά ξέρει, αλλά αυτή την στιγμή το αγνοεί, από ότι καταλάβαμε για άλλους λόγους.

Για να λυθεί αυτό το πρόβλημα θέλει full Duplex ή Dama protocol και ξεχωριστή συχνότητα για Backbone.

Αυτό ανεβάζει τελικά το κόστος και κάνει ακόμα πιο σημαντική την ανάγκη συνεννόησης των διαφορετικών φορέων - συλλόγων που στο APRS δεν χρειάζεται.

Θα μου πείτε δεν είχαμε στο APRS φαινόμενα διαφωνίας των συλλόγων?

Ναι αλλά το αποτέλεσμα δεν οδηγούσε σε διακοπή ή ξεχωριστό δίκτυο αλλά σε επιπλέον άχρηστο traffic αφού το digi του ΣΡΕ (SV1ATS-11) που είναι σε υψόμετρο 400 μέτρων στην Νότια Πεντέλη. Είναι σαφώς σε υποδεέστερη θέση από το digi του Υμηττού (J41VAE) που είναι στην κορυφή του όρους και σε απόσταση 10 χιλιομέτρων το ένα από το άλλο.

Το γεγονός της διπλής αναμετάδοσης ανεβάζει το traffic μεν, αλλά δεν δημιούργησε βασικό πρόβλημα, καθοριστικό για την λειτουργία στο APRS όπως γινόταν στο παρελθόν με το Packet τους ξεχωριστούς κόμβους, της καλές και κακές BBS και τα λοιπά που αναφέρθηκαν.

Τώρα όσο για το Athnet και το AWMN σαφώς έχουν μέχρι στιγμής κάτι κοινό. Δηλαδή για να συνδεθούν 2 διαφορετικές πόλεις θα πρέπει να γίνει μέσα από το Internet (αν υπάρχει τέτοια σύνδεση στο AWMN).. Το αν και τι είναι ραδιοερασιτεχνικό, ειπώθηκε νομίζω, σίγουρα υπάρχουν και θέματα ερμηνείας αλλά στην προκειμένη περίπτωση δεν έχει σημασία.

Ως προς την ταχύτητα το Athent έχει 1200/9600 ενώ το awmn το λιγότερο 250kbits/s Αν βέβαια οι συνδέσεις του είναι κοντινές και ξεπεράσει το τεράστιο πρόβλημα του noise από τους χιλιάδες χρήστες που χρησιμοποιούν την συχνότητα αυτή.

Ούτως έχουν τα πράγματα Σπύρο, χωρίς καλά και κακά δίκτυα και σύμφωνα με την γνώμη μου φυσικά

Πολλά 73 Τάσος

>δεν καταφέραμε να έχουμε ένα σωστό δίκτυο packet Radio
Για πολλούς λόγους που έχουν αναφερθεί...
> Ενώ με το APRS μέσα σε 2 χρόνια καλύψαμε την χώρα. Δεν είναι θέμα
>καλύτερου η χειρότερου.
Είναι θέμα καινούργιου, ποιο "εύκολου" και ποιο "εντυπωσιακού"
τρόπου....
> Με τον απλό τρόπο που έγινε το 1200 μπορεί να γίνει και το 9600
>APRS
Το χέρι στην τσέπη φυσικά.
> μεγάλο πρόβλημα του ποιος θα ελέγχει τον κάθε κόμβο (κάτι που στο
>APRS δεν έχει ιδιαίτερη σημασία) αλλά στο Packet στο παρελθόν μας
>χώρισε σε 2 ή 3 δίκτυα bad lists κλπ
Αυτοί που θα το ελέγχουν είναι ΣΥΛΛΟΓΟΙ που θα ΛΑΜΒΑΝΟΥΝ ΑΠΟΦΑΣΕΙΣ
για να ΚΟΒΟΥΝ ΚΑΙ ΝΑ ΡΑΒΟΥΝ !!!!
> θέλοντας συνεχή επιβεβαίωση αν στην διάρκεια της σύνδεσης
>ξεπεραστούν τα retries κάποια στιγμή κλείνει την επικοινωνία.
όταν δουλεύουν όλοι με "όμορφο" τρόπο χωρίς να είναι "μονοφαγάδες"
θα δουλέψει μια χαρά !!!
> Για να λυθεί αυτό το πρόβλημα θέλει full Duplex ή Dama protocol
>και ξεχωριστή συχνότητα για Backbone.
Και τα ήδη υπάρχοντα να χρησιμοποιηθούν ΟΛΑ, θα δουλέυει το σύστημα.
Απλά δεν δουλεύει σχεδόν τίποτα...Που είναι η Κρήτη στο packet ; Που
είναι τα νησιά ;
> συνεννόησης των διαφορετικών φορέων - συλλόγων που στο APRS δεν
>χρειάζεται.
Αν ήταν να βάλουμε το χέρι στην τσέπη και να υπήρχα τα χρήματα θα
το "κάναμε" και μόνοι μας το δίκτυο του packet μόνο γι'αυούς που
τελικά τους ενδιαφέρει να ασχοληθούν. Όλοι συμβάλαμε (οι
περισσότεροι) στο aprs γιατί είπαμε....Καινούργιο mode,
ενδιαφέρον...ενώ το packet θέλει γνώσει λίγων αγγλικών, θέλει να
πληκτρολογείς μυνήματα....κάποια τέτοια βασικά.
> γινόταν στο παρελθόν με το Packet τους ξεχωριστούς κόμβους, της
>καλές και κακές BBS και τα λοιπά που αναφέρθηκαν.
Δεν γνωρίζω για το παρελθόν του Packet...Θέλω όμως να προσπαθήσω για
το μέλλον του.
> Internet (αν υπάρχει τέτοια σύνδεση στο AWMN).. Το αν και τι είναι
> ραδιοερασιτεχνικό, ειπώθηκε νομίζω, σίγουρα υπάρχουν και θέματα
>ερμηνείας αλλά στην προκειμένη περίπτωση δεν έχει σημασία.
Είναι εν μέρη.......τι να κάνουμε τώρα...να καταργήσουμε το
internet ; Και αυτό γίνεται, με άλλους τρόπους όμως.
> Ούτως έχουν τα πράγματα Σπύρο, χωρίς καλά και κακά δίκτυα και
>σύμφωνα με την γνώμη μου φυσικά
όλα έχουν την χρησιμότητα τους και δεν μπορεί να συγκριθεί απόλυτα

το ένα με το άλλο.....

>ασύρματα δίκτυα.
> Υπάρχουν άλλοι εκτός του Δημήτρη ??
Τα μυνήματα νομίζω μπορούν να έχουν ένα συγκεκριμένο μέγεθος αν και
τα attachments τελευταία έγιναν ελεύθερα κατόπιν αιτήματος για να
μπορούν οι συνάδελφοι να στέλνουν αρχεία απο την λίστα.
> Αυτό βέβαια θα αλλάξει και τον χαρακτήρα της λίστας το θέλουμε σαν
>σύνολο ή σαν moderator?
Εγώ δεν την έφτιαξα για να το παίζω δερβέναγας !!! Δεν θέλω να
αλλαχτεί αυτό...

> 73 DE SV1UY

Εγώ και προτάσεις μπορώ να κάνω και ότι θέλεται...Αλλά που να γίνουν αυτές οι προτάσεις ; Στον αέρα ; Σε άτομα που δεν θέλουν να ασχοληθούν με το packet....Σε συλλόγους που με το που ακουνε packet το απορίπτουν με την μία;

σε σύλλογους που ενώ έχουν στήσει packet digis τα κλείνουν, τα κατεβάζουν και ουτω καθεξής ;

Subject: [The Greek Ham Radio] Ðñüôáóç ôïõ Bob runinga ãéá ôá HIGH DIGIS ôïõ APRS

Αγαπητοί φίλοι,

Πρίν από ένα χρόνο ο εφευρέτης του APRS ΞΑΝΑΕΚΑΝΕ την πρόταση περί
αλλαγής συχνοτήτων των APRS DIGIS που είναι σε ψηλά σημεία. Δεν έκανε
την πρόταση αυτή πρίν από μερικούς μήνες αλλά πρίν από 13 μήνες
περίπου και σημειωτέον αυτή ήταν η 2η φορά που πρότεινε το ίδιο
πράγμα επειδή το είχε ξαναπροτείνει και 6 μήνες πρίν δηλαδή 19 μήνες
από σήμερα!

Ιδού λοιπόν η πρότασή του:

-------ΠΡΟΤΑΣΗ του Bob--
Date: Wed, 17 Apr 2002 08:54:06 -0400 (EDT)
From: Bob Bruninga <bruninga@usna.edu>
To: TAPR APRS Special Interest Group <aprssig@lists.tapr.org>
Subject: [aprssig] Re: APRS High-Site BACKBONES

```
> > The HIGH sites must be silenced or converted to backbones.
```

```
Now here is an easy overnight cold-turkey phase-1 approach.... Leave
these digis in place, listening on 144.39 but transmit on UHF. I
call these HIGHx sites. At these sites, install multiple 144.39
receivers but with separate BEAMS situated so that packets arriving
from different directions do NOT collide, but are each processed
simultaneously. For example, a HIGH3 site has three different beams
in 3 directions...
```

HIGH1: 1 RX on 144.39. hears everything but transmits on UHF.
HIGH2: 2 RX on 144.39. Beams to valleys on either side
HIGH3: 3 RX on 144.39. 3 directions covered with narrower beams
HIGH4: 4 RX on 144.39. 4 directions covered with low tower leg beams

They all transmit only on UHF so thats a 50% channel booster already even for a HIGH1 site. A HIGH4 site can see a 8 fold increase in traffic...

Notice the INSTANT advantages of these HIGHx site conversions:

1) Factor of 2, 4, 6 or 8 improvement in throughput and reduction in QRM. First a factor of two because each HIGH digi is now operating cross band full duplex. So it is not adding to channel QRM. Additional factors of X because each site has X multiple receivers.

2) Notice that even for the HIGH4 digi, the output can still be 1200 baud! Since the ALOHA saturation rate is on the order of 18%, then that means 5 such channels can all be heard at a HIGH4 site and fed into a single 1200 baud UHF transmitter without saturation.

3) Instant gratification in that this is still just a DUMB digipeater, and no software, firmware or anythign has to be developed. ALthough I think DIGI_NED software on an old PC may be required for the multiple ports.

4) Regional IGates simply listen to the UHF output of their HIGH digi so they can still hear everything, just like what the HIGH site hears.

5) FIxed stations or mobiles desiring to see everything the HIGH site is hearing can also just tune in to the UHF output for their area. They still transmit on 144.39.

6) Coordination (other than to get a UHF freq) is not required. The HIGH sites only listen on 144.39, so they cannot add to QRM on 144.39.

7) Low local digis still listen and transmit on 144.39 and provide full 100% APRS connectivity to everyone in the local area, but their digipeated packets go no further than the nearest HIGH site where they then are backboned to the internet, or adjacent other HIGH sites or whatever..

USERS: Users may think that they are being cut off. But this should not be the case. What it does is eliminate all out-of-area QRM from their area so that now they CAN hear their "local" low area digi. They can hear the HIGH stuff any time by tuning in the UHF downlink.

Now LOCAL areas can gain BACK some control over their 144.39 LAN by installing their OWN low-area 144.39 digis for their area of interest. These digis support the APRS universal RELAY,WIDE and WIDEn-N so that APRS gets back to working like it is supposed to. A few hops through these low digis should cover quite an area. And everything gets into an IGate somewhere for FINDU and all the other magic of APRS...

This will give us a year or two of breathing room to develop any higherorder backbone logic that would then LINK the HIGH's together.

For HIGH2,3, or 4's, remember, that you dont need sensitivity, what you need is DIRECTIVITY. SO you can run 100 feet or RG58 if you need to one beam on one side of the hill (low down) and then another cable to the other side of the hill at the base of the tower so that both independent 144.39 receivers do in fact hear two different areas at the same time.

Yes, they will hear opposite side signals too, but they should be 10 dB or more weaker and that is all you need for FM capture effect. These directional receivers are NOT intended to hear mobiles, but only the cluster of LOW digis on that side of the mountain. The multiple low digis are supposed to hear the mobiles and they CAN because they are no longer QRM'ed by bazillions of other cross state traffic on 144.39 coming in from the mountaintops...

It would be fun to sit down with a TOPO map of SOCAL and look at each HIGH digi and figure out whether it needs to be a HIGH1,2,3 or 4 site...

In summary, GET CONTROL OVER YOUR LAN.
1) Shut down the XMTRS of the really high sites
2) Convert them to crossband outputs on UHF
3) IGates listen to the high site UHF outputs
4) Start installing more low site RELAY,WIDE,WIDEn digis

Just a suggestion. Again, this only applies to HIGH site digis that can see LARGE population densities. It does NOT necessarily apply to HIGH site digis in remote areas. Each area needs to design to TOPOGRAPHY. Every site is different.

Αγαπητοί φίλοι,

Αλλη μιά πολύ καλή ιδέα του φίλου μας Bob που θα μπορούσαμε να το
πούμε και το APRS του φτωχού!!! Ποιός είπε πως ντε και καλά πρέπει να
έχουμε GPS για να δώσουμε το στίγμα μας. Αν δεν ενδιαφερόμαστε για
ακριβές στίγμα αλλά για να δείξουμε ότι είμαστε μέσα σε κάποια πόλη
αρκεί να διαβάσουμε με λίγη προσοχή το παρακάτω:

Subject: Re: About W7LUS - Back "On the Road Again"!

Now that we are making some progress with getting all the WIDEn-N
digis in the country on to the NOID standard, so that the originating
DIGIpeater data is not obliterated by ID digis, the experiment I am
dying to conduct is to get some trucker to just put a TNC (no GPS) on
his rig, and set it to beacon once every 10 minutes ONLY a BText via
the path of WIDE,WIDE2-2.

Then see if we can track him (without GPS) all over the country by
watching the PATH and seeing DIGIx,WIDE2-n.

This is called "viciniity tracking" and is built into APRSdos. It
works like this:

If you hear a new station and have no position data from that station,
APRSdos places him on the map (using a big questino mark ICON) within
a 1 mile vicinity of the DIGIx where his packet was first heard.
The "?" ICON shows all observers that this is a "vicinity" plot and
is not real.
Further, the plot uses an ambiguity circle as well just to make sure
no one missinterprets the plot.

But for long distance travelers all over the country, this is a
convenient way to at least show what town or city he is in. And the
REAL neat thing about it is:

1) It needs no GPS
2) It works in buildings and under things which otherwise block GPS
3) A TNC and XMTR can be built into a cigarette pack and since it only
transmits a single 1 sec packet once every 10 minutes or hour or so,
it can run a YEAR on just 4 AA cells...

A nice way to track objects of HAM radio interest...

de WB4APR, Bob

ΔΙΑΦΩΝΩ ΚΑΘΕΤΩΣ και ΟΡΙΖΟΝΤΙΩΣ !!!! ΤΟ APRS ΕΙΝΑΙ ΜΙΑ ΜΟΡΦΗ PACKET
ως ΓΝΩΣΤΟΝ ΚΑΙ ΔΕΝ ΕΙΝΑΙ ΚΑΛΥΤΕΡΟ, ΑΠΛΑ ΕΙΝΑΙ ΜΙΑ ΕΦΑΡΜΟΓΗ ΠΟΥ ΙΣΩΣ
ΘΕΩΡΕΙΤΕ ποιο χρήσιμη απο κάποιους....Όσο για το AWMN, υπάρχουν
σίγουρα αντίστοιχα "modes" σε ποιο ραδιοερασιτεχνικό επίπεδο.
> 73 Δημήτρης SV1UY
73 de SV2EVS
Σπύρο το θέμα δεν είναι τι είναι καλύτερο. Θα πρέπει να ξεκαθαρίσουμε
τις καταστάσεις
Ως προς την ευκολία εγκατάστασης και την χρήση εδώ και 15 χρόνια δεν
καταφέραμε να έχουμε ένα σωστό δίκτυο packet Radio
Ενώ με το APRS μέσα σε 2 χρόνια καλύψαμε την χώρα. Δεν είναι θέμα
καλύτερου η χειρότερου.
Ως προς την εξέλιξη τώρα.
Με τον απλό τρόπο που έγινε το 1200 μπορεί να γίνει και το 9600 APRS
Για το packet radio το κόστος θα ήταν θεωρητικά το ίδιο. Υπάρχει όμως το
μεγάλο πρόβλημα του ποιος θα ελέγχει τον κάθε κόμβο (κάτι που στο APRS
δεν έχει ιδιαίτερη σημασία) αλλά στο Packet στο παρελθόν μας χώρισε σε 2
ή 3 δίκτυα bad lists κλπ
Ως προς το τεχνικό θέμα στο packet έχουμε connected πακέτα και
διαδικασία σύνδεσης τελικά από το ένα άκρο στο άλλο. Ενώ στο APRS έχουμε
απλή εκπομπή του πακέτου χωρίς να περιμένουμε επιβεβαίωση.
Αυτό δίνει την δυνατότητα κάποια πακέτα να περνούν (όχι όλα γιατί

καραδοκεί το φαινόμενο του "κρυμμένου πομπού») αλλά στην τελική
επικοινωνία δεν έχει άμεσο αποτέλεσμα μέχρι κάποια όρια σαφώς ανώτερα
του κλασικού ax.25 το οποίο θέλοντας συνεχή επιβεβαίωση αν στην διάρκεια
της σύνδεσης ξεπεραστούν τα retries κάποια στιγμή κλείνει την
επικοινωνία.
Όσοι έχουν δουλέψει στους παλιούς Net/rom κόμβους και στο κλασικό AX.25
όπως ο Μάκης ξέρουν ακριβώς τι συμβαίνει. Και ο Δημήτρης φυσικά ξέρει,
αλλά αυτή την στιγμή το αγνοεί, από ότι καταλάβαμε για άλλους λόγους.
Για να λυθεί αυτό το πρόβλημα θέλει full Duplex ή Dama protocol και
ξεχωριστή συχνότητα για Backbone.
Αυτό ανεβάζει τελικά το κόστος και κάνει ακόμα πιο σημαντική την ανάγκη
συνεννόησης των διαφορετικών φορέων - συλλόγων που στο APRS δεν
χρειάζεται.
Θα μου πείτε δεν είχαμε στο APRS φαινόμενα διαφωνίας των συλλόγων?
Ναι αλλά το αποτέλεσμα δεν οδηγούσε σε διακοπή ή ξεχωριστό δίκτυο αλλά
σε επιπλέον άχρηστο traffic αφού το digi του ΣΡΕ (SV1ATS-11) που είναι
σε υψόμετρο 400 μέτρων στην Νότια Πεντέλη. Είναι σαφώς σε υποδεέστερη
θέση από το digi του Υμηττού (J41VAE) που είναι στην κορυφή του όρους
και σε απόσταση 10 χιλιομέτρων το ένα από το άλλο.
Το γεγονός της διπλής αναμετάδοσης ανεβάζει το traffic μεν, αλλά δεν
δημιούργησε βασικό πρόβλημα, καθοριστικό για την λειτουργία στο APRS
όπως γινόταν στο παρελθόν με το Packet τους ξεχωριστούς κόμβους, της
καλές και κακές BBS και τα λοιπά που αναφέρθηκαν.
Τώρα όσο για το Athnet και το AWMN σαφώς έχουν μέχρι στιγμής κάτι
κοινό. Δηλαδή για να συνδεθούν 2 διαφορετικές πόλεις θα πρέπει να γίνει
μέσα από το Internet (αν υπάρχει τέτοια σύνδεση στο AWMN).. Το αν και τι
είναι ραδιοερασιτεχνικό, ειπώθηκε νομίζω, σίγουρα υπάρχουν και θέματα
ερμηνείας αλλά στην προκειμένη περίπτωση δεν έχει σημασία.
Ως προς την ταχύτητα το Athent έχει 1200/9600 ενώ το awmn το λιγότερο
250kbits/s Αν βέβαια οι συνδέσεις του είναι κοντινές και ξεπεράσει το
τεράστιο πρόβλημα του noise από τους χιλιάδες χρήστες που χρησιμοποιούν
την συχνότητα αυτή.
Ούτως έχουν τα πράγματα Σπύρο, χωρίς καλά και κακά δίκτυα και σύμφωνα
με την γνώμη μου φυσικά
Πολλά 73 Τάσος

Αν υπάρχουν αρκετά αιτήματα σαν του Δημήτρη, δηλαδή να είναι μικρά και λιτά τα μηνύματα επειδή υπάρχουν αρκετοί που τα λαμβάνουν από αργά ή ασύρματα δίκτυα.
Υπάρχουν άλλοι εκτός του Δημήτρη ??
Αυτό βέβαια θα αλλάξει και τον χαρακτήρα της λίστας το θέλουμε σαν σύνολο ή σαν moderator?

Επίσης και για να συνδέσει απομακρυσμένες περιοχές που δεν έχουν κάλυψη μέσω DIGIS. Αυτές οι περιοχές είναι πάρα πολλές και στην Ελλάδα αλλά και στις ΗΠΑ όπου πρωτοξεκίνησε το APRS.
Αρα στηρίζεται και μάλιστα κατά πολύ στο Internet και μη μας λές ανακρίβειες και κουραφέξαλα!

> Το Amprnet αν και πάλι δεν φτιάχτηκε για να στηρίζεται αποκλειστικά
> στο Internet, εντούτοις δουλεύει παντού (εκτός Γερμανίας)σε μικρά
> LANS γύρα από Internet gates.

Φτιάχτηκε με το σκοπό να αποδεσμευτεί από το Internet όπου και όταν οι υπεύθυνοι των διαφόρων φορέων αφαιρέσουν τις BAD LISTS. Το ότι τώρα και όσο διαρκεί η στενοκεφαλιά μερικών το AMPRnet χρησιμοποιεί το Internet το βρίσκεις κακό δηλαδή; Αν το βρίσκεις κακό γιατί χρησιμοποιείς Internet για το e-mail σου; Επίσης για πές μας πώς θα συνδέσεις την Αμερική με την Ευρώπη και Αυστραλία;

> Και δεν υπάρχει σήμερα άλλη δυνατότητα να επικοινωνήσουν το Athnet
> με κάποιο άλλο Amprnet lan, ασύρματα αλλά μόνο με το Internet Ενώ
> στο APRS είναι προφανές ότι παρά τα προβλήματα που πάντα υπάρχουν
> έχουμε για πρώτη φορά στην Ελλάδα ένα πανελλήνιο ασύρματο ψηφιακό
> δίκτυο.

Μέγα λάθος, το ATHnet και το υπόλοιπο AMPRnet στην Ελλάδα θα μπορέσει να αποδεσμευτεί απο το Internet με την προυπόθεση απαλλαγής μας από τους στενοκέφαλους, ή αλλαγής των μυαλών τους, που ακόμη έχουν BAD LISTS στο PACKET. Ξεχνάς ότι κάποτε είχαμε TCP/IP σύνδεση με την Πάτρα με τον Σίφη και τα παιδιά από εκεί; Ξεχνάς πως η Λευκάδα έτσι μίλησε με τον AMPRnet GATEWAY του SV1CPO, μέσω DIGI δηλαδή;

Οσο για το APRS ποιός σου είπε πως δεν βασίζεται και μάλιστα κατά μεγάλο του μέρος στο Internet. Και η Βόρειος Ελλάδα και η Δυτική Ελλάδα δεν βλέπουν και πολλά BEACONS, πόσο μάλλον μηνύματα 40 χαρακτήρων όταν παθαίνουν βλάβες τα IGATES. Πού είναι το πανελλήνιο ασύρματο ψηφιακό δίκτυο που δεν στηρίζεται καθόλου από το Internet; Στην Αθήνα; Προτείνω να κάνουμε ένα συνδιασμένο κλείσιμο όλων των IGATES για μία εβδομάδα έτσι για δοκιμή; (Προτάσεις δεν θέλεις; Ορίστε προτάσεις!!!) Η θεσσαλονίκη και η Δυτική Ελλάδα δεν θα βλέπουν ούτε τα μισά beacons, όσο για τη Λέσβο θα κοπεί τελείως. Οσο για τα μηνυματάκια άστα καλύτερα.

Τέλος το APRS έχει πάντα το πλεονέκτημα των μικρών πακέττων γιατί η πληροφορία που περνάει είναι ελάχιστη και για άλλους είναι αρκετή ενώ για άλλους δεν είναι.

Δεν μπορώ να καταλάβω γιατί επιμένεις να συγκρίνεις το κλασσικό PACKET και όλα τα πρωτόκολλά του με το APRS. Αφού σου είπα ότι κανείς δεν θέλει να σου πάρει το παιχνιδάκι σου μέσα από τα χέρια σου.
Γιατί δεν θέλεις να καταλάβεις ότι το καθένα έχει τη χρησιμότητά του;

Τάσο μου φυσικά και έχει τεράστια σημασία το ποίος ελέγχει τον APRS κόμβο. Κάτσε να μάθουν αυτοί που εγκατέστησαν τον κόμβο οτι μπορούν να βάλουν BLACK LISTS όπως στο UIVIEW και θα δεις τι έχει να γίνει! Εσύ ο ίδιος είπες πολλές φορές πως οι IGATES στην Αμερική μπαίνουν se bad list.

Σωστά λεες για το απλό AX25 αλλά υπάρχουν και άλλα πρωτόκολλα σαφώς ανώτερα από το AX25 και μάλιστα εσύ ξέρεις μερικά και απορώ γιατί δεν τα λές.

Το Dama δεν ανεβάζει το κόστος παρά ελάχιστα. Οσο για ξεχωριστή
συχνότητα στο backbone όλα τα δίκτυα χρειάζονται ξεχωριστή συχνότητα
στο backbone, ακόμη και το APRS (ο θ.....).
Οσο για την συννενόηση μεταξύ φορέων, συλλόγων, και διαφόρων
φαρισέων, φυσικά και χρειάζονται και για το APRS. Μην ξεχνάς πως
ακόμη και καταγγελείες στο Υπουργίο έχουν γίνει από κάποιους.

Καλησπέρα σε όλους,

Ο νέος τρόπος των εξετάσεων δεν αφήνει πολλά (κάθόλου δεν
αφήνει...αλλά τέλος πάντων) περιθώρια για αυτούς που θέλουν να βγουν
και στα βραχέα.

Έδωσαν 100 γράμματα στο σύνολο, ΜΑΖΙ ΜΕ ΑΡΙΘΜΟΥΣ ΚΑΙ ΣΗΜΕΙΑ ΣΤΙΞΗΣ
και μάλιστα ανακατεμένα !!!

Σε αυτά, υπάρχει περιθώριο μόνο 4 γράμματα λάθος. Η ύλη εκτός απο
κάτι μικρο-διαφορές δεν έχει τίποτα σοβαρές αλλαγές.

Θα δούμε και αύριο τι θα γίνει και θα τα ξαναπούμε...

73 de SV2EVS

Ναι, αλλά σε τι ταχύτητα? Στα 25 γράμματα (δηλαδή ένα γράμμα
κάθε 2.5 δευτερόλεπτα) η εξέταση είναι κοροϊδία ούτως ή άλλως.
Προφτάνεις να μετράς τελείες και παύλες και σου μένει και χρόνος
για τσιγάρο. Να δούμε και τις αποφάσεις στην ερχόμενη WARC,
ίσως το CW καταργηθεί εντελώς και σταματήσει η δήθεν εξέταση.

> Υ.Γ Είμαστε τυχεροί όσοι έχουμε πάρει το SV....

Υπερβολές...

Θεωρητικά λένε 25, αλλά ήταν όπως πάντα γύρω στα 30-32...
> Προφτάνεις να μετράς τελείες και παύλες και σου μένει και χρόνος
> για τσιγάρο.
Αν δεν σε πιάσει "πανικός"....πολλοί που στα μαθήματα έγραφαν 220
απο τα 250 γράμματα ή 110 απο τα 125 π.χ έπαθαν "black out" και δεν
μπορούσαν να καταλάβουν τα κενά...ίσως επειδή χείρισε ένας υπάλληλος
του ΟΤΕ.
>Να δούμε και τις αποφάσεις στην ερχόμενη WARC,
> ίσως το CW καταργηθεί εντελώς και σταματήσει η δήθεν εξέταση.
Αυτό θα ήταν κακό πιστεύω.
> > Υ.Γ Είμαστε τυχεροί όσοι έχουμε πάρει το SV....

> γιατί Θα αναγκασθεί να τα "ξαναμάθει". Καλύτερα να μην υπάρχει
> καθόλου εξέταση σε μικρή ταχύτητα.
Κοίτα, εχώ κάνει qso και με 30 γράμματα με 1-2 συναδέλφους...τα
τυπικά φυσικά γιατί και εγώ βαριόμουν να τους ακούω.
Τώρα για 100 και γράμματα σίγουρα θέλει εξάσκαση και qso κάθε μέρα
σχεδόν για να πεις οτι θα ανέβεις απο τα 40 π.χ που φτάνεις στην
διάρκεια των μαθημάτων συνήθως.
> Ε, ας πήγαιναν προετοιμασμένοι, αν τους ενδιαφέρει τόσο πολύ να
> κάνουν DX στα HF (πολύ αμφιβάλω). Αλλωστε άδεια θα πάρουν, ας
> αφιερώσουν λίγο χρόνο στο CW και το φθινόπωρο να ξαναδώσουν.
Αυτό είναι το καλό με τον καινούργιο νόμο: Έγραψες μόνο θεωρία και
δεν έγραψες Morse ; Πέρνεις το "χαμηλό" πτυχίο και μετά ξαναδίνεις...

778. Turkish Hams Help Following Earthquake

Yahoo group: thegreekhamradio
Date: 2003-05-14 18:30:44 UTC
From: troll@mail.gr
Topic: 778 Message: 778

QSP from RSGB News, Sunday 18/5/2003

Turkish Hams Help Following Earthquake

Within hours of the earthquake near Bingol in southeastern Turkey on the 1st of May, a team of amateur radio operators arrived on the scene. The ARRL Letter reported that the amateurs were able to reach the repeater in Erzurum, some 3210 metres above sea level, from some parts of the stricken city. From Erzurum, a Turkey Radio Amateur Club station relayed traffic on HF. TRAC President Aziz Sasa, TA1E, said that a three-person team from TRAC's Malatya Branch arrived at the disaster scene about 10 hours later and got an HF station on the air at the Incident Command Centre. The amateur radio operation came to an end on the 4th of May along with rescue activities. "During the four-day operation a nation-wide HF network was active," Aziz Sasa said.

"As there is a fear of further strong seismic activity in that particular region, we will try to arrange a VHF / UHF local area voice network there as quickly as possible."

Attention All Amateurs...
"Logbook of the World" Enters Open Beta-Testing Phase
(May 15, 2003) -- The long-anticipated "Logbook of the World" (LoTW)--the ARRL's secure electronic contact-confirmation system--is being opened for beta testing.

While a formal unveiling is set for the Hamvention DX Forum Saturday, May 17, in Dayton's Hara Arena, LoTW now is available to all who wish to participate in the beta testing program, expected to last 60 days.

Μιας και τα πράγματα τρέχουν...
Πρώτα απ' όλα έχετε το νου σας από αύριο και για 3 μέρες υπάρχουν 2 τουλάχιστον διακριτικά από τη ζώνη 2, για όσους ενδιαφέρονται...
Επίσης για να είστε μέσα στα πράγματα, στο μεγαλύτερο hamfest στον κόσμο, στο dayton, μεταξύ άλλων ανακοινώθηκαν 2 καινούρια μηχανήματα από kenwwod και icom (IC7800), με κύριο χαρακτηριστικό τα 200w. Οι περίεργοι να ρίξουν μια ματιά στο http://www.gigaparts.com/
Μαγαζί είναι αλλά δεν πειράζει. Τιμές ακόμη δεν ξέρουμε φυσικά και ίσως τα δούμε στο hamfest του 2004. Είμαστε λίγο πίσω έτσι; Περισσότερα στα dx νέα που έρχονται...

Εαν θέλετε να δείτε περισσότερα για το ICOM IC 7800 πηγαίνετε στο site:
http://www.icom.jp/world/info/ic-7800/index.htm

Το σπουδαιότερο από όλα τα νέα futures που προσφέρει είναι το αστρονομικό για amateur μηχάνημα 3rd order intercept point που φθάνει τα +40 dbm!!!!! και στους 2 δέκτες του.

Το αρχείο που θα κατεβάσετε από το πιό πάνω site ειναι σε pdf. (886 kb).

Στο reflector του writelog κυρίως αλλά και του RTTY άρχισε μια συζήτηση
γύρω από την operation του 1B0AS από το κατεχόμενο κομμάτι της Κύπρου.
Όσο με βοηθούσαν τα Αγγλικά μου έδωσα μια κάποια απάντηση στα όσα γράφτηκαν. Διαβάστε παρακάτω στα Αγγλικά τα όσα ειπώθηκαν και ξεκίνησαν από μια απλή ερώτηση του GU0SUP, ο οποίος ρωτούσε απλώς σαν τι θα μετρήσει η επαφή που έκανε. Ο Στηβ ZC4BS του απάντησε μεταξύ άλλων ότι δυστυχώς δεν έγινε ακόμη Ραδιοχώρα και σύντομα ελπίζει να γίνει κλπ.
Ο ZC4DW απαντάει πολύ απλά ότι δεν ραδιοχώρα και δεν μετράει για τίποτα και ένας φίλος Αμερικάνος, ο K4JRB λέει μεταξύ άλλων ότι ποτέ δε θα μετρήσει σαν ραδιοχώρα τουλάχιστον στη ζωή που ζούμε. Στη συνέχεια απάντησα κι εγώ λέγοντας ότι δεν υπάρχει αναγνωρισμένη τέτοια χώρα και ότι το πρόθεμα 1B δεν έχει δοθεί από κανένα σε κανέναν, και ότι η Βόρεια Κύπρος ανήκει στην Κύπρο και είναι έδαφός της και έδαφος της Ευρωπαϊκής Κοινότητας επίσης και ότι κα΄τω απ' αυτές τις περιστάσεις ποτέ δεν θα μετρήσει σαν ξεχωριστή ραδιοχώρα. Περιμένω την όποια συνέχεια για την οποία θα σας κρατώ ενήμερους.
Κωνσταντίνος SV1DPI

Hi all,

I got called by 1B0AS in the Anatolian RTTY contest, and Writelog wouldn't
assign it to a country!
The call is from the Turkish part of Northern Cyprus, and I now wonder how
to handle this in the log.
Anyone got any good ideas? As he gave me 096 as a serial number, he
obviously worked others too, so I won't be alone in this!

I have managed to make WL see it as Turkey, but I am sure that is not the
correct way!

Cheers for now
Phil GU0SUP

Hi Phil,

Unfortunately, until North Cyprus is accepted as a seperate entity it will
not count for any credit in contests nor as DXCC (I also have a 1B1 QSL
card that is probably as rare as P5 lol).

Best bet is to remove the QSO from your log or the contest comittee will
remove quite a few points.

Hopefully it will not be too long now before North Cyprus is once again
accepted by ARRL - it will then be a DX'ers paradise !!

Steve ZC4BS / G4KIV

Phil,

For DXCC purposes 1B1 is not recognised, so it would count as 5B4.

73

Dez - ZC4DW

1B0 is not valid for DXCC or a mult in virtually all contests (same for 4O/4N/YU4). Their entry is not allowed by most contests too. However, leave their contacts in your log as they will either count or simply removed without penalty.

Northern Cyrpus will never count for DXCC ....not in our lifetime.

73 Dave K4JRB

>Northern Cyrpus will never count for DXCC ....not in our lifetime.

>73 Dave K4JRB

Don't be so hasty Dave, have you been following the recent developments over there ?

Steve ZC4BS / G4KIV

The 1B0AS and any other operation from the northern Cyprus is an ilegall transmission definitely

because

1. there is not country recognised by United nations with the name Northern Cyprus or any other.

2. IARU and ITU never gave this prefix to anyone.

The Northern Cyprus belongs to Cyprus and now is ground of European Community also. Under these circumstanses never will be a DXCC entity or something else.

My opinion is that is better to remove this qso from your log

Yours with the best 73.

3D2 - Andre, GM3VLB confirms he will be active as 3D2LB from
Beachcomber
Island (OC-121) [425DXN 621], Fiji on 26-29 May. QSL direct
only to
home call.
7X - A second attempt at operating from the Habibas Islands (AF-
???) is
scheduled to take place on 1-5 June. Last year the
operation aborted
at the very last minute [425DXN 576]. The operators
(Ivan/OM3CGN,
Afif/7X2RO and maybe other locals) are waiting for
the last
permission to be issued. [TNX OM3JW]
9A - Siggi/DL1AZZ, Lutz/DL3ARK, Mario/DL5ASE and
Heiko/DG0OGM plan
operate from Dugi Otok (EU-170, IOCA CI-018) and Veli Rat
lighthouse
(CRO-183) on 24-31 May. QSL via home calls, direct or
bureau. [TNX
VA3RJ]
9M2 - Tex, 9M2TO will be active as 9M2TO/P from Perhentian Island
(AS-073)
until 18 May. Contacts will be confirmed automatically
through the
bureau via JA0DMV. [TNX OPDX Bulletin]
C6 - Duncan, EA5ON will be active (on 160-10 metres SSB) as
EA5ON/C6A
from Freeport, Grand Bahama (NA-080) on 22-26 May.
This is a
business visit and operating time will be restricted. QSL
via home
call. [TNX EA5ON]
C9 - Vlado, ZS6MG reports he will participate in the CQ WPX CW
Contest as
C8A from Maputo, Mozambique. QSL via ZS6MG (Vladimir
Karamitrov,
P.O. Box 1788, Bramley 2018, South Africa).
CT - Special event station CT1RVM/p will be active (on 40, 20,
15 and 10
metres SSB) on 18 May from the Portuguese Air Force Museum.
QSL via
CT1RVM, bureau or direct. [TNX CT1END]
G - Special station GB300WES, celebrating the life of John
Wesley, born
in 1703, will be active on 18 May, 24-26 May and various
dates until
September. QSL via M0RHI either direct (Royce Hunt, 24

Athelstane
Crescent, Edenthorpe, Doncaster DN3 2NG, South
Yorkshire, UK) or
through the RSGB bureau. [TNX M0RHI]
I - Gianni, IZ8CGS will be active (on 10-40 metres SSB) as
IG9/IZ8CGS
from Lampedusa (AF-019, IIA AG-001) on 22-25 May. QSL via
home call.
[TNX IZ8CCW]
J7 - George, K5KG will be active on CW and SSB as J75KG from
Dominica on
20-29 May. He will participate in the CQ WW WPX CW Contest
as J75A.
QSL via KU9C. [TNX The Daily DX]
JW - Terje, LA3OHA is organizing a second expedition to
Prins Karls
Forland (EU-063) and is looking for operators. The
operation is
scheduled to take place between 11 and 25 July;
please visit
http://www.dxpedition.org/dxjwpk for further information.
OH - Finnish military amateur radio stations will be active
with the
special prefix OI on 20 May. A complete listing of
stations can be
found at http://www.kolumbus.fi/srela/oi/. [TNX The Daily
DX]
PJ2 - Look for Jim, WI9WI to be active as PJ2WI from Curacao (SA-
006) on
21-27 May, including a single operator n entry in the CQ
WW WPX CW
Contest. QSL via WI9WI, direct or bureau. [TNX VA3RJ]
SM - Martin, SM0DTK will be active as SM0DTK/1 from
Gotland Island
(EU-020) on 24-31 May. Skeds can be arranged via
sm0dtk@...
[TNX SM0DTK]
SP - Special event station HF25KVW is QRV until 31 July to
celebrate the
25th anniversary of the SP5KVW Radio Club of Ostroleka.
QSL via
SP5KVW. [TNX SP5XSD]
SP - Special memorial operations will be take place from
Poland to
commemorate Polish scientist Ignacy Lukasiewicz, whose
first-ever
kerosene lamp was used for the first time on 31 July 1853
in Lviv:
through 30 June HF8IL (QSL via SP8PJG)
1 July-15 August HF150IL (QSL via SP8PJG)

25 July-4 August 3Z0IL (QSL via SP8ZBX)
25 July-4 August SN0IL (QSL via SP9PEE)
20 August-10 September HF8IL (QSL via SP8PJG)
Another special event station, EN3WLL (QSL via UR4WXQ), will be
activated from Lviv, Ukraine between 25 July and 4 August. The
anniversary celebrations are supported by the Podkarpacie Branch of
PZK and Lviv Radio Amateur Club. For further details please visit
http://www.ot5.cq.pl/ [TNX SP5UAF and SP9JPA]
VE - Dana, VE1VOX reports he plans to be active as VE1OTA/VY2 from Prince
Edward Island (EU-029) and other nearby islands on 16-18 May.
VE - Look for VA2BY and K8DD/VE2 to be QRV from Waskaganish, James Bay
(Zone 2) on 20-23 May. Yhey will operate on 10-40 metres SSB and CW.
QSL via K8DD. The web page for Team Zone 2 is at
http://www.qsl.net/teamzone2/ [TNX NG3K]
VE - Andy, AE6Y will be active as VC1R from VE1JF's QTH in Nova Scotia on
21-26 May, CQ WW WPX CW Contest included. QSL via VE1JF. [TNX AE6Y]
VE - Industry Canada has authorized the use of special event prefixes to
celebrate the 50th Anniversary of the National Library of Canada
between 24 May and 27 July. The prefixes will be CK for VE, CY for
VO, CJ for VA and CZ for VY. [TNX OPDX Bulletin]
VE - This is the latest information on the June operations by
Andre/GM3VLB, Alex/G0DHZ and Niall/VP8NJS from a few British
Columbia (VE7) islands [425DXN 621]: Denman (NA-036) on 4-5 June,
Malcolm (NA-091) on 6-7 June, Campbell (NA-061) on 8-9 June, Denny
(NA-061) on 9-11 June, Gabriola (NA-075) on 12-14 June. Please
e-mail Andre (5z4kl@...) before 22 May for possible skeds
or further information on possible QRV times. [TNX GM3VLB]
W - Ken, W8KL will be operate mobile from the North Carolina State East
Group (NA-067) on 18-22 May. Look for him on or around

14260 kHz
during his afternoons and evenings, while during the mornings he
will look for JA/VK stations. [TNX OPDX Bulletin]

YI/SM7PKK and
YI/VK4KMT. Pictures and other information on the UN World Food
Programme's
workers in Iraq can be found at http://www.wfpdx.org/

FRIEDRICHSHAFEN 2003 ---> Ham Radio (the biggest amateur radio event in
Europe) 2003 will take place at Friedrichshafen on 27-29 June. Further
information is available at
http://www.messe-friedrichshafen.de/fairs/ham_radio/index.php3

LOTW ---> The long-anticipated "Logbook of the World" (LoTW) - ARRL's secure
electronic contact-confirmation system - is being opened for beta testing.
While a formal unveiling is set for the Hamvention DX Forum (17 May) in
Dayton's Hara Arena, LoTW now is available to all who wish to participate in
the beta testing program, expected to last 60 days. Visit the ARRL Logbook of
the World Web site (http://www.arrl.org/lotw/#top) to learn more, download
the necessary software and take part in the beta testing effort.

NEW BOOKS ---> Idiom Press has announced publication of "Up Two. Adventures
of a DXpeditioner" by well known contester, DXer and world traveler Roger
Western, G3SXW (256 pages) and the third updated edition of "The Complete
DX'er" by Bob Locher, W9KNI (228 pages). Complete details are available at
http://www.idiompress.com

QSL 9Y4TBG & 9Y4/DL4MEH ---> Andy, DL4MEH reports he is going to move
permanently to Trinidad & Tobago, West Indies. Effective immediately, QSL
cards for the following operations should be routed via Wolfgang Utz, DL4MDO
(either direct or, preferably, through the bureau):
9Y4TBG CQWW CW 1999, CQWW SSB 2001 & 2002, ARRL DX CW & SSB 2003
9Y4/DL4MEH: all operations from 1999 onwards.
Those who want to QSL direct to Andy ("please only stamp collectors, hi"),
should use the following address (not earlier than August 2003): Andreas
Kretzschmar, #5 Estate Ave., Cassleton Gardens, Trincity, Trinidad W.I.,
Republic of Trinidad and Tobago.

QSL AH3D ---> Vertex Standard (Yaesu) will host the distribution of
full-color AH3D folded-QSLs at their booth (#535) during

the Dayton
Hamvention. Martti Laine/OH2BH, Toni Linden/OH2JTE and Daily
DX editor,
Bernie McClenny/W3UR are prepared to serve you with a smile. [TNX
N4GN]

QSL K5C ---> The Magnolia DX Association reports that the QSL cards
for their
4-6 April operation from Cat Island (NA-082) have arrived from
the printer
(give a look to http://www.mdxa.org/k5c_03.html). Glenn, K2FF is
processing
direct cards and expects to make a mass mailing on 17 May.

QSL VIA VE7DP ---> Frank, VE7DP provides an update on the QSL
routes for
recent IOTA activations from the Philippines:
4G6A OC-125 via VE7DP
DX4CN OC-202 via VE7DP
4H1LC OC-244 via VE7DP or DX1CW
Frank has several listed addresses, but the preferred one is:
Frank Toplak,
General Delivery, Winfield, BC V4V 1M6, Canada.

UFT ---> The newly elected officers of the Union Francaise des
Telegraphistes
(the French National CW Society, http://www.uft.net) for 2003/04
are: Raymond
Talazac/F6BQV (President), Norbert Laurent/F6AXX (Vice
President), Pierre
Gallo/F6FXS (Treasurer) and Jean Pierre Auxentides/F5TFP
(Secretary).
Assistant Board members include Ghislain/F6CEL, Alain/F6ENO,
Alain/F6EQV,
Gerard/F6ICG, Andre/F5AKL, Bernard/F5HEW, Vincent/F5MJV,
Maurice/F5NQL and
Martial/F5SIE. Honorary Past President Jean-Claude Perrotey, F9IQ
has been
appointed as the UFT's CW consultant for REF (the IARU French
Society). [TNX
F5NQL]

VISALIA 2004 ---> The Southern California DX Club
(www.scdxc.org) has
announced that the 55th Annual International DX Convention will be
held at
The Holiday Inn Hotel & Conference Center Visalia on 23-25 April
2004. Online
reservation information can be found at www.visaliaholidayinn.com
[TNX N6DHZ]

791. HAMFEST/SYNANTHSH ATHINAS

Yahoo group: thegreekhamradio
Date: 2003-05-22 13:22:35 UTC
From: sxanthop
Topic: 791   Message: 791

Καλησπέρα,

Ως γνωστόν για αυτούς που παρακολουθούν τα γεγονότα στο hobbie μας, αυτό το σαββατοκύριακο γίνεται η 2η συνάντηση των ραδιοερασιτεχνών με τον υπουργό Μεταφορών/Επικοινωνιών και επίσης το hamfest της Αθήνας.

Εγώ προσωπικά, θα μπορέσω επιτέλους να κατέβω με την συντροφιά μερικών συναδέλφων απο την ΕΡΒΕ, αλλά το ταξίδι θα είναι "αστραπή" καθώς θα είμαστε στην Αθήνα τα ξημερώματα του Σαββάτου και το απογευματάκι μετά το συνέδριο και την πρώτη επαφή με το hamfest, θα πρέπει δυστηχώς να γυρίσω πίσω στο qth για ένα σχετικό "qrl".

Ελπίζω να δω κάποιους απο εσάς κάτω στην Αθήνα, να τα πούμε και απο κοντά και να συζητήσουμε για τα διάφορα επάνω στο hobbie.

* ΕΙΣΑΓΩΓΗ *
****

Φυσικά όλοι ξέρουν ότι αύριο Σάββατο 24/5 και μεθαύριο Κυριακή 25/5/2003 διοργανώνεται στην Αθήνα ή καλύτερα στον Ασπρόπυργο, από την ΕΕΡ το μεγαλύτερο Ελληνικό HamFest. Πολλοί από μας θα είναι εκεί και σαφώς και κυρίως το HamFest δεν είναι αγοραπωλησίες αλλά το να συναντήσουμε και να δούμε κάποιους φίλους... και μάλιστα καλούς, ακόμα κι αν δεν γνωριζόμαστε... Ως τέτοια είναι καλύτερα να δούμε την όλη διοργάνωση.
Φυσικά ξημερώματα Σαββάτου αρχίζει κι ένα μεγάλο contest...το cq wpx cw...
Επίσης να πούμε ακόμη μια φορά ότι η διάδοση είναι στα κάτω της στα σίγουρα, αλλά μη ξεχνάτε: "ότι κατεβαίνει εντελώς θα ξανανέβει", εκτός ίσως από το Ελληνικό Χρηματιστήριο...
Φυσικά στο Dayton και στο μεγαλύτερο Hamfest παγκοσμίως έγιναν πολλά το προηγούμενο Σαββατοκύριακο. Όνειρο είναι για όλους μας να πάμε κάποια στιγμή εκεί και να γνωρίσουμε από κοντά όλους τους μεγάλους dxερς, που είναι φυσικά παρόντες...Ως τότε πάντως φροντίζουμε να μαθαίνουμε και να σας μεταφέρουμε νέα...

Κωνσταντίνος...για τους φίλους, ενώ για όλο τον υπόλοιπο κόσμο SV1DPI

ΥΓ. Μάλλον δεν το διαβάζει κανείς το υστερόγραφο, αλλά θα το βάζω μέχρι να σκάσω γάιδαρο...Ακόμη ψάχνουμε κάποιον να γράφει μια στήλη για νησάκια. Υλικό θα του δίνουμε εμείς μπόλικο, απλά ταξινόμηση και παρουσίαση θέλει.

****
* ΤΑ ΝΕΑ ΜΑΣ *
****

==
Τι έγινε την εβδομάδα που μας πέρασε...
==

=> Κυρίως την εβδομάδα που πέρασε, έγινε το Dayton. Όλοι οι μεγάλοι ήταν εκεί και ως εκ τούτου δεν υπήρχε πολλή δραστηριότητα σε... εκδρομούλες. Στο HamFest του Dayton, μαζεύονται οι διασημότεροι dxερς και operators απ' όλο τον κόσμο. Συζητούν, γνωρίζονται,βραβεύονται, κλπ. Ανάμεσα στις βραβεύσεις που ξεχώρισαν ήταν αυτή του διάσημου χειριστή rtty, AA5AU. Χρόνια τώρα ξεχνούν βέβαια να βραβεύσουν το Maco μας, που έδωσε το rtty στο λαό, με τη δημιουργία του αξεπέραστου mmtty, και την παραχώρησή του δωρεάν σε όλη την αματερική κοινότητα. Παρεπιπτόντως το mmtty κυκλοφόρησε καινούρια έκδοση (1.65) την οποία καλό είναι να κατεβάσετε αφού φαίνεται να ξεπέρασε τα όποια προβλήματα, είχαν η 1.63 και 1.64.
Περισσότερα στα ιντερνέτ νέα...

=> Στο Dayton φυσικά γίνονται και οι ανακοινώσεις των εταιρειών για τα νέα καλούδια που θα μας φέρουν. Εκεί ανακοίνωσε η Yaesu το Mark V, παλιότερα κι εκεί φέτος η Icom έκλεψε την παράσταση ανακοινώνοντας το ic7800, ένα σούπερ μηχάνημα νέας εποχής, με ψηφιακά φίλτρα φυσικά, με 7" οθόνη, με rtty και psk demodulator αλλά και modulator, με 200w σε 100% duty cycle, με flash memory ώστε ο κάθε χρήστης να έχει τις δικές του ρυθμίσεις κρατημένες και μόλις βάζει την κάρτα του το μηχάνημα να γυρίζει σ' αυτές κ.α. πολλά όπως κατευθείαν έξοδο vga για να συνδέσει κάποιος monitor αν η οθόνη των 7" δεν τον ικανοποιεί και usb σύνδεση με πληκτρολόγιο.
Καφέ κάνει μεν αλλά δυστυχώς όχι εσπρέσο...
Η διεύθυνση για να κατεβάσετε το προσπέκτους στα ιντερνέτ νέα επίσης.
Πάντως για να προλάβω τα όνειρά σας τιμές δεν ανακοινώθηκαν μεν αλλά αναμένεται η τιμή του να ξεπεράσει τα 2 χαρτιά και ίσως και στα 2,5. Οι Άγγλοι μιλάνε για 5000 στερλίνες πάντως...

=> Κάτι πιο πραγματικό και πιο κοντά στους περισσότερους από μας όμως ήταν το νέο καλούδι της kenwwood. Κύριο χαρακτηριστικό του φυσικά και στα πλαίσια του ανταγωνισμού τα 200 w, που φαίνεται να γίνονται Must στους κατασκευαστές και τον ανταγωνισμό. Πάντως όπως είπε και κάποιος Αμερικάνος: "και τι τα θέλω τα 200w αφού έχω τον ενισχυτή που είναι ενάμισι κιλοβάτ..." Για τους περισσότερους από μας βέβαια δεν είναι έτσι αλλά όταν πληρώνουμε πολλά περισσότερα για τα 100w παραπάνω, ενώ με τα ίδια χρήματα θα αγοράζαμε έναν ενισχυτή με 500w για παράδειγμα... μήπως πρέπει να το ξανασκεφτούμε...

=> Τις τελευταίες μέρες της εβδομάδας έχουμε κι αυτούς που πήγαν κάπου, συνήθως σε εξωτικά μέρη για το contest. Έχετε το μάτια σας ανοιχτά (στα κλάστερ), και τα αυτιά σας περισσότερο ακόμη. Τρανό παράδειγμα ο HC8N που έρχεται από τα Γκαλαπάγκος με όλη του τη δύναμη αγνοώντας τη διάδοση...

=> Μη ξεχάσω να αναφέρω τον Ιάπωνα J88KS, από το St. Vincent, που κάνει πολλή καλή δουλειά...qsl via JA1FUI.

=> Ρέστα έδωσε το γνωστό Γερμανικό ζευγάρι από τη FYROM. Με το υπέροχο διακριτικό z38z ήταν πανταχού παρών με σήμα που σκότωνε... qsl via DL7AFS

=> Ανάμεσα σ' αυτά που έγιναν τις προηγούμενες μέρες ήταν και η αρχή της δοκιμαστικής λειτουργίας του LOTW (Logbook Of The World), του παγκόσμιου logbook δηλαδή, που προωθεί η ARRL. Για τους μη γνώστες λοιπόν, πρόκειται για ένα πρόγραμμα που θα δέχεται τα logbook του καθενός μας, θα διασταυρώνει τα qso μας και θα πιστοποιεί έτσι τους πόντους του καθενός μας για τα βραβεία της arrl και όχι μόνο. Δε θα χρειάζεται δηλ. πλέον κάποιος να στέλνει κάρτες για το dxcc ή το was,κλπ., αρκεί βέβαια ο δεύτερος του qso να έχει ανεβάσει το log του στο σύστημα.
Η οριστική λειτουργία θα αρχίσει δυο μήνες τουλάχιστον μετά, ίσως και περισσότερο, και θα πούμε οπωσδήποτε περισσότερα τότε. Στους reflectors του εξωτερικού έχει γίνει πολλή συζήτηση για το θέμα. Εδώ δεν έχω δει να γίνεται αντίστοιχη συζήτηση...

==
...Και τι θα γίνει τις μέρες που έρχονται
==

=> Πάνω και πέρα απ' όλα το cq cw wpx contest. Σημείωσα τις ακόλουθες συμμετοχές στις οποίες σκοπεύω να δώσω κάποιους πόντους, και σας τις μεταφέρω. Να ξέρετε ότι όταν τους καλέσετε κάπου εκεί θα είμαι κι εγώ...

Καναδάς VC1R via VE1JF (από το QTH του VE1JF)

Καλή τύχη και καλό κυνήγι...

=> Αυτή η ιστορία με το Ανατολικό Τιμόρ είναι σίγουρα περίεργη...
Λοιπόν το East Timor είναι μια περιοχή που αν θυμάμαι καλά ανήκε στην Πορτογαλία και στην Ινδονησία ή τουλάχιστον αυτοί τρώγονταν. Κάποια στιγμή οι Τιμορέζοι αποφάσιασαν να τη δουν ανεξάρτητοι και κατάφεραν και μπήκαν υπό την προστασία του ΟΗΕ. Έτσι έγιναν και μεταξύ άλλων dxcc ραδιοχώρα με prefix 4W. Μάλιστα όσοι είχαν πάρει τελευταία credits από

το dxcc θα ειχαν δει που γράφονταν: East Timor (UNTAET). Μέχρι εδώ καλά... Τώρα λοιπόν το Ανατολικό Τιμόρ ανεξαρτητοποιήθηκε... Ο ΟΗΕ έφυγε και έγινε Ανατολικό Τιμόρ σκέτο χωρίς παρένθεση. Δυο Ιάπωνες θα πανε εκεί για μια dxpedition και ήδη άλλος ένας σταθμός εκπέμπει από εκεί. Αυτοί λοιπόν λένε ότι θα καταθέσουν αίτηση στην ARRL να σβηστεί η παλιά ραδιοχώρα και να αναγνωριστεί η καινούρια οπότε φτου κι από την αρχή. Κανείς δεν ξέρει τι θα συμβεί τελικά αλλά για καλό και κακό μάλλον πρέπει να δουλέψετε τη χώρα ώστε να μην ανησυχείτε αργότερα. Πρώτη φορά πάντως βλέπω αποστολή WFNWL (WORK FIRST, NOT WORRY LATER), συνήθως είναι WFWL...

Από 24 έως και 29 Μάη λοιπόν ψάξτε για το 4W1BK (JA1BK) και τον 4W2DN (JR2KDN). Θα είναι QRV από το Timor Leste (OC-148), όπως είναι η επίσημη πλέον ονομασία. QSL information: 4W1BK via WA2MOE και 4W1DN via JR2KDN.

Επίσης ο 4W3DX, Thor, έχει στήσει μια εκπληκτική ρόμπικ κεραία, η οποία βλέπει Ευρώπη και τη χρησιμοποιεί πλύ τακτικά. Μάλλον δύσκολα όμως θα πάρει κάποιος κάρτα από αυτόν το σταθμό. QSL via TF3MM

Φυσικά όλοι ξέρουν ότι αύριο Σάββατο 24/5 και μεθαύριο Κυριακή 25/5/2003 διοργανώνεται στην Αθήνα ή καλύτερα στον Ασπρόπυργο, από την ΕΕΡ το μεγαλύτερο Ελληνικό HamFest. Πολλοί από μας θα είναι εκεί και σαφώς και κυρίως το HamFest δεν είναι αγοραπωλησίες αλλά το να συναντήσουμε και να δούμε κάποιους φίλους... και μάλιστα καλούς, ακόμα κι αν δεν γνωριζόμαστε... Ως τέτοια είναι καλύτερα να δούμε την όλη διοργάνωση.
Φυσικά ξημερώματα Σαββάτου αρχίζει κι ένα μεγάλο contest...το cq wpx cw...
Επίσης να πούμε ακόμη μια φορά ότι η διάδοση είναι στα κάτω της στα σίγουρα, αλλά μη ξεχνάτε: "ότι κατεβαίνει εντελώς θα ξανανέβει", εκτός ίσως από το Ελληνικό Χρηματιστήριο...
Φυσικά στο Dayton και στο μεγαλύτερο Hamfest παγκοσμίως έγιναν πολλά το προηγούμενο Σαββατοκύριακο. Όνειρο είναι για όλους μας να πάμε κάποια στιγμή εκεί και να γνωρίσουμε από κοντά όλους τους μεγάλους dxερς, που είναι φυσικά παρόντες...Ως τότε πάντως φροντίζουμε να μαθαίνουμε και να σας μεταφέρουμε νέα...

Κωνσταντίνος...για τους φίλους, ενώ για όλο τον υπόλοιπο κόσμο SV1DPI

ΥΓ. Μάλλον δεν το διαβάζει κανείς το υστερόγραφο, αλλά θα το βάζω μέχρι να σκάσω γάιδαρο...Ακόμη ψάχνουμε κάποιον να γράφει μια στήλη για νησάκια. Υλικό θα του δίνουμε εμείς μπόλικο, απλά ταξινόμηση και παρουσίαση θέλει.

****
* ΤΑ ΝΕΑ ΜΑΣ *
****

===
Τι έγινε την εβδομάδα που μας πέρασε...
===

=> Κυρίως την εβδομάδα που πέρασε, έγινε το Dayton. Όλοι οι μεγάλοι ήταν εκεί και ως εκ τούτου δεν υπήρχε πολλή δραστηριότητα σε... εκδρομούλες. Στο HamFest του Dayton, μαζεύονται οι διασημότεροι dxερς και operators απ' όλο τον κόσμο. Συζητούν, γνωρίζονται,βραβεύονται, κλπ. Ανάμεσα στις βραβεύσεις που ξεχώρισαν ήταν αυτή του διάσημου χειριστή rtty, AA5AU. Χρόνια τώρα ξεχνούν βέβαια να βραβεύσουν το Maco μας, που έδωσε το rtty στο λαό, με τη δημιουργία του αξεπέραστου mmtty, και την παραχώρησή του δωρεάν σε όλη την αματερική κοινότητα. Παρεπιπτόντως το mmtty κυκλοφόρησε καινούρια έκδοση (1.65) την οποία καλό είναι να κατεβάσετε αφού φαίνεται να ξεπέρασε τα όποια προβλήματα, είχαν η 1.63 και 1.64.
Περισσότερα στα ιντερνέτ νέα...

=> Στο Dayton φυσικά γίνονται και οι ανακοινώσεις των εταιρειών για τα νέα καλούδια που θα μας φέρουν. Εκεί ανακοίνωσε η Yaesu το Mark V, παλιότερα κι εκεί φέτος η Icom έκλεψε την παράσταση ανακοινώνοντας το ic7800, ένα σούπερ μηχάνημα νέας εποχής, με ψηφιακά φίλτρα φυσικά, με 7" οθόνη, με rtty και psk demodulator αλλά και modulator, με 200w σε 100% duty cycle, με flash memory ώστε ο κάθε χρήστης να έχει τις δικές του ρυθμίσεις κρατημένες και μόλις βάζει την κάρτα του το μηχάνημα να γυρίζει σ' αυτές κ.α. πολλά όπως κατευθείαν έξοδο vga για να συνδέσει κάποιος monitor αν η οθόνη των 7" δεν τον ικανοποιεί και usb σύνδεση με πληκτρολόγιο.
Καφέ κάνει μεν αλλά δυστυχώς όχι εσπρέσο...
Η διεύθυνση για να κατεβάσετε το προσπέκτους στα ιντερνέτ νέα επίσης.
Πάντως για να προλάβω τα όνειρά σας τιμές δεν ανακοινώθηκαν μεν αλλά αναμένεται η τιμή του να ξεπεράσει τα 2 χαρτιά και ίσως και στα 2,5. Οι Άγγλοι μιλάνε για 5000 στερλίνες πάντως...

=> Κάτι πιο πραγματικό και πιο κοντά στους περισσότερους από μας όμως ήταν το νέο καλούδι της kenwwood. Κύριο χαρακτηριστικό του φυσικά και στα πλαίσια του ανταγωνισμού τα 200 w, που φαίνεται να γίνονται Must στους κατασκευαστές και τον ανταγωνισμό. Πάντως όπως είπε και κάποιος Αμερικάνος: "και τι τα θέλω τα 200w αφού έχω τον ενισχυτή που είναι ενάμισι κιλοβάτ..." Για τους περισσότερους από μας βέβαια δεν είναι έτσι αλλά όταν πληρώνουμε πολλά περισσότερα για τα 100w παραπάνω, ενώ με τα ίδια χρήματα θα αγοράζαμε έναν ενισχυτή με 500w για παράδειγμα... μήπως πρέπει να το ξανασκεφτούμε...

=> Τις τελευταίες μέρες της εβδομάδας έχουμε κι αυτούς που πήγαν κάπου, συνήθως σε εξωτικά μέρη για το contest. Έχετε το μάτια σας ανοιχτά (στα κλάστερ), και τα αυτιά σας περισσότερο ακόμη. Τρανό παράδειγμα ο HC8N που έρχεται από τα Γκαλαπάγκος με όλη του τη δύναμη αγνοώντας τη διάδοση...

=> Μη ξεχάσω να αναφέρω τον Ιάπωνα J88KS, από το St. Vincent, που κάνει πολλή καλή δουλειά...qsl via JA1FUI.

=> Ρέστα έδωσε το γνωστό Γερμανικό ζευγάρι από τη FYROM. Με το υπέροχο διακριτικό z38z ήταν πανταχού παρών με σήμα που σκότωνε... qsl via DL7AFS

=> Ανάμεσα σ' αυτά που έγιναν τις προηγούμενες μέρες ήταν και η αρχή της δοκιμαστικής λειτουργίας του LOTW (Logbook Of The World), του παγκόσμιου logbook δηλαδή, που προωθεί η ARRL. Για τους μη γνώστες λοιπόν, πρόκειται για ένα πρόγραμμα που θα δέχεται τα logbook του καθενός μας, θα διασταυρώνει τα qso μας και θα πιστοποιεί έτσι τους πόντους του καθενός μας για τα βραβεία της arrl και όχι μόνο.
Δε θα χρειάζεται δηλ. πλέον κάποιος να στέλνει κάρτες για το dxcc ή το was,κλπ., αρκεί βέβαια ο δεύτερος του qso να έχει ανεβάσει το log του στο σύστημα.
Η οριστική λειτουργία θα αρχίσει δυο μήνες τουλάχιστον μετά, ίσως και περισσότερο, και θα πούμε οπωσδήποτε περισσότερα τότε. Στους reflectors του εξωτερικού έχει γίνει πολλή συζήτηση για το θέμα. Εδώ δεν έχω δει να γίνεται αντίστοιχη συζήτηση...

==
...Και τι θα γίνει τις μέρες που έρχονται
==

=> Πάνω και πέρα απ' όλα το cq cw wpx contest. Σημείωσα τις ακόλουθες συμμετοχές στις οποίες σκοπεύω να δώσω κάποιους πόντους, και σας τις μεταφέρω. Να ξέρετε ότι όταν τους καλέσετε κάπου εκεί θα είμαι κι εγώ...

Καλή τύχη και καλό κυνήγι...

=> Αυτή η ιστορία με το Ανατολικό Τιμόρ είναι σίγουρα περίεργη...
Λοιπόν το East Timor είναι μια περιοχή που αν θυμάμαι καλά ανήκε στην Πορτογαλία και στην Ινδονησία ή τουλάχιστον αυτοί τρώγονταν. Κάποια στιγμή οι Τιμορέζοι αποφάσιασαν να τη δουν ανεξάρτητοι και κατάφεραν και μπήκαν υπό την προστασία του ΟΗΕ. Έτσι έγιναν και μεταξύ άλλων dxcc ραδιοχώρα με prefix 4W. Μάλιστα όσοι είχαν πάρει τελευταία credits από

το dxcc θα ειχαν δει που γράφονταν: East Timor (UNTAET). Μέχρι εδώ καλά... Τώρα λοιπόν το Ανατολικό Τιμόρ ανεξαρτητοποιήθηκε... Ο ΟΗΕ έφυγε και έγινε Ανατολικό Τιμόρ σκέτο χωρίς παρένθεση. Δυο Ιάπωνες θα πανε εκεί για μια dxpedition και ήδη άλλος ένας σταθμός εκπέμπει από εκεί. Αυτοί λοιπόν λένε ότι θα καταθέσουν αίτηση στην ARRL να σβηστεί η παλιά ραδιοχώρα και να αναγνωριστεί η καινούρια οπότε φτου κι από την αρχή. Κανείς δεν ξέρει τι θα συμβεί τελικά αλλά για καλό και κακό μάλλον πρέπει να δουλέψετε τη χώρα ώστε να μην ανησυχείτε αργότερα. Πρώτη φορά πάντως βλέπω αποστολή WFNWL (WORK FIRST, NOT WORRY LATER), συνήθως είναι WFWL...

Από 24 έως και 29 Μάη λοιπόν ψάξτε για το 4W1BK (JA1BK) και τον 4W2DN (JR2KDN). Θα είναι QRV από το Timor Leste (OC-148), όπως είναι η επίσημη πλέον ονομασία. QSL information: 4W1BK via WA2MOE και 4W1DN via JR2KDN.

Επίσης ο 4W3DX, Thor, έχει στήσει μια εκπληκτική ρόμπικ κεραία, η οποία βλέπει Ευρώπη και τη χρησιμοποιεί πλύ τακτικά. Μάλλον δύσκολα όμως θα πάρει κάποιος κάρτα από αυτόν το σταθμό. QSL via TF3MM

From: sxanthop
Topic: 795 Message: 795

Καλησπέρα σε όλους,

Μετά λοιπόν απο το ταξίδι αστραπή στην Αθήνα και μετά το συνέδριο με
τα υπουργικά στελέχη και το hamfest, έρχονται τα συμπεράσματα:

Όλοι κάτι θέλουν τελικά και γι'αυτό τελικά μας μαζέψαν εκεί. Θέλουν
να μας "χρησιμοποιήσουν" για τους Ολυμπιακούς και μας υπόσχονται
λαγούς με πετραχύλια. Μέχρι και 20 repeaters απο 10 (που θα δώσουν
και καλά) κόντεψαν να μας υποσχεθούν !

Κατά τα άλλα, δεν ακούστηκε κάτι το οποίο νομίζω οτι αξίζει να
γραφτεί εδώ, εκτός απο τις απόψεις διαφόρων συλλόγων που αναφέρονται
στα τοπικά προβλήματα τους.

Μπορούμε να το συζητήσουμε νομίζω με αυτούς που ήταν εκεί μπας και
βγάλουμε μόνοι μας κάποια συμπεράσματα τελικά.

Υ.Γ Εκείνη την διαφάνεια να μην έδειχνε ο συνάδελφος απο την ΟΕΑ,
δεν θα μιλούσα καθόλου...Αλλά να μας δείχνει και ΚΑΛΑ τα digipeater
για το packet !! ΟΥΤΕ ΤΑ ΜΙΣΑ ΔΕΝ ΛΕΙΤΟΥΡΓΟΥΝ...ΓΙΑΤΙ ΜΕ ΤΣΑΤΙΖΟΥΝ ;

Πιστεύεις ότι τελικά σαν ραδιοερασιτέχνες δεν θα τα πάρου?ε?

<?xml:namespace prefix = o ns = "urn:schemas-microsoft-com:office:office"
/>

> Κατά τα άλλα, δεν ακούστηκε κάτι το οποίο νο?ίζω οτι αξίζει να

Δυστυχώς έφυγα ?ετά το φαγητό για να πάω επειγόντως στην ΓΓΠΠ και έχασα την συνέχεια, άκουσα ό?ως ότι ο SV3AQN έκανε ?ία ενδιαφέρουσα πρόταση του συλλόγου της Πάτρας για να υπάρξει ?ία συνένωση των συλλόγων σε κάποιο σχή?α. Δεν ξέρω αν ο Σίφης είναι γρα??ένος στην λίστα, θα είχε ενδιαφέρον να δη?οσιεύσει το κεί?ενο της πρότασης ή εδώ ή σε κάποιο ηλεκτρονικό ή έντυπο ?έσο ραδιοερασιτεχνικού ενδιαφέροντος να το δού?ε και να το συζητήσου?ε.

> Υ.Γ Εκείνη την διαφάνεια να ?ην έδειχνε ο συνάδελφος απο την ΟΕΑ,

> δεν θα ?ιλούσα καθόλου...Αλλά να ?ας δείχνει και ΚΑΛΑ τα digipeater

Σε ερώτηση που έκανα στον SV1EM ?ου είπε ότι την παρουσίαση την ετοί?ασε στις 3 το πρωί και δεν ?ρήκε κάτι καλύτερο για να δείξει το δίκτυο APRS. Έτσι έ?αλε την εικόνα που ?ρήκε στο site της ΕΕΡ για το παλιό δίκτυο Packet που φυσικά δεν υφίσταται, ?ε τον γενικό τίτλο «ψηφιακό δίκτυο». Σίγουρα πάντως η παρουσίαση αυτή δεν απευθυνόταν τόσο στους ραδιοερασιτέχνες που γνωρίζουν τι και ποια είναι τα δίκτυά ?ας αλλά στους προσκεκλη?ένους του ΥΜΕ δηλαδή πυροσ?έστες, ΓΓΠΠ, ΕΕΤ και λοιπά.

797. Τοποθέτηση - Πρόταση της Ε.Ρ.Δ Υ.Π στο Συνέδριο

Yahoo group: thegreekhamradio
Date: 2003-05-26 16:46:25 UTC
From: sv3aqn
Topic: 797 Message: 797

Αγαπητοί Συνάδελφοι
για όσους από εσας δεν μπορεσαν να παρακολουθήσουν τις τοποθετήσεις των Συλλόγων στο 2ο Πανελλήνιο Συνέδριο Ραδιοερασιτεχνών είτε επειδή έφυγαν νωρίτερα για το Hamfest είτε επειδή ηταν περασμενη η ώρα, σας καταθέτω και απο εδώ την τοποθέτηση - πρόταση του Συλλόγου της Πάτρας (Ε.Ρ.ΔΥ.Π) που αναγνώσθηκε από τον Γραμματέα SV3AQN (Ιωσήφ Απατάγγελο). Καταθέστε την γνώμη σας σχετικά με την πρότασή μας και ευχαρίστως αποδεχόμαστε οποιαδήποτε καλύτερη ή βελτιωμένη.

Πολλά 73 De SV3AQN

Αθήνα 24-05-2003
2ο ΠΑΝΕΛΛΗΝΙΟ ΣΥΝΕΔΡΙΟ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΩΝ
Κύριε Γενικέ, κυρίες και κύριοι συνάδελφοι Ραδιοερασιτέχνες. Η Ένωση Ραδιοερασιτεχνών Δυτικής Πελοποννήσου που έχει έδρα τη Πάτρα χαιρετίζει τη πρωτοβουλία του Υπουργείου Μεταφορών να διοργανώσει το δεύτερο Πανελλήνιο συνέδριο Ραδιοερασιτεχνών. Οι περισσότεροι από εμάς είμαστε εδώ σ☐ αυτή την αίθουσα το 1999, όπου σε εκείνο το Συνέδριο εκφράσθηκαν από πολλούς Συναδέλφους, τα συσσωρευμένα από δεκαετίες προβλήματα και παράπονα των Ελλήνων Ραδιοερασιτεχνών. Η Πολιτεία αν και αργά έκανε την πρώτη και ουσιαστική κίνηση με την ψήφιση του νόμου 2801/2000 και πρόσφατα το Δεκέμβρη του 2002 υπογράφθηκε από τον κ. Υπουργό Μεταφορών και Επικοινωνιών, η Υπουργική απόφαση 1579/2002 καθιερώνοντας πλέον ένα σύγχρονο κανονισμό λειτουργίας Ερασιτεχνικών σταθμών ασυρμάτου προσαρμοσμένο κατά το μεγαλύτερο μέρος του στα Ευρωπαϊκά πρότυπα. Σίγουρα ο νέος αυτός κανονισμός είναι μία μεγάλη κατάκτηση ικανοποιώντας πολλά από τα χρόνια αιτήματα των Ραδιοερασιτεχνών με κυριότερο την κατηγοριοποίηση των αδειών.
Και ενώ όλοι κανονικά θα έπρεπε να είμαστε ενθουσιασμένοι με αυτό, επειδή όμως βρισκόμαστε στην Ελλάδα, δυστυχώς τα μηνύματα που παίρνουμε και έχουν να κάνουν με τα άτομα που επιθυμούν να αποκτήσουν πτυχίο Ραδιοερασιτέχνη, με το νέο σύστημα για πρώτη φορά, ειδικά της κατηγορίας 2 είναι ανησυχητικά. Έχουν εκδηλώσει ενδιαφέρον ομάδες άλλων Συλλόγων που ασχολούνται με άλλα HOBBY όπως Αλεξιπτωτιστές, κυνηγοί, ορειβάτες, περιηγητές, ακόμη και τσοπάνηδες και οι οποίοι απροκάλυπτα μιλούν ότι δεν τους ενδιαφέρει ο Ραδιοερασιτεχνισμός και το μόνο που θέλουν είναι να νομιμοποιήσουν το μηχάνημα το οποίο παράνομα κατέχουν. Και βέβαια οι άνθρωποι αυτοί έχουν δίκαιο όταν ισχυρίζονται ότι είναι απαραίτητο να έχουν ένα VHF για επικοινωνία, από την άλλη, η ευθύνη βαραίνει την Πολιτεία που εν μέρει έχει δώσει λύση με την λειτουργία των PMR, θα πρέπει όμως για λόγους ασφαλείας να τακτοποιήσει με άλλο τρόπο ορισμένες ομάδες που δεν καλύπτονται από τις παραπάνω συσκευές. Εκείνο όμως που δεν θα επιτρέψουμε να

γίνει, είναι η αλλοίωση των Ραδιοερασιτεχνών στην χώρα μας, μέσα από αυτό το πρόβλημα. Για τον λόγο αυτό καλούμε το Υπουργείο να αποστείλει οδηγίες στις κατά τόπους Νομαρχιακές Αυτοδιοικήσεις που διενεργούν τις εξετάσεις ώστε να είναι αυστηροί όσον αφορά την διόρθωση των γραπτών, από την άλλη, όλους εσάς που είστε εκπρόσωποι των Συλλόγων εκτός της παρουσία σας κατά την διάρκεια των εξετάσεων να επαγρυπνείτε και να ελέγχετε για κάθε τι παράνομο που θα εντοπίσετε το οποίο και θα καταγγέλλεται. Συνάδελφοι, πρέπει να γίνει συνείδηση σε όλους μας ότι εμείς είμαστε αυτοί που θα περιφρουρήσουμε το HOBBY μας. Μην αφήσετε να εισέλθουν ξένα σώματα ανάμεσά μας. Επιβάλλεται επαγρύπνηση από όλους.
Συνάδελφοι στο Συνέδριο του 1999 είχαν εκφρασθεί τα παράπονα και είχαν κατατεθεί οι προβληματισμοί από πολλούς Συναδέλφους της επαρχίας εκπρόσωπους Συλλόγων, σχετικά με τα προβλήματα που αντιμετώπιζαν και την αδυναμία συνεννόησης και συνεργασίας με τους άλλους Συλλόγους. Εμείς σαν Ε.Ρ.ΔΥ.Π. εκτιμούμε ότι δεν αρκεί μόνο να επισημαίνουμε τα προβλήματα αλλά θα πρέπει να προτείνουμε και λύσεις. Έτσι από αυτό το βήμα και εκμεταλλευόμενοι την ευκαιρία της Συλλογικής παρουσίας όλων των Συναδέλφων σε αυτό το Συνέδριο, θα προσπαθήσουμε να προσεγγίσουμε το θέμα της συλλογικής εκπροσώπησης των Ελλήνων Ραδιοερασιτεχνών, παρακάμπτοντας το βασικό θέμα του Συνεδρίου που αφορά την εθελοντική προσφορά των Ελλήνων Ραδιοερασιτεχνών στους Ολυμπιακούς αγώνες του 2004 και που κατά την γνώμη μας θα πρέπει να θεωρηθεί δεδομένη από όλους.
Η σημερινή κατάσταση στη χώρα μας αν και φαίνεται απλή εκ πρώτης όψεως, είναι πολύ πολύπλοκη. Αν και έχουν δημιουργηθεί αρκετοί Σύλλογοι σε Αθήνα και επαρχία. δεν έχει βρεθεί μία φόρμουλα κοινής αντιπροσώπευσης των Ραδιοερασιτεχνών στο εσωτερικό της χώρας. Οι λόγοι είναι οι παρακάτω.
☐ Ύφεση του ραδιοερασιτεχνισμού γενικότερα
☐ Τοπικιστικές προτεραιότητες και εγωισμοί.
☐ Το QSL Bureau που ενδιαφέρει όλους σχεδόν τους νέους συναδέλφους είναι αποκλειστικότητα της Ε.Ε.Ρ. ως μοναδικού εκπροσώπου της I.A.R.U.
☐ Δημιουργήθηκε μία υπολειτουργούσα Ομοσπονδία με περιορισμένη συμμετοχή μικρών Συλλόγων χωρίς τη συμμετοχή Ε.Ε.Ρ. ☐ Ε.Ρ.Κ. ☐ Ε.Ρ.ΔΥ.Π. στην οποία οι Σύλλογοι δεν αντιπροσωπεύονται ανάλογα με το δυναμικό των μελών τους αλλά με 1 ψήφο ο καθένας.

Τι γίνεται στις άλλες χώρες
Στην Αμερική, Αγγλία και Γερμανία γνωρίζουμε ότι οι περισσότεροι Σύλλογοι είναι αδελφοποιημένοι στους εθνικούς συλλόγους. Οι εθνικοί σύλλογοι ασχολούνται με εθνικά και διεθνή θέματα, σπανίως δε με τοπικά. Ποτέ ή σχεδόν ποτέ οι Ενώσεις αυτές δεν εγκαθιστούν επαναλήπτες ή αναμεταδότες. Αυτό είναι δουλειά των εκατοντάδων clubs που υπάρχουν στις χώρες αυτές. Παρόλα αυτά υπάρχουν Εθνικοί ή τοπικοί coordinators που ρυθμίζουν θέματα επαναληπτών και συχνοτήτων για να υπάρχει ευρύτερη διασπορά και μικρότερη επικάλυψη. Όλη όμως η Ραδιοερασιτεχνική δραστηριότητα γίνεται από τους τοπικούς Συλλόγους

(Ραδιολέσχες) και αναδεικνύεται από τις Εθνικές τους Ενώσεις.

Τι γίνεται στην Ελλάδα
Η Ε.Ε.Ρ. είναι ταυτόχρονα
1. Ο Εθνικός μας Σύλλογος δηλαδή η «National Society», μετέχει της I.A.R.U. και διαχειρίζεται το μόνο επίσημο QSL Bureau.
2. Ο ένας από τους 2 Συλλόγους που εδρεύουν στην Αθήνα.
3. Ένας πανελλήνιος Σύλλογος που οφείλει να κάνει εκδηλώσεις σε όλη την επικράτεια.
4. Ο Σύλλογος που εγκαθιστά Repeaters σχεδόν σε όλη την Ελλάδα.
5. Ο Σύλλογος που έχει ήδη την δυνατότητα να βάζει repeaters για όλους τους Ραδιοερασιτέχνες σε εξαιρετικές θέσεις σε εγκαταστάσεις της Αεροπορίας.
6. Ο Σύλλογος που έχει γνώμη και άποψη λόγω μεγέθους και ιστορίας για ότι Ραδιοερασιτεχνικό σε όλη την χώρα.

Οι τοπικοί Σύλλογοι, με εξαίρεση την Ε.Ρ.Β.Ε. την Ε.Ρ.Κ. και ίσως μερικούς ακόμα, είναι συνήθως μικροί. Δεν έχουν οικονομική άνεση, αν δε, εγκαταστήσουν κάποιον αναμεταδότη, αυτό γίνεται συνήθως από τις προσφορές των ευπορότερων ή πιο δραστήριων της περιοχής. Οι σχέσεις μεταξύ των τοπικών Συλλόγων και της Ε.Ε.Ρ. ή και μεταξύ τους κυμαίνονται από καλές έως ανύπαρκτες ή και τεταμένες.

Τα αποτελέσματα αυτής της κατάστασης είναι τα παρακάτω
☐ Οι επαναλήπτες που ανήκουν στην Ε.Ε.Ρ. αν και σε εξαιρετικές περιοχές, είναι δύσκολο να συντηρηθούν από μία τεχνική επιτροπή που πρέπει να τρέχει από τον Αίνο, τον Χορτιάτη, την Μυτιλήνη , έως και την Κρήτη. Οι τοπικοί Σύλλογοι έχουν κατά κανόνα δικούς τους επαναλήπτες, αλλά πολλές φορές χωρίς duplexer για λόγους κόστους και χωρίς φίλτρα, που σημαίνει συχνά κακή λήψη, ειδικά όταν είναι δίπλα σε άλλες ραδιοφωνικές εγκαταστάσεις μεγάλης ισχύος.
☐ Δεν υπάρχει η δυνατότητα να δημιουργηθεί ένα Ραδιοερασιτεχνικό όργανο για τον συναρμονισμό των συχνοτήτων ☐ υποτόνων και της τοποθεσίας των επαναληπτών, με αποτέλεσμα ο κάθε ένας να εγκαθιστά ότι νομίζει, όπου νομίζει και ταυτόχρονα να υπάρχουν πιέσεις στο Υ.Μ.Ε. για να κάνει τον διαιτητή ή δημιουργούνται παρεμβολές ακόμα και πριν ανέβει η διάδοση.
☐ Σε νέες τεχνολογίες που δεν έχουν ακόμα πολλούς ενδιαφερόμενους, οι Σύλλογοι κατά κανόνα δεν ενδιαφέρονται να ασχοληθούν, αν δεν υπάρξει μία κρίσιμη μάζα πίεσης από μέλη. Αυτό το είδαμε τελευταία στο APRS.
☐ Δεν υπάρχει συνολικό μέσο εκπροσώπησης στο Υ.Μ.Ε. και την Ε.Ε.Τ.Τ. Αποτέλεσμα είναι να έχουμε σε δευτερεύουσα βάση όλες τις συχνότητες από τους 146 MHz και πάνω και ειδικές δυσκολίες για τις μικροκυματικές συχνότητες. Αυτό σημαίνει αδυναμία πειραματισμών στα μικροκύματα και αδυναμία δημιουργίας ψηφιακού δικτύου υψηλής ταχύτητας.
☐ Αδυναμία για μία συνολική και κεντρικά ελεγχόμενη (όπως επιβάλλεται σε αυτή την περίπτωση) σχεδίαση και αντιμετώπιση σε Έκτακτες Ανάγκες. Οι Ομάδες Έκτακτης Ανάγκης της Ε.Ε.Ρ. που είναι οι

αρχαιότερες και δραστηριότερες, αντιμετωπίζουν αρκετή καχυποψία στην δραστηριότητα τους εκτός Αθήνας. Από την άλλη, τοπικές ομάδες που δεν είναι ενταγμένες στις Ο.Ε.Α. της Ε.Ε.Ρ. έχουν πρόβλημα απομόνωσης από τον κεντρικό έλεγχο της Γ.Γ.Π.Π..
☐ Τέλος το σημαντικότερο πρόβλημα είναι η άρνηση των Ραδιοερασιτεχνών για πρωτοβουλία και δουλειά στα Ραδιοερασιτεχνικά θέματα και τούτο γιατί πιστεύουν κακώς, ότι ένας κεντρικός ή μη Σύλλογος «Μπαμπάς» θα αναλάβει όλα τα προβλήματα και ταυτόχρονα θα έχουν κάποιον να κατηγορούν όταν τα πράγματα δεν πάνε καλά, χωρίς αυτοί να έχουν ευθύνη για τίποτα.

Προτάσεις επίλυσης

Κατά την γνώμη μας οι παρακάτω προτάσεις είναι οι ενδεδειγμένες και πιστεύουμε ότι θα βοηθήσουν για να βγούμε από τον φαύλο κύκλο που καταδυναστεύει την πρόοδο του Ραδιοερασιτεχνισμού:
☐ Σαν Εθνικός Σύλλογος θα πρέπει να παραμείνει η Ε.Ε.Ρ. και μόνο.
☐ Ο Εθνικός Σύλλογος να αποδεχτεί όσους από τους τοπικούς Συλλόγους επιδιώξουν συνεργασία μαζί του. Οι τοπικοί Σύλλογοι θα συνεχίσουν να λειτουργούν ως έχουν, με την οικονομική, διοικητική και οργανωτική τους αυτοτέλεια.
☐ Να δημιουργηθεί με πρωτοβουλία της Ε.Ε.Ρ. το Πανελλήνιο Συμβούλιο Αντιπροσώπων που θα αποτελείται από εκπροσώπους όλων των συνεργαζόμενων Συλλόγων με αυτήν. Οι Σύμβουλοι θα πρέπει υποχρεωτικά να είναι τακτικά μέλη της Ε.Ε.Ρ. Αυτό σημαίνει ότι όλοι αυτοί που θα θελήσουν να ασχοληθούν με την συνολική εκπροσώπηση το εννοούν και θα πρέπει απαραιτήτως να ανήκουν εκτός από τον τοπικό τους Σύλλογο και στον Εθνικό. Οι Σύμβουλοι θα προτείνονται από το Δ.Σ, δεν θα είναι απαραίτητα οι Πρόεδροι τους, εκτός αν έτσι θέλουν οι ίδιοι οι Σύλλογοι. Η ψήφος τους θα είναι ανάλογη των μελών του σωματείου τους και το Συμβούλιο αυτό θα συζητά και θα αποφασίζει για όλα τα τοπικά και εθνικά προβλήματα, θα συμβουλεύει δε το Δ.Σ της Ένωσης για τα διεθνή. Οι αποφάσεις του συμβουλίου σε εθνικά θέματα θα δημοσιοποιούνται και θα προωθούνται στο Δ.Σ της Ε.Ε.Ρ, το οποίο πλέον θα διαχειρίζεται τα Ραδιοερασιτεχνικά θέματα με μεγαλύτερη άνεση. Το συμβούλιο αυτό θα συνεδριάζει στην πρωτεύουσα και έδρα της Ε.Ε.Ρ. απαραίτητα κάθε 6 μήνες και εκτάκτως όποτε υπάρξει λόγος.
Αφού θεσπισθεί το νέο αυτό όργανο πιστεύουμε ότι θα πρέπει να υπάρξει μία περίοδος προσαρμογής, που είναι δυνατόν να επιτευχθεί σε δύο φάσεις.

Φάση πρώτη.
Αρχή λειτουργίας του νέου σχήματος. Η Ε.Ε.Ρ. να λειτουργεί και αυτή ως έχει σήμερα.

Φάση δεύτερη.
Λειτουργία της Ε.Ε.Ρ. καθαρά σαν Εθνικός Σύλλογος και σταδιακή εκχώρηση αρμοδιοτήτων στους συνεργαζόμενους Συλλόγους. Προτείνουμε.
☐ Η Ε.Ε.Ρ. να έχει 5 επιτροπές

a. IARU και διεθνών σχέσεων
b. Δημοσίων Σχέσεων & σύνταξης περιοδικού
c. QSL Bureau
d. Έκτακτης Ανάγκης
e. Συντονισμού συχνοτήτων ☐ υποτόνων επαναληπτών.
☐ Επιτροπές HF, VHF-UHF ψηφιακών, ραδιοεντοπισμού, τεχνικές κλπ θα είναι θέματα των Ραδιοερασιτεχνικών Συλλόγων όχι όμως της Εθνικής Ένωσης.
☐ Οι κάρτες του Bureau θα διακινούνται σε μέλη του Εθνικού Συλλόγου και των συνεργαζόμενων Συλλόγων αφού θα συνεισφέρουν ανάλογα με τον αριθμό των μελών τους.
☐ Θα είναι πλέον δυνατή η δημιουργία Συλλόγων ακόμα και με εξειδικευμένο Ραδιοερασιτεχνικό αντικείμενο (παράδειγμα DX, Packet Radio, APRS, QRP, Δορυφόροι, 50 MHz) που θα αναλάβουν την ραδιοερασιτεχνική δραστηριότητα και που θα πρέπει να είναι συνεργαζόμενοι στον Εθνικό Σύλλογο συμμετέχοντας στις αποφάσεις και προσφέροντας συνεισφορά ανάλογη του αριθμού των μελών τους.
☐ Η Ε.Ε.Ρ. δεν θα ασχολείται με εγκαταστάσεις επαναληπτών ραδιοφάρων κ.λ.π. εκτός ίσως ειδικών Εθνικών περιπτώσεων που δεν καλύπτονται από άλλους Συλλόγους. Ο σχετικός εξοπλισμός και οι άδειες, όχι όμως και η κυριότητα (τουλάχιστον σε πρώτη φάση), θα πρέπει να περάσουν σε ενδιαφερόμενους τοπικούς Συλλόγους, που θα αναλάβουν την τεχνική ευθύνη και την ευθύνη ορθής χρήσης με βάση τον συντονισμό των συμβούλων
☐ Οι Ομάδες Έκτακτης Ανάγκης θα είναι ενιαίες για όλη την επικράτεια. Η διευθύνουσα επιτροπή των Ο.Ε.Α, (αντίστοιχη της σημερινής ΕΚΕΑΝ), θα ορίζεται και χρηματοδοτείται από την Ε.Ε.Ρ. με την σύμφωνη γνώμη του Δ.Σ και των συμβούλων. Στις συνεδριάσεις των συμβούλων θα συμμετέχει και μέλος της διευθύνουσας επιτροπής των Ο.Ε.Α. για θέματα που άπτονται του ενδιαφέροντος της. Θα είναι δε αυτή που θα οργανώνει τις κατά τόπους ομάδες ή τα εθνικά δίκτυα. Η κάθε ομάδα θα έχει τοπικό χαρακτήρα σε επίπεδο νομού ακολουθώντας την λογική της Γ.Γ.Π.Π. που θα είναι και ο κύριος κρατικός φορέας που θα επικουρείται. Οι τοπικές ομάδες θα υποστηρίζονται οικονομικά από όλους τους τοπικούς Συλλόγους του νομού τους καταρχήν και σε περίπτωση ανάγκης (και αδυναμίας των τοπικών Συλλόγων) από την Ε.Ε.Ρ.
☐ Το συμβούλιο των αντιπροσώπων των Συλλόγων, θα ορίζει υπεύθυνο ή επιτροπή που θα κάνει τον συντονισμό των συχνοτήτων των επαναληπτών και των υποτόνων ανεξάρτητα ποιος είναι ο εγκαθιστόν και θα ελέγχει για την καλή λειτουργία ειδικά σε καταστάσεις Έκτακτης Ανάγκης, θα προτείνει δε λύσεις και θα βοηθάει για την έγκριση των αδειών από την αρμόδια αρχή σε περίπτωση δε αντίρρησης θα παρεμβαίνει αιτιολογημένα στην αρμόδια αρχή. Θα πρέπει τέλος να τηρεί μητρώο και κάθε 6 μήνες να δημοσιεύει, πίνακα ☐ ευρετήριο με τους υφιστάμενους αναμεταδότες, επαναλήπτες και ραδιοφάρους .
☐ Ο ρόλος της Ε.Ε.Ρ. θα είναι η εκπροσώπηση στο εσωτερικό και εξωτερικό των Ελλήνων Ραδιοερασιτεχνών ο συντονισμός τους και η συνεχής διεκδίκηση των συχνοτήτων όπως έχουν διανεμηθεί από την W.A.R.C. και τους διεθνείς Οργανισμούς. Επιπλέον η διάδοση και

προβολή στους Ραδιοερασιτέχνες και τους ελληνικούς Συλλόγους των αποφάσεων της IARU καθώς και των αποδεκτών Ραδιοερασιτεχνικών πρακτικών.

Συνάδελφοι,
με την πρόταση μας αυτή που πιθανόν να μην είναι και η καλύτερη και την οποία θέτουμε στην κρίση σας, πιστεύουμε ότι θα βοηθήσουμε για την καλύτερη οργάνωση του χόμπυ μας και την έξοδό μας από το τέλμα.
Αυτό που είναι σίγουρο είναι ότι κάτι πρέπει να γίνει, για να αποκτήσουμε συνολική εκπροσώπηση με τέτοιο τρόπο ώστε όλα τα μέρη να είναι σε ένα βαθμό αρκετά ικανοποιημένα. Ο σκοπός των προτάσεων μας είναι να αναλάβουν πρωτοβουλίες αλλά και ευθύνες όλοι οι Ραδιοερασιτέχνες και να μην περιμένουν από αλλού τα έτοιμα.
Να υπάρξει ένας συνολικός συντονισμός με την ευρύτερη δυνατή συναίνεση και να επιμεριστούν τα δεκάδες Ραδιοερασιτεχνικά ενδιαφέροντα σε ομάδες, ή Συλλόγους συγκεκριμένου ενδιαφέροντος, όλη δε αυτή η προσπάθεια να αναδειχθεί προς τα έξω για να φέρει νέα δραστήρια και υγιή μέλη.
Καλούμε την Ε.Ε.Ρ. αν πραγματικά επιθυμεί να παίξει το ρόλο που της αρμόζει και να αναδειχθεί όσο της αξίζει μέσα στο νέο τοπίο του Ραδιοερασιτεχνισμού που διαμορφώνεται στην χώρα μας, να οργανώσει μέχρι το τέλος του τρέχοντος έτους, συνάντηση όλων των Συλλόγων, με μοναδικό θέμα συζήτησης την συλλογική εκπροσώπηση όλων των Ελλήνων Ραδιοερασιτεχνών σε Εθνικό επίπεδο, να τοποθετηθούν όλοι γύρω από την πρότασή μας, να ακουσθούν κάποιες καλύτερες και επιτέλους να πάρουμε τις αποφάσεις εκείνες που θα μας βοηθήσουν να βγούμε από το αδιέξοδο που βρισκόμαστε.

Ευχαριστώ

Ι. Απατάγγελος SV3AQN
Γραμματέας Ε.Ρ.ΔΥ.Π

Πανελλήνιο Συνέδριο Ραδιοερασιτεχνών
22-05-2003, 13:03
Το 2ο Πανελλήνιο Συνέδριο Ραδιοερασιτεχνών είναι γεγονός. Το Υπουργείο Μεταφορών & Επικοινωνιών οργανώνει το Σάββατο 24 Μαΐου 2003 στις 09.00 πμ, στο Αμφιθέατρο του Υπουργείου το 2ο Πανελλήνιο Συνέδριο Ραδιοερασιτεχνών.
Στο συνέδριο θα παρουσιαστεί μεταξύ άλλων, το νέο κανονιστικό πλαίσιο, θα συζητηθούν θέματα που αφορούν την ανάπτυξη του ραδιοερασιτεχνισμού στην Ελλάδα, ενώ θα γίνει αναφορά σε ζητήματα που αφορούν τους ραδιοερασιτέχνες και τους Ολυμπιακούς Αγώνες του 2004.

Ελπίζουμε να σας δούμε εκεί.

Θάνος Μοσχονάς

Μια και ο λόγος για το συνέδριο σας στέλνω και την ομιλία του προέδρου της Ε.Ρ.Δ.Ε, SV1SN, Δημήτρη Παπαδιώτη

Είμαι ο ΠΑΠΑΔΙΩΤΗΣ Δημήτρης, SV1SN, Πρόεδρος της Ένωσης Ραδ/χνών Δυτικής Ελλάδος.
Κύριε Γενικέ, φίλοι συνάδελφοι
Πριν από τριάμισι χρόνια, από αυτό εδώ το βήμα, είχα την τιμή να απευθύνομαι στον τότε Υπουργό κ. Μαντέλη και του έλεγα «κύριε Υπουργέ εύχομαι να είστε πάντα Υπουργός γιατί είδα ότι γνωρίζετε το αντικείμενο, αλλά επειδή αυτό δεν είναι δυνατόν, ενεργήστε ώστε να μπουν στον υπο ψήφηση νόμο όλες οι λεπτομέρειες που αφορούν τους όρους λειτουργίας των σταθμών μας και να μη χρειάζεται σχετική Υπουργική απόφαση, η οποία μπορεί να αλλάξει ανά πάσα στιγμή από (τον οποιοδήποτε ανίδεο)». Δεν εισακούστηκα. Ο νυν Υπουργός αποδεικνύει τώρα ότι είναι σχετικός με το θέμα.

Χρειάστηκε να περάσουν τρία χρόνια και πολλή γκρίνια, για να πάρουμε στα χέρια μας τη σχετική Υπουργική απόφαση.

Την μελετήσαμε σαν σχέδιο, μας δόθηκε φαινομενικά η δυνατότητα να προτείνουμε τροποποιήσεις-συμπληρώσεις, κάναμε προτάσεις, αλλά, ουδεμία υιοθετήθηκε. Φαίνεται ότι ήμασταν άστοχοι.

Εν πάση περιπτώσει όμως ο κανονισμός είναι γεγονός και απομένει να δούμε αν είναι αυτός που περιμέναμε.

Μπορώ να πω ειλικρινά ότι λύνει πολλά θέματα αλλά; εκείνα που καίνε, ουδόλως τα αγγίζει.

Θα απαριθμήσω μερικά φλέγοντα ζητήματα, παραθέτοντας και τις, κατά την ταπεινή μου γνώμη, λύση τους.

Αυτά που εγώ θεωρώ σπουδαία, είναι τα εξής:

Τι θα γίνει με το θέμα της απρόσκοπτης τοποθέτησης των κεραιών μας;

Ποιος θα μας σώσει από τους ενοχλητικούς πειρατές των συχνοτήτων μας;

Τι θα γίνει με τους Ραδιοερασιτέχνες φαντάσματα;

Τι θα γίνει με τις εξετάσεις από τις περιφερειακές υπηρεσίες του Υπουργείου;

Αναλυτικότερα:

Ποιος θα μας σώσει από το διαχειριστή τις πολυκατοικίας όταν αποπειραθούμε να βάλουμε μία κεραία;

Ο Νόμος την έχει αφήσει μισάνοιχτη την πόρτα για το θέμα των κεραιών, Ναι μεν μας απαλλάσσει από την υποχρέωση εφοδιασμού μας με άδεια, αλλά δεν βοηθάει στην απρόσκοπτη τοποθέτησή τους στις πολυκατοικίες. Γιατί δε βρέθηκε ένας τρόπος να λυθεί αυτό το φλέγον ζήτημα; Και αναρωτιέμαι. Γιατί κάποιος άλλος Υπουργός (παραδείγματος χάριν) έβγαλε μία διάταξη που παραβλέπει τους κανονισμούς των πολυκατοικιών και προβλέπει ότι επιτρέπεται η διατήρηση σκύλων στις πολυκατοικίες έστω και αν το απαγορεύει ο κανονισμός. Γιατί, ενώ το απαγορεύει ο κανονισμός σε πολλές πολυκατοικίες στα ισόγεια και υπόγεια τοποθετούνται μικροί υποσταθμοί της ΔΕΗ ή στις ταράτσες κεραίες κινητής τηλεφωνίας; Θα μου πείτε μπορεί να προϋπήρξε κάποια απόφαση, κάποια νομολογία ή άλλη προϋπόθεση γι' αυτά; Ας δημιουργήσει το Κράτος μία παρόμοια κατάσταση και για 'μας. Αυτό έχει τη δύναμη.

Η πρότασή μου είναι να προβλεφθεί κάτι παρόμοιο και αν θέλετε, να έχουν δικαίωμα τοποθέτησης κεραιών οι αδειούχοι όσοι είναι ενταγμένοι σε ένα σύστημα ΠΣΕΑ ή στα μητρώα εθελοντών της Γεν Γραμματείας Πολιτικής Προστασίας με την υποβολή σχετικής βεβαίωσης και εφ' όσον η εγκατάσταση είναι σύμφωνη με τους νόμους τέχνης και τεχνικής, το οποίο

θα μπορεί να βεβαιώσει μηχανικός. Έτσι ίσως γίνουμε και πιο χρήσιμοι.

Ελπίζω να μη διαφωνούν οι προνομιούχοι των μονοκατοικιών.

Ποιος θα μας σώσει από τους ενοχλητικούς πειρατές των συχνοτήτων μας;

Αρχικά θα ρωτήσω. Υπάρχουν έλεγχοι; Εφαρμόζεται η Νομοθεσία; Ποια είναι τα αποτελέσματα των ελέγχων;

Στο προηγούμενο συνέδριο ο κ. Χάγερ μας παρουσίασε ένα νέο σύστημα ελέγχου, (και σήμερα έγινε το ίδιο)που εγώ τουλάχιστον σχημάτισα την εντύπωση ότι αρκεί να πατήσω για μερικά δευτερόλεπτο το press και να με έχουν εντοπίσει. Τι έγινε; Γιατί συνεχίζουμε να ακούμε στην συχνότητές μας τη μαντουβάλα;

Ασχολούμαι και με ένα άλλο χόμπι, τα αεροπλάνα. Εκεί διαπιστώνω καθημερινά την αγωνία των πιλότων όταν θέλουν να επικοινωνήσουν με το έδαφος και δεν μπορούν από τις παρεμβολές.

Τι θα γίνει με τους Ραδιοερασιτέχνες φαντάσματα; Είναι γνωστό ότι στα μητρώα του Υπουργείου είναι καταγραμμένοι χιλιάδες πτυχιούχοι και αδειούχοι ραδιοερασιτέχνες. Πού είναι όμως όλοι αυτοί; Ποια είναι η ραδιοερασιτεχνική δραστηριότητά τους; Η αλήθεια κύριοι είναι μία. Όσοι πράγματι αγαπούν το ωραίο αυτό χόμπι, είναι ενεργοί και δραστήριοι. Μετέχουν σε συλλόγους, σε εκδηλώσεις και σε συνέδρια, όπως σήμερα. Όλοι εμείς που είμαστε εδώ σήμερα ενδιαφερόμαστε ειλικρινά. Οι υπόλοιποι παίρνοντας, δεν ξέρω με ποιον τρόπο ένα πτυχίο και μία άδεια, νομιμοποίησαν τους ασυρμάτους και τις κεραίες τους, και τους χρησιμοποιούν για επικοινωνία, άλλος με τη γυναίκα του, άλλος με τον υπάλληλό του, το συνέταιρο και το φίλο τον κυνηγό ή τον ψαρά. Με λίγα λόγια, αυτοί οι κύριοι και κυρίες, έλυσαν το τηλεπικοινωνιακό τους πρόβλημα με 30 ευρώ στα 10 χρόνια, όσα χρειάζεται δηλαδή να πληρώσουν για την ανανέωση της άδειας. Και όταν τύχει τους ελέγξει κάποιος για τους ασυρμάτους και τις κεραίες, τότε δηλώνουν με θάρρος και υπερηφάνεια ότι είναι ραδιοερασιτέχνες.

Να τους χαιρόμαστε κύριοι.

Το ερώτημα είναι, τι θα γίνει με αυτούς; Δεν ήταν τυχαίο ότι ο προγενέστερος νόμος προέβλεπε την υποχρεωτική εγγραφή μας σε συλλόγους και την προσκόμιση βεβαίωσης ραδιοερασιτεχνικής δραστηριότητας για την ανανέωση της άδειας. Βέβαια θα μου πείτε μου διαφεύγει ότι τώρα εμείς είμαστε Ευρωπαίοι και εφαρμόζουμε τις Κοινοτικές Οδηγίες. Μακάρι να εφαρμόζαμε με την ίδια ευαισθησία και τις άλλες Οδηγίες που αφορούν την κοινωνία μας.

Σε ένα χρόνο κύριοι πρέπει να οργανωθούμε και να συντονισθούμε σε τέτοιο τρόπο, ώστε να προσφέρουμε όσα μπορούμε και πρέπει να προσφέρουμε από τη μεριά μας για την σωστή διεξαγωγή των Ολυμπιακών αγώνων.

Πώς όμως; Ποιος θα συντονίσει τους ατάκτως περιφερόμενους; Ή θα περιμένουμε μόνο από τους ολίγους συνεπείς;

Και βέβαια από αυτούς θα περιμένουμε.

Όμως τους υπόλοιπους δεν τους χρειαζόμαστε. Και εννοώ αυτούς που ούτε χόμπι κάνουν, ούτε προσφέρουν. Αυτούς που απλώς επικοινωνούν ιδιωτικά.

Φρένο λοιπόν στην κοροϊδία. Φρένο στην κοροϊδία με την προσκόμιση βεβαίωση ραδιοερασιτεχνικής δραστηριότητας για ανανέωση της άδειας. Διαφορετικά ας δημιουργηθεί γι' αυτούς άλλη κατηγορία ραδ/χνών,

Όσοι έχουν διαφορετική άποψη για το θέμα αυτό, δεν μπορώ να πω ότι δεν ενδιαφέρονται για το χόμπι. Οι πιο πολλοί ενδιαφέρονται όμως για πάρτη τους, αλλά όχι για τη συλλογικότητα και την προσφορά μας, ειδικότερα την κοινωνική.

(Για να μη παρεξηγηθώ, εγώ μιλάω για τις αρχές ενός συγκροτημένου κράτους, διαφορετικά αν δεν θέλουμε αρχές και κανόνες, ας τα αφήσουμε όπως είναι)

Τι θα γίνει με τις εξετάσεις από τις περιφερειακές υπηρεσίες του Υπουργείου;

Γνωρίζει το Υπουργείο ότι υπάρχουν περιφερειακές Υπηρεσίες του δεν έχουν συνεργασία με τους τοπικούς Συλλόγους, οι οποίες είτε επειδή δεν μπόρεσαν μια φορά να κάνουν σωστές και αδιάβλητες εξετάσεις με αποτέλεσμα να υπάρξουν παρατράγουδα, είτε για να αποφύγουν τη φασαρία ή τις ευθύνες, έχουν καταργήσει ουσιαστικά, με διάφορες προφάσεις και τεχνάσματα τις εξετάσεις; Γνωρίζει ότι οι ενδιαφερόμενοι ξενιτεύονται για να δώσουν εξετάσεις; Ας το ελέγξει το θέμα το Υπουργείο.

Γνωρίζει ότι μας παρουσιάζουν πολλές φορές ουρανοκατέβατους εξεταστές που επιλέγονται με άγνωστα κριτήρια, πέραν των τυπικών τους προσόντων;

Τελειώνοντας.δύο πραγματάκια μόνο.

Θα ρωτούσα πού βρίσκονται εκείνοι οι περιβόητοι 10 αναμεταδότες που μας έταξε ο κ. Μαντέλης; Ακούσαμε σήμερα τι θα γίνει.

Ένα φίλος μου, μου έλεγε προηγουμένως με χιουμοριστική διάθεση «μην ανησυχείς, θα μας τους δώσουν. Πέρασε η τετραετία. Στην Ελλάδα όλα τα καλά πράγματα ανά τετραετία γίνονται».

Πρέπει να βρούμε τον Άγιό μας.

Και μία προσωπική μου επιθυμία. Θα ήθελα να έχουμε σαν ραδ/χνες, εκτός από τους προστάτες μας Υπουργείο και Υπουργό και έναν προστάτη Άγιο. Θα πρότεινα να είμαστε υπό τη σκέπη του Αγίου Χριστοφόρου. Είναι γνωστή η σχέση μεταξύ Υπουργείου και Αγίου Χριστοφόρου.

Σας ευχαριστώ.

Δυστυχώς, αυτό το πρόβλημα δεν έχει λυθεί.
Η πολυκατοικία είναι σαν ένας "ιδιωτικός συνεταιρισμός" μεταξύ των ιδιοκτητών της πολυκατοικίας. Δυστυχώς, είναι αντισυνταγματικό να παρεμβαίνει ο νόμος σε ιδιωτικές συμφωνίες, όταν αυτές ΔΕΝ παραβαίνουν τον νόμο. Έτσι, εμείς, παραμένουμε κρεμασμένοι από τα "ΙΔΙΑΙΤΕΡΑ" του κάθε ηλιθίου, του οποίου του έκατσε στραβά η τοποθέτηση της κεραίας μας.

Και Ο Θεός βοηθός.

Subject: [The Greek Ham Radio] synedrio

Τι θα γίνει με το θέμα της απρόσκοπτης τοποθέτησης των κεραιών μας;

Ακουσα ότι υπάρχει δεδικασ?ένο στο θέ?α τοποθέτησης κεραιών κινητής τηλεφωνίας και δορυφορικών κατόπτρων ακό?α και αν ο κανονισ?ός το αποκλείει. Η δικαιολογία που το δέχτηκε το δικαστήριο ήταν ότι την εποχή που συντάχθηκε ο κανονισ?ός δεν υπήρχε η γνώση ή η ανάγκη για κάτι τέτοιο.

Ποιος θα μας σώσει από τους ενοχλητικούς πειρατές των συχνοτήτων μας;

Αν η παρε??ολή είναι στιγ?ιαία ή ακανόνιστη κανένας εκτός αν γίνει ενεργοποίηση πολλών ραδιοερασιτεχνών και ?ρουν ?όνοι τους τι συ??αίνει (είναι ακρι?ά και τα άτι?α τα RDF)

Αν η παρε??ολή είναι συνεχής τότε κάντε κατευθείαν fax στην ΕΕΤΤ, αναφέροντας όσο περισσότερα στοιχεία θα ?οηθήσουν την ανεύρεση του πειρατή. Να ξέρετε ότι χωρίς καταγγελία κανένας δεν παρακολουθεί τις συχνότητές ?ας για να διαπιστώσει το πρό?λη?α.

Υποτίθετα ότι από την αρχή του 2004 θα ?πορούν να καταγράφονται ?εγάλες περιοχές του φάσ?ατος στις ση?αντικές πόλεις (όπως ειπώθηκε στο συνέδριο) και έτσι να ?ρουν εκ των υστέρων από που ήταν η κάθε παρε??ολη.

Τι θα γίνει με τους Ραδιοερασιτέχνες φαντάσματα;

Σε αυτό ?πορούν να αντιδράσουν ?όνο οι σύλλογοι έχοντας άνθρωπο στην επιτήρηση των εξετάσεων και πιέζοντας ώστε ο εξετάσεις να είναι ουσιαστικές και όχι τυπικές.

Το ερώτημα είναι, τι θα γίνει με αυτούς; Δεν ήταν τυχαίο ότι ο προγενέστερος νόμος προέβλεπε την υποχρεωτική εγγραφή μας σε συλλόγους και την προσκόμιση βεβαίωσης ραδιοερασιτεχνικής δραστηριότητας για την ανανέωση της άδειας. Βέβαια θα μου πείτε μου διαφεύγει ότι τώρα εμείς είμαστε Ευρωπαίοι και εφαρμόζουμε τις Κοινοτικές Οδηγίες. Μακάρι να εφαρμόζαμε με την ίδια ευαισθησία και τις άλλες Οδηγίες που αφορούν την κοινωνία μας.

Ο αρχικός νό?ος ήταν να είναι όλοι ?έλη ενος συλλόγου ?έλους της IARU και αυτό απο ?όνο του ήταν που δη?ιούργησε πολλά προ?λή?ατα σαν αυτά όπως τα ανέφερε και στην εισήγησή του ο SV3AQN. Μετά άλλαξε σε οποιοδήποτε ραδιοερασιτεχνικό σύλλογο και αυτό τελικά κρίθηκε και είναι αντισυνταγ?ατικό όπως είχε γίνει αυτό και σε άλλους συλλόγους (κυνηγών κλπ)άρα δεν υπάρχει

τέτοιο θέ?α πλέον. Καλό θα είναι να είναι όλοι ?έλοι συλλόγων αλλά όχι
υποχρεωτικό.

Φρένο λοιπόν στην κοροϊδία. Φρένο στην κοροϊδία με την προσκόμιση βεβαίωση ραδιοερασιτεχνικής δραστηριότητας για ανανέωση της άδειας. Διαφορετικά ας δημιουργηθεί γι' αυτούς άλλη κατηγορία ραδ/χνών,

Αλλήθεια πως θα γίνει αυτό, αφού το log πλέον ?πορεί να είναι ηλεκτρονικό και άρα δεν ?πορεί να έχει θεώρηση του ΥΜΕ όπως τα παλιά έντυπα? πως αλλοιώς θα πιστοποιήται η δραστηριότητα του κάθε ενός?

Τι θα γίνει με τις εξετάσεις από τις περιφερειακές υπηρεσίες του Υπουργείου;

Γνωρίζει το Υπουργείο ότι υπάρχουν περιφερειακές Υπηρεσίες του δεν έχουν συνεργασία με τους τοπικούς Συλλόγους, οι οποίες είτε επειδή δεν μπόρεσαν μια φορά να κάνουν σωστές και αδιάβλητες εξετάσεις με αποτέλεσμα να υπάρξουν παρατράγουδα, είτε για να αποφύγουν τη φασαρία ή τις ευθύνες, έχουν καταργήσει ουσιαστικά, με διάφορες προφάσεις και τεχνάσματα τις εξετάσεις; Γνωρίζει ότι οι ενδιαφερόμενοι ξενιτεύονται για να δώσουν εξετάσεις; Ας το ελέγξει το θέμα το Υπουργείο.

Γνωρίζει ότι μας παρουσιάζουν πολλές φορές ουρανοκατέβατους εξεταστές που επιλέγονται με άγνωστα κριτήρια, πέραν των τυπικών τους προσόντων;

Και αυτό κατά την γνώ?η ?ου πρέπει να το προσέχουν και παρακολουθούν οι σύλλογοι

Το παρακάτω είναι χιου?οριστικό για αυτό ?ην το σχολιάσετε ?ε κακία.

Πρέπει να βρούμε τον Άγιό μας.

Προτείνω τον άγιο Τάκη, χωρίς αυτόν δεν θα κουνιόταν τίποτα την τελευταία επταετία και η ΕΕΡ θα κοι?όταν το ύπνο του δικαίου. Προτείνω δε στην είσοδο της ΕΕΡ να του ?άλουν και ένα εικόνισ?α ή και άγαλ?α που τους ταρακούνησε και ξύπνησαν.

Πολλά 73 Τάσος

Από ότι κατάλαβα, ο Τάκης είναι ο SV1AWL.
Ο ίδιος δηλώνει και αντιπρόεδρος της «ΟΜΟΣΠΟΝΔΙΑΣ».
Ορισμένα ερωτήματα, όμως, μου έρχονται στο μυαλό.

1. Αυτή η "ΟΜΟΣΠΟΝΔΙΑ" τι είναι???

2. Ποια είναι τα μέλη της και ποιους εκπροσωπεί??????

3. Το καταστατικό της που είναι κατατεθειμένο?

4. Το καταστατικό της το έχει δει κανένας?

5. Που εδρεύει????

6. Που ήταν τόσα χρόνια???

7. Ποιες οι προτάσεις της σχετικά με τα προβλήματα τα οποία μαστίζουν τον Ελληνικό Ραδιοερασιτεχνισμό??

8. Ποια είναι η συνεισφορά της στον Θεσμό του Ελληνικού Ραδιοερασιτεχνισμού???

9. Γιατί επέλεξε την συγκεκριμένη στιγμή να δώσει σημεία ζωής???

10. Γιατί ο "αντιπρόεδρος" της "ΟΜΟΣΠΟΝΔΙΑΣ" αποπειράθηκε να δώσει συνέντευξη στο ALTER, όντας καπηλευόμενος τη καλή πίστη της Ε.Ε.Ρ., η οποία έστησε σταθμό έξω από την αίθουσα του συνεδρίου??

Απλές απαντήσεις σε αυτά τα ερωτήματα θα μας διαφώτιζαν, νομίζω.

ΑΝΑΜΕΝΟΥΜΕ

Τα άτομα αυτά μπορούν να βγουν σε οποιοδήποτε mode θέλουν, αρκεί να εκπέμπουν πάνω από τα 144 MHz και όχι πάνω από 50 Watts PEP έως τα 1240 MHz και τα 10 Watts πάνω από τα 1240 MHz PEP.

Υπήρξαν κάποια σχόλια που αφορούσαν την τοποθέτηση του SV1SN, την οποία είχα στείλει στο reflector για ενημέρωση όλων. Ο ίδιος ο Δημήτρης δεν είναι μέλος, για την ώρα, του reflector κι έτσι δεν ενημερώθηκε άμεσα για τα σχόλια, τα οποία φυσικά του κοινοποίησα. Εδώ είναι η απάντησή του, την οποία ανέλαβα την υποχρέωση να στείλω. Στο τέλος παραθέτω το email του για όποιον ενδιαφέρεται για περαιτέρω επικοινωνία.

Κωνσταντίνος SV1DPI

Η θέση του συναδέλφου SV1SN, έχει ως εξής:

Κύριε συνάδελφε SV1XV.

Θα σας συνιστούσα να μάθετε να διαβάζετε σωστά, τα Ελληνικά τουλάχιστον. Δεν αρκεί όμως το διάβασμα ενός κειμένου. Χρειάζεται μελέτη και αντίληψη.

Πού το είδατε κύριε συνάδελφε ότι είπα για υποχρεωτική εγγραφή σε Σύλλογο;

Εγώ μίλησα για βεβαίωση ραδιοερασιτεχνικής δραστηριότητας και μόνο. Το ποιος θα την εκδίδει ή πως θα αποδεικνύεται η δραστηριότητα, ας το καθορίσει το Υπουργείο (υπάρχουν χίλιοι τρόποι).

Είδατε κάπου γραμμένο ότι υποστηρίζω την υποχρεωτική εγγραφή σε Σύλλογο;;;

Είπα βέβαια, ότι την υποχρεωτική εγγραφή σε Συλλόγους, την προέβλεπε προγενέστερος Νόμος, ο οποίος, ναι κύριε, έγινε σε εκείνες τις «ανώμαλες» εποχές όπως λέτε, αλλά έγινε!, και έγινε τότε!, τι να κάνουμε. !!

Πρέπει να γνωρίζετε ότι μεταγενέστερα και δη τα τελευταία χρόνια δεν έγινε τίποτε θετικό και το μόνο που έγινε, ήταν να γκρεμισθεί όλο το Νομοθετικό πλαίσιο για τους Ραδ/χνες και θα ισχύουν πλέον οι Υπουργικές αποφάσεις. Δηλαδή θα εξαρτόμαστε από την «εξυπνάδα» και τις «προθέσεις» του εκάστοτε Συμβούλου του εκάστοτε Υπουργού.

Αλήθεια μήπως σας βολεύει η κατάσταση αυτή;

(Χειροκροτήσατε μήπως με την κατάργηση των Morse; χειροκροτήσατε με την κατάργηση του Ποινικού Μητρώου; του απολυτηρίου Γυμνασίου; Του ορίου ηλικίας κ.λ.π.;)

Εγώ κύριε είχα το θάρρος να ανεβώ στο βήμα και στα δύο τα Συνέδρια και να πω αυτά που πιστεύω ότι εξυπηρετούν και εξυγιαίνουν το χόμπι.

Οι δικές σας προτάσεις ποιες είναι; Βρεθήκατε στο Συνέδριο; Πήρατε το λόγο; Αν ναι, τι είπατε; Ή μήπως αρκείσθε να παίζετε e-mailοπόλεμο κρυμμένος πίσω από κάποια οθόνη;

Οι προτάσεις μου και οι εν γένει ενέργειές μου μέχρι τώρα αποβλέπουν στο νοικοκύρεμα του χόμπι. Σε όσους δεν αρέσει αυτό το συμμάζεμα και θέλουν την αναρχία, υπάρχει και γι' αυτούς «χώρος».

Πάντως εσείς κύριε φροντίστε να είστε με την «μόδα», μη τύχει και σας πουν «οπισθοδρομικό».

Όσο αφορά την ευαισθησία που μου συστήνετε, θα σας συνιστούσα εγώ με τη σειρά μου να πληροφορηθείτε ποια ήταν και είναι η συμμετοχή μου στην Κοινωνία και πως αντιμετώπισα ιδιωτικά και επαγγελματικά τα ατομικά και πολιτικά δικαιώματα των πολιτών. Τα μαθήματα Δημοκρατίας σε άλλους, εκεί που σας παίρνει, όχι σε εμένα.

Ελπίζω ότι δεν θα χρειασθεί να επανέλθω.

Πολλά 73

sv1sn@...

Δημήτρης Παπαδιώτης

όχι, αυτό ακριβώς...επειδή στον νόμο δεν διευκρινέζεται κάτι γιατί
το είχα ρωτήσει κατα την διάρκεια των τελευταίων εξετάσεων που
έγιναν πριν λίγο καιρό και δεν υπάρχει κάτι σχετικό μέσα στο ΦΕΚ.
’ρα "υποθέτουμε" οτι βγαίνουν κανονικά έτσι ;

Κατανοητό παιδιά...ευχαριστώ για την διευκρίνηση...δεν είχα δει
τίποτα στο ΦΕΚ και ο υπάλληλος του υπουργείου που είχα ρωτήσει
επίσης δεν το γνώριζε να μου απαντήσει.

Ευχαριστώ και παλι,

Λίγα νέα σήμερα, γιατί απλά δεν υπάρχουν πολλά. Δυστυχώς η διάδοση
έχει πέσει και δεν βοηθάει. Αισιοδοξία... Θα έρθουν καλύτερες μέρες.
Σκέψου να είχες SW διακριτικό και να παίζεις μόνο στα 2 μέτρα...
Μιας και το ανέφερα μη ξεχνάτε να το λέτε όλο το διακριτικό τώρα.
Όχι δηλαδή dpi αλλά sv1dpi. Πάντως σκέφτεστε να υπήρχε γιατρός που να
σε εξετάζει αν είχες μέχρι 38 πυρετό κι άλλος καλύτερος αν τυχόν
είχες παραπάνω....Θα τρελλαθούμε τελείως. Το αστείο είναι ότι έχω το
ίδιο "πρόβλημα" και στο επάγγελμά μου, αφού αναγκάζομαι να λέω τη
λέξη Διπλωματούχος για να με ξεχωρίζουν από τον Πτυχιούχο, αφού
έχουμε διαφορετικά επαγγελματικά διακιώματα...
Το χειρότερο πάντως είναι ότι δεν γίνονται μόνο στην Ελλάδα...

Κωνσταντίνος...για τους φίλους, ενώ για όλο τον υπόλοιπο κόσμο SV1DPI

ΥΓ. Κάτι έγινε με τον άνθρωπο για τα νησάκια. Περισσότερα προσεχώς αν
και πάντα υπάρχει η ανάγκη για βοήθεια. Έχω κι άλλα πράγματα στο μυαλό
μου. Ας οργανωθούμε...

****
* ΤΑ ΝΕΑ ΜΑΣ *
****

==
Τι έγινε την εβδομάδα που μας πέρασε...
==

=> Πάνω απ' όλα ήταν το hamfest, τουλάχιστον για τους περισσότερους, το γεγονός της εβδομάδας που μας πέρασε. Κατεδαφίσεις, συναντήσεις φίλων που χρόνια είχαν να δει ο ένας τον άλλον, αγορές και ότι άλλο μπορεί να φανταστεί κάποιος. Το Σεπτέμβριο στη Θεσαλλονίκη τώρα...

=> Στις παράπλευρες εκδηλώσεις βέβαια ήταν το συνέδριο που οργάνωσε το υπουργείο, χωρίς τη συμμετοχή του Υπουργού και του Υφυπουργού, βέβαια. Προσωπικά πιστεύω πως τα συνέδρια αυτά είναι μεγάλη κοροϊδία και αρνούμαι τη συμμετοχή μου. Μετά το προηγούμενο συνέδριο και τις αποφάσεις του, δεν έγινε ούτε το αυτονόητο: να μας δώσουν τους αναμεταδότες που μόνοι τους και αυτοβούλως μας υποσχέθηκαν. Στο δεύτερο συνέδριο έγινε το αναμενόμενο: διπλασίασαν την προσφορά που ποτέ δεν έκαναν στο προηγούμενο, και ποτέ δεν θα κάνουν φυσικά, εκτός κι αν βρουν κάνα τρόπο μέσα από την προμήθεια των αναμεταδοτών, να χορτάσουν την πεινασμένη κοιλιά τους...
Και φυσικά η αντιμετώπιση απέναντι στα όσα άκουσαν εκεί, θα είναι αυτή που έτυχαν και οι απόψεις όσων συμμετείχαν στο δημόσιο διάλογο που οργάνωσαν για την υπουργική απόφαση. Δεν έλαβαν δηλαδή υπόψιν τους καμία άποψη. Μόνο η ΕΕΡ ήταν ευχαριστημένη απ' ότι άκουσα (είναι αλήθεια; αν και μου το είπαν παραπάνω από ένας) κι ευχαρίστησε το υπουργείο για το συνέδριο
(προφανώς θα τους άρεσαν οι τσάντες που μοίρασαν). Στο μόνο που είχαν δίκιο είναι όταν μας ρώτησαν: γιατί δε διοργανώνετε εσείς ένα συνέδριο;
Αλλά να μην έρθει ο Υπουργός ούτε να μας δει...Το τραμ δοκίμαζε άραγε;
Αυτό είναι το επίπεδό μας φαίνεται...του Γενικού Γραμματέα...
Φτου! Κοροϊδία...απ' όλους. Ευτυχώς που δεν ήμουν εκεί...

=> Στα DX είχαμε κυρίως κακά νέα τις μέρες που πέρασαν από την προηγούμενη επαφή μας. Θυμάστε κάθε πρωί τώρα τελευταία που ακούγαμε μια κυρία από τα South Cook, τη ZK1AYL? Η June είχε πάει εκεί μαζί με τον άντρα της, τον Doug Sim, VK4BP (ZK1SIM). Αυτός δυστυχώς δεν έκανε dx όλη μέρα σαν τη γυναίκα του, αλλά έτρεχε για μικρούλες με το μηχανάκι του. Κάποια μέρα δεν πρόσεξε και πάρτον κάτω τον κύριο. Έγινε SK (Silent Key) χωρίς να το καταλάβει. Έτσι η γλυκιά June, που η σκέψη μας είναι στο πλάι της, αντί για κεραίες ανάμεσα στου φοίνικες, θα βάλει τον άντρα της στην κάρτα...

=> Κατά τ' άλλα φυσικά πέρασε και το cw wpx contest, που φαίνεται να είχε καλύτερη διάδοση από ότι είχαμε τα τελευταία Σαββατοκύριακα ή τουλάχιστον είχαν μεγαλύτερους ενισχυτές οι συμμετέχοντες. Όσοι δούλεψαν σταθμούς θα βρουν στη διεύθυνση του Ισπανού (βλέπε ιντερνέτ νέα) πολλές qsl πληροφορίες.

=> Τέλος είχαμε το Τιμόρ. Δεν έχουμε περισσότερα νέα από αυτά που αναφέραμε την προηγούμενη εβδομάδα. Ακόμα κάποιος είναι εκεί. Αν τον ακούσετε μη τον αφήσετε να πάει χαμένος. Συνήθως σκοτώνει... με το σήμα του βέβαια.

=> Το LOTW (Logbook Of The World), το παγκόσμιο logbook δηλαδή, που προωθεί η ARRL, δεν τα πήγε πολύ καλά, αφού δεν μπορούσε να δει τα περισσότερα ψηφιακά mode, και ήδη κυκλοφόρησε η πρώτη αναβάθμιση.
Εγώ πάντως δεν μπόρεσα να κάνω upload το logbook μου, αν και προσπάθησα πάνω από 3 ώρες (με την 1η έκδοση όχι με την καινούρια), αφού μου έβγαζε

συνέχεια λάθη στα ψηφιακά, ενώ κάθε φορά ήθελα πάνω από 20 λεπτά για να ανεβάσω ένα τεράστιο αρχείο που έφτιαχνε, για να μου πει στο τέλος ότι έχω λάθος, επειδή είχα την ατυχία να έχω κάνει qso στο psk ή στο mfsk.

==
...Και τι θα γίνει τις μέρες που έρχονται
==

=> Στη Νικαράγουα έχουν παέι οι Michael/AB5EB, Mike/AD5A καιJake/KB5SKN. Θα είναι εκεί μέχρι τις 2 Ιούνη με το διακριτικό H74C από το Little Corn Island (NA-013). Θα είναι active από τα 80 ως τα 6 μέτρα, αφού έχουν μια κάθετη, δίπολα και μια beam για τα 6 μέτρα. Κάνουν μεγάλα pileup χωρίς μεγάλη ικανότητα από τους χειριστές. Υπομονή λοιπόν και για την QSL via N6AWD

=> Ο Jim βρίσκεται λογικά ήδη στην Κρήτη και με το διακριτικό SV9/SM2EKM, θα σκίσει τους αιθέρες από την Αγία Μαρίνα μέχρι τις 12 Ιουνίου. Ο Jim σχεδιάζει κυρίως να πάιξει CW κι ελπίζει να συντονίσει την κεραία σ' όλες τις μπάντες ώστε να βγει παντού. QSL via SM2EKM και επειδή σ' αυτόν δεν κοστίζει πολλά είναι OK via Bureau και όποιος επιθυμεί μπορεί μάλιστα να ζητήσει την κάρτα του μέσω μπυρό χωρίς να στείλει τη δικιά του, στο e-mail: sm2ekm@...

=> Παρ΄ολο το σεισμό που έγινε στην Αλγερία, η βόλτα που είχαν σκοπό να κάνουν οι OM3CGN, Ivan , 7X2RO, Afif και τρεις ακόμη operators, προκειμένου να προσπαθήσουν να μας χαρίσουν ένα καινούριο IOTA, δεν αναβλήθηκε. Ψάξτε λοιπόν για το Habbibas Island και το διακριτικό 7W4HI από τις 2 Ιουνίου ως τις 5. Αν δεν τους πλακώσουν τίποτα χαλάσματα θα είναι εκεί.
Μιας και ο λόγος για το σεισμό, τον οποίο στα Ελληνικά μέσα ενημέρωσης, τον έφαγαν οι ντομάτες, είχαμε θύματα κι ανάμεσα στη ραδιοερασιτεχνική κοινότητα, αφού οι κόρες των 7X2DW και 7X2DS, έχασαν τη ζωή τους.

=> Η ζωή εκτός από δυο πόρτες έχει και δυο Πέτρους....
Ο πρώτος είναι ο HK3JJH, Pedro, και αναμένεται να πάει στο IOTA SA-082, από τις 31 Μάη μέχρι τις 2 Ιουνίου. Θα βγει παντού ως συνήθως μόνο SSB.
Αν θέλετε κάρτα μόνο direct και βιαστείτε γιατί είναι μεγάλος από ηλικία...
Η διεύθυνσή του Pedro J. Allina, P.O. Box 81119, Bogota, COLOMBIA.
Αααα.. θέλει και $2.00 , δεν του φτάνει ένα...
Ο άλλος είναι ο δικός μας ο Πέτρος SV3FUO, από την Πάτρα. Ο φίλος Πέτρος λοιπόν θα πάει στη Σκόπελο (EU-072) από τις 1-10 Ιουλίου και θα εκπέμψει από τα 80M ως τα 6M σε SSB, RTTY, PSK31. QSL VIA SV3FUO ... ενώ υπάρχει και ιστοσελίδα στη http://www.qsl.net/sv3fuo/sy8fuo.html

=> Από το AZERBAIJAN θα εκπέμπει ο Rich και με το διακριτικό 4K7Z/F8LPX, μέχρι τέλος Ιουνίου. QSL via F8LPX, bureau ok.

Λίγα νέα σήμερα, γιατί απλά δεν υπάρχουν πολλά. Δυστυχώς η διάδοση
έχει πέσει και δεν βοηθάει. Αισιοδοξία... Θα έρθουν καλύτερες μέρες.
Σκέψου να είχες SW διακριτικό και να παίζεις μόνο στα 2 μέτρα...
Μιας και το ανέφερα μη ξεχνάτε να το λέτε όλο το διακριτικό τώρα.
Όχι δηλαδή dpi αλλά sv1dpi. Πάντως σκέφτεστε να υπήρχε γιατρός που να
σε εξετάζει αν είχες μέχρι 38 πυρετό κι άλλος καλύτερος αν τυχόν
είχες παραπάνω....Θα τρελλαθούμε τελείως. Το αστείο είναι ότι έχω το
ίδιο "πρόβλημα" και στο επάγγελμά μου, αφού αναγκάζομαι να λέω τη
λέξη Διπλωματούχος για να με ξεχωρίζουν από τον Πτυχιούχο, αφού
έχουμε διαφορετικά επαγγελματικά διακιώματα...
Το χειρότερο πάντως είναι ότι δεν γίνονται μόνο στην Ελλάδα...

Κωνσταντίνος...για τους φίλους, ενώ για όλο τον υπόλοιπο κόσμο SV1DPI

ΥΓ. Κάτι έγινε με τον άνθρωπο για τα νησάκια. Περισσότερα προσεχώς αν
και πάντα υπάρχει η ανάγκη για βοήθεια. Έχω κι άλλα πράγματα στο μυαλό
μου. Ας οργανωθούμε...

****
* ΤΑ ΝΕΑ ΜΑΣ *
****

==
Τι έγινε την εβδομάδα που μας πέρασε...
==

=> Πάνω απ' όλα ήταν το hamfest, τουλάχιστον για τους περισσότερους, το γεγονός της εβδομάδας που μας πέρασε. Κατεδαφίσεις, συναντήσεις φίλων που χρόνια είχαν να δει ο ένας τον άλλον, αγορές και ότι άλλο μπορεί να φανταστεί κάποιος. Το Σεπτέμβριο στη Θεσαλλονίκη τώρα...

=> Στις παράπλευρες εκδηλώσεις βέβαια ήταν το συνέδριο που οργάνωσε το υπουργείο, χωρίς τη συμμετοχή του Υπουργού και του Υφυπουργού, βέβαια. Προσωπικά πιστεύω πως τα συνέδρια αυτά είναι μεγάλη κοροϊδία και αρνούμαι τη συμμετοχή μου. Μετά το προηγούμενο συνέδριο και τις αποφάσεις του, δεν έγινε ούτε το αυτονόητο: να μας δώσουν τους αναμεταδότες που μόνοι τους και αυτοβούλως μας υποσχέθηκαν. Στο δεύτερο συνέδριο έγινε το αναμενόμενο: διπλασίασαν την προσφορά που ποτέ δεν έκαναν στο προηγούμενο, και ποτέ δεν θα κάνουν φυσικά, εκτός κι αν βρουν κάνα τρόπο μέσα από την προμήθεια των αναμεταδοτών, να χορτάσουν την πεινασμένη κοιλιά τους...
Και φυσικά η αντιμετώπιση απέναντι στα όσα άκουσαν εκεί, θα είναι αυτή που έτυχαν και οι απόψεις όσων συμμετείχαν στο δημόσιο διάλογο που οργάνωσαν για την υπουργική απόφαση. Δεν έλαβαν δηλαδή υπόψιν τους καμία άποψη. Μόνο η ΕΕΡ ήταν ευχαριστημένη απ' ότι άκουσα (είναι αλήθεια; αν και μου το είπαν παραπάνω από ένας) κι ευχαρίστησε το υπουργείο για το συνέδριο (προφανώς θα τους άρεσαν οι τσάντες που μοίρασαν). Στο μόνο που είχαν δίκιο είναι όταν μας ρώτησαν: γιατί δε διοργανώνετε εσείς ένα συνέδριο;
Αλλά να μην έρθει ο Υπουργός ούτε να μας δει...Το τραμ δοκίμαζε άραγε;
Αυτό είναι το επίπεδό μας φαίνεται...του Γενικού Γραμματέα...
Φτου! Κοροϊδία...απ' όλους. Ευτυχώς που δεν ήμουν εκεί...

=> Στα DX είχαμε κυρίως κακά νέα τις μέρες που πέρασαν από την προηγούμενη επαφή μας. Θυμάστε κάθε πρωί τώρα τελευταία που ακούγαμε μια κυρία από τα South Cook, τη ZK1AYL? Η June είχε πάει εκεί μαζί με τον άντρα της, τον Doug Sim, VK4BP (ZK1SIM). Αυτός δυστυχώς δεν έκανε dx όλη μέρα σαν τη γυναίκα του, αλλά έτρεχε για μικρούλες με το μηχανάκι του. Κάποια μέρα δεν πρόσεξε και πάρτον κάτω τον κύριο. Έγινε SK (Silent Key) χωρίς να το καταλάβει. Έτσι η γλυκιά June, που η σκέψη μας είναι στο πλάι της, αντί για κεραίες ανάμεσα στου φοίνικες, θα βάλει τον άντρα της στην κάρτα...

=> Κατά τ' άλλα φυσικά πέρασε και το cw wpx contest, που φαίνεται να είχε καλύτερη διάδοση από ότι είχαμε τα τελευταία Σαββατοκύριακα ή τουλάχιστον είχαν μεγαλύτερους ενισχυτές οι συμμετέχοντες. Όσοι δούλεψαν σταθμούς θα βρουν στη διεύθυνση του Ισπανού (βλέπε ιντερνέτ νέα) πολλές qsl πληροφορίες.

=> Τέλος είχαμε το Τιμόρ. Δεν έχουμε περισσότερα νέα από αυτά που αναφέραμε την προηγούμενη εβδομάδα. Ακόμα κάποιος είναι εκεί. Αν τον ακούσετε μη τον αφήσετε να πάει χαμένος. Συνήθως σκοτώνει... με το σήμα του βέβαια.

=> Το LOTW (Logbook Of The World), το παγκόσμιο logbook δηλαδή, που προωθεί η ARRL, δεν τα πήγε πολύ καλά, αφού δεν μπορούσε να δει τα περισσότερα ψηφιακά mode, και ήδη κυκλοφόρησε η πρώτη αναβάθμιση.
Εγώ πάντως δεν μπόρεσα να κάνω upload το logbook μου, αν και προσπάθησα πάνω από 3 ώρες (με την 1η έκδοση όχι με την καινούρια), αφού μου έβγαζε

συνέχεια λάθη στα ψηφιακά, ενώ κάθε φορά ήθελα πάνω από 20 λεπτά για να ανεβάσω ένα τεράστιο αρχείο που έφτιαχνε, για να μου πει στο τέλος ότι έχω λάθος, επειδή είχα την ατυχία να έχω κάνει qso στο psk ή στο mfsk.

==
...Και τι θα γίνει τις μέρες που έρχονται
==

=> Στη Νικαράγουα έχουν παέι οι Michael/AB5EB, Mike/AD5A καιJake/KB5SKN. Θα είναι εκεί μέχρι τις 2 Ιούνη με το διακριτικό H74C από το Little Corn Island (NA-013). Θα είναι active από τα 80 ως τα 6 μέτρα, αφού έχουν μια κάθετη, δίπολα και μια beam για τα 6 μέτρα. Κάνουν μεγάλα pileup χωρίς μεγάλη ικανότητα από τους χειριστές. Υπομονή λοιπόν και για την QSL via N6AWD

=> O Jim βρίσκεται λογικά ήδη στην Κρήτη και με το διακριτικό SV9/SM2EKM, θα σκίσει τους αιθέρες από την Αγία Μαρίνα μέχρι τις 12 Ιουνίου. O Jim σχεδιάζει κυρίως να πάιξει CW κι ελπίζει να συντονίσει την κεραία σ' όλες τις μπάντες ώστε να βγει παντού. QSL via SM2EKM και επειδή σ' αυτόν δεν κοστίζει πολλά είναι OK via Bureau και όποιος επιθυμεί μπορεί μάλιστα να ζητήσει την κάρτα του μέσω μπυρό χωρίς να στείλει τη δικιά του, στο e-mail: sm2ekm@...

=> Παρ΄ολο το σεισμό που έγινε στην Αλγερία, η βόλτα που είχαν σκοπό να κάνουν οι OM3CGN, Ivan , 7X2RO, Afif και τρεις ακόμη operators, προκειμένου να προσπαθήσουν να μας χαρίσουν ένα καινούριο IOTA, δεν αναβλήθηκε. Ψάξτε λοιπόν για το Habbibas Island και το διακριτικό 7W4HI από τις 2 Ιουνίου ως τις 5. Αν δεν τους πλακώσουν τίποτα χαλάσματα θα είναι εκεί. Μιας και ο λόγος για το σεισμό, τον οποίο στα Ελληνικά μέσα ενημέρωσης, τον έφαγαν οι ντομάτες, είχαμε θύματα κι ανάμεσα στη ραδιοερασιτεχνική κοινότητα, αφού οι κόρες των 7X2DW και 7X2DS, έχασαν τη ζωή τους.

=> Η ζωή εκτός από δυο πόρτες έχει και δυο Πέτρους....
Ο πρώτος είναι ο HK3JJH, Pedro, και αναμένεται να πάει στο IOTA SA-082, από τις 31 Μάη μέχρι τις 2 Ιουνίου. Θα βγει παντού ως συνήθως μόνο SSB. Αν θέλετε κάρτα μόνο direct και βιαστείτε γιατί είναι μεγάλος από ηλικία...
Η διεύθυνσή του Pedro J. Allina, P.O. Box 81119, Bogota, COLOMBIA.
Ααα.. θέλει και $2.00 , δεν του φτάνει ένα...
Ο άλλος είναι ο δικός μας ο Πέτρος SV3FUO, από την Πάτρα. Ο φίλος Πέτρος λοιπόν θα πάει στη Σκόπελο (EU-072) από τις 1-10 Ιουλίου και θα εκπέμψει από τα 80M ως τα 6M σε SSB, RTTY, PSK31. QSL VIA SV3FUO ... ενώ υπάρχει και ιστοσελίδα στη http://www.qsl.net/sv3fuo/sy8fuo.html

=> Από το AZERBAIJAN θα εκπέμπει ο Rich και με το διακριτικό 4K7Z/F8LPX, μέχρι τέλος Ιουνίου. QSL via F8LPX, bureau ok.

Aoooo??o oi Ueiooa ia oa aooeU iio a?u oi oouia oio.

Απο το κείμενο κατά την γνώμη μου όχι άμεσα αλλά έμμεσα το υποστηρίζει ή το επικροτεί.

Το θέμα των κοινοτικών οδηγιών είναι άστοχο κατά την γνώμη μου και δεν έχει καμία σχέση με το θέμα ούτε τις εγγραφής σε σύλλογο ούτε με κάποια ραδιοερασιτεχνική δραστηριότητα

Αυτό που έχει ενδιαφέρον να ακουστούν προτάσεις για το πως μπορεί να ελεγχθεί σήμερα ή πως γινόταν (αν γινόταν αυτό) στο παρελθόν δηλαδή να πιστοποιείται η ραδιοερασιτεχνική δραστηριότητα.

Για την ιστορία ο νόμος αυτός καταργήθηκε μετά απο προσφυγή του μακαρίτη τώρα SV1SR που είχε διαγραφεί από την ΕΕΡ και έχασε την άδειά του και δεν έχει καμία σχέση με Ευρώπη. Υπήρχε ήδη το προηγούμενο σε άλλους κυρίως

κυνηγετικούς συλόγους.

Δεν καταλαβαίνω τι σχέση έχουν όλα αυτά, υπήρχε και υπάρχει ακόμα η άποψη (φυσικά μόνο στην χώρα μας υπήρχαν όλα αυτά) ότι βάζοντας διάφορα τυπικά εμπόδια, όχι ουσίας, κρατάς το επίπεδο και τον έλεγχο καλύτερα, έχει όμως συμβεί αυτό πραγματικά? Πιστεύουμε πραγματικά ότι το επίπεδο μέχρι τώρα, που ίσχυαν αυτοί οι κανονισμοί, ήταν καλύτερο από άλλες χώρες που δεν τα έχουν?

Προσωπικά δεν το νομίζω, απλά υπάρχει ένας έμφυτος φόβος (κατανοητός φυσικά) για ότι το ξαφνικό, το πληθωρικό και το "καινούργιο".

Δεν θα υπήρχε αν σαν ραδιοερασιτεχνική κοινωνία ήμασταν ενωμένοι και ελέγχαμε το ΥΜΕ και τις εξετάσεις στο κατά πόσον είναι σωστές και όχι τυπικές. Ούτε βοηθιέται το χόμπυ με το να εναποθέτουμε τις ελπίδες μας ότι με τα Morse ή το όριο ηλικίας θα μείνουν έξω οι κακοί.

Αυτό που έχει σημασία (πάντα κατ εμέ) είναι να ελέγχονται οι υποψήφιοι αν ξέρουν πραγματικά ραδιοθεωρία και κανονισμούς τηλεπικοιινωνιών και στοιχειώδη ηλετρονικά για να εξασκήσουν σωστά και νόμιμα το χόμπυ τους.

Εδώ αγαπητέ Δημήτρη, θα μου επιτρέψεις να πω και εγώ τον πόνο μου για την ομιλία σου αλλά και το εν γένει κλίμα του συνεδρίου.

Είναι πολύ εύκολο να βρίσκουμε ότι κάποιος άλλος φταίει όπως το ΥΜΕ, οι κομήτες που μπαίνουν στο χόμπυ, η ΕΕΤΤ κλπ κλπ. Σίγουρα όλοι έχουν την ευθύνη τους, αλλά το θέμα είναι εμείς τι κάναμε σαν ραδιοερασιτέχνες αλλά και εσείς σαν ραδιοερασιτεχνικοί σύλλογοι. Είμαστε και Είστε διασπασμένοι σε ένα καθεστώς ή με την Ομοσπονδία ή με την ΕΕΡ ή ανεξάρτητοι ίσως, και μαζευτήκατε 2 φορές τελευταία (στην ΕΕΡ και στην Λάρισα) για να διαπιστώσετε ότι διαφωνείτε χωρίς κανένα ουσιαστικό αποτέλεσμα.

Από τα σχόλια που άκουσα για τις ομιλίες του συνεδρίου αλλά και τις 2 δημοσιευμένες εδώ, αν εξαιρεθεί η ομιλία των Πατρινών, κανείς άλλος δεν έκανε καμία προσπάθεια για να υπάρξει μία συλλογική ομαλοποίηση και ένα ενιαίο ραδιοερασιτεχνικό όργανο-σχήμα απέναντι στο ΥΜΕ.

Μήπως θα πρέπει ειδικά εσείς οι σύλλογοι να στραφείτε προς αυτήν την κατεύθυνση και αφού λυθεί αυτό, να δούμε τα σφάλματα των νόμων των υπουργείων κλπ κλπ?

Εγώ δεν είμαι σε κανένα ΔΣ αλλά από την περιορισμένη μου ενασχόληση με το χόμπυ, έχω παρατηρήσει εκατοντάδες προβλήματα από αυτή την κατάσταση, (ήδη σε αυτή την λίστα έχουν ακουστεί πολλά σχετικά όπως παράδειγμα για τους λόγους που ξέπεσε το Packet Radio στην χώρα μας) εσείς οι πρόεδροι, ή οι ευρισκόμενοι στα ΔΣ στους συλλόγους δεν τα βλέπετε άραγε και τι κάνετε για αυτό?

Ποία είναι η θέση του συλλόγου σας για τις προτάσεις του SV3AQN? Ποίες είναι οι αντιπροτάσεις σας αν έχετε? πως θα ξεφύγει το χόμπυ μας από την κακομοιριά, αν οι σύλλογοι δεν μονιάσουν και βρουν ένα κοινό σημείο αναφοράς και εκπροσώπησης?

Τέλος καλό είναι να βούμε τον Αγιο μας όπως τόνισες μπας και μας φωτίσει να ενωθούμε, αλλά συν Αθηνά και χείρα κίνει έλεγαν οι παππούδες μας και σήμερα μάλλον πρέπει να το κάνουμε αν θέλουμε το χόμπυ μας να έχει μέλλον..

Πολλά 73 Τάσος

Ο Κύριος χειροκροτητής του Υπουργείου (όπως παραδέχεται) και οπαδός
της ισοπέδωσης,
αν ενοχλήθηκε και από άλλα σημεία της ομιλίας μου στο Συνέδριο και
μέσα στη σύγχυσή του άκουσε άλλα από αυτά που είπα (διαβάζοντας), που
είναι γραμμένα και στο Ρεφλέκτορα, τότε χρειάζεται και ΩΡΛ.
Πρέπει να καταλάβει ότι ο οποιοσδήποτε έχει το δικαίωμα να πει αυτό
που πιστεύει (όπως έπραξα εγώ) και ότι επίσης ο οποιοσδήποτε, έχει το
δικαίωμα να κριτικάρει τα λεχθέντα, όχι όμως υποτιμητικά και
υβριστικά (όπως έπραξε ο κύριος).
Όμως, αν είχα από την αρχή τις πληροφορίες που πήρα από πολλούς
συναδέλφους που μου τηλεφώνησαν, για τις «συνήθειές» του στο
Ρεφλέκτορα, δεν θα έδινα σημασία στα γραφόμενά του. Δυστυχώς όμως τα
πληροφορήθηκα αργά.
Η «ασθένειά» του να ασχολείται μονίμως με όλους και με όλα (όπως στη
δική μου περίπτωση που ενήργησε κακόπιστα και υβριστικά), δεν
πρόκειται να επηρεάσει την ηρεμία μου.
Γι☐ αυτό, από εμένα τέρμα. Ας γράφει ότι θέλει. Ευτυχώς τα διαβάζουν
μόνο αυτοί που τον ξέρουν.

Φίλε Τάσο, SV1RD.
Σε απάντηση του ερωτήματός σου για τις απόψεις μου σε σχέση με τις προτάσεις του φίλου μου SV3AQN, σου γνωρίζω τα εξής:
α) Δεν αναφέρθηκα στο συνέδριο για το θέμα της Ομοσπονδίας, γιατί νομίζω ότι δεν ήταν της στιγμής, όπως παρατήρησε και Ο Γεν. Γραμματέας.
β) Ο Σύλλογος στον οποίο Προεδρεύω, είναι γραμμένος σε ομοσπονδία, πράγμα που μαρτυρεί το "πιστεύω" μας.
γ) Για το πως πρέπει να μεθοδευθεί και οργανωθεί τελικά το θέμα της Ομοσπονδίας, είπα την γνώμη μου και έκανα συγκεκριμένες προτάσεις στον Πρόεδρο της Ε.Ε.Ρ. (SV1TN) σε γενομένη συζήτηση έξω από την αίθουσα, πρίν αρχίσει το Συνέδριο και σε παρακαλώ να τον ρωτήσεις να σου τα 'πεί ο ίδιος.(Επιμένω να τον ρωτήσεις).
Αυτά από εμένα και δεν θα επανέλθω στο θέμα αυτό κατ' ουδένα τρόπο.
Για τα υπόλοιπα έχει δοθεί απάντηση εκεί που έπρεπε να δοθεί.Ούτε σ' αυτά θα επανέλθω.

To: thegreekhamradio@yahoogroups.com
Subject: [The Greek Ham Radio] Απάντηση στον SV1RD

Φίλε Τάσο, SV1RD.
Σε απάντηση του ερωτήματός σου για τις απόψεις μου σε σχέση με τις
προτάσεις του φίλου μου SV3AQN, σου γνωρίζω τα εξής:
α) Δεν αναφέρθηκα στο συνέδριο για το θέμα της Ομοσπονδίας, γιατί
νομίζω ότι δεν ήταν της στιγμής, όπως παρατήρησε και Ο Γεν.
Γραμματέας.
β) Ο Σύλλογος στον οποίο Προεδρεύω, είναι γραμμένος σε ομοσπονδία,
πράγμα που μαρτυρεί το "πιστεύω" μας.
γ) Για το πως πρέπει να μεθοδευθεί και οργανωθεί τελικά το θέμα της
Ομοσπονδίας, είπα την γνώμη μου και έκανα συγκεκριμένες προτάσεις
στον Πρόεδρο της Ε.Ε.Ρ. (SV1TN) σε γενομένη συζήτηση έξω από την
αίθουσα, πρίν αρχίσει το Συνέδριο και σε παρακαλώ να τον ρωτήσεις να
σου τα 'πεί ο ίδιος.(Επιμένω να τον ρωτήσεις).
Αυτά από εμένα και δεν θα επανέλθω στο θέμα αυτό κατ' ουδένα τρόπο.
Για τα υπόλοιπα έχει δοθεί απάντηση εκεί που έπρεπε να δοθεί.Ούτε σ'
αυτά θα επανέλθω.
73 DE SV1SN

Δημήτρη ακόμα και αν δεν επανέλθεις όπως λές, η απάντηση έχει σημασία και
ελπίζω να την λάβεις
Ένα από τα προβλήματα του ελληνικού ραδιοερασιτεχνισμού είναι οι πολλές
συζητήσεις, χωρίς επίσημο αντίκρισμα.

Το τι είπατε με τον SV1TN ή με τον οποιοδήποτε Δημήτρη, δεν έχει καμία
σημασία για κανένα. Αυτό που έχει σημασία είναι αν έχουν γίνει γραπτές
προτάσεις, που χρήζουν γραπτής απάντησης. Όσο ποιο πολλοί δε την έχουν λάβει
τόσο πιο επίσημη είναι.
Γιατί δεν γράφεται τις προτάσεις σας εδώ, ή στείλτε τις στην ΕΕΡ και
ζητήστε να δημοσιευτούν στο περιοδικό?

Κατά την γνώμη μου ότι άλλο λέγεται προφορικά για το συλλογικό μας πρόβλημα,
όσο σοβαρό και να είναι δεν ωφελεί σε τίποτα παρά στο να διαιωνίζεται η
υπάρχουσα θολή κατάσταση.

Πολλά 73 Τάσος

Χμ, ναι δεν λέω...αλλά να "αντέχει" και η κεραία που έχεις. Εγώ με
την CP-6, μέχρι τα 200 (ούτε km/h να ήταν) μπορώ να πάω.

Κάποια στιγμή, θα πρέπει να γίνει αλλαγή με μια cushcraft που σαφώς
και σηκώνουν περισσότερο "φορτίο".

Υ.Γ Αν και είμαι "κατά" του φορτίου και περισσότερο υπέρ της ΚΕΡΑΙΑΣ.

5T - Frank, DL8YHR (http://www.dl8yhr.de) will be active as
5T5M from
Mauritania from 29 June to 7 July. He plans to
concentrate on 6
metres (50130 kHz). [TNX La Gazette du DX]
9A - Eugene 9A/RZ3EC, Sergey 9A/UA3NAN and Emir 9A6AA (9A0CI)
plan to
operate from Karantunic (IOCA CI-421), Kosara (EU-170,
CI-043),
Babac (EU-170, CI-005), Mrtovnjak (EU-170, CI-195), Ravan
(CI-422),
Blitvenica (CI-156) and possibly other Croatian
islands and
lighthouses on 12-19 July. Further details are
available at
http://www.inet.hr/9a6aa [TNX 9A6AA]
CT - Look for CT1GFK/P, CT1GPQ/P and CT2IHP/P to be active (on
80, 40,
20, 15 metres SSB, CW and RTTY, with some 30, 17, 12
and 10m
operation) from Culatra Island (EU-145, DIP AL-01) on 20-
22 June.
QSL via home calls. direct or bureau. [TNX CT1END]
CU - Lars, SM3CVM plans to be active as CU2/SM3CVM/P from
Sao Miguel
(EU-003), Azores from 24 June to 6 July. He will operate
on 80-10
metres CW mostly in his late evening hours. QSL via
home call,
either direct or through the bureau. [TNX SM3CVM]
F - Look for Sebastien, F8DQZ/p to be active on 40, 20, 17,
15 and 12
metres from Ouessant Island (EU-065, DIFM AT-001) ob 28-
29 June.
[TNX La Gazette du DX]
F - Bill, ON9CGB reports he will single operate in the IOTA
Contest as
F/G0MEU/p from Sein Island (EU-068), while the rest of
the team
[425DXN 613] will use TM3ON. QSL for both via ON4ON.
FH - Martial, F5SIE will be active as FH/F5SIE from Mayotte (AF-
027, DIFO
FH-001) on 1-15 July. He will operate on 40, 17 and 15
metres CW
only with 50 watts into dipoles. QSL bureau. [TNX F5NQL]
FH - John, G4IRN will be active as FH/G4IRN from Mayotte
on 16-23

September. He will operate mainly CW on 10-40 metres and
will run
100 watts into a vertical antenna. QSL via home call. [TNX
G4IRN]
G - Amateur radio operators at the National
Space Centre
(http://www.g3stg.btinternet.co.uk/) in Leicester will
activate the
GB2NSC station on the HF bands for the first time on
22 June
(between 10 and 17 local time). While normally GB2NSC is
used to
demonstrate Amateur Satellite communications to
visitors, this
special activation will mark an important space
exploration
anniversary: forty years ago Russian cosmonaut Valentina
Tereshkova,
travelling in Vostok 6, became the first woman to orbit
earth. QSL
via G8ATE. [TNX F5NQL]
G - Look for GB2BLE to be aired from Lundy Island (EU-120) from
28 June
through 5 July. Further information is
available at
http://www.draxium.com/gb2ble [TNX OPDX Bulletin]
GM - The Cockenzie and Port Seton ARC will participate in
the IOTA
Contest as GM2T from the Isle of Tiree (EU-008). The
operators will
be MM0DXC, GM4UYZ, MM0JXI, M0RNR, GM4XZZ, GM4IKU,
GM4VJV, MM3SRU,
MM3ISA and MM1CPP/MM3IDM. Look for activity as MM0CPS/P
during the
week before the contest from around 21 July. QSL for both
call signs
via GM4UYZ. Further details are available at
http://www.cpsarc.com
[TNX M0RNR]
GM - Forth Valley Contest Group members John/MM0CCC,
Robert/MM0ANT,
Colin/GM0CLN, Ian/GM4ZRR and Keith/GM0FZM will be
active from
Benbecula (EU-010) on 24-28 July, including an entry in
the IOTA
Contest as GM4V (QSL via MM0ANT). Updates will be
posted on
http://www.gm4v.co.uk/ [TNX GM0CLN]
GM - Ed, G3SQX will participate in the IOTA Contest as GM7X from
the Isle

of Arran (EU-123). The entry will be in the CW
section, either
12-hour or 24-hour. QSL via G3SQX (requests for bureau
cards are
welcome at ed@...). [TNX G3SQX]
HL - Maeng, 6K2BYF will be active (on 10-10 metres SSB
and CW) as
6K2BYF/3 from Anmyon Island (AS-080) on 20-23 June, All
Asian DX
Contest included. QSL via home call, either direct
(Maeng Seong
Youl, P.O. Box 12, Pocheon 487-600, South Korea) or
through the
bureau. [TNX DS4NMJ]
HL - DS5AAQ, DS5ACV, DS5ARL, DS5DNO, DS5DYM, DS5KJR and DS5MNO
will be
active during the IOTA Contest as homecall/p from
Ch'angson Island
(AS-081). QSL via bureau to their respective home calls.
[TNX NG3K]
I - Look for IZ7AUH/p and IZ7FLT/p to be active (on 40, 20,
15 and 6
metres) from Chianca d'Abramo (EU-091, IIA LE-017) on 25
June. QSL
via home calls, bureau or direct. [TNX IZ7AUH]
I - Special event station IR8P will be activated by operators
from ARI -
Pomigliano d'Arco on 26 June. [TNX I8JOQ]
I - Look for Vesuvio DX Team member IZ8FDH to be active as
IF9/IZ8FDH on
all bands, 6 metres included, from Favignana (AF-019,
IIA TP-011)
from 29 June to 6 July. QSL via home call, either
direct (Paolo
Capobianco, Via Enrico Cocchia 26, 80124 Napoli - NA,
Italy) or
through the bureau. [TNX IZ8DDG]

**** DX INFORMATION ****
===========================

I - IZ8CGS, IK8VRH, IZ8CCW and CW operator IK0ESW will
participate in
the IOTA Contest as either IL7M or IL7/IZ8CGS from the

island of San
Domino (EU-050, IIA FG-001). QSL via IZ8CGS either
direct (Gianni
Marruccella, P.O. Box 5, 80029 S. Antimo - NA, Italy) or
through the
bureau. [TNX IZ8CCW]
I - Giovanni/IK8LIU, Enzo/IK8YTG, Fabio/IZ1EGT,
Marco/IZ7DOK,
Oreste/IZ8EDJ and Francesco/IZ8EQF will operate (as either
IC8M or
IC8/IK8LIU on HF and 6 metres, SSB and CW) from
Licosa Island
(EU-031, IIA SA-001) on 2-3 August. QSL via IZ8EDJ. The web
page is
at http://www.mdxc.org/ic8m [TNX IZ8EDJ]
I - IO1DCI will be the call of the special station to be
activated
during the 2nd DCI (Italian Castles Award,
http://www.dcia.it)
Meeting organized by ARI Mondovi' on 20-21 September.
IS0 - Stefano, IK5PWQ will be active as IM0/IK5PWQ from San
Pietro Island
(EU-165, IIA CA-013) on 1-14 July. Look for him
especially on 20m
SSB and 30 & 40m CW between 20 and 22 UTC. Logs will be
available at
http://www.qsl.net/ik5pwq. QSL via home call either direct
(Stefano
Ceccotti, Piazza Dante Alighieri 3/AL, 56030 Cascine di
Buti - PI,
Italy) or through the bureau (e-mail requests for bureau
cards will
be welcome at ik5pwq@...). [TNX IK5PWQ]
JA - Look for JJ8DEN/6 to be active (CW and RTTY)from Yakushima
(AS-032)
on 12-14 July. QSL via JJ8DEN either direct
(Yoshitake Izumi,
Minami-24-7, Nishi-1, Obihiro-City, Hokkaido, 080-0011
Japan) or
through the bureau. [TNX JI6KVR]
JA - Kenji, JA4GXS will participate in the IOTA Contest as
JA4GXS/4 from
Yashiro Island (AS-117). He will operate both CW and SSB
and will
remain on the island until 23 UTC on 27 July. QSL via
home call,
either direct or through the bureau. [TNX JI6KVR]
OH - OH6HJE, OH6NJ, OH6UV and OH6XX will be active (on HF,
6 and 2
metres) as OH6AW/8 from Marjaniemi Lighthouse on

Hailuoto Island
(EU-184) from 27 June to 1 July. QSL via OH6AD. [TNX OH6NJ]
S7 - John, G4IRN will be active as S79IRN from the Seychelles
(AF-024) on
13-16 and 23-27 September, before and after his
activity from
Mayotte (see FH above). He will operate mainly CW on 10-
40 metres
and will run 100 watts into a vertical antenna. QSL via
home call.
[TNX G4IRN]
TA - TA1E, HB9DUR, IK2AQZ, IW2HUZ and SM0JHF will be active (on
HF SSB, 6
and 2 metres) as YM0KA from Bozcaada (AS-099) on 20-25
June. [TNX
IK2AQZ]
T32 - La Mar, T32Z is returning to Kiritimati (Christmas) Island
(OC-024).
He expects to arrive on 30 June and operate (on 6
metres and HF
bands, SSB, CW and some digital modes) as time permits
for several
weeks. QSL via K3PD (please direct any questions about the
operation
or QSLs to k3pd@...). [TNX K3PD]
T5 - Baldur/DJ6SI is currently active, mainly on CW, as T5X
from Somali.
QSL via home call.
TG - Mario/TG9ADQ, Francisco/TG9ANF, Edgar/TG9AXF and
Sergio/TG9SM will
operate (on 40, 20, 17 and 15 metres SSB, RTTY, PSK and
SSTV) as
TG0AA on 29-30 June (from 18 UTC to 18 UTC). The activity
will take
place from Pacaya, an active volcano located some 17 miles
away from
Guatemala City. A special QSL will be issued via TG9AXF
(P.O. Box
57, Mixco 01957, Guatemala). [TNX TG9ANF]
UA - RA6EAG, RA6ED, RN6FJ, RV6HJD, RW6HKF, RZ6HGG,
UA6ECU, UA6EDQ,
UA6EDU, UA6EM and UA6EZ will operate (on 80-15 metres SSB
and CW) as
homecall/p from Gidam-Bashi, a mountain (2410m a.s.l.) in
the Main
Caucasus Range on 25-29 June. QSLs via bureau or direct
to home
calls. [TNX RW6HKF]
UA - Igor, RA3QSY and Alex, RW3QDE will be active as RF3QFF
from the

Natural Reserve of Voronezhsky on 27-30 June. QSL via
RA3QSY either
direct (Igor Makeev, P.O.Box 2, Voronezh, 394010, Russia)
or through
the bureau (e-mail requests for bureau cards are
welcome at
ra3qsy@...). [TNX RA3QSY]
V3 - Jay, K0BCN (V31MX) and Cal, V31MF will be active (on 10-
80 metres
SSB with some CW) from Caye Caulker (NA-073) on 23-
29 July,
including an entry in the IOTA Contest by Cal. QSL both
calls via
K0BCN, direct or bureau. [TNX OPDX Bulletin]
VE - Mike/K9AJ [425DXN 621], Jim/K9PPY and maybe Susan/K9XYL
will be
active (CW and SSB hopefully with two stations) as
homecall/VY0 from
Somerset Island (NA-???) on 13-20 July. Mike will be in
the Nunavut
region from 11 to 26 July and he plans to operate
also from
Cornwallis Island (NA-009) and/or Baffin Island (NA-047),
as well as
from Southampton Island (NA-007) on 22-24 July. QSL via
home calls.
[TNX OPDX Bulletin]
XU - Hiroo, XW2A will be active as XU7ADX from Cambodia the last
week of
June. QSL via XW2A. Please note that his address has
changed: send
your cards plus return postage (IRCs only, not dollars) to
P.O. Box
10003, Vientiane, Laos. [TNX The Daily DX]
YA - Dan, JA1PBV (YA1BV) has been in Kabul since early this week
and will
be moving soon to Kandahar, where he will operate as
YA1BV/P,
especially on the digital modes. After his South Pacific
tour in
August (see below), on 1 September Dan will be back to
Afghanistan
and remain there until March 2004. [TNX JA1PBV]
YI - Dane, YI/S57CQ, one of the UN World Food Programme
workers, will
stay in Northern Iraq for the next few months. He is
active mostly
during the weekends, with 100 watts into a multiband
dipole. QSL via
S57DX (Slavko Celarc, Ob Igriscu 8, 1360 Vrhnika,

Slovenia). [TNX
S57DX]
YB - YE9R is the call issued for the operation from Rote Island
(OC-241)
that was previously announced to take place as 8A9R
[425DXN 625].
Kadek, YC9BU and others will be there for another couple
of weeks.
QSL direct only to YC9BU (Kadek Kariana SP, P.O. Box 106,
Singaraja
81100, Bali, Indonesia). [TNX YC9BU]
YU - This year the Serbia & Montenegro team (33 operators)
will compete
as YT0HQ in the IARU HF World Championship on 12-13 July.
All of the
QSOs will be confirmed automatically via bureau. [TNX YU1ZZ]
YV - The Grupo DX Caracas and the Asociacion de
Radioaficionados de
Venezuela will operate (on 160-6 metres SSB and CW) as
YW8D from
either La Cotorra or Remediadora (both the islands count
for SA-063)
on 20-24 June. QSL via W4SO (maildrop). [TNX YY5JMM]

SOUTH PACIFIC TOUR ---> Dan, JA1PBV reports he will operate as
H44V from
Guadalcanal (OC-047), Solomon Islands on 5-9 August and (along
with Kazuo,
P29KM) as H40V from the Santa Cruz Islands (Temotu) on 11-16 August.
He will
also sign P29SI from Port Moresby, Papua New Guinea before going
back to
Japan around 20 August.

4L QSL BUREAU ---> NARG (National Association Radioamateurs of Georgia) has
been ammitted to IARU membership effective 4 April 2003. NARG President
Mamuka Kordzakhia, 4L2M reports that the address for their incoming QSL
bureau is P.O. Box 123, Tbilisi, 380004, Republic of Georgia.

7Q7/10JUNE ---> The various Portuguese communities around the world are used
to celebrating Portugal Day (10 June) and this year Vasco, 7Q7CT, was granted
permission by the Malawi Communications Regulatory Authorithy to operate as
7Q7/10JUNE from 7 to 15 June 2003. "Those who worked Vasco with the call sign
7Q7/10JUNE made a legitimate contact", Leo/CT1CSN says, "and can ask for the
confirmation through his QSL Manager ZS6AMX".

QSL 5H3RK ---> The correct address for Ralph 5H3RK/VK4VB is: Ralph Karhammar,
6 Seven Oaks St., Taringa, QLD 4068, Australia. Ralph will be leaving
Tanzania soon, but will arrange subsequent collections of cards from the
Embassy as he expects they will keep dropping in for at least another year.
[TNX KI4RU]

QSL 9K2ZZ ---> Bob, 9K2ZZ will be QRT from Kuwait this weekend and his QSL
manager (W8CNL) would like to wrap up the QSLing by the end of the year. "I
have about 3000 cards left", he says, "and quite sure no more will ever be
ordered". Requests should be sent direct only to Raymond H. McClure, 5
McKenzie Circle, North Augusta, SC 29841-4319, USA. [TNX OPDX Bulletin]

QSL HC4/NP3D/P ---> Andy, NP3D has ordered special cards for the contacts
made from La Isla (SA-056) in May and is waiting for them to arrive

from the
printer. He made 76 QSOs on 20m SSB (between 22.32 UTC on 22 May
and 16.47
UTC on the 23rd) and 307 QSOs on 15m CW (between 18.30 UTC on 24
May and
16.16 UTC on the 25th). Cards for these contacts may be obtained
directly
from Andy rather than through Joe, W3HNK. [TNX KD6WWW]

QSL OZ/G0GRC ---> Alan, G0RCI reports that all cards for the
Grantham ARC's
operation from Vendsyssel-Thy, Fur and Mors (EU-171) have been
delivered to
the RSGB bureu. All direct cards have been answered as well.

QSL MANAGER OFFERED ---> Gert E. Janssens, K5WW
(http://www.qsl.net/k5ww)
offers his services as QSL manager to the DX community. A member of
The QSL
Managers' Society, Gert has several years of experience handling the
incoming
and outgoing QSL for the members of two large clubs and
their contest
stations. Gert accepts paper and/or electronic logs and since he now
lives in
a "no antennas welcome" neighborhood, he has plenty of time to
help other
DXers with their QSL. All requests are welcome at k5ww@...

885. "POLICEMAN" ΣΤΑ 6m-2m-70cm

Yahoo group: thegreekhamradio
Date: 2003-06-30 11:40:48 UTC
From: VASSILIS O.
Topic: 885   Message: 885

ΓΕΙΑ ΣΑΣ ΑΓΑΠΗΤΟΙ ΣΥΝΑΔΕΛΦΟΙ 73's
ΟΛΑ ΤΑ ΕΙΧΑΜΕ ΜΟΝΟ ΟΙ "POLICEMAN" ΤΩΝ ΣΥΧΝΟΤΗΤΩΝ ΜΑΣ ΕΛΕΙΠΑΝ....ΑΛΛΑ ΕΧΟΥΜΕ (ΑΠΟΚΤΗΣΑΜΕ)ΔΥΣΤΥΧΩΣ ΚΑΙ ΑΠΟ ΑΥΤΟ ΤΟ ΕΙΔΟΣ.
ΕΙΝΑΙ ΠΟΛΥ ΕΥΚΟΛΟ ΝΑ ΤΟΥΣ ΑΝΑΚΑΛΥΨΕΤΕ....ΕΙΝΑΙ ΔΥΟ ΠΡΟΣ ΤΟ ΠΑΡΟΝ ΚΑΙ ΔΙΨΗΦΙΟΙ ΠΑΡΑΚΑΛΩ!!!!!
ΤΟΛΜΗΣΤΕ ΝΑ ΚΑΝΕΤΕ QSO ΣΤΑ 6 ΜΕΤΡΑ (50.110) Η ΣΕ ΣΠΟΡΑΔΙΚΟ ΣΤΟ 144.300 ΣΤΑ 2 ΜΕΤΡΑ ΚΑΙ ΘΑ ΚΑΤΑΛΑΒΕΤΕ ΑΜΕΣΩΣ ΤΙ ΕΝΝΟΩ.ΤΟΛΜΗΣΤΕ ΝΑ ΕΚΠΕΜΨΕΤΕ ΣΤΑ UHF ΚΑΙ ΝΑ ΑΡΓΗΣΕΤΕ ΝΑ ΠΕΙΤΕ ΤΟ CALLSIGN ΣΑΣ ΚΑΙ ΘΑ ΕΜΦΑΝΙΣΘΟΥΝ ΜΕ ΥΦΟΣ ΧΙΛΙΩΝ ΚΑΡΔΙΝΑΛΙΩΝ ΣΑΝ ΑΠΟ ΜΗΧΑΝΗΣ ΘΕΟΣ!!!!!.ΠΕΙΤΕ ΤΟΥΣ ΤΟ CALLSIGN ΣΑΣ ΚΑΙ ΑΥΤΟΙ ΘΑ ΑΝΑΚΟΙΝΩΣΟΥΝ ΑΜΕΣΩΣ ΤΗΝ ΔΙΕΥΘΥΝΣΗ ΣΑΣ ΑΠΟ ΤΟΝ ΑΕΡΑ ΘΕΛΕΤΕ ΔΕΝ ΘΕΛΕΤΕ....ΒΑΖΟΥΝ ΗΛΕΚΤΡΙΚΗ ΣΚΟΥΠΑ ΣΤΟ 50.110 ΚΑΙ 144.300 ΚΑΙ ΑΥΤΟΙ ΦΩΝΑΖΟΥΝ ΜΕΤΑ CQ!!!!!!!!!!!.ΓΙΑ ΑΥΤΟΥΣ ΕΠΙΤΡΕΠΕΤΑΙ ΓΙΑ ΕΜΑΣ ΤΟΥΣ ΚΟΙΝΟΥΣ ΘΝΗΤΟΥΣ ΑΠΑΓΟΡΕΥΕΤΑΙ.
ΕΙΝΑΙ ΚΑΘΗΓΗΤΕΣ ΤΟΡ!!! ΕΝΩ ΟΛΟΙ ΟΙ ΑΛΛΟΙ ΕΜΕΙΣ ΠΑΙΔΙΑ ΕΝΟΣ ΚΑΤΩΤΕΡΟΥ ΘΕΟΥ..ΚΑΙ ΧΡΕΙΑΖΟΜΑΣΤΕ ΔΙΑΒΑΣΜΑ.ΕΑΝ ΔΕΙΤΕ ΚΑΝΕΝΑ ΠΟΛΥ ΚΑΛΟ DX-CALL ΣΤΟ CLUSTER ΣΤΟ 50.110 ΚΑΙ ΠΑΤΕ ΜΕ ΕΛΠΙΔΑ ΓΙΑ ΤΟ ΔΟΥΛΕΨΕΤΕ, ΔΕΝ ΠΡΟΚΕΙΤΑΙ ΝΑ ΑΚΟΥΣΕΤΕ ΤΙΠΟΤΑ ΣΑΣ ΒΕΒΑΙΩ ΓΙΑΤΙ ΣΤΟ 50.109!!! ΕΙΝΑΙ ΚΑΠΟΙΟΣ?? ΜΕ CW..ΟΝΟΜΑΤΑ ΔΕΝ ΛΕΜΕ ΠΡΟΣ ΤΟ ΠΑΡΟΝ.
ΕΑΝ ΠΡΟΛΑΒΕΤΕ ΚΑΙ ΦΩΝΑΞΕΤΕ ΤΟΝ DX ΣΤΑΘΜΟ ΜΟΛΙΣ ΠΑΤΕ ΝΑ ΑΚΟΥΣΕΤΕ ΘΑ ΤΟΝ ΒΡΕΙΤΕ ΑΠΟ ΠΑΝΩ ΣΑΣ ΚΑΙ ΑΣ ΤΟΝ ΕΧΕΙ ΚΑΝΕΙ ΚΑΙ ΜΑΛΙΣΤΑ CONFIRM..

ΔΕΝ ΘΑ ΣΑΣ ΚΟΥΡΑΣΩ ΑΛΛΟ...ΠΑΝΤΩΣ ΑΥΤΑ ΠΟΥ ΣΥΜΒΑΙΝΟΥΝ ΕΔΩ ΣΤΗΝ ΑΘΗΝΑ ΕΙΝΑΙ ΓΙΑ ΓΕΛΙΑ? Η ΓΙΑ ΚΛΑΜΑΤΑ?

From: sxanthop
Topic: 889   Message: 889

Καλησπέρα σε όλους,

Για όσους δεν το γνωρίζουν, το Ρ-7 της κατάρας είναι πλεον συνδεδεμένο και στο echolink (www.echolink.org) και λειτουργεί κανονικά...

Συγχαρητήρια στα παιδιά για την κίνηση τους αυτοί...νομίζω είναι κατι πολύ καλό, καθώς υπάρχει "μέλλον"...

Καλησπέρα,

Όπως με έχει ενημερώσει και ο Γιώργος SV2BZQ, έχει εγκατασταθεί ένα νέο gate στο echolink για την περιοχή της Θεσ/νίκης. Η συχνότητα είναι 431.100.

Ευχάριστα τα νέα, καθώς δεν υπήρχε τέτοιο σύστημα στην πόλη μας. Τώρα μπορούν και οι συνάδελφοι απο όλο τον κόσμο να μιλάνε "simplex" με την πόλη της Θεσ/νίκης...Καλές δοκιμές και καλές επαφές !

ΠΡΟΛΟΓΟΣ

Εν μέσω καλοκαιριού προσπαθούμε μια νέα μορφή στο περιοδικό μας. Η μορφή αυτή θα εξελιχθεί και θα γίνει ακόμη καλύτερη σύντομα. Απλά επειδή είχα ώρες προσπαθώντας να φτιάξω τους πίνακες ώστε να φαίνονται αξιοπρεπείς και τελικά όταν τους έστελνα έφταναν χάλια στην άλλη μεριά, αποφάσισα να στείλω το email σε μορφή html. Τους περισσότερους θα τους βολέψει. Από τους λιγότερους ζητώ συγγνώμη.

Κωνσταντίνος...για τους φίλους, ενώ για όλο τον υπόλοιπο κόσμο SV1DPI

ΤΑ ΝΕΑ ΜΑΣ

by SV1DPI

Τι έγινε την εβδομάδα που μας πέρασε...

· Η διάδοση έκανε κολπάκια την προηγούμενη εβδομάδα. Έτσι είχαμε μερικές ευχάριστες μέρες αλλά με τα χαρακτηριστικά της κακής διάδοσης. QSB και δεν κράταγαν πολύ. Το περασμένο Σάββατο είχαμε κι ένα ψιλοάνοιγμα στα 2 μέτρα και οι θαμώνες δούλεψαν κάποιους ευρωπαϊκούς σταθμούς στο ssb. Στα 6 μέτρα επίσης όλο και κάτι φαίνεται να γίνεται έστω κι αν καταγέλθηκε το αστυνομοκρατούμενο κράτος από κάποιους. Υπομονή συνάδελφοι. ζέστα

είναι θα περάσει.

· Είχα αναφέρει την προηγούμενη εβδομάδα ότι χάλασε το μηχάνημα του Πατέρα Απολλώ και πλέον δεν αναμένεται και η ελάχιστη δραστηριότητα από το Άγιο Όρος. Τα νέα είναι ευχάριστα και σε παγκόσμια αποκλειστικότητα, που λένε και τα κανάλια. Ένας Ελληνάρας με το Ε κεφαλαίο, γνωστός σε αρκετούς από μας, ο George Varvitsiotis, κατά κόσμον K6SV, προσφέρθηκε και θα φέρει ένα icom 756 pro ii, στον Πατέρα Απολλώ, σαν δώρο φυσικά. Ο Γιώργος δουλεύει στο hamradio outlet, μια αλυσίδα καταστημάτων ραδιοερασιτεχνικών ειδών στην Αμερική. Όπως μου είπε θα επισκεφθεί τον Πατέρα Απολλώ μάλλον το Σεπτέμβριο. Έτσι αναμένεται δραστηριότητα και στα 6 μέτρα πλέον, δυνατότητα που δεν υπήρχε πριν. Για άλλη μια φορά επαληθεύονται οι αρχαίοι πρόγονοί μας: «ουδέν κακόν αμιγές καλού».

...Και τι θα γίνει τις μέρες που έρχονται

· Ο αγαπητός Ούλι κάνει ως γνωστόν διακοπές στον Ειρηνικό. Μετά τη δυτική Σαμόα λοιπόν θα πάει στην Αμερικάνικη Σαμόα, να δει προφανώς ποια η διαφορά του πολιτισμού. Έτσι λοιπόν αναμείνατε δραστηριότητα σαν KH8/DL2AH σε SSB/RTTY/PSK από τα 40 ως τα 10m από 16-23 Ιούλη.

· Ο Wayne, N5WD (V31WD), και η Pamela, KB5UAE (V31UA), σχεδιάζουν ένα ταξίδι στη Placencia στο Belize από 15 έως 21 Ιούλη. Αν και το όνομα ιδιαίτερα της γυναίκας σε άλλα παραπέμπει, θα δουλέψουν PSK31/SSB/CW από τα 6 ως τα 80μ. QSL via N5WD

· Οι Barry,ZS1FJ/G4MFW/ZL1MFW, Phil,G3SWH, και ο Deon,ZS1ZL, είναι λογικά ήδη στα Austral Islands, OC-152, και θα είναι εκεί μέχρι τις 14 Ιούλη. Η επόμενη στάση τους στο Mangareva Island, OC063, από 15 ως 22 Ιουλίου. Τα διακριτικά θα είναι FO/G4MFW (QSL via ZS1FJ) στο SSB (28495, 24945, 21295, 18145, 14195, 7095, 3795 kHz) και στο RTTY (28075, 24922, 21085, 18102,14075 kHz), και FO/G3SWH (QSL via G3SWH) στο CW (28025, 24895, 21025, 18075, 14025, 10105, 7005, 3505, 1830 kHz). Για το ταξίδι αυτό έχουμε αναφερθεί ξανά, τα σήματά τους αναμένονται καλά και προτείνω να ξυπνήσετε λίγο νωρίς το Σάββατο και την Κυριακή το πρωί τουλάχιστον για το Austral. Προσοχή ότι το διακριτικό θα είναι ίδιο αλλά σύμφωνα με τις ημερομηνίες οι ραδιοχώρες είναι διαφορετικές. Πρόκειται για αξιολογότατα dx και ο Φιλ είναι γνωστό ότι στέλνει και μπιρό για τους οπαδούς του είδους.

· Έχετε επίσης το νου σας μην τυχόν κι ακούσετε το Market Reef. Για τους μη γνωρίζοντες η ραδιοχώρα αυτή είναι ένα νησάκι ανάμεσα στη Φιλανδία και τη Νορβηγία και ανήκει σε ένα ειδικό καθεστώς αφού ανήκει και στις 2 χώρες. Ως εκ τούτου και σε συνδυασμό με το γεγονός ότι είναι ένα ξερονήσι κατά τα' άλλα, δεν βγαίνει πολύ συχνά. Έτσι αν ακούσετε τα διακριτικά OJ0VR και OJ0RJ μη νομίσετε ότι είναι Φιλανδία. Κάντε τους και θα χάσετε κάνα ευρώ που θα στείλετε μετά στον OH1VR (ρωτήστε για το Manager δεν είναι σίγουρο) για να πάρετε την κάρτα.

· Καλά νέα από το Μαλί. Όλοι εμείς που βαρεθήκαμε να παρακαλάμε τον παπά της ιεραποστολής είμαστε μέσα στη χαρά. Ετοιμάζετε λοιπόν μεγάλη dxpedition με τη συμμετοχή πολλών από την TZ περιοχή. Λεπτομέρειες προσεχώς πάντως για να κανονίσετε τις διακοπές σας θα είναι από 12-23 Αυγούστου.

`IARU Contest`

Το contest αυτού του Σαββατοκύριακου είναι από τα καλά. Θα έχει κόσμο δηλαδή. Άρα διαβάστε τις οδηγίες παρακάτω και δώστε του να καταλάβει. Μην Ξεχνάτε ότι ειδικά οι σταθμοί των ενώσεων (αυτοί που θα δίνουν γράμματα στην ανταλλαγή κι όχι αριθμό) στέλνουν συνήθως και κάρτες στο μπιρό. Συνεπώς κάντε τους ακόμη κι αν έχετε ξαναδουλέψει τη χώρα, εφόσον δεν έχετε πάρει κάρτα. Κατά τα φαινόμενα αναμένουμε ν' ακούσουμε:

Συνάδελφοι γειά σας. Δεν ξέρω τι κάνατε την εβδομάδα που πέρασε αλλά εγώ έκανα μία τρύπα .... στον αέρα. Την Κυριακή δούλεψα λίγο Ιταλία , Γερμανία και Ολλανδία (και λίγο Αγρίνιο αφού επιτέλους μίλησα με τον SV1DPI από το Αγρίνιο) αλλά από νησιά τίποτε. Ακόμη προσπαθώ να βρω τη Σκόπελο και σήμερα είναι η τελευταία μέρα. Έχουμε και λέμε....

=>Από το νησί Kihnu η παρέα Aame/ES2QH, Andy/ES2NA, Tom/ES1DW, Tom/ES2RJ, Jerry/ES2EZ και ο Harry/ES2TGO με διακριτικό ES8X (EU-178) θα εργαστούν πολύ σκληρά από 25/7 έως 4/8 και θα δουλέψουν 6μ και 144 , 432 , 1296. Αξίζει να προσπαθήσουμε γιατί με ένα σμπάρο 3 τρυγόνια , αφού πέραν μιας κλασικής καθημερινής IOTA επαφής , η παρέα συμμετέχει και στο Estonian Open Field day καθώς και στο IOTA contest. Περισσότερες πληροφορίες www.erau.ee και στις παρακάτω email es2rj@... (πριν από 18/7) και es2na@... (μετά 18/7). Κάρτες QSL δέχεται ο ES2RJ.

=> O Phil/HL1TXQ και 9 χειριστές HL1EJT,HL1OYF,HL1VAU,HL3QP,HL9DX,DS1EVQ,DS1KOQ, DS3BGI/DS4NYE θα είναι active σαν HC/2 από CHUK (δεν έχουμε ακόμη αριθμό IOTA αφού είναι νέο νησί και μάλιστα το τελευταίο χωρίς αριθμό της South Korea) για το διάστημα 17-20/7. Θα δουλέψουν στα 40μ και στα 10μ ssb και cw. Οι ώρες λειτουργίας θα είναι περιορισμένες και θα είναι από 5 έως 19 τοπική ώρα ή 20 έως 10 UTC. Ο περιορισμός αυτός ισχύει γιατί το νησί ανήκει σε στρατιωτική ζώνη. Το ssb θα αρχίσει 20:30 UTC στις 17/7 και 1 ώρα αργότερα θα αρχίσει το CW. QRT προβλέπεται στις 6 UTC στις 20/7. QSL μέσω HL1OYF.

=> O Steve AK0M και η γυναίκα του Sandy σαν C6ASB , C6ASC από ABAKO (NA-080) 22/7 - 30/7. Θα κάνει διακοπές και χρησιμοποιώντας ένα IC-706 με 100 βατάκια, αλλά και ένα FT-817, με μία κάθετη, θα δουλέψει cw, ssb ίσως και psk31. Για QSL μέσω AK0M.

=> Άλλο ... Ομάδα χειριστών θα πάνε Desertaς Madeira (κάτι από σάλτσα μου θυμίζει) από 23/7 έως 27/7. Σκοπός τους είναι να βάλουν ένα νέο repeater για να αυξήσουν την επικοινωνία μεταξύ των νησιών . Επί της ευκαιρίας θα δουλέψουν SBB, CW, RTTY σε όλες τις μπάντες δηλαδή 80/40/20/17/15/12/10/6. Διακριτικά CT9D, CT9M και QSL μέσω CS3MAD.

=> Οι I8ACB, IK80ZZ, IK8VRH, IK8YTA, IZ8CGS, IZ8EBI, IZ8EBI με διακριτικό IR8DX, από 1/7 έως 30/10, θα εργαστούν από διάφορα νησιά στις περιοχές EU-031 και EU-144.QSL=IK8VRH και BR.

=> Τέλος δείτε λίγο το EU-187 DIA. Εκεί θα είναι οι SV9ANJ, SV9ANK, SV9BGE, SV9BKZ, SV9BMC, SV9BMJ, SV9COL, SV9DJR, SV9FBG, SV9FBM, SV9GPM. Μπράβο συνεννόηση!!!!

Καλά ξενύχτια

```

Συγγνώμη αν παρέλειψα κάποιον, αλλά τα αποτελέσματα των CQ contest δεν υπάρχουν πιά σε ηλεκτρονική μορφή. Επίσης σημειώνω ότι, μετά την παύση έκδοσης του RTTY magazine, τα CQ/RJ WW και WPX contest μετονομάζονται σε: CQ WW RTTY DX Contest και CQ WPX RTTY Contest

CONTEST Ημερολόγιο

Μη ξεχάσετε ότι αυτό το Σαββατοκύριακο έχει τα παρακάτω contest:

```
IARU HF World Championship
CW/SSB
12-13 Saturday 1200 - Sunday 1200
```

FISTS Summer Sprint
CW
12 Saturday 1700 - 2100

Internet 6 m DX Contest
CW/SSB
12-13 Saturday 1800 - Sunday 2400

QRP ARCI Summer Homebrew Sprint
CW
13 Sunday 2000 - 2400

Αυτή την εβδομάδα τα Contest που θα δουλευτούν πιο πολύ είναι το

· IARU HF World Championship σε CW και SSB και για τους φίλους των

· 6 μέτρων υπάρχει το Internet 6 m DX Contest CW και SSB.

Λοιπόν για το IARU HF World Championship τώρα:

Μπάντες: 160-80-40-20-15-10

Mode: CW και SSB

Ωρα : 3 ώρα Ελλάδας ξημερώματα Σαββάτου ως 03:00 ώρα Ελλάδας ξημερώματα Δευτέρας (48 ώρες)

Τι δίνουμε: Οι διάφορες Ενώσεις δίνουν REPORT και τα αρχικά της (59(9) RAAG)

για την δικιά μας Ένωση ενω όλοι οι άλλοι δίνουν 59(9) και ITU Zone

...παράδειγμα (59(9) 28) οι Έλληνες

Τι δουλεύουμε: Όλοι δουλεύουν όλους.

Πόντοι: 1 πόντο για σταθμούς απο την ίδια ITU Zone, 3 πόντους από άλλη ITU Zone

αλλά απο την ίδια Ηπειρο, 5 πόντους απο άλλη Ηπειρο και ITU Zone.

Mults: Ολες οι Ένώσεις καθώς και οι ITU Zones.

Log: μέχρι τις 12 Αυγούστου 2003 στη διεύθυνση iaruhf@iaru.org

ΤΟ ΕΠΟΜΕΝΟ CONTEST

Μην ξεχάσετε το επόμενο σαββατοκύριακο το CQ World-Wide VHF Contest.

Περισσότερα την άλλη εβδομάδα.

Η ΦΩΤΟΓΡΑΦΙΑ ΤΗΣ ΕΒΔΟΜΑΔΑΣ

Από τη Γερμανία και το hamfest είναι η φωτογραφία μας. Πολλοί καλοί και γνωστοί. Περισσότερες φωτογραφίες μπορείτε να δείτε στη σελίδα που δημοσιεύουμε στα internet νέα

ΕΠΙΛΟΓΟΣ

Ως γνωστόν σκοπός μας είναι το δελτίο να διαβάζεται από το δυνατόν περισσότερους. Όποιος θέλει μπορεί να αναδημοσιεύσει ότι θέλει ελεύθερα. Ας μνημονεύσει απλά πού το είδε...Διαδώστε το δελτίο σε όσους περισσότερους. Δώστε και σ' άλλους την ευκαιρία να μαθαίνουν τα διεθνή κουτσομπολιά και όχι μόνο... Προωθήστε το λοιπόν ελεύθερα και καλώ όποιον το διαβάζει και δεν το παίρνει απ' ευθείας, να μου στείλει ένα μικρό email, για να του το στέλνω. Το email μου είναι το SV1DPI@... . Το δελτίο ειναι πάντα στους δύο ελληνικούς reflector και στη σελίδα του Συλλόγου ραδιοερασιτεχνών Ελλάδας www.grc.gr

Ευχαριστούμε. Για όποιες πληροφορίες έχετε παρακαλώ στείλτε τις SV1DPI@... Και θα δημοσιευτούν πάραυτα

ΕΥΧΑΡΙΣΤΟΥΜΕ...

926. SW & suffix

Yahoo group: thegreekhamradio
Date: 2003-08-14 04:04:38 UTC
From: MM
Topic: 926 Message: 926

Έχθές άκουσα κάποια συνομιλια σε VHF Net, σχετικά με τις νέες άδειες SW.
Κάποιος συνάδελφος ανέφερε, ότι οι SW έχουν πάρει suffix τα οποία έχουν δοθεί
ΚΑΙ σε σταθμούς SV !
Για να το πώ με απλά λόγια, ο γράφων έχει το διακριτικό SV1BSX... σύμφωνα
λοιπόν με τα λεγόμενα του συναδέλφου, μπορεί αύριο ν'ακούσουμε στον "αέρα"
το διακριτικό SW1BSX !!!
Δεν ξέρω κατά πόσον έχει σοβαρές πηγές ο συνάδελφος ή ομιλούσε.... υπό την
επίρροια αλκοόλ ! Αν όμως η ιστορία αυτή αληθεύει, μάλλον ανοίξαμε το
"κουτί της Πανδώρας" !

Φαντάζεστε π.χ. να φωνάζω στο R1 :

- "XXX, ο BSX που σε καλεί"

Αν ακούει ο SW1BSX (πολύ πιθανόν), εύλογα θα πεί:

-"ποιός είσαι εσύ? εγώ είμαι ο BSX" !!!

Άντε μετά ν' αποδείξεις ότι δεν είσαι.... ελέφαντας ! Θα πέσει πολύ ... γέλιο !

Βέβαια θα μου πείτε ότι, το διακριτικό "τυπικά" πρέπει να προφέρεται ολόκληρο,
οπότε άλλο το SW1BSX και άλλο το SV1BSX. Σωστά ! 'Ομως στην χώρα μας
δυστυχώς έχουμε κακο-μάθει, ή χάριν ευκολίας λέμε μόνο το Suffix... και σίγουρα
αν η ιστορία που αναφέρω παραπάνω έχει βάση αλήθειας, θα υπάρξει πρόβλημα.

927. RE: [The Greek Ham Radio] SW & suffix

Yahoo group: thegreekhamradio
Date: 2003-08-14 04:22:52 UTC
From: sv1fze
Topic: 926 Message: 927

Μάκη καλημέρα,

Τα SW prefixes έχουν δοθεί σε συνέχεια των SV. Δηλαδή, δόθησαν κανονικά με την σειρά που θα δίνονταν σαν να ήταν SV?????.
Ο λόγος που έγινε αυτό είναι απλός. Αργότερα, εάν ο SW???? συνάδελφος δώσει MORSE και επιτύχει, το prefix του αλλάζει
από SW σε SV διατηρώντας το ίδιο suffix.

ΠΧ. SW1FZE + MORSE = SV1FZE

Η ιστορία που περιέγραψες είναι ράδιο αρβύλα και είμαι 99,9% σίγουρος πως ΔΕΝ ΙΣΧΥΕΙ.

Και πάλι καλημέρα.

SV1FZE Μανώλης

Καλημέρα,
Συμφωνώ με τον Μανώλη SV1FZE όσον αφορά την μοναδικότητα των suffix.
Θέλω μόνο αν σημειώσω οτι μπορεί να υπάρχουν και διακριτικά που δεν
μπορείς να καταλάβεις αν είναι νέα ή παλιά από το suffix, αν και τα
περισσότερα νέα ξεκινούν μετά το Ixx. Το δικό μου για παράδειγμα
είναι SW1GRW και μου το έδωσε η αρμόδια υπάλληλος του υπουργείου που
αποφάσισε να μην επιλέξουμε μόνοι μας αλλά να μας τα δώσει με τη
σειρά...

73
Χρήστος SW1GRW.

Μάκη εγώ δεν έχω ακούσει κάτι τέτοιο. Όλα τα χαρακτηριστικά συνεχίζουν απο εκεί που έχουν μείνει εδώ και 1-2 φορές που έχουν δώσει τα παιδιά εξετάσεις. Συμφωνώ οτι πρέπει να λέγεται όλο το χαρακτηριστικό, έτσι γίνεται παντού εκτός απο εδώ. Πάντως θα γίνει μπάχαλο αν όντως συμβεί αυτό αν και δεν νομίζω. Πάντως οι μόνοι που μπορούν να δώσουν απαντήσεις είναι οι υπάλληλοι του υπουργείου (και όχι πάντα).

*** PLEASE DO NOT REPLY TO THIS EMAIL ***

Dear Yahoo! Groups Moderator,

Important update: The new date for service changes is August 21, 2003.

You are receiving this notice because you are a moderator of one or
more
groups. Previously, we emailed you about upcoming service changes to
Yahoo!
Groups. To give you more time to manage your files, we have pushed
back
the
date of these changes to August 21, 2003.

To continue offering you a high quality, free service, Yahoo! Groups
is
making
the following changes:

Message Attachments:
Email attachments will no longer be archived in the Messages area,
although
Yahoo! Groups will continue to deliver attachments sent by email.
On
August
21st, all attachments in the Messages area will be removed, and
Yahoo!
will be
unable to retrieve the data. Please note: All of your group messages
will
remain. Only the attachments will be deleted.

Before August 21st, if you want to preserve them, you must move your
old
message attachments. To do so, go to the Messages area and click on
"Expand
Messages." This lets you view many attachments on one page so you
can
download
them easily. Then you can upload them to the Files and Photos areas
in
your
groups. The Files and Photos features will allow you to better
organize

your
email attachments.

Files and Photos:
You will now need a web membership to access a group's Files and
Photos
areas.
To make sure you have web memberships to all of your groups, please
visit this
page: http://groups.yahoo.com/memwiz

Add Members:
Although there is no membership limit for your group, we are
changing
the Add
Members feature so you can add only 10 new members each day. You can
continue
to use the Invite Members feature to invite as many people to your
group as you
wish.

For more details on the service changes described above, please
visit
our help
section http://help.yahoo.com/groups/groups-56.html.

We hope you will pass this notice along to your group's members so
they
are
aware of the changes. Thank you for your support as we continue to
improve
Yahoo! Groups.

Sincerely,

The Yahoo! Groups Team

936. SW & suffix -2

Yahoo group: thegreekhamradio
Date: 2003-08-19 08:43:39 UTC
From: MM
Topic: 936 Message: 936

... για να "κλείσει" το θέμα, θέλω να ευχαριστήσω όλους σας για τις απαντήσεις αλλά
δυστυχώς φίλοι μου, η ιστορία αυτή δεν ήταν εντελώς λάθος ούτε "ράδιο αρβύλα" !
Απλώς ο συνάδελφος που το έλεγε στον "αέρα", ή δεν το είχε καταλάβει σωστά ή δεν το εξέφρασε σωστά... δυστυχώς όμως, "όπου υπάρχει καπνός - υπάρχει φωτιά" λένε, κι'έχουν δίκιο!

Ο συνάδελφος SV1CER μου έδωσε την αφορμή μέσω του Email του να βρώ την άκρη του νήματος... διαβάστε κι'εσείς:

>ΟΙ ΝΕΕΣ ΑΔΕΙΕΣ ΠΟΥ ΔΩΘΗΚΑΝ ΕΙΝΑΙ ΣΥΝΕΧΕΙΑ ΤΩΝ
>SV-SUFFIX.
>Π.Χ. ΤΟ ΥΜΕ ΤΟΥ ΠΕΙΡΑΙΑ ΕΧΕΙ ΑΠΟ ΙΑΑ-ΙΑΖ.
>ΟΙ SV ΘΑ ΠΑΡΟΥΝ PRFIX SV ΚΑΙ ΟΙ SW PREFIX SW ΜΕ ΤΑ
>SUFFIX KATA SEIRA.
>DEN PAIRNOYN IDIA SUFFIX KAI OI MEN KAI OI DE.
>MPOROYN OMOS NA PAROYN DIAKRITIKA POY HTE EINAI
>SILENT KEY HTE EXOYN ANAKLHTHEI OI ADEIES APO TOYS
>STATHMOYS.
>TO TELEYTAIO EXEI GINEI HDH.

Στην προ-τελευταία παράγραφο είναι όλο το "ζουμί" !

"Μπορούν να πάρουν διακριτικά που είναι Silent Key ή έχουν ανακληθεί οι άδειές τους"!

Το χειρότερο δε κατά τη γνώμη μου, είναι αυτό που λέει ότι "έχει γίνει ήδη" !!!

Δεν ξέρω τη γνώμη έχετε περί του θέματος και πολύ θα ήθελα να την διαβάσω, αλλά εγώ είμαι τελείως αντίθετος με την προοπτική αυτή, να δίνονται διακριτικά συναδέλφων που έχουν αποθάνει, σε άλλους ραδιοερασιτέχνες !
Πρώτα απ'όλα, εκτός από τη "μακαβριότητα" του θέματος, του να έχεις δηλ. το διακριτικό ενός νεκρού, υπάρχει και θέμα της "ηθικής πλευράς" κατά την γνώμη μου.
Υποτίθεται 'οτι τα διακριτικά είναι ένα είδος "ταυτότητας" για τον κάθε ραδιοερασιτέχνη...
ο κάθε ένας έχει γράψει την δική του ιστορία στο χώρο αυτό, άλλος μικρή - άλλος μεγάλη.
Πως είναι δυνατόν, αυτό το διακριτικό να δίδεται σε κάποιο άλλο πρόσωπο ?
Φαντάζεστε π.χ. ν'ακούσουμε αύριο "στον αέρα" το SV1AB ? 'Ενα διακριτικό που είναι συνυφασμένο με τη ιστορία του Ελληνικού ραδιοερασιτεχνισμού στην Ελλάδα?
Και το συγκεκριμμένο διακριτικό το ανέφερα εντελώς τυχαία... υπάρχουν και πολλά άλλα που έχουν "γράψει" ιστορία.... !

'Ισως κάποιοι υποστηρίξουν ότι αυτό γίνεται σε κάποιες άλλες χώρες ήδη... πολύ λίγο μ'ενδιαφέρει ειλικρινά τι γίνεται σε άλλες χώρες! Σε άλλες χώρες είναι κανίβαλοι και τρώνε τους νεκρούς, θα κάνουμε κι'εμείς το ίδιο ?

Στην Ελλάδα αντίθετα, υπάρχουν ακόμα πάρα πολλά Suffix ελεύθερα μέχρι να φθάσουμε στο SV1WWW ή SW1WWW... εκτός αυτού, έχουμε κι'αλλα Prefixes, όπως π.χ το , SX,SY,SZ,J4. Γιατί δηλαδή δεν είναι αυτά προς διάθεση πρώτα και είναι αυτά των "νεκρών συναδέλφων"?
Τι είναι τα Prefix SZ, SX κλπ? "κάστρα άπαρτα"?

και των αποθανόντων έγιναν "ελαφρά τη καρδία" πάρε κόσμε?

Αν είχαν τελειώσει όλα, μα όλα τα προς διάθεση διακριτικά και υπήρχε μείζον πρόβλημα, ναι, δέχομαι ότι τα δεδομένα θα ήταν διαφορετικά και θα το συζητούσα... όμως στην παρούσα φάση είναι τουλάχιστον ασέβεια....
και λίγο περισσότερο σεβασμός, νομίζω, δεν θα έβλαπτε.

73, Makis SV1BSX/8

sv1bsx@yahoo.gr
http://www.qsl.net/sv1bsx <http://www.qsl.net/sv1bsx>

Αγαπητέ Μάκη,

Εχω διαφορετική γνώ?η, και θα προσπαθήσω να επιχειρη?ατολογήσω για αυτό, ?ολλονότι η συζήτηση είναι περισσότερο ακαδη?αική παρά θα επηρεάσει τις εξελίξεις.

Δυστυχώς στην Ελλάδα (και όχι ?όνο) έχει ε?φανιστεί ?ία έντονη διάθεση παντρέ??ατος διακριτικού (και ?άλιστα suffix) και προσώπου χειριστή.

Η πραγ?ατικότητα είναι διαφορετική, Αλλο ο άνθρωπος ραδιοερασιτέχνης αεί?νηστος Γιώργος Βερναδάκης και άλλο το διακριτικό του σταθ?ού που έχει την άδεια να εγκαταστήσει και να χρησι?οποιεί που για ?εν το σπίτι του είναι το διακριτικό SV1AB για δε το αυτοκίνητο SV1AB/M για το σκάφος SV1AB/MM και το αεροπλάνο SV1AB/AM και SV1AB/P για τον φορητό του σταθ?ό. Αν εγκαταστήσει σταθ?ό κάπου αλλού για ένα event για παράδειγ?α, ?πορει να πάρει άλλο διακριτικό πχ J41XXX για το συγκεκρι?ένο event και τον σταθ?ό που θα στήσει εκεί.

Επίσης αν ?ρεθεί και χειρίζεται τον σταθ?ό ενός άλλου ραδιοερασιτέχνη χρησι?οποιεί το δικριτικό του φιλοξενούντος αφού το διακριτικό αναφέρεται σε σταθ?ό και όχι σε άτο?ο, ?ε την επισή?ανση ότι ο σταθ?ός είναι ο SV1XYZ ?ε χειριστή τον χειριστή του σταθ?ού SV1AB.

Το ίδιο αν χρησι?οποιεί τον σταθ?ό ενός club. Αν εγκαταστήσει ένα repeater σε ένα ?ουνό θα ζητήσει από την ΕΕΤΤ ή το ΥΜΕ άλλο διακριτικό.

Βέ?αια θα πεί κάποιος ότι ένα διακριτικό ?πορεί να κου?αλάει ιστορία ?αζί του, αλλα ?ην ξεχνά?ε ότι το διακριτικό είναι το σύ??ολο για έναν άνθρωπο. Η προσκόληση στα σύ??ολα, ?ας κάνει συχνά να ξεχνά?ε ότι δεν είναι εκεί και η ουσία.

Η ουσία για ?ας τους ραδιοερασιτέχνες είναι ότι όταν ό άνθρωπος ?άθει εύκολα να συ??ολίζει και προσκολλάτε σε αυτό ?πορεί αυτό να συ??εί πιό εύκολα και σε κάθε άλλη πτυχή της ζωής του απο?ακρύνοντας τον απο την ουσία των πραγ?άτων. Σή?ερα που είναι η εποχή που όλα έχουν έναν κωδικό ή ?ία

συντό?ευση, εί?αστε ακρι?ώς και στο ση?είο που ενώ έχου?ε ?οηθειθεί πολύ από αυτό, ταυτόχρονα έχου?ε χάσει και την πραγ?ατική έννοια των λέξεων και της ουσίας των υποκει?ένων ή αντικει?ένων.

Η συζήτηση ?έ?αια αυτή έχει αρκετό αντίλογο και θυ?ίζει την γνωστή συζήτηση ?ε τις ταυτότητες.

Προσωπικά εί?αι πλήρως κατά της έντονης ταυτοποίησης ενός νοή?ονος όντος και δη ανθρώπου ?ε οποιοδήποτε τρόπο ταυτότητας ή διακριτικού ή Ελληνιστί NickName ή και Alias και θα πρότεινα όχι ?ονο να δίνονται τα διακριτικά, αλλά το suffix να δίνεται το ίδιο ανα περιοχή. Δηλαδή να υπάρχει και ο SV1AB και ο SV2AB κλπ κλπ και σε περίπτωση ?ετανάστευσης κάποιου σε άλλη περιοχή να αλλάζει πληρως διακριτικό. Ετσι θα σπάσει τελείως αυτή η αντίληψη - ταυτοποίηση διακριτικού (και κυρίως suffix)και προσώπου κάτι πολύ δεσ?ευτικό σε αντίληψη κατά την γνώ?η ?ου για νοή?ονες ανθρώπους.

Κάθε αντίλογος φυσικά δεκτός

Πολλά τυπικά '73' και αλληθινά χαιρετίσ?ατα σε όλους Τάσος

973. Ten meters anyone? Check the beacons

Yahoo group: thegreekhamradio
Date: 2003-09-29 01:57:46 UTC
From: w1nra
Topic: 973   Message: 973

Hello from the USA. I have been to Athens several times during the 60's while in the US NAVY and yours is one of the most beautiful cities anywhere on the MED.

I wish I could visit again some day.
****
Ten meters should be improving pretty soon. You can listen to the beacon section of the ten meter band, from 28.170 to 28.300 to see if the band is open and to where it is open.

For more information, check out the TEN METER BEACON GROUP:

http://groups.yahoo.com/group/TenMeterBeacons/

Here is my web site also: http://www.geocities.com/w1nra/home.html

Χαίρεται
Θα στείλεις μια αίτηση προς το Υπουργείο Μεταφορών και Επικοινωνιών που θα ζητάς το τάδε special call την τάδε ημερομηνία γι' αυτό το σκοπό. Ο πιο γρήγορος τρόπος είναι με fax στο
2 1 0 6 5 0 8 5 6 0.
Αυτοί θα σου απαντήσουν και με fax και με γράμμα στη διεύθυνσή σου.
Μην ξεχάσεις να ενημερώσεις την EEP για τον qsl manager.
Επίσης σύμφωνα με τα ισχύοντα το διακριτικό μπορεί να αρχίζει με J4 ή SX.
Χωρίς να είναι υποχρεωτικό, για να μη γίνονται μπερδέματα καλά είναι να ζητήσεις κάποιο διακριτικό που δε το είχε ζητήσει στο παρελθόν άλλος. Ρίξε μια ματιά στο qrz.com γι' αυτό που σκέφτεσαι. Αν θέλεις να σου στείλω μια από τις αιτήσεις που είχα στείλει τελευταία να την τροποποιήσεις πες μου.
Όσο για το χρόνο... Την προτελευταία φορά έστειλα την αίτησή μου την Πέμπτη πριν από το contest και τελικά μου έστειλαν την ΄'εγκριση τη Δευτέρα μετά από το contest βάζοντάς μου και τις φωνές. Οι άνθρωποι θέλω να πω κάνουν ότι μπορούν να μας εξυπηρετήσουν αλλά καλά είναι να κάνουμε κι εμείς ότι πρέπει εγκαίρως, όσο νωρίτερα τόσο καλύτερα.
Πολλά 73 και καλή επιτυχία...

Καλησπέρα σε όλους,

Γνωρίζεις κανείς την διαδικασία για την απόκτηση speciall call
(συγκεκριμένα για το jamboree) ;

Θα κάνω κάποιο τηλέφωνο εγώ, αλλά γνωρίζει κανείς πόσο σύντομα
παίρνεις το χαρακτηριστικό αυτό ;

Τι χαρτιά χρειάζονται να γίνουν, πρέπει να σταλούν και απο "επίσημα"
άτομα απο μέρους των προσκόπων;

Subject: CORRECTION OF THE CALL SIGN

Hello Dr OM

please help me out publishing in the DX Reflectors the following

Early Morning of October 2003 at 10 AM 3C0V DX stopped for some
bad reasons and they got a serious warning not to use any of their Radios
,The Crew are fine The reason still unknown!!! But it is a serious one
I believe that. Sorry Guys hope the Operators will leave safely from
the Island. since yesterday morning till this moment 9:31 UTC the
5th of October there is no signal saying when they will be released out
and go back to EU I spoke to Elmo EA5BYP one of the operators and he
mentioned that the situation is too bad
. Gaby OD5NJ Pilot of 3C0V

Thanks in advance

Edo the latest news gia to 3C0V

I just received word from OD5NJ, Gaby, who is the pilot station for 3C0V. Gaby received a 10 second phone call from EA5BYP, Elmo, who reported "that the military soldiers allowed only the three operators to go back to Spain". There are four team members and it seems that DJ9ZB, Franz; EA5FO, Victor; and EA5YN, Vicente; were released. It appears that Elmo will be remaining on the island as the phone call was cut off.

I don't know how the guys were being sent back home (via plane or boat). If we get anymore details I will pass them on. Gaby has asked that this be forwarded to all DXers (mailing lists, etc.). So by all means fell free to forward this on.

Ευχαριστούμε Σπύρο για την ενημέρωση...ας ελπίσουμε οτι είναι καλά
τα παιδιά εκεί και οτι δεν έχει γίνει κάτι "σοβαρό"...

Θα μάθουμε εν καιρώ νομίζω....

997. de SV8CS - 3C0v story

Yahoo group: thegreekhamradio
Date: 2003-10-15 04:59:50 UTC
From: SV8CS Spiros Chimarios
Topic: 997   Message: 997

?? ?????? ??????? ???? !!!! ??? ?? 3C0 ...

???????? ???..

During our stay on the island the military authorities interrupted our mission frequenctly in spite of the fact that we had in our possession all neccesary permits.

During our first week there, we negotiated several times with the Military Authorities without success. On October 3, at 10:00 GMT the Military Authorities ordered us to stop all transmissions and dissasemble all antennas, and we were expelled from the island in a Russian cargo plane. We were sent to Malabo with four hours notice.

Unfortunately, we could not save most of our photographic material. We only managed to salvage a few photos.

On October 6, two of our operators obtained authorization to leave Malabo. The rest had to remain in the capital to resolve bureaucratic formalities.

On October 10, EA5BYP and EA5YN left the Republic of Equatorial Guinea.

We deeply regret not having been able to fulfill the objectives of this expedition, and are very grateful for the help given us by the Associations, Clubs and individuals, as well as the kindness and friendship always given us by the people of Annobon.

We do not feel free to share any additional details about what happened in order to keep open the possiblility of future expeditions to Annobon. We hope you understand the difficult and delicate situation we went through.

Nevertheless, we do not abandon hope of reactivating 3C0 when circumstances improve.

A heartfelt thanks for your support.

73, ELMO team leader 3C0V--2003"

From: sxanthop
Topic: 998   Message: 998

Καλημέρα σε όλους,

Το Σαββατοκύριακο που μας έρχεται (εκτός απροόπτου) θα έχω την χαρά
να βγω για μια ακόμα φορά στο JOTA (jamboree on the air). ¨Εχουμε
πάρει έγκριση για το special call J42EVO(smos) και κατά πάσα πιθανό
θα έχω στην συντροφιά μου αρκετούς συναδέλφους ανά τακτά διαστήματα.

Έχει γίνει θεσμός πλέον να βοηθούμε τους προσκόπους σε αυτό το
event, πολλοί απο εμάς. Εγώ προσωπικά (με την βοήθεια ΠΑΝΤΑ και
άλλων συναδέλφων) ασχολούμε περίπου 4 χρόννια τώρα και μπορώ να πω
οτι αν και ψιλο-ταλαιπωρούμε λίγο, μου αρέσει ιδιαίτερα.

Η τοποθεσία που θα εκπέμπουμε θα είναι το δημαρχείο Ευόσμου
Θεσ/νίκης, είτε μέσα στο κτίριο είτε έξω αν μας το επιτρέψει ο
καιρός. Ελπίζουμε να δουλέψουμε εκτός απο cw/ssb και ψηφιακά modes
όπως rtt/sstv

Παρόντες ελπίζω να είναι οι περισσότεροι απο τα παρακάτω διακριτικά:
SV2DFT,SV2FPA,SV2DGZ,SV2GNC(ο sv2gnc θα είναι και σε άλλο σύστημα
προσκόπων στην ξυροκρήνη, με το special call J42X).

.... From :VK3T @VK3TE.#MEL.VIC.AUS.OC To :8 N2FN@H Date/time :30-Oct 11:35 Message # :1480875 Title :Telnet News Path: !F6CDD!ON4HU! R:031030/1135Z @:VK3TE.#MEL.VIC.AUS.OC #:64324 [Frankston Teln] FBB7.00i From: VK3TE@VK3TE.#MEL.VIC.AUS.OC To : N2FNH@F6CCD.#31.FMLR.FRA.EU Hello I am a Sysop in VK and would like to supply you with some Information from VK3 Area. VK3TE is a Internet BBS and Runs Xrouter and AXIP and AXUDP connections, this Computer is Connected to a RF Computer VK3SPB, which supplies Packet Mail and Node information into our Service area. VK3TE-9 is the Node Call and a Ham IP of 44.136.83.177 VK3SPB-9 is the Node Call and a Ham IP of 44.136.83.178 VK3FRC-2 is the Node Call and a Ham IP of 44.136.83.179 this is a Club BBS and Runs a BPQ408a Node system, but will be up graded to Xrouter very soon. VK3TE-9 and VK3SPB-9 both run Xrouter for the Node support. We are also adding a new Node to our area Network and its call is VK3RGL-7 at Mt Anakie it does not have a Ham IP yet but we are waiting for our Area Manager to allocate us a Ham IP for it, If we dont get one I will use one of My Block of Ham IP for it. My Block of HAM IP's start from 44.136.83.176 to 191 Thanks for your time in this Packet Email and I am looking forward to the Next issue of Telnet News. It is very nice to see that Packet has not died. More Information below this message about me and our Packet network here in VK3 Located In - Karingal - Victoria - Australia Australian & World Wide Telnet BBS Forwarding Grid Location : QF21nv (Lat.38§09'09"South, Long.145§09'38"East) Internet E-Mail : vk3te@... Message timed: 21:39 on the 30-Oct-2003 Message sent using Winpack version 6.80 > Wow! Thank you for the detailed documentation! I will have to stop by soon to see this all up close on the screen. I do not not think packet is dying just quite yet. It does appear that those loyal to the mode are seeking ways to morph packet and merge it using both current online and on-the- air technologies such as 802.11b. I think despite the ping-pong pro and con discussions seen in the bulletins, we will see continued, improved and expanded developments. I hope to be able to bring news of this you as it unfolds. Bill.>
::: :::::: :::: > A few months back, the TELNET NEWS/LAND LINE LID THIS WEEK (July 19, 2003), offered a RANDOM ACCESS FILE detailing several commercially available desktop news tickers that you can use to stay up-to-date. What follows is some HTML source language that may be of interest. This is the THIS WEEK IN AMATEUR RADIO NEWS TICKER. Edit out this language, give it a file name like TICKER.HTM, put it in a convenient folder and put a shortcut icon on your desktop. Then when you are online, you can click on the document which will bring up IE Explorer. The file will then subsequently make a call out to the home server for the current headlines. What is unique about this ticker is that the news provided is AMATEUR RADIO news and even though it brings up an instance of IE, you can squash the interface with your mouse so that it's about the same size as the ticker. The author of this ticker is Greg - K4HSM and permission to distribute was given by George - W2XBS. Please click on the following address: for additional detail. Check this website as well to verify if you receive no transmission of news headline content. Bill.> .... snip here ....

From: sxanthop
Topic: 1027 Message: 1027

Και για να μην θεωρηθεί ΑΠΟΛΥΤΕΟ clepsy - copy, αυτό το πήρα απο το πολύ καλό site www.myphone.gr

Όσοι δεν το ξέρετε και ασχολείστε με τα κινητά σας ΠΟΛΥ, πάτε να το ρίξετε μια-δυο-τρεις-τέσσερις ματιές

73 de SV2EVS
==

Στο εγγύς μέλλον αντί να καλείτε έναν αριθμό για να επικοινωνήσετε με τους φίλους σας θα πιέζετε απλά ένα πλήκτρο και αμέσως τα λόγια σας θα φθάνουν στην άλλη άκρη της «τηλεφωνικής γραμμής». Αυτό τουλάχιστον υπόσχεται η τεχνολογία PTT (Push To Talk) που πλέον «περνάει» από τον κόσμο των ασυρμάτων και των walkie-talkies στο χώρο της κινητής τηλεφωνίας - και όπως όλα δείχνουν θα τη γνωρίσουμε με το νέο Nokia 5140.

Απλά επιλέγετε κάποιον χρήστη από τη λίστα των επαφών σας, πιέζετε ένα πλήκτρο και μιλάτε. Όπως και στους ασυρμάτους, η επικοινωνία PTT είναι «μονόδρομη», δηλαδή, θα πρέπει να ολοκληρώσετε την ομιλία σας - και να αφήσετε το πλήκτρο - προτού ακουστεί... η απάντηση του συνομιλητή σας. Το Nokia 5140 είναι το πρώτο PTT κινητό, που θα διατεθεί ευρέως στην ευρωπαϊκή αγορά. Σύμφωνα με τη φινλανδική εταιρία θα είναι διαθέσιμο το δεύτερο τρίμηνο του 2004. Η fastmobile είναι η πρώτη εταιρία που δραστηριοποιήθηκε στην αγορά του PTT στη Γηραιά Ήπειρο, προσφέροντας τη συγκεκριμένη δυνατότητα στους βρετανούς χρήστες των Nokia 3650 και 7650. Αντίθετα με την κανονική τηλεφωνική κλήση, η PTT «σύνδεση» πραγματοποιείται μέσω των δικτύων GPRS ή/ και EDGE. Αυτό σημαίνει ότι την πρώτη φορά που θα επιχειρήσετε να μιλήσετε με τους φίλους σας θα υπάρχει μικρή καθυστέρηση. Στη συνέχεια όμως και εφόσον η data σύνδεση δεν διακοπεί, τα «φωνητικά» μηνύματα θα ανταλλάσσονται σχεδόν στιγμιαία. Η Haddock, θεωρεί ότι η συγκεκριμένη τεχνολογία θα αντικαταστήσει τους ασυρμάτους ειδικά σε περιοχές, όπου οι αποστάσεις είναι πολύ μεγάλες για να επιτευχθεί επικοινωνία. Όπως τονίζει η Haddock, ο τελικός χρήστης δεν θα γνωρίζει τι ακριβώς κρύβεται πίσω από το PTT, οπότε το μόνο που έχει σημασία είναι πότε θα την παρέχουν και πόσο θα χρεώνουν τη συγκεκριμένη υπηρεσία τα ευρωπαϊκά δίκτυα κινητής τηλεφωνίας. Ίδωμεν. Μέχρι τότε όμως μπορείτε να γνωρίσετε το Nokia 5140, διαβάζοντας τη συνοπτική παρουσίαση, που περιέχεται στις σελίδες των My Devices.

Καλημέρα,

Αν και αυτό ίσως να μην κάνει καλό στην λίστα εδώ, μόλις εντώπυσα ένα καινούργιο forum προφανώς που έχει να κάνει ΠΟΛΛΑ με τον ραδιοερασιτεχνισμό. Η σελίδα λοιπόν του forum αυτού είναι η http://www.hwn.gr/portal.php και απο οτι βλέπω έχει πολύ μέλλον καθώς θα μπορούσε να εξελιχθεί σε ένα πολύ ενδιαφέρον portal για τον ραδιοερασιτεχνισμό. Για όσους δεν το γνωρίζουν (όπως και εγώ) θα ήταν καλό να το επισκευτούμε και να δούμε τι "παίζει".

Ένας ακόμα τρόπος επικοινωνίας λοιπόν, για τον ελληνικό ραδιοερασιτεχνισμό...

Θεσσαλονίκη
21/12/2003

Γεια σας αγαπητοί φίλοι,

Η Ένωση Ραδιοερασιτεχνών Μακεδονίας ΕΡΜ που οι περισσότεροι την γνωρίζουν σαν DX-club εύχεται στο όλους σας Χρόνια Πολλά για τις ’γιες αυτές ημέρες της Χριστιανοσύνης.

Η απώλεια της στέγης του Συλλόγου μας, ήταν καταλυτική για την παρουσία του στον ραδιοερασιτεχνικό χώρο.
Πολλοί από εμάς αναπολούμε εκείνες τις παλιές καλές ημέρες των δραστηριοτήτων του.
Ατόνησε ακόμη και το ενδιαφέρον της συντήρησης των επαναληπτών του R0, του link του R0 με την Θεσσαλονίκη, καθώς και του RU7.
Ο ηλεκτρονικός εξοπλισμός του Συλλόγου μας παραμένει αποθηκευμένος με ασφάλεια βέβαια, είναι όμως αναξιοποίητος, όλα αυτά τα χρόνια.
Ελπίδα όλων μας είναι η επαναδραστηριοποίησή του, που θα γίνει μόνο με την εύρεση στέγης, κάτι για το οποίο πάντα προσπαθούμε, χωρίς επιτυχία όμως μέχρι τώρα.

Η μόνη δραστηριότητα του Συλλόγου μας που παραμένει "ζωντανή" μέχρι σήμερα είναι η διατήρηση της λειτουργίας και η τεχνολογική ανέλιξη των SV2DXC-1 και SV2RAM-1 BBS που είναι και οι μόνες AX-25 BBS στην περιοχή της Θεσσαλονίκης, πλέον.
Η λειτουργία τους χρονολογείται από το 1991.

Το τελευταίο hardware upgrading έγινε πριν ένα χρόνο περίπου με την τοποθέτηση δύο SYMEK TNC2H packet controllers στα 9600 bps καθώς και αγορά ενός ακόμη
Kenwood D4-10 πομποδέκτη για τα 9600 bps.

Πριν λίγες ημέρες έγινε η αλλαγή της συχνότητας της λειτουργίας της SV2RAM-1 BBS από το 144.700 στην συχνότητα 144.675.
Η αλλαγή αυτή κρίθηκε επιτακτική, εφ' όσον αυτή είναι και η πλέον χρησιμοποιούμενη συχνότητα λειτουργίας των BBS παγκόσμια, αλλά και λόγω του ότι έμεινε κενή, "ορφανή" στην περιοχή μας, μετά την αποχώρηση του SV2JL-Φώτη, από τον κόσμο της ασύρματης AX-25 -τουλάχιστον- επικοινωνίας, καθώς η BBS του χρησιμοποιούσε ως επί το πλείστον αυτή την συχνότητα.

Πρέπει να απευθύνουμε και από εδώ ένα μεγάλο ευχαριστώ στον Φώτη, που βοήθησε
τα μέγιστα στην ανάπτυξη της ψηφιακής επικοινωνίας στην περιοχή μας, διατηρώντας την BBS του ενεργή όλα αυτά τα χρόνια.
Οι πειραματισμοί με το AX-25 και οι δικτυώσεις που πέτυχε με το

ασύρματο αλλά και το ενσύρματο TCP/IP - Internet, έδωσαν μεγάλη ώθηση σε όλους εμάς για την ενασχόληση με τις ψηφιακές επικοινωνίες, αλλά και στους νεώτερους ραδιοερασιτέχνες της περιοχής μας και όχι μόνον!
Ποτέ δεν θα ξεχάσουμε την προθυμία με την οποία απαντούσε σε κάθε τηλεφώνημα ραδιοερασιτέχνη παλιού ή νέου και άπειρου στην ψηφιακή επικοινωνία και το κάλεσμα για επίσκεψη, προκειμένου να βοηθήσει στην επίλυση προβλημάτων για το software και το hardware που αντιμετώπιζαν.

Οι υπάρχουσες, λοιπόν, BBS μας εκπέμπουν κάθε τόσο Beacons στις συχνότητες που λειτουργούν.
Αν συνδεθείτε με αυτές μπορείτε να δώσετε I (Informations) οπότε θα δείτε τα πλήρη χαρακτηριστικά τους, που παρατίθενται παρακάτω.

ΕΝΩΣΗ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΩΝ ΜΑΚΕΔΟΝΙΑΣ
Σταθμοί BBS του Συλλόγου Ε.Ρ.Μ.

SV2DXC-1 BBS, περιγραφή του Σταθμού:
================================
- Qth : Θεσσαλονίκη, Μακεδονία, Ελλάδα - KN10LO
- Hardware : PC 80386/40, 4MB RAM, 250MB HD
- Software : MSDOS v6.2 & FBB Release 7.00i. Multiconnect and multilingual.
- 4 ports και 19 κανάλια :

Port Συχνότητα Bauds Πομποδέκτης Κεραία Κανάλια
TNC Ισχύς

----
1 144.650 1200 Kenwood TM-241 GP 6
DRSI 1200 5W
2 433.650 1200 Kenwood TM-441 GP 4

SYMEK TNC2H 5W

----

73 de E.P.M.

Η μεν SV2DXC-1 BBS βρίσκεται στο Ωραιόκαστρο Θεσσαλονίκης, η δε SV2RAM-1 BBS βρίσκεται στο κέντρο της Θεσσαλονίκης.
Ελέγχονται αποκλειστικά από μακριά και η τελευταία επίσκεψή μας σ' αυτές ήταν προ έτους, όταν τοποθετήθηκε το νέο hardware, εκτός βέβαια της αλλαγής συχνότητας στο 144.675 που χρειάστηκε να γίνει το σχετικό τηλεφώνημα.

Στέλνουν και παίρνουν μηνύματα συνεργαζόμενες άμεσα με άλλες BBS της Ελλάδας, SV1SV, SV7EMT, μέσω του digipeater του Πηλίου, έμμεσα δε με τις SV1GH, SV8RV, SV1AWL BBS και με μηνύματα φερμένα από άλλες BBS του εξωτερικού με την χρήση του δικτύου Internet από τον υπογράφοντα και ασύρματη αποστολή τους σ' αυτές.

Στα χρόνια που πέρασαν υπήρχε συνεργασία με πολλές άλλες BBS Συλλόγων και ιδιωτών που εγκατέλειψαν όμως την μορφή αυτή επικοινωνίας.

Το σύστημα επικοινωνίας με τις BBS μπορεί να φαντάζει παρωχημένο τις σημερινές ημέρες της ύπαρξης επικοινωνίας με το ενσύρματο Internet, αλλά και της επικοινωνίας με το ασύρματο πρωτόκολλο 802.11, θεωρούμε όμως ότι αποτελεί ένα πρώτο πεδίο εκπαίδευσης και πειραματισμού των ραδιοερασιτεχνών που θέλουν να ασχοληθούν με τις ψηφιακές επικοινωνίες.
'λλωστε δεν θα εξυπηρετούσε κανένα σκοπό η εγκατάλειψή του!

Τα καλά νέα όμως τα αφήσαμε τελευταία.
Πρόσφατα ο Σύλλογος Ραδιοερασιτεχνών Θεσσαλίας, επιβεβαιώνοντας τους παραπάνω ισχυρισμούς, έδειξε ενδιαφέρον, εγκατέστησε και λειτουργεί

BBS στην Λάρισα με το χαρακτηριστικό SV4BHA-1 με SysOp τον Βασίλη-SV4BHA.
Τοποθετήθηκε κοντά στο Νοσοκομείο της Λάρισας και από την θέση που βρίσκεται είναι δυνατή η επικοινωνία μέσω αυτής ακόμη και της περιοχής SV6.
Η BBS έχει προς στιγμήν ένα μόνο κανάλι στο 144.675 με ταχύτητα 1200 bps και υπάρχει σκέψη για τοποθέτηση τουλάχιστον ενός καναλιού ακόμη με ταχύτητα 9600 bps.

Για περισσότερες πληροφορίες μπορείτε να απευθύνεστε στις διευθύνσεις:

ΧΡΟΝΙΑ ΠΟΛΛΑ ΣΕ ΟΛΟΥΣ
Με την έναρξη του νέου έτους τι θα μπορούσε ένας contester να κάνει???
Μα τι άλλο... να λάβει μέρος σε ένα contest
Ετσι την πρώτη του χρόνου από τις 8.00 εώς τις13.00 έλαβα μέρος στο μικρό
SATRG WW RTTY contest .
Φυσικά δεν μπορείς να κάνεις πολλά QSO's διότι γίνεται μόνο στα 40μ και στα
80μ
πρωϊ- πρωϊ .....!!!!
Λοιπόν τα αποτελέσματα είναι
QSO=57 Points= 11550 Multipl =21.
Αντε και του χρόνου αλλά θα γίνει πάλι η μεγάλη προσπάθεια
και στα 2 CQWW Ιανουάριο και Φεβρουάριο στα 160M CW & SSB.

Πάνε οι παλιές μέρες 1992-1995 με τους αφορισμούς που γινόντουσαν στις
συζητήσεις στο Packet Radio με το πόσο κακό είναι το TCP/IP γιάτι συνδέεται
στο τηλέφωνο και τι σχέση έχουμε εμείς με το Internet κλπ κλπ

Το ενδιαφέρον είναι ότι οι περισσότεροι από τους πολέμιους του Amprnet και
του TCP/IP είναι αυτοί που τελικά έγιναν fun, εν κρυπτώ στην αρχή αλλά
κατόπιν δεν τρέχει τίποτα.

Ας είναι δηστυχώς δεν αισθάνομαι δικαιομένος από εκείνη την διαμάχη παρόλο
που θεωρητικά είχαμε δικιο όσοι υποστηρίζαμε την νέα (τότε) τεχνολογία,
γιατί οι πλειοψηφία των ελλήνων ραδιοερασιτεχνών τότε ακολουθούντας τους
βαρώνους και χωρίς να ερευνήσει ή να ασχοληθεί καθόλου μας σνόμπαρε και έτσι
οι ραδιοερασιτέχνες αντί να είναι στην αιχμή της τεχνολογίας ώς οφείλαμε,
τώρα είμαστε ουραγοί της και το αποτέλεσμα το PacketRadio συρικνώθηκε.

Το επίσης ενδιαφέρον είναι ότι η ιστορία επαναλαμβάνετε τώρα, (το 2003-4) με
το EchoLink και ακριβώς με τα ίδια επιχειρήματα που χρησιμοποιήθηκαν και
τότε, διαβάστε στο 5-9 Reports του Δεκέμβρη (
http://www.5-9report.gr/59report.htm <http://www.5-9report.gr/59report.htm>
) και θα καταλάβετε τι σημαίνει η Ιστορία επαναλαμβάνετε.

From: Costas Krallis SV1XV
Topic: 1066 Message: 1066

Croatian Amateurs Gain New Bands and 100kHz at 40 Metres

Croatia has become the first country in Region 1 to benefit from the expansion of the 40-metre band agreed at the World Radio Conference in Switzerland last summer. 9A amateurs have also been given privileges at 70 and 3400MHz and now no longer have to pass a Morse code test for access to the HF bands.

New amateur radio regulations came into effect in Croatia on the 26th of December. Since then, amateurs there may operate between 7100 and 7200kHz on a Secondary basis, with a maximum power of 1000 watts PEP, in addition to the normal Region 1 allocation of 7000 to 7100kHz. On 4 metres, Croatian amateurs now have 70.000 to 70.450MHz, with a power limit of 10 watts. They also gain a new band between 3400 and 3410MHz, with a maximum permitted power of 150 watts. The Morse code requirement for an HF bands licence was also dropped with the new regulations and there are now only two licence classes there: the full licence and a beginners' licence.

Subject: RE: [The Greek Ham Radio] Re: forward from packet (by sv2rq)
Καλέ ?ου Τάσο, χρόνια πολλά και καλή χρονιά.

Εάν ανατρέξου?ε στην ετοι?ολογία της λέξεως «ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΙΣΜΟΣ» θα δού?ε
πως το πρώτο συνθετικό της είναι η λέξις ΡΑΔΙΟ.

Αυτό το οποίο ?ε λυπεί ιδιαιτέρως, ό?ως, είναι το γεγονός πως εξέλιπε το
humor από όλους ε?άς, όπως και η ορθογραφία.

Αγαπητέ ?ου φίλε, όσον αφορά σε ε?ένα, τα σχόλια τα οποία έκανα ήταν
ΑΠΟΚΛΕΙΣΤΙΚΑ ΚΑΙ ΜΟΝΟΝ HUMOR.

Ουδείς ξεχνά τις ψηφιακές δια?ορφώσεις, ούτε και υποστηρίζει κανείς ?ας πως
ο ανασκολοπισ?ός ή η καρατό?ηση είναι οι ενδεικνυό?ενες ?έθοδοι θανάτωσης
για τους χρήστες του ενσύρ?ατου TCP/IP στον ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΙΣΜΟ.
Προσωπικά προτι?ώ την εκτέλεση δια τυφεκισ?ού. Απλή, γρήγορη και χωρίς πολλή
αι?ορραγία (όταν γίνει σωστά).

Διατελώ εν τι?ή.

SV1FZE Ε??ανουήλ Φ. Ζα?πέτας

Αγαπητέ Μανόλη

Ναι όπως ακρι?ώς είπες είναι "συνθετικό" το ΡΑΔΙΟ και φυσικά σαν δεύτερο
συνθετικό στην ουσία του πράγ?ατος, ?πορείς να ?άλεις πολλά πράγ?ατα όπως
την ψηφιακή επικοινωνία ή την επικοινωνία ασύρ?ατων δικτύων ?έσα από το
Internet αλλά φυσικά και πολλά άλλα ακό?α.

Για την ορθογραφία έχεις δίκιο, το έγραψα πολύ γρήγορα και δεν το έλεγξα
στον ορθογράφο, στην προκει?ένη περίπτωση ό?ως προσωπικά για ?ένα δεν ήταν
θέ?α χιού?ορ αλλά πικρίας που ο ραδιοερασιτεχνισ?ός γενικά αλλά και ειδικά
στην χώρα ?ας, έχασε πολλά χρόνια στην ψηφιακή ασύρ?ατη επικοινωνία και αυτό
λόγω εγωιστικών ή ?ικρόνοων καταστάσεων.
Φυσικά αυτά που είπα δεν είχαν να κάνουν ?ε το δικό σου χιού?ορ που καλά
έκανες και έθεσες, αλλά τα σχόλιά ?ου ήταν στο αρχικό ?ήνυ?α του SV1XV και
όχι στο δικό σου αν και η απάντηση ?ου ήταν (κακώς) στο δικό σου ?ήνυ?α.

Όσο για την ?έθοδο τι?ωρίας, ήταν αργή αλλά σίγουρη, το packet radio
ψυχορραγεί ακό?α στα 1200 bps.

Χρόνια Καλά και καλή Χρονιά ?ε περισσότερο ?υαλό και κατανόηση σε όλους ?ας

Καλή χρονιά σε όλους

Μόλις σήμερα είχα μία επικοινωνία με το
Υπουργείο Μεταφορών
προκειμένου να ενημερωθώ για θέματα του Συλλόγου
της Πάτρας.

Σε ερώτησή μου σχετικά με για το
ερωτηματολόγιο για τις εξετάσεις
προς έκπληξή μου πληροφορήθηκα ότι από 13/11/2003
έχουν ανεβάσει στην
ιστοσελίδα του Υπουργείου το ερωτηματολόγιο
πολλαπλών επιλογών και
κάποια τεχνικά θέματα που προτείνουν για δημόσια
κρίση.

Εγώ ομολογώ ότι δεν το γνώριζα και ίσως
και πολλοί από εσάς.

Πηγαίνετε στην ιστοσελίδα του Υπουργείου,

Αγαπητέ συνάδελφε, σίγουρα θα είχες άλλη άποψη αν είχες σε κάποια φάση περάσει το Σαββατοκύριακο στο κρατητήριο και την Δευτέρα στο γραφείο το ευγενικότατου εισαγγελέα επειδή δεν άρεσε η συμπεριφορά σου σε κάποια "όργανα". Εκτός αν ανήκεις στις προνομιούχες κατηγορίες που με την επίδειξη της ταυτότητας θεωρούνται υπεράνω υποψίας και δεν ανησυχούν για τίποτα.

Για το λόγο αυτό θα πρέπει προληπτικά να ταλαιπωρούμε διάφορους, μήπως τυχόν και ξεφύγει κάποιος ασήμαντος? Σε πολιτισμένες χώρες αυτά τα θέματα αντιμετωπίζονται διακριτικότερα και αποτελεσματικότερα.

Το πρόβλημα δημιουργείται μόνο κατά ένα μέρος από την ψυχροπολεμική νομοθεσία. Κυρίως οφείλεται σε θέματα νοοτροπίας των διαφόρων αρχών. Ειδικά εμείς οι ραδιοερασιτέχνες πρέπει να είμαστε ιδιαίτερα ευαίσθητοι σε τέτοιες καταστάσεις, αφού είμαστε πάντα από την πλευρά των διωκομένων.

> παραδείγ?ατα στην ιστορία άπειρα.

Για το λόγο αυτό θα πρέπει προληπτικά να ταλαιπωρού?ε διάφορους, ?ήπως τυχόν και ξεφύγει κάποιος ασή?αντος? Σε πολιτισ?ένες χώρες αυτά τα θέ?ατα αντι?ετωπίζονται διακριτικότερα και αποτελεσ?ατικότερα.

Το πρό?λη?α δη?ιουργείται ?όνο κατά ένα ?έρος από την ψυχροπολε?ική νο?οθεσία. Κυρίως οφείλεται σε θέ?ατα νοοτροπίας των διαφόρων αρχών. Ειδικά ε?είς οι ραδιοερασιτέχνες πρέπει να εί?αστε ιδιαίτερα ευαίσθητοι σε τέτοιες καταστάσεις, αφού εί?αστε πάντα από την πλευρά των διωκο?ένων.

73 Κώστας SV1XV

Νό?οι ;

Δεν είναι και ?ακριά ο νό?ος που απαγορευόταν να ?άλεις duplex τηλέφωνο ?ε ?άση τον νό?ο φυσικά. Ίσως ?ερικοί θυ?άστε την ταλαιπωρία του SV7CO από την Αλεξανδρούπολη, που έφαγε τόσα χρόνια προσπαθώντας να αποδείξει ότι δεν είναι κατάσκοπος επειδή στο υπόγειο του είχε κρυστάλλους και τσιπάκια υπολογιστών.

Οι νό?οι δεν είναι ένα ψυχρό κατασκεύασ?α που κάποιοι υπεράνω υποψίας έ?αλαν για το "καλό" ?ας επειδή δεν ?πορούσαν να ?ας προστατέψουν αλλιώς. Οι νό?οι είναι ?ία δυνα?ική κατάσταση ?έσα στην κοινωνία, που οφείλουν να προσαρ?όζονται ?ε τις κοινωνικές συνθήκες και όχι να γίνονται τροχοπέδη της κοινωνίας και φυσικά ο ?όνος που ?πορεί να τον ερ?ηνεύσει είναι ο δικαστής.

Ειδικά όσοι ασχολού?αστε ?ε την τεχνολογία (δηλαδή οι ραδιοερασιτέχνες) θα εί?αστε πάντα στα όρια των νέων δεδο?ένων που δη?ιουργούν οι νέες τεχνολογίες.

Τώρα για το προκεί?ενο, σκεφθείτε ένα στρατόπεδο όπως το Σακέτα που είναι δίπλα στην πόλη και στο ?οναδικό ?εγάλο πνεύ?ονα πρασίνου της πρωτεύουσας να είναι to ?ερος που είναι κρυ??ένα όλα τα ?υστικά του στρατού και όχι το ?έρος που κάνουν την σκοπιά τους οι 'υ?έτεροι' και να ?ην ?πορεί κανείς να πάει στο ?ουνό να περπατήσει, αφού και κινητό να έχει κάποιος πάνω του ?πορεί να ?γάλει φωτογραφία και να την στείλει στην ....Σ?ύρνη ! για παράδειγ?α σε δευτερόλεπτα.

Δηλαδή άντε να αποδείξεις αν κάνεις την ?όλτα σου εκεί, ότι δεν είσαι κατάσκοπος επειδή έχεις όλα τα σχετικά όργανα και τον χρόνο για να κάνεις το 'κακό'. Ευτυχώς στα δικαστήρια ?γαίνει άκρη, αλλά την ταλαιπωρία αυτού που του έλαχε ο κλήρος ?έχρι να εκδικαστεί η υπόθεση είναι τεράστια.

Τώρα θέλετε να ?άθετε τι γίνεται ?ε τους πραγ?ατικούς κατασκόπους;

Όταν συνελήφθη ο Ισραηλινός που έ?γαζε φωτογραφίες τους S300 σχεδόν ?όλις τους "αποθήκευσαν" στην Κρήτη, η είδηση πέρασε στα ψηλά και σε 1 ε?δο?άδα ο τύπος ?ε διά?η?α του σχετικού ΥΠΕΞ της «σχετικής χώρας» είχε φύγει από την χώρα.

πολλά 73 Τάσος

Καλημέρα Αλέξανδρε....

σε ευχαριστούμε για την ενημέρωση...εγώ μόλις έκανα μετά απο μέρες update το norton γιατι δεν το έχω αυτόματο και κατέβασε 500kb....

Που χάθηκες εσύ βρε παιδί μου; Έχω πολύ καιρό να σε ακούσω στον αέρα..ακούω πάντα στις γνωστές συχνότητες και ΣΠΑΝΙΟΤΑΤΑ στα repeaters πλέον (και το λίγο που βγαίναμε, μας είπαν και repeaterάκιδες) και βγαίνω μόνο για κλήσεις...

New Amateur Radio Regulations Introduced in Denmark

The Danish Information Technology and Telecom Agency has
announced new regulations for radio amateurs in Denmark.

The main feature of the new regulations, which came into
effect on the 1st of February, is the elimination of the
Morse code examination for access to the HF bands.

Danish radio amateurs are also now allowed to use parts
of the 4-metre band without a special permit. These
are: 70.0125 to 70.0625, 70.0875 to 70.1125, 70.3125 to
70.3875 and 70.4125 to 70.4875MHz. Beacons are allowed
in the 70.0125 to 70.0500MHz portion of the band.
Detailed Danish 70MHz band plans can be found on the Internet.

5MHz Activity Day in Finland Next Saturday

Marko, OH2LRD, is organising a '5MHz Activity Day' in Finland this Saturday, the 28th of February, beginning at 1330UTC. At present 10 club stations in Finland are licensed for 5 MHz operation, although between them they have 17 callsigns with OH2, OH3, OH6 and OI3 prefixes. The club stations will welcome reception reports to help them with their propagation and antenna experiments. Details of the 5MHz spot frequencies permitted in Finland are on the Internet.

Κώστα σήμερα ακουγόταν όπως με ενημέρωσε ο SV2GNC που ήταν στα βραχέα και ακούγαμε μαζί το 14.191 αλλά δυστηχώς ήταν εκεί στο .190 ο γνωστός πλέον ITRYH (Nino) και αρνούταν να φύγει απο εκεί για να τον ακούσει ή Ευρώπη.

Ο συγκεκριμένος σταθμός, έχει παρεμβάλει στο παρελθόν το 14.195 για αρκετό χρονικό διάστημα και με πολλές "φασαρίες". Τι ψάχνεις τώρα όμως, θα μου πεις...Ας ελπίσουμε οτι θα τον ακούσουμε...καλή επιτυχία σε όλους.

Help spread the word: eQSL.cc is sponsoring a "Meet Your eQSL.cc Comembers" QSO Party type of contest on 17 April 2004.

Note that the Official Rules for the eQSLQSO Party Spring 2004 (a.k.a., eQP) are published at http://www.eqsl.cc/eContest/ .

So, be sure that your own "My Profile" data is accurate and that you qualify for eQP participation. Preregistration in the eQP is not required; however, applying for Authenticated Guaranteed certification should be accomplished ASAP.

Internet Connection over your Power Lines?

For quite some time, it's been possible to network home computers
over the electrical wiring in your house (http://www.homeplug
.com/index_basic.html). Now the FCC has approved use of electrical
power lines coming into your home or office to deliver broad
band Internet service. It's already being tested in some markets,
including Raleigh, North Carolina. Soon we may have yet anoth
er high speed, low cost option to compete with cable and DSL.

SPACE STATION QRV with Packet!

Hello All,

The International Space Station (ISS) is
active with in packet on our 2 meters band!

With a verry simple vertical (and low power) you
can connect the ISS! (better is an yagi!).

On board in the Space Station they use
a KENWOOD TMD-700 for amateur radio operation!
The ISS is every day active with PACKET and APRS!
The baudrate is normal at 1200baud (1k2).
They are active in FM!
Please when you connect the ISS do NOT ask
for the helpfile (its a big delay for all).
The RS0ISS-11 BBS helpfile is on my website!

When you want to connect the ISS please
visit my website for all details to work
the ISS (freq info and real time position map).

My website: http://www.qsl.net/pd0rkc

Καλημέρα σε όλους,

Θέλοντας να προωθήσω το e-group αυτό, τοποθέτησα στην ιστόσελίδα μου
στο qsl.net ένα banner που σου δίνει την δυνατότητα να "έρχονται"
στην ιστοσελίδα του group και άλλα μέλη.

Αυτό μπορείτε να το κάνετε και εσείς ΑΝ! θέλετε πατώντας στο μενού
αριστερά την επιλογή invite. Κατόπιν κάνετε copy-paste τον κώδικα
στην ιστοσελίδα σας χωρίς κόπο και χρόνο.

Ευχαριστώ.

International Amateur Union - Region 1

Newsletter 56 - January 2004

Permanent HF Committee

To: members of IARU R1 HF Committee, members of IARU R1 Executive Committee, the Chairman of R1 VHF/UHF/MW Committee, the Presi dent of IARU and the secretary of IARU.

First of all my best wishes for a happy and healthy 2004 to all of you !

56.1 Interim meeting in Friedrichshafen

The next interim meeting of the IARU Region 1 HF Committee will be held in Friedrichshafen after Hamradio. The meeting will sta rt on Sunday afternoon 27 June and will end on Monday evening 28 June 2004. More details concerning the place and schedule will be given later as DARC is looking for a nice, not to expensive hotel. Therefore, please confirm as soon as possible (not later than 30 January 2004) your participation to this meeting at ON7LX.

All contributions for this meeting shall arrive at ON7LX by e-mail or paper mail not later than 1 March 2004. The contributions and the draft meeting agenda will be distributed to all member societies before 15 March 2004.

56.2 Bandplan Working Group
Attached you find an excel sheet which is the result of the work of the working group on the new Bandplan.

56.3 From the RSGB HF Manager - 15th December 2003

Following the deletion of the Morse requirement from Article 25 of the Radio Regulations and the decision by the UK Radiocommun ications Agency to drop the prerequisite for access to the HF bands, there has been a large increase of UK amateurs using these bands.

As a result of the successful outcome of the IARU effort at WRC-03 an additional 100 kHz at 7 MHz will be made available to the amateur service in 2009. The RSGB however has already made an application to the Radiocommunications Agency to gain early ac cess to 7,100 - 7,200 kHz on a secondary (non-interference) basis.

Based on the fact that the majority of broadcasters in this section of the band is located either in the Eastern part of Europe
, or outside of Europe and have target audiences outside of Europe, it is anticipated that interference will not be a major pro
blem.

Initial progress through the Radiocommunications Agency has been good but the work carried out by this agency will be taken ove
r by the new OFCOM (Office of Communications) on the 29th December 2003. This means that some delay may be encountered before any decision is made. Realistically it is anticipated that we could be looking well into 2004 before this happens.

In the meantime we look to our sister Societies in Region 1 and especially those within CEPT to talk to their administrations a
nd apply for early access using similar arguments. Those Societies already considering this are invited to liase with the RSG
B, through the Region 1 HF Manager, to establish common ground and where possible a common date for access to this valuable blo
ck of frequencies. A minimum of two other National Societies is required to progress this further.

73, Colin J. Thomas, G3PSM
HF Manager & Spectrum Forum Chairman

56.4 New 40 m bandplan in Croatia
According to the document "Regulatons on amateur radio communicatons", Croatian Ministry of transportation, maritime affairs an
d telecommunications have released new 40m band plan for radio amateurs (together with 70 MHz and 3400 MHz). The new Regulation
s will be effective on 26th December 2003.

The rules for 40m band are as follows:

Frequency:=20

7.000 - 7.100 MHz , State Pex
7.100 - 7.200 MHz , State S
Power: 1000 PEP

Bandplaning: According to the IARU R1 Bandplan

56.5 News from the societies

E-mail reaction on the article on freebanding from SARL:

I cannot speak on behalf of all the Councillors of the South African Radio League, but from a personal point of view, and being on Council, I deplore the way in which Amateur Radio equipment is being used and promoted to foster the use of dedicated amate
ur bands for those who do not conform to the norm of doing it the right way.
By condoning the use of Freebanding, the very existence and

camaraderie among long standing amateurs, is being compromised and abused.

Kind regards

Francois Botha
ZS6BUU
Councillor responsible for HAMNET (The Emergency Communications network of the SARL), the QSL Bureau, Minute Secretary and Offi
ce Manager of the SARL Offices in Johannesburg.

DR YLs,
DR OMs,

I would like to invite you to participate in SP DX Contest 2004
(3rd-4th April 15-15 UTC)
and inform you that the contest has new rules (attached to this
letter
in PDF) and new web site
www.contest.spdxc.org.pl.

In this year's contest we have a little surprise.
For each station outside Poland which obtain criteria for two Polish
diplomas "POLSKA" (you
need only 16 QSOs) and "SPPA Powiat" the diplomas will sent for free
(the rules of diplomas you
can find on
http://www.pzk.org.pl).
In this year we add new category: SO TB (SINGLE OPERATOR THREE
BANDS).
So, you
could choose any three best work bands. We also divided stations for
LOW (max 100W) and HIGH
(above 100W) POWER. We will continuously count all categories for
each
country.
All winners in all categories will receive diplomas and winners in
categories with ten and more
participants will receive special plaques.
I hope to meet you in contest.
In name of the Contest Committee
73, Robert SP5XVY

New contest page:

TA2KW-3 (#0) >
JNOS version 1.11f (80386)
Welcome to TA3KW's Radio/Internet Gateway and BBS in Istanbul.

This system runs WG7J/N5KNX's JNOS 1.11f version of KA9Q's
NOS.EXE.
It provides some bbs, tcp/ip and ax25 gateway services.

The radio port(s) can be accessed through a PC/FlexNet digipeater
linked
and running on the same machine. This takes advantage from
FlexNet's
self-adjusting parameters which reduce congestion and improve
performace
on the radio port.

To get help, type 'H' , or 'A help' and read the messages.
Local user messages are in the area 'users'

For a brief list of all commands, type 'D mbox.hlp'.

Equipment:
Computer: PENTIUM 150, 1.1 GB harddisk

=> FREE SOFTWARE DOWNLOAD: WEATHER PULSE V1.54 BY TROPIC DESIGNS
<http://www.tropicdesigns.net/>
<http://www.snapfiles.com/download/dlweatherpulse.html> a.k.a
<http://www.webattack.com/download/dlweatherpulse.html>

A very useful specialty browser designed to function as an
all-in-one local
weather information center.

You select your target location (e.g.: Albany, New York) and
WEATHER
PULSE
will provide detailed information for that location and arranges
that
information under individual tabs.

Those tabs are:

CURRENT CONDITIONS
10 DAY FORECAST
HOURLY FORECAST
DETAILED FORECAST
WEATHER IMAGES
WEATHER VIDEO
ALERTS

WEATHER PULSE can be minimized and will signal occasional
information
updates and alerts as they come in. Forecasts, weather images and
video are
retrieved from <http://www.weather.com/>. Additional video is
secured from
Accuweather.

Oh! By the way, WEATHER PULSE can access weather data from cities
around the
world, not just here in the USA. As an example, in addition to
downloading
weather data for Albany, I have additional information coming in
from
Shanghai, China (PRC), complete with weather satellite imaging
for
southeast
Asia. So this software should have universal value.

::
:::::::
=> THE RANDOM ACCESS THOUGHT:
WEATHER OR NOT...
THE RADIOSHACK WEATHERADIO(R) REVISITED!

Back in 1979 when I moved to Syracuse, New York for the second
time
due to
the transient nature of my then-broadcast radio career, I dropped
by
a
local Radio Shack and picked up one of those ubiquitous little

WEATHERCUBE(R)s. The WEATHERCUBE(R) was a little plastic box,
maybe
three
inches on a side with a little extendable antenna, maybe five
inches
from
top to bottom. The little plastic box was made to look like dark
wood, one
might assume to match the veneer of a typical office desk. But
somehow, the
little plastic box looked more like cheesy K-MART wood paneling
and
so was
somewhat disturbing to look at with its cream-colored RADIO SHACK
WEATHERCUBE(R) touchbar on-off switch. The WEATHERCUBE(R) did
function, but
based on the technology and the cheap manufacturing standards of
that time,
the radio tended to drift off frequency quite often and
occasionally
detected alien signals not intended to be heard at all. In the
end,
I think
gave the little plastic box away to someone else.

Now, it's twenty-five years later - 2004. The WEATHERCUBE(R) is
long
gone
from Radio Shack's product inventory but there is a new version
of
the
WEATHERADIO(R) worth considering. It's listed as the PORTABLE
HANDHELD
NWR-SAME WEATHERADIO(R) model-number 12-259. Like its
predecessor,
it's
another ugly little lump but it's not a box. It's a hefty little
but
quite
squat handheld with a chubby little rubberduck antenna. The back
and
sides
of the 12-259 have that gray creepy fleshy contact surface feel
that
Radio
Shack likes to use on some of their handheld radios but unlike
the
original
WEATHERCUBE(R), it's a better deal. The current incarnation makes
use of

Specific Area message Encoding designed to provide more complete
weather
conditions information for your own immediate area. The user can
load up to
ten SAME location codes for multiple location warnings.

The 12-259 has a built-in clock, a built-in thermometer, seven
receive
channels and a whole mess of other special programming features.
Curiously,
in this area, the 12-259 was hard to find. Most Radio Shacks did
not
have
the device in stock. The price is a little heftier too, about
fifty
bucks.
This compared to the $19.95 for the original Radio Shack
WEATHERCUBE(R),
which by the way as of this writing, there was one original
WEATHERCUBE(R)
available for bid on EBAY. Last check, it was going for about
five
bucks!
So there are choices!

SP DX Contest 2004 - contest rules
Thanks to K1CC and SO5GB for translation into English

Organizers: PZK - Polish Amateur Radio Union (Polski Zwi¹zek
Krótkofalowców) and the SP DX Club.

Date: The first weekend of April-from 15:00 UTC Saturday to 15:00
UTC
Sunday.

Bands:160, 80, 40, 20, 15, 10m according to the IARU Contest Band
Plan

Modes: PHONE and CW. Contacts on PHONE and CW with the same station
in the MIXED category are counted as separate contacts.
Cross-mode contacts (i.e. PHONE/CW) are not allowed.

Calling practice in the contest:
Polish stations: "CQ CONTEST" on PHONE, or "CQ TEST" on CW.
Foreign stations: "CQ SP".

Number exchange:
Polish stations send a three or four character report consisting of
a
signal report (RS or RST) plus the letter of a voivodeship.
Voivodeship
abbreviations are: B, C, D, F, G, J, K, L, M, O, P, R, S, U, W, Z.
Foreign stations send a five or six character report consisting of a
signal report (RS or RST) plus a three digit contest contact number
beginning with 001 (for example 59001 on phone or 599001 on CW).

Points:
For Polish stations:
A QSO with a DX station (outside Europe): 3 points
A QSO with a station in Europe: 1 point
Contacts with other Polish stations do not count
For foreign stations: 3 points for every contact with a Polish
station

Multiplier:
For Polish stations: countries on the current DXCC list (except SP)
contacted on each band, regardless of mode.
For foreign stations: voivodeships in Poland contacted on each band,
regardless of mode, for a maximum of 96 (16 voivodeships x 6 bands).

Scoring: The total QSO points on all bands multiplied by the total multipliers on all bands.

Categories:
A. MOAB MIXED
B. SOAB MIXED HP
C. SOAB MIXED LP
D. SOAB MIXED QRP
E. SOTB MIXED
F. SOAB PHONE HP
G. SOAB PHONE LP
H. SOSB PHONE
I. SOAB CW HP
J. SOAB CW LP
K. SOSB CW
L. SWL MIXED

Definition of categories and abbreviations used:
MO: Multi-operator Single Transmitter means that only one signal may be transmitted at any given time, and the number of band changes or mode changes is limited to 12 in one clock hour.
SO:Single Operator means that all contest activities, station operating, logging and scorekeeping are performed by one person.
In addition, only one signal may be transmitted at
any given time, and the number of band changes or mode changes is limited to 12 in one clock hour.
SOTB (NEW): Single Operator Three Band - SO on any three chosen bands.
HP: High Power - High Power - the maximum output power allowed by your
license class
LP: the maximum output power is 100 watts.
QRP: the maximum output power is 5 watts.
AB: All Bands.
SB: Single Band.
MIXED: Mixed Mode.
Every participant must declare their entry in one category only, any remaining QSO's will be used as check logs

Short Wave Listeners (SWL):
Polish SWL's must log the callsign, signal report and exc
Definition of categories and abbreviations used:
MO: Multi-operator Single Transmitter means that only one signal may be trange sent by the Polish
station, as well as the callsign of the foreign station
Points, multiplier and scoring is the same as for transmitting stations. Both Polish stations and foreign stations can only be logged
once per band and mode, except if one of the stations is a new multiplier.

Contest results: The final results for foreign stations will be listed
by country for all countries participating in the contest by category.
In the QRP category for foreign stations, the results will be listed by continent. For Polish stations, the results will be listed by category. There will be a separate listing of top scores in all categories.< BR>
Awards: The top scores in each category will be awarded certificates,
the number of which will be decided by the Contest Committee, depending
on the number of participants in each category as well as the scores of
the leading participanhange sent
by a foreign station, as well as the callsign of the Polish station.
Foreign SWL's must log the callsign and exchaniduals and groups. It is also expected that there
will be special awards in categories designated by their sponsors.

Contest logs:
Electronic logs in the Cabrillo format should be sent to:
<spdxc-logs@...>
The Cabrillo log should be attached as a file, with your callsign in the "Subject:" line of the e-mail.
Written logs should be sent to:
Polski Zwiazek Krotkofalowcow,
SPDX Contest Committee,
P. O. Box 320,
00-950 WARSZAWA,
POLAND

All entries must be submitted no later than April 30 of the year of the contest. Electronic logs sent in formats other than Cabrillo as well as printouts of computer logs may be used as check logs if they cannot be processed automatically.

Disqualification: Violation of amateur radio regulations in the country of the contestant or violation of the rules of the contest, or unsportsmanlike conduct, will be deemed sufficient cause for disqualification.

Disputes: The decisions of the Contest Committee will be final.

Polish prefixes are: 3Z, HF, SN, SO, SP, SQ, SR

PDF version of the SP DX Contest rules:

> Ασ πούμε ότι η έκδοσή του έχει ανασταλεί προς το παρόν...
Εν μέρει ίσως φταίμε και "εμείς-εγώ", άτομα που υποτίθεται οτι βοηθάμε στην έκδοσή του με κάποια "έξτρα" κείμενα απο διάφορες πηγές που τον τελευταίο καιρό ψιλό "παγώσαμε" απο ότι έχω δει. Πάντως εγώ το μόνο που έχω να πω είναι οτι το packet έχει ακόμα να προσφέρει πολλά, άλλωστε έχω πει οτι είμαι υποστιρικτής του. Απλά το τελευταίο διάστημα δεν είχα "χρόνο" να ασχοληθώ με την μετάφραση των κειμένων...Ας ελπίσουμε σε μια γρήγορη επαναφορά των dx-news.
> Κωνσταντίνος...SV1DPI
Σπύρος - SV2EVS

Υ.Γ Αν θέλετε μπορώ να στέλνω εδώ τα english Dx-news που στέλνονται απο κάποιους συναδέλφους στο Packet, χωρίς αυτό να σημαίνει οτι θέλω να αντικαταστήσω την προσπάθεια των συναδέλφων.

Αν λοιπόν μπορούσαμε να το κάνουμε χρήσιμο με κάποιο τρόπο (όπως
στην Γερμανία) θα άλλαζαν τα πράγματα. (δύσκολο, το ξέρω).
> 1. Δεν κατάφερε να ακολουθήσει εγκαιρα την απαίτηση των χρηστών
> για σχετικά καλές ταχύτητες με λογικό κόστος.
Γιατί δεν υπήρξε φαντάζομαι το ανάλογο ενδιαφέρον....
> 2. Εγινε μεγάλη κατάχρηση του διαθέσιμου bandwidth με αποστολή
> μεγάλων αρχείων 7-plus, άσχετων μηνυμάτων, εικόνων κλπ με
> αποτέλεσμα να μειωθεί η αξιοπιστία του (δηλ η πιθανότητα να
> φθάσει ένα μήνυμα στον προορισμό του).
Εγώ πάντως όταν στέλνω ένα μήνυμα, είμαι 90% σίγουρος ότι θα φτάσει
για να μην πω και παραπάνω.
> 3. Δεν παρέχει την ικανοποίηση του προσωπικού επιτεύγματος
> που δίνουν άλλες δραστηριότητες (contest, DX κλπ) και παραμένει
> "utility mode".
Και πολύ χρήσιμο utility mode θα έλεγα ;-)
> 4. Στη χώρα μας εγινε πεδίο σύγκρουσης των ανόητων εγωϊσμών
> Συσόπων, Συλλόγων κλπ.
Δυστηχώς.
> Η τεχνολογία πίσω από το packet radio (AX.25) παραμένει σήμερα σε

> δαπάνη.
Θα ήταν ποιο εύκολα τα πράγματα αν όπως κάνουν αρκετοί (λόγω
δαπάνης)...χρησιμοποιούνταν ένας server σε κάθε περιοχή (που δεν
υπάρχει πλέον digipeater) στο ίντερνετ (π.χ πανεπιστήμιο) όπως
χρόνια έκανε ο SV2JL.

Από τους ραδιοερασιτέχνες υπήρξε έντονο ενδιαφέρον.
Δυστυχώς δεν υπήρξε έγκαιρη ενσωμάτωση των αναγκαίων
δυνατοτήτων στους κοινούς και φθηνούς γιαπωνέζικους
πομποδέκτες. Έτσι το κόστος ήταν ασύμφορο για τον
"Joe Ham" (τυπικό ραδιοερασιτέχνη).

Subject: ΕΘΕΛΟΝΤΙΚΟ ΠΡΟΓΡΑΜΜΑ ΣΥΜΜΕΤΟΧΗΣΤΩΝ ΕΛΛΗΝΩΝ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΩΝ
ΕΚΔΗΛΩΣΗ ΓΙΑ ΤΟΥΣ ΟΛ

Μπορεί η κατάργηση των MORSE να ήταν πρωταπριλιάτικο αστείο αλλα
μαζί με τις ευχές μας για καλό μήνα ακολουθεί κατι που όχι μόνον
πρωταπριλιάτικο αστείο δεν είναι αλλά είναι ΠΟΛΥ ΣΟΒΑΡΟ.
Διαβάστε το προσεκτικά....
Περισσότερες πληροφορίες

`http://www.qsl.net/sv2ngct/sxog_main.htm`

ΕΘΕΛΟΝΤΙΚΟ ΠΡΟΓΡΑΜΜΑ ΣΥΜΜΕΤΟΧΗΣ
ΤΩΝ ΕΛΛΗΝΩΝ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΩΝ
ΕΚΔΗΛΩΣΗ ΓΙΑ ΤΟΥΣ ΟΛΥΜΠΙΑΚΟΥΣ ΑΓΩΝΕΣ 2004

Αγαπητοί Συνάδελφοι,

Το SV HAM σας προσκαλεί να πλαισιώσετε και να αγκαλιάσετε μια
φιλόδοξη και σημαντική πρόταση - προσπάθεια που ξεκινάει με την
ημερολογιακή αντίστροφη μέτρηση της έναρξης των Ολυμπιακών αγώνων.
Συγκεκριμένα:
Στις 5 ΜΑΙΟΥ 2004 θα μετράμε 100 μέρες από τις 13 ΑΥΓΟΥΣΤΟΥ 2004 που
είναι και η επίσημη ημερομηνία έναρξης των ΟΛΥΜΠΙΑΚΩΝ ΑΓΩΝΩΝ. Επειδή
το γεγονός των ΟΛΥΜΠΙΑΚΩΝ ΑΓΩΝΩΝ είναι σημαντικό και πιθανώς τόσο
εμείς όσο και τα παιδιά μας δεν θα έχουμε την ευκαιρία να το
ξαναζήσουμε η συμβολή και η δραστηριοποίηση των ΕΛΛΗΝΩΝ
ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΩΝ για τον εορτασμό αυτού του σημαντικού γεγονότος
είναι απαραίτητη και επιβεβλημένη.
Για τον λόγο αυτό το SVHAM ζητάει την συμμετοχή ΕΛΛΗΝΩΝ
ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΩΝ απ΄ όλες τις περιοχές της Ελλάδας σε μια ΣΥΛΛΟΓΙΚΗ
και ΠΑΝΕΛΛΗΝΙΑ προσπάθεια διαφήμισης και ενημέρωσης του ιστορικού
αυτού γεγονότος σε ξένους ραδιοερασιτέχνες και ραδιοακροατές των
βραχέων κυμάτων (HF).
Η προσπάθεια αυτή για όσους ενδιαφέρονται θα αποτελέσει καταρχήν
μιας
πρώτης τάξης διασκέδαση για τους συμμετέχοντες και κατόπιν σημαντική
εμπειρία από την συμμετοχή σε μια πρώτη προσπάθεια μιας Πανελλήνιας
ραδιοερασιτεχνικής συνένωσης και εφαρμογής στην πράξη της αγάπης μας
για το συγκεκριμένο hobby μας. Η μόνη προϋπόθεση είναι το μεράκι και
η αγνή διάθεση για εφαρμογή των απλών και στοιχειωδών όρων που θα
συμφωνηθούν μεταξύ μας για την ομαλή επίτευξη αυτού του στόχου.

Για να κάνουμε τα πράγματα πιο απλά διαβάστε η εκτυπώστε αυτήν την σελίδα και μελετήστε την για πληρέστερη κατανόηση. Σε περίπτωση που υπάρχουν ερωτήσεις - απορίες μπορούν να τεθούν και να απαντηθούν τόσο
μέσα από την λίστα του SVHAM όσο και σε προσωπική βάση με αποστολή email στο sv2ngct@yahoo.gr

ΠΡΟΤΑΣΗ - ΣΚΕΠΤΙΚΟ

Θα ζητηθούν αμέσως μετά το Πάσχα από το Υπουργείο Μεταφορών εννέα (9)
ειδικά διακριτικά κλήσης πιλοτικών σταθμών από SX1OG έως SX9OG ως εξής:

ΓΙΑ ΤΗΝ ΠΕΡΙΟΧΗ (region) CALL SIGN

Πιλοτικών σταθμών
Από Έως
SV9 SX9OG 6 ΜΑΙΟΥ 2004 15 ΜΑΙΟΥ 2004
SV8 SX8OG 16 ΜΑΙΟΥ 2004 25 ΜΑΙΟΥ 2004
SV7 SX7OG 26 ΜΑΙΟΥ 2004 4 ΙΟΥΝΙΟΥ 2004
SV6 SX6OG 5 ΙΟΥΝΙΟΥ 2004 14 ΙΟΥΝΙΟΥ 2004
SV5 SX5OG 15 ΙΟΥΝΙΟΥ 2004 24 ΙΟΥΝΙΟΥ 2004
SV4 SX4OG 25 ΙΟΥΝΙΟΥ 2004 4 ΙΟΥΛΙΟΥ 2004
SV3 SX3OG 5 ΙΟΥΛΙΟΥ 2004 14 ΙΟΥΛΙΟΥ 2004
SV2 SX2OG 15 ΙΟΥΛΙΟΥ 2004 24 ΙΟΥΛΙΟΥ 2004
SV1 SX1OG 25 ΙΟΥΛΙΟΥ 2004 3 ΑΥΓΟΥΣΤΟΥ 2004

Οι πιλοτικοί σταθμοί ανά περιοχή (region) θα έχουν την εποπτεία των υπολοίπων σταθμών της περιοχή τους που θα εκπέμψουν και θα χρησιμοποιήσουν το ανάλογο διακριτικό από τον πίνακα - ημερολόγιο εκπομπών για τις αντίστοιχες χρονικές περιόδους που τους αναλογούν.

Δηλαδή:
Στις 6 ΜΑΙΟΥ 2004 θα αρχίσει εκπομπή η περιοχή (region) SV9 - ΚΡΗΤΗ με το διακριτικό SX99OG (που δηλώνει 99 μέρες πριν την έναρξη)
Στις 7 ΜΑΙΟΥ 2004 το χαρακτηριστικό που θα εκπέμπεται από τους Κρητικούς σταθμούς θα είναι SX98OG (που δηλώνει 98 μέρες πριν την έναρξη)
Στις 8 ΜΑΙΟΥ 2004 το χαρακτηριστικό που θα εκπέμπεται από τους Κρητικούς σταθμούς θα είναι SX97OG (που δηλώνει 97 μέρες πριν την έναρξη)
κ.ο.κ.

Στις 16 ΜΑΙΟΥ 2004 θα αρχίσει εκπομπή η περιοχή (region) SV8 με το διακριτικό SX89OG (που δηλώνει 89 μέρες πριν την έναρξη)
Στις 17 ΜΑΙΟΥ 2004 το χαρακτηριστικό που θα εκπέμπεται από τους σταθμούς της SV8 περιοχής θα είναι SX88OG (που δηλώνει 88 μέρες πριν την έναρξη)
κ.ο.κ.

Αυτό θα συνεχιστεί μέχρι τις 3 ΑΥΓΟΥΣΤΟΥ 2004 όπου η περιοχή SV1 θα εκπέμψει σαν SX10OG (που δηλώνει 10 μέρες πριν την έναρξη)

Από την 4η ΑΥΓΟΥΣΤΟΥ 2004 (τελευταίο δεκαήμερο) και ανά μία μέρα θα εκπέμπουν όλοι οι πιλοτικοί σταθμοί μέχρι την ημέρα έναρξης των αγώνων χρησιμοποιώντας το διακριτικό του πιλοτικού πλέον σταθμού με μονοψήφιο αριθμό ανά περιοχή δηλαδή SX9OG - SX8OG - SX7OG κ.λ.π. μέχρι να φτάσουμε στην πανηγυρική μέρα έναρξης των αγώνων.

Την ημέρα εκείνη δηλαδή 13 Αυγούστου 2004 θα βγουν ΟΛΟΙ οι σταθμοί απ΄ ΟΛΑ τα REGION SV1 έως SV9 τιμητικά.

Αυτό είναι το πλάνο και όπως καταλαβαίνεται μπορεί να φαίνεται περίπλοκο αλλά ούτε δύσκολο είναι ούτε ανέφικτο. Θέλει συνεννόηση και
ΑΥΣΤΗΡΗ τήρηση των χρονοδιαγραμμάτων του πίνακα απ όλους τους συμμετέχοντες.

ΠΙΝΑΚΑΣ - ΗΜΕΡΟΛΟΓΙΟ ΕΚΠΟΜΠΩΝ

ΣΥΜΜΕΤΟΧΕΣ

Όσοι ΑΔΕΙΟΥΧΟΙ ραδιοερασιτέχνες με δυνατότητα εκπομπής στα HF θέλουν να πάρουν μέρος μπορούν να δηλώσουν συμμετοχή είτε σαν ΠΙΛΟΤΙΚΟΙ ΣΤΑΘΜΟΙ είτε σαν ΑΠΛΟΙ-ΗΜΕΡΗΣΙΟΙ σταθμοί στο email sv2ngct@yahoo.gr μέχρι τις 15 Απριλίου 2004 διευκρινίζοντας αν θέλουν να είναι ΠΙΛΟΤΙΚΟΙ σταθμοί στην περιοχή τους ή ΑΠΛΟΙ-ΗΜΕΡΗΣΙΟΙ σταθμοί.

ΠΙΛΟΤΙΚΟΙ ΣΤΑΘΜΟΙ

Θα γίνει μια λίστα με τους ΠΙΛΟΤΙΚΟΥΣ ΣΤΑΘΜΟΥΣ και θα ανακοινωθεί άμεσα από το SVHAM οι οποίοι:
1) Θα αναλάβουν την οργάνωση της περιοχής τους και θα επιβλέπουν τους
τοπικούς ημερήσιους-απλούς σταθμούς που θα πάρουν μέρος στο διάστημα που τους αναλογεί.

2) Θα στείλουν το ΕΝΙΑΙΟ logbook της περιοχής μετά το τέλος της εκδήλωσης σε μορφή ADIF στο SVHAM για την συγκρότηση ΕΝΟΣ ΟΛΟΚΛΗΡΩΜΕΝΟΥ LOGBOOK όλης της ΕΛΛΑΔΑΣ.

3) Θα εχουν την υποχρέωση της εκτύπωσης labels - λήψης - αποστολής καρτών που αφορούν την περιοχή τους σε ρόλο QSL MANAGER αλλά με την προϋπόθεση της διαχείρισης και διακίνησης των καρτών ΑΠΟΚΛΕΙΣΤΙΚΑ μέσω BUREAU. Αν τυχόν λάβουν QSL direct θα το διαχειριστούν οι ίδιοι αλλά για ευνόητους λόγους δεοντολογίας θα προβάλλεται επίμονα από τον
αέρα και από τα διάφορα DX NEWS και DX Clusters ότι η διακίνηση των καρτών θα γίνει μέσω του BYREAU. Μερικά θέματα εξυπακούονται και πιστεύουμε ότι θα τηρηθούν απ΄όλους για να μην έχουμε γκρίνιες και ίσως όχι και χωρίς λόγο. ΘΥΜΗΘΕΙΤΕ ότι όλοι θα προσφέρουν εθελοντικά.
Αν κάποιος θελήσει green stamps ας μην ανακατευτεί εδώ , ειλικρινά.

4) Θα υποβάλλουν την σχετική αίτηση στο Υπουργείο για την χορήγηση
των ειδικών διακριτικών των πιλοτικών σταθμών (θα γίνει ΜΙΑ ΟΜΑΔΙΚΗ
ΑΙΤΗΣΗ συνυπογραμμένη ΑΠ ΟΛΑ ΤΑ SV- REGIONS για την χορήγηση των
ειδικών ΠΙΛΟΤΙΚΩΝ διακριτικών αμέσως μετά το Πάσχα με συνενόηση ολων
μέσω του SVHAM). Λεπτομέρειες σε λίγες μέρες.

ΑΠΛΟΙ (ΗΜΕΡΗΣΙΟΙ) ΣΤΑΘΜΟΙ

1) Θα τηρούν το logbook του σταθμού τους και θα το στείλουν μετά το
πέρας των ενεργειών τους στον ΠΙΛΟΤΙΚΟ ΣΤΑΘΜΟ της περιοχής τους ο
οποίος έχει την υποχρέωση να συλλέξει όλες τις επαφές των σταθμών
του
region του.

2) Θα σέβονται τις υποδείξεις του ΠΙΛΟΤΙΚΟΥ ΤΟΥΣ ΣΤΑΘΜΟΥ και τα
χρονοδιαγράμματα που θα τους τεθούν για τις ημέρες εκπομπής εντός
του
δεκαημέρου που τους αναλογεί.

3) Σαν απλός - ημερήσιος σταθμός θα μπορεί να φυσικά εκπέμψει και ο
ΠΙΛΟΤΙΚΟΣ ΣΤΑΘΜΟΣ χρησιμοποιώντας όμως το call της ανάλογης ημέρας
του δεκαημέρου.

ΓΕΝΙΚΑ

Όσοι κανόνες και να μπουν για μια τέτοια προσπάθεια δεν θα αποδώσουν
αν αυτό που θα γίνει δεν γίνει με μεράκι και σεβασμό τόσο στον ίδιο
μας τον εαυτό όσο και στους υπόλοιπους με τους οποίους μοιραζόμαστε
κοινό hobby.

Προτού κάποιοι να αρχίσουν για τους δικούς τους λόγους να πυροβολούν
την παραπάνω ιδέα ας παραμερίσουν λίγο τους μικροεγωισμούς και τα
οποιοαδήποτε άλλα κακοδιάθετα μουρμουρητά και ας σκεφτούν ότι όλα
αυτά είναι ΕΘΕΛΟΝΤΙΚΑ και μάλιστα για να υλοποιηθεί χρειάζεται η
βοήθεια του ΚΑΘΕΝΟΣ και ΟΛΩΝ μαζί.
Μάλιστα δε, αν υπάρχουν σπόνσορες για τις κάρτες που θα απαιτηθούν
ας
επικοινωνήσουν μαζί μας. Ειδικά το θέμα των καρτών είναι κάτι βασικό
γιαυτό ψάξτε και πιέστε όπου μπορείτε και σε κάθε κατεύθυνση.
Επίσης τοπικοί σύλλογοι και ομάδες ραδιοερασιτεχνών ας
δραστηριοποιηθούν και ας κάνουμε επιτέλους κάτι ΚΟΙΝΟ σε ΕΘΝΙΚΟ
ΕΠΙΠΕΔΟ.
Αλλωστε πολλοί σύλλογοι ετοιμάζουν διάφορες εκδηλώσεις στην διάρκεια
των ΟΛΥΜΠΙΑΚΩΝ ΑΓΩΝΩΝ. Στην πρόταση-ιδέα αυτή μιλάμε για μιά
εκδήλωση
προετοιμασίας της μεγάλης γιορτής η οποία απαιτεί συλλογική
προσπάθεια . Ας δουλέψουμε ΚΟΙΝΑ ή ΠΑΡΑΛΛΗΛΑ προσφεροντας ο καθένας
ότι μπορεί.
Ειδικά ο μεγαλύτερος σύλλογος της χώρας (ΕΕΡ) που έχει δείξει μεγάλη
ευαισθησία σε τέτοιου είδους εκδηλώσεις στο παρελθόν, ευελπιστούμε
να
δείξει την απαιτούμενη κατανόηση για την διακίνηση των καρτών μέσω

του BYREAU και να βοηθήσει σε τεχνικά θέματα. Προτάσεις υπάρχουν και πιστεύω ότι υπάρχουν τα κατάλληλα αυτιά από αξιολογους συναδέλφους για να τις ακούσουν τόσο μέσα στην ΕΕΡ όσο και άλλους μεγάλους συλλόγους της χώρας. Πιθανώς π.χ. κάποιος σύλλογος να εχει την διάθεση να αθλοθετήσει ένα βραβείο για το ελληνικό region που θα κάνει τις περισσότερες επαφές σε αυτήν την προσπάθεια, παράλληλα με τις πιθανές εκδηλώσεις του κατά την διάρκεια των Ολυμπιακών αγώνων

Τις επόμενες μέρες μέσω τις λίστας του SVHAM θα δοθούν τυχόν διευκρινιστικές οδηγίες και λεπτομέρειες.

Είμαστε ανοικτοί και καταδεκτικοί σε κάθε νέα πρόταση για περαιτέρω βελτίωση της αρχικής ιδέας.

ΔΕΙΞΤΕ ΚΑΛΗ ΔΙΑΘΕΣΗ και προσπαθήστε να περπατήσει.

Ας κάνουν οι ΕΛΛΗΝΕΣ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΕΣ την δικιά τους ΛΑΜΠΑΔΙΟΔΡΟΜΙΑ περνώντας το ΟΛΥΜΠΙΑΚΟ ΧΑΡΑΚΤΗΡΙΣΤΙΚΟ σαν φλόγα από περιοχή σε περιοχή (region to region) μέσα από τις συχνότητες !!

Περισσότερα σύντομα....

Πολλά 73s de SV2AEL

Αγαπητοί συνάδελφοι

Σήμερα επικοινώνησα με το Υπουργείο μεταφορών και έχω στην διαθεσή μου την απόφαση για την χορήγηση των ειδικών διακριτικών για την περίοδο των Ολυμπιακών αγώνων.

Την απόφαση έχω κάνει upload στο ίδιο group.

Εκ μέρους της Ένωσης Ραδιοερασιτεχνών Δυτικής Πελοποννήσου και τους Ραδιοερασιτέχνες της Πάτρας καλό Πάσχα.

Subject: T33C info

The T33C team arrived safely back on Tarawa on April 17 after a
successful eleven day operation from Banaba Island.
The complete log of our 75,000 QSOs will be available to view on-
line
by April 18.
Direct QSL requests should go to F5CWU. The T33C team encourages
all bureau QSL requests to be submitted by the O(nline) Q(sl) R
(equest) system. OQRS information is available on the expedition
Web
site www.dx-pedition.de/banaba2004.

Πολλά ακούγονται τον τελευταίο καιρό στην Ελλάδα για το ADSL, για την καθυστέρηση που παρατηρήθηκε στην παροχή του, για τις τιμές του και για τις ταχύτητες. Ενώ εμείς στην Ελλάδα θεωρούμε εντυπωσιακές τις ταχύτητες 384 Kbps - 1 Mbps, οι οποίες σε πολλές περιπτώσεις φτάνουν να κοστίζουν όσο μισός μισθός, στην Αμερική η Bellsouth ανακοίνωσε την παροχή ADSL, με εντυπωσιακές ταχύτητες για τα δεδομένα των οικιακών χρηστών.

Το νέο πακέτο πρόσβασης ADSL της Bellsouth, προσφέρει ταχύτητες 3 Mbps download και 384 Kbps upload, με συνολικό κόστος που δεν ξεπερνά τα 55 δολλάρια το μήνα. Για μια ακόμη φορά αποδεικνύεται λοιπόν, ότι όσες προσπάθειες κι αν κάνουμε στην Ελλάδα για να φτάσουμε (τελευταίοι και καταϊδρωμένοι) τις ταχύτητες του «γρήγορου» Internet, στο εξωτερικό η πρόσβαση θα είναι πάντα πολύ γρηγορότερη και φθηνότερη... Ακόμα κι αν μετά από 30 χρόνια φτάσουμε στο σημείο να έχουμε κι εμείς στην (τριτοκοσμική διαδικτυακά) Ελλάδα ADSL 3 Mbps σε τόσο χαμηλές τιμές, το σίγουρο είναι ότι στο εξωτερικό η πρόσβαση τότε θα είναι 30 φορές γρηγορότερη...

>>> VP8SGK (SOUTH GEORGIA) * UPDATE <<<

There was no amateur radio operation from Signy (South Orkneys)
during the
recent final visit by the RRS "James Clark Ross". The vessel is now
sailing
towards South Georgia and Mike, GM0HCQ (VP8CMH/MM) expects to be be
able to
go ashore and operate as VP8SGK at some stage between 15 and 19
April.
His operations are very dependent on the weather and so the
exact dates
will not be known until he is actually there.
Operating times will most likely be from 20.00 UTC to 00.00 UTC,
initially
on 14018 kHz. If he can get ashore earlier in the day then he may
well try
to work on 10 or 12 metres.
On 19 April the ship will depart South Georgia for the Falkland
Islands,
arriving on the 23rd. This will the final call into the Falklands
before
the ship heads back to the UK. VP8CMH/MM will then be QRT until
the next
Antarctic summer.
QSL via GM0HCQ, either direct (Mike Gloistein, 27 Stormont Way,
Scone,
Perthshire PH2 6SP, Scotland) or through the RSGB bureau. [TNX
GM0HCQ]

From: "PAVLIDIS SAVAS" <sv2ael@yahoo.com>
Subject: ΝΕΩΤΕΡΑ ΓΙΑ ΤΟ ΠΡΟΓΡΑΜΜΑ ΤΩΝ ΟΑ

Αγαπητοί συνάδελφοι,
Θα ήθελα να ενημερώσω τα μέλη του SVHAM και τους φίλους
ραδιοερασιτέχνες (90 τον αριθμό) που από ολόκληρη την Ελλάδα
αγκάλιασαν και συμμετέχουν σε αυτήν την φιλόδοξη και ωραία εκδήλωση
που ξεκίνησε και γιγαντώθηκε μέσα από το GROUP με μοναδικό στόχο την
δραστηριοποίηση των Ελλήνων Ραδιοερασιτεχνών σε μιά κοινή προσπάθεια
συμμετοχής στην προετοιμασία της γιορτής που λέγεται Ολυμπιακοί
αγώνες.
Μετά από αλλεπάλληλες διαβουλεύσεις με το τμήμα χορήγησης αδειών και
αποστολής μερικών...δεκάδων φύλλων FAX εκατέρωθεν, αύριο το πρωί
(Τετάρτη) γίνεται η τελική αποστολή της ολοκληρωμένης πρότασής μας
προς το Υπουργείο.
Θέλω να πιστεύω ότι τελικά έστω και μετά κόπων και βασάνων θα
περάσουμε τον σκόπελο που λέγεται ΓΡΑΦΕΙΟΚΡΑΤΕΙΑ και εν μέρει άγνοια
θεμάτων ουσίας από τους όποιους "ειδικούς" όπως το να ΑΠΟΦΑΣΙΖΟΥΝ
ΑΛΛΟΙ για ΕΜΑΣ σε θέματα που αφορούν ΕΜΑΣ.
Δεν θα μπώ σε λεπτομέρειες γιατί δεν είναι επί της παρούσης στιγμής.
Εχουμε χρόνο για σχόλια και περαιτέρω κριτικές.
Το μόνο που μπορώ να σας μεταφέρω είναι ότι το Υπουργείο με την
εγκύκλιο "εξάμβλωμα" που έχει εκδόσει σχετικά με την χορήγηση των
ειδικών διακριτικών για τους Ο.Α. έχει "καλυφθεί" πίσω από αυτήν και
αρνείται πεισματικά την χορήγηση άλλου-ων χαρακτηριστικών.
Ως εκ τούτου υπάρχει μιά σχετική εμπλοκή που ελπίζουμε να
ξεπεράσουμε.
Θεωρώ ότι στο τέλος θα επικρατήσει η λογική και η σύνεση και θα μας
χορηγήσει το ΥΠ ΜΕ τα αιτούμενα ειδικά διακριτικά.
Δυστυχώς η μοίρα των Ελλήνων πολιτών είναι τέτοια που ΠΑΜΠΟΛΛΕΣ
φορές
αναγκαζόμαστε να ΤΕΚΜΗΡΙΩΣΟΥΜΕ και να ΘΕΜΕΛΙΩΣΟΥΜΕ στις Δημόσιες
Υπηρεσίες με στοιχεία και documents ότι δεν είμαστε..ΕΛΕΦΑΝΤΕΣ.
Τελικά τα callsign το Υπουργείο τα έχει για τα συρτάρια του ή προς
χρήση του Ελληνα φορολογούμενου πολίτη και άμεσα ενδιαφερόμενου
ραδιοερασιτέχνη?
Θα ενημερωθείτε μέσω της λίστας για τις όποιες εξελίξεις... ελπίζω
μέχρι την Παρασκευή.
Πολλά 73 Σάββας SV2AEL

8Q - Tadao, JA1WPX will be active as 8Q7WP from the Maldives
(AS-013) on
4-9 May. He plans to operate on 10-40 metres SSB, CW and
RTTY (if
possible also on 80m and PSK31). QSL via home call,
either direct
(with 1 new IRC or 2 USD) or through the bureau (provided
that he
gets them in time, as he says that his last batch of cards
will be
sent to the JARL outgoing bureau in December 2005). [TNX
JA1WPX]
BV - Paul, BV4FH reports that BX2AE, BV2OO and BV2QB will
operate as
BO0D from Dong Yin Island (AS-113) on 8-14 May. QSL
via bureau.
[TNX JI6KVR]
DL - DL1APR, DL1APW, DL1NUF, DL5AOJ, DL6AMA, DL9NDS and

DM3BJ will
operate on all bands CW, SSB, RTTY and PSK31 from
Ummanz Island
(EU-057, O-06 for the German Islands Award) on 17-23 May.
QSL via
home calls. [TNX DL8AAM]
DL - Look for Fred, DL8DXL/p to be active from the following
islands and
lighthouses in May:
DATE ISLAND IOTA GIA GLHA WLH
ARLHS

--
16-19 May Baltrum EU-047 N-06 - - -

20-23 May Neuwerk EU-127 N-12 038 2311 FED-
165
22 May Scharhoern EU-127 N-11 - - -

24-27 May Oland EU-042 N-20 new 0712 FED-
174
27-29 May Langeness EU-042 N-19 - - -

29 May Langeness EU-042 N-19 new 1245 FED-
134
Fred will be joined by DL/LX9EG/p while on Neuwerk
Island. [TNX
DL8DXL]
EA - Marc, ON5FP and Jose, ON4CJK [425DXN 675] will
operate as
EA1/ON5FP/P and EA1/ON4CJK/P duirng their 23-25 July
activity from
Mouro Island (EU-142), including at least one entry in
the IOTA
Contest. On 27-29 July they will be active from Gibraltar
(ZB2) and
from 30 July to 1 August from Ceuta & Melilla (EA9). QSL
for all
activities via ON4ADN either direct (Geert
Decru, St.
Laurentiusstraat 18, 8710 Wielsbeke, Belgium) or through
the UBA
bureau. [TNX ON5FP]
F - The last valid operations for the Council of Europe
Radio Club
Challenge will take place on 5 May (RTTY) and 7-9 May
(RTTY, SSB
and CW) with the call TP7CE. Rules are
available at
http://ewwa.free.fr [TNX F6FQK]
FP - Look for Paul, FP/K9OT and Peg, FP/KB9LIE to be

active from
Miquelon (NA-032) from the evening of 2 July until
noon (local
time) on the 11th. They will operate on 160-6 metres
(breakable
beacon on 50120 kHz) with 100 watts, with an emphasis on
6, 12 and
17m SSB for Peg and 30-160m CW for Paul. They expect to
participate
in the IARU HF Championship as two separate entries (CW
and SSB).
QSL via K9OT, direct or bureau. Their web
page is at
http://www.mhtc.net/~k9ot [TNX K9OT]
G - Members of the North Wakefield Radio Club
(http://www.g4nok.org)
plan to operate again as GX4NOK/P from the island of
Inner Farne
(EU-109) over the weekend of 24-25 April. The team
activated the
island on 17 April, but bad weather conditions prevented
them from
operating also on the 18th as previously announced. [TNX
2E0NJW]
GJ - Johannes, DF5AU will operate (on 160-10 metres CW and
SSB, WARC
bands excluded) as either MJ/DF5AU (QSL via home call)
and GJ3DVC
during the CQ-MIR-DX-Contest (QSL via bureau or direct)
from Jersey
(EU-013) on 8-9 May. [TNX DF5AU]
I - Luigi, IV3KAS will participate in the ARI International
DX Contest
(1-2 May) as II3L (SO SSB). QSl via home call. [TNX IV3KAS]
I - Marco, IZ6ASI and Stefano, IK6VGO will be active
from the
lighthouse at Senigallia (WAIL MA-004) on 15-16 May. [TNX
IZ6ASI]
JA - Look for Takeshi, JI3DST/6 to be active from Miyako Island
(AS-079)
from 29 April to 9 May. [TNX The Daily DX]
JA - Hiroaki, JK1FNN and his wife Mie, 7L1MKM will operate
(on 10-40
metres CW, SSB and RTTY) from Ishigaki Island (AS-024) on
2-4 May.
QSL via JK1FNN. [TNX The Daily DX]
JD1_oga - Look for Taka, JO2JDJ/JD1 and Hide, JM1LJS/JD1
(JD1BLK) to be
active from Ogasawara (AS-031) on 2-5 May. They plan to
operate on

40-10 metres SSB and CW. QSL JO2JDJ/JD1 and JM1LJS/JD1
via home
calls, QSL JD1BLK via JM1LJS.
[TNX JM1LJS,
http://radio-dream.com/jd1blk/e/]
JW - Marq, CT1BWW (one of the operators of S05X) plans to
operate as
JW/CT1BWW from Svalbard on 7-14 June. He may be joined
by other
operators, and in that case they will have up to three
stations
active on 160-6 metres CW, SSB, RTTY, PSK31 and SSTV.
QSL via
CT1BWW. His web pages are at
http://www.ct1bww.4t.com and
http://www.geocities.com/ok8bww [TNX CT1BWW]
KP2 - Look for Ann, W2AZK/KP2 and Brian, KF2HC/KP2 to operate
on 160-6
metres SSB and CW from St Croix, Virgin Islands (NA-106)
on 5-12
June. QSL via home calls, direct or bureau. Confirmed QSOs
with Ann
and Brian are good towards the North Jersey DX
Association's "NJDXA
Award" (see www.njdxa.org for details). [TNX KF2HC]
LX - ON4LO, ON6QX and ON6UM will operate as LX/homecall from
Luxembourg
on 15-17 May. They plan to be active on 160-6 metres SSB,
CW, RTTY
and FM. QSL via home calls, bureau or direct. [TNX ON6UM]
LZ - Special event station LZ04KM will be active on all bands
and modes
on 1-31 May to celebrate St. Cyril and Methodius' Day.
QSL via
bureau or direct to LZ1BFR (P.O. Box 830, 1000 Sofia,
Bulgaria).
[TNX LZ1BJ]
OE - The annual Austrian Emergency Communications Training test
will be
run during the All Austrian Contest on 1 May between 5-8
UTC and
14-17 UTC on 80 and 30 metres SSB and CW. State
Department (prefix
OEC), Red Cross (OEH), Customs (OEN), Police (OEP) and
Military
(OEY) operators are are licenced to work OE radioamateurs
in order
to get trained for possible interaction QSOs in
case of an
emergency/disaster. They are not allowed to contact

stations
outside Austria, but SWL reports can be sent via the OE
QSL bureau.
[TNX DL8AAM]
OM - Zsolt, HA6PS and Laci, HA6NL will operate as OM/homecall/p
(QSL via
home calls) from Ruzsina, Slovakia from 30 April to 3
May. They
will participate in the AGCW QRP Contest as OM/HA5RT/P
(QSL via
HA6NL) and in the ARI International DX Contest
(OM/HA6PS/P on
digital modes, OM/HA6NL/P as SOAB CW). [TNX HA6NL]
PJ - Carlo, I4ALU reports he will be active on 10-40 metres
CW from
Bonaire (SA-006) on 11-24 August. QSL via home call,
either direct
(Carlo Amorati, Via Battistelli 10, 40122 Bologna - BO,
Italy) or
through the bureau.
SV - Mike, GW3UOF will operate as SV8/GW3UOF/P from
Kavos, Corfu
(EU-052) on 3-17 May. Expect activity on CW, SSB and
digital modes.
QSL via home call. [TNX GW3UOF]
TA - TC89GP is the call expected to be used during a
special event
operation organized on 23-25 April by the Turkish Radio
Amateurs
Club (TRAC) and the Turkish Federation of Scouts to
commemorate the
89th anniversary of the Battle of Gallipoli. Look for
activity on
10-80 metres all modes. QSL via bureau. [TNX TA1DX]
UA - Alan, UA1PAC and Serge, UA1PAO plan to be active (on 30-
10 metres
CW and SSB) as RK1PWA/P from Storozhevoy Island (RRA RR-
06-30) on
28-30 April. QSL via UA1PAC (Alan V. Kuz'menko, P.O.
Box 88,
Amderma, Nenets oblast, 166744 Russia). [TNX UA1PAC]
UA - Victor, RV3YR and other operators from the Fifth
Ocean Flight
Amateur Radio Club (http://www.qsl.net/5ocean) will
operate (on
10-160 metres SSB, CW and digital modes) special
station RP3YGA
from Brjansk region on 5-12 May, CQ-M International
DX Contest
included. QSL direct only to RV3YR (Victor Borodin,

P.O. Box 1,
Bryansk-27, 241027 Russia). [TNX RV3YR]
VK - Bill, VK4FW expects to operate as VK4FW/P from
Cumberland Island
(OC-160) for three days starting around 4 May. [TNX K4WLS]
ZS - The Adventure Radio Club of Cape Town,
South Africa
(http://www.qsl.net/zs1arc) will operate special
event station
ZS3BLUE on 23-27 April from Verneukpan, the land
speed record
attempt site of Sir Malcolm Campbell, 75 years ago. They
expect to
be active on 160, 80, 40, 20, 15 and 10 metres SSB and on
20 metres
SSTV (RTTY on request). Look for them on 1840 kHz at
17.30 UTC on
24 April and at 3.00 UTC on the 25th. QSL to P.O.
Box 180,
Milnerton 7435, South Africa. [TNX ZS1ZL]

24 April 2004 No 677
$425WW677B
===========================
*** 4 2 5 D X N E W S ***
**** GOOD TO KNOW ... ****
===========================
Edited by I1JQJ & IK1ADH

@ & CW ---> Effective 3 May, an A and C run together (.__._.) will
become the
official Morse character for the @ symbol (the so-
called "commat", a
shortened version of "commercial at").

425DXN - PORTUGUESE VERSION ---> Welcome back to Paulo Pinto,
CT1ETE who,
after a long hiatus due to his business commitments, has
resumed his
contribution to 425 DX News as translator into Portuguese language.

AMATEUR RADIO ON TELETEXT ---> The new page number for the DX
and Contest
information featured by RTV Slovenija [425DXN 671] is 726. RTV
Slovenija can
be found on Eutelsat Hot Bird (12.303 GHz, Pol. V, SR 2750, FEC 3/4).

BARTG AWARDS ---> With immediate effect, Phil Cooper (GU0SUP) is
the new
Awards Manager for the British Amateur Radio Teledata Group
(BARTG). Further
details on the BARTG awards, which include the well-known QCA
(Quarter
Century Award) plus the various Continental awards, can be
found at
www.bartg.demon.co.uk [TNX GU0SUP]

DX CLUSTER WEB INTERFACE ---> The DX cluster of the Araucaria DX
Group can be
reached at http://www.baependi.com.br/dxcluster [TNX PY3NZ]

EI5DI CONTEST LOGGERS ---> Paul, EI5DI advises that all his
contest loggers
are now freeware and can be downloaded at www.ei5di.com (please
sign-up to

the SD-User mailing list to receive setup information for upcoming contests,
and to give Paul feedback and suggestions). They are SD and SDV (many HF and
VHF contests respectively), SDI (IOTA Contest), SDX (DXpeditions & Special
Events), SDC (Commonwealth Contest) and SDU (UBA Contest). The Windows
programs run in text-mode, on any PC and all versions of Windows; Paul is
replacing the remaining DOS programs with Windows text-mode versions.

EP3PTT ---> The Daily DX reports that Lada, OK1LO was able to guest operate
from the club station EP3PTT on 21 April. He was active on 15 metres CW from
9.30 to 16.30 UTC. QSL for this operation via OK1LO.

EURADIO ---> The European Union Radio Amateur Celebration is an event
sponsored by the Irish Radio Transmitters Society (IRTS) on 1 and 2 May to
celebrate the accession of ten new states to the European Union [425DXN 671].
Details of the award available for working the special event stations
(EI25CY, EI25ES, EI25HA, EI25LY, EI25ML, EI25OK, EI25OM, EI25SL, EI25SP,
EI25YL plus the IRTS HQ station EI25EU) are available on the IRTS website
(www.irts.ie) or from Paul EI2CA (paul@...). [TNX EI4GK]

EUROPE DAY 2004 AWARD ---> Sponsored by the Polish MK QTC Magazine and PZK
Zwiazek Krotkofalowcow, this award is available to either licenced amateurs
and SWLs for contacts made with stations located in the European Union member
states between 00.00 and 23.59 UTC on 9 May 2004. For further information
please e-mail Sylwester Jarkiewicz, SP2FAP (qtc@...) [TNX SP2FAP]

QRS WEEK PARTY ---> To encourage newcomers to Morse code operating, under the
sponsoring of the EUCW Society, the FISTS invites all licenced amateurs to
participate in the annual QRS Week Party, which will take place from 25 April
to 1 May. The complete rules are
available at
http://www.asel.demon.co.uk/fists-hq/keynote/kn.pdf [TNX F5NQL]

QSL FJ5IF ---> F5TJP is still awaiting the cards for FJ5IF to arrive from the
printers. Please be patient and refrain from sending second requests. [TNX
DK7LX]

QSL IQ9MY ---> This club call was used on 21-23 April from the lighthouse at
Capo Milazzo (WAIL SI-033). QSL via IT9FCC. [TNX IT9FCC]

QSL T33C ---> The team arrived safely back on Tarawa on 17 April after a
successful eleven day operation (75,000 QSOs) from Banaba Island. Direct QSL
requests should go to F5CWU. As for bureau cards, the team encourages such
requests to be submitted by the O(nline) Q(sl) R (equest) system. OQRS
information is available on the expedition
web site
(www.dx-pedition.de/banaba2004).

QSL T49C ---> Please note that Al Bailey, K8SIX is the QSL manager for T49C
only for contacts made in 2004. Cards for QSOs made in 1997 should go to
SM5KCO. [TNX K8SIX]

QSL VIA PA0RRS ---> Richard, PA0RRS says he expects to receive the cards for
his recent 9M6 and 9M2 operations around mid May.

WAIL ---> For information on the Worked All Italian Lighthouses Award please
visit http://www.425dxn.org/awards/wail/ or
http://www.ari.it/wail.html, or
contact the Award Manager Paolo Garavaglia, IK1NLZ.

*** 4 2 5 D X N E W S ***
**** DX INFORMATION ****
===========================
Edited by I1JQJ & IK1ADH
Direttore Responsabile IK8MRA

3V - Giovanni, I5JHW reports he will participate in the ARI
International
DX Contest (1-2 May) as either 3V8BB or TS0BB from Tunisia.
QSL for
this operation via I5JHW.
BY - A group of operators from the Jiangsu DX Club will be
active as BI4Q
from Cheniu Shan Island (AS-135) on 1-3 May. They will
operate SSB
and CW on 10-40 metres with yagis and power amplifiers.
QSL via
BG4RQP. [TNX BD5RV]
BY - Harry, OH6YF is in Beijing, China and says he will try to
be back on
the air next week. Last weekend he operated from BY1PK.
CX - The Centro Radioaficionados de Rocha (Uruguay), CX1TA
will operate
from the lighthouse at Cape Polonio (ARLHS URU-05) from 30
April to
2 May. QSL via CX1TA. [TNX CX2TG]
EI - Daniel, EJ9FHB will be active from Inishtrahull Island
(EU-121)
starting on 2 May for one week. [TNX DL8AAM]
FO - Yves, F6CTL will be touring French Polynesia in May and
plans to
operate (on 10-40 metres with a vertical and long
wires) from a
number of atolls in three different island groups. [TNX
La Gazette
du DX]
HL - DS4NYE and others will operate as D70LW from Soak Island
(AS-060)
from 30 April to 2 May. QSL route TBA. [TNX JI6KVR]

I - IZ8CCW and others will participate in the ARI
International DX
Contest as IQ8CS. QSL via bureau or direct to IZ8BGY. [TNX
IZ8CCW]
JA - Takeshi, JI3DST will operate as JI3DST/6 from Miyako Island
(AS-079)
[425DXN 677] until around 00 UTC on 9 May. Look for him on
17, 15,
12, 10 and 6 metres SSB, RTTY and SSTV, plus some CW (on
request)
and FM on 10, 6 and 2 metres. QSL via home call,
preferably through
the JARL bureau. [TNX JI3DST]
JA - Look for Taka, JR3TVH/6 and his wife Natsu, JJ3NAW/6 to
operate from
Miyako Island (AS-079, JIIA-079-005) from around 7 UTC on
29 April
to around 00 UTC on 3 May. They plan to be active on 160-
6 metres
(beacon on 50135 kHz) CW, SSB and digital modes. QSL via
home calls,
direct or bureau. [TNX JR3TVH]
KH2 - Nao, JK1FNL will be active as NA8O/KH2 from Guam (OC-
026) on 5-9
May. QSL via JK1FNL. [TNX JJ1BDX]
OY - Kevin, ON5DRE and Erwin, ON4QJ will be active from the
Faroe Islands
(EU-018) on 3-13 May. They plan to operate on 160-2 metres,
with an
emphasis on 80, 40, 17 and 2m. [TNX ON5DRE]
SP - Special event station HF3UE will be active on 80-2 metres
all modes
on 1-16 May to celebrate the accession of Poland to the
European
Union. QSL via SP3RNZ (Greg Dobrychlop, P.O.Box 85,
62510 Konin,
Poland). [TNX SP3RNZ]
SV - Mike, GW3UOF plans to operate as SV8/GW3UOF from
Corfu Island
(EU-052) on 3-17 May. [TNX The Daily DX]
SV - SV1JCZ, SV1GE, SV1RP, SV2BFN, SV2DGH, SV2DXA and SV2FWV
will operate
as SY8DX from Amoliani Island (EU-174) on 19-26 May. QSL
via SV2DGH.
Further information at http://www.qsl.net/sv2dgh/sy8dx [TNX
SV2DGH]
TA - Look for TA1ED/0 and TA3FB/0 to operate from Karaada (AS-
098) on
14-16 May. They plan to be active on 10-80 metres SSB. QSL
via home

calls, direct or bureau. [TNX TA1ED]
UR - Special call EO59QWW wil be aired on all bands from
Ukraie on 5-9
May to celebrate the 59th anniversary of the end of WWII.
QSL via
UY5ZZ (Vladimir F. Latyshenko, P.O. Box 4850,
Zaporozhye 69118,
Ukraine). [TNX UY5ZZ]
V3 - Beto/CX3AN, Mario/CX4CR and Carlos/LU2NI will be active
from Belize
on 4-14 May. They plan to operate on 160-6 metres
SSB, CW and
possibly digital modes. An effort will be made to operate
from one
of the islands in the NA-180 IOTA group. Callsign(s) not
announced,
but QSL via LU2NI. [TNX LU2NI]
VE - Len, VE9MY and Linda, VE9GLF plan to operate mobile from
some of the
Quebec CISA islands in the Montreal area for for two weeks
starting
on 2 May. QSL via home calls. direct or
bureau [TNX
www.islandchaser.com]
VQ9 - Larry, VQ9LA will leave Diego Garcia (AF-006) in December.
He will
go on vacation in June-July, but starting in August
he "will really
try and make a lot of contacts on the lower bands for
everyone to
put VQ9 in their logs". He plans to operate on 30-160
metres CW and
SSB. QSL route at www.qrz.com [TNX G4IUF]
W - Look for K6AA/P to be aired from Catalina Island (NA-066)
from 3 UTC
on 8 May until 13 UTC on the 10th. Eight operators
with three
stations will be active on 10-80 metres mostly SSB with
some CW and
digital modes. QSL via K6AA's address given at www.qrz.com
[TNX The
Daily DX]
XU - Jaak, ES1FB and Oleg, ES1RA will operate as XU7ACE (QSL
via ES1FB)
and XU7ARA (QSL via ES1RA) from Cambodia on 7-19 May. They
plan to
go on a two-day side trip to Koh Pos (AS-133) and be
active as
XU7ACV (QSL via ES1FB). [TNX NG3K]

found at http://www.jarl.or.jp/English/4_Library/A-4-
7_8j1rl/frame.htm [TNX
8J1RL]

QSL 9M8PSB ---> Please note that there is change in the QSL route
for the
current 9M8PSB operation from Satang Besar (OC-165) [425DXN 676].
The new QSL
manager will be IZ1CRR, either direct (Maurizio Bertolino, P.O. Box
2, 12022
Busca - CN, Italy) or through the bureau. [TNX IZ1CRR]

QSL VIA S57DX ---> Slavko reports that direct requests for YI/S57CQ,
YI9T and
A52CQ are processed the same day he receives them. At all events,
all QSOs
are being confirmed through the bureau.

QSL VIA SM1TDE ---> Cards for 5H3/SM1TDE and HN0Z are being
printed and
incoming cards will be replied to as soon as possible. QSL requests
for YI9ZF
are processed the same day Eric receives them. The first batch
of bureau
cards were mailed a few days ago. [TNX SM1TDE]

Subject: ΝΕΩΤΕΡΑ ΓΙΑ ΤΗΝ ΕΚΔΗΛΩΣΗ

Αγαπητοί συνάδελφοι,
Στις 6 Μαΐου ΞΕΚΙΝΑΕΙ το ΕΘΕΛΟΝΤΙΚΟ ΠΡΟΓΡΑΜΜΑ ΣΥΜΜΕΤΟΧΗΣ των
Ελλήνων Ραδιοερασιτεχνών στους Ολυμπιακούς Αγώνες. Πρόκειται για μια
σημαντική εκδήλωση που δημιουργήθηκε μέσα από το SV HAM και την
οποία
αγκάλιασε και στήριξε όλη η Ελλάδα με σκοπό την υλοποίηση μιας
γενναίας και
ουσιαστικής συμμετοχής των Ελλήνων Ραδιοερασιτεχνών στα Ολυμπιακά
δρώμενα, με αφετηρία 100 μέρες πριν από την επίσημη έναρξη των
Ολυμπιακών
Αγώνων.
Υπάρχουν μερικές αλλαγές σε ότι αφορά τον βασικό σχεδιασμό της
όλης εκδήλωσης στο θέμα της χρησιμοποίησης των ειδικών διακριτικών
που
είχαν αρχικά προγραμματιστεί.

ΤΕΛΙΚΑ θα χρησιμοποιηθούν τα ειδικά διακριτικά (call sign) της
σειράς SX9A έως SX1A ως ακολούθως:

Περίοδος 1η.

ΠΕΡΙΟΧΗ (region) CALLSIGN Από Έως

2004

Μετά από πολυήμερες διαπραγματεύσεις με το Υπουργείο Μεταφορών
&
Επικοινωνιών συμφωνήθηκε να χορηγηθούν τα παραπάνω διακριτικά για
τους
αντίστοιχους σταθμούς και εκδόθηκαν οι σχετικές άδειες. Αποκλείστηκε
από το ΥΠ ΜΕ οποιοδήποτε άλλο χαρακτηριστικό που σχετίζεται ευθέως
με
τους Ολυμπιακούς Αγώνες . Υπενθυμίζεται ότι είχε ζητηθεί το OG
(Olympic
Games) ως suffix το οποίο και δεν εγκρίθηκε αφού το ΥΠ ΜΕ είχε
χορηγήσει
στους Έλληνες ραδιοερασιτέχνες και από τις 1.7.2004 με την υπ αριθμ.
17652/625/22.03.2004 εγκύκλιό του τα ειδικά διακριτικά SX2004/SV1XXX
και
SY2004/SV1XXX για τους Ολυμπιακούς Αγώνες.
Το παρασκήνιο και ο αγώνας που δόθηκε για την εξασφάλιση των 9
αυτών διακριτικών της σειράς SX9A έως SX1A για την παρούσα εκδήλωση
θα
μας απασχολήσει αργότερα γιατί έχει σημασία να κατανοήσουν όλοι τον
τρόπο
με τον οποίον αντιλαμβάνονται "κάποιοι" την διαχείριση παρόμοιων
γεγονότων και την λήψη αποφάσεων σε ανάλογα θέματα που αφορούν όλους
μας.
Αυτό που προέχει άμεσα στην παρούσα φάση είναι το ξεκίνημα αυτής της
εκδήλωσης η οποία σίγουρα θα καταγραφεί στην Ελληνική
Ραδιοερασιτεχνική

ιστορία σαν την μεγαλύτερη ΠΑΝΕΛΛΗΝΙΑ ΣΥΝΕΥΡΕΣΗ και ΕΝΩΤΙΚΗ
ΠΡΟΣΠΑΘΕΙΑ όλων
των Ελλήνων Ραδιοερασιτεχνών που δραστηριοποιούνται στα βραχέα σε
έναν
κοινό στόχο και σκοπό: Το να μεταδώσουν δηλαδή με τους ασυρμάτους
τους
στο εξωτερικό το σημαντικό μήνυμα των ΟΑ και μάλιστα με έναν τρόπο
που
όμοιό του δεν έχει γίνει ποτέ (αντίστροφη μέτρηση) σε ανάλογες
εκδηλώσεις. Για το εσωτερικό δε, να καταδείξουν με περηφάνια ότι ο
Έλληνας
ραδιοερασιτέχνης είναι ταγμένος να υπηρετεί την πατρίδα και αποτελεί
για
αυτήν Εθνικό Κεφάλαιο. Αποτελώντας δε, μια από τις πλέον χρήσιμες,
αγνές
και ευγενικές μορφές εθελοντισμού, δεν θα μπορούσε να μείνει
ασυγκίνητος στο κάλεσμα για συμμετοχή του σε μια τέτοια οργανωμένη
και ελκυστική
για τον απαράμιλλο εθελοντισμό του, πρόταση.
Επίσης η επιτυχία αυτής της εκδήλωσης θα αποτελέσει την απαρχή
και την μεγάλη "πρόβα" για κάτι που είναι επιθυμία και πόθος όλων
μας,
όπως η δημιουργία την επόμενη χρονιά ενός διεθνούς διήμερου
Ελληνικού
διαγωνισμού (DX-contest) σε ημερομηνία που θα καθοριστεί απ όλους
μας μέσα
στους επόμενους μήνες.
Σας ενημερώνουμε ότι ήδη έχει γίνει αναβάθμιση της σχετικής
σελίδας της εκδήλωσης η οποία βρίσκεται στην γνωστή διεύθυνση:
http://www.qsl.net/sv2ngct/sx.htm και συνεχώς θα ανανεώνεται.
Υπάρχει η μέριμνα ώστε σε λίγες μέρες να γίνει μετάφραση στην
Αγγλική της έκδοση αφού θα υπάρχουν εκεί χρήσιμες πληροφορίες τόσο
για την
όλη μας εκδήλωση, για τους ίδιους τους Ολυμπιακούς Αγώνες για τους
επισκέπτες από εσωτερικό και εξωτερικό, όσο και για τα Online logs,
βραβεία-awards κ.λ.π.
Μετά την χορήγηση των ειδικών διακριτικών από το ΥΠ ΜΕ της
σειράς
SX9A έως SX1A (με μονοψήφιο αριθμό στο πρόθεμα) και τον αποκλεισμό
της
χορήγησης διπλών αριθμών εντός του call sign όπως SX99A-SX98A-SX97A
κ.λ.π. τα οποία και ζητήθηκαν για την υλοποίηση του αρχικού
σχεδιασμού για
την αντίστροφη μέτρηση των ημερών μέχρι τους ΟΑ, θα χρησιμοποιήσουμε
ΥΠΑΚΟΥΟΝΤΑΣ στην άδικη για μας αυτή εντολή του ΥΠ ΜΕ και θα
πραγματοποιήσουμε το πρόγραμμα μας για αντίστροφη μέτρηση
(countdown) εκπέμποντας
μετά το χορηγηθέν ειδικό διακριτικό με κενό τους αριθμητικούς
χαρακτήρες

/99 ή /98 ή /97 κ.λ.π. μέχρι τις 3 Αυγούστου .
Έτσι θα γίνει εφαρμογή των σχετικών διατάξεων και κανονισμών
που
υπάρχουν, ώστε να εξασφαλίζεται η νομιμότητα των χορηγηθέντων
χαρακτηριστικών μας και μετά τα χαρακτηριστικά μας μπορούμε να
εκπέμψουμε
οποιοδήποτε χαρακτήρα ή γράμμα (στην προκειμένη περίπτωση για SSB
και CW -
κενό- μια κάθετο -δύο αριθμούς και για RTTY-PSK κ.λ.π. -κενό-παύλα-
δύο
αριθμούς)
Π.χ.

στις 6 Μαίου
SSB --> DL1XXX DE SX9A /99 59
CW --> DL1XXX DE SX9A /99 599
RTTY-> DL1XXX DE SX9A -99 599
PSK --> DL1XXX DE SX9A -99 599

στις 7 Μαίου
SSB --> DL1XXX DE SX9A /98 59
CW --> DL1XXX DE SX9A /98 599
RTTY-> DL1XXX DE SX9A -98 599
PSK --> DL1XXX DE SX9A -98 599

στις 8 Μαίου
SSB --> DL1XXX DE SX9A /97 59
CW --> DL1XXX DE SX9A /97 599
RTTY-> DL1XXX DE SX9A -97 599
PSK --> DL1XXX DE SX9A -97 599

κ.ο.κ.

αφού κανένας νόμος και καμιά διάταξη δεν μας απαγορεύει και
δεν
μας εμποδίζει να κάνουμε κάτι τέτοιο. Έτσι το χαρακτηριστικό μας
παραμένει αυτό που χορηγήθηκε από το ΥΠ ΜΕ π.χ. το SX9A και στην
συνέχεια
μπορούμε να εκπέμψουμε ΟΤΙΔΗΠΟΤΕ με κενό όπως
παύλα-κάθετο-ψιλές-δασείες-αριθμούς-γράμματα κ.λ.π.
Αυτό όπως καταλαβαίνετε έγινε και για πρακτικούς λόγος
(εκτύπωση
9 ειδών καρτών QSL, για τήρηση 9 logbook κ.λ.π.) αφού στην ουσία τα
special calls θα είναι 9 και όχι 99.
Στην νέα σελίδα της εκδήλωσης υπάρχουν οι σχετικές οδηγίες
τόσο
προς τους πιλοτικούς σταθμούς όσο και στους ημερήσιους-απλούς
σταθμούς.
Θυμηθείτε ότι η όλη εκδήλωση στηρίζεται στην συνεννόηση σας με τους
πιλοτικούς σας σταθμούς, οι οποίοι θα έχουν και την εποπτεία της

τήρησης
των χρονοδιαγραμμάτων εκπομπών στην περιοχή σας.

Εάν κάποιος συνάδελφος εκτός των ενενήντα (90) που έχουν
στείλει
αιτήσεις συμμετοχής μέχρι τώρα, θέλει να συμμετάσχει στην εκδήλωση
αυτή
μπορεί να επικοινωνήσει πλέον ΑΠΕΥΘΕΙΑΣ με τον πιλοτικό σταθμό της
περιοχής του για να του δώσει τα απαραίτητα στοιχεία και να
ενημερωθεί
σχετικά. Προσοχή απαιτείται στην περιοχή SV8 όπου καλό θα είναι να
ενημερώνεται το SVHAM και μέσω αυτού οι υπόλοιποι, αφού η εν λόγω
περιοχή
παρουσιάζει ιδιαιτερότητα λόγω της μεγάλης έκτασης της και όσο να
προσπαθήσει ο πιλοτικός της σταθμός δεν θα έχει τον πλήρη έλεγχο
στους
συμμετάσχοντες ή και σε εκείνους που θα εκδηλώσουν ενδιαφέρον στην
πορεία.

Τέλος θα ήθελα να ευχαριστήσω όλους σας, ιδιαίτερα δε τους
πιλοτικούς σταθμούς για την συνεργασία τους και την αλληλοβοήθεια
και εύχομαι
να κάνουμε ΟΛΟΙ ΜΑΖΙ την εκδήλωση αυτή ΟΡΟΣΗΜΟ για το μέλλον του
Ελληνικού Ραδιοερασιτεχνισμού και να αποδείξουμε και στους πιο
δύσπιστους ότι
το hobby είναι ΣΥΛΛΟΓΙΚΟ και όχι ατομικό όπως τείνει να επικρατήσει
στις μέρες μας. Ήδη κάποιοι τοπικοί Σύλλογοι έχουν εκδηλώσει
ενδιαφέρον
για την έκδοση σχετικών βραβείων (Awards) π.χ. για τους Έλληνες που
θα
κάνουν τις περισσότερες επαφές από κάθε region ή τους ξένους που θα
κάνουν περισσότερες επαφές με Ελληνικά regions κ.λ.π. Περισσότερα σε
λίγες
μέρες από την σελίδα της εκδήλωσης και το SVHAM.
Κάθε πρόταση είναι ευπρόσδεκτη ..

Με πολλές ευχές για ΠΟΛΛΑ DX
ΚΑΛΗ ΕΠΙΤΥΧΙΑ ΣΕ ΟΛΟΥΣ
73 από το SV HAM

1182. News from "thegreekhamradio" e-group

Yahoo group: thegreekhamradio
Date: 2004-05-07 09:39:08 UTC
From: sxanthop
Topic: 1182 Message: 1182

Καλημέρα σε όλους,

Θα ήθελα να κάνω μια μικρή ενημέρωση ως προς μια μικρή "αλλαγή" που έχει γίνει απο χθες σε αυτή την λίστα/group.

Λόγω του ότι κάποιες στιγμές ίσως απουσιάσω/λείψω για κάποιο διάστημα (καλοκαίρι έρχεται) απο το σπίτι και για την καλή λειτουργία της λίστας αυτής, σκέφτηκα οτι θα είναι καλύτερο αν υπάρχει και κάποιος/κάποια άλλα άτομα υπεύθυνα για την λειτουργία τις λίστας.

Βέβαια αν και η λίστα αυτή εδώ και καιρό που την υποστιρίζουν τα μέλη της,λειτουργεί χωρίς προβλήματα (σχετικά) καλό θα ήταν να υπάρχουν και 1-2 άτομα που να μπορούν να βοηθήσουν σε κάποιες απορίες/στιγμές που εγώ ίσως να μην μπορώ/γνωρίζω.

Έτσι λοιπόν απο χθές, έχει αναλάβει -κατόπιν επικοινωνίας- την συν-ευθύνη του co-moderator της λίστας ο συνάδελφος SV2ATD (Αλέξανδρος Δελιγιανίδης).

Έτσι λοιπόν για ότι απορίες/ερωτήσεις έχετε ως προς κάτι που σας απασχολεί, θα μπορείτε να επικοινωνείτε ΚΑΙ ΜΕ ΤΟΝ Αλέξανδρο (φυσικά και εγώ είμαι στην διάθεση σας) και φυσικά ΟΛΟΙ μαζί θα μπορούμε να πέρνουμε ποιο καλές-σοφές αποφάσεις για την καλή συν-λειτουργεία αυτού του e-group.

Θέλω με την σειρά μου να ευχαριστήσω τον Αλέξανδρο που δέχτηκε με χαρά αυτή την ευθήνη και επίσης ΕΝΑ ΜΕΓΑΛΟ ευχαριστώ σε όσους απο εσάς υποστηρίζουν και θα συνεχίσουν να το κάνουν αυτό, αυτο το e-group που σκοπό έχει την ενημέρωση των Ελλήνων Ραδιοερασιτεχνών.

Σαν το !ΠΡΩΤΟ! e-group που έχει δημιουργηθεί, υποσχόμαστε οτι θα κάνουμε το καλύτερο για την δική σας ενημέρωση όσον αφορά τα ελληνικά δρόμενα του Ραδιοερασιτεχνισμού (και όχι μόνο) και θα συνεχίσουμε τις προσπάθειες για την συνεχή διάδωση του ελληνικού Ραδιοερασιτεχνισμού ανα τον κόσμο.

Με εκτίμηση,

Σπύρος Ξανθόπουλος

1183. for the digital mode users

Yahoo group: thegreekhamradio
Date: 2004-05-07 10:24:24 UTC
From: sxanthop
Topic: 1183 Message: 1183

From: DJ4DM @ OE9XPI.AUT.EU (Dieter)
To: ALL @ WW
X-Info: Upload without password authentication

Hi:
All those of us that do like digital modes might give a try to
MultiPSK vers.
3.1
This fine program, while not perfect in MT63, does contain an
experimental
mode called FEC31. To be precise it is called BPSKFEC31, which
points to the
fact that it is an enhanced mode based on the original PSK 31 with
the same
bandwidth.
As it turns out is FEC31 very well suited for short wave dx
contacts due to
its superior handling of qsb and selective fading. This can be seen
by
tuning to 21.119 MHz where there is a group of dx-ers meeting in
that mode
around 14:15 Z. It is remarkable how stady the copy is there and
how
useful the band is in spite of the fact, that no other stations
are active
on 15 m at that time usually.
So do take a chance and give FEC31 a chance to further proove its
ability.

On might convene on other frequencies as well like
14.081
3.581
10.142
7.036

in general the problem seems to be that there are so many modes
available
and not enough oms to use them, if those do not meet at certain
frequencies
it is hard to get in contact.
Do give FEC31 a chance!
Regards and 73s

Dieter

Prevention of SPAM

SPAM (undesired Mail) is increasing from many sites. A real flood
develops. A few rules have to be followed to prevent SPAM:

1: FRIENDS
Many friends like to send their "important mails" to all people
they know, and
they repeat the same and forward these mails to all people they
know ...
this way you reach fast a very large number of persons, with a
large list of
e-mail addresses. Some Spammers may use this list as an
excellent address
database for their purposes ...
To prevent this kind of SPAM you have to educate your friends
NOT to use the "To:" or "Cc:" function. For that purpose they
should use
the "Bcc:" (blind carbon copy) function of the e-mail program.
The first address should be their own "To:" and all recipients
of the mail
with the "Bcc:". In the first line of the body they may add:
"Sent to list with Bcc:"
This way the mail reaches all recipients, but the address of the
others
is not visible in the mail.

2. Electronic greeting cards
Everybody sending or receiving electronic greeting cards (E-
cards)
is registered in address databases. These databases are sold and
interchanged between companies and lead to all kind of
advertising mail
(SPAM) from all over the world.
If you don't like this, then you shall not use E-cards.
(Neither receive them, nor send them) and let your friends know,
that you do not read them.
You can write lovely mail with your e-mail program and insert
nice pictures with flowers etc. This even looks much better than
using the commercial cards!

3. Publishing your E-Mail address
Who participates in internet forums, signing electronic guest

books, or having
an own Homepage on the Internet should not publish his e-mail address in text form.
All these directories are excellent SPAM generators, as the robots scan these
directories.
Your e-mail address there should look like this e.g.:
joesmithNOSPAM@...
with the comment "remove NOSPAM in the address", or by indicating your e-mail
address in form of a GIF- or JPG picture, instead of text to prevent automatic scanning
by robots.
Some automatic systems have to know your correct address to mail back.
In that case open a temporary email address (e.g. at hotmail) and do not indicate
your official standard address.

4. SPAM protection programs
There exist some very efficient programs which recognize many SPAM mails
and delete them when reaching your input.
However, before using these programs, you should prevent the generation
of SPAM with the above mentioned points.
If you want to use one of these programs, I recommend you the very efficient
Mailwasher program (free download and use), available at
http://www.mailwasher.net/download.php

5. Answering SPAM
Here a further important suggestion:
Do never reply a SPAM mail.
If you reply a Spam mail to unsubscribe, then the contrary will happen,
because the sender knows, that the mail is red ... and you will receive
even more SPAM mail.

and furthermore ...
Is your computer protected as described in SECURITY AND INTERNET ?

Μπράβο Αλέξανδρε. Μόλις πήρα τα μηνύματα μου και είδα οτι ο συγκεκριμένος χρήστης το είχε κάνει και στο SVHAM αυτό και ετοιμαζόμουν να τον κάνω ban.

Όπως τόνισες και εσύ, θα προσπαθήσουμε να μην έχουμε τέτοια σε αυτό το group.

Νέα έκδοση του γνωστού e-mail Worm Sober.G

Η Inter Engineering, F-Secure και MIMEsweeper προειδοποιούν τους χρήστες υπολογιστών για ένα νέο variant του e-mail Worm Sober με όνομα Sober.G. Το worm είναι γραμμένο σε Visual Basic. Το εκτελέσιμο αρχείο του είναι PE, έχει μέγεθος 49661 bytes και είναι συμπιεσμένο με μια τροποποιημένη έκδοση του UPX. Το worm διαθέτη δική του μηχανή SMTP.

Με την εγκατάσταση του, εμφανίζει το ακόλουθο μήνυμα:

```
File not found

Special UnZip Data- Module

is missing

Open with Notepad?

<Yes> <No>
```

Αν ο χρήστης κάνει κλικ στο <Yes>, το worm δημιουργεί ένα converted_<τυχαίο_όνομα>.txt αρχείο, όπου <τυχαίο_όνομα> είναι το όνομα του worm. Το worm γράφει τυχαία διάφορες τιμές (σκουπίδια) στο αρχείο αυτό και το ανοίγει με το Σημειωματάριο (Notepad) των Windows. Τότε γίνεται και η εγκατάσταση στο σύστημα. Αντιγράφει το εαυτό του στον φάκελο System των Windows με ένα ημι-τυχαίο όνομα και κατάληξη EXE. Για τον σχηματισμό του ονόματος κάνει χρήση των παρακάτω:

```
sys, host, dir, explorer, win, run, log, 32, disc, crypt, data,
diag, spool, service, smss32.
```

Έπειτα το worm δημιουργεί καταχωρίσεις στα κλειδιά του μητρώου των Windows (registry) που αφορούν στην εκκίνηση του συστήματος. Τα ονόματα των κλειδιών είναι επίσης ημι-τυχαία δημιουργούμενα από την παραπάνω λίστα και έχουν ως εξής:

```
[HKCU\Software\Microsoft\Windows\CurrentVersion\Run]
```

<τυχαίο_όνομα>” = “%WinSysDir%\<τυχαίο_όνομα>.exe

```
[HKLM\Software\Microsoft\Windows\CurrentVersion\Run]
```

<τυχαίο_όνομα>” = “%WinSysDir%\<τυχαίο_όνομα>.exe

Κατά τη διάρκεια του κύκλου της εγκατάστασής του το worm δημιουργεί τα ακόλουθα αρχεία στον φάκελο System των Windows:

bcegfds.lll
zhcarxxi.vvx
cvqaikxt.apk
Αυτά τα αρχεία έχουν μηδενικό μέγεθος και χρησιμοποιούνται για την απενεργοποίηση τυχών προηγούμενων variant του Sober σε ήδη μολυσμένο υπολογιστή.

Επιπρόσθετα δημιουργούνται και τα xdatxzap.zxp και datsobex.wwr τα οποία είναι MIME αντίγραφα του εκτελέσιμου αρχείου του worm και ενός συμπιεσμένου αρχείου ZIP με το worm. Χρήση τους γίνεται κατά την εξάπλωση του worm μέσω e-mails. Τέλος το worm δημιουργεί ένα αρχείο NoSpam.readme στον φάκελο System των Windows με Γερμανικό κείμενο.

Το worm αναζητά αρχεία με τις παρακάτω καταλήξεις σε όλους τους σκληρούς δίσκους με σκοπό να εξάγει διευθύνσεις e-mail:

```
pmr, stm, slk, inbox, imb, csv, bak, imh, xhtml, imm, imh, cms, nws,
vcf, ctl, dhtm, cgi, pp, ppt, ,msg, jsp, oft, vbs, uin, ldb, abc,
pst, cfg, mdw, mbx, mdx, mda, adp, nab, fdb, vap, dsp, ade, sln,
dsw, mde, frm, bas, adr, cls, ini, ldif, log, mdb, xml, wsh, tbb,
abx, abd, adb, pl, rtf, mmf, doc, ods, nch, xls, nsf, txt, wab, eml,
hlp, mht, nfo, php, asp, shtml, dbx.
```

Οι διευθύνσεις e-mail που συγκεντρώνονται, αποθηκεύονται στα παρακάτω 3 αρχεία που δημιουργούνται στον φάκελο System των Windows:

```
winzweier.dats
wincheck32.dats
winexpoder.dats
```

Όταν το worm φορτωθεί στη μνήμη, εμποδίζει πρόσβαση τόσο σε αυτά τα 3 αρχεία, όσο και στα MIME αρχεία του και το εκτελέσιμό του. Αγνοεί διευθύνσεις e-mail που περιέχουν τα παρακάτω:

hotmail.com
google.com
microsoft.com
bigfoot.com
yahoo.com
t-online.de
Το worm αποστέλλει e-mails με Αγγλικό και Γερμανικό κείμενο καθώς και το αρχείο του σε μορφή εκτελέσιμου ή συμπιεσμένου ZIP αρχείου.

Στα προϊόντα της F-Secure η ανίχνευση του Sober.G είναι δυνατή με χρήση της βάσης αναγνώρισης ιών Version=2004-05-12_01 ή νεότερης.

Γειά σας,

Σήμερα (εγώ) παρέλαβα το δέμα που περιείχε πληροφορίες σε ένα cd,
σχετικά με την ραδιοερασιτεχνική συνάντηση που έγινε πριν λίγους
μήνες που αφορούσε διάφορα θέματα σε σχέση με τους ραδιοερασιτέχνες,
όπως π.χ η κάλυψη των Ο.Α ή η επιτήρηση του φάσματος απο την ΕΕΤΤ,ο
νέος κανονισμός κτλ.

Καλή η κίνηση τους αυτή ομολογώ, μας το είχαν πει κι'όλας αλλά για
να είμαι ειλικρινής το είχα ξεχάσει.

Επίσης μέσα στο cd υπήρχαν τα πρακτικά της συνάντησης, οι ομιλητές,
και επίσης η θεματολογία απο πλευράς ομιλητών του υπουργείου.

Ακόμη, υπάρχει ο καινουργίος κανονισμός σε pdf format καθώς επίσης
και κάποιες (λίγες) φωτογραφίες.

Τέλος υπάρχουν και οι παρατηρήσεις που έχουν γίνει απο τους
διάφορους συναδέλφους όσον αφορά αυτά που συζητήθηκαν στο συνέδριο
και κάποιες απόψεις όσον αφορά ζητήματα που μας αφορούν.

73 de SV2EVS

Υ.Γ Τα repeaters που μας "υποσχέθηκαν" πότε είπαμε θα τα πάρουμε ;
Πότε ; Ααααχαααχααχααα....!!!

There will be a Special Event Station in operation during the Month
of
June for the 60th Anniversary of D Day.The Station Call-Sign will be
GB2BMR and it will be operating from the Ex Y Service Listening
Station at
Beaumanor Park. Woodhouse Eaves.Nr Loughborough.
Leicestershire..
This received enemy messages during WW2 and transfered them on to
Bletchley Park for De-codeing on Enigma..The Site is being run by
Members
of the Beaumanor and Garats Hay Amateur Radio Society.The Station
will be
on the air on all Bands and Modes where possible from 0800 hrs to
1800hrs.from Thursday 3rd June to Tues 8th June 2004 also on other
days
and times until 27thJune when possible.
All Visitors are Welcome,especially Ex Servicemen and Women and Ex Y
Service Operators. All details of the Site and History are on our
Website
including direction maps for Visitors.
The Website Address is:= www.beaumanor-ars.org
Please contact us if you hear us on the bands.Special Events QSL
Cards to
all Contacts.
Best Regards To All ...Ted G1LGO....

===========================
*** 4 2 5 D X N E W S ***
**** DX INFORMATION ****
===========================
Edited by I1JQJ & IK1ADH
Direttore Responsabile IK8MRA

CE0_ei - Scott, AC3A will operate (on 40-10 metres with an
emphasis on 6
metres) as CE0/AC3A from Easter Island (SA-001) on 20-24
June. QSl
via home call. [TNX AC3A]
CT - CT1GFK, CT1GPQ, CT2ITZ and CT2IUA will operate as
CS0RCL/P from
Pessegueiro Island (EU-167) on 11-13 June. QSL via CS0RCL
(bureau)
or CT1GFK (direct). Further information at
http://www.qsl.net/ct1gfk
[TNX Boletim Portugues de DX]
CT - Special call CS5E will be used on 12 June from Gibalta
Lighthouse
(ARLHS POR-022, DFP FES-09). Expect activity on 10, 15,
20 and 40
metres SSB. QSL via CT1CSY. [TNX CT1END]
CT - Joe, DL8HCZ will be active as CQ14HZE (special prefix
for the
Football European Championship) from Portugal from 12
June and 3
July. He plans to operate on 20-20 metres, plus 6 and 2
metres, SSB
and CW. Special QSL direct to Funk-Telegramm,
Gruetzmuehlenweg 23,
D-22339 Hamburg, Germany or via bureau to DL8HCZ. [TNX
DL8HCZ]
EA8 - Look for Herman, EA8/ON4QX to operate on all bands mostly
RTTY from
Gran Canaria (AF-004) on 12-26 June. QSL via home call.
[TNX ON4QX]
F - Special event station TM6ACO will be activated on all bands
SSB and

CW on 5-13 June for the 24 Hours of Le Mans. QSL via
F6KFI. Further
information at http://asso.proxiland.fr/aras72/ [TNX F5TJC]
F - Michel, F6IPS will operate as TM6SME (TM6 Sainte Mere
Eglise) on
6-20 June for the 60th anniversary of D-Day. QSL via home
call. [TNX
La Gazette du DX]
F - Francois, F8DVD will participate in the IOTA Contest (24-25
July) as
TM8N from Noirmoutier Island (EU-064, DIFM AT-20). QSL
via home
call, either direct (Francois Bergez, 6 rue de la
Liberte, 71000
Macon, France) or through the bureau. If QSLling
direct, please
enclose 1 IRC, or 1 USD (Europe) or 2 USD (outside
Europe). [TNX
F5NQL]
FO - Vincent, F5MJV is in the French Navy and will be
touring French
Polynesia, the Marquesas and the Austral Islands for
one year
starting on 1 July. A FO5 callsign has been applied for and
he plans
to operate in his spare time mainly CW with 100 watts and a
vertical
antenna. Vincent expects to visit and operate from
various IOTA
groups, including a few rare ones. Further information will
be given
in due course. QSL via F5NQL, direct or bureau. [TNX F5NQL]
G - Chris, G1VDP plans to operate from The Lizard Lighthouse
(ENG-068)
on 26 July and Trevose Head Lighthouse (ENG-157) on 2
August. Look
for him on or around 7064 kHz in his mornings and 21265
kHz in his
afternoons. If he can get his G5RV erected, he will try
also 14263
kHz. [TNX G1VDP]
GD - Members of the Wrexham and District ARS will be operating
as GB4IOM
and GB4SPT from Scarlett Point, a disused Coast Guard look
out tower
on the Isle of Man (EU-116), on 1-8 September. They
plan to be
active on all HF Bands (CW, SSB, RTTY, PSK and some SSTV)
with three
stations, plus 50Mhz, 70Mhz, 144Mhz and 432Mhz, with

particular
attention being paid to 160 and 80 metres. QSL via the
bureau or
direct to M1LCR. Th web site for the
operation is at
http://www.gb4iom.co.uk [TNX NG3K]
GM - Weather permitting, Peter, GM3OFT will operate on 15-80
metres SSB
as GM3OFT/P from several islands - namely Bressay, West
Burra, East
Burra, Trondra, Papa Stour, Vaila, Foula, Outer Skerries,
Unst, Uyea
(on 27-28 June, first time activation), Linga (on 28-29
June, first
time activation), Fetlar, Yell, Whalsay, Muckle Roe and
Mainland -
in the Shetlands (EU-012) from 17 June to 1 July. His
detailed
itinerary is available at
http://www.gmdx.org.uk/iosa/shet2004.pdf
[TNX GM3OFT]
HB0 - Dov, 4Z4DX will be active as HB0/M0DOV from Liechtenstein
on 27-28
June. He plans to concentrate on RTTY/PSK31 and the WARC
bands. QSL
via 4Z4DX. [TNX NG3K]
HI - ON4IQ, ON4QX, HI8ROX and HI3TEJ will participate in the
IOTA Contest
as HI3/ON4QX from Hispaniola (NA-096), Dominican Republic.
QSL via
ON4QX. [TNX ON4QX]
I - Look for IA5/IK5PWQ, IA5/IK5WOB and IA5/IK5XCT to be
active from
Elba Island (EU-028, IIA LI-001) for about 12 hours on 13
June. They
plan to operate on 10, 12, 15, 17, 20, 30 and 40 metres CW
and SSB.
QSL via home calls. [TNX IK5PWQ]
I - IK2DUV, IK2UVT and IK4JPR will operate from Palmaria
Island (not
IOTA, IIA SP-001) on 18-21 June. Main activity on 6 metres,
but they
will operate on the HF bands as well. QSL via bureau. [TNX
IK2DUV]
I - ARI Ancona will operate special station IY6GM from Monte
Cappuccini
(WAIL MA-003, ARLHS ITA-104) on 6-10 August. The
activity will
celebrate the 100th anniversary of the experiments
carried out by

Guglielmo Marconi from that place. QSL via I6GFX, direct
(P.O. Box
122, 60100 Ancona - AN, Italy) or bureau. [TNX I6GFX]
IS0 - Freddy, IZ1EPM reports he will operate again as II0P from
Sardinia
(EU-024, JN41OF) from July to September. His main focus
will be on 6
metres, but he will operate on HF as well, with an
emphasis on the
WARC bands. He also plans to participate in several
contests.
OZ - Look for Jakob, OZ7AEI to be active as OZ7AEI/P from
Jegindo Island
(EU-171, NJ-006) on 5 June. He plans to start around 7
UTC on 40
metres and to QSY on 20m later. Further information
on Jakob's
island and lighthouse operations can be
found at
http://oz7aei.qrz.dk [TNX OZ7AEI]
OZ - OZ1HQ will be the Experimenterende Danske
Radioamatoerer's (EDR)
Headquarter station during this year's IARU HF
Championship (10-11
July). QSL via OZ1ACB. Details can be
found at
http://www.oz0j.dk/oz1hq [TNX OZ0J]
PY - ZX7AA and ZW7AA will be aired on all bands and modes from
Fortaleza
Dos Reis Magos on 11-13 June. QSL via PS7KC, direct (P.O.
Box 251,
59010-970 Natal - RN, Brazil) or bureau. [TNX PS7AB]
S7 - Davide, IZ3EFL is currently active as S79DF from the
Seychelles
(AF-024). Look for him during his evening hours on 20
metres SSB. He
expects to remain there for quite some time and he
might also
operate from Aldabra (AF-025). QSL via IV3TDM, direct or
bureau.
SV9 - Panos, SV8DTL will operate (on 20, 15, 10 and 6
metres) as
SV9/SV8DTL from Crete (EU-015) on 5-15 June. QSL via
home call,
direct or bureau. [TNX SV8DTL]
VP9 - Tom, W9AEB reports he will operate as VP9/W9AEB
from Bermuda
(NA-005) until 11 June. QSL via WF9V.
W - The Jefferson Amateur Radio Club will operate as W5D on 5-6
June to

commemorate the 60th anniversary of D-Day. The special
event station
will be located in the National D-Day Museum in
New Orleans
(http://www.ddaymuseum.org/) and will be on the air from
14 to 23
UTC each day. QSL via W5GAD (Jefferson Amateur Radio Club,
P.O. Box
73665, Metarie, LA 70033, USA). [TNX F5NQL]

FRIEDRICHSHAFEN 2004 ---> Ham Radio (the biggest amateur radio
event in
Europe) 2003 will take place at Friedrichshafen on 25-27
June. Further
information is available at
http://www.darc.de/referate/ausland/hamradio/index.html
http://www.messe-friedrichshafen.de/fairs/ham_radio/index.php3

NEW 9A AWARDS ---> The Croatian Counties Award is for working
stations
located in the 21 Croatian counties and the Worked 9A DIG Members
Awars is
for contacting Croatian members of the Diplom Interesse Gruppe
(DIG). Both
the awards are issued to either licensed amateur radio operators
and SWLs.
Please visit http://www.qsl.net/9a7k for full details or e-mail
the Award
Manager Kresimir Juratovic, 9A7K
(kresimir.juratovic@... or
9a7k@...). [TNX 9A7K]

QSL NA-220 ---> The QSL cards for OX/DL2SWW and OX/DL2VFR
(Maniitsoq Island)
have been printed and requests are being processed right now.
Please note
that direct requests must include 2 USD or 1 new IRC for non
Europeans, 1 USD
or 1 new IRC for Europeans. Direct cards without sufficient
return postage
will be replied to via bureau. Correct addresses for either DL2SWW
(the one
at www.qrz.com is wrong) and DL2VFR can be
found at

http://www.iota-expedition.com [TNX DL2VFR]

QSL UK/JI2MED ---> The preferred QSL route is to JI2MED via the
JARL bureau.
Direct cards should be sent to Manabu Shimoyashiro, 107-B Amir
Temur str.,
Tashkent 70084, Uzbekistan. [TNX The Daily DX]

QSL V8JIM ---> Phil, G3SWH reports that all the direct QSL requests
received
to date have been processed and that the cards themselves will be
mailed over
the course of the next few days.

QSL XU7ACE ---> Cards for all of XU7ACE's operations (including
the latest
one in May) can be received through Oleg, ES1RA (XU7ARA). His
address is Oleg
Mir, P.O. Box 806, 11702 Tallinn, Estonia. [TNX ES1RA]

ZT6T ---> This special callsign, issued at the very last minute on
28 May,
was used by Vlado, ZS6MG on 40 metres during the CQ WPX CW
Contest. Vlado
says thet the "new callsign will be used only in international HF
contests".
QSL via ZS6MG (Vladimir Karamitrov, P.O. Box 1788, Bramley 2018,
Gauteng,
South Africa).

+ SILENT KEY + The IOTA community mourns the passing of Rurik
Lonnroth,
OH2QQ, who died on 27 May at 78 years of age. A keen IOTA
enthusiast for 30
years, Rurik ranked among the 50 top island chasers in the world
and his
callsign will be dearly missed in the pile-ups. Condolences can be
sent to
his surviving wife Irmeli Lonnroth, Marjalehdentie 9, SF-00930
Helsinki,
Finland. [TNX SM5DJZ]

DX Bulletin 23 ARLD023
>From ARRL Headquarters
Newington CT June 10, 2004
To all radio amateurs

SB DX ARL ARLD023
ARLD023 DX news

This week's bulletin was made possible with information provided by CT1BWW, CT1GFK, PS7AB, the OPDX Bulletin, The Daily DX, QRZ DX, 425DXnews, DXNL, WA7BNM and Contest Corral from QST. Thanks to all.

NIGERIA, 5N. Mario, 5N6EAM/7 is usually QRV on 20 meters using SSB around 2000 to 2200z. QSL via IK2IQD.

BAHRAIN, A9. Mohamed, A92GR has been QRV on 20 meters between 2000 and 2030z. QSL direct.

TAIWAN, BV. Greg, KI8AF is QRV as BW2/KI8AF from Taipei for two months. He operates on Wednesdays and Thursdays only, generally from 1100 to 1300z. QSL to home call.

PORTUGAL, CT. Members of the Algarve DX Group are QRV as CS0RCL/p from Pessequeiro Island, IOTA EU-167, until June 13. Activity is on all bands using CW and SSB. QSL via bureau. Meanwhile, Joe, DL8HCZ will be active as CQ14HZE from June 12 to July 3 for the Football European Championship. Activity will be on all HF bands, plus 6 and 2 meters, using CW and SSB. QSL direct to home call.

CANARY ISLANDS, EA8. Look for Herman, EA8/ON4QX to be QRV from Gran Canaria, IOTA AF-004, from June 12 to 26, on all bands using mostly RTTY. QSL to home call.

ETHIOPIA, ET. Michal, ET3TK has been QRV using RTTY and some PSK on 30, 20, 17 and 15 meters, generally from 1100 to 2000z. QSL via OK1CU.

FRANCE, F. Club station F6KAT is QRV as TM70AA until June 20 to celebrate the 70th anniversary since the French Air Forces were founded. Activity is on 160 meters to 70 cm. QSL via F6KAT.

MARQUESAS ISLANDS, FO. Gerard is QRV as FO/ON4AXU and has been active on 20 meters using CW around 0200 to 0400z. He has also been

active using RTTY around 0130z. QSL to home call.

THAILAND, HS. Choon, E20HHK is QRV as E20HHK/p from Phuket Island, IOTA AS-053, until June 12. After this operation, he will use E20HHK/8 and E20HHK/9 from the mainland. Activity is on 80 to 10 meters using CW. QSL via E21EIC.

SVALBARD, JW. Manuel, JW/CT1BWW is QRV on 160 to 6 meters using CW, SSB, RTTY, SSTV and PSK31 until June 14. QSL to home call.

DENMARK, OZ. Six German amateurs are QRV as OZ0MS from Bornholm Island, IOTA EU-030, until June 22. Activity is on 80 to 10 meters, including 6 and 2 meters and 70 and 23 cm, using CW and SSB. The group plans to be QRV as OZ/homecalls as they operate from all the lighthouses on the island. QSL all calls via DH8BQA.

BRAZIL, PY. ZX7AA and ZW7AA are QRV from Fortaleza Dos Reis Magos on all bands and modes until June 13. QSL via PS7KC.

SEYCHELLES, S7. Davide, IZ3EFL is QRV as S79DF. Look for him during his evening hours on 20 meters using SSB. He expects to remain here for quite some time. He might also operate from Aldabra, IOTA AF-025. QSL via IV3TDM.

GREECE, SV. To celebrate the 2004 Olympic Games, Greek radio amateurs are allowed to use the prefixes SX2004 or SY2004 until November 15.

CORSICA, TK. Amateurs DF6VU and DL9YBY are QRV as TK/DF6VU/p and TK/DL9YBY/p, respectively, until June 22. Activity is on all bands using SSB and RTTY. QSL to home calls.

NORFOLK ISLANDS, VK9N. Kirsti, VK9NL has been QRV on 17 meters around 2350 and 0015z. QSL via operator's instructions.

THIS WEEKEND ON THE RADIO. The ARRL June VHF QSO Party, ANARTS WW RTTY/Digital Contest, WW South America CW Contest and the NCCC CW Sprint are all scheduled for this weekend. Please see June QST, page 98 and the ARRL and WA7BNM contest websites for details.

**** DX INFORMATION ****
===========================
Edited by I1JQJ & IK1ADH
Direttore Responsabile IK8MRA

9H - Jun, OE1ZKC (JH4RHF) will be active as 9H3RH from Malta
(EU-023)
from 25 July to 8 August. He plans to operate on 40-10
metres SSB,
CW, RTTY and SSTV on request. QSL via OE1ZKC. [TNX OE1ZKC]
EA - Paco, EA1YY and Carlos, EA1ABS will participate in the IOTA
Contest
as EA1YY/P and EA1ABS/P from Isla de la Deva (EU-142). They
plan to
concentrate on 20 and 40 metres SSB. QSL via home calls.
[TNX EA5KY]
EA8 - The Gran Canaria DX Group will operate SSB and CW as
ED8GCR from
Roque del Burrero (AF-004, DIE S-349) on 20 June for
the DIE
Contest. QSL via bureau to EA8AKN. [TNX EA8AKN]
EA8 - Special event station ED8ERC will be activated by EA8ZS
and others
on 3-10 July to celebrate the second Canarias HamRadio
Meeting
(Encuentro de Radioaficionados de Canarias). Activity will
be on all
HF bands SSB, CW and possibly PSK/RTTY and there will be
one APRS
station on air. [TNX EA8CAC]
F - Special station TM0GP will be aired (on 10-80 metres CW,
RTTY, PSK31
and SSB) from 20 June through 4 July for the Formula 1 Grand
Prix at
Magny-Cours. QSL via bureau to F5KCH. [TNX F5JFU]
F - Derek, F5VCR and other operators from F6KHM Amateur Radio
Club will
participate in the IOTA Contest from Ouessant Island (EU-

065) as
TM4Z. [TNX F5VCR]
FO - FO5RN is the callsign issued to Vincent, F5MJV [425DXN
683]. He is
in the French Navy and will be touring the Pacific for
one year
starting on 1 July. Until mid September he will operate as
FO5RN/p
from Tahiti (OC-046), French Polynesia. Then he will
visit East
Kiribati - T32 (Christmas Island, OC-024), Hawaii - KH6
(OC-019),
the Marshall Islands - V73 (Majuro, OC-029),
Micronesia - V6
(Pohnpei, OC-010), the Philippines - DU (Luzon, OC-042),
Palau - T8
(Koror, OC-009), West Kiribati - T30 (Tarawa, OC-017) and
American
Samoa - KH8 (Tutuila, OC 045). He will return to
Tahiti around
Christmas. QSL via F5NQL, direct or bureau. [TNX F5NQL]
G - The RSGB HQ station will again operate in the IARU
Radiosport
contest (10-11 July) from 10 different locations around
the UK,
looking to improve on last year's second place. Awards can
be gained
by working GB5HQ on a minimum of 3, 6, 9 or all 12
band/modes.
Further details can be found at http://www.gb5hq.com. QSL
via G3TXF
[TNX G4BUO]
GM - Andre, GM3VLB (http://www.gm3vlb.com) and Alex, GM0DHZ
will visit
and operate from several islands in the Outer Hebrides
(EU-010)
starting on 22 June until around 7 July. Side trips to
the Monach
Islands (EU-111) and St. Kilda (EU-059) are also planned,
but it is
impossible to give precise details or dates as
operations will
depend on availability of transport and above all on
weather
conditions. QSL direct only to home calls. [TNX GM3VLB]
HL - Operators from HL0C (Hanyang University Wave Research Club)
will be
active (on 40, 20, 15 and 10 metres CW, SSB and RTTY) as
HL0C/4 from
Cheju Island (AS-026) on 21-26 June. QSL via HL0C. [TNX

HL1UVH]
I - Roberto/IK8BIZ, Salvatore/IZ8CLM and Alfonso/IZ8EFK will
operate (on
HF and 6 metres SSB, CW and RTTY) as IF9/IQ8BI from
Levanzo Island
(EU-054, IIA TP-009, MIA MI-050) on 18-20 June. QSL via
IQ8BI or
IZ8CLM, direct or bureau. [TNX IT9DAA]
KH0 - Look for Jim, KG8RP/KH0; Nao, NA8O/KH0; Yutaka,
KH0/JQ2GYU; Koko,
KH0/JM1MAC and Tomi, WH6CZC/KH0 to be active (on 40-6
metres) from
Saipan, Northern Marianas (OC-086) on 9-12 July. QSL
KG8RP/KH0 via
7K4QOK, NA8O/KH0 via JK1FNL, WH6CZC/KH0 via JF1UMK, others
via home
calls. [TNX JJ1BDX]
OJ0 - A group from the World Wide Young Contesters (WWYC) will
be active
as OJ0YC from Market Reef (EU-053) on 23-26 September. The
operators
will be OZ1AA, OH6GDX, SM3WMV and KU5B; they plan to operate
on all
bands and modes and to participate in the SAC (Scandinavian
Activity
Contest) SSB. QSL via OH6GDX (Patrik Willfor, Langviksgatan
24 B13,
FI - 65100 Vasa, Finland). Full details on the
operation are
available at http://oj0yc.m3php.net/ [TNX OH6GDX]
OZ - Jakob, OZ7AEI (http://oz7aei.qrz.dk) will operate as
OZ7AEI/P from
both the Sillerslev lighthouses (DEN-064 and DEN-065) on
Mors Island
(EU-171, DIA NJ-002) on 20 June. Look for him on 40 and
20 metres
starting around 9 UTC. [TNX OZ7AEI]
SM - Martin, SM0DTK will be active as SM0DTK/1 from
Gotland Island
(EU-020) from 24 June until 22 August. Skeds are
accepted at
sm0dtk@... [TNX SM0DTK]
SM - Thomas, DL5MO (http://www.dl5mo.de) reports he will operate
holiday
style as SM6/DL5MO from EU-043 on 12-23 July. He plans to
focus on
40, 30 and 20 metres. QSL via home call.
SM - Kjell, SM4DDS will be active (on 10-80 metres, CW and SSB)
as 7S5A
from Stora Alo island (EU-177) on 21-28 July, IOTA Contest

included.
QSL via SM4DDS, direct or bureau. [TNX SM4DDS]
ST - Michael, ST2DX (PA5M) will be leaving Sudan on 10 July. He is using
a 10-element log periodic for 30-6m metres and a long wire for
40-160m. Michael is having problems with his keyer and therefore
operates more SSB than CW. QSL via PA7FM (direct requests from
outside Europe should include 1 IRC or 2 USD); on-line log at
http://www.pa7fm.nl/ [TNX PA7FM]
SV - Daniele, IK0REH will operate (on 10-80 metres mainly CW) as
SV8/IK0REH/P from Zakynthos (EU-052) until 1 July. QSL via
www.qrz.com [TNX IK0REH]
UA - UE4LKW and UE4LPR will be aired from 18 June to 2 July during the
"Volga Cup" sailing regatta (http://www.volgacup.ru). There are also
plans to visit and operate from a few islands located in the river
Volga. QSL via UA4LCH. [TNX UA4LCH]
UA - Dima/RA0LQ, Oleg/RW0LL and Mike/UA0MF will operate as UE0LLH from
the lighthouse (LH-2159) on Askol'd Island (AS-066, RDA PK-39) on
2-5 July, WLH Contest included. [TNX UA0MF]
UA - Nick, RA1QQ and Dmitrij, RW1ZZ plan to operate as RA1QQ/1 and
RW1ZZ/P from a few islands (possibily including Sosnovets, EU-161)
and lighthouses in the Barents Sea in early July. QSL via home
calls. [TNX RA1QHJ]
UR - UT3UZ, UT3UV, UT4UO, UT7UW, UT5UAE, UT4UAA and UT4UBS will be active
(on 80-6 metres CW and SSB) as UT7UZZ/p from Ivankiv (URDA KO-16)
and Poles'ke (URDA KO-25) districts on 18-20 June. QSL via UT3UZ.
[TNX UT3UZ]
UR - UT0VE, UR5VAK, UR5VQG, EW2GI plan to operate from the Ukrainian
islands of Zmytnycia (UIA DN-119) and Lypivski (UIA DN-044) between
19 and 25 June. [TNX UX2VZ]
VE - Nenad, VE3EXY will operate as VE3EXY/2 from Zone 2 on 17-20

June and
again on 1-4 July. He will participate in the All Asian CW Contest
and in the Quebec QSO Party. Suggested frequencies are 3510, 7010,
10107, 14025, 18077, 21025, 24897, 28025 kHz (CW) and 14090, 21090,
28090 kHz (RTTY).
On 21-30 June he will be active (on or around 7010, 10107, 14025,
18077, 21025 kHz CW and 14260, 21260, 7060 kHz SSB) as VE2/VE3EXY/P
from Anticosti Island (NA-077, CISA QC-001), which is not located in
Zone 2. QSL via home call. [TNX VE3EXY and OPDX Bulletin]
VK - The Central Goldfields ARC will operate special event station VI3JA
from 8 July to 8 August to celebrate 150 years of the naming of the
Township of Maryborough, Victoria. QSL via VK3JA or VK3PA. [TNX
VK3PA]
VP5 - Dave, AH6HY (http://www.qsl.net/ah6hy) will be active on 10-20
metres SSB as VP5/AH6HY from Salt Cay in the Turks Islands (NA-003)
from 23 September to 2 October. QSL via home call, direct or bureau.
[TNX AH6HY]
VP9 - Kyle, WA4PGM will operate (on 160-6 metres CW, SSB, RTTY). as
VP9/WA4PGM from Bermuda (NA-005, FM72) on 9-19 July, IARU and NAQP
RTTY Contests included. QSL direct to P.O. Box 127, Farmville, VA
23901, USA. [TNX WA4PGM]
VU - Rainy season permitting, Basappa/VU2NXM and possibly others will be
active again as AT0BI from Elephanta Island (AS-169) on 23-28 July,
IOTA Contest included. [TNX VU2NXM]
W - Eight members of the Tennessee Valley DX Association (namely WA4RMC,
W4KRY, KOMAI, K4VCM, WA4NFO, AB4GG, K4KWK and WA4AA) will operate as
W4D from Dauphin Island (NA-213) from 19 UTC on 24 September till
the 27th. The group will use 100w transceivers with various antennas
and plans to be active on 80-10 metres SSB. QSL via WA4AA or

bureau.
[TNX WA4AA]
YA - Sada, YA1D/YA0J will be leaving Afghanistan by the end
of this
month. He will take down his antennas immediately after the
upcoming
All Asia CW contest. QSL via JG1OWV. [TNX JG1OWV]
YI - Kaspars, YL1ZF/YI9ZF expects to leave Baghdad on 1 July
after almost
six months and some 42,000 QSOs (so far), mainly on CW.
QSL via
SM1TDE. Logs will be uploaded to LoTW and are
available at
http://www.qsl.net [TNX SM1TDE]
ZA - ZA1DX will be aired through 23 June for the DX Convention
which is
taking place in Tirana. QSL via OH2BH.
ZL - Ed, G3SQX will participate in the IOTA Contest as ZL/G3SQX
in the CW
section from Waiheke Island (OC-201). QSL via home
call; e-mail
requests for bureau cards can be sent to ed@... [TNX
G3SQX]

PACIFIC IOTA TRIP ---> Following on from the VK IOTA DXpeditions of
2002 and
2003, Steve, G0UIH (www.rsgbiota.org webmaster) has announced his
plans for
his third trip to the Pacific. He will operate as 3D2FI from the Fiji
Islands
as follows:
Viti Levu (OC-016) 28 November (7-14 UTC)
Nacula Isl. (OC-156) from 29 November (6 UTC) to 5 December (14
UTC)
Viti Levu (OC-016) 6 December (8-15 UTC)
Beachcomber Isl. (OC-121) from 7 December (6 UTC) to the 10th (14
UTC)
Viti Levu (OC-016) 11 December (4-10 UTC)
He will also be active as VK2IAY/4 from one of the Queensland
IOTA groups
(details to be announced). The operation is likely to be around
14260 and
21260 kHz and there may also be some 17m SSB. QSL via G0UIH,
direct or
bureau. Details and updates at http://www.percy.me.uk [TNX G0UIH]

5X1CW ---> Christian, F6GQK/5X1CW reports he went QRT from Uganda on 12 June
and will be back to France in July. More than 14000 QSOs have been logged and
QSL processing is under way. His current address is listed at www.qrz.com

MIA CONTEST ---> The Mediterranean Islands Contest, organized by the
Mediterraneo DX Club, will take place from 12 UTC on 18 September to 12 UTC
on the 19th. Rules can be found at
http://www.mdxc.org/contestmia/rules.htm

QSL 3B9C ---> A large number of cards are already in the mail, with over
11,000 QSOs already confirmed. It is expected that all direct cards received
to date will have been answered and mailed by late June. Electronic QSL
requests received via the expedition's web site (www.3b9c.com) are being
dealt with and the complete 3B9C log will be uploaded to the ARRL's Logbook
of the World in good time for the September DXCC annual deadline.
3B9C made a grand total of 153,113 QSOs (CW 77610, SSB 66826, RTTY 5280,
PSK-31 2172, others 1225), of which well in excess of 130,000 were unique
band/mode slots. Unique calls in log are 37,040. The band breakdowns are as
follows: 160m = 2288, 80m = 7509, 40m = 18366, 30m = 11375, 20m = 21594, 17m
= 20154, 15m = 29920, 12m = 16858, 10m = 23535, 6m = 1448, 70cm EME &
Satellite = 66. [TNX G3XTT]

QSL 3D2XX ---> This was the call used during the first DXpedition to Rotuma
(22 October - 5 November 1988) and the original holder was Eddie, VK4AN. This
callsign has been reissued to Clark Straw, N5XX. Obviously VK4AN can QSL only
for the 1988 operation; cards for contacts made with 3D2XX operated by Clark
go to W6YOO (direct) or N5XX (bureau).

QSL 4C2X ---> The QSL manager for this station, which was active
on 12-13
June, is Hector, XE2K. He advises that direct cards should be sent
to his
address in the US: Hector Garcia, 317 Heffernan Ave., PMB 12924,
Calexico, CA
92231, USA.

QSL 9H3MM ---> Con, DF4SA participated in the CQ WPX CW Contest
2004 as
9H3MM. All QSOs will be confirmed automatically via the bureau.
Those who
need a direct card please note that 2 USD are needed for destinations
autside
Europe. His address is Cornelius Paul, Adelberger Weg 3, D-73104
Breech,
Germany. [TNX DF4SA]

QSL EU-042 ---> The QSL cards for DL9HO/p, DK1IP/p and DN0IU/p
(CQWPX SSB
2004) from Hallig Groede Island (EU-042, GIA N-21) have been
printed and
requests are being processed right now. Please note that direct
requests from
outside Europe must include 2 USD or 1 new IRC. Bureau cards are
accepted.
[TNX DL9HO]

QSL II7ANT ---> Cards for this special event station, which was
active during
the Antarctica Activity Week (22-28 February) should be sent to
IZ7AUH,
direct or bureau.

QSL OD5UE ---> Effective 17 June, Antonio, IZ8CCW is the new QSL
manager for
Hussein, OD5UE. Antonio is trying to recover Hussein's old logs.

QSL T49C ---> Al Bailey, K8SIX is the QSL manager for the T49C
operation
during last weekend's VHF QSO Party. Please do not send cards to
SM5KCO for
this operation. [TNX K8SIX]

QSL VIA PA0RRS ---> Richard, PA0RRS reports that direct cards for
his past
operations (9M6/PA0RRS etc) continue to arrive to his old address
at Alphen
which he left five years ago. The correct address is Richard
Smeets,
Schoorveken 100, 5121NM Rijen, The Netherlands.

RSGB Scottish Region Changes
Submit Your SWL Data for Yearbook Now!
West of England Radio Rally - 27 June
'Train the Trainers' on 24 July at RSGB HQ
First Ever Albanian DX Convention 19-20 June
Special Event News

The news in detail:

Radio Communications Foundation to Provide Bursaries for Students
The Radio Communications Foundation, or 'RCF', has joined forces with
the Arkwright Trust to provide bursaries to Sixth Form students who
elect to take maths and a science-based subject at GCE 'A' level.
Recipients
must have an interest in radio communications and must apply through
their schools' Design and Technology departments. Applicants have to
sit a formal examination which is set by the Arkwright Trust and
attend
an interview. The bursary, which is □800 per year, is split into two
halves: □400 going to the school and □400 to the student. The money
is to be used for educational purposes. The RCF will provide one
bursary
in 2004 and from 2005 three bursaries annually.

Vanity Callsigns Unlikely Before March 2006
For the past three years the RSGB has been in discussion with firstly
the RA and more recently Ofcom over the introduction of 'vanity
callsigns'.
Whilst supportive of the idea, Ofcom has informed the Society that due
to IT software issues it is unlikely that vanity callsigns can be

introduced
before March 2006.

The 'Ham Radio 2004' Show in Friedrichshafen is Next Weekend
'Ham Radio 2004', the biggest amateur radio event in Europe, will take place at Friedrichshafen next Friday, Saturday and Sunday, the 25th to 27th of June. The RSGB will be in attendance with a book stall and information stand.

RSGB Scottish Region Changes
Major changes to the two RSGB Scottish Regions have been approved. Region
1, previously known as Scotland West and the Western Isles, becomes Scotland South and the Western Isles, while Region 2, previously known as Scotland East and the Highlands becomes Scotland North and the Northern
Isles. As a result, two new districts will be added to Region 1: District
15, Lothians and District 16, Borders. The Deputy Regional Manager for District 15 is Dave Stockton, GM4ZNX, whose address is correct in the RSGB Yearbook .

A Deputy Regional Manager is to be appointed for District 16. Anyone interested should contact Gordon, GM3ULP, whose e-mail address is gm3ulp@...

Fife will become part of District 23 in Region 2. The Regional Managers
for both Regions remain unchanged. The Regional Manager for Region 1 is Gordon Hunter, GM3ULP, and the Regional Manager for Region 2 is Peter
Thomson, GM1XEA. Both Gordon's and Peter's addresses can be found in the RSGB Yearbook .

Submit Your SWL Data for Yearbook Now!
Bob Treacher, BRS32525, is once again compiling a list of SWL addresses
(e-mail or postal) to appear in the 2005 RSGB Yearbook . Any SWL who would like his or her details included in the SWL listings in the Yearbook
is asked to contact Bob, either by e-mail or by post, before the 28th of June. Bob's postal and e-mail addresses can be found on page 69 of the May RadCom .

West of England Radio Rally - 27 June
On the 27th of June, Severnside TV Group is staging the West of England
Radio Rally at the Cheese and Grain , Market Yard, Frome, Somerset, four miles from the site of the former Longleat Rally. It opens at 10.00am.
Car parking is free, and there are trade stands, special interest groups,

an RSGB stand, a licensed bar, refreshments, facilities for the disabled,
and talk-in on two metres via GB1WR. Your contact is Shaun, G8VPG, on
01 225 873 003 office hours, or on 01 225 873 098.

'Train the Trainers' on 24 July at RSGB HQ
As part of the Society's commitment to training within amateur radio,
and following from the previous highly-successful 'Train the Trainers'
sessions, another session is scheduled for Saturday the 24th of July
at RSGB headquarters in Potters Bar. Registered Lead Instructors wishing
to attend this session, for which places are limited, are requested
to contact Brian Reay, G8OSN, at brian.reay@... The 'Train the
Trainers' initiative is aimed at all those offering training in amateur
radio and, with the increasing demand for training at Intermediate and
Advanced level, all instructors are urged to attend. Those interested
in such sessions in other parts of the country should also contact Brian
via the e-mail address given earlier.

First Ever Albanian DX Convention 19-20 June
The first Albanian DX Convention is taking place on the 19th and 20th
of June. Some 60 people from at least than 10 countries are expected
to attend, including all 39 new licensees from the recent amateur radio
training programme at the Technical University of Tirana. During the
weekend, a new club station, ZA1UT, will be inaugurated at the Technical
University. Lecturers at the convention include Martti Laine, OH2BH;
Roger Brown, G3LQP; and Nigel Cawthorne, G3TXF, amongst others.

Special Event News
SEAREG, in conjunction with the South Yorkshire Amateur Radio Society
and the Mexborough and District Amateur Radio Society, is operating
GB8CC from Conisborough Castle, near Doncaster between the 18th and
20th of June. Other local further education groups will also be present.
Reception reports and visitors are welcome and access to the castle
will be free during the weekend.

This weekend, the 19th and 20th of June, is International Museums Weekend.
There now follows, in no particular order, museum stations of which
we have been informed:

Special call 3Z0BLY is active from the battleship museum ORP Blyskawica
in Gdynia, Poland, until the 31st of July. The station is active on
all bands. QSL is via SP2PMW or via the bureau.

GB1WSM is operated from the Welsh Slate Museum at Llanberis, Gwynedd,
by members of 2279 Wrexham ATC Radio Club, MW0WXM, and a few other
Squadrons
of 2 Welsh Wing.

Members of the Kidderminster and District Amateur Radio Society are
operating GB0WCM in the Orchard Room at Worcestershire's historic
County
Museum at Hartlebury Castle near Kidderminster from 11am to 5pm today,
Sunday the 20th of June.

Coventry Amateur Radio Society is on the air as GB0MAM from the
Midland
Air Museum.

RAF Waddington Amateur Radio Club is on the air from Wickenby Airfield
Museum, as GB0WAM.

Telford and District Amateur Radio Society is on the air from the
Ironbridge
Museum, as GB0IBG.

Sheffield Amateur Radio Club is on the air from Sheffield Millennium
Galleries, as GB2SMG.

Warrington Amateur Radio Club is active as GB0BAB from the former US
airbase at Burtonwood, Warrington.

Cockenzie and Port Seton Amateur Radio Club is on the air from the
Museum
of Flight-East Fortune.

Radio Society of Harrow hopes to be on the air from both the De
Havilland
Museum, GB2DHH, and the Harrow Museum.

Worthing & District Amateur Radio Club is on the air from Newhaven
Fort.

South Dorset Radio Society is on the air from North Fort Museum.

Central Lancs Amateur Radio Club is active using the call sign GB5JCT
from the stern trawler museum in the fish dock at Fleetwood.

1220. wireless and amateur radio licence

Yahoo group: thegreekhamradio
Date: 2004-06-29 09:42:24 UTC
From: sxanthop
Topic: 1220 Message: 1220

Καλησπέρα σε όλους,

Συζητώντας με έναν φίλο ραδιοερασιτέχνη, μου δημιουργήθηκε η εξής απορία: Αν τοποθετήσουμε ένα wireless lan, π.χ απο το σπίτι μας στο μαγαζί που απέχει π.χ 500m...αυτό "καλύπτεται" απο την άδεια του ραδιοερασιτέχνη ;

Θα έχουμε δηλαδή κυρώσεις απο την εγκατάσταση των κεραιών του wireless ή πρέπει οπωσδήποτε να βγάλουμε την ειδική άδεια που χρειάζεται για τα wireless ; Το ρωτάω αυτό, γιατί έχω ακούσει οτι σε σχέση με τα wireless, πέφτει πολύ άσχημο "τσεκούρι" αν δεν έχεις τα σχετικά έγγραφα.

Ευχαριστώ,

```

1222. Ζητούμε συγνώμη για το spam...

Yahoo group: thegreekhamradio
Date: 2004-07-04 15:47:16 UTC
From: sxanthop
Topic: 1222   Message: 1222

Γειά χαρά σε όλους,

Ζητάμε συγνώμη για τα spam mail που λαμβάνετε απο τα yahoo groups
τελευταία.

Φαίνεται οτι κάποιοι έχουν σκεφτεί αυτόν τον καινούργιο τρόπο για να
προωθήσουν κάποιες "υπηρεσίες", όπως τις αναφέρουν φυσικά με σκοπό το
κέρδος.

Ελπίζουμε να μην βλέπουμε συχνά αυτού του είδους τα μηνύματα και
ακόμα περισσότερο να μην έχουμε "μέλοι" στο group αυτό που να μας
δημιουργούν αυτά τα προβλήματα.

ΕΝΗΜΕΡΩΝΟΥΜΕ ΟΤΙ ΔΕΝ ΕΧΟΥΜΕ ΚΑΜΜΙΑ ΣΧΕΣΗ ΜΕ ΑΥΤΑ ΤΑ ΜΗΝΥΜΑΤΑ ΚΑΙ ΟΤΙ
ΕΙΝΑΙ ΑΝΕΠΙΘΥΜΑΤΑ ΣΕ ΟΠΟΙΑΔΗΠΟΤΕ ΜΟΡΦΗ ΤΟΥΣ.

Ελπίζουμε τέλος να μην έχει κάνει κάποιος αυτό που παρότρυνε
ο "κύριος" αυτός στο τέλος του μηνύματος έτσι ώστε να διαγραφεί απο
την λίστα. Φυσικά και έχει διαγραφεί ήδη απο την λίστα αυτή !!!

Με εκτίμηση,

Σπύρος Ξανθόπουλος,

Hi!

Several OE x XHQ calls will be handing out the "OVSV" multiplier
during the 2004 IARU HF Championship.

You can apply for a FREE W-OE-XHQ diploma by making at least 6 QSOs
with OE x XHQ calls in SSB, CW or MIXed mode and by sending a log
abstract to:

OVSV Dachverband - Diplomreferat
Eisvogelgasse 4/1
A-1060 Wien
AUSTRIA
EUROPE

Details and pictures of the W-OE-XHQ diploma an be viewed at
http://www.oevsv.at under section Diplome
or in the national Austrian magazine QSP, June 2004, page 49.

Vy 73 and good luck hunting OE x XHQ calls,

de Oliver OE5OHO

PS: be carefull - we have got different numbers in the calls, so it
is
possible that you work perhaps OE5XHQ in CW on 20m and OE7XHQ in SSB
on
the same band! But you probably already knew that....

(e-mail: dl7voa@...)

ALAND ISLANDS, OH0, EU-002
OH0/DC7VS, OH0/DC7ER and OH0/DL7NJ will be QRV in
SSB/CW/SSTV/PSK31
during their holidays from July 10-24. QSLs via homecalls.

ASIATIC RUSSIA, UA9, AS-109
UA9JRN, UA9JPB, RW9JT and RX3BP will depart for their four day
trip to
the island Obskoj Guby on July 12/13. They will be QRV as
homecalls/mm
on their way and hope to hit the airwaves for 3-4 days on July
16.

CROATIA, 9A, EU-016
Gianfranco,9A/I6GFX, is going to Hvar Island (EU-016, IOCA CI-
028) from
Jul 5-10 and for one day to the lighthouse (WLH-1056, ARLHS CRO-
135) on
Scedro Island (EU-016, IOCA CI-127). QSL via I6GFX, direct or
bureau.
More information and logs:
http://www.gianfrancogervasi.it/search.html

CROATIA, 9A, EU-110
Alessandro,9A/IK4ALM, and Sergio,9A/IZ4BBF, will be QRV in SSB
from
the Brijuni Islands (EU-110) from Jul 6-9. QSL via homecall.

CROATIA, 9A and YUGOSLAVIA, YU6
Franz,9A/DL3PS, and Zik,9A/VE3ZIK (4N1DX), were announced to be

QRV
on 10-40m plus 6m from Bilice (JN73) for Jul 4-31. Besides the
IARU
Contest they also plan to activate YT6A for one weekend.
All QSLs via DL3PS, direct or via bureau.

EL SALVADOR, YS
Rick,N1RL/YS, is working for a support team. He will be QRV
mostly in
CW on 20 or 17m during his spare time until July 11 if he
conditions
are suitable. He is also interested in FM satellite operations
and the
new echo satellites.

FIJI, 3D2, OC-016
Norm,W1BYH, was announced to become active as 3D2BY from Viti
Levu in
CW/SSB/RTTY/PSK on 40-10m from July 5-14. QSL via e-QSL or W1BYH.

HONDURAS, HR
Mark,HR1/W4CK, will be QRV again from Tegucigalpa in CW and on
the
WARC bands from July 8-15.

JAPAN, 8N in the IARU HF Championship
All QSOs with the Japanese 8N HQ stations in this contest will be
confirmed automatically via bureau:
8N1HQ 20m SSB, 15m CW Kimitsu City/Chiba
8N1HQ 160m CW, 80m SSB, 20m CW Sakaigawa Village/Yamanashi
8N3HQ 40m CW, 15m SSB Nara City/Nara
8N4HQ 80m CW, 40m SSB, 10m CW Okayama City/Okayama
8N0HQ 10m SSB Kajikawa Village/Niigata

MARKET REEF, OJ0 and ALAND ISLANDS, OH0
The just finished activity of OH0S and OJ0J will be confirmed
from
Aland with special OH0 stamps by: OH0RJ, Lars Nikko, Matrosgatan
5L,
22100 Mariehamn, Aland Islands, Finland.

MARKET REEF, OJ0
Starting on July 8 Seppo,OH1VR/OJ0VR, will activate OJ0U
together with
OH2KI/Jorma, OJ0RJ/Lasse, KX7M/Denny, W6NV/Oliver and
DL8YHR/Frank on
VHF during the IARU HF Championship.

PERU, OA
Bonnie,OA9/KQ6XA, is said to be active from the Andes with 20
watts
powered by a solar panel between Jul 2 and Aug 25. He is not

calling
CQ but listens on: 18157.5 kHz (1630+2230 UTC), 18157.5 kHz USB +
18158.2 kHz CW (0030 UTC), 7087.5 kHz LSB+7087.0 kHz CW (0100
UTC).
QSY for CW to 18095.0 kHz; perhaps also 21437.5 kHz USB and
10117.5 kHz CW. QSL via KQ6XA - eQSL.

POLAND, SP1, EU-132
Rolf,SP1/DL6ZFG/p plans to show up from Wolin Island (SZ-02/SPIA
SZ-03)
in SSB on 20m from Jul 9-11. He also plans a short activation of
Karsibor Island (EU-132, SPIA SZ-03). QSL via homecall, direct
or buro.

ROMANIA, YO
YR500S will be another special event station in Suceava to
remember
King Stefan the Great of Moldavia who died 500 years ago (like
ER500S
- see DXNL 1392). QSL via YO8ER.

SAN ANDRES, HK0/sa, NA-132, NA-133
NA-132 (Bajo Nuevo and Serranilla Bank Cays) and NA-133 (Serrana
Bank
and Roncador Cays) were activated on 14260 kHz by HK3JJH/0A (NA-
132)
and HK3JJH/0B (NA-133) from Jul 4-6. Pedro is guest onboard a
Colombian
naval ship and has to follow its schedule. QSL ONLY direct to
HK3JJH.

ST. MAARTEN, PJ5
Mario,K2ZD, and Jim,K4BI, are QRV as PJ7M especially on 6m
Sporadic E
until July 12. QSL via K2ZD.

SWEDEN, SM, EU-045
Thomas,SM6/DL5MO, will become QRV from Orust Island on 40/30/20m
during
his holidays from Jul 12-23. QSL via homecall.
His website with online logs are available at:
http://www.dl5mo.de

TOBAGO, 9Y, SA-009
The team announced in DXNL 1392 will participate in the IARU
Contest
as 9Y4ZC, QSL via AJ9C, else via homecall. Please enclose an
SASE with
sufficient return postage if you want a direct QSL.

TURKEY, TA4
Tom,TA4/DL2OBO, is staying in Alanya working with an IC706 and

wire
antennas in CW and perhaps also PSK especially on the WARC bands
from
Jul 4-11. QSL via bureau.

URUGUAY, CX1
The station CX1AA of the Radio Club Uruguayo (RCU) will take
part in
the IARU Contest (July 10/11) on all bands.
QSL via Box 37, 11000 Montevideo, Uruguay or via bureau.

USA, NU1
During the IARU Contest NU1AW, the ARRL HQ station, will be
active in
CW/SSB on 160-10m from the stations of K2LE and W2AX in Southern
Vermont/VT. Check also their website: http://reallybig/obo

VENEZUELA, YV, SA-090
The Association of Radioamateurs of Venezuela and the Caracas DX
Group
will activate Chimana Island (Grid FK70) in CW/SSB/RTTY on HF
and in FM
on VHF during the Venezuelan Navy Day 2004 from July 14-18.
Their call-
sign will be YW6C. QSL via W4SO (mail drop). QSLs will be sent
from
Venezuela so please do NOT enclose US stamps.

The QSLs of CT9P and CT9X will be printed after their operation. The
QSL
manager for both stations is Kim Larson, daughter of N3SL, via
N3SL's CBA.
QSLs direct with SASE or SAE and IRC/USD. Bureau QSLs will be sent
only
four times a year. As soon as N3SL has the logs available he will
upload
them to the LotW.

QSLs arrived direct: 3B9C (AF-017, FSDXA), EK3GM + ZA/UT7DW (DK6CW,
quick),
IH9YMC (AF-018), PJ2/K8ND (quick), PJ2S (SA-006,
G0CKP)

Καλημέρα σε όλους,

Πλησιάζουμε τις 24 πρώτες ώρες που έχει ξεκινήσει το region 2 με το special call SX2A/??.

Οι επαφές έχουν ξεπεράσει κάθε προσδοκία και αισίως βρισκόμαστε ΠΑΝΩ απο τις 3000 επαφές. Ξεκινήσαμε δυναμικά και ελπίζουμε να συνεχίσουμε με αυτό το ρυθμό.

Συγχαρητήρια σε όλους τους συναδέλφους που έχουν συμβάλει στην προσπάθεια και θα συνεχίσουν....ελπίζουμε σε ενα πολύ καλό "ρεκόρ" επαφών...με ελπίδα να σπάσουμε το ρεκόρ επαφών του SV9 region (λέτε παιδιά ;-)...???

1232. **President Rick REED's Womens Rights Bill 2004

Yahoo group: thegreekhamradio
Date: 2004-07-16 20:25:16 UTC
From: President of the United Studs
Topic: 1232 Message: 1232

Our future President of the
United
States of America, Rick REED,
is a Womanizer INDEED!!!

His
greatest and most heartfelt
issue in
the growth of America
deals
specifically with Women's Rights
as it should be.

Somebody's GOT
to do it!

It is a continueing
struggle dateing back to
the days when
Women first
burned their bras so that
on a certain day, on a
certain DATE on
man's calendar, they would be
allowed
to vote.

Women of America, in
this Nation, still have a
battle ahead
in continueing towards Fullfillment
of
Ultimate Rights for Women in this
nation.

And Rick REED will be the
Best
Voice in this arena, especially
being
a Womanizer and knowing the

NEED from the hard hard hard!!!

(Ooops! I meant.... heart heart
heart!)

In this great day and age,

in this New Millenium, Women's
Rights
goes Way Beyond Success
as
far as being a certain AGE, a
certain
DATE on man's calendar,

for the Most Important Things
that
happen to us in
our lives, do
NOT occur on man's calendar, but
on
GOD's Calander.

That day
when
the EGG is determined to BE a
Woman.

A Woman's Rights begins
then!!!

SHE has the right to
live, to grow up,
and maybe BE a
little Bit
Weird as Hell..... like
Rick and upon
reaching a certain age,
a
certain date on man's calendar,
BE
able to follow in President Rick
REED's footsteps,
and run or office
as President of The United States
of
America!!

Vote Rick REED !!!

Vote Women's
Rights!!!

Vote ALL Women's
Rights!!

VOTE PRO
LIFE!!!

Hmmmm!

You see
where your last ONE vote got you in the
LAST
Presidential
election!!

All that debate and
indecision in FLorida...for a
month?

The world's shortest
knock-knock joke:

"Knock,
Knock!"...

"Who's
There?"...

"President!"...

"President
Who???"....!!!

Thoughts are things, so have good thoughts
as
everything that ever happened all
began as a simple yet
smart
thought.

Forward this
invitation to everyone you
know if
you
beleive that our
forefathers
died for something...for
our
continued
freedom ,

particularly our freedom to
express
ourselves,
especially in
this new
day and age of global
internet where
that freedom
is
greatly aborted

daily.

1233. *Now just why DID the chicken cross that road?

Yahoo group: thegreekhamradio
Date: 2004-07-16 20:47:43 UTC
From: President of the United Studs
Topic: 1233 Message: 1233

"President of the United Studs" <mrmyrtlebeach2004@...> wrote:

Now just why did the chicken cross that road?

Candidates in this year's President Election Responded today:

CYBILL SHEPHERD

Are YOU... talking to ME? WHAT Chiken?

REED REED

I was NOWHERE NEAR there, Officer !

GEORGE W BUSH
We don't really care why the chicken crossed the road. We just want to know if the chicken is on our side of the road or not. Our side of the road is the right side of the road and the chicken is either against us or for us. There is no middle ground for any chicken.

COLIN POWELL
Now to the left of the screen, you can clearly see the satellite image of the chicken crossing the road.

DONALD RUMSFELD
I have known about the chicken crossing the road for several months. I was investigating why the chicken moved but didn't feel it was necessary to alert anyone.

HANS BLIX
We have reason to believe there is a chicken, but we have not yet been allowed to have access to the other side of the road.

JOHN KERRY
Although I voted to let the chicken cross the road I am now against it!

RALPH NADER
The chicken's habitat on the other side of the road had been polluted by unchecked industrial greed. The chicken did not reach the unspoiled habitat on the other side of the road because it was crushed by the wheels of a gas-guzzling SUV.

PAT BUCHANAN
To steal the job of a decent, hard-working American.

RUSH LIMBAUGH
I don't know why the chicken crossed the road, but I'll bet it was

getting a government grant to cross the road, and I'll bet that somebody out there is already forming a support group to help chickens with crossing-the-road syndrome. Can you believe this? How much more of this can real Americans take? Chickens crossing the road paid for by their tax dollars. And when I say tax dollars, I'm talking about your money, money the government took from you to build a road for chickens to cross.

MARTHA STEWART
No one called me to warn me which way that chicken was going. I had a standing order at the Farmer's Market to sell my eggs when the price dropped to a certain level. No little bird gave me any inside information..

DR SEUSS
Did the chicken cross the road? Did he cross it with a toad? Yes, the chicken crossed the road, but why it crossed I've not been told.

ERNEST HEMINGWAY
To die in the rain. Alone.

MARTIN LUTHER KING, JR
I envision a world where all chickens will be free to cross roads without having their motives called into question.

GRANDPA
In my day, we didn't ask why the chicken crossed the road. Somebody told us the chicken crossed the road, and that was good enough.

BARBARA WALTERS
Isn't that interesting? In a few moments, we will be listening to the chicken tell, for the first time, the heart-warming story of how it experienced a serious case of molting, and went on to accomplish its life long dream of crossing the road.

JOHN LENNON
Imagine all the chickens in the world crossing roads together - in peace.

ARISTOTLE
It is the nature of chickens to cross the road.

KARL MARX
It was an historic inevitability.

RONALD REAGAN
What chicken?

CAPTAIN KIRK
To boldly go where no chicken has ever gone before.

SIGMUND FREUD
The fact that you are at all concerned that the chicken crossed the

road reveals your underlying sexual insecurity.

BILL GATES
I have just witnessed e-Chicken
2004, which will not only cross
roads,but will lay eggs, file your important documents, and balance
your checkbook... and Internet Explorer is an integral part of
e-Chicken.

ALBERT EINSTEIN
Did the chicken really cross the road, or did the road move beneath
the chicken?

BILL CLINTON
I did not cross the road with THAT chicken. What is your definition
of chicken?

ALGORE
That was my chicken! I invented the chicken.

THE BIBLE
And God said unto the chicken THOU SHALT CROSS THE ROAD. And the
chicken didst cross the road, and there was much rejoicing.

COLONEL SANDERS
Did I miss one?

Just WHY do I have to PROVE to everyone just how wonderfull and genius I AM...Why can't
they just TAKE my WORD FOR IT.......???

I really (really) think the
most of myself.

I repeat these things over
and over to myself throughout
the day in my hourly periods of
meditation
and recluse with my life-sized mirror.
(I take it with me everywhere I go.)

"I can compress the most words
into the smallest ideas than
any man I know."
(Ain't I grrreat?)

I can continue to be an infant for decades
after my first piece of ass.
(Ain't I grreat?)

I sincerely do beleive that the sun just WAITS
to RISE JUST to hear me crow...if you know
wad I mean.
(Ain't I just grrreat?)

NO ONE...and I repeat NO ONE
can have a higher opiniono of me
than I do of myself,
and I think I AM a dirty stinking rat
MOST of the time, but I lie some of
the timne, so I guess you'll really never never KNOW
about this one.
(Ain't I grrreat?)

Most people can cause great happiness
WHEREVER they go.
I AM known for causing great happiness
whenever I leave.
(Ain't I just grrreat?)

I AM soooo open-minided that the
wind just sails right through.
(Ain't I just grrreat?)

I AM your best friend.
I would NEVER stab you in the back.

I will stab you in the front.
(Ain't I just grrreat?)

I AM THE GREATEST.

Rick REED
RxR

More about me and my brilliance and genius tomorrow.
It's ALLLLL MOTHER's FAULT you know.

Just WHY do I have to PROVE to everyone just how wonderfull and genius I AM...Why can't they just TAKE my WORD FOR IT.......???

Bill CLINTON's best words:

"Contempt PRIOR TO investigation
is the HEIGHT of ignorance."

(Whether he meant that to get out
of his bedroom, I will never know...
wonder how many times Hillary heard THAT?)

This is a review of reviews
found in The Washington POST about Farenheit 9/ll

There are just three things I AM not Xactly in favor of
in these reviews mainly because
they only press forward stuff that is only
one person''s ideas and opinions..
and the reviews onoly highlight them
without substantiating them one way or the other.

One:
BUSH stayed around with some kids for a photo shoot
seven miinutes.....seven minutes
AFTER an agent whispered to him
that the second plane had hit the WTC.

Nobody sems to like the fact that he stayed on
with this classroom full of elementary kids
and finished what he started there first.

Like he was supposed to immediately
Xcuse himself and rush to the plane.

Those kids were being read a story
by the President of the United States.

He was making an impression on them
that would last for the rest of their lives.

He could not just jump up and announce...

"Hey, kids, gotta go go guys and dolls...
the world is falling apart in NYC,
and I have to split.
Maybe next time, heh?"

I personally feeeeeeel that Bush did the right thing.

He remained calm, finished taking photos and left.

I am suprised, what with my experience with kids,
that he was able to get out in just seven miniutes
without causing any alarm.....
or drawing SOME suspiucion.

He has a great demeanor with kids.

He left the teachers to Xplain it all.

And what is seven minutes?
What could the man DO in seven minutes?

It's that EIGHTH Minute that is of value.

Also, no lone likes the photo of him
whch many SEEM to THINK...there they go thinking again...
they "think" it shows him "paralyzed".

AGAIN...that is just SOMEONE's "opinion"...

See it for yourself in the news.

He is just sitting.

Holding a child's book...
Looking off.

He might be praying for all WE know...
He IS a professed CHristian..
and WWJD...
prayed with HIS eyes open..
I do too.

And...who KNOWS what goes ON i
n the MINDS oif..REAL MEN?

I think it is a great photo and
is deserving to be a statue someday.

No one likes the fact
that he spent 42% of his tenure prior to 9/ll
on what they SEEM to think is "vacation".

When I take a vacation
I work harder than ever before,
so I have to take a vacation from my vacation...
and still end up working harder than before that.

So, just because he is in Texas
doesn't mean he isn't working.

These people HAVE TO BE...INSANE..
to think that the President of The United States

EVER has time...to relax...
and the fact that he made
such a wonderful picture too,
shows his calm ...
and at such a moment it is only to his credit.

I would like to see a photo taken of Michael Moore at that same moment.

He has been so spastic in producing this film,
it all probably began
at that same moment,
with his doing back flips
foaming at the mouth
and no telling what else.

Check the photo out yourself..
could YOU have been so calm?

Could you have taken such a picture?

He HAD to be.....God Inspired.

He had impressions to make
on young individuals
who had NO IDEA what was going on.

He is one fine American.
As far as all that other stuff you hear...

Let the natural flow of events
determine for themselves what is going on.

Everybody loves a pin cushion.

Moore and all these other detractors
should try to do as well as BUSH.

JUST TRY

Τάκη, αυτό που θέλαμε εμείς να κάνουμε....το κάναμε σίγουρα. Όλα τα region της Ελλάδας, δεν μιλάω μόνο για εμάς στην Βόρειο Ελλάδα. Ακούστηκε το ομαδικό πνεύμα των ραδιοερασιτεχνών και σίγουρα το μόνο που θα μείνει όπως έχει πει και κάποιος άλλος συνάδελφος, θα είναι η πολύ καλή προσπάθεια όλων μας να βγει στον αέρα αυτό το διακριτικό.

Τώρα, όσον αφορά διάδωση κτλ....δεν ξέρω. (?)

Originaly from SV1AWL:
```

Χρήση ραδιοσυχνοτήτων κατά τη διάρκεια των Ολυ˜πιακών Αγώνων Αθήνα
2004
Κατά τη διάρκεια των Ολυ˜πιακών Αγώνων που θα πραγ˜ατοποιηθούν το
2004 στην
Ελλάδα, οι απαιτήσεις σε φάσ˜α ραδιοσυχνοτήτων θα είναι εξαιρετικά
υψηλές λόγω της
ευελιξίας, ευκολίας και ταχύτητας ανάπτυξης που χαρακτηρίζει τα
ασύρ˜ατα δίκτυα σε
σύγκριση ˜ε τα σταθερά ενσύρ˜ατα. Η χρήση συστη˜άτων ασύρ˜ατης
˜ετάδοσης
δεδο˜ένων, φωνής και εικόνας αποτελεί ιδιαίτερα ση˜αντικό τ˜ή˜α της
υποδο˜ής που
απαιτείται για την επιτυχή διεξαγωγή των Ολυ˜πιακών Αγώνων.
Οι κύριοι χρήστες τέτοιων συστη˜άτων θα είναι οι διαπιστευ˜ένοι
χρήστες, όπως η
Οργανωτική Επιτροπή ΑΘΗΝΑ 2004, η Αθηναϊκή Ολυ˜πιακή Ραδιοτηλεοπτική
(AOP) δηλαδή
ο ανάδοχος οργανισ˜ός ραδιοτηλεοπτικής κάλυψης των Αγώνων, οι
ραδιοτηλεοπτικοί
οργανισ˜οί που έχουν τα δικαιώ˜ατα κάλυψης των Αγώνων, οι υπηρεσίες
Τύπου και
φωτογράφων, οι ∆ιεθνείς Ο˜οσπονδίες, η ∆ιεθνής Ολυ˜πιακή Επιτροπή
κ.ά. Εκτός των
ανωτέρω, θα υπάρξει ˜εγάλο ενδιαφέρον και από άλλους χρήστες, κυρίως
από τα διεθνή
ραδιοτηλεοπτικά ˜έσα ενη˜έρωσης, τα οποία θα χρειασθεί να
χρησι˜οποιήσουν
ραδιοσυχνότητες για τη ραδιοτηλεοπτική κάλυψη των αγωνισ˜άτων και των
εκδηλώσεων της
Ολυ˜πιάδας που θα πραγ˜ατοποιηθούν εκτός των Ολυ˜πιακών
εγκαταστάσεων.
Οι κύριες υπηρεσίες που ανα˜ένεται να χρησι˜οποιηθούν είναι τα
ασύρ˜ατα ˜ικρόφωνα, οι
ασύρ˜ατοι, οι υπηρεσίες ˜ετάφρασης - ξενάγησης, η τηλε˜ετρία -
τηλεχειρισ˜ός, τα ασύρ˜ατα
συστή˜ατα παραγωγής ραδιοτηλεοπτικού σή˜ατος και οι δορυφορικές
επικοινωνίες.
Η ανα˜ενό˜ενη, ιδιαίτερα υψηλή, χρήση ραδιοσυχνοτήτων, συγκεντρω˜ένη
σε
περιορισ˜ένους γεωγραφικά χώρους (π.χ. Ολυ˜πιακές αθλητικές
εγκαταστάσεις), απαιτεί
προσεκτικό σχεδιασ˜ό και οργάνωση, ώστε να διασφαλισθεί η

διαθεσι˜ότητα και η
καθαρότητα του απαραίτητου ραδιοφάσ˜ατος, για την ο˜αλή και
απρόσκοπτη λειτουργία των
υπηρεσιών ασύρ˜ατης ˜ετάδοσης.
Η ΕΕΤΤ, κινού˜ενη προς αυτή την κατεύθυνση, κατάρτισε το
2002 «Επιχειρησιακό Σχέδιο για
την παροχή ασφαλούς και αξιόπιστου περιβάλλοντος ραδιοεπικοινωνιών
κατά τη διάρκεια
των Ολυ˜πιακών Αγώνων του 2004». Η υλοποίησή του έχει ήδη ξεκινήσει,
καλύπτοντας ευρύ
φάσ˜α ενεργειών.
Οι στόχοι της ΕΕΤΤ είναι η παροχή πληροφόρησης στους ενδιαφερό˜ενους
για τις
διαδικασίες και τις προϋποθέσεις χρήσης του φάσ˜ατος ραδιοσυχνοτήτων,
η εξέταση του
εξοπλισ˜ού που θα χρησι˜οποιηθεί κατά τη διάρκεια των Αγώνων, η
χορήγηση σχετικών
Προσωρινών Αδειών και η εποπτεία του φάσ˜ατος για τυχόν παράνο˜ες
εκπο˜πές και
παρε˜βολές.
Αξίζει να επιση˜ανθεί ότι για πρώτη φορά σε Ολυ˜πιακούς Αγώνες η
αίτηση για προσωρινή
εκχώρηση ραδιοσυχνότητας θα υποβάλλεται ˜έσω του ∆ιαδικτύου.
Συγκεκρι˜ένα, η
Οργανωτική Επιτροπή ΑΘΗΝΑ 2004, σε συνεργασία ˜ε την ΕΕΤΤ, υλοποίησε
την
ηλεκτρονική εφαρ˜ογή υποβολής αιτήσεων χρήσης ραδιοφάσ˜ατος «e-
Spectrum», η οποία
είναι ήδη διαθέσι˜η στο ∆ιαδίκτυο
(http://services.athens2004.gr/espectrum). Μέσω της
ανωτέρω εφαρ˜ογής, οι ενδιαφερό˜ενοι χρήστες ραδιοσυχνοτήτων ˜πορούν
να
ενη˜ερώνονται για το ισχύον καθεστώς αδειοδότησης ραδιοσυχνοτήτων των
Ολυ˜πιακών
Αγώνων, να υποβάλλουν τις αιτήσεις τους και να παρακολουθούν ˜έσω του
∆ιαδικτύου την
πορεία διεκπεραίωσής τους.
Για τη διεξαγωγή των επίσης κρίσι˜ων λειτουργιών της εποπτείας
ραδιοφάσ˜ατος και την
αποφυγή παρε˜βολών κατά τη διάρκεια των Αγώνων η ΕΕΤΤ θα υποστηριχθεί
πλήρως από
το Εθνικό Σύστη˜α ∆ιαχείρισης και Εποπτείας Φάσ˜ατος. (ΕΣ∆ΕΦ).
Ηλεκτρονική εφαρ˜ογή υποβολής αιτήσεων ☐e-Spectrum☐ :
http://services.athens2004.gr/espectrum/

From: Kostas SV1DPI
Topic: 1241   Message: 1241

Επειδή προλαβαίνετε να ακυρώσετε τις διακοπές σας...
από 28 Ιουλίου ως 8 Αυγούστου αναμένεται να είναι στον αέρα το YV0,
μία από τις 10 πιο σπάνιες ραδιοχώρες αυτή τη στιγμή.
Να σας πω μόνο ότι μεταξύ άλλων και όπως συνήθως έχει βάλει το χεράκι του ο Μάρτιν OH2BH.
Μιας και λέμε για dx, δώστε βάση επίσης σε μια Rotuma (3D2/R) μάλλον τον ίδιο καιρό από ένα φουκαρά Ισπανό που πάει διακοπές εκεί στα ερημονήσια...
Τέλος ιδιαίτερα οι νησιώτες, θυμηθείτε το IOTA contest το Σαββατοκύριακο που έρχεται...
Κωνσταντίνος SV1DPI

International Museumship Radio Event 2004 :

The Internatinal Museumship Event 2004 will take place

Jul 17th 0001 UTC until Jul 18th 2359 UTC

There are many different museumships participating as warships (aircraft carriers, battleships, cruisers, destroyeres, frigates, submarines, minesweepers and landing ships), merchant and other ships as freighters, passenger ships, ferries, coast guard cutters, research vessels and lightships etc..

All Ships wishing to participate please contact w1qwt@...

The ships listed below will use SSB and CW on various frequencies on all Amateur HF Band.

While the participating ships will use any valid amateur frequency the ships will prefer and stay near the following QRG:

==SSB== == CW ==

3.860 KHz 3.539 KHz
7.260 KHz 7.039 KHz
14.260 KHz 10.109 KHz
18.160 KHz 14.039 KHz
21.360 KHz 18.099 KHz
24.960 KHz 21.039 KHz
28.360 KHz 24.899 KHz
50.160 KHz 28.039 KHz

EVENT PSK 31 OPERATIONS

14.070 KHz
10.142 KHz
18.100 KHz
21.070 KHz
28.120 KHz

Work 10 of the participating ships and send a copy (SASE) of your logs to:

W1QWT, Bob Callahan
56 Acorn Street.
Scituate, MA. 02066 USA

You will then receive a certificate and QSL card.
For QSL cards for the other ships please QSL direct to them.
Certificate is 8.5 X 11. Please either send $ 2.00 to cover costs or
send
a large enough envelope with enough postage. The certificate
should not
be folded.

This year we will again award "Radioman" medals to the top 5
operators who
work the most participating ships from within the USA and the top 5
outside
the USA.
In addition, this year 3 "Chief Radioman" medals will be presented
to those
stations who work the most ships using the AM mode of modulation

List of participants (last update 10 Jul 04 - 2000 UTC):

SV4 SX4A/xx (ολες οι επαφές)
SV3 SX3A/xx (ολες οι επαφές)

Εντός της βδομάδος θα είναι online και το log της περιοχής SV2 (SX2A/xx)
Παρακαλούνται όλοι οι σταθμοί που πήραν μέρος στην εκδήλωση σαν SX2A/xx να αποστείλλουν τα log τους σε ηλεκτρονική μορφή και σε αρχείο τύπου ADIF (π.χ. sv2bfn.adi) στον πιλοτικό της περιοχής SV2 SV2BFN στο εμαιλ sv2bfn@yahoo.com
Επίσης από την Ρόδο έχουμε την διαβεβαίωση του SV5BYR για σύντομη αποστολή του log των σταθμών SX5A/xx που αναμένεται με πολύ ενδιαφέρον ιδίως από τους ξένους σταθμούς αφού η περιοχή αποτελεί και ξεχωριστή ραδιοχώρα...
Ηδη δουλεύουν με πολύ μεράκι και κέφι οι σταθμοί της σειράς SX1A/xx..
Τους ευχόμαστε καλή επιτυχία και καλό κουράγιο. Ελπίζω να έχουν καλύτερη τύχη απο το προηγούμενο region σε ότι αφορά τις συνθήκες διάδοσης.
Μην ξεχνάτε να επισκέπτεστε κατά καιρούς και την σελίδα με τα βραβεία για την εκδήλωση η οποία συνεχώς ανανεώνεται.
Για το πολύ ωραίο βραβείο που έχει εκδόσει η Ε.Ρ.ΔΥ.Π ήδη έχει ξεκινήσει από τους πιλοτικούς ανα περιοχή η αποστολή λίστας στον γραμματέα του συλλόγου
SV3AQN sv3aqn@raag.org
για το ποιοι έχουν στείλει log στους πιλοτικούς τους για την εκδήλωση, έτσι ώστε να το αποκτήσουν δωρεάν σαν ελάχιστη τιμή και έπαινο σε αυτούς που συνέβαλαν ενεργά στην επιτυχία της πανελλήνιας αυτής προσπάθειας.

Καλό καλοκαίρι σε όσους ετοιμάζονται να φύγουν αύριο για διακοπές
Πολλά 73 de SV2AEL Σάββας

Μεταβολή του Φάσματος ραδιοερασιτεχνικών εκπομπών λόγω Ο.Α.
Δημοσιέυθηκε: Mon Jul 26, 2004 2:36:43 by sv1awl
Μετά από συνάντηση που έγινε στο Υπουργείο Μεταφορών και Επικοινωνιών με εκπροσώπους από το ΥΜΕ, την ΕΕΤΤ, Αθήνα 2004, Ομοσπονδία Ραδιοερασιτεχνικών Ενώσεων Ελλάδος [ΟΡΕΕ], Σύλλογο Ραδιοερασιτεχνών Ελλάδος [ΣΡΕ] και Ένωση Ελλήνων Ραδιοερασιτεχνών [ΕΕΡ].

Ο Σύλλογος Ραδιοερασιτεχνών Ελλάδος [ΣΡΕ], στα πλαίσια των αυξημένων αναγκών και προκειμένου να εξασφαλιστεί η σωστή διεξαγωγή των Ολυμπιακών και Παραολυμπιακών Αγώνων της Αθήνας, όπου είναι απαραίτητη η εκτεταμένη χρήση διαφόρων τύπων ραδιοηλεκτρικών συστημάτων ως μέσω για την οργάνωση και την ασφάλεια των Αγώνων αυτών, σύμφωνα με την περιγραφή και βεβαίωση των αρμοδίων φορέων και στα πλαίσια της αρμονικής συνεργασίας συμβάλλοντας στην ολοκλήρωση των μέτρων αυτών,
συμφωνεί στην μερική τροποποίηση ☐ μεταβολή του Φάσματος για την χρονική περίοδο από 01.08.2004 έως 30.09.2004.

Ως εκ☐ τούτου με απόφαση του Δ.Σ. και την συνεργασία της Τεχνικής Επιτροπής του Συλλόγου, γνωστοποιεί στα μέλη του, αλλά και στους συνάδελφους Ραδιοερασιτέχνες στην Επικράτεια ότι στα πλαίσια των μέτρων αυτών θέτει εκτός Λειτουργίας τον Αναμεταδότη RU2 στην Αττική δικαιοδοσίας του, που εντάσσεται στον σχετικό πίνακα... για την ζητούμενη χρονική περίοδο.
Οι άλλοι αναμεταδότες του Συλλόγου και Λίνκ που δεν εντάσσονται στον σχετικό πίνακα, παραμένουν σε κανονική λειτουργία ως έχουν.

****
ΠΡΟΣΟΧΗ!!!

Ο Σ.Ρ.Ε. συνιστά στα μέλη του, την ρητή χρονικά εφαρμογή των μέτρων αυτών, τηρώντας με σχολαστικότητα την χρήση των συχνοτήτων στην μπάντα των UHF.

****

Μεταβολή του Φάσματος ραδιοερασιτεχνικών εκπομπών λόγω Ολυμπιακών και Παραολυμπιακών αγώνων.

Σχέδιο ΚΥΑ των Υπουργών ΥΕΘΑ και Μεταφορών και Επικοινωνιών που επιβάλλει μείωση του φάσματος ραδιοερασιτεχνικών εκπομπών λόγω εκτεταμένης χρήσης ορισμένων ραδιοηλεκτρικών συστημάτων ασφαλείας κατά την διάρκεια των Ολυμπιακών και Παραολυμπιακών αγώνων, προς γνώση και προετοιμασία σας για την μελλοντική εφαρμογή του.

Έχοντας υπόψη

1. Την παράγραφο 5, του άρθρου 1, του ν.2867/2000 <Οργάνωση και Λειτουργία των Τηλεπικοινωνιών και άλλες διατάξεις> (Α☐ 273).

2. Την Απόφαση των Υπουργών Εθνικής ’μυνας και Μεταφορών και Επικοινωνιών 21229/1-9-83 (Β☐ 550) περί «Κυρώσεως Ελληνικού Κανονισμού Κατανομής Ζωνών Συχνοτήτων», όπως τροποποιήθηκε με τις ΚΥΑ 66562/10-4-89 (Β☐ 254), ΚΥΑ 58980/28-2-94 (Β☐ 157 και Β☐ 466), ΚΥΑ 70596/Α/5396/28-6-99 (Β☐ 2117), ΚΥΑ 1548/88/11-1-2000 (Β☐ 80) και οικ. 39085/1586/7-6-03 (Β☐ 979).

3. Την Απόφαση του Πρωθυπουργού και του Υπουργού Μεταφορών και Επικοινωνιών με αριθμ. 18674/4176/26-3-2004 Ανάθεση αρμοδιοτήτων του Υπουργού Μεταφορών στον Υφυπουργό Μεταφορών και Επικοινωνιών (Β☐ 535).

4. Ότι, προκειμένου να εξασφαλιστεί η σωστή διεξαγωγή των Ολυμπιακών και Παραολυμπιακών Αγώνων της Αθήνας, είναι απαραίτητη η εκτεταμένη χρήση διαφόρων τύπων ραδιοηλεκτρικών συστημάτων, ως μέσων για την διοργάνωση, και την ασφάλεια των Αγώνων αυτών.

5. Ότι προκειμένου να καταστεί δυνατή η απρόσκοπτη λειτουργία των ραδιοηλεκτρικών συστημάτων της ανωτέρω παραγράφου 4, τα οποία θα προέρχονται και από Ραδιοπεριοχές της υδρογείου στις οποίες δεν ανήκει η Ελλάδα, είναι αναγκαία η προσαρμογή η ακόμη και η αναστολή ορισμένων Κατανομών Συχνοτήτων του ΕΚΚΖΣ.

6. Ότι οι μεταβολές που επιφέρει η παρούσα είναι προσωρινού χαρακτήρα.

7. Ότι από την παρούσα απόφαση δεν προκαλείται δαπάνη σε βάρος του κρατικού προϋπολογισμού.

ΑΠΟΦΑΣΙΖΟΥΜΕ

1. Τροποποιούμε την 21229/1-9-83 (Β☐ 550) Απόφαση των Υπουργών Εθνικής ’μυνας και Μεταφορών και Επικοινωνιών «Κύρωση Ελληνικού Κανονισμού Κατανομής Ζωνών Συχνοτήτων», όπως ισχύει, ως εξής...

From: Ivan Stroppiana
Topic: 1248   Message: 1248
Attachments: 1 described; binary payloads are missing from this source WARC

Στα πλαίσια των αυξημένων αναγκών και προκειμένου να εξασφαλιστεί η σωστή διεξαγωγή των Ολυμπιακών και Παραολυμπιακών Αγώνων της Αθήνας, όπου είναι απαραίτητη η εκτεταμένη χρήση διαφόρων τύπων ραδιοηλεκτρικών συστημάτων ως μέσω για την οργάνωση και την ασφάλεια των Αγώνων αυτών, σύμφωνα με την περιγραφή και βεβαίωση των αρμοδίων φορέων και στα πλαίσια της αρμονικής συνεργασίας συμβάλλοντας στην ολοκλήρωση των μέτρων αυτών και μετά από συνάντηση που έγινε στο Υπουργείο Μεταφορών και Επικοινωνιών με εκπροσώπους από το Υπουργείο Μεταφορών και Επικοινωνιών [ΥΜΕ], την Εθνική Επιτροπή Τηλεπικοινωνιών και Ταχυδρομείων [ΕΕΤΤ], τον Αθήνα 2004, την Ομοσπονδία Ραδιοερασιτεχνικών Ενώσεων Ελλάδος [ΟΡΕΕ], το Σύλλογο Ραδιοερασιτεχνών Ελλάδος [ΣΡΕ] και την Ένωση Ελλήνων Ραδιοερασιτεχνών [ΕΕΡ], συμφωνήθηκε η μερική τροποποίηση - μεταβολή του Φάσματος για την χρονική περίοδο από 01.08.2004 έως 30.09.2004.

Πιο συγκεκριμένα:

Τροποποιείται η 21229/1-9-83 (Β' 550) Απόφαση των Υπουργών Εθνικής Άμυνας και Μεταφορών και Επικοινωνιών «Κύρωση Ελληνικού Κανονισμού Κατανομής Ζωνών Συχνοτήτων», όπως ισχύει, ως εξής:

Από:

[Όρια [MHz], Υπηρεσία, Χρήστης]
430 - 440 | RL, at, 24, 34B, 34E, 57, 58 | ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΕΣ

Αντικαθίσταται σε:

[Όρια [MHz], Υπηρεσία, Χρήστης]
430 - 433 | RL, at | ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΕΣ
433 - 434.725 | RL, MOB, 24, 34B, 34E, 57 | ΥΜΕ
434.725 - 440 | RL, at, 24, 34E, 57, 58 | ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΕΣ

Η Τροποποίηση αυτή ισχύει μόνο για τους νομούς Αττικής, Θεσσαλονίκης, Αχαΐας, Ηλείας, Μαγνησίας και Ηρακλείου και αίρεται από την 1η Οκτωβρίου 2004, οπότε ο δεύτερος πίνακας της ανωτέρω παραγράφου 1 επανέρχεται στην αρχική του μορφή.

ΠΡΟΣΟΧΗ

Η ισχύς της παρούσας αρχίζει από την 1η Αυγούστου 2004 και συνιστάται η ρητή χρονικά εφαρμογή των μέτρων αυτών, τηρώντας με σχολαστικότητα την χρήση των συχνοτήτων στην μπάντα των UHF από ΟΛΟΥΣ τους Ραδιοερασιτέχνες οι οποίοι διαμένουν ή θα μετακινηθούν στους προαναφερόμενους Νομούς.

1249. Χρήση Ραδιοσυχνοτήτων κατά τη διάρκεια των Ο.Α. ΑΘΗΝΑ 2004

Yahoo group: thegreekhamradio
Date: 2004-07-30 21:51:00 UTC

Topic: 1249   Message: 1249

Χρήση ραδιοσυχνοτήτων κατά τη διάρκεια των Ολυμπιακών Αγώνων Αθήνα 2004

Κατά τη διάρκεια των Ολυμπιακών Αγώνων που θα πραγματοποιηθούν το 2004 στην Ελλάδα, οι απαιτήσεις σε φάσμα ραδιοσυχνοτήτων θα είναι εξαιρετικά υψηλές λόγω της ευελιξίας, ευκολίας και ταχύτητας ανάπτυξης που χαρακτηρίζει τα ασύρματα δίκτυα σε σύγκριση με τα σταθερά ενσύρματα. Η χρήση συστημάτων ασύρματης μετάδοσης δεδομένων, φωνής και εικόνας αποτελεί ιδιαίτερα σημαντικό τμήμα της υποδομής που
απαιτείται για την επιτυχή διεξαγωγή των Ολυμπιακών Αγώνων.

Οι κύριοι χρήστες τέτοιων συστημάτων θα είναι οι διαπιστευμένοι χρήστες, όπως η Οργανωτική Επιτροπή ΑΘΗΝΑ 2004, η Αθηναϊκή Ολυμπιακή Ραδιοτηλεοπτική (AOP) δηλαδή ο ανάδοχος οργανισμός ραδιοτηλεοπτικής κάλυψης των Αγώνων, οι ραδιοτηλεοπτικοί οργανισμοί που έχουν τα δικαιώματα κάλυψης των Αγώνων, οι υπηρεσίες Τύπου και φωτογράφων, οι ?ιεθνείς Ομοσπονδίες, η ?ιεθνής Ολυμπιακή Επιτροπή κ.ά. Εκτός των
ανωτέρω, θα υπάρξει μεγάλο ενδιαφέρον και από άλλους χρήστες, κυρίως από τα διεθνή ραδιοτηλεοπτικά μέσα ενημέρωσης, τα οποία θα χρειασθεί να χρησιμοποιήσουν ραδιοσυχνότητες για τη ραδιοτηλεοπτική κάλυψη των αγωνισμάτων και των εκδηλώσεων της Ολυμπιάδας που θα πραγματοποιηθούν εκτός των Ολυμπιακών εγκαταστάσεων.

Οι κύριες υπηρεσίες που αναμένεται να χρησιμοποιηθούν είναι τα ασύρματα μικρόφωνα, οι ασύρματοι, οι υπηρεσίες μετάφρασης - ξενάγησης, η τηλεμετρία - τηλεχειρισμός, τα ασύρματα συστήματα παραγωγής ραδιοτηλεοπτικού σήματος και οι δορυφορικές επικοινωνίες.

Η αναμενόμενη, ιδιαίτερα υψηλή, χρήση ραδιοσυχνοτήτων, συγκεντρωμένη σε περιορισμένους γεωγραφικά χώρους (π.χ. Ολυμπιακές αθλητικές εγκαταστάσεις), απαιτεί προσεκτικό σχεδιασμό και οργάνωση, ώστε να διασφαλισθεί η διαθεσιμότητα και η καθαρότητα του απαραίτητου ραδιοφάσματος, για την ομαλή και απρόσκοπτη λειτουργία των υπηρεσιών ασύρματης μετάδοσης.

Η ΕΕΤΤ, κινούμενη προς αυτή την κατεύθυνση, κατάρτισε το 2002 «Επιχειρησιακό Σχέδιο για την παροχή ασφαλούς και αξιόπιστου περιβάλλοντος ραδιοεπικοινωνιών κατά τη διάρκεια των Ολυμπιακών Αγώνων του 2004». Η υλοποίησή του έχει ήδη ξεκινήσει, καλύπτοντας ευρύ φάσμα ενεργειών.

Οι στόχοι της ΕΕΤΤ είναι η παροχή πληροφόρησης στους ενδιαφερόμενους για τις διαδικασίες και τις προϋποθέσεις χρήσης του φάσματος ραδιοσυχνοτήτων, η εξέταση του εξοπλισμού που θα χρησιμοποιηθεί κατά τη διάρκεια των Αγώνων, η χορήγηση σχετικών Προσωρινών Αδειών και η εποπτεία του φάσματος για τυχόν παράνομες εκπομπές και παρεμβολές.
Αξίζει να επισημανθεί ότι για πρώτη φορά σε Ολυμπιακούς Αγώνες η αίτηση για προσωρινή εκχώρηση ραδιοσυχνότητας θα υποβάλλεται μέσω του ?ιαδικτύου. Συγκεκριμένα, η Οργανωτική Επιτροπή ΑΘΗΝΑ 2004, σε συνεργασία με την ΕΕΤΤ, υλοποίησε την ηλεκτρονική εφαρμογή υποβολής αιτήσεων χρήσης ραδιοφάσματος «e-Spectrum», η οποία
είναι ήδη διαθέσιμη στο ?ιαδίκτυο (http://services.athens2004.gr/espectrum).

Μέσω της ανωτέρω εφαρμογής, οι ενδιαφερόμενοι χρήστες ραδιοσυχνοτήτων μπορούν να ενημερώνονται για το ισχύον καθεστώς αδειοδότησης ραδιοσυχνοτήτων των Ολυμπιακών Αγώνων, να υποβάλλουν τις αιτήσεις τους και να παρακολουθούν μέσω του ?ιαδικτύου την πορεία διεκπεραίωσής τους.

Για τη διεξαγωγή των επίσης κρίσιμων λειτουργιών της εποπτείας ραδιοφάσματος και την αποφυγή παρεμβολών κατά τη διάρκεια των Αγώνων η ΕΕΤΤ θα υποστηριχθεί πλήρως από το Εθνικό Σύστημα ?ιαχείρισης και Εποπτείας

Φάσματος. (ΕΣ?ΕΦ).

Ηλεκτρονική εφαρμογή υποβολής αιτήσεων “e-Spectrum” :

1250. Πληροφοριακό δελτίο χρήσης ραδιοεξοπλισμού κατά τη διάρκεια των Ο.Α. ΑΘΗΝΑ 2004

Yahoo group: thegreekhamradio
Date: 2004-07-30 21:53:27 UTC
From: Ivan Stroppiana
Topic: 1250   Message: 1250

ΧΡΗΣΗ ΡΑΔΙΟΕΞΟΠΛΙΣΜΟΥ ΚΑΤΑ ΤΗ ΔΙΑΡΚΕΙΑ ΤΩΝ ΟΛΥΜΠΙΑΚΩΝ ΑΓΩΝΩΝ «ΑΘΗΝΑ 2004»

ΣΚΟΠΟΣ ΤΟΥ ΠΑΡΟΝΤΟΣ ΕΝΗΜΕΡΩΤΙΚΟΥ ΔΕΛΤΙΟΥ

Γνωρίζοντας τις ιδιαίτερα αυξημένες απαιτήσεις που θα υπάρξουν, για χρήση ραδιοφάσματος κατά τη διάρκεια των Αγώνων, η Οργανωτική Επιτροπή Ολυμπιακών ΑΘΗΝΑ 2004 και η Εθνική Επιτροπή Τηλεπικοινωνιών και Ταχυδρομείων (ΕΕΤΤ), ως αρμόδια ρυθμιστική αρχή για τα θέματα διαχείρισης, διάθεσης και ελέγχου ραδιοφάσματος, επιθυμούν να ενημερώσουν όλους τους ενδιαφερομένους για το ισχύον καθεστώς χρήσης ραδιοφάσματος εντός των Ολυμπιακών Εγκαταστάσεων.

Η επιτυχημένη διεξαγωγή των Αγώνων εξαρτάται σε πολύ μεγάλο βαθμό και από τις ραδιοεπικοινωνίες. Προβλήματα παρεμβολών που ενδεχομένως προκληθούν από παράνομους χρήστες θα μπορούσαν να επηρεάσουν την παραγωγή του Διεθνούς Ολυμπιακού Τηλεοπτικού Σήματος, ή ακόμη και να θέσουν σε κίνδυνο ανθρώπινες ζωές, εάν επηρεάσουν τις ραδιοεπικοινωνίες των υπηρεσιών εκτάκτου ανάγκης.

Με τον πολύ προσεκτικό σχεδιασμό συχνοτήτων, την άριστη οργάνωση και τη συνεργασία όλων των ενδιαφερομένων, το διαθέσιμο φάσμα συχνοτήτων, μπορεί να διατεθεί και να ικανοποιήσει τα αιτήματα των χρηστών, αξιόπιστα και χωρίς προβλήματα παρεμβολών.

ΠΡΟΣΩΡΙΝΗ ΕΙΣΑΓΩΓΗ ΡΑΔΙΟΕΞΟΠΛΙΣΜΟΥ

Κάθε τύπος ραδιοεξοπλισμού προκειμένου να χρησιμοποιηθεί στην Ελλάδα θα πρέπει να φέρει σήμανση “CE” σύμφωνα με το Προεδρικό Διάταγμα 44/2002. Η προσωρινή εισαγωγή στη χώρα και η χρήση ραδιοεξοπλισμού και τηλεπικοινωνιακού τερματικού εξοπλισμού που δεν φέρει τη σήμανση “CE” επιτρέπεται μόνο για διαπιστευμένους χρήστες με αποκλειστικό σκοπό την κάλυψη αναγκών κατά την τέλεση των Ολυμπιακών και Παραολυμπιακών Αγώνων. Σε κάθε περίπτωση η εισαγωγή δεν δύναται να υπερβαίνει τους έξι μήνες, διάστημα εντός του οποίου ο συγκεκριμένος εξοπλισμός θα πρέπει να εξαχθεί.

Η ΧΡΗΣΗ ΡΑΔΙΟΕΞΟΠΛΙΣΜΟΥ ΣΤΗΝ ΕΛΛΑΔΑ, ΕΚΤΟΣ ΟΛΥΜΠΙΑΚΩΝ ΕΓΚΑΤΑΣΤΑΣΕΩΝ
Ο χρήστης του εξοπλισμού θα πρέπει να είναι κάτοχος άδειας για χρήση συχνότητας, η οποία δίνεται από την ΕΕΤΤ.

Δεν απαιτείται άδεια για τη χρήση των παρακάτω συσκευών:

Ο Τερματικός εξοπλισμός που προορίζεται για σύνδεση σε δημόσιο τηλεπικοινωνιακό δίκτυο (π.χ. GSM, UMTS, paging TETRA κλπ.). Στην Ελλάδα τα δίκτυα κινητής τηλεφωνίας χρησιμοποιούν το πρότυπο GSM στις ζώνες 900 και 1800MHz. Οι ενδιαφερόμενοι θα πρέπει να ενημερωθούν από τον πάροχό τους σχετικά με δικαιώματα περιαγωγής στην Ελλάδα.

Ο Εξοπλισμός PMR446. Η χρήση τους εκτός των Ολυμπιακών εγκαταστάσεων είναι ελεύθερη.

Ο Συσκευές μικρής εμβέλειας που λειτουργούν σύμφωνα με τη Σύσταση 70-03 και ειδικότερα εξοπλισμός ασύρματων τοπικών δικτύων που λειτουργούν στις ζώνες 2,4-2,4835 GHz, 5150-5350GHz και 5470-5725 GHz,σε εσωτερικούς χώρους. Για τη χρήση ασύρματων ζεύξεων στη ζώνη 2,4-2,4835 GHz σε εξωτερικούς χώρους απαιτείται δήλωση στην ΕΕΤΤ.

Η ΧΡΗΣΗ ΡΑΔΙΟΕΞΟΠΛΙΣΜΟΥ ΕΝΤΟΣ ΤΩΝ ΟΛΥΜΠΙΑΚΩΝ ΕΓΚΑΤΑΣΤΑΣΕΩΝ
Πέραν του ισχύοντος εθνικού νομικού πλαισίου, για τη χρήση ραδιοεξοπλισμού εντός των Ολυμπιακών Εγκαταστάσεων, θα ισχύσουν επιπρόσθετα οι ακόλουθοι περιορισμοί, οι οποίοι καθίστανται αναγκαίοι για την ομαλή διεξαγωγή των Αγώνων, λόγω του μεγάλου αριθμού συσκευών οι οποίοι αναμένεται να λειτουργούν ταυτόχρονα, συγκεντρωμένοι σε περιορισμένο γεωγραφικό χώρο. Οι περιορισμοί αυτοί ισχύουν έναντι όλων των προσώπων που εισέρχονται σε Ολυμπιακές Εγκαταστάσεις (επισκέπτες, διαπιστευμένοι ή μη οργανισμοί, κλπ.).

Ο Η χρήση οποιουδήποτε τύπου ραδιοεξοπλισμού, εντός των Ολυμπιακών εγκαταστάσεων, απαιτεί προσωρινή αδειοδότηση από την ΕΕΤΤ.

Ο Ειδικότερα απαιτείται μόνο προσωρινή έγκριση από την ΟΕΟΑ για τη λειτουργία ραδιοεξοπλισμού PMR 446 και εξοπλισμού ασύρματων τοπικών δικτύων που λειτουργεί σύμφωνα με τους όρους χρήσης των συσκευών μικρής εμβέλειας (όπως προβλέπονται στη Σύσταση ERC/REC 70-03).στις ζώνες 2.4-2.4835 GHz, 5.150-5.350GHz και 5.470-5.725 GHz. Ο ραδιοεξοπλισμός αυτός λειτουργεί σε δευτερεύουσα βάση, χωρίς να παρέχεται προστασία από παρεμβολές.

Ο Εντός των Ολυμπιακών εγκαταστάσεων, μπορεί να χρησιμοποιηθεί χωρίς άδεια από την ΕΕΤΤ, μόνο τερματικός εξοπλισμός των δημόσιων δικτύων κινητών υπηρεσιών TETRA (δίκτυο ΟΤΕ), paging (δίκτυο ΟΤΕ), GSM (δίκτυα Cosmote, Vodafone, Telestet, Qtelecom) και UMTS (δίκτυα Cosmote, Vodafone, Telestet,).

Ο Ραδιοεξοπλισμός, που λειτουργεί στα πλαίσια ισχύουσας νόμιμης άδειας στην Ελληνική επικράτεια, απαιτεί ειδική άδεια για χρήση εντός των Ολυμπιακών εγκαταστάσεων

Ο Εξοπλισμός CB (Citizen band radio), ιδιοκατασκευές ή τροποποιημένος εξοπλισμός δεν επιτρέπεται να λειτουργεί μέσα στις ολυμπιακές εγκαταστάσεις και δεν αδειοδοτείται.

Υποβολή Αιτήσεων Αδειοδότησης

Η υποβολή των αιτήσεων προσωρινής αδειοδότησης, με αναλυτική παροχή πληροφοριών, πραγματοποιείται ηλεκτρονικά μέσω της εφαρμογής e-Spectrum, στο Διαδικτυακό τόπο http://services.athens2004.com/espectrum.

Επιβολή κυρώσεων

Παράνομη χρήση ραδιοεξοπλισμού διώκεται ποινικά και μπορεί να οδηγήσει σε προσωρινή δέσμευση ή/και κατάσχεση του εξοπλισμού.

Η ΕΕΤΤ, σε συνεργασία με την ΟΕ Αθήνα 2004, μπορεί να επιβάλλει την παύση λειτουργίας ραδιοεξοπλισμού ο οποίος λειτουργεί νόμιμα, στα πλαίσια της αδείας του, εφόσον κριθεί ότι αυτός δημιουργεί παρεμβολές σε υπηρεσίες υψηλότερης σπουδαιότητας.

>>> AVES ISLAND 2004 <<<

The Radio Club Venezolano (yv5aj-rcv@...) has released
official
information on the long awaited DXpedition to Aves Island (NA-020),
organized
by RCV to celebrate their 70th anniversary.
The expedition will take place between 28 July and 8 August. Actual
QRV time
will depend on the length of the voyage (it takes some 24 hours to
reach the
island, which lies around 600 kilometres north of mainland Venezuela)
and on
set-up. The main antennas will be taken down the day before
departure, but
operations might continue until the last moment on 8 August.
The team will include YV1AVO, YV1DIG, YV4BOU, YV5AMH, YV5IVB,
YV5JBI, YV5KM,
YV5KXE, YV5OIE, YV6BTF and YY5FRD, plus K4UEE, K6MYC, OH2BH and
OH0XX as
guest operators. They will operate on all bands and modes
(callsign not
provided) with six HF stations and one 6m/2m, EME and satellite
station.
Suggested frequencies are:
CW 1823, 3503/3523, 7003/7023, 10103, 14023, 18073, 21023, 24893,
28023,
50103, 144100, 432100
SSB 1843, 3795, 7055, 14195/14260, 18145, 21295/21195*, 24945,
28480/28905*, 50103, 144200 (* for novices only)
RTTY 3580, 7035, 10133, 14083, 18101, 21083, 24920, 28083
SSTV 14233, 21343, 28683
PSK 3580, 7035/7080, 10143, 14071, 18101, 21071, 24920, 28120

FM 29600, 146520
EME 50103, 144080
At the hour and at half hours the operators will be looking respectively for
AF/AS/OC and short skip stations (Caribbean and northern SA) only, please
refrain from calling if you are not in those areas.
The pilot stations will be ZL2AL (Asia and Oceania), K6GNX (America) and
OH2RF (Europe).
If a good communication can be established, logs will be uploaded daily and
made available on the RCV's web page (www.radioclubvenezolano.org).
QSL via KB6NAN, either direct (Dianna R Killeen, P.O. Box 911, Pescadero, CA
94060-0911, USA) or through the bureau. Logs will be uploaded to the ARRL's
LOTW (Logbook of the World).
- -

9A - 9A2004YC will be activated until 27 July for the World Wide Young
Contesters Meeting [425DXN 679]. The web site for the event is at
http://www.wwyc.net/meeting2004/. Look for 9A2004YC to be aired from
the island of Sv. Andrija (EU-110, IOCA CI-110) during the IOTA
Contest. QSL via 9A5AEI. [TNX 9A6XX]
BV - Look for BW9W to be aired on all bands and modes from P'engchia Yu
Island (AS-155) on 23-26 July. QSL via BV2KI. [TNX The Daily DX]
C5 - Josep, EA3BT and Nuria, EA3WL will try to operate from Bijol Island
(AF-060) during their 29 July-4 August activity from The Gambia
[425DXN 689]. It will be a one-day operation, possibly on 31 July or
1 August, on 20 metres SSB only. [TNX EA3BT]
DL - Josef, DL5RJ/p will operate QRP on 40 and 20 metres CW and SSB from
Usedom Island (EU-129) from 27 July to 17 August. QSL via bureau.
[TNX DL2VFR]
ES - Oskar, ES7NY will be active as ES7NY/2 from Naissaar Island (EU-149)
for about two months. QSl via home call, direct or bureau. [TNX OPDX

Bulletin]
GM - Dennis, M0LSB/MM0LSB is currently touring the Outer
Hebrides
(EU-010) and plans to visit and operate from several
different
islands until 18 August. [TNX GM3VLB]
HI - Look for Ralph, HI9/DL9MWG to operate mostly CW from the
Dominican
Republic from 28 July to 16 August. QSL via bureau. [TNX
DL2VFR]
I - IV3IPS, IV3WMS, IV3TYS, IV3EPO, IV3IFN, S57NDT, S57VAH
and others
will operate as as IQ3GO/P from Isola Del Campo (EU-130,
IIA GO-029)
on 23-26 July, IOTA Contest included. QSL via bureau. [TNX
IV3IPS]
I - Alessio/IZ0CKJ, Simon/IZ7ATN, Luca/IZ6DSQ,
Paolo/IZ0EVI and
Lino/IZ0CBB will operate as IB0/homecall from
Palmarola Island
(EU-045, IIA LT-008) on 24-25 July. QSL via home calls,
direct or
bureau. [TNX IZ0CKJ]
I - Look for Riccardo, IK0YUJ to operate (on 40-6 metres mainly
CW) as
IA5/IK0YUJ/P from Isola del Giglio (EU-028, IIA GR-002)
from 31 July
to 7 August. QSL via home call, direct or bureau. [TNX
IK0YUJ]
IS0 - IS0BMU, IS0CPU, IS0IGV, IS0JOO and IS0XIA will be active
as IM0A
from Isola dei Meli (EU-165, IIA CA-006) on 23-26 July.
QSL via
IS0BMU. [TNX IT9DAA and MIA Bulletin]
I - Franco, IK4GLV has replaced IK4RVG for the announced
operation
[425DXN 688] from Scanno di Piallazza (EU-155) on 25 July.
Look for
IK4DCS/4 during the IOTA Contest and IK4GLV/4 outside the
contest.
QSL via home calls. [TNX IK4DCS]
JA - Taka, JR3TVH and Natsu, JJ3NAW will operate as JR3TVH/8 and
JJ3NAW/8
from Rishiri Island (AS-147) until around 1 UTC on 25
July. They
will be active during the IOTA Contest. QSL via home
calls, direct
or bureau. [TNX JR3TVH]
PJ4 - Bob/K9MDO, Bill/N2WB and John/W9ILY will operate as
PJ4/homecall

from Bonaire (SA-006) on 22-29 September. They will operate
on 10-80
metres SSB, CW and RTTY. Look for PJ4/W9ILY to
participate in the
CQ/RJ DX RTTY Contest. QSL PJ4/K9MDO via W9NJB (direct) or
home call
(bureau), QSL PJ4/N2WB via N2OO, QSL PJ4/W9ILY via
home call.
Further information at http://n2wb.tripod.com [TNX N2WB]
SV9 - Rolf, DL6ZFG will be active (mainly on 20 metres SSB with
some RTTY)
as SV9/DL6ZFG/p from Crete (EU-015) from 27 July to 8
August. After
1 August he might use the special olympic callsign
(J42004ZFG). [TNX
DL6ZFG]
UA - Finally RI0CM became active from the Malminskiye Islands (AS-
172) on
22 July at 13.16 UTC. Owing to strong wind and rain
they were
running 100 watts into a vertical, a better antenna was
expected to
be set up on the 23rd. The team should be on the island
until 24
July at least. [http://www.mdxc.org/ri0cm/]
W - Look for Manfred, VA3RMF to be active on 80, 40 and 20
metres as
VA3RMF/W1 from Mount Desert Island (NA-055) between 30
July and 2
August. QSL via home call, direct or bureau. [TNX VA3RJ]
XU - Wim, ON6TZ will be active as XU7TZG from
Kompong Som
(Sihanoukville), Cambodia until 2 August. During the IOTA
Contest he
will operate as XU7POS from Koh Poah/Pos (AS-133). [TNX
The Daily
DX]
YA - Henry, F6EAY is currently in Kabul, Afghanistan and has
been issued
the call T6RF. He operates PSK31 only. QSL via F6ITD. [TNX
F5NQL]

- - - -

>>> IOTA CONTEST - LATEST ADDITIONS & CORRECTIONS <<<
Look for the following stations to participate in this year's
event:

BY - Terry, BA7NQ and several other operators as BI7N from
Nanpeng Island
(AS-131).

BY - BD5HAG and others as BI5Z from Zhoushan Island (AS-137). QSL via
BD5HAG.
BY - Jin, BA4TA and others as BI5D from Dongtou Island (AS-141).
QSL via
BA4RD.
CO - Juan Carlos, CO8TW (SSB and CW) from Cuba (NA-015). QSL via
IZ8CCW.
On-line log will be available at http://www.qsl.net/co8tw/.
F - Gunther/F5VHQ, Pascal/F5JSD, Frank/F4AJQ and Bernard/F9IE as
F6KOP/P
from Noirmoutier Island (EU-064).
GM - In addition to GM2Z (CW only) [425DXN 689], GM4TOQ/p (SSB) from
the Isle
of Bute (EU-123). QSL via GM4TOQ. The operators will be
John/GM0WRR,
Jurij/MM0DFV, Alan/GM4TOQ, Ross/GM7WED, Eric/GM4BOA and
Bill/GM0FNL.
GM - MM0CWJ/p (SSB only) from the Monach Islands (EU-111). QSL via
WA3RHW.
HS - Nopporn/HS0EHF, Dej/E21YDP and Champ/E21EIC as homecall/p from
Si Chang
(AS-107). QSL via home calls.
HS - Choon, E20HHK as E20HHK/p from Chang Island (AS-125). QSL via
E21EIC.
JA - Kenji, JA4GXS/4 (SSB and CW) from Yashiro Island (AS-117). QSL
via home
call, direct or bureau.
OD - OD5RMK is the callsign to be used by I1HJT, I1NVU, IK1QBT
and OD5LN
[425DXN 687] during their operation from Ramkin Island (AS-
108). QSL via
I1HJT. [TNX IK1HJR]
OY - Carsten, OY1CT (all bands CW) from the Faroe Islands (EU-
018). QSL
direct.
PA - PB2T, ON4IA, ON4ATW, ON5UM, ON6CC and ON6NL as PB2T/P
from Goeree
Overflakkee (EU-146).
PY - Cris, PY7GK as ZW6GK (mainly CW on 15 and 20 metres) from
Itaparica
Island (SA-023).
SM - The IOTA Contest callsign to be used from Tjorn Island (EU-043)
will be
SK6M (not SC6AG as announced in 425DXN #687). There is also a
change in
the QSL route, which now is via SM6DYK, direct or bureau.
SP - Zick, SP3BJK as SP3BJK/1 (SSB and CW) from Wolin Island (EU-
132). QSL
via home call, direct or bureau.
UA - Victor/RN1NU, Dmitry/UA1NFA and Roman/RN1NGJ from the White

Sea Coast
group (EU-147) as RI1NU.
VE - John, VE1JS from Brier Island (NA-127). QSL via home call,
direct or
bureau.
W - Jeff, KU8E and John, K4BAI as KU8E/p from St George Island (NA-
085). QSL
via KU8E.
YV - Neris, YV7QP (SSB and CW) from Margarita Island (SA-012).

>>> 425 DX NEWS MAGAZINE <<<

The latest 425 DX News monthly editions (May and June issues),
edited by
Maurizio Bertolino (I1-21171/IZ1CRR), are now available for free
downloading
in either.pdf or .doc formats at http://www.425dxn.org/monthly/.
- -
- - - -

3V8 QSL BUREAU ---> Andy, DJ7IK reports that the 3V8 QSL Bureau,
located at
Tunisian Scouts HQ, is now up and running. The address is: Scouts
Tunisiens,
Amateur Radio 3V8ST, Avenue Juguartha, P.O. Box 339, Tunis
Mahrajene 1082,
Tunisia.

4S7PAG ---> Joel, F5PAC became active as expected from the Sri Lanka'
Coastal
Islands group (AS-171). QSL via home call, either direct (Joel
Sutterlin, 1
Rue du Rossberg, 68310 Wittelsheim, France) or through the bureau.
The web
page for the operation is at www.qsl.net/f5pac/4s7.htm

6O0A ---> Sam Voron, VK2BVS (6O0A) [425DXN 636] has been back in
Galkayo,
Central Somalia for a while and will be there until 30 September.
He has
established two club stations (the first at the Radio Galkayo ARC
and the
second at the Radio Daljir ARC) which are being used for amateur

radio radio
training courses. Those stations are also available for the use of
foreigners
and details on getting the Somalia Visitors ham radio license can be
found at
http://www.radiogalkayo.com/banner/radio_school3.php. As for
getting a QSL
card from 6O0A, this is a "QSO only" station and Sam is not
interesting in
QSLling: "I am leaving the QSLing for the hams who may
mount future
dxpeditions or when the locals can do it", he says.

BARENTS SEA ISLANDS ---> Albert, RA1QHJ reports that the islands
activated by
Nick, RA1QQ/1 and Dmitrij, RW1ZZ/P (QSL for both via RA1QQ)
during their
recent trip [425DXN 685] were:
Voron'i Ludki (EU-082, RRC-0319, WLH - new one) 2-4 July
Kil'din (EU-082, RRC-0303, WLH - 1196) 5-7 July
Bolshoj Gryaznyj (RRC-0318) 11-12 July
Kharlov (EU-161, RRC-0302, WLH - 0640) 13-15 July

PIRATE ---> Vit, EZ8CW says that EZ4XX (quite active in contests) is
a pirate
station.

QSL AY1ZA ---> The QSL cards, donated by 425 DX News and the
Mediterraneo DX
Club for Horacio's, LU4DXU, operation from the South Orkney
Islands, can be
viewed at http://www.mdxc.org/ay1za.asp [TNX IZ8CCW]

QSL II7ANT ---> Frank, IZ7AUH reports that direct cards for this
special
event station, which was active during the Antarctica Activity
Week (22-28
February), are being mailed. Direct requests without return postage
will be
processed via the bureau.

T.W.L.H.F. ---> The World Lighthouse Foundation has just been
formed by
several amateur radio from across the world. It is also open to
SWLs and
anyone unlicenced who just wishes to share their interest in
lighthouses with
other like minded people. The website is at http://www.twlhf.com/
[TNX M3ZYZ]

Καλημέρα σε όλους,

Επανήλθα για λίγο στην πόλη για κάποιες έκτακτες δουλειές και το βραδάκυ αποχωρώ πάλι για το εξοχικό στην Περαία-Θεσσαλονίκης.

Θα απουσιάζω μέχρι τις 15 Αυγούστου και μέχρι τότε, εύχομαι όλοι να περνάτε καλά...να έχετε καλές διακοπές (για όσους δεν πήγαν ακόμα ή βρίσκονται σε αυτές) και να έχετε καλή επιστροφή.

Όχι, δεν είπα αυτό !!! Τουλάχιστον δεν το εννούσα έτσι ;-) Ούτως η
άλλως και εγώ για μερικές μέρες θα βρίσκομαι εκεί Αλέξανδρε και
εξάλλου έχουμε φάει σχεδόν ΟΛΕΣ τις "καλές ζέστες" μέσα στην πόλη
για "qrl-ικά". 2-3 μπανάκια (έστω και στην περαία), δεν θα με
χαλάσουν.

Εγώ δυστηχώς επέστρεψα σήμερα και δεν πρόλαβα να διαβάσω το μήνυμα..

Οπότε όποιος μπόρεσε να την πάρει την εφημερίδα, να μας πει σε
γενικές γραμμές τι λέει...

1267. For echolink users.

Yahoo group: thegreekhamradio
Date: 2004-08-16 21:49:39 UTC
From: sxanthop
Topic: 1267   Message: 1267

Καλησπέρα,

Πριν απο λίγο είδα να λειτουργεί ένα καινούργιο(;) echolink gateway στην Σπάρτη. Το callsign είναι SV0LU και απο οτι είπε ο συνάδελφος Νίκος λειτουργεί στην συχνότητα 144.850.

Δεν ξέρω αν θα είναι κάτι μόνιμο (απο οτι άκουσα, νομίζω πως ναι) αλλά αξίζει να σημειωθεί και αυτό ως μια προσπάθεια δικτύωσης των ελλήνων ραδιοερασιτεχνών με την χρήση του echolink.

INTERNATIONAL LIGHTHOUSE/LIGHTSHIP WEEKEND

The INTERNATIONAL LIGHTHOUSE / LIGHTSHIP WEEKEND 2004

will be organized by GM4SUC (contact Mike for more information). Last
year's
(2003) International Lighthouse/Lightship Weekend (ILLW) included 370
regis-
tered stations in 48 countries from around the world. This year the
period
of the event is from
21 Aug (0001 UTC) - 22 Aug 04 (2359 UTC)

In DL the lightships "BORKUMRIFF" (DL0BRF"), "WESER" (DF0WH), "ELBE 1"
(DL0CUX) and "AMRUMBANK" (DF0MF) are expected for participation.

The Marinefunker-Runde will be activ onboard the former british "LV
13"
(DL0MFH) Hamburg and the lighthouse Karnin (DL0MFK) at Peeneriver
(island of Usedom - Baltic Sea) as a temporary station.
Further on MF-members will be activ from the
lightvessel "Westhinder" -
Belgium, "Elbe 1" - Cuxhaven and "Weser" - Wilhelmshaven.

>From Europe and oversea countries lightships as

"NOORD HINDER" (PA6NH), "COLUMBIA" (W7BU) "NANTUCKET" (WB1CQO),
"XXI" (OZ7DAL), "PLANET" (GB2LBL) and "HELSINKI" (OH5AD) etc.
are expected to take part.

An updated list of the present participants is available - please see

http://www.illw.net/2004_list.htm

For further information please see MF-Website:
http://www.marinefunker.de
including the shiplist.

Pse add 'LIGHT' , 'LGT' , 'LIGHTHOUSE' or 'LIGHTSHIP' after the
Call!.

QRG - List:

1272. SV1BDS echolink gate - Athens

Yahoo group: thegreekhamradio
Date: 2004-08-17 13:11:17 UTC
From: sxanthop
Topic: 1272   Message: 1272

Καλησπέρα,

Δεν υπάρχουν σταθμοί/συνάδελφοι που να ακούνε το 431.100 echolink gate στην Αθήνα;

Λόγω των ημερών, αρκετοί συνδεόνται επάνω στο gate για να μιλήσουν με άτομα που τυχόν θα ακούσουν...γι'αυτό αν θέλουν κάποιοι συνάδελφοι απο Αθήνα ας κάνουν ακρόαση στο 431.100 και σίγουρα θα ακουστούν κάποιοι συνάδελφοι απο το εξωτερικό.

9J2 QSL BUREAU ---> Mike, G3TEV (QSL manager for 9J2BO) says that
there is no
outgoing QSL Bureau for Zambia. If stations want a card the from
Zambia, the
best way is by the direct route, either to the QSL manager or direct
to the
station worked, enclosing a SAE plus return postage. Otherwise
they are
unlikely to get a return card due to the high postal costs
involved in
sending direct replies to cards received via the bureau.

CLOSING LOGS ---> Jack, VK2XQ (formerly VK2GJH) informs that he
will close
the following logs on 1 October 2004:

3D2JH Fiji 27 June - 3 August 1997
C21JH Nauru 16 August - 4 September 1998
C21JH Nauru 28 June 1999 - 17 December 2000
T30JH Western Kiribati 21 February 1998 - 25 September 2000
T33JH Banaba 20-26 July 1997
QSL direct only to Jack D. Haden, P.O. Box 299, Ryde, NSW 1680,
Australia.

QSL 5B4AHJ ---> Cards can either go via the 5B bureau or to Alan
Jubb, P.O.
Box 61430, 8134 Kato Pafos, Cyprus. Please note that currently mail
sent to
Alan's old address in the UK is being forwarded to him in Cyprus,
but that
will stop in a few weeks' time. [TNX 5B4AHJ]

QSL FY5FU ---> The QSL route is via F5JFU, direct or bureau. From
July 1999
to July 2002 (including operations from SA-020) the operator was
Pierre/F5JFU
and the QSL manager was F5PAC; on July 2002 Pierre resumed
the QSL
management. The callsign was reissued in late 2003: the
operators is
Thierry-Pierre/F5REB and - in order to avoid confusion - F5JFU has
accepted
to act as his QSL manager. [TNX F5NQL]

QSL HK1XX ---> This is the new call of Pedro Claver Orozco (formerly
HK1HHX).
His QSL route is via EA7FTR. [TNX HK1XX]

QSL VP8NO ---> Please note that Geoff Dover, G4AFJ is no longer
the QSL
manager for Mike, who now handles his own QSLs. Geoff reports
that cards
should be sen to Mike Harris, P.O. Box 226, Port Stanley, Falkland
Islands,
South Atlantic.

SEANET CONVENTION 2004 ---> This year's convention will be held at
the Arnoma
Hotel, in the city-centre of Bangkok, on 19-21 November.
Please visit
www.seanet2004.com for full details (registration form included),
or e-mail
seanet@... [TNX HS0ZDZ]

SSA ACTIVITY AWARD ---> The SSA Activity Award is for promoting
activity on
the amateur radio bands and it is available to either licensed
amateurs and

SWL for working 365 QSOs from 1 January through 31 December each year. For
further information please contact the Award Manager, Bengt Hogkvist, SM6DEC
sm6dec@...

YO DX HF CONTEST ---> This year it will be held on 28-29 August (24 hours).
Rules can be found at http://www.hamradio.ro/contests/yodx_eng.htm
[TNX N2YO]

ANTARCTICA AWARD: The Antarctica Award web pages are still under costruction.
However Rules, Application Form, Directory and Summary
Sheets have been made
downloadable at
www.mdxc.org/antarctica to meet the wishes of those who
have already expressed their interest in this award.
Enquiries should be sent to
antarctica.award@... [TNX MDXC]
ILLW: The International Lighthouse/Lightship Weekend will take
place from 00.01 UTC on 21 August until 23.59 UTC on the
22nd. Lighthouse and island chasers may find it worth
paying a visit to the announced operations page (over 300
confirmed stations in 40
countries) at
http://illw.net/2004_list.htm
LOGS: Bela, HA9SU informs that his fulls logs are now available
at http://www.starjan.hu/~ha9su
NA-044: You can read about the 18-21 June operation by VO2/AB5EB
and VO2/AD5A at www.islandradio.org [TNX AB5EB]

1280. Teacher arrested!

Yahoo group: thegreekhamradio
Date: 2004-08-27 16:23:02 UTC
From: troll@mail.gr
Topic: 1280 Message: 1280

TEACHER ARRESTED!

At New York's Kennedy airport today, an individual later discovered to be a public school teacher was arrested trying to board a flight while in possession of a ruler, a protractor, a set square, a slide rule, and a calculator.

At a morning press conference, Attorney general John Ashcroft said he believes the man is a member of the notorious "Al-Gebra" movement. He is being charged by the FBI with carrying weapons of math instruction.

"Al-gebra is a fearsome cult," Ashcroft said. "They desire average solutions by means and extremes, and sometimes go off on tangents in a search of absolute value. They use secret code names like 'x' and 'y' and refer to themselves as 'unknowns', but we have determined they belong to a common denominator of the axis of medieval with coordinates in every country. As the Greek philanderer Isosceles used to say, 'there are 3 sides to every triangle'."

When asked to comment on the arrest, President Bush said, "If God had wanted us to have better weapons of math instruction, He would have given us more fingers and toes."

To all radio amateurs

SB DX ARL ARLD034
ARLD034 DX news

This week's bulletin was made possible with information provided by QRZ DX, the OPDX Bulletin, The Daily DX, 425DXnews, DXNL, WA7BNM and Contest Corral from QST. Thanks to all.

RODRIGUES ISLAND, 3B9. Robert, 3B9FR has been QRV using RTTY on 20, 17 and 15 meters between 1400 to 1700z and after 0230z. QSL direct.

MALDIVES, 8Q. Jan, DL7JAN and Andreas, DL3GA are QRV as 8Q7JF and 8Q7GA, respectively, from Kandooma Island, IOTA AS-013, until September 7. They are active on 80 to 10 meters, using CW, SSB, RTTY and possibly PSK31. QSL to home calls.

BURUNDI, 9U. Pierre, HB9DTM is licensed for six months as 9U6PM, and will soon be active from here. QSL to home call.

UNITED ARAB EMIRATES, A6. Abdullah, A61Q is usually QRV various times of the day on 80, 20, 17, 15, 12 and 10 meters using CW. QSL via EA7FTR.

TAIWAN, BV. Paul, BV4FH and members of the CTARL DX group are QRV as BV9A from Peng Hu Island, IOTA AS-103, until August 29. They are active on 40, 20, 15 and 10 meters using CW and SSB. QSL via BV4YB.

LIECHTENSTEIN, HB0. Geza, HA4XG is QRV as HB0/HA4XG from Masescha while on holiday until September 4. Activity is on 40 to 10 meters, and 2 meters with WSJT, using CW and SSB. He is active as time permits. QSL to home call.

ST. VINCENT, J8. Claude, J85M is usually QRV on 30 meters around 0200z. QSL direct.

MALYJ VYSOTSKIJ ISLAND, R1MV. A group of amateurs will soon be QRV as R1MVI. They plan to be active on 80 to 120 meters, and possibly 160 meters, using CW, SSB, RTTY and PSK31. QSL via RA3AMG.

EGYPT, SU. Alan, SU9BN is usually QRV on 30 meters around 0400 to 0430z. QSL via EA7FTR.

CHAD, TT. Francois, F6GYV, has received his TT8FT license and will be QRV for one year. His activity will be as time permits. QSL via operator's instructions.

UZBEKISTAN, UK. Rahqn, UK8OAH has been QRV on 160 meters from around 2100 to 2230z. QSL direct.

NORFOLK ISLAND, VK9N. Jim, VK9NS has been QRV on 30 meters around 0100z. QSL direct.

INDIA, VU. Raman, VU3DJQ is QRV as AT0RI from Rameswaram on Pamban Island until August 31. This is a new IOTA from the yet unnumbered Tamil Nadu State South group. QSL via operator's instructions.

IRAQ, YI. Rafat, YI1HXH is usually QRV on 20 meters SSB from 1900 to 2100z. QSL to operator's instructions.

TOKELAU ISLANDS, ZK3. Atsu, 5W1SA is QRV as ZK3SA. Activity of late has been on 40 meters CW and 20 meters SSB. His length of stay is unknown. QSL via JH7OHF.

THIS WEEKEND ON THE RADIO. The ALARA Contest, Ohio and Hawaii QSO Parties, TOEC WW Grid CW Contest, YO-DX Contest, SARL HF DX CW Contest and the SCC RTTY Championship are all scheduled for this weekend. Please see August QST, page 95, and the ARRL and WA7BNM contest websites for details.

Στις 29 Ιουνίου εκτοξέυτηκε από το Baikonur Cosmodrome στο Καζακστάν
ο καινούργιος ραδιοερασιτεχνικός δορυφόρος AO-51(project Echo). Ο
συγκεκριμένος δορυφόρος βρίσκεται σε τροχιά τύπου LEO δηλαδή είναι
ορατός συγκεκριμένες στιγμές της ημέρας και μόνο για 10-15 λεπτα και
απο αυτές μόνο 2-3 το πολύ αξίζουν την προσπάθεια για QSO. Το καλό
ενός τέτοιου δορυφόρου είναι ότι η σχετικά κοντινή απόστασή του από
την επιφάνεια επιτρέπουν την επικοινωνία μαζί του με απλό εξοπλισμό
και λίγη ισχύ (ακόμα και με φορητό). Ο AO-51 λειτουργεί σε 2 modes,
FM repeater και Packet.

```
Analog

435.225 MHz FM Voice Downlink,
145.920 MHz FM Voice Uplink + 67 Hz PL tone

Digital 9600 bps, AX.25, PACSAT Protocol mailbox

435.150 MHz FM Downlink and Telemetry in the digital stream
145.860 MHz FM Uplink
```

Για περισσότερες πληροφορίες καθώς και τα τελευταία Keplerian
Elements, για να προσθέσετε το δορυφόρο στο πρόγραμμα Sat Tracking
της αρεσκίας σας, μπορείτε να βρείτε στο site της Amsat
http://www.amsat.org

Καλές δοκιμές
Μάριος

===========================
*** 4 2 5 D X N E W S ***
**** DX INFORMATION ****
===========================
Edited by I1JQJ & IK1ADH
Direttore Responsabile IK8MRA

3A - Patrice, F5RBB will operate as 3A/homecall from Monaco
from 30
August to 6 September. Expect activity on 40, 20, 15,
10 and 6
metres. QSL via home call, direct or bureau. [TNX F5RBB]
3D2 - Mark, KM6HB will operate as 3D2HB from Viti Levu (OC-016),
Fiji from
30 August to 7 September. He plans to be QRV on 40-6 metres
with 100
watts and a vertical, and to emphasize 30 metres RTTY. QSL
via home
call, direct or bureau. [TNX KM6HB]
3D2 - Nob, JA7OV and Hiro, JA7AQR will be active as 3D2TY and
3D2YT from
Fiji for one or two days before and after their 9-15
October
operation from Wallis Island (see FW below). QSL via
home calls,
direct or bureau.
7P - John, G4IRN will be active as 7P8RN from Lesotho on 3-12
September.
He will be QRV on 160-10 metres mainly CW. QSL via G4IRN,
direct or
bureau. On-line logs will be available at
http://www.qsl.net/g4irn
after the event. [TNX NG3K]
7Q - Harry, 7Q7HB (G0JMU) now plans to remain in Malawi
[425DXN 693]
until towards the end of November. QSL direct only via
G0IAS. [TNX
G0IAS]
9U - Pierre-Marie, HB9DTM (F6FNL) expects to be active as
9U6PM from

Burundi until February. He operates SSB only for the time
being, but
he will try to get his keyer and an RTTY interface from
home. QSL
via HB9DTM (Pierre-Marie Calvet, Rue de Vermont 22, CH-1202
Geneve,
Switzerland). [TNX The Daily DX]
F - Look for F5JOT/p and F5LGQ/p to operate SSB and CW on the
HF bands
from the lighthouse (WLH 271) on Cordouan Island (EU-159)
from 28
August in their afternoon to the local morning of the 29th.
QSL via
home calls. [TNX F5JOT]
FR - Jack, F6BUM will operate from Reunion Island (AF-016) as
TO5M on
23-31 October and as FR/F6BUM on 1-15 November. On 16-20
November he
will go and operate as 3B8/F6BUM from Mauritius (AF-049).
QSL via
F6CXJ. [TNX F6BUM]
FW - Nob, JA7OV and Hiro, JA7AQR will operate as FW7OV and
FW7AQR from
Wallis Island (OC-054) on 9-15 October. They plan to be QRV
on 10-40
metres SSB and RTTY (no CW) running 100 watts into a a 2-
element for
15 metres and multiband dipoles. QSL via home calls, direct
(JA7OV:
Yoshinobu Takahashi, 4-9-36 Emata, Yamagata, 990-0861 Japan;
JA7AQR:
Yoshihiro Tanaka, 1-10-6 Minamihara, Yamagata, 990-2413
Japan) or
bureau. [TNX JA1ELY]
FK - Eleven operators from the Mitsubishi Electric Tokyo ARC
(JM1YGG)
will be active on 10-80 metres CW, SSB and FM as either
FK/JM1YGG
and FK/homecall from New Caledonia on 16-19 September. The
operators
will be JA1BAB, JA1IWP, JA1RNO, JA1RTG, JR1KHM, JI1EOP,
JJ1EWN,
JK1EBA, JA3RAF, JR3OET and JF3IPR. QSL via JM1YGG direct
(Mitsubishi
Electric Tokyo Amateur Radio Club, 2-1-1 Marunouchi, Tokyo,
100-8310
Japan) or bureau. [TNX JA1ELY]
GM - G3ZAY, M0BLF, M0TDG, M0NKI and M3OXY plan to be QRV from
the Outer
Hebrides (EU-010) on 6-10 September. There will also be a

number of
brief Summits on the Air (SOTA) activations in
Harris and
North/South Uist. QSL via home calls. Weather permitting,
they also
plan to operate, during daylight hours only, as GM6UW/P
from the
Monach Islands (EU-111) on either the 6th or 7th. QSL
GM6UW/P via
M0BLF (bureau cards can be requested by e-
mail to
M0BLF@... or at
http://www.domsmith.co.uk/hebrides04).
[TNX G3ZAY]
I - Look for Claudio, IK1XPK/6 to operate from Monte San
Bartolo
Lighthouse (WAIL MAR-06, ARLHS ITA-106) on 28 August. [TNX
IK1NLZ]
JA - Tet, JF0JYR informs that special event station 8N0SON
(requested
call) will be aired from Nagano and other locations
in that
Prefecture from 1 December to 5 March 2004, before and
during the
Special Olympics World Winter Games. QSL via JF0JYR,
direct or
bureau. Founded by Eunice Kennedy Shriver in 1968 with the
support
of the Joseph P. Kennedy, Jr. Foundation, Special
Olympics is an
international organization dedicated to empowering
individuals with
intellectual disabilities to become physically fit,
productive and
respected members of society through sports
training and
competition. The first Special Olympics World Games were
held in
Chicago in July 1968; next year the Special Olympics
World Winter
Games will be held in Nagano, Japan from 26 February to
5 March.
Detailed information on Special Olympics and the Nagano
event can be
found at http://www.2005sowwg.com/.
J7 - Lars, SM0CCM and Seth, SM0XBI will be active as J73CCM
and J79XBI
from Dominica (NA-101) from 8 September to 1 October.
They will
operate on 160-6 metres CW, SSB and RTTY. QSL via home

calls, either
direct (please note that 1 USD does not cover postage from
Sweden to
any other country) or preferably through the bureau. [TNX
SM0CCM]
KL - Special event station KL7AA will be activated from the
Alaska State
Fair until 6 September. QSL direct only to AC7DX (please
include a
business envelope for certificate). [TNX AC7DX]
LU_ant - LU1ZD from General San Martin base (LU-11 for the Antarctic
Award),
located on Barry Island (AN-016) in Marguerite Bay and
LU4ZS from
Vicecomodoro Gustavo A. Marambio (LU-03), located on
Seymour Island
(AN-013), are used to showing up on the Antarctic Net
controlled by
LU4DXU starting at 19 UTC on 14290 kHz during the weekends.
The might be joined by LU1ZI from Teniente Jubany Station
(LU-15) on
King George Island, South Shetlands (AN-010). [TNX LU4DXU]
ON - Zelzate UBA-ZLZ members will be active as ON60Z from 1
September to
30 November to celebrate the 60th anniversary of the
liberation of
that region during World War II. QSL via ON7ZT.
OY - Tom, DL2RMC and Heiko, DL1RTL will operate on 160-6
metres as
OY/homecalls from the Faroe Islands (EU-018) from 30
August to 9
September. QSL via home calls. Further
information at
http://www.qsl.net/dl2rmc [TNX NG3K]
R1_mv - The R1MVI operation from Malyj Vysotsky [425DXN 694],
originally
planned to take place on 27-29 August, has been postponed
owing to
"technical reasons". The new dates will be announced in the
future.
[TNX RA3AMG]
T8 - Aki, JA1KAJ will operate (on 80-6 metres SSB, CW and RTTY)
as T88QQ
from Koror, Palau Islands (OC-009) from 29 October to 3
November,
including an entry in the CQ WW DX SSB Contest. QSL via
home call.
[TNX JA1KAJ]
TA - Thierry, F5SNY and Christian, F8BOD are in Turkey until 10
September

and will try to operate from a few IOTA island groups
(AS-115,
AS-123 and AS-098). [TNX F6AJA and Les Nouvelles DX]
TK - Terry, M0CLH will be active as TK/M0CLH/P from Corsica (EU-
014) on
6-18 September. It will be a holiday-style operation using
QRP and
dipoles for 20, 17, 15 and 12 metres. QSL via home call,
direct or
bureau. [TNX M0CLH]
TK - Vasek, DL4FF reports he will be active (on 160-10 metres CW
and SSB)
as TK/DL4FF from Corsica (EU-014) from 6 September to 1
October.
UA - Victor/RN1AW and Alex/RX1AW plan operate from
Tolbukhin Island
(RRA-01-06) and Lighthouse (WLH-0700) on 28-29 August.
QSL via
RN1AW, direct or bureau. [TNX RN1AW]
UA_ant - Aleksej, UA1PAC will be wintering again at the Russian
base Vostok
(UA-10 for the Antarctica Award), Antarctica as responsible
for the
running of the ionospheric stations. He will operate once
more on
the amateur radio bands as R1ANC. QSL via DL5EBE. [TNX
DL5EBE]
UR - Victor, UR7GG operated as UR7GG/p on 20-22 August from
Bolohrudyi
Island (DN-01 for the Ukrainian Islands Award). His next
operations
will take place from Velykyi Potiomkin (DN-02) on 27-29
August, from
Malyi Potiomkin (DN-04) on 3-5 September and from
Karantynnyi
(DN-03) on 10-12 September. QSL via home call, direct
(Victor
Tkachenko, P.O. Box 73, Kherson 73000, Ukraine) or
bureau. [TNX
UR7GG]
W - The Kings County Repeater Association (KC2RA) & the
Metropolitan 222
ARS co-sponsor the September 11th Memorial Station on
Governors
Island (NA-026), NY. Expect activity on 11 September on +/-
28340,
21340, 14250 and 7250 kHz from 15 to 20 UTC. [TNX W2SN]
W - Tom, WA6WPG will operate as WA6WPG/P from Santa
Barbara Island
(NA-066, WLH-0258) on 25-26 September. Tom will use solar

panels and
two large batteries and he expects to be able to run 100
watts both
days on 80-10 metres SSB and CW. QSL via home call,
direct or
bureau. [TNX WA6WPG]
XX9 - Hiro, JA0SC has been forced to cancel his 24-31 August
operation
from Macau. [TNX The Daily DX]

RSGB HF & IOTA CONVENTION ---> Owing to several insoluble
operational
problems at the Europa Hotel, there has been a change in the venue
of the
RSGB HFC 2004 HF & IOTA 40th Anniversary Convention (22-24 October),
which is
now to be held at the Gatwick Worth Hotel. The early booking
discount (☐10
per person) deadline is 31 August. The URL for the convention
details is
http://www.rsgb-hfc.org.uk/

QSL FP/KT1J ---> Effective immediately, K1WY is no longer the QSL
manager for
FP/KT1J. Cards should be sent to KT1J, direct or bureau. [TNX The
Golist]

WRTC 2006 ---> The Organizing Committee of the fifth World
Radiosport Team
Championship, to be held in Florianopolis in July 2006,
includes PP5JR,
PP5WG, PP5UA, PT2ADM, PY0FF, PY1KN, PY2EMC, PY2YP, PY5CC, PY5KD
and PY5EG.
Preliminary rules and selection criteria can be
found at
http://www.wrtc2006.com (site under construction). [TNX PY5EG]

+ SILENT KEY + Denmark has lost one of its great DXers and
contesters with
the passing of Morten Frederiksen, OZ3W/OZ1FTE, on 16 July. First

licensed in
1979, Morten was only 46 years old. Morten will be remembered by
DX and
contest operators around the world for his excellent operating skills
in both
CW and SSB, his strong signals on all HF bands and for his
regular
participation in major contests. [TNX OZ8ABE]

Kalimera !

Greece is to be congatulated with excellent Olympic
games. When we were in Athens in the beginning of May
it looked very dubious with all the construction going
on - BUT you made it !!!
Congrats !!

Subject: ΠΡΟΣ ΤΟΥΣ ΠΙΛΟΤΙΚΟΥΣ ΣΤΑΘΜΟΥΣ

Αγαπητοί συνάδελφοι,

Θα ήθελα να σας ευχαριστήσω για την άψογη συνεργασία που είχαμε σε όλο αυτό το χρονικό διάστημα πριν , μετά και κατά την διάρκεια της εκδήλωσης "Countdown on the air" του SVHAM GROUP που χωρίς την δικιά σας, κατά πρώτο λόγο, θερμή υποστήριξη δεν θα μπορούσε να πραγματοποιηθεί.

Επικοινωνώ μαζί σας σήμερα για κάποια θέματα και παρακαλώ να τύχω της άμεσης απάντησής σας για να κλείσουν τυχόν εκρεμότητες που υπάρχουν προτού μπούμε στην επίπονη και χρονοβόρα διαδικασία για τις εκτυπώσεις των καρτών qsl.

Παρακαλώ να δείτε προσεκτικά τον παρακάτω πίνακα με τους σταθμούς από την περιοχή σας οι οποίοι είχανε εξ αρχής δηλώσει ότι θα συμμετάσχουν στην εκδήλωση του SVHAM GROUP και να μου απαντήσετε:

1) Ποιοί συνάδελφοι από αυτούς βγήκαν στον αέρα ΠΡΑΓΜΑΤΙΚΑ και κάναν έστω και ένα qso.

2) Ποιοι έχουν παραδώσει log και ποιοί όχι (εάν έχετε εκκρεμότητα ή πρόβλημα)

3) Ποιοι τρείς (3) σταθμοί από την περιοχή σας έχουν κάνει τα περισσότερα qso και πόσα (έστω και αν δεν υπάρχει ακριβής αριθμός των qso που έχουν κάνει, κάντε την μεγαλύτερη δυνατόν προσεγγιστική εκτίμηση).Εννοείτε ότι θα συμπεριλάβετε και τον εαυτό σας μέσα στους τρείς πρώτους έαν πράγματι αυτό ισχύει.

4) Αν υπάρχουν άλλοι σταθμοί που δεν είναι γραμμένοι στον πίνακα αυτόν που σας στέλνω και πήρανε μέρος παρακαλώ να με ενημερώσετε.

5) Εαν υπάρχουν λάθη στο όνομα ή στο διακριτικό κάποιου συνάδελφου στον πίνακα της περιοχή σας.

Τα στοιχεία αυτά είναι ΚΡΙΣΙΜΑ για την ανάδειξη των πρώτων κάθε περιοχής και για να τυπωθούν βραβεία και διπλώματα συμμετοχής σε αυτούς και σε όσους πηρανε ΠΡΑΓΜΑΤΙΚΑ μέρος και παραδώσαν logs. Γιαυτό ΠΑΡΑΚΑΛΩ να είστε προσεκτικοί μην ξεχαστεί κάποιος. Είναι δύσκολο να γίνουν επανατυπώσεις και διορθώσεις αργότερα στα διπλώματα.

Επίσης εάν έχετε φωτογραφίες από την εκδήλωση στην περιοχή σας παρακαλώ να τις στείλετε για να μπούν στην ειδική σελίδα της περιοχής σας

Σας ευχαριστώ εκ των προτέρων και περιμένω νέα σας το συντομώτερο δυνατόν

Πολλά 73 de SV2AEL ΣΑΒΒΑΣ

Καλησπέρα σε όλους,

Μην ξεχαστείτε σήμερα όση μένετε στην Θεσ/νίκη και πάτε προς την Έκθεση μεριά γιατί οι σταθμοί σήμερα αυτά λέγανε ολη την ημέρα. Θα έχει πολύ κίνηση και δεν συμφέρει να μπλεχτεί κανείς κάτω στην πόλη και ειδικά με αμάξι.

Αν θέλετε μπορούμε να οργανώσουμε και καμμιά συνάντηση στο hamfest που είναι την ΑΛΛΗ Κυριακή για να βρεθούμε και να γνωριστούμε.

Καλησπέρα,

Σήμερα το πρωϊ επισκέφτηκα την ΔΕΘ για να ρίξω μια ματιά και εγώ. ΠΟΛΥ κόσμος περίμενε απ'έξω καθώς Σαββατο-Κύριακο ανοίγει στις 11 το πρωϊ, ενώ καθημερινές απο τις 10. Αφού μπήκε το "μπουλούκι", μπήκα και εγώ και φυσικά η πρώτη μου επαφή ήταν με το περίπτερο 9 όπου εκεί είναι οι τηλεπικοινωνιακοί παροχείς (ΟΤΕΝΕΤ,κτλ) όπου ήθελα να δω τι συμβαίνει με το γρήγορο ίντερνετ. Δυστηχώς δεν είχαν "αρχίσει" ακόμα να δίνουν τα διαφημιστικά φυλλάδια τους και δεν μπόρεσα να πάρω τις πληροφορίες για κάποια πακέτα που όπως λένε είναι πλέον φθηνότερα. Ελπίζω τις προσεχείς μέρες να μάθω(ουμε) περισσότερα και να δούμε τι συμβαίνει.

Να μην ξεχάσω να αναφερθώ στο περίπτερο της ΕΡΒΕ, όπου εκεί θα βρείτε πολύ υλικό όσον αφορά την Ιστορία του συλλόγου, και αρκετά ενδιαφέρονται πράγματα για τις νέες ψηφιακές επικοινωνίες όπως τα satelite και το echolink. Μπράβο σ'αυτούς που δουλέψαν για να υπάρχει αυτή η εκπροσώπηση του hobbie μας σε ένα τόσο μεγάλο γεγονός της Θεσ/νίκης.

Subject: G4IDE, "SilentKey" !
```

Δυστυχώς, ο γνωστός σε όλους μας δημιουργός του Ui-View & WinPack,
προγράμματα
που έδωσαν άλλη οντότητα στο APRS και το Packet-radio,
εναρμονίζοντάς
τα με
τα σύγχρονα λειτουργικά σε ένα πολύ φιλικό για τον χρήστη
περιβάλλον,
είναι
πλέον "SK".

O Roger Barker (G4IDE) είναι μια ανυπολόγιστη απώλεια για τη διεθνή
ραδιοερασιτεχνική
κοινότητα.

Τα προγράμματά του ήταν υψηλότατα πρότυπα για το ερασιτεχνικό
ραδιο-λογισμικό, ασυναγώνιστα από πολλά εμπορικά προϊόντα. Και η
συμμετοχή
του στους ερασιτεχνικούς δορυφόρους ήταν πολύ καθοριστική, τόσο στο
Packet,
όσο και το APRS.

Εκτός από τον αποκωδικοποιητή τηλεμετρίας PCSAT για το Ui-View32,
συμμετείχε
στενά στον προγραμματισμό των ψηφιακών υπηρεσιών του Sunsat (SO- 35).

Επέκτεινε το λογισμικό του για τον αυτόνομο επίγειο δορυφορικό
σταθμό
ZS7ANT, στο SANAE της Αναρκτικής, από όπου καταγράφηκε η πρώτη
τηλεμετρία
μέσω των δορυφόρων Starshine-3 (SO- 43), PCsat (NO- 44) και Safir-
M
(AO-
49).

Το λογισμικό του επίσης επέτρεψε την καταγραφή και το "live-Relay"
στο
διαδίκτυο των weather-data από τον KE6JAB WX-station της
Ανταρκτικής,
τα
οποία αναμεταδίδονταν από τον SO-35 ή τον UO- 22.

From: "PAVLIDIS SAVAS" <sv2ael@yahoo.com>
Subject: Η ΕΡΒΕ ΣΤΗΝ ΔΙΕΘΝΗ ΕΚΘΕΣΗ ΘΕΣΣΑΛΟΝΙΚΗΣ

Συνεχίζεται με επιτυχία η συμμετοχή της Ενωσης Ραδιοερασιτεχνών
Βορείου Ελλάδος στην ΔΕΘ με προσέλευση εκατοντάδων επισκεπτών και
πλήθος ραδιοερασιτεχνών από ολόκληρη την Ελλάδα.
Η επιτυχία είναι αρκετά μεγάλη και αξίζουν συγχαρητήρια τόσο στο Δ.Σ.
και στους συναδέλφους που παρίστανται καθημερινά και βοηθούν στην
ενημέρωση των επισκεπτών, όσο και για την ομολογουμένως εξαιρετική
εμφάνιση και οργάνωση του περιπτέρου.
Σήμερα το βράδυ στις 8.00 (Σάββατο) από την ΕΤ3 θα γίνει ένα ζωντανό
αφιέρωμα στην δράση της ΕΡΒΕ και γενικά για τον ραδιοερασιτεχνισμό
από την εκπομπή που βγάζει το κρατικό κανάλι μέσα από την ΔΕΘ. Επίσης
σημαντική ακροαματικότητα και επιτυχία είχε η χθεσινή συνέντευξη
μελών του Δ.Σ. στο ραδιοφωνικό σταθμό ΑΝΤ1 FM με τα ίδια θέματα .
Τέλος έχει στηθεί μέσα στο περίπτερο και λειτουργεί σταθμός HF με το
διακριτικό του συλλόγου SZ2TSL που εκπέμπει καθημερινά σε RTTY και
έχει πραγματοποιήσει εκατοντάδες επαφές.
Αυτό το Σαββατοκύριακο που είναι και το τελευταίο της ΔΕΘ αναμένεται
να περάσει από το περίπτερο της ΕΡΒΕ πλήθος κόσμου και είστε όλοι
ευπρόσδεκτοι....

Γειά σας,

Έτσι λοιπόν ένα ακόμα hamfest της Θεσ/νίκης τελείωσε και σήμερα. Πόλυ κόσμος όπως πάντα και φυσικά πολλοί ήταν οι φίλοι που σίγουρα ξαναβρεθήκαν μεταξύ τους. Εγώ προσωπικά είδα πολλούς γνωστούς και χάρηκα που μετά απο καιρό, το hamfest ήταν η ευκαιρία να τους ξαναδώ.

Έχω ανεβάσει ορισμένες φωτογραφίες εδώ: http://photos.groups.yahoo.com/group/thegreekhamradio/lst και μπορείτε να δείτε λίγο το περιβάλλον που επικράτησε.

Παρακαλούνται όσοι συνάδελφοι έχουν τραβήξει φωτογραφίες, να τις ανεβάσουν επίσης στον ίδιο φάκελο για να έχουμε να θυμόμαστε. Ίσως θα πρέπει να γίνει θεσμός και να στέλνουμε/κρατάμε φωτογραφίες και ηλεκτρονικά πλέον.

Όσους δεν μπορέσαμε να τους δούμε σήμερα, ελπίζουμε να τα καταφέρουμε σε ένα επόμενο hamfest.

Καλησπέρα,

Για όσους έχουν πρόσβαση και ασχολούνται με irc και chatting, υπάρχει κανάλι σχετικό με το hobbie μας ονόματι hamradio. Μπορείτε να το βρείτε αφού συνδεθείτε σε έναν server στο grnet.

Είναι ευκαιρία να βρείτε και άλλους συναδέλφους on-line και να συζητήσετε μαζί τους.

From: sxanthop
Topic: 1319   Message: 1319

Γειά σας,

2 νέα echolink gateway παρατηρούνται οτι λειτουργούν σε ελληνικό έδαφος. Το SV2ESB-L που λειτουργεί στην περιοχή της Κοζάνης στο 145.525 και το SV4CZC-L και αναφέρεται οτι βγαίνει στην περιοχή των Τρικάλων στο R3 (;).

Καλη συνέχεια και συγχαρητήρια για την εγκατάσταση των συγκεκριμέων Link έτσι ώστε να μπορούμε να μιλάμε και με τους συναδέλφους και σ'αυτές τις περιοχές.

SY2LH Ο ΦΑΡΟΣ ΤΗΣ ΚΑΣΣΑΝΔΡΑΣ ΣΤΟΝ ΑΕΡΑ

Από 25 έως και 26 Σεπτεμβρίου 2004 , θα αρχίσουν εκπομπές από το φάρο της Κασσάνδρας από τις 08:00 το πρωί έως και τις 20:00 το βράδυ και τις δυο μέρες , η ώρα είναι τοπική ώρα Ελλάδος.

Την dxpedition αυτή διοργάνωσε ομάδα ραδιοερασιτεχνών από την Θεσσαλονίκη η οποίοι είναι μέλη του [ΣΥΡΑΠ] Συλλόγου ραδιοερασιτεχνών Πιερίας.

Ύστερα από πρόταση του SV2BWC.

Συχνότητες λειτουργίας θα είναι:

PHONE

80m: CENTER 3.790 KHz
40m: 7.040 ☐ 7.100 KHz CENTER 7.051 KHz
20m: 14.125 ☐ 14.275 KHz CENTER 14.221 KHz
17m: CENTER 18.145 KHz
15m: 21.150 ☐ 21.250 KHz CENTER 21.221 KHz
10m: 28.300 - 28.500 KHz CENTER 28.451 KHz

CW

80m: CENTER 3.521 KHz
40m: 7.005 ☐ 7.035 KHz CENTER 7.021 KHz
20m: 14.010 ☐ 14.040 KHz CENTER 14.021 KHz
17m: CENTER 18.090 KHz
15m: 21.010 ☐ 21.040 KHz CENTER 21.021 KHz
10m: 28.010 ☐ 28.040 KHz CENTER 28.021 KHz

Περισσότερα θα έχουμε να σας πούμε σε επόμενο μύνημά μας έως τότε πολλά 73☐, για την ομάδα SV2AYT ☐ ΝΙΚΟΣ.

ΕΞΕΤΑΣΕΙΣ ΓΙΑ ΑΠΟΚΤΗΣΗ ΠΤΥΧΙΟΥ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΗ ΠΕΡΙΟΔΟΥ Β! 2004.

Η ΝΟΜΑΡΧΙΑ ΑΘΗΝΩΝ

ΔΙΕΥΘΥΝΣΗ ΜΕΤΑΦΟΡΩΝ & ΕΠΙΚΟΙΝΩΝΙΩΝ

ΚΕΝΤΡΙΚΟΣ ΤΟΜΕΑΣ * ΤΜΗΜΑ ΡΑΔΙΟΤΗΛΕΠΙΚΟΙΝΩΝΙΩΝ

Χολαργός 14/9/2004.
Αρ. Πρωτ. Οικ 164875.

Έχοντας υπ' όψιν...

1. Τις διατάξεις του Π.Δ. 30/1996 "Κώδικας Νομαρχιακής Αυτοδιοίκησης" όπως τροποποιήθηκε και ισχύει σήμερα.

2. Τις διατάξεις του ισχύοντος Οργανισμού εσωτερικής λειτουργίας υπ. αρίθμ. 27167/03 ΦΕΚ 724 Β' /06/07/2004.

3. Την 33805/29-7-2003 απόφαση τοποθέτησης Προϊσταμένων των Διευθύνσεων Μ-Ε.

4. Την απόφαση 11403 /7-11-2003 "περί μεταβίβασης αρμοδιοτήτων του Νομάρχη στη βοηθό Νομάρχη κα Μ. Ζερβάκη & στους προϊσταμένους Δ/νσεων

Μεταφορών & Επικοινωνιών, Κεντρικού, Ανατολικού, Δυτικού & Νότιου Τομέα της Νομαρχίας Αθηνών".

5. Την απόφαση Αρ. Οικ. 68000/763 ΦΕΚ 1579 Β' (18-12-2002) "Κανονισμός Λειτουργίας Ερασιτεχνικών Σταθμών Ασυρμάτου",

****

Προκηρύσσουμε εξετάσεις για την απόκτηση πτυχίου Ραδιοερασιτέχνη Περιόδου Β ! 2004 στην περιοχή ευθύνης της Νομαρχίας Αθηνών που θα γίνουν στις 25 και 26 Οκτωβρίου 2004.

ΠΡΟΣΟΧΗ.!!! Η προθεσμία υποβολής των δικαιολογητικών θα είναι μέχρι την Τετάρτη 6 Οκτωβρίου 2004.

Η υποβολή των δικαιολογητικών, των υποψηφίων Νομαρχίας Αθηνών, θα γίνεται στις έδρες των αντίστοιχων Διευθύνσεων Μεταφορών-Επικοινωνιών όπου υπάγεται η διεύθυνση κατοικίας τους.
Οι εξετάσεις των υποψηφίων και των τεσσάρων (4) διευθύνσεων θα γίνουν στην Υ.Π.Α. - ΣΠΟΑ - κτίριο 213 (τέως Αμερικάνικη βάση), τηλ.210-9973200, με ώρα έναρξης 08.30 π.μ.

ΚΑΛΗ ΕΠΙΤΥΧΙΑ .!!!

@ 2004 @ SV1GRC

> Στη ΘΕΣΣΑΛΟΝΙΚΗ πότε θα γίνουν οι εξετάσεις??
> Σε ποιό σημείο θα γίνουν?? Τι δικαιολογητικά χρειάζονται?

Γειά σου Σπύρο,

Δυστηχώς δεν γνωρίζω πότε θα γίνουν οι εξετάσεις. Είναι εύκολο όμως να το μάθει κανείς με ένα τηλέφωνο στο ανάλογο τμήμα.Το που όμως είναι λίγο πολύ γνωστό όλα αυτά τα χρόνια. Γίνεται στον Ευκλείδη, σε ΜΗ καθορισμένη αίθουσα ανάλογα φυσικά με τους συμμετέχοντες.

Τώρα, όσο για τα δικαιολογητικά, ορίστε τη βρήκα στο διαδίκτυο:

ΔΙΚΑΙΟΛΟΓΗΤΙΚΑ για την απόκτηση πτυχίου ραδιοερασιτέχνη:
1. Αίτηση.
2. Παράβολο Δ.Ο.Υ. 18,00 ΕΥΡΩ.
3. Πιστοποιητικό γεννήσεως ή φωτοαντίγραφο αστυνομικής ταυτότητας ή διαβατηρίου (σε περίπτωση υπηκόων άλλων χωρών που διαμένουν μόνιμα στην Ελλάδα, αποδεικτικά έγγραφα που σχετίζονται με την υπηκοότητά τους και την μόνιμη διαμονή τους)
2. Υπεύθυνη δήλωση ότι δεν έχει αφαιρεθεί η άδεια ερασιτεχνικού σταθμού ασυρμάτου και του τόπου της μονίμου κατοικίας του.
3. Αντίγραφο πτυχίου ραδιοερασιτέχνη (ΚΑΤΗΓΟΡΙΑΣ 2) εφόσον υπάρχει.
4. (2) έγχρωμες φωτογραφίες τύπου διαβατηρίου.

ΧΟΡΗΓΗΣΗ ΑΔΕΙΩΝ:
1. Αίτηση.
2. Παράβολο Δ.Ο.Υ. 18,00 ΕΥΡΩ.
3. Φωτοαντίγραφο ταυτότητας.
4. Υπεύθυνη δήλωση με την οποία δηλώνεται ο μόνιμος χώρος εγκατάστασης του σταθμού.
5. (2) έγχρωμες φωτογραφίες τύπου διαβατηρίου.

ΣΗΜΕΙΩΣΕΙΣ :
· Σε περίπτωση ανηλίκου, υπεύθυνη δήλωση του κηδεμόνα του με την οποία παρέχεται η συναίνεσή του για την άσκηση των ραδιοερασιτεχνικών δραστηριοτήτων του ανηλίκου.
· Για τα νομικά πρόσωπα τα νομιμοποιητικά έγγραφα (καταστατικό, ιδρυτική πράξη του εργαστηρίου, απόφαση του νομικού προσώπου περί ορισμού υπευθύνου ραδιοερασιτέχνη).

Είναι κρίμα πάντως να μην υπάρχουν οι σχετικές πληροφορίες στην ιστοσελίδα του Υ.Μ.Ε που είναι και το αρμόδιο υπουργείο. Τις συγκεκριμένες πληροφορίες ποιο πάνω, τις βρήκα εδώ : http://www.nomarxia.gr/ypiresies/metafores/metafores-dikaiologitika-59.html

Future Launch VUSat (Hamsat)
Re-Entered OSCAR, OSCAR II, UO-9, AO-13,

AMSAT-OSCAR 51 (Echo or AO-51)
Analog Uplink 145.920 MHz FM (PL - 67Hz)
1268.700 MHz FM (PL - 67Hz)
Analog Downlink 435.300 MHz FM
Digital Uplink 145.860 MHz 9600 bps, AX.25
Digital Downlink 435.150 MHz 9600 bps, AX.25
2401.200 MHz 38,400 bps, AX.25
Launch June 29, 2004

Status: Operational
Amsat-OSCAR 51 or Echo as it is more commonly known is a FM satellite
carrying 4 VHF receivers, 2 UHF transmitters, a multimode receiver and
a 2400MHz transmitter. It can handle voice and FSK data up to 76.
8Kbps. Echo was launched into a low, sun-synchronous polar orbit
approximately 850 km high. It is planned for operational turnover on
30 July 2004 at approximately 0215z. You must transmit a 67Hz PL tone
in order to access the Echo voice repeater.
Please note the change in operational phone downlink frequency to 435.
300 MHz.
See Echo Project Status for additional information about Echo and
scheduling of various modes of operational.

AMSAT OSCAR 7 (AO-7)
Mode B Uplink 432.125 to 432.175 MHz CW/LSB

Mode B Downlink 145.925 to 145.975 MHz CW/USB (inverting)
Mode B Beacon 145.9775 MHz (CW telemetry)
Mode A Uplink 145.850 to 145.950 MHz CW/USB
Mode A Downlink 29.40 - 29.50 MHz CW/USB (non-inverting)
Mode A Beacon 29.502 MHz (CW telemetry)
Launched 15 November 1974

Status: Semi-operational
AO-7 became non-operational in mid 1981 due to battery failure . In 2002 one of the shorted batteries became an open and now the spacecraft is able to run off solar panels. For this reason it is not usuable in eclipse and may not be able to supply enough power to the transmitter to keep from frequency modulating the signal. Lately AO-7 has favored Mode B almost exclusively.

AMSAT OSCAR 10 (AO-10)
Uplink 435.030 to 435.180 MHz CW/LSB
Downlink 145.975 to 145.825 MHz CW/USB
Beacon 145.810 MHz (unmodulated carrier)
Launched 16 June 1983

Status: Semi-operational
AO-10 is barely operational when in full sunlight. Because it is tumbling it is almost impossible to predict squint. Stacey Mills - W4SM has more information about OSCAR-10 on his web site.

UoSat OSCAR 11 (UO-11)
Telemetry 145.826 MHz FM 1200 bps AFSK
Beacon 2401.500 MHz Carrier
Launched 1 March 1984

Status: Semi-operational
OSCAR-11 now operates in a default mode, controlled by the watch-dog timer. The satellite transmits continuous ASCII telemetry for about 10 days on 145.826 MHz., followed by about 10 days of silence. This regular sequence might be interrupted by ground control, at any time. The mode-S beacon is ON continuously, even when the VHF beacon is OFF, nominally transmitting an unmodulated carrier on 2401.5 MHz. There is however a VERY low level of AFSK modulation, (now a constant audio tone), which has been detected on strong signals. Telemetry indicates that the beacon has partially failed, and is delivering half power.

Radio Sport -15 (RS-15)
Uplink 145.858 to 145.898 MHz CW/USB
Downlink 29.354 to 29.394 MHz CW/USB
Beacon 29.352 MHz
Launched 26 December, 1994

Status: Semi-operational
RS-15's beacon is occasionally heard and may be quite strong at times. At times the beacon is just a continuous carrier lasting up to 30 seconds, at other times it seems to be sending CW. There have been a

few reports of hearing CW through the passband and Al N7EQF has reported having a CW QSO.

AMSAT OSCAR 16 (AO-16)
Uplink 145.90 145.92 145.94 145.96 MHz FM (1200 baud Manchester FSK)
Downlink 437.025 MHz SSB (1200 baud PSK)
Beacon 2401.1428 MHz (Not Operational)
Broadcast call PACSAT-11
BBS call PACSAT-12 (Not Operational)
Launched 17 July 1991

Status: Semi-operational
AO-16 is on in digipeater mode only. The BBS is not operational, and the S-Band Beacon is also not operating.

LUSAT-OSCAR 19 (LO-19)
Uplink 145.84, 145.86, 145.88, 145.90 MHz (1200-baud Manchester FSK - Not Operational)
Downlink 437.150 MHz SSB (1200 bps RC-BPSK - Not Operational)
Beacon 437.125 MHz
Broadcast call LUSAT-11 (Not Operational)
BBS call LUSAT-12 (Not Operational)
Launched 22 January, 1990

Status: Semi-operational
LUSAT is sending out a strong CW beacon only. The BBS is not operational is not operating.

Fuji OSCAR 20 (FO-20)
Uplink 146.000 to 145.900 MHz CW/LSB
Downlink 435.800 to 435.900 MHz CW/USB
Beacon 435.795 MHz (unmodulated carrier)
Launched 7 February 1990

Status: Semi-operational
FO-20 continues to operate in a very weak state. When in full sun it may be possible to hear returns from the transponder. Project OSCAR members have passed CW through the satellite as recently as 11/01/04. However the transponder seems to die after a few CW characters are passed.

UoSat 5 (UO-22)
Uplink 145.900 or 145.975 MHz FM 9600 baud FSK
Downlink 435.120 MHz FM
Broadcast call UOSAT5-11
BBS call UOSAT5-12
Launched 17 July 1991
Status: Semi-operational
UO-22 has been resetting and is not always turned on. SSTL has been troubleshooting. Periods of operation may be abruptly halted. Operations are limited to times when the satellite is not in eclipse.

AMRAD OSCAR 27 (AO-27)
Uplink 145.850 MHz FM
Downlink 436.795 MHz FM
Launched 26 September 1993

Status: Operational
The AO-27 Team has reported that a new schedule has been uploaded. If the batteries hold then it should continue to run. If the batteries get too low then the software will turn the schedule off and the control operators will have to compute another one. The current schedule indicates that AO-27 is turned on for analogue operations during a 6 minute pass on the ascending pass. As in the past, the analogue mode is preceded and followed by 1 minute of digital TLM. A TLM stream is also transmitted for one minute on the decending pass. The latest information on AO-27 from control operator Michael Wyrick, N3UC (former N4USI), can be found at http://www.ao27.org

Fuji OSCAR 29 (FO-29)
Analog Uplink 146.000 to 145.900 MHz CW/LSB
Analog downlink 435.800 to 435.900 MHz CW/USB
Beacon 435.795 MHz (normally CW telemetry)
Digital Uplink 145.850, 145.870, 145.910 MHz FM
Digital Downlink 435.910 MHz 1200 baud BPSK or 9600 baud FSK
Digitalker
435.910 MHz FM
Launched 17 August 1996

Status: Operational
Despite a failure in June 2003 probably due to solar flares, FO-29 continues strong operation and has become very popular in the wake of the failure of UO-14. The analog mode is operational .

Gurwin TechSat1b (GO-32)
Digital Downlink 435.225 FM 9600 Baud FSK
Digital Uplinks 145.850, 145.890 FM 9600 Baud FSK
1269.700 , 1269.800 , 1269.900 (not operational)
Beacon Callsign 4XTECH-11
BBS Callsign 4XTECH-12
Launched 10 July 1998

Status: Operational
The GO-32 BBS server software and other improvments appear to be operational as of July 1, 2004. Emily, W0EEC has reported that she was able to connect up to the BBS. Users might be able to communicate GO-32 while the BBS is on and enabled. Check the GO-32 Site and GO-32's beacons for updates.
The current beacon was copied transmitting:
4XTECH-12>STATUS:UTC: Tue Jul 06 17:40:05 2004 | Gurwin Techsat1B (V9.83)
4XTECH-12>STATUS:Gurwin Techsat1b send thanks to IARC and 4X1AS.

1.5 cm 24048.025 - 24048.275 USB, CW
S-Band Beacon 2401.323 MHz SSB AFSK
Launched 16 Nov. 2000

Status: Non-operational
AO-40 has suffered a catastrophic failure, and although recovery efforts continue it is not likely to return to service. The latest status is available from the ANS News Page.

Saudi-OSCAR 41/SaudiSat 1A (SO-41)
Uplink 145.850 MHz FM
Downlink 436.775 MHz FM
Launched 26 September 2000

Status: Semi-operational
SO-41 is in operation when turned on by an internal timer that appears to be programmed to turn it on over major land areas. The repeater was operational in September 2003 but appears to be sporatic.

PCSat (NO-44)
Uplink/Downlink 145.827 MHz FM 1200 Baud AFSK
Aux Uplink 435.250 MHz FM 9600 Baud AFSK
APRS Downlink 144.390 MHz FM (Region 2)
Launched 30 September 2001

Status: Non-operational
NO44 is non-operational since its battery is too soft to provide the peak current necessary to transmit a packet. It can still be heard occassionally when sun angles are right (local noon in the northern hemisphere), but cannot be used with any reliability. Users are requested to not UPLINK to give better chance that control stations can continue to control it. (Status provided by Bob, WB4APR, 13 July 2004). For more information visit the PCsat Website.
NO-44 is a 1200-baud APRS digipeater designed for use by stations using hand-held or mobile transceivers. Downlinks feed a central web site at http://pcsat.aprs.org.

Sapphire (NO-45)
APRS/Packet Uplink 145.945 MHz FM 1200 Baud AFSK
APRS/Packet Downlink 437.095 MHz FM 1200 Baud AFSK
UI Digipeater Address KE6QMD

BBS System KE6QMD-1
Launched 30 September 2001

Status: Non-operational
Sapphire is experiencing the same type of battery failure as NO-44. Mike KE6YNJ indicates that asking for a halt to Sapphire digipeating for the time being. The control team will evaluate Sapphire's batteries for the next few weeks and will issue an update. If it's not a power management problem and is just a sign of old batteries, they will the satellite up for digipeating again. Otherwise, the control operators might work out some new arrangement. In the meantime, the beacon will be turned off to conserve power, so users should not expect to hear anything. The control team hopes it can squeeze a few more months of life out of Sapphire.
NO-45 is a 1200-baud UI digipeater and BBS designed for use by stations using base or mobile transceivers. For more information visit the Sapphire website. The BBS system is functioning for amateur use through the TNC. The command BBS is not available for guest useage at this time.

TIUNGSAT-1 (MO-46)
Uplinks 145.850,145.925 MHz 9600 baud FSK
Downlink 437.325 MHz 38.4K Baud FSK
Broadcast Callsign MYSAT3-11
BBS MYSAT3-12
NUP MYSAT3-10
Launched 26 September 2000

Status: Operational
TiungSat-1 is Malaysia's first micro-satellite and in addition to commercial land and weather imaging payloads offers FM and FSK amateur radio communication.

Saudi-OSCAR 50/SaudiSat 1C (SO-50)
Uplink 145.850 MHz FM
Downlink 436.795 MHz FM
Launched 20 December 2002

Status: Operational
SO-50 carries several experiments, including a mode J FM amateur repeater experiment operating on 145.850 MHz uplink and 436.800 MHz downlink. SO-50 is operational when turned on by a control operator and automatically turns off 10 minutes later. It requires a 67Hz PL tone for you to key the downlink transmitter, otherwise it will not repeat your transmission.

Amateur Radio on the International Space Station (ARISS)
Region 1 2m uplink 145.200 MHz FM
Regions 2 & 3 2m uplink 144.490 MHz FM
Cross Band Repeat Uplink 437.800 MHz FM
Worldwide downlink (All modes) 145.800 MHz FM
Worlwide Packet uplink 145.990 MHz FM

US Voice Callsign NA1SS
Russian Voice Callsigns RS0ISS, RZ3DZR
UI Digipeater Callsign ARISS
Bulletin Board Callsign RS0ISS-11

Status: Operational
The current Expedition 9 crew is:
Commnader Gennady Padalka, RN3DT
Flight Engineer Edward "Mike" Fincke, KE5AIT
The ISS system has sometimes been turned on to Cross Band Repeat mode.
In this mode it functions as a Mode B-FM repeater. Amateurs in the US and elsewhere have reported using the repeater with home stations and handheld radios with great success. The crew is also able to use the radio to transmit even when the system is in this mode.
While the system is in cross band repeat mode the packet system is turned off and vice-versa.
The ISS daily crew schedule can be found at http://spaceflight.nasa.gov/station/timelines/. Remember that the crew operates on UTC time.
Also, all of the time line is NOT translated from Russian and posted.
Current ARISS News is available at the ARISS page in this website.
Additional information is available at: http://www.rac.ca/ariss/

HamSat (VUSat)
Uplink 70cm LSB
Downlink 2m USB
Beacon 2m Unmodulated Carrier
2m Telemetry
Launch Q1 2005

Status: Future Launch
HamSat has been constructed by AMSAT India and ISRO. It carries two 1watt linear transponders, and an FM beacon. The latest indication of launch is scheduled for sometime in February 2005. http://www2.jpl.nasa.gov/calendar/#0502

FCC Poised to Act on BPL Report and Order in Mid-October

The FCC will consider a draft R&O on BPL at its October 14 meeting. (L-R) Commissioners Kevin Martin, Kathleen Abernathy, Chairman Michael Powell, Michael Copps and Jonathan Adelstein. [FCC photo]

NEWINGTON, CT, Sep 24, 2004--The FCC Office of Engineering and Technology (OET) will present a broadband over power line (BPL) Report and Order to the full Commission when it meets October 14, the ARRL has learned. More than 6100 comments have been filed on the topic since the FCC released its initial Notice of Inquiry in the proceeding, ET Docket 03-104, in April 2003 and a subsequent Notice of Proposed Rule Making (NPRM), ET Docket 04-37, in February of this year. The ARRL so far on this round has taken its concerns regarding Amateur Radio and BPL to three of the Commission's five members. In a meeting this week with FCC Commissioner Jonathan S. Adelstein, an ARRL delegation again asserted that the FCC is pushing the proceeding to a predetermined conclusion with little regard for technical issues.

"Because the FCC has been unwilling to release for public review the results of its own tests and observations of BPL systems, the ARRL has no confidence that the draft Report and Order will be based on sound engineering and believes the rush to adoption is unwarranted and premature," ARRL Chief Executive Officer David Sumner, K1ZZ, said in a follow-up letter to Adelstein. The letter reiterated the League's key points that, it said, "represent the minimum protection" that should be incorporated into the BPL Report and Order prior to Commission adoption.

"Without adequate safeguards, the deployment of BPL systems will result in the pollution and degradation of the unique natural resource of the high-frequency radio spectrum," Sumner said.

The League argued that a reduction in the radiated emission limit for BPL systems be included in the R&O. The ARRL wants the limit set 30 dB below current Part 15 requirements, which, it says, were established with narrowband point-source radiators in mind. "The record in this proceeding clearly establishes that BPL is not a point-source radiator," the ARRL's letter asserted.

The ARRL pointed out that the National Telecommunications and Information Administration (NTIA) has concluded that at the current Part 15 limit, interference is "likely" to receivers in land vehicles 75 meters from BPL-connected power lines and to fixed stations 460 meters from such power lines.

"Given the number of amateur stations and the fact that they almost invariably are located near power lines, the areas of potential interference at the existing Part 15 limit are clearly too large to permit case-by-case resolution of interference issues," Sumner said. "Based on experience with the very limited test deployments of BPL systems to date, notably in Cedar Rapids, Iowa, Southern Wake County, North Carolina, and Cottonwood, Arizona," the ARRL told Adelstein, "widespread BPL deployment at the existing Part 15 radiated emission limit will result in an unmanageable incidence of interference."

The only way to reduce these areas of potential interference is to reduce the radiated emission limit, the ARRL maintained. Mandatory "notching" of the amateur bands by 30 dB would reduce the probability of interference to amateur stations sufficiently that the remaining interference cases might be resolved on a case-by-case basis. "However," the League added, "such notching would not solve the problem for other radio services."

The ARRL contingent, which included Sumner, ARRL General Counsel Chris Imlay, W3KD, and ARRL Chief Technology Officer Paul Rinaldo, W4RI, decried the FCC's lack of response to issues Sumner raised two months ago regarding a North Carolina Amateur Radio interference complaint. The ARRL representatives carried copies of correspondence questioning a July OET report that essentially gave the Progress Energy Corp BPL field trial a clean bill of health despite continued interference on amateur frequencies.

The League delegation suggested to Adelstein that the OET has swept the North Carolina BPL interference case under the rug and has attempted to discount interference issues in general while overstating the FCC's ability to address them.

Additional BPL-Related Concerns Raised

The ARRL also has asked Commission members to consider including the NTIA's recommendations to standardize measurement procedures and to require that Access BPL systems be certificated, not merely verified. The League has further stressed the need for independent confirmation of rules compliance before a BPL system is placed in operation.

Other points the ARRL has emphasized in its meetings with Commission members include the need for advance public notification of BPL system locations and characteristics, something not included in the NPRM; performance standards for interference mitigation that would require that interference be terminated immediately upon notification to the operator; and meaningful penalties for non-compliance.

The ARRL noted that in the case of the Cedar Rapids, Iowa, interference complaint, BPL engineers spent 12 weeks vainly trying to eliminate interference. System operator Alliant Energy continued to operate, knowing its system was interfering, the League said.

"The interference was not eliminated until the test was prematurely concluded," the League pointed out.

The ARRL said it wants the FCC to provide for fines when willful interference occurs in violation of §333 of the Communications Act. And it wants the Commission to require BPL marketers to "give clear notice to potential customers that licensed radio services have priority and that the delivery of broadband service via BPL cannot be guaranteed." Consumers should have to sign off on that notice before contracting for BPL service, the League contends.

"Otherwise," the ARRL's letter said, "the labeling requirements of Part 15 fall into the category of meaningless boilerplate."

In addition to Adelstein, ARRL representatives have met so far with Commissioners Kevin J. Martin, and Michael J. Copps. The League hopes to meet with the principal advisors to Chairman Michael K. Powell and Commissioner Kathleen Q. Abernathy before the October 7 cutoff for ex parte communications in the proceeding.

ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or
more likely a "BUSTED CALLSIGN". As always, you never know - "Work
First Worry Later" (WFWL).

4Z0, ISRAEL (Special Event). Look for special event station 4Z0V to be
active until October 9th. Activity is taking place during the Wine

Festival
at Rishon Le Zion. Activity over the past week was on 40/30/20/15/12
meters CW/SSB/PSK. QSL via 4Z4KX.

5Z4, KENYA (Interesting Callsign of the Week!). Miki, YT1CS, is
currently
active from Nairobi and will be there until November 18th. His
callsign is
5Z4YT1CS (ed. Wow! What a mouthful. Yes, it is true and there is no
"/" [slatch] between the 5Z4 and YT1CS). It was reported that Miki's
activity would only be SSB on 20/15/10 meters. There is a possibility
he
may activate some of the IOTA islands there. QSL via YT1CS (direct or
by the bureau).

7W0, ALGERIA. The 7W0AD is now active until October 9th. Activity over
the past weekend was very active on 30m (RTTY) and 17 (SSB/RTTY) with
some 40m (CW). QSL via EA4URE.

CE0Z, JUAN FERNANDEZ ISLAND. Marco, CE6TBN, informs OPDX that there is
now no amateur radio operator on this island. Eliazar, CE0ZIS, left
the
island 4 months ago and is now living near Valparaiso City in CE2-
land.
Marco states that he has plans to travel to CE0Z next year, but he is
not
sure when yet.

CN, MOROCCO (Update OPDX.678). Last week we mentioned that Jan "Jim",
SM2EKM, will be active as CN2KM in the CQWW DX CW Contest. Jan now has
informed OPDX that he will be there November 23rd to December 1st. QSL
via SM2EKM.

FR, REUNION ISLAND. Bert, PA3GIO, informs OPDX that he will be active
as
FR/PA3GIO/p from Reunion Island (AF-016), October 2-11th. Activity
will
be on 80-10 meters SSB only using 100 watts and Doublet (Limited
activity).
He was heard this past weekend on 3800, 7046, 14260, 18145, 24945 and
28495 kHz. For Bureau QSLs, PLEASE use the easy QSL request form on
his
Web site. (ADDED NOTE: Also for all other operations.) For direct
QSLs,
please use the QSL info/address on his Web site at:
http://www.pa3gio.nl/FR/

HZ1AB CHANGE. For almost six decades the HZ1AB club station in Saudi
Arabia has been active. Originally known as the United States Military
Training Mission station and more recently known as the Dhahran
Amateur
Radio Club, this station is now shut down. According to "The Daily DX"

and the "ARRL Letter", Club Secretary Thomas Carlsson, SM0CXU/AB5CQ,
said this week that new station license requirements in Saudi Arabia
made it necessary to shut down the station, and the callsign has been
reissued to a Saudi national. The QSL Manager Leo Fry, K8PYD, still
has
the HZ1AB logs and will handle any past/late QSL requests.

IOTA NEWS....................
AF-019. Check out the pictures on the recent September 24-28th
IG9/IZ8CGS IOTA DXpedition to Lampedusa Island (MIA MI-
126)
online at: http://www.mdxc.org/ig9_iz8cgs

AS-024. Anci, JA2ZL, will be active as JA2ZL/6 from the Kobama
Island
(JIIA AS-024-008), now through October 7th. Activity will
be
on 40-10 meters (including the WARC bands) CW, SSB, RTTY
and
SSTV. QSL via the bureau or direct to JA2ZL: Anci Yamada,
17-8-2 Takiro-cho, Tajimi, Gifu, JAPAN.

EU-023. Arno, DL1CW, will be active as 9H3AP from Gozo Island,
October
5-13th. Activity will be CW only on 40-10 meters. QSL via
DL1CW.

EU-182. Nikolay/UX0FF, Alexandr/UR5FAV, and Vitali/UR5FGW will be
active as homecall/p from the Island of Ankudinov in the
Black Sea, October 7-10th. Activity will be all bands and
modes. QSL via operator's home callsign.

NA-069. Jeff, VA3QSL, informs OPDX that he will be visiting
Florida
the 2nd week of November. He plans to be on the air from
Estero Island (USI FL-035S) using the callsign VA3QSL/W4
from November 11-13th. Activity will be on 14260 kHz (+/-)
.
QSL to his home callsign via the bureau, or direct with 1
greenstamp or IRC.

OC-147. Bachrun, YC9YKI, was heard this past week from Yapen
Island
(resident) on 15 meters SSB just little before 1230z. QSL
via YB9BU.

IOTA VIDEO. A new IOTA video is available on the recent CS7T operation
to the Estelas Islands. The press release states that this is a
professionally produced DVD and an excellent piece of HAM radio
history
directed by Jose Alberto, EA1OS, with incredible footage of these most
beautiful Islands. For more details, please have a look at:

http://web.newsguy.com/ea12537/Intro_Videos.htm
They are not looking for any sponsorship so the DVD costs only 10
Euros
(shipping included). For enquires contact Jose Alberto, EA1OS, at:
cs7t@...
or
Jose Alberto Suarez Rodriguez
C/ Praga 23 - Urb. Valaire
E15008 - A Corunna, SPAIN

JD1, MINAMI TORISHIMA. Itokazu, JR6TYH, is now active as JR6TYH/JD1 on
Marcus Island (OC-073) until December 20th. During the past week he
was heard on 21260 kHz between 0600-0900z and again at 2200-0000z. He
reportedly has a tribander for 10/15/20 meters. QSL via the JARL
Bureau.

KH9, WAKE ISLAND. Terry/K7ASU and George/AH8H are now active as K7ASU/
KH9
and KH9/AH8H until about October 23rd. Activity will be limited as
the
two operators will only be on during their spare time. All of the
activity
reported so far has been CW on 20 and 15 meters between 0700-1030z.
Watch
around 14018 and 21017 kHz. QSL K7ASU/KH9 via K7ASU. QSL KH9/AH8H via
AH8H: George Talbot, PO Box 45, APO AP 96555-0045, USA.

LIGHTHOUSE ACTIVITY. Operators Jim/KA3UNQ and Stan/N2US will operate
as
N3L from Maryland's Hooper Strait Lighthouse (ARLHS USA-378),
celebrating
the 125th anniversary of the first lighting. Expected operation will
be
on SSB, October 16th, 1400-2200z. Suggested frequencies are: 14270 and
7270 kHz (+/- QRM). QSL with a SASE to KA3UNQ.

MM0, SCOTLAND. Leo, W3LEO, will once again be active from Portpatrick
in southwest Scotland from about October 10th to November 15th. His
callsign will be MM0LEO. In the CQWW DX SSB Contest, he will use GM3W
[the contest callsign of the Wigtownshire A.R.C.]. He will use an Icom
706 (100 watts]), an R-5 vertical [10, 12, 15, 17, 20 meters], and a
40-meter dipole [in inverted-V, semi-delta configuration]. QSL via
W3LEO
-- QRZ.com address w/SASE or via W3 bureau for both callsign. His
activity
is good for the following awards and reference numbers:
Worked All Britain [WAB] Square: NW-95
CQ Zone: 14 ITU Zone: 27 Grid Square: IO-74ku
IOTA: EU-005 [Great Britain].

NP3, PUERTO RICO. Several members of the Yankee Clipper Contest Club
(YCCC) will be traveling to the NP3U "Mi Casita" contest station of
Carlos,
WP4U, for the upcoming CQWW DX SSB Contest, October 30-31st. Operators
Bill/N1HRA, Foster/N3KCJ, Joe/K1JN, Matt/WE1H, Pat/WL7Z and Dave/W1CTN
will be making the trip. Look for some limited activity prior to the
contest as homecall/KP4. QSLs for NP3U are via WP4U and for individual
activity will be via the individual home call.

PIRATE ALERT! Bill, VK4FW, informs OPDX that he has received a few
inquiries regarding a FW8FP station being active over the past week or
so. He states, "This is a pirate...... don't waste your time QSLing
please."

PJ2, NETHERLANDS ANTILLES. Andy, DL5CW, will be active as PJ2/DL5CW
from
Curacao (SA-007), November 1-15th. Activity will be on 80-10 meters on
all modes. QSL via the bureau is assured.

PROPAGATION (Last Minute Forecast Updates and More!). With the CQ WW
SSB
Contest coming up, Tomas, NW7US (AAR0JA/AAA0WA), Propagation Editor
for
CQ, CQ VHF, and Popular Communications, states for those who use the
CQ
Magazine Propagation Column "Last Minute Forecast" to help plan your
operation, you might be interested in the "live" version of that
table.
Tomas has a live version of the LMF at:
http://hfradio.org/lastminute_propagation.html
Also, the NW7US HFRadio.org Propagation Center (http://prop.hfradio.
org/)
which features a collection of live space weather and radio
propagation
data, as well as commentary by NW7US, graphics, and so forth, has been
updated with a new layout. The data has been "load balanced" between
several pages. Specific data that is of interest:

1. CQ Magazine "Last-Minute Forecast" table is updated daily -
for
those who follow Tomas's column in CQ Magazine, you will know
that the "Last Minute Forecast" is used with the published
propagation tables. Use the latest table for DX scheduling,
etc.

2. Optimal Working Frequencies and predicted Smoothed Sunspots
and
10.7-cm Flux tables are updated on a regular basis.

3. Discussion forum for a wide topical range - from Propagation
to
Shortwave Listening, NVIS, and more (http://hfradio.org/
forums/).

4. All of the major data is syndicated via RSS (XML RSS version
2.0)
(http://hfradio.org/propsupport/prop.rss).

5. Same information, plus SWL BCL database search, DX spots,
Callsign
Lookup via WAP/WML (http://wap.hfradio.org).

6. Propagation and Space Weather e-Alert service (as used by the
troops in the Middle East Theater, pigeon racers, and DXers
alike)
(http://prop.hfradio.org/ealert/).

QSL INFO AND NEWS..........................
Dave, W5WP, informs OPDX that at the request of David, KH9AE (5X4CM
and 5X4/KH9AE), he will be performing his QSLing "chores". Direct
requests must be accompanied with an SASE. International (outside U.
S.A.)
must have an SAE and sufficient return postage. All requests will be
answered, Those received via the bureau or without sufficient
postage
and SAE/SASE will be replied to via the bureau. Please do not
request
confirmation via eQSL as Dave does not subscribe to it. At this
time,
Dave does not use LoTW. He does not have the time to reconfigure the
E-mail logs to meet LoTW requirements. Please send mail requests to:
W. David Paperman, W5WP, 19266 Sims, Cleveland, TX 77328-6205. Dave
states, "Please place the call of the station somewhere on the
envelope
as I am also the manager for CO2KK."

QSL 8S7A via W3HNK. Activity was last weekend from IOTA EU-037.

QSL JA4GXS/4 via the bureau or direct to JA4GXS: Kenji Sasaki,
2-15 Ishikannon-cho,Yamaguchi, 753-0038 Japan. Activity was by Kenji
from No-shima Island (AS-117) (JIIA-AS-117-110).

Joe, W3HNK, has informed OPDX that he has the logs for the V44NK
operation; July 10th and 11th 2004 ONLY!!!! PLEASE NOTE: Joe is
"NOT"
the QSL Manager for V44NK. However, he will answer QSL requests
(ONLY)
for the above 2 day operation!

OLD QSL COLLECTION. Jean Michel, F6AJA, wants to remind everyone to
visit the Les Nouvelles DX (LNDX) Web page to see some 2000 old
QSLs
in six different albums. This site contains:
- At least, one card, for each 58 deleted DXCC countries (more
than
400 QSLs)
- Nearest the totality of current prefix, disappeared now (more

than
800 QSLs)
- More than 300 QSLs from the Antarctic bases.
- Nearly 190 QSLs from the TAAF (Terres Australes and Antarctiques
Franηaises).
- More than 200 cards for the old timer with more than 100
countries
before 1945.
- A card from the French Department before 1945.
The URL address for the Web site is : http://LesNouvellesDX.free.fr
Some cards are still needed for the collection and your
participation
is welcome, please visit their site and give them your comments by
sending an E-mail to: LesNouvellesDX@...

SOUTH PACIFIC DXPEDITION. Operators Carlo/IK6CAC and Elvira/IV3FSG
will
activate a few Pacific Ocean islands during the months of October and
November. Look for them to join the Ocean Amateur Radio DX Group
(ODXG)
as VK9LA and VK9LW from Lord Howe Island, October 9-23rd. See VK9L
below.
The Italian team will also activate New Caledonia (OC-032) as FK/
IK6CAC
and FK/IV3FSG from October 25th to November 4th. Activity is also
planned
for Loyalty Island (OC-033) and the rare Belep Island (OC-079). They
will
move from FK-land to Vanuatu (YJ) and be active between November 5-
13th.
Callsigns for YJ-land were not provided. QSL via operators'
instructions.

TJ, CAMEROON. Just a reminder! Also, refer to OPDX.669. Operators
DL7DF,
DL7UFR, DL7KL, DL7DF, DL4WK, DK1BT and SP3DOI will be active this week
as TJ3SP and TJ3FR from October 6-20th. They will have four stations
active and on all modes and all bands, except on 160m and 6m (no
licence).
For more information, please watch the Web page at:
http://www.qsl.net/dl7df

TO7, MARTINIQUE. Laurent, F5MUX, will be here and active between
October
26th to November 5th. His activity will include the CQ WW DX SSB
Contest
as a Single-Op/All-Band/High-Power entry using the callsign TO7X. All
stations that contact him on a minimum of 4 bands will receive a QSL
DIRECT automatically. All others will be confirmed via the bureau. QSL
via F5MUX.

V5, NAMIBIA. Vladimir, ZS6MG, will be active as V55V in the CQ WW DX SSB
Contest (October 30-31st) as a Single-Op/Low-Power entry. QSL via ZS6MG.
His Web page is at: http://zs6mg.hobby.com.mk

VE1, CANADA. Jim, VE1JF, informs OPDX that he will be running as a Multi/2 in the upcoming CQWW SSB Contest and will attempt to "make a market" (ed. that how he phrased it!) for EU/NA 10M QSOs. Look for him to be on 28450 kHz (+/- QRM) around 1300z both days. He expects to have
the other rig running EU on 20m at that time and will announce this and the frequency on the air. Jim will be running his F12 7/7/7 3-stack
and is hopeful at least some of the EU Big Guns can hear and work him (He
will, of course, be listening carefully for others).

VK9L, LORD HOWE ISLAND (Update). Bill Horner, VK4FW, President of the ODXG,
informs OPDX that "All systems go. Callsigns....... VK9LA for the OMs. ...
VK9LW for the YLs." QSLs will be handled by the Oceania Amateur Radio Dx
Group Inc, P.O. Box 513, NAMBOUR 4560, AUSTRALIA. Activity will be between
October 9-23rd. Operators will be: Vicki/VK2IVK (YL), Elvira/IV3FSG (YL),
Laurie/G3UML, Eric/VK4NEF, Mike/VK3SU, Carlo/IK6CAC and Bill/VK4FW.
Suggested frequencies are:
6m - 50100 kHz (CW/SSB)
CW - 1812, 3512, 7012, 10107, 14012, 18072, 21012, 24912 and 28012
SSB - 3785, 7045, 14260, 18140, 21260, 24950 and 28495
RTTY - 7080, 10120, 14090, 18100 and 21090 kHz

YJ0, VANUATU. Trent, VK4TI, is now active as YJ0AX until October 10th. He was active during this past weekend's Oceania DX Contest. Activity will be limited. Watch 40/20/15/10 meters on CW/SSB. QSL via VK4TI: Trent Sampson, PO BOX 1647, Toowoomba QLD 4350 Australia.

1342. New rig from Icom

Yahoo group: thegreekhamradio
Date: 2004-10-08 11:21:05 UTC
From: sxanthop
Topic: 1342   Message: 1342

Καλησπέρα,

Ψάχνωντας λίγο πριν απο λίγο στην ιστοσελίδα της Icom βρήκα αυτό το "καινούργιο". Αν κάποιος δεν το είχε προσέξει, ρίξτε μια ματιά:

The 756PRO Third Generation's new features

New receiver gives +30dBm third-order intercept point*
Using receiver design techniques introduced in the IC-7800, Icom□s engineering team focused on producing a distortion-free, high-dynamic-range. To achieve this goal, Icom used higher-grade components in vital receiver sections of the IC756PROIII.
* Under the condition of receive frequency 14.2MHz, input frequencies 14.3MHz and 14.4MHz, Pre-amp OFF, mode USB BW: 2.4kHz

Large inductors in the RF stage

Large inductors
The IC-756PROIII uses large inductors instead of small coils in the bandpass filter (BPF) stage, because small coils sometimes cause magnetic saturation in the BPF stage. Large inductors can handle both strong signals and weak signals with lower distortion.

Low-distortion BPF switching
The BPF switching circuitry is one of the critical points in a receiver where distortion can be produced by strong out-of-band signals. Distortion at this early receiver stage then propagates throughout the remaining stages and cannot be removed by signal processing. The IC-756PROIII uses low distortion diodes with wide frequency characteristics that prevent formation of distortion components in the BPF stage.

Fundamental-type roofing filter

Fundamental-type 64MHz roofing filter
The IC-756PROIII uses a fundamental-mode monolithic crystal filter for the roofing filter. Although it□s more expensive than overtone-mode filters, the fundamental-mode filter has a better shape factor and is less susceptible to intermodulation distortion under strong-signal conditions. This is the same 15kHz crystal filter used in the IC-7800

Two newly designed preamplifier
To minimize distortion and maximize dynamic range, the IC-756PROIII preamplifiers use the same basic circuit design as the IC-7800 preamplifiers.

RF stage &
Preamplifiers Pre-amp 1 Pre-amp 2
Preamp-1 is a noiseless feedback design, with push-pull amplifiers. This design has a high intercept point and covers a wide frequency range. Preamp-2, which uses bipolar transistors for higher gain, is ideal when you use separate low-efficiency receiving antennas such as small loops or Beverages.

Real time spectrum scope with mini scope function
The real time spectrum scope is now an indispensable tool for top performing HF radios. The IC-756PROIII□s spectrum scope adds a mini scope function, as requested by many PROII users. The mini scope allows you to monitor the scope screen while you use other function menus. For example, you can monitor the scope screen even while you are changing the IF filter shape and passband

Mini scope screen
Normal spectrum scope screen
width. The scope range can be set in 4 steps ±12.5 kHz, ±25 kHz, ±50 kHz and ±100 kHz, centered on the receiving frequency. In addition, the spectrum scope has 3 attenuator levels (10dB, 20dB and 30dB).

Eight-channel RTTY TX memory

RTTY transmit memory screen
The IC-756PROIII has 8 channels of RTTY transmit memory. You can edit and send up to a 62 character message for each memory channel without a PC or other external unit*. The transmit memory is displayed on the screen so you won□t send the wrong message. The built-in RTTY demodulator and decoder allow you to check the callsign of the station on the air instantly. A PC or external unit is not also necessary.
* When write and send RTTY messages on site, a Terminal Unit, TNC or PC and dedicated software is required.

Adjustable SSB transmit BW

SSB transmit bandwidth setting
The SSB transmit bandwidth is selectable from 100, 300 and 500Hz at the high-pass edge, and 2500, 2700 and 2900Hz at the low-pass edge respectively. 3 types of high and low combinations can be stored in the memory. In addition, the built-in audio equalizer has separate bass and treble adjustments for a total of 121 combinations, so you can tone your voice up or down as you want. With this flexible DSP-based waveform shaping, you can tailor your transmit audio quality to suit your operating style.

Other new features
New 60 meter band coverage, equivalent transmit power and antenna tuner capabilities to the other bands.
(U.S.A. version, USB mode only)
2 clocks show different time zones at once, such as local and UTC time.

Screen saver function

Γειά σας,

Να καλοσωρίσουμε τα καινούργια μέλη στην λίστα και να ενημερώσω οτι προσωπικά θα απουσιάζω για 1 εβδομάδα στην περιοχή της Αθήνας για qrl απο αύριο Κυριακή.

Δεν θα έχω ασύρματο μαζί μου οπότε ο μόνος τρόπος επαφής θα είναι το κινητό μου αν κανείς θέλει να με βρει. Ο αριθμός υπάρχει στην database που έχω ξεκινήσει στην σελίδα του group. Ενδεχομένως ΙΣΩΣ μπορέσω να πάρω mail απο κάπου, αλλά δεν είναι και τόσο σίγουρο.

Για οτιδήποτε θελήσετε καθώς επίσης και για "αιτήσεις" για νέα μέλη,
θα αναλάβει για μερικές ημέρες ο SV2ATD.

Καλά να περάσετε και πολλά 73,

de SV2EVS

73 COSTAS SV1XV

RSGB Proposes New 500kHz Allocation

The RSGB has made a proposal for radio amateurs in the UK to have access to frequencies between 501 and 504, or 508 and 515kHz, at a transmit level of 10W EIRP. The allocation, if accepted, would extend amateurs? experimental work on other low and medium frequencies and thus aid understanding of propagation in those parts of the spectrum.

The two frequency band options are proposed as they are no longer used for maritime telegraphy in the Western hemisphere and their usage for non-directional aeronautical beacons is being phased out. It is understood that it is unlikely, in the near future, that the channels will be re-allocated to another service.

Further details of the RSGB proposal can be found on the Spectrum Forum website http://www.rsgb-spectrumforum.org.uk/mf.htm , and there is a link from the main RSGB website.

BILL WINDLE QSO PARTY (FOC) ---> FOC is pleased to announce that the "Bill
Windle QSO Party" will take place from 00.00 UTC to 23.59 UTC on 16 October.
VHF bands are included but WARC bands are excluded. This operating event (not
a contest) is open to all radio amateurs world-wide and aims to encourage the
use of and excellence in Morse code. Full information can be found at
http://www.firstclasscw.org.uk/ [TNX I7ALE]

DXCC NEWS ---> The following operations are approved for DXCC credit:
9U5PM Burundi effective 20 August 2004
YV0D Aves Island 1-4 August 2004
ZS8MI Prince Edward & Marion Island 1 April - 9 May 2004

IOTA 2004 ---> The IOTA 40th Anniversary Award Programme has entered the
final three months, but there is still time to join in and earn a
certificate. Full details of the various awards, and how to apply
(certificates will not be issued until after the end of the year) can be
found on the CDXC Web pages (http://www.cdxc.org.uk, follow the IOTA 2004
links). Any questions can be addressed directly to Don, G3XTT
(don@...).

IOTA/WLH MEETING ---> The 6th IOTA/WLH - DL Freundschaftstreffen will be held

in Lenggries on 15-17 October. The programme includes
presentations on
Palagruza (EU-090), Greenland (NA-220), Scandinavian islands
(DJ8QP), Sri
Lanka (AS-171), Mexico (NA-045, 135, 189, 226) and Europa Island (AF-
009), as
well as the presentation of the Antarctica Award made by Rick,
DL2VFR and
Emir, 9A6AA (local checkpoints for Germany and Croatia).
Information at
http://www.iota-post.de/Lengries/hauptteil_lengries.html of from
Fredy,
DE0MST (fresti@...). [TNX IZ8CCW]

QSL 3XY7A ---> Fred, VE3WFN is still receiving cards for Dan, VE3DYS
(3XY7A),
who has been back home for a few years. Please note that VE3WFN simply
acted
as a collect point and that the cards are handled by VE3DYS
himself. [TNX
VE3WFN]

QSL C93Q ---> The QSL route is via VK4VB, but please note that his
current
address is in the US [425DXN 656]: Ralph Karhammar, 1306 34th
Street NW,
Washington, DC 20007-2801, USA.

QSL HK0TU (MALPELO 1990) ---> The following statement (signed the
President
of the Liga Colombiana de Radioaficionados, Ignacio Barraquer, HK3CC)
comes
from HK3SGP: "Several Colombian ham radio operators have
inappropriately
spoken on behalf of the Liga Colombiana de Radioaficionados
and have
misinformed the world amateur radio community about the status of the
Malpelo
1990 DXepedition logs.
The board of directors of the Liga Colombiana de Radioaficionados, at
their
meeting of September 30, 2004, decided to keep these logs open until
December
31, 2004. The newly appointed QSL Manager is Mr. Francisco Hennessey,
HK3SGP,
whose address can be found in QRZ.com.
We regret the inconvenient that this misinformation could have
caused you,
and suggest the DXers that require a QSL card to request it at their
earliest
convenience".

QSL OD5RMK ---> The QSL cards for the July 2004 operation from Ramkin
Island
(AS-108) have been printed and requests are being processed right
now. The
QSL route is via I1HJT, direct (Alfeo Caputo, P.O.Box 111, 17014
Cairo
Montenotte - SV, Italy) or bureau. Full information on the activity,
on-line
logs included, can be found at www.qsl.net/ik1qbt/ramkin_index.
htm [TNX
IK1QBT]

QSL TZ6VV & TZ6YL ---> Larry, TZ6VV and Trish, TZ6YL went QRT from
Mali March
2000. Those who still need a card can send their request to Larry's
current
address: Larry Erwin, Residence Les Horizons II, Batiment D,
Route des
Sanguinaires, 20000 Ajaccio, France. [TNX The Daily DX]

QSL VU2GSM ---> Kanti, VU2GSM reports that W7GSM is not and has
never been
his QSL manager. Cards should be sent direct to G. Srikantha Murthy,
Flat No
202, Chitramala Apartments, Jayanagar 1st Block East, Bangalore
560011,
India.

QSL ZC4DX ---> The Daily DX reports that this call, previously
held by
Dov/4Z4DX, has been reissued. Cards for QSOs made from 1 October 2004
onwards
should be sent direct to ZC4DX, J6 HQ BFC, BFPO 53, United Kingdom.

Γειά σας,

Με την βοήθεια ενός προγράμματος, είναι πλεόν πολύ εύκολο να εγκαταστήσετε μια bbs στην περιοχή σας.

Απλά κατεβάζωντας το προγραμμα Hamserv που θα βρείτε εδώ: http://www.gb7abc.net/hamserv.html

και κάνοντας το εγκατάσταση στον υπολογιστή σας, πλεόν δίνεται την δυνατότητα στους συναδέλφους ραδιοερασιτέχνες τις περιοχής σας να ανταλάσουν μηνύματα με άλλους ραδιοερασιτέχνες ανα τον κόσμο. Η εγκατάσταση του είναι πολύ απλή και το μόνο που χρειάζεται για την ανταλαγή των μηνυμάτων είναι μια σύνδεση στο ίντερνετ (ακόμα και dial-up). Οι συνάδελφοι μπορούν να συνδέονται στο σύστημα σας μέσω packet (ax.25) ή ακόμα και μέσω του ίντερνετ εφόσον υπάρχει μια static ip.

Δώστε λοιπόν σ'αυτούς που θέλουν, την ευκαιρία να επικοινωνήσουν μέσω packet ακόμα και αν δεν έχετε επικοινωνία με την υπόλοιπη Ελλάδα.

From: sxanthop
Topic: 1357   Message: 1357

Γειά σας,

Μπορεί κανείς να μας ενημερώσει αν έλαβε μέρος φέτος στο JOTA;
Είμασταν με έναν συνάδελφο, αλλά και η διάδοση ήταν χάλια και οι
κεραίες (δίπολα) είχαν ταλαιπωρηθεί απο πέρυσι. Έτσι δεν έγιναν σχεδόν
καθόλου επαφές, αλλά δεν ακούσαμε και καθόλου ελληνικά συστήματα
προσκόπων.

*** 4 2 5 D X N E W S ***
**** DX INFORMATION ****
===========================
Edited by I1JQJ & IK1ADH
Direttore Responsabile IK8MRA

3B8 - Mart, DL6UAA plans to operate as 3B8MM [425DXN 693] from
Mauritius
until 16 November at least. He in unlikely to operate on 160
metres,
as there is not enough space at the main QTH and /p
activities are
not allowed. [TNX OPDX Bulletin]
5B - Laci/HA6NL, Zsolt/HA6PS, Tibor/HA6ZV and Al/HA7JJS will
operate as
5B/homecall from Limasol, Cyprus (AS-004) on 2-9 November.
During
the HA-QRP Contest (http://www.radiovilag.hu/haqrp.htm)
they will
operate as 5B/HA5RT/QRP on 80 metres with 10 watts. QSL
via home
calls; QSL 5B/HA5RT/QRP via HA6NL. [TNX HA0HW]
5Z - Miki, 5Z4YT1CS (YT1CS) [425DXN 701] will operate as 5Z4YT1CS/
M from
Lamu Island (AF-040) on 4-11 November. He plans to operate on
80-10
metres SSB, using 100 watts, an inverted "V" for 40 and
80m and
verticals for the higher bands. QSL via YT1CS, direct or
bureau.
[TNX YZ1SG]
9L - Ivo, 9A3A is active (on 160-10 metres with 100 watts and
a long
wire) as 9L1ADA from Freetown, Sierra Leone until 1
November. QSL
requests should be sent to Ivo's current address is
Italy: Ivo
Pezer, c/o UNLB, Via U. Maddalena 54, 72011 Brindisi - BR,
Italy.

[TNX NG3K]
9N - Bavarian Contest Club (http://www.bavarian-contest-club.de/)
members
Rudolf/DJ3WE, Falk/DK7YY, Ben/DL6RAI and Roberto/IV3IYH will
operate
from Nepal either as 9N7BCC (requested call) and with
individual
callsigns from 16 November to 5 December, CQ WW DX CW
Contest
included. They will have three stations active on 160-15
metres
(possibly on 10 metres as well) and plans are to concentrate
on the
low and the WARC bands outside the contest. There will also
be RTTY
activities. Their QTH will be located at the most elevated
spot in
the Kathmandu valley. QSL 9N7BCC via DK7YY; the QSL
routes for
individual calls will be announced in due course. This
operation,
which is entirely financed by the participants, will
celebrate the
20th anniversary of the club and will be in memoriam of
its long
time member Sepp Rindfleisch, DJ7CY. [TNX DJ3WE]
9V - Enno, PF5X will be in Singapore for about three years and
on 21
October he received his 9V1CW licence. He plans to operate
mainly CW
on 80-10 metres and to concentrate on 30 and 17 metres.
QSL via
PA0KHS, bureau or direct (for airmail return to non-EU
destinations,
please enclose 2US$/Euro, otherwise 1 US$/Euro). [TNX PF5X]
9Y - Frank, DL2CC and Stefan, DK1MM will operate as 9Y4/
homecall from
Tobago (SA-009) from 27 October to 2 November. They will
participate
in the CQ WW DX SSB Contest as 9Y4ZC (QSL for this
operation via
DK1MM). [TNX DK1MM]
C5 - Jef, ON4ACA will be in The Gambia for two weeks starting
on 27
October. He plans to operate (callsign not known) SSB
and CW,
possibly also on 80 and 160 metres, and to take part in the
CQ WW DX
SSB Contest (SOSB 20 metres). QSL via home call. [TNX NG3K]
C6 - K8FL, K8LEE and W8GEX will operate from Eleuthera (NA-001),

Bahamas
from 26 October to 1 November. They will participate in the
CQ WW DX
SSB Contest as C6DX. [TNX K1XN and The Golist]
C9 - Andre, ZS6WPX will operate as C91Z (mostly on SSB, with some
CW and
RTTY) from Mozambique from 28 October to 1 November, while
his wife
Magda will be active as C91Y (mostly on SSB). Andre will
participate
in the CQ WW DX SSB Contest. QSL direct only via ZS6WPX.
[TNX OPDX
Bulletin]
D4 - Alberto, IV3TAN will participate in the CQ WW DX SSB
Contest as
D44TD (SOSB 20m). Before the contest Andrea, IV3SKB will
operate
RTTY and CW. QSL via CT1EKF. [TNX IV3SKB]
FM - Laurent, F5MUX will participate in the CQ WW DX SSB
Contest as
FM5BH. He will operate as TO7X [425DXN 701] before and
after the
contest, between 26 October and 5 November. [TNX F5NQL]
GM - GB0SK is the call issued to the Grantham ARC for their 2-6
May 2005
opeation from St. Kilda (EU-059) [425DXN 701]. On 1 May
they will
operate as GM0GRC/P from Great Bernera (EU-010). [TNX G0RCI]
HB0 - Christian, DL6KAC will operate as HB0/DL6KAC from
Liechtenstein on
25-29 October, and will participate in the CQ WW DX SSB
Contest with
the HB0/HB9AON Multi-Multi team. They will have
monobanders for
40-10m and dipoles for 160 and 80 metres. [TNX DL6KAC]
I - The Tikirriki Contest Club will participate in the CQ WW
DX SSB
Contest as IH9P (http://www.ih9p.com) from Pantelleria
Island
(African Italy, AF-018, IIA TP-01) as a Multi/Single
entry. The
operators (I2IFT, I2PJA, I8QLS, IK2ANI, IK2CIO, IK2HKT,
IK2RZP,
IK7JWY, IK8ETA, IN3QGY, IN3ZNR, IT9BLB, IT9WPO, IT9ZMX,
OL5Y, and
W1NA) will start arriving on 24 October; expect some
homecall/IH9
activity on CW and RTTY before the contest. QSL via
KR7X. [TNX
IT9BLB]

JW - Ole, LA4SNA is active as JW4SNA from Hopen island (EU-063) until 24
November. QSL via home call. [TNX VA3RJ]

KH2 - Aki, JI3ERV/NH2C; Toshi, JR7OMD/WI3O; Kaz, JG3RPL/N1BJ and Nozomu,
JE8KKX/AH2K will participate in the CQ WW DX SSB Contest as AH2R
(Multi-Two) from Guam (OC-026). QSL via JH7QXJ, direct or bureau.
[TNX JI3ERV]
KP2 - W3FV, K2TW and N2TK will operate as homecall/KP2 (QSL via home
calls) from St. Croix, US Virgin Islands (NA-106) from 27 October to
3 November, including a Multi-Two entry in the CQ WW DX SSB Contest
as WP2Z (QSL via KU9C). [TNX K1XN and The Golist]
PJ2 - Andy, DL5CW will operate mainly CW as PJ2/DL5CW from Curacao
(SA-006) on 1-15 November. QSL via home call, direct or bureau. [TNX
DL5CW]
SP - Juergen, DL5CE, and Dieter, DL7VAF will be active (on 160-10 metres
SSB, RTTY and PSK31) as SO1CE and SO1VAF respectively from Wolin
Island (EU-132) on 23-24 October. QSL via home calls, direct or
bureau, [TNX VA3RJ]
T2 - Ulli, DL2AH [425DXN 700] is currently active as 3D2AH from the Fiji
Islands and will be going to Tuvalu next week. His call will be
T20AH. QSL via DL2AH, direct or bureau. [TNX The Daily DX]
V4 - Andrei, EW1AR will be active (on all bands CW, SSB and especially
RTTY) as V44/EW1AR and NC2N/V44 from Nevis (NA-104) from 25 October
to 1 November. QSL via W3HNK. He will participate in the CQ WW DX
SSB Contest as V49A (QSL via V44NK) on 160 metres (QRP). Look also
for Boris, UU5SY to operate as UU5SY/V44 during the same period,
including a SOSB (10m) entry in the contest. QSL via KC2FVN. [TNX
NG3K]
V6 - Lanny, W5BOS [425DXN 694] was stuck on Weno (Chuuk Islands) for a

while because of rough seas. He eventually became active as
V6O from
Pulap (OC-155) on 21 October. QSL via N6AWD.
V6 - Sho, JA7HMZ will operate as V63DX from Pohnpei (OC-010),
Micronesia
from 29 October to 3 November. He will participate in the CQ
WW DX
SSB Contest as V63B (SOAB). QSLs via home call. [TNX NG3K]
VE - Ron, VE3AT will operate as VC3L between 29 October and 29
November
to commemorate the 25th anniversary of the inauguration
of the
largest power generating project in Canada. QSL via
VE3AT (Ron
Vander, 9 Jopling Avenue South, Islington, ON M9B 3P4,
Canada). TNX
VA3RJ]
VE - VE3DZ, VE3FWA, VE2QIP and possibly VE2XAA will take part in
CQ WW DX
SSB Contest as VE2IM (Multi-Single) from Zone 2. Before and
after
the contest they will operate as homecall/2. [TNX VE3DZ]
VE - AC8W (VA3ACW), K8DD (VE3RDD) and K8MM will participate in the
CQ WW
DX CW Contest as VO2AAA from Labrador City (Zone 2). It
will be
either a Multi-Single or, if they can get one or two more
operators,
a Multi-Two entry. QSL via K8DD (VE3RDD). [TNX K8DD]
VK - Carsten, DL2CS will be active as VK5OI from Brampton Island
(OC-160)
between 29 October and 2 November. He will operate QRP
on 40-6
metres SSB and digital modes. QSL via DL2CS, direct or
bureau. [TNX
VA3RJ]
VK9_xms- David, VK2CZ will operate as VK9XD from Christmas Island
(OC-002)
from 25 October to 4 November, including a SOAB entry in the
CQ WW
SSB DX Contest. [TNX The Daily DX]
VP9 - Steve, W4DTA will be active as W4DTA/VP9 from Bermuda (NA-
005) from
27 October to 1 November. QSL via home call. He will
participate in
the CQ WW DX SSB Contest as W4OV/VP9 (QSL via W4OV)
as a
multi-operator entry. [TNX YV5ENI]
W - Rich, K6YR and Ed, K6SHU plan to operate from Santa Cruz
Island

(NA-144, USI CA-012S) during the W/VE Islands QSO Party on
23-24
October. QSL via qrz.com. [TNX The Daily DX]
XX9 - A joint team of 34 operators from China, Hong Kong and
Macao will
participate the CQ WW DX SSB Contest as XX9C (Multi-
Multi) from
Taipa Island (AS-075), Macao. QSL via XX9BB. The home page
for the
activity is at http://www.arm.org.mo/xx9c/ [TNX VR2ZST]
YB - Hotang, YC0IEM is currently active as YC0IEM/7 from Borneo
(OC-088).
He operates from the QTH of Cleo, YC7SKM. QSL for both via
IZ8CCW,
direct or bureau. [TNX IZ8CCW]
ZA - Martti, OH2BH and Pertti, OH2PM will be in Albania on 26-31
October,
finalizing Project Goodwill Albania (www.za1a.com)
related
activities with the hopes to bring a number of new students
on the
air. They will be accompanied by the IARU folks
assisting the
Albanian Telecom in variety of regulatory issues. Expect
ZA/OH2BH
and ZA/OH2PM to be active during the CQ WW DX SSB
Contest, most
likely in two single-band categories. QSL to their home
calls. [TNX
N4GN]
ZK1_sc - Ronnie, SM7DKF will be active as ZK1DKF from Rarotonga (OC-
013) from
28 October to 1 November and from Aitutaki (OC-083)
on 2-13
November. QSL direct only to SM7DKF (Ronnie Nilsson,
Vaestra
Haeggviksvaegen 12, SE-236 32 Hoellviken, Sweden).
Further
information can be found at http://www.sm7dkf.se/index-info.

From: Emmanuel F. Zambetas
Topic: 1363 Message: 1364

Δηλαδή εννοείς πως το τελικό προϊόν θα πωλείται?
Απλά ερωτώ, διότι τα προγράμματα που αναφέρεις (η γνώση λειτουργίας των οποίων είναι προϋπόθεση για τον beta tester) είναι freeware.

ΞΑΝΑΣΚΕΨΟΥ ΤΟ

Φιλικά ... SV1FZE
Μανώλης

```

To: thegreekhamradio@yahoogroups.com
Subject: [The Greek Ham Radio ] Myhna Âåôá testers needed.
```

Μετά από αρκετή δουλειά (και 3 keyboards) είμαι στα τελευταία σταδία
ολοκλήρωσης μιας έκδοσης Beta του προγράμματος Myhna (η αλλιώς
παπαγάλος).Υπολογίζω πως με 50-60 ώρες ακόμα θα είναι έτοιμο(το
Beta).Για αυτόν το λόγο πρέπει σιγά σιγά να φτιάξω μια εθελοντική
ομάδα για το testing.

Ανακοίνωση

Myhna Βετα testers needed.

Περιγραφή προγράμματος.
Η Myhna είναι ένα utility Voice, που έχει σαν στόχο να βοηθήσει τους
ραδιοερασιτέχνες στο DX'ing και στα contest. Με προηχογραφημένα
Μηνύματα μειώνετε σημαντικά ο χρόνος ομιλίας του χείριστη .

Μερικά από τα futures είναι (μέχρι στιγμής):
1) δυνατότητα μέχρι 5 ηχογραφημένα μηνύματα
2) δυνατότητα Auto CQ (loop) με ρυθμιζόμενο delay.
3) ένα μίνι logger
4) ανάλυση πληροφοριών για το call sign (χώρα , συντεταγμένες κτλ)
5) απεικόνιση στον παγκόσμιο χάρτη
6) export data σε μορφή *.adi και σε σελίδα html (για real time post
στο internet)

Υποχρεώσεις της ομάδας του beta testing.
1) αναφορά τυχόν Bugs που θα συναντήσουν.
2) Να προσφέρουν ιδέες και προτάσεις για να γίνει καλύτερο!
3) Εχεμύθεια

Επιλογή ομάδας.
Αφού γίνει έλεγχος της αίτησης των ενδιαφερόμενων θα ενημερωθούν για
το αν μπορεί να συμμετέχει στην ομάδα. Μερικά από τα κριτήρια

επιλογής θα είναι τα εξής χωρίς να περιορίζονται μόνο σε αυτά….

Προαπαιτούμενες Απαιτήσεις για να γίνει κανείς beta tester.
1) Να έχει διακριτικό SV (*)
2) να ασχολείται ενεργά με το DX
3) να έχει γνώση Η/Υ
4) πνεύμα συνεργασίας με αλλά άτομα.

Επιθυμητές Απαιτήσεις για να γίνει κανείς beta tester.
1) Να έχει βασικές γνώσεις αγγλικών.
2) Να είναι έμπειρος χείριστης προγραμμάτων (logger, mixw κτλ)

(*) αν υπάρχει χείριστης SW με δυνατότητες Dxing (SSB) στα 2M και
άνω θα γίνει δεκτός ο έλεγχος της αίτησης του /της.

Απολαβές για τους συμμετέχοντες στο Beta testing.
Δυστυχώς ο υπεύθυνος του προγράμματος είναι φτωχός…… όποτε ξεχάστε το
FT-1000.
Αυτά που θα γίνουν σίγουρα είναι τα εξής.
1) Δωρεάν χρήση του τελικού προγράμματος καθώς και τα update του
έφορο ζωής.
2) Αναφορά και ευχαριστίες στο τελικό πρόγραμμα για την συμμετοχή στο
Beta Testing.
3) Την ικανοποίηση ότι ήσασταν beta testers ? ????

Ας προσπαθήσουμε να κάνουμε μαζί ΚΑΛΟ Ελληνικό software!

From: sxanthop
Topic: 1366   Message: 1366

Καλημέρα,

Σχεδιάζει κανείς ή κανένα club στην περιοχή 7 να εγκαταστήσει echolink
gate ;

Η περιοχή είναι πολύ δύσκολη για πρόσβαση στα 2m/70cm.

Καλημέρα,

Να πω ένα καλώς ήρθες στον SV2GNX, που έκανε join στην λίστα μας και ελπίζουμε να τον έχουμε κοντά μας για πάρα πολύ καιρό.

Επίσης να σημειώσω οτι αυτό τον τελευταίο καιρό, λόγο qrl δεν βρίσκω πολύ ελεύθερο χρόνο για να στέλνω μηνύματα απο το packet. Ελπίζω όμως σύντομα να βρω κάποια ενδιαφέροντα μηνύματα εκτός των dx-news για να σας κάνω forward.

Συνάδελφοι,
όπως και κάθε χρόνο, έτσι και φέτος η Ένωση Ραδιοερασιτεχνών Δυτικής Ελλάδας, θα συμμετάσχει στο contest cqww ssb 2004. Φέτος το διακριτικό άλλαξε ένεκα του τελευταίου νόμου, από SV1AFA σε SZ1A. Θα χαρούμε πολύ να επικοινωνήσουμε με όλους σας και ιδιαίτερα με τους συναδέλφους από την Κρήτη και τα Δωδεκάνησα , που μας δίνουν και πόντους, αλλά και με όλους τους άλλους που μας δίνουν κουράγιο πρώτα και multipliers μετά. Φέτος κάναμε μια προσπάθεια να έχουμε καλύτερο εξοπλισμό κι έτσι αναμένεται να έχουμε μέχρι την Παρασκευή στημένους 2 σταθμούς, έναν running κι ένα multiplier. Ο κύριος σταθμός θα αποτελείται από ένα icom 756 pro ii, ενισχυτή pw1, κεραία cushcraft x7 για τα 10-20, δίπολα και beverages για τα 40-160. Ο δεύτερος θα έχει το kenwood 850, hygain explorer 10-40, δίπολα 80-160 και uy5zz ενισχυτή(αν χρειαστεί). Όσοι θέλετε να έρθετε επίσκεψη, θα είμαστε στο παλιό αεροδρόμιο Αγρινίου, στις εγκαταστάσεις της Αερολέσχης και γιατί όχι να παίξετε και με τα "παιχνίδια" μας αν θέλετε.
Πολλά 73

UK Amateurs Gain 7.1 - 7.2MHz from 31 October

Ofcom and the Radio Society of Great Britain are pleased to
announce that all necessary procedures required for early access
to the 7.1 to 7.2MHz spectrum for all UK radio amateurs have
been finalised and that access is allowed from 0100UTC on
Sunday 31 October 2004. Early access is granted on a Secondary
(non-interference) basis using a maximum of 26dBW (400 watts) PEP.

Notices of Variation for the Foundation, Intermediate and Full
licences have been published on the Ofcom website.
(orse code modes are used between 7.1 and 7.2MHz. B)
It is recommended that for the time being only voice and M...
and planning issues on 7MHz will be kept under regular review
and will be dependent on the number of administrations granting
early access to this band prior to full Primary access on 29 March 2009.

The RSGB would like to offer its appreciation to all parties
involved in the consultations, in particular the broadcasting
industry, the UK Ministry of Defence, the Radiocommunications
Agency and its successor Ofcom.

Please note that access to the extra 100kHz is only allowed
from 0100UTC, and not midnight UTC, on Sunday morning. Or, put
another way, from 2.00am local time, at which time the clocks
are put back by one hour. Local time will then be 1.00am, the
same as GMT or UTC.

1375. new callsign on Echolink's repeater of Chios.

Yahoo group: thegreekhamradio
Date: 2004-11-01 21:09:33 UTC
From: sxanthop
Topic: 1375   Message: 1375

Καλησπέρα,

Μια απλή παρατήρηση όσον αφορά το echolink της Χίου. Έχει αλλάξει το διακριτικό του gate και απο SV8G-R, έχει πλέον γίνει SZ8XIO-R. Δεν γνωρίζω για ποιό λόγο έχει γίνεια αυτή η αλλαγή...απλά σας ενημερώνω για να μην ψάχνετε στα favorites και δεν βρίσκεται το gate.

From: "SV1BSX" <sv1bsx@yahoo.gr>
Subject: AO-51 Dual FM repeater
```

Ανακοινώθηκε ότι την Τετάρτη, θα ενεργοποιηθεί το 2ο FM Repeater
του AO-51:

```
Nov 3 Experimenters Wednesday

Dual FM Repeater Test

1)FM Repeater, V/U, TXB, 435.300/145.920 with Tone

2)FM Repeater, V/U, TXA, 435.150/145.880 NO TONE
```

'Οπως είπαμε πριν λίγες μέρες, το 2ο FM Repeater είναι ΜΟΝΟ για
σταθμούς "Χαμηλής ισχύος" (Low Power).

Εκπέμπουμε λοιπόν στο 144.880 και ακούμε στο 435.150
(+ - 10KHZ Doppler).

Καλή επιτυχία (ειδικά στον Σπύρο SV2EVS)

Direttore Responsabile IK8MRA

6O - Silvano/I2YSB, Andrea/IK1PMR, Marcello/IK2DIA, Adriano/
IK2GNW,
Beppe/IK2WXV and Riccardo/IZ5BRW will operate with two
stations on
160-6 metres as 6O0G (SSB) and 6O0CW (CW and RTTY) from
Somalia on
3-17 February. QSL 6O0G via IK2GNW (direct) or M5AAV
(bureau); QSL
6O0CW via I2YSB (direct) or M5AAV (bureau). Further
information at
http://www.i2ysb.com/6o/.
"One of the main aims of this DXpedition", Silvano (I2YSB)
says, "is
to bring ham equipment to the Somali radio amateurs,
fostering in a
concrete way the development of amateur radio in the
country. To
this end, we shall donate yagi antennas, verticals, dipoles,
HF and
VHF/UHF tranceivers, power supplies, a laptop, coax and
accessories
for the operation of one or two stations at the local radio
club. We
are investing all our efforts to make such a difficult and
exotic
country regularly active on the bands, so as to provide
all hams
worldwide a better possibility to get a rare new one.
Donations
towards the expenses of the DXpedition and helping
in the
procurement of the equipment to be donated are highly
welcome".

Please contact I2YSB (Silvano Borsa, P.O. Box 45, 27036
Mortara -
PV, Italy; e-mail i2ysb@...) if you are willing to
donate.
[TNX I2YSB]
BY - David, BA4DW will operate as BA4DW/4 from Changdao (AS-146)
on 3-8
November. QSL via home call (David Y. J. Zhou, P.O. Box
040-088,
Shanghai, 200040, China). [TNX BA4DW]
F - Special station TM8RIM is active until 3 November
from the
Charleville-Mezieres area to celebrate the 150th anniversary
of the
birth of French poet Arthur Raimbaud. QSL via F0EHB. [TNX
F5NQL]
FG - Mike, K9NW is active as FG/K9NW from Guadeloupe (NA-102)
until 1
November. He will participate in the CQ WW DX SSB
Contest most
likely as a SOAB entry. QSL via home call. [TNX K9NW]
FH - Gerard, F6BEG will be active as FH/F6BEG from Mayotte (AF-
027) on
1-12 November. Expect activity on 20, 15 and 10 metres CW
and SSB,
generally from 4 to 12 UTC. QSL via home call. [TNX VA3RJ]
I - Several Strange Radio Team (http://www.strangeradioteam.org)
members
- namely HB9DRH, I6YOT, I7OCD,I7YKN, IK8FXX, IK8LIU, IK8MRA,
IK8WCQ,
IK8WEJ, IK8YTG, IV3ZXQ, IW6MKI, IW8EQS, IZ1EGT, IZ7AUH,
IZ7DOK,
IZ7FLP, IZ8EDJ, IZ8EQF, IZ8FZK, LU6FIA will operate as IR8C
during
the CQ WW DX SSB Contest. QSL via IZ8EDJ. [TNX IZ8EDJ]
JA - JO1DPQ is expected to operate from Miyake Island (AS-
008, JIIA
AS-008-006) until 5 November. QSL via home call. [TNX JI6KVR]
JW - Erik, LA2VOA is active (on 80-10 metres mainly SSB) as
JW2VOA from
Bear Island (EU-027), Svalbard until 25 November. QSL via
home call.
[TNX VA3RJ]
KC4_ant- The OPDX Bulletin reports that Chris, N3SIG will be at
McMurdo
Station (K-09 for the Antarctica Award) on Ross Island
(AN-001),
Antarctica from early November until 5 March. The antennas
at the
ham shack were destroyed and Chris will construct a dipole.

He plans
to operate as KC4/N3SIG mainly on 14243 kHz.
KH6 - Currently Max, KH6ZM is concentrating on the low bands
and is
particularly interested in working Europe on 80 and 160
metres
(1820-1835 kHz). Band openings are about 10 minutes long.
QSL via
I0MWI (who has processed all of the direct requests received
so far
for QSOs made up to 13 October). [TNX I0MWI]
LY - Ben, OZ5AAH will operate SSB and CW as LY/OZ5IPA from
Lithauania on
3-8 November. He will also participate in the International
Police
Association (IPA) Contest on 6-7 November (http://ipa-rc.
de). QSL
direct to OZ5AAH; visit http://www.iparc.dk/ for skeds. [TNX
OZ5AAH]
PJ4 - Danny, T93M is active as PJ4/T93M from Bonaire (SA-006)
until 2
November. He will participate in the CQ WW DX SSB Contest as
PJ4J.
QSL via DJ2MX. [TNX DJ2MX]
PY_ssh - Lunkes, PT2HF (Antarctic Award Checkpoint for Brazil) and
Stuckert,
PT2GTI were due to leave on 27 October onboard the
Brazilian Navy
ship "Ary Rongel" [425DXN 702]. They will operate as
ZX0ECF and
ZX0GTI respectively from the Brazilian station "Comandante
Ferraz"
(AA PY-01) on King George Island, South Shetlands (AN-010),
starting
on 11-12 November until the 17-18th. Depending on local
conditions,
they will be active on 160-6 metres SSB, CW, RTTY, PSK31
and SSTV.
QSLs via PT2GTI. [TNX PY2HS and PS7AB]
V6 - Reports from Japan indicate that Shoji, JA7HMZ (V63DX)
will
participate in the CQ WW DX SSB Contest as V6A (not
V63B as
previously announced, 425DXN 703). He will operate from
Pohnpei
(OC-010), Micronesia; before and after the contest (on 29
October
and 1-3 November) he will concentrate on working Europe
on 160
metres CW: look for him between 18.30 and 19.30 UTC on +/-

1828 kHz.
QSL via JA7AO. [TNX JA7KAC and JA7ZP]
VK - Johan, PA3EXX has changed again the itinerary of his
IOTA trip
[425DXN 702]. He will operate as VK4WWI/8 from North Island
(OC-198)
on 30-31 October and from the Bremer Islets (OC-185)
on 1-2
November. His other two activities - from Sweers Island (OC-
227, 3-4
November) and the unnumeberd Marion Reef (8-12 November)
- are
confirmed and still on schedule. [TNX PA3EXX]
VP2E - Bill, W5SJ will operate as VP2EJ from Anguilla (NA-022)
on 5-11
November. He will be active on 80-6 metres mostly CW,
with a
particular emphasis to be placed on 6m. QSL via W5FO. [TNX
W5SJ]
VP8_so - Mike, GM0HCQ (VP8CMH/mm from onboard the RRS "James Clark
Ross")
[425DXN 697] arrived at Signy Base (G-05 for the Antarctica
Award)
in in the South Orkneys (AN-008) 28 October. He plans to be
active
as VP8SIG in his spare time, but he does not anticipate
operating
before 30 October. Mike is aware of the contest scheduled
for this
weekend, and he will do his utmost to operate on the WARC
bands. QSL
via GM0HCQ, direct or bureau. Regular updates are
posted at
http://www.gm0hcq.com/jcr_update.htm
W - Bob, N4BP and Nelson, NE4LS will operate as homecall/p from
Garden
Key (USI FL-013S), Dry Tortugas (NA-079) on 12-14 November.
Activity
will be QRP CW on 20 and 30 metres. QSL via home calls. [TNX
VA3RJ]
XE - Porfirio, XE1HPT and other operators from Mexico will be
active on
all the HF bands CW and SSB as 6F1IHF from Ixtapa Island (NA-
183) on
6-13 February. QSL via XE1HPT (Porfirio Lomeli, P.O. Box
7177,
Morelia, Mich 58262, Mexico). [TNX XE2AC]
YA - Rene, DL2JRM is active again as YA7X from Afghanistan
until 17
November. He operates on 160-10 metres SSB and CW. QSL via

DL1JJI.
ZK1_sc - Dave, W6AQ will operate as ZK1AQT from Rarotonga (OC-013), South
Cook Islands until 4 November, CQ WW DX SSB Contest included. QSL
via W6ORD. [TNX The Daily DX]

1379. ΓΙΑ ΤΗΝ ΜΑΚΕΔΟΝΙΑ ΡΕ ΓΑΜΩΤΟ

Yahoo group: thegreekhamradio
Date: 2004-11-05 11:18:02 UTC
From: Emmanuel F. Zambetas
Topic: 1379 Message: 1379

Αγαπητοί συνάδελφοι,

Μετά από τον ενορχηστρωμένο, από τις Ηνωμένες Πολιτείες, σφετερισμό του ιστορικού και καθ'όλα ΕΛΛΗΝΙΚΟΥ ονόματος «ΜΑΚΕΔΟΝΙΑ», είναι αναπόφευκτο να μας έρχονται ορισμένες σκέψεις στο μυαλό.

1. Η επιτηδευμένη διαστρέβλωση μιας ΙΣΤΟΡΙΚΗΣ ΑΛΗΘΕΙΑΣ είναι πια γεγονός.

2. Γεγονός είναι η de facto θέση μας (ως Έλληνες) όσον αφορά στην Ελληνικότητα του ονόματος «ΜΑΚΕΔΟΝΙΑ».

3. Γεγονός είναι η ΕΛΛΗΝΙΚΟΤΗΤΑ της ΜΑΚΕΔΟΝΙΑΣ.

4. Γεγονός είναι το ότι η πολιτική σκοπιμότητα της αναγνώρισης των Σκοπίων δεν αλλάζει την Ιστορική πραγματικότητα

- Εμείς, ως ραδιοερασιτέχνες, είμαστε στην προνομιακή θέση να μπορεί η φωνή μας να ακούγεται στα πέρατα της υφηλίου.

- Έχουμε την μοναδική δυνατότητα να μπορούμε να μεταφέρουμε (μέσω της φωνής μας) τις θέσεις μας, ως Έλληνες, στα πέρατα του κόσμου.

- Έχουμε την μοναδική ικανότητα της απ'ευθείας ενημερώσεως της κοινής γνώμης εκτός Ελλάδος σχετικά με τη κατάφορη αδικία η οποία διαπράττεται

κατά της χώρας μας.

- Έχουμε την ΥΠΟΧΡΕΩΣΗ ως ΕΛΛΗΝΕΣ να διατρανώσουμε στα πέρατα της ανθρωπότητος την απέχθεια του απανταχού την υφήλιο Ελληνισμού για τον

παρά-φύση βιασμό της ιστορίας του τόπου μας.

- Έχουμε την ΥΠΟΧΡΕΩΣΗ ως ΕΛΛΗΝΕΣ να αποκαταστήσουμε την απλή αλήθεια «Η ΜΑΚΕΔΟΝΙΑ ΕΙΝΑΙ ΕΛΛΑΔΑ».

Αγαπητοί μου συνάδελφοι,

* Προτείνω, άμεσα, να πιάσουμε χειριστήρια και μικρόφωνα και να τα 'λειώσουμε' μεταδίδοντας την αλήθεια με ένα απλό μήνυμα

στον κόσμο, σε κάθε άνθρωπο με τον οποίο κάνουμε QSO, «Η ΜΑΚΕΔΟΝΙΑ ΕΙΝΑΙ ΕΛΛΑΔΑ»

* Προτείνω την αίτηση στο υπουργείο (από τους αρμόδιους φορείς όπως ΕΕΡ, ΕΡΒΕ κλπ) για έκδοση ΕΝΟΣ ειδικού διακριτικού (όπως αυτό που είχαμε στους

Ολυμπιακούς) το οποίο θα είναι στον αέρα ΚΑΘΕ ΜΕΡΑ, ΚΑΘΕ ΩΡΑ, τελειώνοντας κάθε QSO με την αλήθεια : «Η ΜΑΚΕΔΟΝΙΑ ΕΙΝΑΙ ΕΛΛΑΔΑ»

Περιμένω προτάσεις από εσάς.

Μετά τιμής

Ζαμπέτας Εμμανουήλ, SV1FZE

Αν έχετε γρήγορη γραμμή στο ιντερνετ οι συνάδελφοι έχουν ένα μηχάνημα στο Ιράκ το οποίο μπορείτε ΔΩΡΕΑΝ να το τηλεχειριστείτε από το σπίτι σας!
Η ομιλία περνάει με Voice Over IP!!

Μπορείτε να "παιξετε" στη διεύθυνση http://www.lamonica.com/ και καλά DX!

1384. Solar Storm

Yahoo group: thegreekhamradio
Date: 2004-11-08 08:29:49 UTC
From: SV1BSX
Topic: 1384 Message: 1384

Strong auroral activity can be seen here at 0434 UTC 11-08

MIDDLE LATITUDE AURORAL ACTIVITY WATCH UPGRADED TO A WARNING
Issued: 20:15 UTC on 07 November 2004
Solar Terrestrial Dispatch
www.spacew.com

VALID BEGINNING AT: EFFECTIVE IMMEDIATELY
VALID UNTIL: 23:00 UTC (6 pm EST) ON 10 NOVEMBER

HIGH RISK PERIOD: 07-08, THEN 09 NOVEMBER (UTC DAYS)
MODERATE RISK PERIOD: 07-10 NOVEMBER

PREDICTED ACTIVITY INDICES: 30, 45, 60, 30 (07 NOVEMBER - 10 NOVEMBER)

POTENTIAL MAGNITUDE OF MIDDLE LATITUDE AURORAL ACTIVITY: MODERATE TO HIGH

POTENTIAL DURATION OF THIS ACTIVITY: MAIN BELT = 12 HOURS
MINOR BELT = 18 - 24 HOURS

ESTIMATED OPTIMUM OBSERVING CONDITIONS: NEAR LOCAL MIDNIGHT

EXPECTED LUNAR INTERFERENCE: LOW AFTER LOCAL MIDNIGHT

OVERALL OPPORTUNITY FOR OBSERVATIONS FROM MIDDLE LATITUDES: FAIR TO GOOD

AURORAL ACTIVITY *MAY* BE OBSERVED APPROXIMATELY NORTH OF A LINE FROM...
(THIS LINE IS VALID *ONLY* IF FAVORABLE STORM CONDITIONS OCCUR)

NORTHERN FRANCE TO CENTRAL GERMANY TO CENTRAL POLAND TO BELARUS TO
CENTRAL
RUSSIA.

SYNOPSIS...

A moderately strong solar disturbance impacted the Earth near 18:27 UTC
on 07 November. This disturbance was larger than anticipated and is
producing
periods of enhanced auroral activity. More significant storm-level auroral
activity is expected over the next 12 to 18 hours as this disturbance
matures. Widespread observations of auroral activity may be possible
tonight.

Another potentially strong disturbance could arrive on 09 November.
Analysis of the solar event is still in-progress. We expect the latter half
of the UTC day of 08 November to be less active and then pick up again when
this next disturbance arrives.

This warning will remain valid through 23:00 UTC (6 pm EST) on
10 November. It will then be updated, downgraded to a watch or allowed to
expire altogether. For updated information, visit:
http://www.spacew.com/aurora/forum.html. For real-time plots of current
activity, visit: http://www.spacew.com/plots.html

PLEASE REPORT VALID OBSERVATIONS OF AURORAL ACTIVITY TO:
http://www.spacew.com/submitsighting.html

** End of Warning **

Latest Geomagnetic and Auroral Activity
Updated: 13:35 UTC 07 Nov (10:35 am EST, 07 Nov)

A second stronger interplanetary coronal mass ejection disturbance arrived
near
10:50 UTC today. The disturbance has the potential to produce periods of
minor to perhaps brief major geomagnetic storm activity over the next 24
hours.
There is a notable chance for auroral activity observations across fairly
widespread mid-latitude regions. A middle latitude auroral activity watch
remains
active

Solar Activity Update

Region 10696 remains volatile, with a strong delta configuration imbedded
within a dominantly east-west oriented neutral line. Occasional major M
and/or
X-class flares are expected from this region over the next 72 hours.
Earthward-
directed coronal mass ejections are also probable during this time period.

1388. KYNHGOI STA UHF ?

Yahoo group: thegreekhamradio
Date: 2004-11-13 09:34:42 UTC
From: sxanthop
Topic: 1388   Message: 1388

Καλημέρα.

Κάνοντας ένα σκανάρισμα στην μπάντα των uhf πριν απο λίγο, εντόπισα ένα λίνκ στην συχνότητα 432.450 με υπότονο (στην εκπομπή) 88,5.

Απο οτι ακούω απο την συζήτηση, μάλλον πρόκειται για κυνηγούς. Στην δυτική πλευρά της Θεσ/νίκης το λίνκ αυτό, ακούγεται 1 μονάδα (σε αντίστοιχη κεραία της Χ510).

Ας το δει κάποιος που το ακούει καλύτερα και ας ενημερώσει τους "έξυπνους" αυτούς κυρίους να αλλάξουν συχνότητα.

73 de SV2EVS

Υ.Γ Δεν άκουσα callsigns καθόλου και το όλο θέμα ήταν για το που πήγαν τα θυράματα και προς τα που ήταν ο ένας και ο άλλος. Ίσως είναι 2 άτομα που βγήκαν για κυνήγι και έκαναν ένα mobile link όπου τους κατέβηκε. Δεν νομίζω πάντως να πρόκειται για συναδέλφους.

1389. NEO ECHOLINK Repeater.

Καλησπέρα,

ΜΟΛΙΣ εντώπησα ένα καινούργιο Echolink REPEATER. Είναι και αυτό απο τον SV1BDS και είναι το SV1BDS-R. Βγαίνει στην συχνότητα του RU1 της Αθήνας με υπότονο 88.5. Ο Επαναλήπτης είναι εγκατεστημένος στον Υμηττό, δεν γνωρίζω τι υσχή έχει αλλά απο ότι μου είπαν, πρέπει να έχει 10-15w.

Το echolink gateway repeater μπορείτε να το επισκευτείτε χρησιμοποιώντας το dtmf number 69276 απο το τοπικό σας gate.

Εν αναμονή και για κάποιο άλλο επαναλήπτη στην επικράτεια λοιπόν...

Κώστα έχεις δίκιο, γι'αυτό και εγώ ζήτησα αν κάποιος το ακούει αυτό το λίνκ να δει πως το ακούει στην περιοχή του. Είναι γνωστό το πρόβλημα με τους πειρατές και δύσκολα θα αλλάξουν τα πράγματα...ας ελπίσουμε οτι θα "μειωθούν" τα κρούσματα με τις καινούργιες άδειες. ʼλλωστε, αυτός δεν είναι και ΕΝΑΣ απο τους πολλούς λόγους που τις "έδωσαν" ;

Καλησπέρα,

Συμφωνώ μαζί σου, το θέμα είναι οτι δεν υπάρχει η κατάλληλη επιτήρηση των συχνοτήτων κατά την γνώμη μου. Ίσως θα έπρεπε να υπάρχει κάποιο τμήμα απο την ΕΕΤΤ για να ακούει κατα κάποιο τρόπο τις συχνότητες και να προσπαθεί να βάλει κάποιο είδος "τάξης".

Και φυσικά εμείς, θα έπρεπε να τηρούμε το band plan ποιο πολύ...Φυσικά τα πράγματα σκουραίνουν τώρα με τα περισσότερα άτομα που είναι στον αέρα αλλά πιστεύω οτι πάλι μπορούμε να βρούμε μια άκρη.

Πουλάω δυο από τα αγαπημένα μου μηχανάκια.
Είναι τέλεια και τα δυο σαν καινούρια....

Yaesu FT 90 R mobile vhf (50w)-uhf(35w) ένα κουκλάκι σε άψογη κατάσταση στο κουτί του, αγορά δεκέμβριος 2003 (ούτε χρόνος) και το άνοιξα να παίξει τον Αύγουστο... Στο Hamfest της Λάρισας το είδα να πωλείται καινούριο 450 ευρώ. Εγώ το δίνω 300 ευρώ χωρίς παζάρια...

TNC AEA PK-900 ίσως το καλύτερο (;) tnc που βγήκε σε τέλεια κατάσταση, αψογότατο, στο κουτί του. Ένα κόσμημα για το shack με την lcd οθόνη του, περισσότερο έκανε μόστρα, αν και ξέρω ότι θα μετανιώσω που το δίνω γιατί θα γίνει συλλεκτικό κάποια στιγμή.... μόνο 220 ευρώ

Δεν ήθελα να τα δώσω αλλά πείστηκα, αναγκάστηκα προκειμένου να επενδύσω σε μεγαλύτερο εξοπλισμό.. (το λένε all mode και δορυφορικά...)
(έδωσα άλλο ένα vhf ήδη κάνοντας έναν ευτυχισμένο ραδιοερασιτέχνη.)

From: sxanthop
Topic: 1398 Message: 1398

Καλησπέρα (τρόπος του λέγειν) σε όλους,

Γυρνώντας σήμερα το μεσημέρι και αφού έφαγα μεσημεριανό αποφάσισα ως συνήθως να ανέβω στο shack. Και δυστήχως έπαθα το shock της ζωής μου. Η v/u κεραία μου ήταν "λυγισμένη" απο το πρώτο στοιχείο τις (3 στο σύνολο) σαν να πέρασε κάποιος με φλόγιστρο και τιν έλιωσε επίτηδες. Μπορείτε να την δείτε στο link με τις photos απο την σελίδα του yahoo group σαν u/v 300 down.

Δυστηχώς, θα χρειαστώ κεραία. Ελπίζω μόνο να μην έπαθε τίποτα το D700 μου, γιατί το είχα αφήσει απο το πρωϊ στο aprs και δεν ξέρω πότε έπεσε η κεραία. Εκπομπή έκανε κάθε μισή ώρα φυσικά, αλλά πάλι..σίγουρα είχε φουλ στάσιμα... :_(

To : DX@WW

Owing to the growing number of subscribers, the 425 DX News Mailing Lists are having serious problems beyond our control, and there is a fairly high risk that they simply stop working.

We are now working on widening the number of volunteers involved in the time consuming mailing list and web site administration, in order to provide the reliable service our readers used to enjoy.

At all events, 425 DX News continues being compiled and made available on the PacketCluster and via the DX Mailing Lists. Thanks to an agreement with the Mediterraneo DX Club, the more recent issues of 425DXN (from #700 onwards) can be found on the MDXC's web site at http://www.mdxc.org

Moreover the MDXC has organized a mailing list for receiving the bulletin as you were used to. Those who want to subscribe to this new mailing list can either subscribe direct from the URL above (see the Mailing List column on the right) or send a message to mediterraneodxclub@yahoogroups.com: write subscribe (or unsubscribe) in the subject line and leave the body of the message blank.

We should be grateful if you could pass the information on to 425DXN subscribers of your knowledge.

Thank you for your patience and continuing support,

Best 73,

Mauro, I1JQJ

From: sxanthop
Topic: 1406 Message: 1406

Καλησπέρα σε όλους,

Καθώς έψαχνα να βρω το echolink gate του Αγρινίου γιατί μου ζήτησε ένας φίλος της πληροφορίες για το πως να συνδεθεί, είδα με χαρά οτι έχει μετατραπεί απο -L σε -R και εγκαταστάθηκε στο R2 του Αγρινίου.

Αυτό είνα πολύ ευχάριστο και απο οτι βλέπω πολλοί σύλλογοι έχουν αρχίσει να βάζουν κάποιους επαναλήπτες στο echolink, δίνοντας έτσι την δυνατότητα να έχουμε πρόσβαση σε περισσότερο κόσμο στα 2m.

Θα ήταν βέβαια καλό να υπήρχε η σχετική ενημέρωση απο κάποιον/κάποιους, για να μην το ψάχνουμε...αλλά αν δεν το ψάχναμε θα μου πείτε δεν θα το βρίσκαμε...hi.

Η Inter Engineering σε συνεργασία με την F-Secure προειδοποιούν τους χρήστες για την μετάδοση ενός καινούργιου ιού τύπου worm ο οποίος εμφανίζεται ως Χριστουγεννάτικη Κάρτα σε ηλεκτρονική μορφή.

Ο ιός, γνωστός ως Zafi.D, μεταδίδεται μέσω μηνυμάτων ηλεκτρονικού ταχυδρομείου τα οποία είναι γραμμένα σε διάφορες γλώσσες ανάλογα με την διεύθυνση του παραλήπτη. Η Χριστουγεννιάτικη ευχή μπορεί να είναι γραμμένη στα αγγλικά, ιταλικά, ισπανικά, ρωσικά, σουηδικά και άλλες γλώσσες.

Το μήνυμα είναι μια απλή χριστουγεννιάτικη ευχή όπως η παρακάτω:

```
Sender: Pamela M.

Subject: Merry Christmas!

Happy Hollydays!
```

Το μολυσμένο επισυναπτόμενο αρχείο μπορεί να είναι .pif, .cmd, .bat, ή .com. Καλημέρα και καλό Σαββατο-Κύριακο.

Να καλως ορίσουμε τον συνάδελφο SV2BOA στην λίστα μας και να του ευχηθούμε καλη διαμονή εδώ.

Έχω καιρό να δω μηνύματα και στις 2 λίστες. Ίσως να μην υπάρχει και ο ελεύθερος χρόνος για να καθήσει κάποιος να γράψει κάποια πράγματα.

Ελπίζω όλοι να είστε καλά.

1414. Χρόνια πολλά και καλές γιορτές !

Yahoo group: thegreekhamradio
Date: 2004-12-24 11:13:39 UTC
From: Yiannis
Topic: 1414   Message: 1414

Αγαπητοί συνάδελφοι και μέλη αυτού του
"κυβερνοχώρου" (...καλό,
ε;), εύχομαι χρόνια πολλά και καλές γιορτές
σ' εσάς και τις
οικογένειές σας. Δοθείσης της ευκαιρείας, θα
ήθελα να συλλέξω
πληροφορίες σχετικά με τις κεραίες "EH" (cobra 40,
7-7.100 MHz) για
τη βέλτιστη απόδοσή τους. Πολύ πρόσφατα απόκτησα
μία του παραπάνω
τύπου, αλλά πριν εκφράσω (βιαστικά) αρνητική
άποψη θα 'θελα να είμαι
βέβαιος ότι όλα είναι OK από μέρους μου.
Είναι τοποθετημένη σε ύψος
3 μέτρων επάνω στην κεραμοσκεπή μου και σε
απόσταση περί των 4-5
μέτρων από τον 8μετρο πύργο ο οποίος
φιλοξενεί την cushcraft A4S. Η
κάθοδος είναι περί τα 10 μέτρα και καταλήγει
στο TS 870. Καλό το
manual αλλά καλύτερες οι όποιες εμπειρίες...
Με φιλικούς χαιρετισμούς, sv2gww.

1418. a thank you msg from packet

Yahoo group: thegreekhamradio
Date: 2004-12-26 14:29:38 UTC
From: sxanthop
Topic: 1418   Message: 1418

From: G4WYW@GB7FCR.#16.GBR.EU
To : ALL@WW

Thanks for downloading and reading this brief message, which is to
thank
you all for your contributions to packet.

It can mean so much to so many who may be housebound and brings news
and
useful information about so many things. Above all, packet brings a
sense
of belonging and although we all may hold differing opinions of
things,
we all surely share in this sense of belonging.

All of the Sysops throughout the world, in particular, deserve a very
big
"Thank You" for keeping the whole thing running and for shifting
bulletins
and messages around the globe.

I wish you and your families, Seasonal Greetings and a Very Peaceful
time
with renewed hope for a better New Year in 2005...

From the CQ Public Service News Desk

A 9.0 Earthquake originating in the eastern Indian Ocean hit the southern Asia coast and as far west as Somalia on the African coast. The effects of the earthquake were felt very strongly in India and tsunami waves have caused problems in the Andamann Islands and several other nations. Early estimates indicate that over 13,000 people have been killed in several southeast Asia countries. The death total is expected to rise.

Emergency communications have been established on 14.195 and 21.295. The VU4 emergency net is operating on 14.193 and the South Indian Hams are on 7.050. 4S7SW, a doctor in Mathara, told Ram, VU3DJQ, that telephones were out and he was requesting food, clothing, and medicine.

Operators of the Dxpedition Station VU4RBI are apparently ok, however it has shut down it's DX operation and is now operating under low power and providing emergency communications.

Amateur Radio Operators are no stranger to disasters over the Christmas Holidays. On Christmas Day, 1974 Darwin, Australia was hit by Cyclone Tracy.

Radio Amateurs, DXpedition Team Handle Emergency Traffic in Disaster's Wake
----

NEWINGTON, CT, Dec 27, 2004--Here is an update on the current situation in India, the Andaman and Nicobar Islands and Sri Lanka, with thanks to The Daily DX, courtesy of its editor Bernie McClenny, W3UR, and from Horey Majumdar, VU2HFR: News agencies now report estimates of more than 21,000 feared dead from the tsunamis (tidal waves) that took place in the Bay of Bengal December 26. The estimated death toll in the Andaman and Nicobar Islands ranges from 2000 to 5000. VU2HFR reports that radio amateurs in India are handling hundreds of pieces of health and welfare traffic regarding people missing and from relatives of those living in Andaman and Nicobar Islands,

which are closer to the earthquake's epicenter.

"There is presently no communication from Nicobar Islands," Majumdar reports, noting that Nicobar received more damage than Andaman. McClenny says the VU4RBI/VU4NRO DXpedition team continues to pass traffic and occasionally hand out QSOs. C. K. "Ram" Raman, VU3DJQ, reports he was in contact with Sarath, 4S7SW, a physician operating from the vicinity of a hospital in Mathara, Sri Lanka, which also was heavily hit by the tsunamis. "He is requesting food, clothing and medicines for relief," Raman reported. "He will be listening 14.195 and 21.295." Telephones are not working there, he said.

McClenny and Majumdar agree that it was fortuitous that the VU4RBI/VU4NRO DXpedition was under way when the disaster struck. "If there is a positive aspect to this disaster, it may very well be that the Indian government--and others--realize the ability of Amateur Radio during these difficult times," McClenny observed.

The initial earthquake off the Indonesian Island of Sumatra just before 0100 UTC on December 26 now has been upgraded to 9.0 on the Richter scale. Since then, the National Earthquake Information Center has reported some 18 aftershocks split between the Andaman and Nicobar Islands. The most recent, just before 0100 UTC today, registered 6.1 on the Richter scale.

Sandeep Baruah, VU2MUE, reports two emergency frequencies have been established. VU4NRO, the team at Port Blair, will be QRV on or near 14.190 MHz. The club station VU2NRO in Hyderabad on the mainland will relay traffic to and from Port Blair.

Other emergency traffic frequencies being reported include 14.193 and 14.160 MHz in the Andaman and Nicobar Islands, 7.050 MHz in South India, 7.055 MHz in Indonesia and 7.075 in Thailand, where stations from 4S7, VU2 and 9M2 were reportedly heard.

D.V.R.K. Murthy, VU2DVO,and Jose Jacob, VU2JOS, are now in Port Blair. Reports indicate that some telephone lines are now working, but there still is no water or electricity at the Hotel Sinclair, where the VU4 DXpedition was headquartered.

In the Andaman and Nicobar Islands, the most devastated area is Car Nicobar, which has been totally cut off. It is possible that Amateur Radio operators may travel to this area after obtaining clearance from local authorities. Club station VU2NCT and VU2MUE in Calcutta all are helping with the efforts to pass emergency traffic to Port Blair.

Baruah is operating club station VU2NCT in coordination with the National Disaster Control, New Delhi. The Calcutta VHF Amateur Radio Society has set up a control station from Calcutta. Majumdar is operating that station and has been in touch with

VU4RBI in the Andamans.

Charly Harpole, K4VUD, who had been visiting the VU4RBI/VU4NRO operation and filing regular reports via The Daily DX now is reported back on the Indian mainland.

Majumdar also tells ARRL that hams from Bangalore and Chennai on the Indian mainland are moving toward Nagapattinam to set up ham radio disaster communication stations at Nagapattinam in Tamil Nadu--the worst-affected areas on the mainland. The Indian Army is assisting stations on Andaman by providing logistics and backup batteries.

Majumdar says radio amateurs from Bangalore, Chennai and other parts of South India are trying to set up stations in the affected areas of Tamil Nadu.

James Brooks, 9V1YC, provided additional information via The Daily DX. He says Andaman and Nicobar Islands authorities have asked the DXpedition team for relief communications help. They have requested one station at the deputy commissioner's office in Port Blair and another on the remote Nicobar Islands. VU2RSB will be manning the station at the deputy commissioner's office in Port Blair, and VU2RSI will staff the station at the current DXpedition site until further notice.

He reports the Indian Army will be flying VU2MYH and VU2DVO out to the Nicobar Islands with three days' food, a rig, batteries and an inverted V.

The VU4RBI/VU4NOR team was allowed back into the damaged hotel building and Bharathi Prasad, VU2RBI, "is bravely operating on the fifth floor using the Yagi" despite continued aftershocks. Telephones in the building are also working again.

Commercial power is returning slowly, but the DXpedition team continues to use battery power most of the time.

The DXpedition has been suspended, but VU2RBI still is promising to hand out the contacts once emergency communications work is finished. The team has asked authorities for an extension of the DXpedition, but so far this has not been granted. "This decision may change, due to the relief communications work they are supplying," Brooks said. Bharathi Prasad, VU2RBI, will be leaving on January 1 regardless, he reports, and if any time extension is granted VU2RSB and VU2MYH will remain for an additional week, possibly longer.

Here in the US, the Salvation Army Team Emergency Radio Network (SATERN) has been monitoring HF frequencies for news and information in an attempt to assist with emergency communications as needed.--additional information from K2FF, VA3ORI and WA6KAH

WIA News - Asian Tsunami
December 2004 and for the month the world was trying for and working
A DX-Pedition in the Bay of Bengal, north east of Sri Lanka.
Yes for the first time in some 17 years VU4 was "on the air".

Thousands of miles away, just off Indonesia the plates glowed!

No not your average Ham Radios Finals, but the earths plates moved,
an earth quake produced a tidal wave or Tsunamis which raced across
the world, from Exmouth on the VK6 coast to 6O Somalia.!

The VU4 Andaman Islands were one of the close land areas to the
epicentre of the earthquake which apparently set off multiple
aftershocks and several tidal waves (tsunami) which killed over
80 thousand people in the area. Hard hit VU, VU4, 9M, 4S, 8Q, YB, HS.

VU4 is a barren Island and herself is the home of the only active
volcano in India.

(audio courtesy vu2pop)

Multiple sources reported a VU4 DXpedition YL, Bharathi, on the air
several hours after the quake and tsunami. VK6APK, Alex, heard her
around 1000Z and she was reporting "there is no electricity or telephone
communication. All of the team SAFE, but the islands are accounting
for about a third of India's death toll.."

Bharathi is being touted in the VU mainstream press as
Andaman's 'Angel of the Seas'. In fact a grateful Indian army is supporting
46-year-old Bharti Prasad with gear and batteries as the Delhi-based
housewife has networked ham operators across the nations to reunite
families and help in relief and rescue operations.

"When the tidal waves struck, we just turned the beacon towards India and
since then, we have been flooded with messages," she said.

"Bharti, we are now on air. You take care. You are the Angel of the Seas.
Without you out there, rescue will halt," a voice from Indonesia crackled
in her hotel room, badly-damaged by Sunday weeks devastation.
(pactor posting supplied)

VK1WIA News spoke with Sandeep VU2MUE in India, (audio interview)

Dear OM GRAHAM KEMP, VK4BB
Sorry for the delay. My office Internet was down. Forwarding
this e-mail from VU2UKR (Sunil) from my home now.
Hams from India are handling emergency traffics continuously...
Best 73 -Sandeep, VU2MUE

Contact with VU4RBI [Port Blair] established from New Delhi [VU2UKR]
General Information passed are:-
1: People being evacuated from Nicobar Region to Port Blair.
2. Port Blair Area Safe
3. Ships/ Boats not Allowed to venture - So only means is by AIR.
4. Power supply resumed in Port Blair Area, Many Phone Lines Working,
Drinking WATER is scarce.
5. Nicobar is badly affected, Communications is a total failure in Nicobar
Area.
6. Coastal Areas of Nicobar totally washed off. At Head Quarters all are
safe.

HAM Radio Station set up at Nicobar [VU2MYH / VU2DVO] .
They are able to have DIRECT contact with VU4RBI in Port Blair [D C Office /
Administration] on 40 Meter band [7.090 / 7.095 MHz] On 20 meter the
Frequency is 14.191 MHz.

Messages of Welfare being exchanged with VU4 and VU2 main land via HAM radio.
There are a Lot of HAM radio Station from the Main Land in support for the on going emergency communications.
PSK31 was used during times of QRM.
Various HAM stations on Stand by heard at Delhi on 14 MHz, To name a few :-
VU2HFR (om Horey) , VU3DJQ (om Ram), VU3CYL (YL Sindhu),
VU2MUE (om Sandeep), VU2MY (om Suri), VU2AF (om Adolf),
VU2WMY (om Mani) , VU2PEB (om Pradeep) , VU2WAP (om Miku) VU2GHX.
HAMS in South India, are being asked to keep watch on the emergency Frequency 14.191 MHz and 7.090 MHz and stand by !

Arasu VU2UR sends more..
Dear Graham,
Thanks for the mail and your concern about our welfare.
I am OK. But, seeing the visuals and hearing the descriptions on the radio, it is unbearable tragedy indeed to all of us.

VU4NRO is operating from the Collectors Office in Port Blair.
VU4RBI is QRV from Sinclair Hotel 5th Floor.
VU4MYH is QRV from Car Nicobar Is. They can be heard on 14190.8,14200,7095 kHz.
More than anything, personnel are needed to dispose of the bodies in a mass grave or mass cremation, as the delay in this causes, epidemics to raise their ugly head. Potable drinking water, medicines and shelter are the other priorities.

And in the midst of this post apocalyptic tragedy Arusu VU2UR Still managed to sign with a " Best wishes to all, 73, HNY 2005, de Arasu VU2UR".

(audio net courtesy vu2pop)

From the dxld group, from Samut Sakhon, Thailand, about 50 miles south south west of Bangkok is HS0ZCW who is in direct contact with VU4RBI and VU4NRO as well as stations in India and 4S who have called in from time to time. VU4 is readable by him on both 40 SSB and 20 m almost all any day or night.

1. Bharathi is continuing to operate in emergency communication mode now and has done so virtually every minute since the earthquake shook us all out of out rooms. She and Saraha set up one of the DXpedition radios about 30 minutes after the quake on a table outside the hotel... in the garden...with a mobile whip and the hotel's generator for power. When the generator had to be shut down for an hour from time to time, she used an automobile battery and lower power.

2. Local authorities ask for the team's help to do communications of all kinds. The first messages were H&W from the folks standing around the table to the India mainland. Many concerned people got news from loved ones, often within minutes because the India mainland phones were working ok (except parts of the coast, of course). Once word spread, many others showed up to request a message and were served.

3. Recently, Ram (VU2MYH) and another of the team were despatched to one of the Nicobar Islands that was hard hit. They are there now and I am listening to them pass messages now as I type this. They are using VU4NRO and batteries and one of the DXpedition radios.

4. Bharathi's Port Blair location has electric power, local phones, and some international phone service now. Despite continuing small tremors, she has recently relocated her station back into the Hotel and is using the larger antennas again.

5. A small tremor was reported just now from Port Blair. No damage.

6. Normal DXpedition operations have been, of course, suspended. Please do not call VU4 stations unless they call you. The future of normal DX ops is in doubt for the time being, as u can understand. We must think months, at least, before we can relax into the fun of DXing there again.

7. Delivery of H&W messages is vy difficult. Please do not ask for same unless the party is likely to have a real problem, such as disabled or on medication, I would advise.

8. Based on what I have heard, Sri Lanka 4S may be in the most trouble these days... horrible reports are coming out of the immediate events and now the recovery is bedevilled with lack of everything.

EVERYONE, BE VERY CAREFUL TO REPORT ONLY WHAT YOU DIRECTLY KNOW ABOUT. DO NOT REPORT ANY DEATHS AT ALL NOR ANY INJURIES BY NAME TO THE NEWS NOR TO THE GENERAL PUBLIC. THAT IS THE AUTHORITIES JOB. Make your reports to legit authorities instead, or quote another public news source. Think about donations to established organizations like the Red Cross, Salv. Army, etc. as a way to help. Thanks to all for your notes of concern for the team and myself.

73, Charles Harpole k4vud@...

Your tuned to VK1WIA the Wireless Institute of Australia.

Many of our Nautical friends will know of the great work done by Mike Pilgrim K5MP
and his Boat Watch Net which relies heavily on the WINLINK program.

(audio interview k5mp)

In a future issue we will look at this group in detail, but for now suffice to say from contacts at the WINLINK network we can report as of this hour to over 40 mariners in the affected area of the Tsunami have reported in that they are safe:

Due to space and time constraints, the information listed here is without any reported details.

AA1SA, AB8HP, AC7QK, DH1MZ, DH2SU, DL1YJI, DL6YDX, HB9BSB, HB9DTQ
KB3IUG, KC0LGO, KC5MNL, KD7PND, KD7SVT, KD7SVU, KF4PHC, KG6CWR,
KG6HFI, KG8NG, KH7NL, KM9D, KO4YI, LA8JIA ,M0BKR, N1MQZ, N3VEY, N6BYZ,

N9GFT, NH6AX, PA2ALK, SM5GNI, TJ2MO, VE0ME, VE0MXA, ZL1JCB.

One graphic description follows, supplied by Mike.

"We're ok but 6 people died in Nai Harn Beach where we were. 2 locals died in the beach restaurant we frequent and had dinner on xmas eve. All the small restaurants gone.
Was scary. I had almost gone for a swim 5 minutes before it hit.
I would have been a goner. We were only 100 yards from a rock wall and anchored near many other boats. Was mostly concerned we would drag anchor and hit the wall where the waves were crashing in 25-30 ft. high.
Even though we had lots of friends here it was every man for himself. We are still tracking down all our yachty friends. We know some suffered boat damage but don't think any of our yacht friends died. We had been in some of the more worst hit places in the last 10 days.
Scary to think where we might have been!"
(www.boatwatchnet.com)

So, what can we as VK amateurs do to help?

More importantly WHAT CAN WIA NATIONAL DO?

Primarily man a "listening watch" and await any official request, it is 3rd party traffic rules which we must still contend with. John Weir is our WIA National coordinator for WICEN, John has appointed Ken Fuller as OC this operation, this "listening watch". Although these 2 gentlemen come from VK3 and 4 IT is a National WIA Operation..

(Audio interviews with John and Ken)

In our audio section of the news you will hear from G3ZHI who explains how EchoLink is helping combat the dreadful propagation and is bringing the news in real time to your PC.

Ian deals in the main with the HS end of operations, now with more of the Thai scene, here is VK3FFF

"Graham, An Amateur Radio Victoria Councillor Jim Baxter VK3DBQ spotted this internal RAST appeal for help, and suggested it be passed on to WIA National, Rgds Jim VK3PC".

Tony Waltham, HS0ZDX is Vice President, RAST, Radio Amateur Society of Thailand and also Editor, Post Database The Bangkok Post's weekly technology section.

HS0ZDX says RAST is now accepting donations and will pass on all financial support received to the Thai Government and give full credit to the international amateur radio community and to the individual donors and donor organisations.

HS0ZDX spoke with President Mrs Mayuree Chotikul, HS1YL, and to other officers of RAST as to what their society might be able to do to help in the wake of this disaster and, in particular, as to how to respond to

offers of help and support already received from ham friends around the world.

They agree that what is now needed the most is help for the many thousands made homeless by the tsunami and so RAST is now accepting donations and will pass on all financial support received to the Thai Government which has opened a channel for this.

Full credit to the international amateur radio community and to the individual donors and donor organisations of course.

The best way to transfer funds to RAST for this purpose is by wire transfer, the details of which follow: Siam City Bank
Ratchawat Branch No 111
Account Type: Savings
Account Number: 111-2-22688-4
Account Name: RAST
(Full name: Radio Amateur Society of Thailand, under the Royal
Patronage of His Majesty the King)

We also ask that all donors send details of their support to
dx@... by email or by Fax to +662-321-6443 for our records so that

Thank you
Sincere 73,
Tony Waltham, HS0ZDX
Vice President,
Radio Amateur Society of Thailand
Under the Royal Patronage of His Majesty the King

From HS to 4S, here's Felix VK4FUQ

Victor 4S7VK is the President of the National Organization of Radio Hams in Sri Lanka. He has advised us via VK2DAY that they had set up emmergency communications via HF and VHF with 2 teams going non stop.

4S7VK says...
"The situation is terrible. I feel more than 50,000 may have perished.
our Radio Amateur teams are in very bad disaster areas and gave the
Sri Lanka's Prime Minister's Office communications with the coordinating
Government Officer, which had NO communication until we went in to
establish HF links.. Our control centre was inside the Prime Minister's
Official house in his operational room, this shows the world how they valued
Amateur Radio services.

Even Satellite phones failed and only HF link was possible.
Just plain uncomplicated Short Wave saved lives".

Now some QRG's and URL's as we put this story to bed for the week..

Some frequencies to listen to for Disaster Relief communications following the tsunamis, but more importantly to steer clear of as far as transmissions from VK are concerned. Most of these were

published by vk4bb in his NEWS EXTRA last weekend, but again..

Dr Sarath 4S7SW operating near Mathara Hospital in Southern Sri Lanka on
14195 and 21295kHz

VU4 Indian Emergency Net on Andaman and Nicobar Islands
14193 and 14160KHz

Earthquake Thailand news 24x7 EchoLink node 46601
HS1WFK-l node 46601 is giving news updates 24x7 on the situation

http://www.qsl.net/g3zhi - many ham radio links

Indonesia - 7055kHz

Thailand - 7075kHz

VU4MYH is QRV from Car Nicobar Is. on
14190.8
14200
7095 kHz.

The Indian group is working on 7050 and 4S7 group on 7060.

Much is being written of Ham Radio's worth in local and international press,
Graham VK6RO suggests you visit an excellent report on hams in disaster,
he says "this is real good press"

http://www.hindu.com/mp/2004/12/30/stories/2004123000350100.htm

We do offer a word of caution, particularly to club bulletin writers
unless your prepared to write or phone for written approval to use
mainstream media stories, abide by the copyright rules, or just post
urls such as above!

So, a HUGE thank you this week to the DOZENS who helped by supplying
info, contacts, etc. Always a danger doing this, in case I leave a call out
a big thank you to EVERYONE.

WIA National News, ARRL, ARNewsLine and WICEN's John Weir.

The following from Victor 4S7VK the President of the Radio Society of Sri Lanka
copied from the Worthing Club Yahoo Goup WADARC. 73 Trevor M5AKA

While running round and feeling still inadequate in what we are doing as
hams, I am trying to write to you. My ordinary life has changed that I
didn't realize that I hadn't even monitored the various frequencies I
should. I am here with a lot of papers, telephone numbers and all that,
taking calls, answering calls, running to the VHF and HF and trying to
coordinate something of a disasaster communications link. It is no easy

task when a disaster as terrible as this was beyond our thinking plane. The magnitude of the issue is such that sometimes I wonder how we are going to address this. We are holding/or the tragedy is holding everyone's attention but soon it will be just another page in history..that is what I fear for these people who have been traumatised for generations to come for we are an island surrounded by the sea.. There are heart breaking situations where a single child remains, a mother father and so many ..lost..all too familiar be it Sri Lanka, India or anywhere else.

As President of the Amateur Radio Society in Sri Lanka it was wonderful even at a tragic time to link up South of Sri Lanka with the Prime Minister who comes from the South and that is where his people are. So we went in and established this HF link. My friends 4S7KE, AK and DZ went in a 4 wheel drive approaching the costal town of Hambantota from the interior as the main road along the cost was badly battered and full of debris and was impassable. I knew my propagation thanks to George Jacobs and I could be 100% sure that we could keep a link going on 3 and 7 MHz. So when all the cellular and all other means failed Short Wave stood bold and proud. It is so simple and we didnt even have a TS 50 or such a small mobile HF set, but took an Icom IC7400 the best radio we have and two 12v batteries and dipoles some food and water and filled the rest of the vehicle with food for the displaced. I stood by in Colombo at the PM's to run the link in and coordinate..

I wish I could scream aloud and tell people in some high places that when all else is dead SW is alive. What do you do when your power goes out, telephones go dead and you can't even charge your batteries of your GTS or Mobile Phone? We had our Morse key handy if we had to operate with just 1 or 2 watts but the batteries held..

Well the forces connected ther links 12 or more hours later but most of the district is so badly battered it will take some time to restore utilities. We operated for 48 hours from the Prime Ministers disaster room and moved out and we are in fax communication with them now, passing info to the coordinating centre. We have 3 stations out there and we are trying to connect lost people, pass info on displaced camps and people and the movement of food and essentials. We are trying to expand our coverage but our resourses are limited. Sadly they, even our members laughed when we wanted a disaster prepardness force. As recent as 2 months back the Govt communications advisor refused to allow a foreign agency stationed here and ICRC to donate equipment when they wanted to upgrade. The Defense Ministry refused as they were out of band which we said we would modify. Our roll has to change as the situation changes. I am here at my desk with my land phone and mobile, a VHF radio and HF radio constantly tuned to our disaster communications frequencies trying to coordinate as best as I could..

We will go one day at a time because the task before us is awesome. How do you get into the mindset of such a disaster. The coastal lives of the people folded like a pack of cards in just a few minutes. The whole country is dazed and some people are so dazed that they don't realize they are. But then life must go on and everyday we get a little stronger to meet then

next dawn.

Thanks for your concern. More later.
Yours
Victor

Privacy

Yahoo is now using something called "Web Beacons" to track Yahoo Group users around the net and see what you're doing and where you are going similar to cookies. Yahoo is recording
every website and
every group you visit. Take a look at their updated privacy statement: http://privacy.yahoo.com/privacy

About half-way down the page, in the section on cookies, you will see a link that says web beacons. Click on the phrase web beacons. That will bring you to a paragraph entitled "Outside the Yahoo Network."

In this section you'll see a little "click here to opt out" link that will let you "opt-out" of their new method of snooping.

Once you have clicked that link, you are exempted. Notice the "Success" message on the top of the next page. Be careful because on that page there is a "Cancel Opt-out" button that, if clicked, will *undo** the opt-out.
Feel free to forward this to other groups.

Κάποιοι κατάλαβαν ότι έρχεται Tsunami
04-01-2005, 17:05
Σύμφωνα με σημερινό δημοσίευμα του Αθηναϊκού Πρακτορείου, το κελάηδισμα των πουλιών ή η παράξενη συμπεριφορά των δελφινιών και των ερπετών μπορεί να αποτελούν ένα πανάρχαιο "σύστημα έγκαιρης προειδοποίησης", που βοήθησε τις φυλές που ζουν στα ινδικά νησιά Ανταμάν και Νικομπάρ, να αντιληφθούν εγκαίρως το επερχόμενο τσουνάμι στον Ινδικό.

Η γενεαλογία των έξι φυλών που ζουν στα νησιά Ανταμάν και Νικομπάρ χάνεται πριν από 30 έως 40 χιλιάδες χρόνια. Ορισμένοι από αυτούς τους ιθαγενείς εξακολουθούν να ζουν ως κυνηγοί και συλλέκτες καρπών. Η Ανθρωπολογική Ερευνα της Ινδίας (ASI), που διατηρεί ένα περιφερειακό κέντρο στην πρωτεύουσα των νησιών, Πορτ Μπλερ, μελετά τις φυλές αυτές εδώ και δεκαετίες. "Δικές μας ομάδες, με τη συνοδεία εκπροσώπων των αρχών, επισκέφθηκαν την περιοχή και μας ανέφεραν ότι αυτές οι φυλές είναι ασφαλείς", δήλωσε ο διευθυντής της ASI, Β.Κ.Ράο.

Πώς εξηγείται λοιπόν ότι οι ιθαγενείς στα νησιά Ανταμάν και Νικομπάρ διασώθηκαν από τη μανία του τσουνάμι;
Πιθανότατα προειδοποιήθηκαν από τη συμπεριφορά των πουλιών και των ψαριών και διέφυγαν στα δάση και στις υψηλότερες περιοχές των νησιών πριν το τσουνάμι σαρώσει τις ακτές, στις 26 Δεκεμβρίου.
Η παράδοση των φυλών αυτών, σύμφωνα με τον Β.Κ.Ράο, έχει αναφορές σε ένα τεράστιο κατακλυσμό που αλλάζει τη μορφολογία των νησιών. "Αυτό σημαίνει ότι ίσως κάτι τέτοιο έχει ξανασυμβεί. Τελικά, η συλλογική μνήμη της κοινότητας πηγαίνει πίσω χιλιάδες χρόνια", εξήγησε ο Β.Κ. Ράο. Γι`αυτό πρότεινε στην ινδική κυβέρνηση "την άμεση καταγραφή των συστημάτων προειδοποίησης που χρησιμοποιούν οι αρχαίες φυλές στο αρχιπέλαγος".

Τα Ανταμάν και Νικομπάρ είναι ένα σύμπλεγμα από 572 νησιά, από τα οποία κατοικούνται μόνο τα 38. Εχουν συνολικό πληθυσμό 45.000 ανθρώπους, από τους οποίους το 11% είναι ιθαγενείς.

1429. AO-51 Operation...

Yahoo group: thegreekhamradio
Date: 2005-01-09 12:53:57 UTC
From: sxanthop
Topic: 1429 Message: 1429

From: CX2SA@...
To : SAT@AMSAT

AMSAT News Service Bulletin 364.01
>From AMSAT HQ SILVER SPRING, MD.
December 29, 2004
To All RADIO AMATEURS
BID: $ANS-364.01

In an effort to lend any assistance possible to the Earthquake/Tsunami
disaster area, AO-51 will be will be configured and opened for use as
a
store and forward message satellite for those in the disaster area.
Therefore the current schedule for AO-51 has been cancelled.
The planned mode change to the FM Repeater in high power will not
occur.

AO-51 will be reconfigured at approximately 0305 UTC on 30 DEC 2004 to
operate as a Store and Forward PBBS. The PBBS will still be open to
general amateur use, but amateur operators should be ready to cease
BBS
operations at any moment, when we start to receive message traffic.
We
ask that all unattended PBBS operation stop until further notice. AO-
51
PBBS users may be requested to help download and forward messages.
More
information about how amateur operators can help will be forthcoming.

The FM repeater (Downlink 435.300 Mhz, Uplink 145.920 MHz) will be
turned off to allow maximum power to be used on the PBBS downlink.

The configuration for AO-51 PBBS will be:
Downlink: 435.150 MHz, FM 9600 baud PacSat BroadCast Protocol (PBBS)
Uplink: 145.860 MHz FM, 9600 baud PacSat BroadCast Protocol (PBBS)

Anyone that can help contact those in the disaster area and inform
them
of the Satellite resource is encouraged to do so. Should another
configuration of AO-51 be identified as providing more benefit to
those
in the disaster area, AMSAT will adjust AO-51's operating mode
accordingly.

Amsat and the Echo Command Team appreciate your help and understanding
as we try and lend assistance.

Mike Kingery
Echo Command Team
Amsat VP Opeations

[ANS thanks Mike, KE4AZN for the above information]

From: sxanthop
Topic: 1436   Message: 1436

Καλησπέρα, καλό Σαββατοκύριακο.

Σε μια προσπάθεια να προσεγγίσω και άλλους ραδιοερασιτέχνες μέσω διαδικτύου, έχω βρει κάποιες e-mail διευθύνσεις και έχω προσκαλέσει καινούργια άτομα εδώ στην λίστα. Να ευχηθώ καλή διαμονή σε όσους έχουν έρθει στην παρέα μας αυτές τις μέρες, τους ευχαριστούμε που είναι κοντά μας και ελπίζουμε η παρουσία τους να γίνει "αισθητή" με πολλούς τρόπους.

Επίσης να παρακαλέσω, όσους συναδέλφους δεν έχουν κάποιο προφίλ δηλωμένο, να γράψουν κάποιες πληροφορίες σ'αυτό,έτσι ώστε να γνωρίζουμε τα στοιχειώδη πράγματα γι'αυτούς για να μην υπάρχουν υποψίες για spammers (είχαμε ένα σοβαρό πρόβλημα παλιότερα με άσχημα αποτελέσματα) όπως για παράδειγμα για τον/την χρήστη "xxxmosxxx".

Ακόμα θα ήθελα να παρακαλέσω όσουν γνωρίζουν κάποιους άλλους συναδέλφους που δεν είναι γραμμένοι εδώ στην λίστα και χρησιμοποιούν e-mail να τους ενημερώσουν σχετικά έτσι ώστε και αυτή να μπουν στην παρέα μας.

Ένας ακόμη τρόπος που μπορείτε να βοηθήσετε στην εξάπλωση αυτής της λίστας είναι να βάλετε στην ιστοσελίδα σας έναν απο τους δύο κώδικες html που θα βρείτε εδώ:
http://groups.yahoo.com/group/thegreekhamradio/promote
και που θα βοηθήσει τους συναδέλφους που αναζητούν τέτοιες "περιοχές" να μας βρουν πιο εύκολα.

Για άλλη μια φορά να σας ευχαριστήσω για την συμμετοχή σας στο group και ελπίζουμε να γίνουμε μια πιο καλή παρέα και να είμαστε πάντα ενήμεροι για οτιδήποτε συμβαίνει στον χώρο του Hobbie μας.

Εκ του group "The Greek Hamradio"

Γειά σας,

Να καλοσωρίσω τα νέα μέλοι της λίστας και να τους ευχηθώ καλή διαμονή.
Έχω μέρες να δω μηνύματα εδώ και αυτή ίσως είναι μια καλή ευκαιρία να υπάρξει λίγο κίνηση.

Να ενημερώσω τους φίλους συναδέλφους, οτι αν θέλετε ΜΠΟΡΕΙΤΕ να λαβαίνετε 1 και μοναδικό e-mail (που θα περιέχει ΟΛΑ τα μηνύματα της ημέρας) κάθε μέρα απο την λίστα αυτή αντί να πέρνετε το κάθε μήνυμα ξεχωριστά. Αυτό είναι πολύ εύκολο να γίνει μέσα απο την σελίδα του groyp στο yahoo.

Σας το λέω αυτό γιατί έχω δει συναδέλφους να αποχωρούν χωρίς λόγο απο την λίστα και υπέθεσα οτι ίσως είναι αυτό το ζήτημα.

73, καλή εβδομάδα και καλό μήνα (απο αύριο).

Μια και συζητάμε για uniques κλπ, πρόπερσι έκανα 5-6 επαφές σε RTTY στο Ukranian Open (αυτό που τρέχει μεσάνυχτα στα 80m), τις πέρασα στο logger και τα έκλεισα. Μετά από μερικές εβδομάδες έλαβα ένα e-mail από τους διοργανωτές και μου ζητούσαν το log οπωσδήποτε αλλοιώς δεν θα μετρούσαν οι επαφές των Ουκρανών. Ευτυχώς ήταν λίγες, έφτιαξα ένα πινακάκι και το έστειλα με e-mail. Από ότι φαίνεται, το πρόβλημα των εικονικών QSO είναι ευρέως γνωστό στις χώρες αυτές και λαμβάνουν μέτρα. Αντίθετα το CQ και η ARRL, άν έβλεπαν έστω και 2 επαφές με τον SV1XV δεν θα έδιναν unique alert.

1472. NEA WORMS - VIRUS

Yahoo group: thegreekhamradio
Date: 2005-02-16 12:36:27 UTC
From: sxanthop
Topic: 1472   Message: 1472

Πηγή:www.flash.gr

Ταχύτατη εξάπλωση των Bagle.BK και Bagle.BL

Το εργαστήριο Καταπολέμησης Ιών της Panda Software (PandaLabs) εντόπισε δύο νέα worms, τα Bagle.BK και Bagle.BL. Και τα δύο είναι σχεδιασμένα ώστε να εξαπλώνονται ταχύτατα μέσω email (χρησιμοποιώντας μεθόδους κοινωνικής μηχανικής) και εφαρμογών P2P όπως το KaZaA. Το διεθνές δίκτυο υποστήριξης της Panda Software άρχισε ήδη να καταγράφει περιστατικά μολύνσεων από το Bagle.BL σε χώρες όπως η Ολλανδία και οι ΗΠΑ. Ωστόσο, δεδομένων των χαρακτηριστικών τους, είναι πολύ πιθανό να αρχίσει να αυξάνεται πολύ γρήγορα ο αριθμός των υπολογιστών που επηρεάζονται από αυτά τα worms. Για τον λόγο αυτό, η Panda Software ανέβασε το επίπεδο συναγερμού σε πορτοκαλί.

Οι πελάτες της Panda Software που έχουν εγκαταστήσει στους υπολογιστές τους τις νέες Τεχνολογίες TruPrevent είναι απόλυτα προστατευμένοι, επειδή αυτές οι ευφυείς τεχνολογίες προληπτικής προστασίας μπορούν να ανιχνεύσουν και να μπλοκάρουν τα Bagle.BK και Bagle.BL χωρίς να γνωρίζουν εκ των προτέρων τίποτα γι' αυτά (για περισσότερες πληροφορίες σχετικά με τις νέες Τεχνολογίες TruPrevent, ανατρέξτε στην ιστοσελίδα http://www.pandasoftware.com/truprevent).

Τα Bagle.BK και Bagle.BL φτάνουν στους υπολογιστές μέσα σε μηνύματα email με παραποιημένη διεύθυνση αποστολέα και θέμα επιλεγμένο τυχαία από μία λίστα. Δύο πιθανά θέματα είναι τα Delivery by mail ή Delivery service mail. Το κείμενο του μηνύματος μπορεί να περιλαμβάνει φράσεις του στυλ Before use read the help ή Thanks for use of our software. Τα συνημμένα αρχεία, τα οποία περιέχουν τα worms, έχουν μεταβλητά ονόματα, αν και η επέκτασή τους είναι πάντα COM, CPL, EXE ή SCR.

Για αναλυτικές πληροφορίες σχετικά με τα χαρακτηριστικά των μηνυμάτων μέσω των οποίων εξαπλώνονται τα Bagle.BK και Bagle.BL ανατρέξτε στην Εγκυκλοπαίδεια της Panda Software για τους Ιούς (Virus Encyclopedia).

Για την εξάπλωσή τους μέσω εφαρμογών P2P όπως οι KaZaA ή Morpheus, και τα δύο worms δημιουργούν αντίγραφα του εαυτού τους ☐ στους κοινόχρηστους φακέλους των προγραμμάτων ☐ με ονόματα όπως τα ACDSee 9. exe, Adobe Photoshop 9 full.exe ή Ahead Nero 7.exe, μεταξύ άλλων. Έτσι επιχειρούν να ξεγελάσουν τους άλλους χρήστες ώστε να τα μεταφέρουν και να τα τρέξουν στους υπολογιστές τους.

Ανεξάρτητα από τον τρόπο με τον οποίο φτάνουν στους υπολογιστές, όταν εκτελείται ένα αρχείο το οποίο περιέχει οποιοδήποτε από τα Bagle.BK και Bagle.BL, το worm χρησιμοποιεί τον δικό του μηχανισμό SMTP για να στείλει τον εαυτό του στις διευθύνσεις email που βρίσκει σε αρχεία

αποθηκευμένα στον υπολογιστή με συγκεκριμένες επεκτάσεις. Ωστόσο, είναι αρκετά έξυπνα και αποφεύγουν να στείλουν τους εαυτούς τους σε συγκεκριμένες διευθύνσεις ☐ κυρίως αυτές που σχετίζονται με εταιρείες κατασκευής λογισμικού ασφάλειας υπολογιστών.

Η πιο επικίνδυνη ενέργεια των δύο νέων παραλλαγών του Bagle είναι ο τερματισμός των σχετιζόμενων με προγράμματα antivirus και εφαρμογές ασφάλειας διεργασιών που εκτελούνται στη μνήμη, πράγμα το οποίο αφήνει τον υπολογιστή ευάλωτο σε μελλοντικές επιθέσεις.

Δημιουργούν επίσης αρκετές καταχωρίσεις στο Registry (Μητρώο) των Windows για να διασφαλίσουν ότι θα εκτελούνται κάθε φορά που εκκινεί ο υπολογιστής, και διαγράφουν τις καταχωρίσεις που μπορεί να έχουν προστεθεί σαν αποτέλεσμα της μόλυνσης του υπολογιστή από διάφορες παραλλαγές του Netsky.

Λόγω της μεγάλης πιθανότητας μόλυνσης από τα Bagle.BK και Bagle.BL, η Panda Software συμβουλεύει τους χρήστες να αντιμετωπίζουν με επιφύλαξη όλα τα μηνύματα e-mail που λαμβάνουν και να ενημερώσουν το πρόγραμμα antivirus που χρησιμοποιούν. Η εταιρεία παρέχει σε όλους τους πελάτες της τις κατάλληλες ενημερώσεις για την ανίχνευση και εξουδετέρωση αυτών των νέων worms

From: sxanthop
Topic: 1476 Message: 1476

(sv2evs) Original msg/webpage reported from sv2dcd:

Peter I
Press Release #14
Date: February 17, 2005

From: Team co-leaders:
Ralph Fedor, KØIR and Bob Allphin, K4UEE

Peter I DXpedition postponed to 2006

FOR IMMEDIATE RELEASE

I am afraid we have bad news. At 1 AM local time today we learned that our charter vessel, the Cavendish Sea, had not yet sailed from the port of Comodoro Rivadavia. The Cavendish Sea was to sail to Ushuaia to pick up the Dxpedtion team and their equipment on Friday, Feb 18th. We were to sail before noon.

Because they have delayed their arrival until Sunday, and with a projected Monday departure, we have simply run out time. This latest delay on top of numerous previous delays, simply makes it impossible for us to spend a sufficient amount of time on Peter I to justify the DXpedition this year.

So, we have no choice but to postpone the DXpedition until 2006. We believe it is essential to allow enough time on Peter I to justify the monetary investment made by the team members, our sponsors, individual contributors, DX Clubs, DX Foundations.

After having the first vessel, the Antarctic Dream, default on their contract with us, then the helicopter company default on their contract and then after putting everything back together with a new boat and helicopter on this past Tuesday, the team has been on quite an emotional rollercoaster. Our sincerest thanks to everyone for the encouragement and support you offered us during this time.

There will be additional Press Releases addressing what happens next.

Αυτό έχω και εγώ..δουλεύει μια χαρά παιδιά...όσοι δεν το έχετε, ή δεν έχετε antivirus..αυτό είναι free και γίνεται update τακτικά.

1496. programma gia finger-print VHF/UHF.

Yahoo group: thegreekhamradio
Date: 2005-03-20 22:06:54 UTC
From: sxanthop
Topic: 1496   Message: 1496

Γεια σας,

ΑΝΑΖΗΤΩ πρόγραμμα στο pc που να μου δίνει fingerprint ενός μηχανήματος
για τα 2m φυσικά.

Ο σκοπός είναι το fox-hunting (γιατί μας έχουν σπάσει τα νεύρα μερικοί
"συνάδελφοι").

Βρήκα μια κάρτα αλλά είναι ΠΑΝΑΚΡΙΒΗ, γύρω στα 800 δολλάρια στην
αμερική.

Εγώ θέλω κάτι ποιο φθηνό και ας μην δουλεύει 100%...θα μπορεί να γίνει
επαλήθευση με άλλο "σύστημα".

Ευχαριστώ...

Υ.Γ
και για να σας προλάβω,..έχω βρει το XMIT_ID, αλλά είναι σε DOS και
δεν ξέρω πως δουλεύει.

1500. MS0IRC/P fm Rockall Island!

Yahoo group: thegreekhamradio
Date: 2005-03-28 05:05:55 UTC
From: Costas Krallis SV1XV
Topic: 1500   Message: 1500

An amateur radio team led by Dave, MM0ALM, assisted by well-known and experienced island activator Seamus "Jim", MM0CWJ, will leave from the Orkney Islands on June 11th, and will travel over 300 miles to activate Rockall Island between June 14-21st. They will rely on a member of the SAS to get them onto the rock from an inflatable and hope to put up a small tent on a tiny ledge a few metres square. Operation will be primarily SSB (all bands, as appropriate). The callsign will be MS0IRC/p, the Hebridean Island Radio Club callsign. The DXpedition's QSL manager will be G0HXN. Jim also hopes to operate 50 MHz, even during the sea voyage, signing MM0CWJ/MM.

This is expected to be a hazardous operation. Read the article, "The complete history of Rockall by Kieren McCarthy" on the following Web page at:

http://www.therockalltimes.co.uk/rockall/history.html

(From Ohio/Penn DX Bulletin #703)

Επιτέλους το πρώτο (;) contest που έχει κι Ελληνικούς κανονισμούς (να είναι καλά ο Σταύρος 5b4afm, γιατί εμείς έχουμε αλλού το μυαλό μας). Είναι το europe sprint.
Οργανωμένο και με κανονισμούς κατά τα Αμερικάνικα πρότυπα, διαρκεί μόνο 4 ώρες, είναι σαν παιχνίδι, και το ανοιξιάτικο κομμάτι για μεν το ssb είναι το 2ο Σάββατο του Απρίλη για δε το cw το 3ο Σάββατο (20,40 και 80 μ). Ααα! για τους κανόνες στα Ελληνικά http://www.eusprint.com/index.php?page=140&lang=sv

Τίποτα, δεν κάνει κόπος...
> Α)ΥΠΑΡΧΕΙ ΟΥΣΙΑΣΤΙΚΗ ΔΙΑΦΟΡΑ ΑΝΑΜΕΣΑ ΣΤΙΣ ΚΕΡΑΙΕΣ DIAMOND ΚΑΙ ΤΥΠΟΥ
>DIAMOND (NAGOYA, MALDOL) ΔΕΔΩΜΕΝΟΥ ΟΤΙ Η ΤΙΜΗ ΓΙΑ ΤΙΣ ΠΡΩΤΕΣ ΕΙΝΑΙ
>ΣΧΕΔΩΝ ΔΙΠΛΑΣΙΑ. (ΠΧ. ΓΙΑ ΤΗΝ Χ-200)
Εγώ δεν ξέρω αν υπάρχει ουσιαστική διαφορά αλλά θα σου πω τι έπαθα εγώ
πριν λίγο καιρό. Δούλευα ΑΨΟΓΑ μια κεραία την ALAN την UV-300 που
είναι αντίστοιχης της Χ-510 της Diamond. Η κεραία λειτουργούσε άψογα
χωρίς κανένα πρόβλημα. Ώσπου μια μέρα την είδα να είναι "πεσμένη" απο
το πρώτο στοιχείο της και να κρέμεται στον αέρα. Δεν ξέρω αν κάτι
έπεσε πάνω της ή αν συνέβει απο τον αέρα αλλά ίσως μια diamond να μην
το είχε πάθει αυτό. Τώρα, τα συμπεράσματα δικά σου.
> Β)ΕΠΕΙΔΗ Η ΑΓΟΡΑ ΤΗΣ ΠΟΛΗΣ ΜΟΥ (ΜΥΤΙΛΗΝΗ) ΔΕΝ ΕΙΝΑΙ ΑΞΙΟΖΗΛΕΥΤΗ ΣΕ
>ΤΕΤΟΙΑ ΕΙΔΗ Κ ΕΠΕΙΔΗ Η ΠΑΡΑΓΓΕΛΕΙΑ ΘΑ ΔΩΘΕΙ ΣΕ ΚΑΤΑΣΤΗΜΑ ΑΘΗΝΩΝ Η'

>ΕΚΤΩΣ ΑΠΟ ΤΗΝ ΚΕΡΑΙΑ.ΕΥΧΑΡΙΣΤΩ. ΕΛΠΙΖΩ ΝΑ ΜΗ ΣΕ ΒΑΖΩ ΣΕ ΜΕΓΑΛΟ ΚΟΠΟ.
Σ'αυτό νομίζω μπορεί να βοηθήσει και κάποιος άλλος, γιατί εγώ αν σου
πω..δεν θα είμαι 100% σίγουρος. Πάντως θα χρειαστείς σίγουρα το
καλώδιο (να ξέρεις τα μέτρα στο περίπου και να αγοράσεις ΠΕΡΙΣΣΟΤΕΡΟ
ΚΑΛΩΔΙΟ παρά λιγότερο) καθώς επίσης και 2 (κατά προτίμηση) ΚΑΛΟΥΣ
κονέκτορες και αν το μηχάνημα σου έχει N-TYPE conector να κοιτάξεις να
ΜΗΝ ΒΑΛΕΙΣ αντάπτορα γιατί εγώ που έχω, όλοι μου λένε οτι θα δουλεύει
καλύτερα αν τον βγάλω.

Γιώργο καλησπέρα,

Να προσέξεις μόνο να μην πάρεις μια μεγάλη κεραία αν το F7 είναι το μόνο μηχάνημα που σκοπεύεις να χρησιμοποιήσεις σε κεραία βάσεως. Αν δηλαδή του βάλεις μια Χ-510, θα έχεις μια πολύ καλή κεραία, αλλά το πρόβλημα του "μπασίματος", το να ακούει δηλαδή το μηχάνημα ΠΟΛΛΑ ΑΣΧΕΤΑ σκουπίδια απο άλλες συχνότητες θα είναι καθημερινό φαινόμενο. Με μια Χ-200, Χ-300 πιστεύω οτι θα είσαι ικανοποιημένος και δεν θα έχεις τόσο έντονο αυτό το φαινόμενο.

Type: Amateur VHF/UHF transceiver
Frequency range: TX: 144-146 / 430-440 MHz (Europe)
TX: 144-148 / 222-225 / 430-450 MHz (USA)
RX: 0.504-999 MHz (Cellular blocked in the US)
5/9/10/12.5/15/20/25/50/100 KHz steps
Mode: TX: FM
RX: AM/FM/WFM
RF Power output: 2m/70cm Hi: 5/5 W, Low3: 2.5/2.5 W, Low2: 1/1 W, Low1: 0.3/0.3 W
220 MHz Hi: 1.5 W, Low3: 1 W, Low2: 0.5 W, Low1: 0.2 W
Sensitivity: 0.5-30 MHz, AM: 3 uV (10 dB S/N)
VHF low, NFM: 1 uV (12 dB SINAD)
140-150 MHz, FM: 0.16 uV (12 dB SINAD)
400-470 MHz, FM: 0.18 uV (12 dB SINAD)
Selectivity: AM/NFM: 12 KHz (-6 dB), 35 KHz (-60 dB)
WFM: 200 KHz (-6 dB), 300 KHz (-20 dB)
Image rejection: N/A
Voltage: 7.4 VDC (nominal), 5-16 VDC (external)
Current drain: RX: 20-150 mA
TX: Max 1.8 A
```

Impedance: 50 ohms, SMA
Dimensions (W*H*D): 58*89*29 mm

Manufactured: 2005-200x
Other: 1000+ memories with alpha-tags. CTCSS/DCS, DTMF, ARTS. Built-in temperature sensor and optional barometric pressure sensor (SU-1). WIRES-compatible. CW training feature. Password protection. Waterproof/submersible

1516. RE: [The Greek Ham Radio] Antena for kenwood th f7e

Yahoo group: thegreekhamradio
Date: 2005-04-04 19:23:48 UTC
From: Papapanagiotou Vaggelis
Topic: 1512 Message: 1516

Η δική μου εμπειρία από την UV-300 είναι μάλλον θετική.

Την πείρα 2ο χέρι από κάποιο άλλο συνάδελφο ραδιοερασιτέχνη (άγνωστο για πόσο χρονικό διάστημα την είχε) με μοναδικό πρόβλημα ότι είχε κολλήσει (από άλατα ή κάποιου άλλου είδους διάβρωση) ένας από τους συνδέτες των επιμέρους εξωτερικών τηλεσκοπικών τμημάτων. Η κεραία δούλευε θαυμάσια στη πόλη της Μυτιλήνης η οποία είναι γνωστή για τα προβλήματα που προκαλεί στους ραδιοερασιτέχνες σχετικά με τους τοπικούς αναμεταδότες.

Κάποτε χρειάστηκα να την μεταφέρω στη Λήμνο με αποτέλεσμα, στην προσπάθεια μου να την "λύσω" έσπασα τον κολλήμένο συνδέτη που προανέφερα. Παρόλα αυτά η κεραία εγκαταστάθηκε και λειτούργησε με επιτυχία για άλλη μία 4ετία στην Λήμνο όπου οι άνεμοι δεν λείπουν (η Λήμνος ονομάζεται και "Ανεμόεσα"). Αν και το QTH δεν ήταν σε καλή περιοχή του νησιού και σε υψόμετρο λιγότερο από 15 μέτρα από τη θάλασσα κατάφερνα να ανοίγω το R1-Αθηνών με μόλις τα 10W του Icom IC706 που είχα (σημείωστε ότι μία Yagi 4-στοιχείων που δούλευα συγχρόνως δεν είχε τόσο καλή συμπεριφορά).

Το μόνο πρόβλημα που διαπίστωσα ήταν ένα είδος διάβρωσης (σαν "ψωρίαση") στη βάση της κεραίας στο σημείο του κονέκτορα που μάλλον οφειλόταν στο φαινόμενο της ηλεκτρόλυσης εφόσον είχα την "καταπληκτική" ιδέα να γειώσω το όλο σύστημα κεραία-πομποδέκτη στις σωληνώσεις του καλοριφέρ του σπιτιού. Δυστυχώς όταν χρειάστηκε να ξαναλύσω την κεραία για την επιστρέψω στο παλιό μου QTH στη Μυτιλήνη, κατάφερα να χάσω 2-3 χονευτές βιδούλες που συνδέουν τα εσωτερικά στοιχεία της κεραίας.

Η κέραια αυτή τη στιγμή βρίσκεται ακόμη πακεταρισμένη όπως την έφερα από τη Λήμνο (δεν έχω βρει τις αντίστοιχες βίδες για αντικατάσταση των χαμένων) και εξαιτίας αυτού απέχω παντελώς από τα 2 μέτρα στο νησί (ένα δίπολο που χρησιμοποιώ δεν είναι ικανό να ανοίξει ούτε τον πλησιέστερο τοπικό αναμεταδότη).

Με λίγα λόγια, η UV-300 αποδείχθηκε "σκυλί" με πάνω από 8 χρόνια λειτουργίας, από τα οποία τα 4 σε εξαιρετικά δυσμενή περιβάλλον (όσοι έχουν επισκεφθεί τη Λήμνο χειμώνα, πιστεύω ότι με καταλαβαίνουν) και πολλή καλή συμπεριφορά τόσο στη λήψη όσο και στην εκπομπή (τουλάχιστο για τα 2 μέτρα που την δούλεψα).

Φιλικά,
Βαγγέλης (SV8DTP)

Αγαπητοί συνεργάτες και φίλοι,

Από σήμερα είναι σε λειτουργία το πληρέστερο και πιό ευκολόχρηστο ηλεκτρονικό κατάστημα στον χώρο μας.

Δεν θα σας κουράσω άλλο. Μία εικόνα αξίζει όσο χίλιες λέξεις!

Θα χαρούμε να σας "δούμε" εκεί.

Με φιλικούς χαιρετισμούς,

Αργυρόπουλος Δημήτρης - SV0DR

1536. Yaesu VX-2 aporia

Yahoo group: thegreekhamradio
Date: 2005-04-28 10:14:25 UTC
From: sxanthop
Topic: 1536   Message: 1536

Καλημέρα σας.

Προσπαθώντας να βρω τα σχετικά για την εκπομπή dtmf στο VX-2, αναρωτιέμαι πως μπορεί κανείς να εκπέμψει το το # για να κάνει disconect απο κάποιο σταθμό στο echolink.

Μήπως είναι κάποιο απο τα A-B-C-D που δείχνει μέσα στην μνήμη του;
Ευχαριστώ.

Λοιπόν οι τρελο-αμερικάνοι το έκαναν κι αυτό
Σ' ένα σόου στην τηλεόραση κάλεσαν δυο τύπους που έστελναν γρήγορα μηνύματα στο κινητό και δυο ραδιοερασιτέχνες. Σκοπός ήταν ποιος θα στείλει πιο γρήγορα ένα μήνυμα. Φυσικά οι ραδιοερασιτέχνες νίκησαν με τα χέρια κάτω στέλνοντας το ΄μήνυμα σε μορς πιο γρήγορα από τους... κινητούς. Για την ιστορία το βιντεάκι μπορείτε να το κατεβάσετε από
http://www.kkn.net/~n6tv/
ή
http://www.tarc.org/index.php?load=leno

(είναι κάπου 8 mb αλλά αξίζει τον κόπο)
Η ιστορία και τα links από τον w3ur και το daily dx

Σήμερα κατέβασα το video clip από το Internet.
Οι ραδιοερασιτέχνες είχαν φανταστικό στήσιμο
με στολές τηλεγραφητών εποχής και 2xFT-819 στα
UHF και paddle keys.

Λόγω των καινούργιων αδειών, θα έπρεπε να τα δίνουν τα μηχανήματα πολλές ημέρες τον χρόνο σε τέτοιες τιμές hamfest...αλλά αντίθετα όχι μόνο δεν συμβαίνει όπως τονίζεις και εσύ, αλλά τύνουν να ανέβουν.

Τώρα ποιος και τι κρύβεται, είναι μεγάλο το θέμα.

1569. J42BBG Παγκόσμια Ημέρα Περιβάλλοντος

Yahoo group: thegreekhamradio
Date: 2005-06-01 07:14:36 UTC
From: Yanis Syllignakis
Topic: 1569   Message: 1569

Αγαπητοί Συνάδελφοι,

Την Κυριακή 5 Ιουνίου 2005, Παγκόσμια Ημέρα Περιβάλλοντος, θα ενεργοποιηθεί
το ειδικό διακριτικό κλήσης J42BBG, που θα εκπέμπει από τον Βαλκανικό
Βοτανικό Κήπο Κρουσσίων http://www.bbgk.gr , QRA LOC.: KN11NC.
Με αυτόν τον τρόπο οι ραδιοερασιτέχνες θα συμμετάσχουν στις εορταστικές
εκδηλώσεις που θα γίνονται στον μεγαλύτερο Βοτανικό Κήπο της Ελλάδας.
Κατά τον εορτασμό της ΠΑΓΚΟΣΜΙΑΣ ΗΜΕΡΑΣ ΠΕΡΙΒΑΛΛΟΝΤΟΣ που τιμάται κάθε χρόνο
σε ολόκληρο τον Κόσμο στις 5 Ιουνίου, ο Βαλκανικός Βοτανικός Κήπος Κρουσσίων
οργανώνει διάφορες δραστηριότητες και δρώμενα, κατά την διάρκεια ενός
εβδομαδιαίου προγράμματος που αρχίζει την Κυριακή 5 Ιουνίου και τελειώνει
την επόμενη Κυριακή 12 Ιουνίου, με τη συνάντηση της Διεθνούς Οργάνωσης για
τη διατήρηση των αυτοφυών φυτών σε βοτανικούς κήπους (BGCI) που αποτελείται
από τις 25 χώρες της Ευρωπαϊκής Ένωσης.
Ο Βαλκανικός Βοτανικός Κήπος Κρουσσίων εγκαινιάστηκε το Μάιο του 2001,
υλοποιήθηκε από το Εθνικό Ίδρυμα Αγροτικής Έρευνας και καταλαμβάνει έκταση
310 στρεμμάτων. Οι σκοποί και οι στόχοι του εστιάζονται στην προστασία,
διατήρηση και αξιοποίηση της ελληνικής και βαλκανικής χλωρίδας,
ευαισθητοποιώντας το κοινό και ενισχύοντας την εκπαίδευση σε περιβαλλοντικά
ζητήματα και τη βιοποικιλότητα.

Αγαπητοί συνάδελφοι,
όντας μέλος της Πανεπιστημιακής Κοινότητας του Πανεπιστημίου Πατρών,
σας προωθώ την παρακάτω πρόσκληση εκ μέρους του Μουσείο Επιστημών και
Τεχνολογίας του Πανεπιστημίου Πατρών.

Μιας και η έκθεση αναφέρεται στις Τηλεπικοινωνίες, μπορεί άνετα να
συνδυαστεί και με Ραδιοερασιτεχνικό υλικό. Όποιος επιθυμεί να βοηθήσει
με οποινδήποτε τρόπο (όπως αναφέρεται παρακάτω) παρακαλώ να
επικοινωνήσει με το email που δίνεται στο τέλος, κάνοντας παράλληλα
γνωστοποίηση πως η πρόσκληση προήρθε από το άτομό μου προς αποφυγή
περριτών email.

Φιλικά,
Λευτέρης Καραγιώργος SW6JIV
Τμήμα Επιστήμης των Υλικών
Πανεπιστήμιο Πατρών
ekaragiorg@upnet.gr

Προς τα μέλη της Πανεπιστημιακής Κοινότητας

Το Μουσείο Επιστημών και Τεχνολογίας του Πανεπιστημίου Πατρών, με την
παράδοση του πρώτου τμήματος του κτιρίου του προς χρήση, ξεκίνησε την
προετοιμασία της λειτουργίας του, με τη μελέτη και οργάνωση έκθεσης με
θέμα: "Οι Τηλεπικοινωνίες στη ζωή μας".

Για το λόγο αυτό παρακαλούνται, όσα μέλη της Πανεπιστημιακής Κοινότητας:
1.. έχουν στην κατοχή τους σχετικό υλικό, όπως μηχανήματα, όργανα,
βιβλία, φωτογραφικό υλικό, οπτικοακουστικό υλικό κλπ και θα
επιθυμούσαν να το προσφέρουν στο Μουσείο μέσω δωρεάς, παραχώρησης,
δανεισμού κλπ,
2.. γνωρίζουν πληροφορίες σχετικά με την ύπαρξη αντίστοιχου υλικού και/ή
3.. επιθυμούν να προσφέρουν εθελοντική εργασία για την προετοιμασία,
την υλοποίηση και τη λειτουργία της έκθεσης σε όλα τα επίπεδα
(γνωστικό, τεχνικό, οργανωτικό κλπ)
να επικοινωνήσουν με την υπεύθυνη του Μουσείου Επιστημών και
Τεχνολογίας, κ. Πένυ Θεολόγη-Γκούτη,

1585. Νέο site www.hamradio. gr και δωρε άν υπηρεσίες

Yahoo group: thegreekhamradio
Date: 2005-07-01 01:52:35 UTC
From: Lefteris SW6JIV
Topic: 1585 Message: 1585

Το hamradio.gr προσφέρει σε όλους τους αδειούχους ραδιοερασιτέχνες 2 μοναδικές δωρεάν υπηρεσίες.

Πιο συγκεκριμένα, προσφέρονται:

e-mail alias της μορφής callsign@hamradio.gr

δημιουργήστε μια πραγματικά "ραδιοερασιτεχνική" ηλεκτρονική διεύθυνση, η οποία θα προωθεί όλα τα e-mail σας σε μια ήδη υπάρχουσα ηλεκτρονική διεύθυνση ταχυδρομείου
(σημείωση: για την ώρα δεν παρέχεται πραγματικός λογαριασμός ηλεκτρονικής διεύθυνσης π.χ. POP3 ή IMAP)

url forwarder της μορφής http://www.hamradio.gr/callsign

σας δίνεται η δυνατότητα χρήσης του παραπάνω τρόπου για να καλείτε την ήδη υπάρχουσα ιστοσελίδα που έχετε στο Διαδίκτυο
(σημείωση: για την ώρα δεν παρέχεται αποθηκευτικός χώρος στον server για να φιλοξενηθούν οι σελίδες σας)

πώς μπορείτε να αποκτήσετε τα παραπάνω

Προϋπόθεση για να αποκτήσετε το email alias ή/και το url forwared είναι να κατέχετε ισχύον ραδιοερασιτεχνικό διακριτικό κλήσης. Δεκτά είναι όλα τα ελληνικά callsigns που αντιστοιχούν σε ιδιώτες ή ρ/ε συλλόγους. Επίσης γίνονται δεκτά και special callsigns.
Για να ενεργοποιηθούν τα παραπάνω στείλτε ένα email στο newaccount[at]hamradio.gr και αναφέρετε:

* Όνομα και Επώνυμο (ή Όνομα Συλλόγου ή χαρακτηριστική ονομασία για special callsign)
* Διακριτικό Κλήσης
* Τηλέφωνο Επικοινωνίας
* Υπάρχον email (στο οποίο θα γίνεται ανακατεύθυνση των email σας)
* Υπάρχουσα ιστοσελίδα (στην οποία θα γίνεται ανακατεύθυνση των επισκεπτών σας)

(σημείωση: μιας και η ενεργοποίηση δεν γίνεται με αυτόματο τρόπο, είναι πιθανό να διαρκέσει μερικές μέρες εξ' αιτίας προσωπικού φόρτου εργασίας. Όταν ενεργοποιηθεί ο λογαριασμός σας θα λάβετε ένα ενημερωτικό email)

1588. Νέα έκδοση λογισμικού jsLogSearch 3.0

Yahoo group: thegreekhamradio
Date: 2005-07-05 10:42:39 UTC
From: Papapanagiotou Vaggelis
Topic: 1588 Message: 1588

Αγαπητοί φίλοι,

Επιτέλους βρήκα λίγο χρόνο για να ολοκληρώσω την νέα έκδοση (3.0) του λογισμικού jsLogSearch το οποίο είναι ένα applet για on-line αναζητήσεις σε ημερολόγια επαφών (logbooks) μέσω ιστοσελίδων χωρίς τη βοήθεια κάποιου database-server.

Από τις ιστοσελίδες μου (http://www.qsl.net/sv8dtp) μπορείτε να κατεβάσετε το εκτελέσιμο αρχείο http://www.qsl.net/sv8dtp/jsLogSearch/jsls.exe <http://www.qsl.net/sv8dtp/jsLogSearch/jsls.exe> για τη δημιουργία της βάσης δεδομένων καθώς και του ίδιου του applet το οποίο έχει ανανεωθεί και ελπίζω να σας αρέσει.

Μπορείτε ακόμη να κατεβάσετε και την τεκμηρίωση για την νέα έκδοση σε μορφή PDF στα Αγγλικά (http://www.qsl.net/sv8dtp/jsLogSearch/jsLogSearchEn.pdf <http://www.qsl.net/sv8dtp/jsLogSearch/jsLogSearchEn.pdf>) ή στα Ελληνικά (http://www.qsl.net/sv8dtp/jsLogSearch/jsLogSearchGr.pdf <http://www.qsl.net/sv8dtp/jsLogSearch/jsLogSearchGr.pdf>).

Για να πάρετε μία γεύση των δυνατοτήτων του νέου applet μπορείτε να επισκεφθείτε το ημερολόγιο επαφών μου (http://www.qsl.net/sv8dtp/qsos/default_.htm <http://www.qsl.net/sv8dtp/qsos/default_.htm>) ή ακόμη καλύτερα να δείτε το applet να κάνει αναζητήσεις σε 12 logbook ταυτόχρονα με συνολικά πάνω από 140 χιλιάδες επαφές (http://www.qsl.net/sv8dtp/SXxA/SXxA.htm <http://www.qsl.net/sv8dtp/SXxA/SXxA.htm>)που έγιναν κατά τη διάρκεια του περσινού "Olympic Games 2004 Countdown on the Air".

Πολλούς Χαιρετισμούς και Καλό Καλοκαίρι

Φιλικά

Λοιπόν, αν θυμάστε, είχαμε μιλήσει για τη σύνταξη μίας επιστολής
διαμαρτυρίας για το ανεξήγητο ύψος των παγίων ΟΤΕτην οποία κατόπιν θα
αποστείλουμε σε θεσμό που να μπορεί να κυνηγήσει τον ΟΤΕ (ΓΓ
Καταναλωτή και cc ίσως σε Υπουργείο Ανάπτυξης και Υπουργείο Μεταφορών
μιας και η ΕΕΤΤ παραδέχεται πως δεν έχει δυνατότητα άσκησης πίεσης
στον ΟΤΕ για μείωση παγίων).
ΠΑΡΑΚΑΛΟΥΜΕ ΜΗΝ ΑΝΑΜΕΤΑΔΙΔΕΤΕ ΤΗΝ ΕΙΔΗΣΗ ΣΕ ΟΠΟΙΟΔΗΠΟΤΕ ΑΛΛΟ ΜΕΣΟ,
ΕΚΤΟΣ ΑΠΟ ΗΛΕΚΤΡΟΝΙΚΑ FORA ΚΑΙ ΓΙΑ ΚΑΝΕΝΑΝ ΑΛΛΟΝ ΣΚΟΠΟ ΕΚΤΟΣ ΤΗΣ
ΣΥΓΚΕΝΤΡΩΣΗΣ ΣΥΜΜΕΤΟΧΩΝ
Η επιστολή θα αποσταλλεί ηλεκτρονικά σε ΟΛΑ τα ΜΜΕ μόλις ολοκληρωθει η
διαδικασία συγκέντρωσης συμμετοχών.

ΣΥΝΟΔΕΥΤΙΚΟ ΤΗΣ ΕΠΙΣΤΟΛΗΣ (email body, fax cover page)

Αξιότιμε κύριε ΧΧΧ,

Επικοινωνούμε μαζί σας για να ζητήσουμε την συνδρομή και παρέμβασή σας
σε ένα ζήτημα που αντιμετωπίζουμε ως καταναλωτές υπηρεσιών ευρυζωνικής
πρόσβασης ADSL. Το ζήτημα είναι πολυδιάστατο, αλλά οι πιο βασικές
πτυχές του εστιάζονται στην απόκλιση της ποιότητας των υπηρεσιών και
των χρεώσεών τους από τον αντίστοιχο Ευρωπαϊκό μέσο όρο.
Η σύγκλιση προς αυτό τον μέσον όρο είναι εξαιρετικά σημαντική για τη
προώθηση της Κοινωνίας της Πληροφορίας, αλλά και της
ανταγωνιστικότητας στην Ελλάδα μέσω αξιόπιστων και οικονομικών
τηλεπικοινωνιακών υποδομών μεταγωγής δεδομένων, ακολουθώντας το
παράδειγμα προηγμένων οικονομικά κρατών-μελών της ΕΕ όπως η Ιρλανδία
και η Φινλανδία.

Επισυνάπτουμε κείμενο με τις σκέψεις μας αναφορικά με τις αιτίες του
προβλήματος, καθώς και το τι θα συνιστούσε λύση του ή τουλάχιστον θα
αποτελούσε μια σωστή κατεύθυνση προς την αντιμετώπισή του.
Επίσης επισυνάπτουμε ενδεικτικό πίνακα χρεώσεων ευρυζωνικής πρόσβασης
στην Ευρώπη και εκτός αυτής, ώστε να μπορείτε άμεσα να κάνετε τη
σύγκριση. Στον πίνακα περιλαμβάνονται δεσμοί προς τις ιστοσελίδες των
εταιρειών από τις οποίες συγκεντρώσαμε τις χρεώσεις, όπως αυτές ίσχυαν
το Μάιο.

Προσδοκούμε την συμπαράσταση και τη συνδρομή σας και είμαστε στη
διάθεσή σας για οποιαδήποτε επιπλέον πληροφορία χρειαστείτε σχετικά.
Μπορείτε να επικοινωνήσετε μαζί μας στα τηλέφωνα : _________, μέσω

________, __________

ΑΚΟΛΟΥΘΕΙ Η ΤΕΛΙΚΗ ΕΚΔΟΣΗ ΤΗΣ ΕΠΙΣΤΟΛΗΣ (συννημένο PDF)

-

Σας αποστέλλουμε την επιστολή αυτή ως χρήστες ευρυζωνικών συνδέσεων ADSL με το Διαδίκτυο, διαμαρτυρόμενοι έντονα για την απαράδεκτη, αδικαιολόγητη και ανεξήγητα υψηλή τιμή παροχής ευρυζωνικών συνδέσεων στην Ελλάδα οφειλόμενη στη καταχρηστική πολιτική που ασκεί η εταιρία ΟΤΕ Α.Ε. και την εκμετάλλευση της δεσπόζουσας θέσης της στην ελληνική αγορά, όσον αφορά την χρήση, εγκατάσταση, συντήρηση και λειτουργία του δικτύου ευρυζωνικών συνδέσεων αποκλειστικά από αυτήν.
Έχοντας το ουσιαστικό μονοπώλιο και το προνόμιο να υπομισθώνει το δημόσιο δίκτυο σε εταιρείες Παροχής Πρόσβασης στο Διαδίκτυο (Internet Service Providers - ISP), ο ΟΤΕ κατέστησε την Ελλάδα την ακριβότερη χώρα στην Ευρωπαϊκή Ένωση στην παροχή ευρυζωνικών υπηρεσιών, επιβαρύνοντας το μέσο χρήστη - καταναλωτή με κόστος που αφενός ουδόλως ανταποκρίνεται στη πραγματικότητα, αφετέρου φθάνει τα όρια της αισχροκέρδειας, καθόσον το αντίτιμο που καλείται να πληρώσει κάθε μέσος χρήστης είναι προκλητικά υψηλό σε σχέση με την υπόλοιπη ΕΕ.

Συγκεκριμένα, εκμεταλλευόμενη την παραχωρημένη από το κράτος θέση της στη συντήρηση και λειτουργία του δικτύου ευρυζωνικών συνδέσεων, καθώς και τις νομικές ελλείψεις και τις λειτουργικές αδυναμίες που έχει να αντιμετωπίσει κάθε άλλη εταιρεία κατά την είσοδό της στη συγκεκριμένη αγορά, η εταιρία ΟΤΕ Α.Ε. εισπράτει μίσθιο από κάθε καταναλωτή για την ευρυζωνική σύνδεση έως τα Κέντρα της εταιρείας και παράλληλα επιβάλλει αντίστοιχο μίσθιο σε κάθε ISP, ουσιαστικά χρεώνοντας δύο φορές την παροχή, τη δρομολόγηση δηλαδή από τον καταναλωτή έως το Κέντρο του ΟΤΕ, από όπου και αναλαμβάνει ο ISP. Υπενθυμίζουμε ότι η σύνδεση αυτή γίνεται μέσω του απλου, τηλεφωνικού δικτύου (POTS/ISDN) για το οποίο η ΟΤΕ Α.Ε. εισπράττει επίσης πάγιο.
Το αποτέλεσμα είναι, πως το ποσό που καταβάλλεται στον ΟΤΕ για μια σύνδεση μερικών χιλιομέτρων ανέρχεται σε περίπου 80-90% της τιμής που χρεώνει ο ISP για τη σύνδεση προς όλον τον υπόλοιπο κόσμο. Σημειωτέον, πως η διάθεση των συνδέσεων απευθείας σε καταναλωτές αλλά κυρίως το υπερβολικό κόστος του παγίου αποτελεί Ελληνική πρωτοτυπία, όπως σαφέστατα παρουσιάζεται στον (επισυναπτόμενο στη παρούσα) πίνακα που αποτυπώνει κατόπιν έρευνας τις αντίστοιχες χρεώσεις χωρών της Ευρώπης και του υπόλοιπου κόσμου. Ενδεικτικά μόνο, αναφέρεται πως, οι μηνιαίες τελικές χρεώσεις για ευρυζωνική σύνδεση ταχύτητας στη Γαλλία είναι 1,
50&#65533; ανά Mbps, στην Ιταλία 4,99&#65533;/Mbps, ενώ στην Ελλάδα είναι 85,25&#65533;
μόνο για τον ISP. Στα 85,25&#65533; πρέπει να προστεθεί το προαναφερθέν πάγιο του ΟΤΕ, το οποίο ανέρχεται στα 63,90&#65533;, ανεβάζοντας το συνολικό μηναίο κόστος στα 149,15 &#65533; (!!!) επιβαρύνοντας τον Έλληνα καταναλωτή με ποσά πολλαπλάσια των αντιστοίχων της ΕΕ. Το γεγονός αυτό είναι παραδεκτό και από εκπρόσωπο της Διεύθυνσης Προστασίας Καταναλωτή της Επιτροπής της Ευρωπαϊκής Ένωσης σε απάντηση της 4ης Ιουλίου 2005 σε

σχετική επιστολή διαμαρτυρίας μας για τα πάγια ΟΤΕ στις ευρυζωνικές συνδέσεις. Προφανώς η εταιρία ΟΤΕ Α.Ε. μετακύλισε το κόστος πραγματοποίησης επενδύσεων όχι μέσω της αύξησης του μετοχικού της κεφαλαίου, αλλά μέσω της προαναφερθείσας τακτικής, που ασφαλώς δεν συνάδει με καμία ενδοκοινοτική ή εξωκοινοτική αρχή δικαίου.

Σας υπενθυμίζουμε επίσης, πως η χώρα μας έχει παραπεμφθεί στο Ευρωπαϊκό Δικαστήριο του Λουξεμβούργου γι αυτήν την αδυναμία εναρμόνισης της Ελληνικής αγοράς ευρυζωνικών συνδέσεων, και κατ□ επέκταση της αγοράς τηλεπικοινωνιών, στα αντίστοιχα πρότυπα και πρακτικές της ΕΕ, όπως καθορίζονται από τις σχετικές Κοινοτικές Οδηγίες.
Επιπλέον αυτές οι πολιτικές δε συμβιβάζονται επ□ ουδενί με την διακήρυξη του ιδίου του Πρωθυπουργού στη Θεσσαλονίκη για την εξάπλωση της ευρυζωνικότητας στην Ελλάδα και την πρόσβαση όσο το δυνατόν περισσότερων πολιτών σε "φθηνό Ίντερνετ". Διακηρύξη που επανέλαβε και η Ειδική Γραμματεία της Κοινωνίας της Πληροφορίας του Υπουργείου Οικονομίας και Οικονομικών, δεσμευόμενη από την πρωτοβουλία e-Europe 2005.
Τέλος, η διαβάθμιση της παρεχόμενης ταχύτητας πρόσβασης ADSL και η αντίστοιχη κλιμάκωση των χρεώσεων που επιβάλλει η εταιρία ΟΤΕ Α.Ε. (384Kbps, 512 Kbps, 1024 Kbps) εμφανίζει τέτοια απόκλιση που αποτελεί παγκόσμια πρωτοτυπία για τηλεπικοινωνιακό πάροχο, καθώς η διαφορά της τιμής από βαθμίδα σε βαθμίδα είναι αδικαιολόγητα δυσανάλογη, τη στιγμή που ο εξοπλισμός και η τεχνολογία είναι όμοιες, αν όχι ίδιες, με τον εξοπλισμό και την τεχνολογία που χρησιμοποιούνται σε άλλες χώρες.

Συνεπώς, κατά τα προεκτεθέντα παρατηρείται μία αδικαιολόγητη, αθέμιτη και κατά την άποψή μας μη σύννομη τακτική της εταιρίας, η οποία αποβαίνει εις βάρος της τεχνολογικής εξέλιξης της χώρας μας και εις βάρος των χρηστών-καταναλωτών, χωρίς να παρέχεται κάποια αιτιολογημένη κοστολογική ανάλυση του μηνιαίου παγίου και χωρίς να δικαιολογούνται οι τεράστιες αποκλίσεις που παρουσιάζει η Ελλάδα σε σχέση με άλλες χώρες του εξωτερικού στο κόστος χρήσης των ευρυζωνικών συνδέσεων

Ενόψει των παραπάνω, με την ιδιότητά μας ως καταναλωτές, αιτούμεθα όπως η εταιρία ΟΤΕ Α.Ε. προβεί το συντομότερο δυνατόν στα εξής:

1. Στην πλήρη, δημόσια και διαφανή αιτιολόγηση της χρέωσης παγίων που καθιστούν την παροχή ADSL την ακριβότερη σε όλες τις 25 χώρες-μέλη της ΕΕ, αλλά και σε παγκόσμιο επίπεδο.

2. Στη δημοσιοποίηση του μοντέλου σύγκρισης (Benchmark) με άλλο κράτος της ΕΕ (ή μη) που χρησιμοποιεί η εταιρεία στην κοστολόγησή των ευρυζωνικών υπηρεσιών της.

3. Στην αιτιολόγηση της μη εναρμόνισης των χρεώσεων σε σχέση με το μέσο μηνιαίο εισόδημα του Έλληνα (τιμαριθμική προσέγγιση), υποχρέωση την οποία έχει ως οργανισμός κοινής οφελείας (ΔΕΚΟ)

Σε περίπτωση που η εταιρία αδυνατεί ή απροθυμεί να παράσχει κάποια ικανοποιητική απάντηση στα ως άνω, ζητούμε να προβεί σε εξάλειψη ή άμεση μείωση των υπερτιμημένων παγίων σε επίπεδο που ανταποκρίνεται τόσο στον μέσο όρο τιμών ευρυζωνικών προσβάσεων και συνδέσεων στην ΕΕ όσο και στο μέσο μηνιαίο Ελληνικό εισόδημα.

Βρισκόμαστε στη διάθεσή σας για την παροχή περαιτέρω στοιχείων και προσδοκούμε στις άμεσες ενέργειές σας

Με εκτίμηση,

Επίσης συννημένο θα βρίσκεται το αρχείο xls με τις τιμές όπως παρατίθεται στο http://www.adslgr.com/forum/showthread.php?t=16828

Subject: Eu Sprint Contest 2005

> Hello!
>
> This e-mail is to invite all contesters to have a go in the European
> Sprint contests 2005. The phone contest is on Saturday 1st October
> and the CW leg is the following Saturday, 8th October.
>
> If you're wondering which software to use, DL2NBU's program has
> been written specially for this contest. It is very much like K1EA's CT,
> and it is FREE for download from the new Eu Sprint web
> site <http://www.eusprint.com>.
> SD by EI5DI, TRLog by N6TR, WriteLog, N1MM Contest Logger
> (and many others) all support the Eu Sprint, and if you prefer to log
> on paper, that's fine as well. We accept any fixed column ASCII
> file, too.
>
> So, we hope you will give the Sprints a try in October, and then send
> your logs to <eusprint@...>. The full Eu Sprint rules are shown
> below.
>
> 73 from the EU Sprint Gang
> G4BUO, I2UIY, OK2FD & 9A6XX
>
> -------------------------------------------------------------------------
>
> About Eu Sprint:
> - download the FREE software,
> - rules in English, Italian, French, Spanish, Portugese, Russian, Czech,
> German, Polish, Greek, Croatian
> - all past results from 1994,
> - download full logs and ubn reports,
> - all time records,
> - find more information about Log Checking,
> - and much more about the Eu Sprint....
> You will find everything here: <http://www.eusprint.com>
>
> --------------------------------------------------------------------------
-
>
> Eu Sprint Contest - 2005
```

>
> ENTRANTS: any licensed station may enter the Sprint. European stations can
> work everybody; stations outside of Europe can work only European
stations.
>
> CATEGORIES: Single Operator ONLY. Only ONE signal may be aired at one
> time. Low Power entries (up to 100W) will be indicated by an asterisk (*)
in
> the listing.
>
> DATES:
> EU SPRINT Autumn:
> * SSB: first Saturday in October - 1 October 2005 - managed by I2UIY
> * CW: second Saturday in October - 8 October 2005 - managed by OK2FD
>
> TIME: from 15:00 UTC until 18:59 UTC.
>
> BANDS: 20, 40 and 80 metres only.
> Pilot frequencies are: SSB: 14.250, 7.050, 3.730. CW: 14.040, 7.025, 3.550
>
> EXCHANGE: all of the following data MUST BE PART OF THE EXCHANGE:
> a) your callsign,
> b) the other station's callsign,
> c) your serial number starting from 001 (RST not required),
> d) your name or nickname.
> Please note that BOTH stations MUST repeat BOTH callsigns DURING the
> exchange.
> A valid exchange is: "OK2FD de I2UIY 118 Paolo" while "OK2FD 118 Paolo" is
> NOT a valid exchange.
>
> SPECIAL QSY RULE: if any station initiates a call (by sending CQ, QRZ?,
> etc.), he is permitted to work ONLY one station on the same frequency. He
> must thereafter move AT LEAST 2 (two) kHz before he may call another
> station or before he may solicit again (CQ, QRZ?, etc.) other calls.
>
> VALID CONTACTS: valid contacts are QSOs correctly logged and confirmed.
> Each operator may use ONE and ONLY one name during the Sprint. If the
> exchange is copied incorrectly, that operator will receive zero (0)
points.
> In case of miscopied callsigns, both stations will receive zero (0) points
> for that QSO.
>
> SCORING: each valid QSO counts one 1 (one) point. The final score is the
> total number of QSOs.
>
> AWARDS: Colorful certificates will be issued to the winners of each
Sprint,
> and to the leaders in each country.
>
> EU SPRINT PLAQUE: A special plaque will also be awarded for the top

> three scores from all four contests combined. To be eligible for this
> award an operator must enter at least three of the Sprints in the
> year. Results will be forwarded as soon as possible to Leagues,
> magazines and bulletins.
>
> LOGS: a single chronological log is required. Please send us your log via
> email or on a floppy disk, if you use computer for logging. Use any of the
> available software or send a plain ASCII file. Eu Sprint is supported by
> all the major software (N6TR, Writelog, N1MM, SuperDuper and many
> others; see the software information on our webpage).
> If you want the latest release of the DL2NBU software, you can download
> it from the new EU Sprint web site: <http://www.eusprint.com>.
> Log files must be sent NO LATER than 15 days after the contest to:
> <eusprint@...>. The receipt of your electronic log will be immediately
> confirmed. If you do not receive a confirmation within few hours, try
again
> or use the postal system.
> Disk logs, or paper entries must be posted NO LATER than 15 days after
> the contest to the appropriate address:
> * Autumn SSB Sprint: Paolo Cortese, I2UIY, P. O. Box 14, 27043 Broni
> (PV), Italy.
> * Autumn CW Sprint: Karel Karmasin, OK2FD, Gen. Svobody 636, 674 01
> Trebic, Czech Republic.
>
> Thanks in advance for your participation de: G4BUO, I2UIY, OK2FD & 9A6XX.

SV1BDS / HamRadio 105-9-20, Τρίτη
ECHOLINK
Τελευταία νέα
ΑΡΘΡΟ 1
ECHOLINK

ΕΝΑΣ ΝΕΟΣ ΤΡΟΠΟΣ ΕΠΙΚΟΙΝΩΝΙΑΣ
ΠΟΥ ΠΑΝΤΡΕΥΕΙ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΙΣΜΟ ΚΑΙ INTERNET

Ακούγοντας κανείς κάποια στιγμή στο 431.100 στην Αθήνα θα άκουγε ένα
περίεργο QSO : Οι SV8BEV AC5FG HB9EBC VK2GJM SV1BCE SV1SB SV9CAF VK2/
SV5BYS να μιλάνε όλοι μαζί με μια ποιότητα που μάλλον θυμίζει VHF !!
Κοιτάει κανείς στο 14.285 ησυχία ! Τι γίνετε ???
Μόνο μια βδομάδα λειτουργίας ενός πειραματικού link με τη χρήση του
προγράμματος ECHOLINK έχει ταράξει τα ράδιο-ερασιτεχνικά νερά.
Για να δούμε που βασίζετε η λειτουργία του ECHOLINK. Οι περισσότεροι
θα έχετε ακούσει ότι μέσω Internet μπορούν να μιλήσουν με φωνή δυο ή
περισσότεροι μεταξύ τους χρησιμοποιώντας την κάρτα ήχου του PC τους.
Έτσι με αυτή την τεχνολογία, αν συνδέσουμε κατάλληλα στην κάρτα ήχου
έναν πομποδέκτη VHF ή UHF μπορούμε να 'βγούμε' και στον αέρα! Το
ECHOLINK είναι η εξέλιξη παλαιοτέρων προσπαθειών και προγραμμάτων,
κατάλληλα προσαρμοσμένο για αυστηρά ράδιο-ερασιτεχνική χρήση και
μάλιστα χωρίς χρέωση.
Για να δούμε τι δυνατότητες έχουμε με το ECHOLINK. Μπορούμε να κάνουμε
ένα QSO όπως ακριβώς το ξέρουμε με όποιους και όσους σταθμούς που
είναι στις ακόλουθες κατηγορίες :
- Συνδεδεμένοι μέσα στο Internet σε οποίο μέρος του κόσμου και αν
είναι.
- Κοντά σε κάποιο LINK ή REPEATER που είναι συνδεδεμένο μέσω ECHOLINK
στο Internet.
Στην περίπτωση ενός LINK π.χ. SV1BDS-L υπάρχει ένας Η/Υ μόνιμα στο
Internet με την κάρτα ήχου συνδεδεμένη σε έναν πομποδέκτη VHF/UHF στην
περίπτωσή μας στην συχνότητα 431.100 MHz . Ενώ στην περίπτωση ενός
REPEATER (θα μπορούσε να είναι το R1, R7, RU1, RU5) τα ίδια με πριν
σαν LINK μόνο που ο πομποδέκτης ανοίγει ένα τοπικό REPEATER.
Έτσι οι SV8BEV,AC5FG,HB9EBCVK2/SV5BYS,SV9CAF ήταν στο Internet.
Ο SV1SB SIMPLEX στο 431.100 στην Αθήνα μέσω του LINK SV1BDS-L.
Ο VK2GJM SIMPLEX στο 146425 στο Sydney μέσω του LINK VK2JTP-L.
Ενώ συχνά ακούγεται και ο HB9LDR μέσω των repeater HB9ZF-R και HB9GL-
R.
Ο VHF/UHF χρήστης ενός LINK ή ενός REPEATER μπορεί να καλέσει έναν
σταθμό πού είναι στο ECHOLINK δίνοντας κατάλληλες DTMF εντολές.
Στη λίστα με τους αναμεταδότες και τα SIMPLEX LINK που υπάρχουν μπορεί
να δει κανείς πάνω από 350 LINK και 250 REPEATERS σε όλο τον κόσμο ενώ

υπάρχουν μέχρι τώρα πάνω από 70.000 χρήστες παγκόσμια και 1000 με 1500 ενεργοί κάθε στιγμή.
Τα συμπεράσματα κοινά για όλους όσους το ακούσουν. Εύκολη επικοινωνία απ΄ άκρη σ' άκρη του κόσμου, καθαρά σαν VHF, πάρα πολύ αξιόπιστα. Έχει προκαλέσει τρομερό ενδιαφέρον ακόμη και στους 'φανατικούς' των βραχέων. Για όλους τους Έλληνες της διασποράς, Ελληνόφωνους και τουρίστες έχει γίνει ένα σημείο συνάντησης.
Το ψάξιμο στα REPEATERS σε όλο τον κόσμο έχει ενδιαφέρον με τους έκπληκτους ανά τον κόσμο ραδιοερασιτέχνες από π.χ. HAWAII , JAPAN, SYDNEY να ακούν ελληνικά CALLSIGN στα REPEATERS τους. Όπως και διάφοροι από όλο τον κόσμο καλούν την φιλόξενη Ελλάδα.
Για περισσότερες πληροφορίες δείτε στο Internet στη διεύθυνση http://www.echolink.org όπου υπάρχει εκτός του download, 'ξενάγηση' στο πρόγραμμα, πλήρεις οδηγίες και FAQ. Αναφορά υπάρχει και στο QST του τεύχους Φεβρουαρίου 2003 στη σελίδα 44. Αντίστοιχο σύστημα έχει και η YAESU με το WIRES (πληροφορίες στο http://www.vxstd.com στο WIRES-II).
Οι δυνατότητες για διασύνδεση και άλλων σημείων στην Ελλάδα αλλά και η πιθανή χρήση σε καταστάσεις έκτακτης ανάγκης δίνουν άμεσα νέες προοπτικές. Αξιοποιώντας αυτόν τον τρόπο επικοινωνίας στους Ολυμπιακούς αγώνες του 2004 που είναι άμεσα κοντά μας ίσως δώσουμε μια νέα διάσταση επικοινωνίας με τους ραδιοερασιτέχνες σε όλο τον κόσμο σε αυτούς που θα έρθουν ή και όχι.
Συνεχίζοντας σύμφωνα με τον ορισμό του ραδιοερασιτεχνισμού δηλαδή το δίπτυχο ΠΕΙΡΑΜΑΤΙΣΜΟΣ-ΡΑΔΙΟΕΠΙΚΟΙΝΩΝΙΑ αυτό που μένει είναι ο γόνιμος προβληματισμός για το hobby και η ευχή για το πρόγραμμα μόνο μια από όλους ΝΑ ΜΠΕΙ ΚΑΙ ΕΙΚΟΝΑ ΣΥΝΤΟΜΑ !

73 DE ΓΙΩΡΓΟΣ SV1BDS

ΑΡΘΡΟ 2

Αγαπητοί φίλοι Ραδιοερασιτέχνες γεια σας.

Μετά από ένα τουλάχιστον χρόνο λειτουργίας του ECHOLINK στην Αθήνα και σταδιακά σε περίπου δέκα Ελληνικές πόλεις μεταξύ αυτών και στο SYDNEY
από Έλληνες μετανάστες, είναι καιρός να δούμε διάφορα θέματα για αυτή την καινούργια πλέον πραγματικότητα στις ραδιοεπικοινωνίες.

Ας δούμε με λίγα λόγια για κάποιον που δεν γνωρίζει, τι κάνει το πρόγραμμα ECHOLINK.
Σχεδόν όλοι ξέρουν ότι με μέσο το Internet μπορούμε να 'περάσουμε' φωνή. Αυτό που προσθέτει το ECHOLINK είναι ότι εύκολα συνδέεις ένα ασύρματο (MIC με EAR και EAR με MIC , πομποδέκτη με κάρτα ήχου PC) είτε χρησιμοποιείς το MIC και μεγάφωνο του PC όπως συνήθως. Έτσι ο ήχος που φτάνει στο PC μέσω Internet εκπέμπετε στην όποια εμβέλεια του πομποδέκτη που έχουμε συνδέσει. Φυσικά μπορεί να μπει σε ένα υπάρχον Repeater. Αυτό που βλέπει κανείς σαν χρήστης είναι ότι μιλώντας σαν ένα κανονικό QSO στα VHF/UHF, μπορεί να επικοινωνεί

ταυτόχρονα με διαφορετικές περιοχές του πλανήτη, με ποιότητα ίδια με
τα VHF/UHF, ανεξάρτητα από διάδοση. Παρόμοια προγράμματα είναι
το IRLP, eQSO και WIRES/II της YAESU.

Υπάρχουν 4 ειδών ECHOLINK κόμβοι. Το ποιο απλό είναι κάποιος που
χρησιμοποιεί τον υπολογιστή του, έχει κάρτα ήχου, μικρόφωνο, μεγάφωνο
και σύνδεση Internet (κοινή) π.χ. SV1BDO . Μετά είναι οι δύο
τύπου link (π.χ. SV1BDS-L) και repeater (π.χ. SV5DDR-R).
Αυτές τεχνικά είναι οι ίδιες μόνο που για να ξεχωρίζουμε πότε
μιλάμε σε simplex και πότε σε repeater υπάρχει ξεχωριστή κατηγορία.
Ένας απλός χρήστης ασυρμάτου μπορεί στις δύο αυτές κατηγορίες
να κάνει πλήρη χρήση των δυνατοτήτων του ECHOLINK στέλνοντας
κατάλληλους
DTMF κωδικούς. Μια τέταρτη κατηγορία είναι οι conference servers,
που είναι σχεδιασμένοι για να συνδέονται πολλοί κόμβοι για
να συζητούν για ένα συγκεκριμένο θέμα , χωρίς στον conference server
να υπάρχει RF-link.

Εδώ με την ευκαιρία θα ήθελα να τονίσω ότι το τεχνολογικά ενδιαφέρον
σημείο στη λειτουργία του ECHOLINK είναι η προσπάθεια αποφυγής χαμένων
πακέτων που έχει σαν συνέπεια την απώλεια μικρών κομματιών φωνής.
Μπορεί κάποιος χρήστης να το διαπιστώσει αν λειτουργεί το ECHOLINK
και ταυτόχρονα 'κατεβάζει' αρχεία από το Internet. Γενικά η συνύπαρξη
δικτύων φωνής και δεδομένων (στην πράξη η ενσωμάτωση των δικτύων
φωνής στα δίκτυα δεδομένων) είναι ένα καυτό τεχνολογικά θέμα. Για
όσους θα θελήσουν περισσότερα μπορούν να βρουν στο site του Echolink
αλλά και στο άμεσο μέλλον μια ενδιαφέρουσα αναλυτική εργασία από τον
Αργύρη SV1DVV στο radio.phys.uoa.gr .

Για όσους δεν είχαν την ευκαιρία να το πληροφορηθούν, στο σεισμό
της Λευκάδας στήθηκε από το μηδέν νέος κόμβος στην Πάτρα, από τον
πολύ ενεργό τοπικό σύλλογο (ο κόμβος που υπάρχει στην Πάτρα δεν
λειτουργούσε και δεν υπήρχε η δυνατότητα άμεσα να επισκευασθεί).
Έτσι συνδέθηκε το R-1 της Λευκάδας με τον νέο προσωρινό κόμβο
και έτσι υπήρχε η δυνατότητα
η ΓΓΠΠ να επικοινωνεί και με το τελευταίο φορητό VHF μέσα στην
πληγείσα περιοχή. Επιπλέον από την τεχνική επιτροπή της ΕΕΡ στήθηκε
ταυτόχρονα VHF-UHF LINK με το R-1 έχοντας έτσι ΔΙΠΛΟ δρόμο
επικοινωνίας στη διάθεση της ΓΓΠΠ !!!
Λίγο καιρό μετά, το R-1 και η Λευκάδα είναι σχεδόν πλέον μόνιμα
κόμβος.
Γενικότερα πιστεύω ότι η κινητοποίηση των ραδιοερασιτεχνών στο
σεισμό της Λευκάδας, αποτελεί μια ακόμη σημαντική στιγμή στην
κοινωνική προσφορά του ραδιοερασιτεχνισμού στην Ελλάδα και το
τι μπορούμε να προσφέρουμε ενωμένοι σαν ραδιοερασιτέχνες.

Ας περάσουμε τώρα σε μερικά νέα του κόμβου της Αθήνας. Σίγουρα
σε κανέναν δεν άρεσε το 1 Watt στο 431.100. Το δεύτερο που
από την πρώτη στιγμή είχε τεθεί σαν απαραίτητη προδιαγραφή
ήταν CTCSS SQUELCH μια και είναι πολύ κοντά στη γνωστή πηγή

ραδιο-σαβούρας, λέγε με ΥΜΜΗΤΟ. Μετά από διάφορες προσπάθειες τελικά
επιλέγει να μπει ένας επαγγελματικός πομποδέκτης, με πολύ καλές
προδιαγραφές
ανθεκτικότητας, προσφορά από την ΕΝΩΣΗ ΕΛΛΗΝΩΝ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΩΝ (ΕΕΡ).
Έτσι με 20 WATT και 88.5 υπότονο (τον εκπέμπει αλλά και απαιτείτε
από εσάς στην εκπομπή σας) και το πολύ καλό καλώδιο (προσφορά τους
επίσης από πιο πριν) φάνηκαν επιτέλους μεγάλες διαφορές. Μια μόνο
παρατήρηση,
αν κάποιος έχει ιδιαίτερα μεγάλο DEVIATION τότε
ίσως να τον κόβει. Εδώ θα πρέπει δημόσια να ευχαριστήσω
την ΕΕΡ αλλά και ιδιαίτερα τον Δημήτρη SV1EDZ για την
άψογη συνεργασία και την επίλυση των δυσκολιών που βρέθηκαν στην
πορεία. Ακόμα τον Γιώργο SV8RX, τον Μάριο SV0CL και ιδιαίτερα
τον φίλο Αντώνη SV1GH για τις αμέτρητες φορές που με έχει βοηθήσει
στις σχετικές ταρατσοδουλειές και μετακινήσεις.

Όπως είπαμε προηγούμενα στέλνοντας DTMF κωδικούς εκτελούνται ανάλογες
λειτουργίες. Μια και ακόμα η αποκωδικοποίηση DTMF γίνετε προς το παρόν
με software (η επόμενη βελτίωση θα είναι να γίνει με hardware)
συνιστάτε
η εκπομπή κάθε τόνου να κρατάει περίπου 1/2 δευτερολέπτου και μην
παραξενευτείτε αν δεν ακούει και καλά όλους τους τόνους.
Εσείς προσπαθήστε πάντως να τους στέλνετε όσο πιο καθαρά μπορείτε.
Οι πιο χρήσιμες εντολές είναι :

00 επιλέγει τυχαία να συνδεθεί σε έναν διαθέσιμο κόμβο οπουδήποτε
τύπου
01 επιλέγει τυχαία να συνδεθεί σε ένα link ή repeater
02 επιλέγει τυχαία να συνδεθεί σε ένα conference server
03 επιλέγει τυχαία να συνδεθεί σε έναν χρήστη
08 εκφωνεί όλους όσους είναι συνδεδεμένοι
09 επανασυνδέει τον τελαιταια αποσυνδεδεμένο
αποσυνδέει τον τελευταία συνδεδεμένο
αποσυνδέει τους πάντες
* στέλνει το χαρακτηριστικό του σταθμού

Η πιο συνηθισμένη εντολή είναι να στείλουμε το 4-ψήφιο ή 5-ψήφιο
νούμερο του
αριθμού του κόμβου που θέλουμε να συνδεθούμε (είναι ένας ΜΟΝΑΔΙΚΟΣ
αριθμός για
κάθε κόμβο ή χρήστη που εύκολα μπορεί να μας πει ένας χρήστης του
ECHOLINK).
Υπάρχουν φυσικά επιπλέον εντολές αλλά ας αφήσουμε και κάτι σε σας.

Μια πολύ χρήσιμη προσθήκη στο ECHOLINK από τον συγγραφέα του
ήταν να προστεθούν η δυνατότητα συντομεύσεων κλήσης των κόμβων.
Δεν είναι ανάγκη να θυμόσαστε πλέον τα 4-5 ψηφία ενός κόμβου αλλά μόνο
2.
Έτσι για τους σημερινούς κόμβους έχουμε :

21 SV2BZQ-R ΕΔΕΣΣΑ R4
29 VK2IR-L SYDNEY
31 SV3CHA-L ΡΙΟ/ΠΑΤΡΑ 145.475
51 SV5DDR-R ΡΟΔΟΣ 430650+R2
61 SZ6IOA-L IOANNINA 145.475
81 SV8BEV-L ΜΥΤΙΛΗΝΗ 145.350 (ΕΚΤΟΣ ΛΕΙΤΟΥΡΓΙΑΣ)
82 SV8G-R ΧΙΟΣ R0
83 SV8FMT-L ΣΑΜΟΣ 431.100
84 SV8BUS-R ΛΕΥΚΑΔΑ R-1 (ΕΚΤΟΣ ΛΕΙΤΟΥΡΓΙΑΣ)
91 SV9ADY-L ΗΡΑΚΛΕΙΟ 145.475
92 SV9AKH-L ΙΕΡΑΠΕΤΡΑ 431.100 / 88.5

Η λογική αυτή (πιστεύω προφανής) θα συνεχιστεί και για μελλοντικούς κόμβους.

Ας δούμε τώρα ποια είναι τα συνηθισμένα προβλήματα που αντιμετωπίζει ένας νέος χρήστης του προγράμματος στο PC του και είναι συνήθως τα εξής :

- ΠΡΟΒΛΗΜΑ : Δεν βλέπω την λίστα με τα CALLSIGN.
ΛΥΣΗ: Υπάρχει πρόβλημα με την ενεργοποίηση του CALLSIGN . Δείτε στο Email σας μήπως υπάρχει κάποιο σχετικό μήνυμα (ΜΗΝ ΞΕΧΝΑΤΕ και ΜΗΝ ΔΗΜΟΣΙΟΠΟΙΗΤΕ το password που βάλλατε).

- ΠΡΟΒΛΗΜΑ : Όταν συνδέομαι με οποιονδήποτε μετά από 30 δευτερόλεπτα τον αποσυνδέει με το μήνυμα 'TIMEOUT'.
ΛΥΣΗ : οφείλετε στην ύπαρξη FIREWALL ή ROUTER.
Σε ΚΑΜΜΙΑ ΠΕΡΙΠΤΩΣΗ μην βγάλετε μόνιμα το FIREWALL γιατί θα γεμίσετε 'μαμούνια' !! Αν έχετε WINDOWS XP τότε ακολουθήστε τις αναλυτικές οδηγίες στο site του ECHOLINK στο link (1) που αναφέρουμε στο τέλος. Αν έχετε όποια άλλη κατάσταση δείτε στο σχετικό link (2).

- ΠΡΟΒΛΗΜΑ : Συνδέομαι κανονικά , τους άκουω κανονικά αλλά όταν μιλάω δεν ακούγεται τίποτε.
ΛΥΣΗ : ΜΗΝ ΕΝΟΧΛΗΤΕ τους άλλους, συνδεθείτε
όση ώρα θέλετε στον ECHOTEST SERVER (υπάρχει εντολή). O SERVER αυτός επαναλαμβάνει (σαν παπαγαλάκι την φωνή μας) λίγα δευτερόλεπτα μετά αφού αφήσουμε το PTT. Έτσι μπορούμε να κάνουμε όσες δοκιμές θέλουμε χωρίς να ενοχλούμε. Όταν μιλάτε και 'βγαίνει΄ φωνή προς τα έξω τότε η μπάρα κάτω μετακινείτε ανάλογα με μπλε χρώμα. Τα 'ποτενσιόμετρα'
για την 'εκπομπή' είναι διαφορετικά από τη λήψη. Για την εκπομπή στο menu : Tools / Adjust Volume / Recording επιλέξτε το MIC σαν συσκευή και δοκιμάστε. Η μόλε μπάρα πρέπει να γεμίζει και ίσα-ίσα να μην κιτρινίζει (ή έστω ελάχιστα). Η καλύτερη θέση του MIC είναι στο πλάι του στόματος (όχι μπροστά - αλλά στην άκρη του χείλους) για να αποφεύγετε το γνωστό 'πλατσούρισμα'.

Σαν ραδιοερασιτέχνες προσπαθούμε να έχουμε κάποιους κανόνες 'καλής συμπεριφοράς' ανάλογα με το μέσο επικοινωνίας που κάθε φορά χρησιμοποιούμε. Στο ECHOLINK έχουμε μια σημαντική ιδιαιτερότητα. Υπάρχει μια καθυστέρηση λίγων δευτερολέπτων κατά τη μετάδοση της

φωνής. Αυτό έχει σαν απαίτηση για να μπορούμε να κάνει κάποιος διακοπή
από άλλο σημείο να πρέπει να αφήνουμε κενό ΤΟΥΛΑΧΙΣΤΟΝ 5 ΔΕΥΤΕΡΟΛΕΠΤΑ!
!
Πρακτικά δεν χρειάζεται να αφήνουμε κάθε φορά το ΑΠΑΙΡΑΙΤΗΤΟ αυτό κενό
αλλά τουλάχιστον μια φορά σε κάθε 'γύρο' του QSO. Είναι πολύ
χρήσιμο (αντίθετα με τα άλλα QSO) να λεει ο ΠΡΟΗΓΟΥΜΕΝΟΣ ότι
ο επόμενος θα αφήσει ένα μεγάλο κενό . Έτσι όποιος θέλει να κάνει
διακοπή η να στείλει μια εντολή τηλεχειρισμού στο LINK του να
μπορεί. Πιστεύω ότι αρκετοί συνάδελφοι θα έχουν νιώσει την
αδυναμία να καλέσουν στο LINK του R5 από τα πολλές φορές απανωτά και
με ελάχιστα κενά QSO. Πόσο μάλλον εδώ που χρειάζονται 5 ολόκληρα
δευτερόλεπτα για να μπορέσει κάποιος να καλέσει. Εδώ με την ευκαιρία
να ξαναειπωθεί ΔΕΝ ΛΕΜΕ ΤΗ ΛΕΞΗ ΔΙΑΚΟΠΗ αλλά ΟΛΟΚΛΗΡΟ και ΜΟΝΟ το
ΧΑΡΑΚΤΗΡΗΣΤΙΚΟ ΜΑΣ.
Συνηθισμένο ακόμα είναι το φαινόμενο
κάποιος που θέλει να χρησιμοποιήσει το link να αρχίζει να στέλνει DTMF
κωδικούς χωρίς να έχει πει το χαρακτηριστικό του και μερικές φορές να
το αποσυνδέει , μην ερωτώντας αν κάποιος ήδη χρησιμοποιεί το link
(να ρωτήσει αυτό που μας μαθαίνανε στις εξετάσεις : is this frequency
in use ?)

Ένα πρόβλημα που δεν μπορεί να αντιμετωπιστεί όταν έχουμε link,
είναι το γνωστό στον κόσμο του packet σαν hidden terminal, δηλαδή
δύο σταθμοί που ακούν μεν και οι δύο το link αλλά δεν ακούγονται
μεταξύ τους τότε πατάει ο ένας τον άλλον μην μπορώντας να αντιληφθεί
ο ένας την εκπομπή του άλλου. Για να αποφεύγετε η δυσάρεστη αυτή
κατάσταση
καλό είναι πρώτα από όλα να το γνωρίζουμε ώστε όταν συμβαίνει να το
αναγνωρίζουμε. Το μόνο που μπορούμε είναι να χρησιμοποιούμε για
το ECHOLINK σε link την καλύτερή μας κεραία και όχι rubber.

Με την ευκαιρία θα ήθελα να ζητήσω συγνώμη
και την κατανόηση τους από όλους τους συναδέλφους που κάποιες φορές
μονοπωλούμε ή και εκτρέπουμε το υπάρχων QSO για να συζητήσουμε τεχνικά
ή άλλα θέματα σχετικά με την λειτουργία κόμβων.

Θα μου επιτρέψετε να εκφράσω και ένα κρυφό παράπονο. Πάρα πολλοί
Έλληνες της διασποράς έχουν πλέον ανοιχτή γραμμή με την πατρίδα.
Από όσο έχω ακούσει π.χ. στη Νέα Υόρκη δεν λείπουν ούτε οι Έλληνες,
ούτε οι αναμεταδότες (3 μάλιστα από όσο ξέρω) αλλά ούτε και οι DSL
γραμμές. Παρά όλα αυτά δεν έχω δει έναν αναμεταδότη να μπει στο
ECHOLINK και να μην είναι μόνο το SYDNEY καθημερινά online
με την πατρίδα.

Από εδώ θα ήθελα να ξέρει όποιος ατομικά ή συλλογικά θελήσει να
στήσει κάποιον κόμβο, ότι δεν είναι κάτι το πολύ δύσκολο και στο
μέτρο του όποιου ελεύθερου χρόνου μου θα τον βοηθήσω ώστε
ακόμα μια περιοχή να βελτιώσει τις δυνατότητες επικοινωνίας της.
Αυτό που κύρια χρειάζεται είναι μια μόνιμη σύνδεση Internet όχι
ιδιαίτερα φορτωμένη. Τα ανώτατα εκπαιδευτικά ιδρύματα αποτελούν μια

ιδανική λύση και έχουν συμβάλει αποτελεσματικά στην προσπάθεια αυτή.
Από εκεί και πέρα ένα PC Pentium 200 το πολύ και ένας πομποδέκτης
με πολύ καλές αντοχές για παρατεταμένη λειτουργία στην επιθυμητή ισχύ
μάλλον κάπου εύκολα μπορεί να βρεθεί. Μετά με τη δυνατότητα για
τηλεχειρισμό του προγράμματος και του υπολογιστή περιορίζονται οι
επί τόπου μετακινήσεις.

Για τα υπάρχοντα links αλλά και για τα μελλοντικά , μετά από
τη σωστή πρόταση του γνωστού μας Νίκου SV1AMA,
προτείνετε να χρησιμοποιούμε τις συχνότητες 431.100 και 145.475 ώστε
να
μην μπερδεύετε κάποιος όταν πάει σε κάποια περιοχή.

Ελπίζω οι κόμβοι που υπάρχουν να βοηθήσουν στην επικοινωνία όσων
ραδιοερασιτεχνών έρθουν για οποιοδήποτε λόγο στην πατρίδα μας την
περίοδο των Ολυμπιακών Αγώνων. Νομίζω άτι το πνεύμα φιλοξενίας
που μας διακρίνει, να οδηγήσει στο να τους διευκολύνουμε να
χρησιμοποιήσουν τα διάφορα link τη σύντομη αυτή περίοδο.

Ραντεβού στο ECHOLINK

73 de George SV1BDS

Υ.Γ. Για τους φανατικούς των HF που με 'κατηγορούν' ότι κάνω τους
χρήστες βραχέων πομποδεκτών να τα ΄πετάνε' να μην ανησυχούν.
Για αυτούς 'δουλεύω' , για να πέσουν οι τιμές και να τα μαζέψουμε
μισοτιμής....

ΑΡΘΡΟ 3
ECHOLINK NEA

Αγαπητοί φίλοι ραδιοερασιτέχνες γειά σας

Μετά από αρκετούς μήνες που είχα επικοινωνήσει μαζί σας, με αφορμή
τώρα την εγκατάσταση ECHOLINK στο RU5 τα λέμε ξανά.

Η υφιστάμενη ραδιοκάλυψη του ECHOLINK SV1BDS-L στο 431.100 παρότι αυτό
βρίσκετε σε προνομειακό σημείο, που θα θέλαμε πολλοί από μας να έχουμε
σαν QTH, δεν μπορεί φυσικά να καλύψει όλη την Αθήνα. Περιοχές από την
Ηλιούπολη και πέρα έχουν φυσικό εμπόδιο την σκιά του Υμητού. Όποτε

κάτι πήγαινε στραβά, κόλημα HY, χάσιμο δικτύου ή και ακόμα κόψιμο ρεύματος για συτήρηση, κάποιος δεν είχε εναλλακτική λύση. Ετσι με την Ενωση Ελλήλων Ραδιοερασιτεχνών έγινε συζήτηση για εγκατάσταση σε κάποιο αναμεταδότη της περιοχής Αθήνας και τελικά προτάθηκε το RU5.

Παρότι θα μπορούσε και το νέο σύστημα να λειτουργήσει στο παλαιό σημείο, για να μην έχει κοινά σημεία βλάβης με το 431.100, επιλέχθηκε να εγκατασταθεί στην ΕΕΡ που υπάρχει ήδη DSL γραμμή. Για ένα σύστημα που λειτουργεί ανεπιτήρητο, σημαντική είναι η συνολική αξιοπιστία.
Ετσι αν και μπορούσαμε εύκολα να βρούμε ένα οποιδήποτε HY, ο φίλος Γιώργος SV1RP, που διατηρεί το κατάστημα OCCASION COMPUTER SHOP, μας πρόσφερε έναν HY μάρκας COMPAQ που διακρίνετε σαν μάρκα για την αξιοπιστία της.

Αφού συνδέσαμε έναν πομποδέκτη, κάναμε τις πρώτες δοκιμές, έγινε και η τελική εγκατάσταση με χαρακτηριστικό πια SZ1SV-R. Στον αναμεταδότη αυτόν όμως λειτουργούσε ήδη το παρόμοιο WIRES II. Για να αποφύγουμε το μπέρδεμα των εντολών του ECHOLINK με το WIRES II αλλάχτηκαν ελαφρά οι εντολές του ECHOLINK. Οι εντολές του WIRES II αρχίζουν από # και όταν ακούσει οτιδήποτε άλλο έβγαζε μύνημα για λάθος εντολή. Ετσι ακολουθώντας την υπάρχουσα πρακτική που εφαρμόζετε και στους άλλους κομβούς με συνύπαρξη ECHOLINK και WIRES II, είπαμε στο WIRES II να αγνοεί ότι αρχίζει από * και όλες τις εντολές του ECHOLINK τις μετατρέψαμε ώστε να έχουν ένα * μπροστά. Ετσι για παράδειγμα η αποσύνδεση έγινε *##.

Για όσους δεν θυμούνται τις εντολές παραθέτουμε τις κυριότερες στον παρακάτω πίνακα και τις συντομεύσεις που έχουν μπεί στα SV1BDS-L (431. 100) , SZ1SV-R (RU5) SV3CHA-L Ρίο-Πάτρα(145.475). Υπενθυμίζω ότι η λογική που έχει ακολουθηθεί στις συντομεύσεις είναι διψήφια νούμερα με το πρώτο νούμερο την περιοχή που βρίσκετε ο κόμβος και ένα αύξοντα αριθμό για δεύτερο ψηφίο.

ΠΙΝΑΚΑΣ ΚΥΡΙΟΤΕΡΩΝ ΕΝΤΟΛΩΝ

00 επιλέγει τυχαία να συνδεθεί σε έναν διαθέσιμο κόμβο οπουδήποτε τύπου
01 επιλέγει τυχαία να συνδεθεί σε ένα link ή repeater
02 επιλέγει τυχαία να συνδεθεί σε ένα conference server
03 επιλέγει τυχαία να συνδεθεί σε έναν χρήστη
08 εκφωνεί όλους όσους είναι συνδεδεμένοι
09 επανασυνδέει τον τελευταία αποσυνδεδεμένο
αποσυνδέει τον τελευταία συνδεδεμένο
αποσυνδέει τους πάντες
* στέλνει το χαρακτηριστικό του σταθμού

1599. HAMFEST - THESSALONIKI.

Ο Συλλογος Ραδιοερασιτεχνων Ελλαδος Θα συμμετεχη και φετος στο Ham
Fest στην Θεσσαλονίκη στις 24-25/9/2005.
Με χαρα σας περιμενουμε στο περιπτερο μας.
73

Η ΡΑΔΙΟΛΕΣΧΗ ΘΕΣΣΑΛΟΝΙΚΗΣ SZ2 GR στην ετήσια εκδήλωσή της, διοργανώνει
την 9η ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΙΚΗ ΣΥΝΑΝΤΗΣΗ
ΒΟΡΕΙΟΥ ΕΛΛΑΔΟΣ HAM FEST 2005 με την στήριξη της ΝΟΜΑΡΧΙΑΣ
ΘΕΣΣΑΛΟΝΙΚΗΣ και χορηγό τον ΟΡΓΑΝΙΣΜΟ ΛΙΜΕΝΟΣ ΘΕΣΣΑΛΟΝΙΚΗΣ

Η έκθεση θα αναπτυχθεί στον χώρο του Ο.Λ.Θ., το Σάββατο 24 Σεπτεμβρίου
2005 και την Κυριακή 25 Σεπτεμβρίου 2005 στην ΑΠΟΘΗΚΗ 8, (ΠΡΟΒΛΗΤΑ 2).
Στην συνάντηση αυτή θα παρουσιαστούν ασύρματοι με σπάνια συλλεκτική
αξία από την εποχή του Samuel MORSE (1835), του Thomas Edison, του
Γουλιέλμου Μαρκόνι (1895), αλλά και τελευταίας γενιάς ασύρματοι.

Γνωρίζοντας ότι και το δικό σας ενδιαφέρον στρέφεται γύρω από τις
ασύρματες επικοινωνίες, σας απευθύνουμε την πρόσκληση προκειμένου να
παρευρεθείτε μαζί μας στην εκδήλωση αυτή.

Λειτουργία Έκθεσης :
Σάββατο 24/9/2005 από 12:00 μ.μ. έως 09:00 μ.μ.
Κυριακή 25/9/2005 από 08:00 π.μ. έως 04:00 μ.μ.
Είσοδος : Ελεύθερη

VO1MRC Experiments on 60 Meters
Published on 10/18/05 at 01:16:58 EST by KC2FTN

The Marconi Radio Club of Newfoundland (MRCN) station VO1MRC will be conducting an experiment from 0000-2400 UTC on the 22nd and 23rd of October 2005. During this period, a CW beacon will be in operation on 5269.5 kHz to determine the diurnal variations in propagation. Signal reports from local and distant stations will be gratefully received.

VO1MRC will be open briefly for 2 way contacts with stations authorized to transmit on 60 metres starting 0000 UTC each of these days and will operate simplex on 5260.5 kHz CW and receive also on 5346.5 USB. Please note that this will start on the evening of Friday 21 October in North America.

The experiment was proposed by MRCN, endorsed by Radio Amateurs of Canada and authorized by Industry Canada. For further information, please check the MRCN web site by searching for VO1MRC on the Internet.

VO1MRC Experiments on 60 Meters
Published on 10/18/05 at 01:16:58 EST by KC2FTN

The Marconi Radio Club of Newfoundland (MRCN) station VO1MRC will be conducting an experiment from 0000-2400 UTC on the 22nd and 23rd of October 2005. During this period, a CW beacon will be in operation on 5269.5 kHz to determine the diurnal variations in propagation. Signal reports from local and distant stations will be gratefully received.

VO1MRC will be open briefly for 2 way contacts with stations authorized to transmit on 60 metres starting 0000 UTC each of these days and will operate simplex on 5260.5 kHz CW and receive also on 5346.5 USB. Please note that this will start on the evening of Friday 21 October in North America.

The experiment was proposed by MRCN, endorsed by Radio Amateurs of Canada and authorized by Industry Canada. For further information, please check the MRCN web site by searching for VO1MRC on the Internet.

Source: RAC

Please report reception of the beacon to WUN. I listened from 0115 to 0330 UTC but I did not hear anything.

For more info: http://www.ucs.mun.ca/~jcraig/5megex.html

Regards,

Costas

1610. NEA GIA TO PACKET STIN THESSALONIKI.

Yahoo group: thegreekhamradio
Date: 2005-10-27 04:44:26 UTC
From: sxanthop
Topic: 1610 Message: 1610

Καλημέρα σε όλους,

Αυτό το μήν;υμα έχει σκοπό να ενημερώσει όσους ενδιαφέρονται ακόμα γ 53;α το τι συμβαί 57;ει στο packet στην χώρα μας. Τις τελευταίες μέρες, έχει σταματήσ 49;ι να λειτουργ^9;ί 1 απο τις 2 bbs που λειτουργούν α 54;όμα στην Θεσσ^5;λονίκη με την `3;υμβολή του SV2RQ (Σ^0;κη). Η SV2DXC bbs δυστηχα4;ς σταμάτησε να; λειτουργεί λόγω σοβαρού τεχνικού προβλήμ 45;τος που προέκ`5;ψε και με επικ_9;ινωνία μου με `4;ον Σάκη, μου εί 60;ε οτι θα κάνει οτι μπορεί έτσ 53; ώστε να επανέ 55;θει η bbs σε "κανο_7;ική" λειτουργί;α, όσο αυτό είν^5;ι δυνατόν μετά; απο ένα τέτοιο; σοβαρό πρόβλημα.

Το σημαντικ;ότερο είναι, οτ;ι παρά τα σοβαρ;ά προβλήματα και την ΕΛΛΕΙΨΗ των χρηστών του packet (προφανώς λόγω του internet και τω 57; χαμηλών ταχυ`4;ήτων στο packet) κάπ 59;ιοι χρήστες ε_8;ακολουθούν να το χρησιμοποιούν ακόμα. Έτσι λοιπόν, γι'αυτούς που ακόμα θέλουν να ασχολούνται με αυτό το "mode"...απλά ενημερ;ώνονται οτι σε λίγο θα επανέλθει η λειτουργία της bbs στα καν 59;νικά της επίπ^9;δα.

Ευχαριστοα3;με όλους όσους; ασχολούνται ακόμα με το packet (γε_7;ικά στην Ελλάδ;α) και μας δίνο`5;ν την δυνατότη;τα να πέρνουμε/στέλνουμε πληροφορίες με έναν πιο "ραδιοερασιτεχνικό" τρ 72;πο.

Αυτό το μήνυμα έχει σκοπό να ενημερώσει όσους ενδιαφέρονται ακόμα για το τι συμβαίνει στο packet στην χώρα μας. Τις τελευταίες μέρες, έχει σταματήσει να λειτουργεί 1 απο τις 2 bbs που λειτουργούν ακόμα στην Θεσσαλονίκη με την συμβολή του SV2RQ (Σάκη). Η SV2DXC bbs δυστηχώς σταμάτησε να λειτουργεί λόγω σοβαρού τεχνικού προβλήματος που προέκυψε και με επικοινωνία μου με τον Σάκη, μου είπε οτι θα κάνει οτι μπορεί έτσι ώστε να επανέλθει η bbs σε "κανονική" λειτουργία, όσο αυτό είναι δυνατόν μετά απο ένα τέτοιο σοβαρό πρόβλημα.

Το σημαντικότερο είναι, οτι παρά τα σοβαρά προβλήματα και την ΕΛΛΕΙΨΗ των χρηστών του packet (προφανώς λόγω του internet και των χαμηλών ταχυτήτων στο packet) κάποιοι χρήστες εξακολουθούν να το χρησιμοποιούν ακόμα. Έτσι λοιπόν, γι'αυτούς που ακόμα θέλουν να ασχολούνται με αυτό το "mode"...απλά ενημερώνονται οτι σε λίγο θα επανέλθει η λειτουργία της bbs στα κανονικά της επίπεδα.

Ευχαριστούμε όλους όσους ασχολούνται ακόμα με το packet (γενικά στην Ελλάδα) και μας δίνουν την δυνατότητα να πέρνουμε/στέλνουμε πληροφορίες με έναν πιο "ραδιοερασιτεχνικό" τρόπο.

1617. APANTHSH SE EROTIMA MOU STIN EETT GIA TA CROSS BAND REPEAT

Yahoo group: thegreekhamradio
Date: 2005-11-09 16:35:13 UTC
From: sxanthop
Topic: 1617 Message: 1617

Σε απάντηση του ερωτήματός σας, σας πληροφορούμε ότι το cross-band
repeat
δεν προβλέπεται σε εμπορικά συστήματα και ως εκ τούτου δεν εκχωρείται
σε
εφαρμογές VHF/UHF.

Με τιμή,

1622. 6528 - 6685 kHz ham radio pirate activity ?

Yahoo group: thegreekhamradio
Date: 2005-11-15 18:18:58 UTC
From: Costas
Topic: 1622 Message: 1622

Διάβασα στο 5-9 Report την επιστολή του μανδαρίνου της
ΕΕΤΤ σχετικά με τους πειρατές στους 6.5 MHz. Καλά, δε
βρέθηκε κάποιος από τους παράγοντες των ραδιοερασιτεχνικών
σωματείων να του την τρίψει στα μούτρα ως απαράδεκτη
και να του κάνει και μήνυση για δυσφήμηση ?

Εκτός και αν έχουμε λερωμένη τη φωλιά μας και δεν το ξέρω,
ενώ οι παράγοντες μας έχουν καλυτερη ενημέρωση!

Μανόλη, δυστυχώς είναι σε Unicode και τα περισσότερα προγράμματα
δεν το δείχνουν σωστά. Στο mail.gr όμως διαβάζεται:

> Κάηκε και η σειριακή κάρτα που είχε μέσα το PC.
> Είχα την sv2dxc καιρό εδώ πέρα αλλά που να φανταστώ
> ότι είχε καεί και η κάρτα με τις σειριακές πόρτες

1645. ODHGIES GIA TON DEKTH BRAXEON STO ECHOLINK apo ton SV1BDS

Yahoo group: thegreekhamradio
Date: 2005-12-16 16:59:45 UTC
From: sxanthop
Topic: 1645 Message: 1645

SV1BDS / HamRadio 105-12-16, Παρασκευή
ΟΔΗΓΙΕΣ ΓΙΑ ΤΗ ΧΡΗΣΗ ΤΟΥ ΤΗΛΕΧΕΙΡΙΖΟΜΕΝΟΥ ΔΕΚΤΗ ΒΡΑΧΕΩΝ

Αφού συνδεθείτε με το ECHOLINK στο SV3CHA-R έχετε αμέσως λήψη σε ότι ακούει ο δέκτης εκείνη τη στιγμή. Αν είστε ο μοναδικός ακροατής θα δείτε αναλυτικά τις οδηγίες που θα παρουσιαστούν στο πάνω δεξιό παράθυρο. Αν υπάρχουν και άλλοι πριν από σας θα δείτε εκεί τη λίστα με όλα τα callsigns. Στο κάτω δεξιά μικρό παράθυρο θα σας δείξει ένα μήνυμα στα Αγγλικά για το πώς θα δώσετε HELP για βοήθεια και τη συχνότητα και το MODE (USB,LSB,AM,FM,CW) που ακούγεται εκείνη τη στιγμή για παράδειγμα : 14.285,00 USB.
Για να αλλάξετε τη συχνότητα δίνετε τη νέα συχνότητα π.χ. 14200 και πατάτε το Send κουμπί δίπλα. Αφού το στείλετε θα δείτε ότι θα στείλει Executing 14200 δείχνοντας μας ότι εκτελείτε η εντολή που δώσαμε. Αμέσως μετά θα πρέπει να δείξει τη νέα συχνότητα και το τρέχον MODE π.χ. 14200 USB. Για να αλλάξετε το MODE δίνετε τη κατάλληλη λέξη π.χ.LSB και μετά βλέπετε την απεικόνιση Executing LSB και μετά παρουσιάζετε το τελικό αποτέλεσμα συχνότητα και MODE.
Υπάρχει και η εντολη SCAN που επιτρεπει το ψάξιμο ξεκινώντας από την τρέχουσα συχνότητα με βήμα που ορίζουμε (από 0,01 - 25 σε KHz). Για παράδειγμα SCAN +1 ξεκινάει από την τρέχουσα συχνότητα και συνεχίζει με βήμα 1 KHz ενώ SCAN -0,1 συνεχίζει προς τα κάτω με βήμα 100Hz.

Ας δούμε τώρα πιο αναλυτικά διάφορα θέματα.

- Ο δέκτης είναι ICOM R72 30KHz - 30MHz.
- Όταν δίνετε τη συχνότητα ΜΗΝ δίνεται και το MODE μαζί, αλλά χωριστά . Μην σας μπερδεύει το ότι τα παρουσιάζει μαζί.
- Τη συχνότητα να τη δίνετε με έναν από τους εξής τρόπους 14.285 ή 14285 (ΟΧΙ 14,285) ή 14285,23 ή 14.285,23 (ΟΧΙ 14285.23).
- Από τον συγγραφέα του προγράμματος ECHOLINK αγνοούνται οι επαναλαμβανόμενες εντολές. Αυτό μπορεί να γίνει πολύ εκνευριστικό πολλές φορές όταν χρειάζεται να δίνετε τις ίδιες εντολές ξανά και ξανά. Αυτό που θα δείτε είναι αν και θα δίνετε μια εντολή αυτή να μην σας την αναγνωρίζει και να την αγνοεί. Φυσικά δεν φαίνεται το Executing. Η λύση είναι για τη μεν συχνότητα να δώσετε κάποια άλλη και μετά αυτή που θέλετε μέχρι να την πάρει ενώ για το MODE είναι πιο απλή προσθέτετε όσα και όποια γράμματα θέλετε π.χ. για LSB δίνετε LSBKSGHGT.
- Για να αποφύγουμε την μη εμφάνιση της συχνότητας λόγω του προηγούμενου προβλήματος μπαίνει ένας ψευδοτυχαίος χαρακτήρας πριν την εμφάνιση της τρέχουσας συχνότητας και του MODE , απλά αγνοήστε τον.
- Αν θέλετε να δείτε ή να επαληθεύσετε σε ποια συχνότητα είσαστε αν γράψετε οτιδήποτε τότε σας δείχνει την τρέχουσα συχνότητα και το MODE.

- Αν είσαστε περισσότεροι από ένας τότε με το σωστό ραδιοερασιτεχνικό πνεύμα που πρέπει να μας διακρίνει γίνετε συνεννόηση για το ποια συχνότητα θα ακούτε από κοινού. Αν κάποιος θέλει για παράδειγμα να κάνει μια δοκιμή για να δει αν περνάει ας τον αλλάξει για παράδειγμα και μετά ας επιστρέψει στο 'καφενείο' που ακούει ο άλλος. Η συνεννόηση μπορεί να γίνει γράφοντας ότι θέλετε στο Chat αρκεί φυσικά να μην δώσετε μια πρόταση που αρχίζει πχ από LSB USB FM AM CW.
- Σύνδεση μπορεί να γίνει ΜΟΝΟ από χρήστες και όχι από link ή repeaters. Ο λόγος είναι διπλός, να μην ακουστούν 'μπουζούκια' στον αέρα και επιπλέον αν συνδεθεί ένα link ή repeater είναι αδύνατο να αποσυνδεθεί.
- Αν σας βγάζει TIMEOUT μετά από λίγα λεπτά και σας αποσυνδέει βάλτε 0 το χρόνο στο Tools, Setup , Timing , Receive timeout.
- Βάζετε πάντα στην εντολή SCAN ένα κενό μεταξύ της εντολής και του + ή - Παράδειγμα SCAN +1 (ΝΑΙ) SCAN-5 (ΟΧΙ).
- Αν δείτε οποιαδήποτε δυσλειτουργία, έχετε οποιοδήποτε σχόλιο ή πρόταση γράψτε μας στο sv1bds@yahoo.com ή βάλτε φωνή όπου με ακούσετε.

73 και καλή ακρόαση

Subject: OE1HPS in Greece?

Hello Spiros,

maybe you can help me: I am looking for the current address (+eMail) of
Herbert Platzer, OE1HPS. He lived in Vienna years ago, but the
Information on qrz.com shows that he lives in greece:
http://www.qrz.com/detail/OE1HPS

The eMail-address seems to be valid, but he did not respond until now.
I do not know whether this address is close to you or not; maybe you
have friedns living close to him? Any idea?

73 and thanks in advance,
Stefan, DL3ESM.

Αγαπητέ Συνάδελφε Sv2evs, Χρόνια πολλά και καλή χρονιά.

Το ΥΠ.Μ.Ε. μας γνωστοποίησε πρόσφατα ότι εξετάζει το ενδεχόμενο τροποποίησης του Κανονισμού Ραδιοερασιτέχνη (Υ.Α. του 2000) με σκοπό την δημιουργία μιας ενιαίας άδειας και την κατάργηση της εξέτασης στον κωδικα Morse. Το Δ.Σ. της Ε.Ε.Ρ. παρά το γεγονός ότι δεν αντιτίθεται αρχικά στην εναρμόνιση με την ισχύουσα CEPT TR 62-01, θεωρεί ότι υπάρχουν εξ' ίσου σημαντικά θέματα που χρήζουν εναρμόνισης προηγούμενα (εναρμόνιση του Εθνικού Κανονισμού Κατανομής Ζωνών Συχνοτήτων, υλοποίηση στο σύνολο των όσων περιγράφει η Υ.Α. σε σχέση με την διενέργεια εξετάσεων, ουσιαστική επιτήρηση του φάσματος, εναρμόνιση επαναληπτών, ραδιοφάρων κ.λ.π.). Προκειμένου όμως να εκφράσουμε την δική σας άποψη, στο ερχόμενο τεύχος του SV-Νεα που θα είναι στα χέρια σας μεχρι τις 20 του Γενάρη, έχουμε βάλει ένα απαντητικό δελτάριο το οποίο θέλουμε να μας στείλετε με κάποιον από τους προτεινόμενους τρόπους (θα υπάρχει και στις ιστοσελίδες της Ε.Ε.Ρ.) δηλώνοντας την γνώμη σας.Το σύνολο των αποτελεσμάτων που θα συγκεντρώσουμε μέχρι τέλος Φεβρουαρίου 2006 θα καθορίσει και την ουσιαστική στάση μας στο εν λόγω θέμα.

Πολλά 73!

RAAG WEB TEAM

1658. Νέο Ραδιοερασιτεχνικό φόρουμ

Yahoo group: thegreekhamradio
Date: 2006-01-05 16:14:55 UTC
From: sv1eex
Topic: 1658 Message: 1658

Αγαπητοί φίλοι και συνάδελφοι Καλή Χρονιά.

Θα ήθελα να σας αναγγείλω τη δημιουργία του πρώτου Ελληνικού
ανεξάρτητου Ραδιοερασιτεχνικού φόρουμ από τον συνάδελφο SW6JIV Λευτέρη.

Η διεύθυνση που μπορείτε να το βρείτε είναι:

`http://www.hamradio.gr/forum`

Ο στόχος του φόρουμ είναι να γίνει σημείο επαφής των φίλων του χόμπυ
με τους αδειούχους ραδιοερασιτέχνες αλλά και ένα στέκι συνάντησης όλων
των Ελλήνων(και όχι μόνο) Ραδιοερασιτεχνών για ανταλλαγή απόψεων και
εμπειριών.

Δεν εκφράζει την γραμμή κάποιας ομάδας ή συλλόγου και με αυτό το
σκεπτικό ο καθένας θα δύναται να έχει ένα βήμα έκφρασης και απόκτησης
γνώσης με το επίπεδο που θέλουμε να πιστεύουμε πως έχουμε ως
ραδιοερασιτέχνες αλλά και επιπλεον φιλοδοξεί να φέρει κόντα όλους μας
ανεξαρτήτως.

Αξίζει να σημειωθεί ότι η υλοποίηση έγινε αποκλειστικά με την φροντίδα
και το μεράκι του Λευτέρη.

Η πρόσβαση του φόρουμ περιλαμβάνει τρεις κατηγορίες χρηστών:

1) τους μη αδειούχους που έχουν δικαίωμα πρόσβασης για ανάγνωση σε όλο
το forum και υποβολής απόψεων σε κάθε κατηγορία εκτός των θεματικών
ενοτήτων που είναι για τους αδειούχους.

2)τους αδειούχους που μπορούν να έχουν πλήρη πρόσβαση σε κάθε θεματική
ενότητα

3) τους συναδέλφους από εξωτερικό που επιθυμούν να έρθουν σε επαφή με
τον Ελληνικό Ραδιοερασιτεχνισμό και σε αυτό το πλαίσιο η θεματολογία
γίνεται στα αγγλικά.

J44LEK info
Δημοσιέυθηκε: Sat Jan 07, 2006 8:14:49 by sv1awl
ΘΕΣΣΑΛΟΝΙΚΗ 2/ 01/ 2006

ΘΕΜΑ: «Ανακοίνωση»

Το κλαδικό όργανο της Λέσχης Ελλήνων Καταδρομέων με την επωνυμία Ειδική Ομάς Πολλαπλών Αποστολών, το οποίο υπάγεται απ☐ ευθείας στη Γενική Γραμματεία Πολιτικής Προστασίας, στα πλαίσια του τριμηνιαίου προγράμματος εκπαιδεύσεως πρόκειται να μεταβεί κατόπιν αδείας της Διευθύνσεως Ειδικών Δυνάμεων του Γ.Ε.Σ. στο Κ.Ε.Ο.Α.Χ. (κέντρο εκπαιδεύσεως ορεινού αγώνα και χιονοδρομιών) που βρίσκεται στη θέση «Βρυσοπούλες» στο όρος Όλυμπος.

Κατά την εκπαίδευση σε θέματα χειμερινής διαβίωσης σε χιονοσκεπείς περιοχές με μεγάλο υψόμετρο θα εγκατασταθεί και ραδιοερασιτεχνικός σταθμός, από το αντίστοιχο τμήμα της Λ.Ε.Κ. σε υψόμετρο 2.500 μ., που σκοπό θα έχει την εκτίμηση και αξιολόγηση διαφόρων συνδυασμών κεραιών και πηγών ηλεκτρικής ενέργειας προκειμένου να επιτευχθούν τα μέγιστα αποτελέσματα με το μικρότερο όγκο εξοπλισμού.

Με βάσει τα ανωτέρω η Λ.Ε.Κ. και με γνώμονα τη διάδοση της υπηρεσίας ραδιοερασιτέχνη απεφάσισε τη διοργάνωση dx-pedition με διακριτικό κλήσης το J44LEK και οι σταθμοί που θα λειτουργούν θα είναι δύο. Ένας στα βραχέα (στα 20 m,40 m & 80 m) και ένας στα VHF στις συχνότητες 145.500 Mhz και 145.525 Mhz (fm mode)δίνοντας έτσι την ευκαιρία και σε κατόχους άδειας κατηγόριας 2 να κάνουνε επαφή με το J44LEK.
Η εν λόγω δραστηριότητα θα λάβει χώρα στις 28 και 29 Ιανουαρίου 2006.
Οι QSL κάρτες θα στέλνονται μόνο direct βλέπε www.qrz.com/sv2bwc

Ο ΓΕΝ. ΓΡΑΜΜΑΤΕΥΣ
ΠΑΠΑΪΩΑΝΝΟΥ ΝΙΚ.

Αντώνη το μήνυμα ήταν απευθείας απο την Ε.Ε.Ρ στο e-mail μου και γι'αυτό θέλησα να το στείλω και στην λίστα. Για περισσότερες πληροφορίες αν γνωρίζει κάποιος, μπορεί να απαντήσει...αλλά αν όχι, τότε ένα e-mail στην Ε.Ε.Ρ μάλλον και θα λάβεις την απάντηση σου.

Σπυρο,
1.Αν και ειμαι στην mailing list της EEP και λαμβανω πολυ συχνα mails
της, δεν πηρα ποτέ κατι τετοιο.
2.Η εερ διακινει τις qsl των δραστηριοτητων που στηριζει via bureau,
οπως ειναι λογικο αλλωστε.
3.Μήπως το πηρες απο αλλου; ριξε μια ματια στην αρχη του μυνηματος,
μου φαινεται απιθανο αυτο το μυνημα να σου ηρθε απο εκει που γραφεις.
4.Με κατι τετοια (qsl απο Θεσσαλια direct only) εχω την αισθηση οτι το
hobby εχει αρχισει να γινεται ιδιαιτερα ακριβο. Δηλαδη ποσο θα
πληρωναμε μια qsl απο North Korea?
Αντωνης.

Καλημέρα Σπύρο και στο γκρουπ

Για να λυθεί η όποια παρεξήγηση επικοινώνησα ήδη με την Ε.Ε.Ρ. μέσω email για το θέμα της αποστολής email ενημερωτικά με το expedition(που προσωπικά το βρίσκω ενδιαφέρον ως event) και δεν γνωρίζουν τίποτε περί email, ούτε με κάποιο τρόπο ανάγγειλαν κάτι σχετικό οπότε μάλλον κάποιος άλλος θα στο έστειλε.

Αν θες ενημέρωσέ μας σχετικά.

Πολλά 73 Νικηφόρος - SV1EEX

From: sv1eng
Topic: 1673 Message: 1673

Το Logbook of the World (LoTW) δεν ειναι κατι τελειως καινουριο, εγω
παντως το εμαθα μεσα απο το τελευταιο 5-9 report περιοδικο, και
ψαχνοντας βρηκα τα ακολουθα...

http://www.arrl.org/lotw/
http://hamradio.gr/forum/viewtopic.php?p=230#230

ARRL's Logbook of the World (LoTW) system is a repository of log records submitted by users from around the world. When both participants in a QSO submit matching QSO records to LoTW, the result is a QSL that can be used for ARRL award credit.

To minimize the chance of fraudulent submissions to LoTW, all QSO records must be digitally signed using a digital certificate obtained from ARRL. Obtaining such a certificate requires verification of the licensee's identity either through mail verification (US) or inspection by ARRL of required documentation (non-US).

Software developed by ARRL can be used to convert a log file (in ADIF or Cabrillo file format) into a file of digitally signed QSO data, ready for submission to LoTW.

LoTW began operation on September 15, 2003.

Συνάδελφε καλημέρα,
απ'οτι διαβάζω κάνεις ptt με optocoupler 4N35, θα σου πρότεινα όμως να πάρεις ένα serial 9pin καλώδιο (απλό modem,όχι
null modem γιατί έχει ανάστροφη συνδεσμολογία) και να συνδέσεις τον πομποδέκτη σου με το pc μιας και το συγκεκριμένο μοντέλο πομποδέκτη που χρησιμοποιείς υποστηρίζει cat εντολές. Έτσι θα μπορείς οχι απλά να κάνεις ptt αλλά και να χειρίζεσαι τον πομποδέκτη σου από το pc αλλάζοντας διαμορφώσεις, μπάντες, συχνότητα, κ.α. ανάλογα με το σετ εντολών που υποστηρίζει το rig σου αλλά και ανάλογα με το πόσο καλά φτιαγμένο ειναι το πρόγραμμα που θα χρησιμοποιήσεις (υπάρχουν προγράμματα που θα μπορείς ακόμη και να κατεβάζεις τις μνήμες σου στο Pc για backup ή ότι άλλο νομίζεις).
Με αυτό τον τρόπο λοιπόν απλά πρέπει να ορίσεις, στο ανάλογο πρόγραμμα που θα χρησιμοποιήσεις, τον αριθμό σειριακής πόρτας του pc και τον τύπο πομποδέκτου που χρησιμοποιείς για να επιλεγεί απο αυτό το κατάλληλο σετ εντολών. Οι ορισμοί για την σειριακή που θα χρειαστεί να ορίσεις για το 870 στο mixw και για κάθε άλλο πρόγραμμα είναι :
baud rate 4800bps,8 data bits, stop bits 1, parity no.
Αυτά όσο αφορά την εκμετάλλευση του CAT System του πομποδέκτη σου. Τώρα εάν δεν σ'ένδιαφέρουν όλες αυτές οι δυνατότητες, το ήδη υπάρχον σύστημα ptt που δουλεύεις είναι μια χαρά.
Όσο αφορά το θέμα τις διαμόρφωσής σου άκου την δική μου περίπτωση.
Εγώ δουλεύω το YAESU FT-920 το οποίο έχω συνδέσει και λειτουργώ στα digi modes με τον τρόπο που έχω περιγράψει προηγουμένως. Το yaesu λοιπόν έχει την εξής ιδιαιτερότητα. Όταν θέλεις να περάσεις audio για afsk ας πούμε και είσαι γυρισμένος σε ssb δεν περνάει audio εκτός κι αν είσαι PKT USB mode. Για να περάσει audio σε SSB πρέπει να συνδέσεις τον εμπρός connector του μικροφώνου.ΟΙ ACC CONNECTORS ΣΥΝΗΘΩΣ ΔΕΝ ΠΕΡΝΟΥΝ ΔΙΑΜΟΡΦΩΣΗ ΓΙΑ SSB,AM,FM.ΕΙΝΑΙ ΜΟΝΟ ΓΙΑ ΧΡΗΣΗ ΨΗΦΙΑΚΩΝ ΔΙΑΜΟΡΦΩΣΕΩΝ. Κάνε μια ανάδρομή στο manual του πομποδέκτη σου για να δείς αν υπάρχει κάποια ανάλογη ιδιεταιρότητα. Το δικό μου manual αν θυμάμαι καλά δεν αναφέρει κάτι σχετικό αλλά πληροφορίες για αυτή την ιδιαιτερότητα βρήκα στο www.mods.dk.
Έαν χρειαστείς το manual στείλε μου mail, υπάρχει σε ηλεκτρονική μορφή, αν και νομίζω ότι στο φόρουμ όλο και κάποιος συνάδελφος θα εχει δουλέψει το 870 σε digi mode και θα μπορεί να σε βοηθήσει περισσότερο απο εμένα.
Εάν χρειαστείς κάτι άλλο είμαι στη διάθεσή σου.

Κύριοι συνάδελφοι καλημέρα.
Αντιμετοπίζω το εξής πρόβλημα για το οποίο θα ήθελα την γνώμη σας.
Έχοντας φτιάξει ένα κύκλωμα με 2 μετασχηματιστές 1:1 για το ηχητικό
σήμα από το PC προς το TS870 και αντίστροφα (με χρήση του ACC 2
conector)και ένα optoisilator 4N35 για το PTT το οποίο παίρνει σήμα
από την COM του PC, δεν μπορώ να εκπέμψω σε SSB παρά μόνο σε FSK. Έχω
προεπιλέξει το AFSK στο MixW αλλά το μόνο που συμβαίνει είναι να κάνει

PTT το πρόγραμμα σε SSB χωρίς όμως να συμβαίνει τίποτα σε αντίθεση με το mode FSK όπου εκεί εκπέμπει κανονικά (βλέπω την ισχή της εξόδου και την στάθμη ALC). Τι θα πρέπει να ρυθμήσω στο MixW ώστε να λειτουργεί κανονικά? Το μενού του του TS870 το έχω δει διεξοδικά και δεν βρήσκω κάτι που να επιρεάζει την κατάσταση.
Πολλά 73 σε όλους, Γιάννης - SV2GWW.

Κωνσταντίνε, ευχαριστώ για την απάντησή σου.
Την προσαγωγή του σήματος προς το PC και αντίστροφα την δοκίμασα και
όλα λειτουργούν κανονικά. Το κύκλωμα του PTT που είναι σχετικά
ανεξάρτητο από τα "ηχητικά" σήματα είναι που έχει το πρόβλημα. Όντως,
έχω συνδέσει σε κανονική COM (DB9) την είσοδο του 4N35 (στο pin1 το
RTS και στο pin2 το GND) και στην έξοδό του την εντολή που γεφυρώνει
την γείωση με το PTT. Anyway... Σχετικά με το MixW τώρα. Σ' αυτό εδώ
το πρόγραμμα με οδήγησαν συμβουλές φίλων και όντας μη σχετικός με το
θέμα τις ακολούθησα. Η αλήθεια είναι ότι είναι σχετικά δύσκολο
πρόγραμμα όσων αφορά στην παραμετροποίησή του και ενδεχομένως όλα να
ξεκηνούν από εδώ. Θα δω λοιπόν και αυτό που μου προτείνεις.
Πολλά 73 και ευελπιστώ να τα πούμε σε digital.
SV2GWW - Γιάννης.

Καλημέρα,

Να ενημερώσω απλά οτι η λίστα αυτή είναι εθελοντική "προσφορά" ενός συναδέλφου, οπότε εφόσον δεν υπάρχει η σχετική επίσημη ενημέρωση απο πουθενά...οι ενδεχόμενες αλλαγές είναι κλασικό φαινόμενο.

From: Don Reader <dreader3@...>
Subject: Re: What's the deal with unlocking the vx2r?

One other warning:

In the US anyway, transmitting on an amateur radio on a band not
approved for amateur radio use or with equipment not approved for the
service
for which the band IS authorized, can get you not only a fine, but also
loss of your amateur license. I have heard a good number of hams
talking about modifications of their radios for use in the 460 MHz
GMRS band,
for example. While it sounds good, to be able to transmit on several
bands not originally intended, there are good sound technical reasons
NOT to do so. For one thing, a radio which is optimized for certain
bands will probably not be equipped with a resonant antenna for other
bands, or even nearby frequencies. High SWR could result in burning out
delicate circuits. Another problem is you could transmit "spurious
emissions", to use an old phrase, because the filtering which normally
limits
transmission of such RF garbage have been bypassed. These spurious
emissions could actually interfere with other nearby wireless services.

And if you think, "I will never be caught, the FCC has better things to
do than try to enforce such rules on a low power handheld operation",
think again! Having been burned by the chaos resulting from lax
enforcement on the CB band, they are not about to let that happen to
GMRS. You
never know who might be listening to your casual conversation on the
local repeater or even simplex, bragging about your "freebanding" or
modified use of amateur equipment on other bands. FCC does maintain a
monitoring and enforcement presence in major cities and, again, here
in the
U.S., we have the Official Observer Corps, volunteer ARRL members
appointed by the League to assist the FCC in policing the bands.
Often, like
Superheroes or undercover Secret Agents, their true identities are not
known, until it is too late and you get a phone call, e-mail, or a
knock on your door. Usually, the first step is just a warning, but why
even take a chance of having a blemish "on your record"?

If you really want to operate on another band/service, just go to the local discount or electronics store and buy a GMRS handheld. They are really cheap and abundant. They will even work with the flea-power FRS radios which a lot of kids already have. It's a wonder there aren't more articles about converting GMRS radios to Ham frequencies! Where else could you pick up a pair of 2-Watt UHF-FM handheld radios, with rechargeable batteries and drop-in chargers for under $50 bucks! The license fee
is a little steep ($80), in Ham terms, but it is good for five years, requires no test, and covers your whole family! What a great way to keep in touch while at the mall, on vacation, at a theme park, camping, etc.

I, for one, have no intention of "opening up" the transmission side of my VX-2R!

Η BBS είναι σε "πειραματικό" στάδιο και θα ολοκληρωθεί σε μερικές
μέρες φαντάζομαι. Εξάλλου είναι πανεύκολο να στείλουμε ένα μήνυμα στον
sysop και να ενεργοποιήσει το password που μάλλον θα είναι το callsign
ή το όνομα μας. Και αυτό μάλλον είναι προσωρινό αν δεν κάνω λάθος.
> και επισκέφθηκα την εν λόγω BBS μόλις διάβασα το μήνυμά σου), όμως
> υποτίθεται ότι αυτά ανήκαν πλέον στο παρελθόν.... και ξαφνικά τα
>βρήκα πάλι μπροστά μου !
Προσωρινά. Ας δώσουμε λίγο χρόνο στον Σάκη να ολοκληρώσει αυτό το
εγχείρημα και μετά μπορούμε να κρίνουμε και να κατακρίνουμε οτι έχει
γίνει. Δεν νομίζω ο Σάκης να γυρίσει τόσο πίσω στα παλιά χρόνια,
γνωρίζοντας απο πρώτο χέρι τι έχει συμβεί !
> "προστατεύσουμε" από άσχετους χρήστες... σιγά μη μπούνε και μας
>πάρουν τα "κρατικά μυστικά" !
Οχι, δεν νομίζω να έχουμε να πούμε κάτι τόσο συμαντικό για να έχουμε
και password.
>δεν καταλαβαίνω γιατί έχει φραγμούς μία BBS μ'ένα Yapp directory
>λίγων μόλις KBytes ή μία λίστα μηνυμάτων που κανείς δεν δίνει πλέον
>σημασία... αστείο δεν είναι?
Η Λίστα θα μπορούσε να έχει σημασία γιατί περιέχει πληροφορίες που
ναι μεν τις βρίσκεις στο ίντερνετ αλλά δεν τις βρίσκεις σε ένα σημείο
μαζεμένες. Οπότε είναι πολύ καλό να υπάρχει η πρόσβαση σε μηνύματα
ανάμεσα σε ραδιοερασιτέχνες και μάλιστα απ'όλο το κόσμο.
> Μου θυμίζει την ιστορία με την γριά, παρθένα γεροντοκόρη που κανείς
>δεν τη θέλει αλλά αυτή φοβάται μη τυχόν και την..... βιάσουν !
Το ανέκδοτο με το τρένο (τούνελ) λες ;

Καλησπέρα Sv2evs,

Μετά από αρκετά χρόνια και ένα μεγάλο αριθμό επιστολών και παραστάσεων της Ε.Ε.Ρ. στα αρμόδια τμήματα του ΥΠΜΕ, σε μικρό χρονικό διάστημα μέσα στις επόμενες ημέρες θα έχουμε τον καινούργιο Ε.Κ.Κ.Ζ.Σ (Εθνικό Κανονισμό Κατανομής Ζωνών συχνοτήτων) με σημαντικές αλλαγές για όλους τους Έλληνες Ραδιοερασιτέχνες. Καινούργιες περιοχές, διευρύνσεις παλαιών και υπόσχεση για επανεξέταση του κάθε χρόνο είναι μερικά από τα νέα του χαρακτηριστικά. Για περισσότερες πληροφορίες δείτε την ιστοσελίδα της Ε.Ε.Ρ. στο χώρο των ανακοινώσεων www.raag.org η http://www.raag.org/anns_gr.html#ekkzs

Το διάβασα και εγώ σήμερα στο adslgr.com. Τραγικό αν υπάρχουν προβλήματα. Η μία σελίδα έχει πολλά charts κτλ,κτλ. Ποιό είναι το "ζουμί" της ;

Σίγουρα όλοι θέλουμε να έρθει adsl παντού και μάλιστα τόσο γρήγορα (σχετικά πάντα, στην Ελλάδα είμαστε) στα σπίτια όλων. Για να δούμε τι θα δούμε στο εγγύς μέλλον μ'αυτό. Είχε ξανα-ακουστεί το θέμα/ζήτημα νομίζω και είχε σημειωθεί (αν θυμάμε) οτι θα παρεμβάλει τις βραχέες συχνότητες που έχουμε δικαίωμα να χρησιμοποιούμε.

.....λέτε να τα κλείσουμε και να πάμε για κανένα ψάρεμα; lol.

Καλημέρα Κώστα και στο group

Από το link του Πέτρου αλλά και από το http://www.adslgr.com/forum/showthread.php?t=34622

διαβάζουμε :

"υπό την επιστημονική καθοδήγηση του Καθηγητή της Σχολής Ηλεκτρολόγων Μηχανικών και Μηχανικών Υπολογιστών του ΕΜΠ Παναγιώτη Κωττή, σε συνεργασία με τη ΔΕΗ και την εταιρεία Amperion, υλοποιεί ερευνητικό πρόγραμμα που περιλαμβάνει μελέτη και αξιολόγηση του συστήματος ευρυζωνικής μετάδοσης δεδομένων μέσω των γραμμών Μ/Τ της ΔΕΗ (Broadband over Power Lines, BPL), της Amperion"

Αν κάποιος ξεκίναγε αύριο μια δουλειά δεν θα έκανε ένα background checking να δει ποιος είναι ο συνεργάτης του;

Ακούμε περί μιας διεθνούς εταιρίας.Αν κάποιο δικαστήριο σε κάποιο άλλο μέρος του κόσμου είχε αφαιρέσει την άδεια να κάνει αυτό που ισχυρίζεται πως κάνει γιατί δεν το κάνει καλά και είχε γίνει διεθνώς χαμός στη δίκη, και κάποιος κύριος μανατζερ ή καθηγητής ενέπλεκε αυτόν σε μπίζνες και η δουλειά του ήταν στον ευρύτερο δημόσιο τομέα ή σε ερευνητικό ίδρυμα θα σας φαινότανε ότι κάτι δεν πάει καθόλου καλά με αυτόν τον κύριο ή τους κύριους?!
Μήπως κάποιοι κέρδισαν και πάλι επάξια την δια βίου συμμετοχή τους στο κατά τα άλλα συμπαθέστατο www.karagiozis.gr ;(με το Hihi)

"Ο εξοπλισμός του δικτύου πρόσβασης του BPL, που έχει αναπτύξει και κατοχυρώσει διεθνώς η Amperion"

Ναι αλλά υπάρχουν και άλλες δύο εταιρίες από τις οποίες μάλιστα ακούγεται πως η τεχνολογία της Μοτορόλα με χρήση φίλτρων δεν δημιουργεί qrn.

"και για τη μετάδοση ευρυζωνικών υπηρεσιών στη ζώνη συχνοτήτων μέχρι 50 μεγάκυκλους."

Τις vertical από τις ταράτσες αναλάβατε κ πάμε για ψάρεμα ΟΕΟ! Τώρα σε 2-3 μήνες που θα ανοίξει το σποραδικό θάρθουν και οι τσιπούρες!

73 και καλημέρα de SV1EEX - Νικηφόρος

Η διαδικασία πιστοποίησης τηλεπικοινωνιακού εξοπλισμού στις
Η.Π.Α. είναι εντελώς διαφορετική από αυτή στην Ευρώπη. Ότι
και να συμβαίνει εκεί δεν μας αφορά άμεσα και δεν μεταφέρεται
αυτούσιο στη δική μας περίπτωση.

> και αποκωδικοποίησης εκπομπών που προορίζονται για λήψη από το ευρύ
> κοινό».

Λοιπόν, να διευκρινίσουμε κάτι:

1. Ο Ν.3431 στο άρθρο 1 αναφέρει ρητά ότι οι διατάξεις
του δεν αφορούν ραδιοερασιτεχνικούς και πειραματικούς
σταθμούς. Επομένως ότι και να γράφει δεν μας αφορά.
Φαίνεται ότι οι διατάξεις αυτές φυτεύτηκαν εμβόλιμα
κατ'απαίτηση τρίτων (ΥΕΘΑ και ΥΔΤ) σε άσχετο άρθρο,
που ασχολείται με την αριθμοδότηση τηλεφώνων και
συναφή.

2. Το σωστό κείμενο στον 3431 είναι: "σάρωσης του φάσματος
ραδιοσυχνοτήτων και συγχρόνως παρακολούθησης και
αποκωδικοποίησης εκπομπών που ΔΕΝ προορίζονται για λήψη
από το ευρύ κοινό". Είναι γραμμένο έτσι ώστε να μην
απαγορεύει τα spectrum analysers.

1723. Echolink sto R3B Athinas.

Yahoo group: thegreekhamradio
Date: 2006-04-16 11:46:35 UTC
From: sxanthop
Topic: 1723 Message: 1723

Καλησπέρα,

Πριν απο λίγο, μόλις εμφανίστηκε το SV1GFG-R (node #5929) που βγαίνει στο R3B της Αθήνας. Είναι ευχάριστο να υπάρχει κάτι ξανά στον αέρα μετά απο καιρό που δεν μπορούσαμε να ακούσουμε το R3B. Έστω και με αυτό τον τρόπο, θα υπάρχει ακρόαση.

Ευχαριστούμε αυτούς που δουλεύουν για να βγει στον αέρα το R3b ξανά.

73 de SV2EVS

Υ.Γ Υπάρχει κανείς που να γνωρίζει ποια Link του επαναλήπτη είναι εκτός και εντός λειτουργίας ;
Υ.Γ2 Ελπίζω το echolink αυτό να είναι κάτι μόνιμο και να μπορούμε να βασιστούμε σε αυτό μέχρι την επαναλειτουργία των διαφόρων Links.

1726. Google Earth : Μεγάλη επέκταση των Ελληνικών περιοχών υψηλής ανάλυσης

Yahoo group: thegreekhamradio
Date: 2006-04-21 07:09:08 UTC
From: sxanthop
Topic: 1726   Message: 1726

Από την 18η Απριλίου 2006 το Google Earth προχώρησε σε επέκταση των περιοχών της Δυτικής Ευρώπης που καλύπτει σε υψηλές αναλύσεις, και οι Έλληνες φίλοι του προγράμματος μπορούν πια να μεγενθύνουν σε πολλές πόλεις της Ελλάδος πέρα από την Αττική, που μέχρι τώρα κάλυπτε.

Κάτοικοι του Βόλου, της Λάρισας, των Τρικάλων, της Βέροιας, της Κομοτηνής, του Διδυμοτείχου και πάρα πολλών ακόμα περιοχών της Ελλάδας μπορούν πλέον να δουν τις πόλεις τους σε ικανοποιητικές αναλύσεις μέσω του προγράμματος.

Ελπίζουμε η καλή αρχή που έγινε με την τελευταία μαζική αναβάθμιση της ανάλυσης στην Ελλάδα να συνεχιστεί και στο μέλλον, με κάλυψη περιοχών όπως η Θεσσαλονική και η Καρδίτσα, που φαίνεται να έμειναν έξω από την λεπτομερή κάλυψη για την ώρα.

Hams help out following Indonesian earthquake

Radio amateurs are providing emergency communications in and around the Indonesian city of Yogyakarta following a devastating earthquake. More than 5,000 were killed when a magnitude 6.3 earthquake struck Yogyakarta, on the island of Java, on 27 May. A further 20,000 were injured and 200,000 have been made homeless.

The Organisation of Amateur Radio for Indonesia is coordinating an emergency communications network made up of so-called ?Zulu? stations and individual volunteer radio amateurs. As is the practice in Indonesia, several Zulu-prefixed emergency communications stations have been set up to handle disaster related traffic on HF and VHF.

Other radio amateurs from across Indonesia are also making their way to the disaster area to bolster the emergency communications network. Among them is thought to be medical doctor Soejat Harto, YB6HB, whose team of radio amateurs played a vital role in the relief effort in Indonesia following the cataclysmic tsunami of 2004.

ΘΕΜΑ: «ΔΕΛΤΙΟ ΤΥΠΟΥ»

Η Λέσχη Ελλήνων Καταδρομέων στα πλαίσια των δράσεων εθνικού χαρακτήρα πρόκειται να πραγματοποιήσει εκδήλωση μνήμης υπέρ των πεσόντων κατά την εισβολή των Τούρκων στη μεγαλόνησο κατά το διήμερο 19 & 20 Ιουλίου ε.ε.

Πρόθεση της Λέσχης Ελλήνων Καταδρομέων είναι η πραγματοποίηση έκθεσης οπτικοακουστικού αρχειακού υλικού από τη μαρτυρική εισβολή του Αττίλα, η παράλληλη ενεργοποίηση Κυπριακών ενώσεων και σωματείων.

Η εν λόγω εκδήλωση μνήμης προσδιορίζεται χρονικά να πραγματοποιηθεί την Τετάρτη 19 και Πέμπτη 20 Ιουλίου ε.ε. στο νεοδιαμορφωμένο προβλήτα του Λευκού Πύργου, όπου και θα βρίσκεται το πλοίο της Λέσχης Ελλήνων Καταδρομέων «ΑΡΓΥΡΑΣΠΙΣ» προκειμένου να φιλοξενήσει σπάνιο αρχειακό υλικό.

Παράλληλα στα πλαίσια των εκδηλώσεων μνήμης θα πραγματοποιηθούν εκπομπές από το πλοίο «ΑΡΓΥΡΑΣΠΙΣ» με ειδικό διακριτικό κλήσεως SX2 MM και σε ζώνες λειτουργίας τα 80m, 40m, 20m, 10m, 2m και 70cm.

Το QSO με το ειδικό διακριτικό αποτελεί φόρο τιμής και
μνήμης υπέρ των αγωνιστών.

Με εκτίμηση
Ο ΓΕΝ. ΓΡΑΜΜΑΤΕΥΣ

ΠΑΠΑΪΩΑΝΝΟΥ ΝΙΚ.

```

Αγαπητέ Συνάδελφε SV1FZE καλησπέρα,

Επικοινωνία μαθητών με το Διεθνή Διαστημικό Σταθμό, για πρώτη φορά από την Ελλάδα

Σύμφωνα με το προκαθορισμένο ραντεβού του με το space camp της E.S.A. (European Space Agency) ο αστροναύτης Thomas Reiter με διακριτικό DF4TR μέσα από τον διαστημικό σταθμό I.S.S., ακριβώς στις 15:23 τοπική ώρα το Σάββατο 29/7/06 ήρθε σε επαφή με τον ραδιοερασιτεχνικό σταθμό WH6PN με χειρίστρια την Nancy Rocheleau. Τα σήματα και των δύο τηλεμεταφέρθηκαν στο ξενοδοχείο Porto Rio από όπου η Υπουργός Παιδείας κα Γιαννάκου και τρεις επιλεγμένοι Έλληνες μαθητές ήταν έτοιμοι να μιλήσουν με τον DF4TR. Λόγω της μικρής σχετικά τροχιάς (περίπου 9 λεπτά) πρόλαβαν να μιλήσουν η Υπουργός και δύο από τους μαθητές. Την όλη διαδικασία συντόνισε ο Βέλγος Ραδιοερασιτέχνης και πρόεδρος του ARISS Europe Gaston Bertels ON4WS με την βοήθεια της E.E.P. που παρίστατο με 4 από τα 7 μέλη του Δ.Σ. της (SV1JG, SV1HER, SV1KP, SV1IW). Η εξαιρετική επιτυχία της οργάνωσης εντυπωσίασαν την Υπουργό αλλά και όλους τους παρευρισκόμενους που αναφέρθηκαν στο έργο των Ραδιοερασιτεχνών με ιδιαίτερα κολακευτικά λόγια. Για την όλη προσπάθεια εκτός από τους 5

ραδιοερασιτέχνες που συμμετείχαν στην Πάτρα άλλοι 15 σε 5 διαφορετικές χώρες συνεργάστηκαν για την υλοποίηση του πειράματος αυτού. Αναλυτικό άρθρο και φωτογραφίες θα υπάρχει στο τεύχος Σεπτεμβρίου Αυγούστου του SV Νέα και μια μικρότερη έκδοση στις ιστοσελίδες της Ε.Ε.Ρ.

Ο Gaston ON4WS προετοιμάζει την Υπουργό, ο SV1IW ελέγχει το επίπεδο του audio δίπλα του φαίνεται ακόμα η πρώτη μαθήτρια απο τους 3.

Πολλά 73!

1791. ΕΠΑΝΑΛΗΠΤΗΣ RU-100 - ΠΗΛΙΟ

Yahoo group: thegreekhamradio
Date: 2006-10-19 11:36:38 UTC
From: Costas
Topic: 1791 Message: 1791

Αγαπητοί συνάδελφοι,
σας ενημερώνω για την δημιουργία νέου αναμεταδότη RU-100 από το Σύλλογο Ραδιερασιτεχνών Μαγνησίας με διακριτικό κλήσης SV4F.
Βρίσκεται σε υψόμετρο 1500 περίπου μέτρων στο όρος Πήλιο με συχνότητες λειτουργίας TX: 439.400 RX: 431.800 T 88.5
Υπάρχει και object στο δίκτυο APRS για εντοπισμό, καθώς και οι συχνότητες λειτουργίας του.
Αρχικά υπήρχαν αρκετά προβλήματα θορύβου στην είσοδό του τα οποία αντιμετωπίστηκαν απο την Τεχνική μας επιτροπή.
Σας προτρέπω για δοκιμές καθώς θα σε λίγο καιρό θα βελτιωθεί και άλλο η ευαισθησία και η κάλυψή του.
Αν για οποιονδήποτε λόγο δεν επιτύχετε QSO λόγω κακής πρόσβασης στείλτε REPORT με RS, QTH, ΙΣΧΥ, ΚΕΡΑΙΑ στο sv4ffl@... για να έχουμε κάποια εικόνα απο την περιοχή σας και να το βελτιώσουμε.
Σας ευχαριστώ

Να ευχαριστήσω τον Σπύρο SV2EVS και με αφορμή το report του, θα ήθελα να διευκρινίσω ότι έχουμε χάσει αρκετή εκπομπή προς Βόρεια Ελλάδα τις τελευταίες δύο εβδομάδες λόγω μετακίνησης της κεραίας εκπομπής. Την ερχόμενη Δευτέρα ... θεού θέλοντως και καιρού επιτρέποντως... θα προχωρίσουμε σε αλλαγή που θα επαναφέρει την εκπομπή μας προς Βορρά και σε ακόμη μακρινότερες περιοχές.

SX8F Dxpedition
Posted by: "Sv1eex" sv1eex@hotmail.com sv1eex

Mon Oct 30, 2006 2:30 am (PST)
Αλέξανδρε σε ευχαριστώ πολύ για τα καλά σου λόγια και η χαρά μου θα
είναι πολλαπλή αν σε ακούσουμε σε κάποιον από τους δορυφόρους που θα
προσπαθήσουμε να δουλέψουμε όπως και κάθε άλλο φίλο του group.

SX8F Dx-pedition
Ομάδα Ελλήνων Ραδιοερασιτεχνών αποτελούμενη από τους SV1JG Κλεάνθης,
SV1EEX
Νικηφόρος, SV1GRM Θεόδωρος, SW1GZL Λυκούργος, SV1HER Σωτήριος, SV1HHC
Διονύσιος & SV1IZR Μάκης έχουν προγραμματίσει Dx-pedition στη
ακατοίκητη βραχονησίδα Φαλκονέρα στο
Μυρτώο Πέλαγος (IOTA: EU-113, MIA: MG-087) με ταυτόχρονη ενεργοποίηση του
Φάρου της βραχονησίδας (ARLHS: GRE 012 , WLOTA: L0740, TWLHD-WLH:
SV-029) με
το ειδικό διακριτικό SX8F.

Από όσο γνωρίζουμε αυτή θα είναι η πρώτη φορά που ενεργοποιείται
ραδιοερασιτεχνικά η Φαλκονέρα και ο φάρος της .

Όπως ίσως όλοι γνωρίζετε η βραχονησίδα Φαλκονέρα είναι ακατοίκητη και
προστατεύεται από τη συνθήκη NATURA 2000.

Συντεταγμένες:
Latitude: 36.8417 N ή 36° 50' 30" N)
Longitude: 23.8900 E ή 23° 53' 24" E
Grid loc: KM16WU

Χρονική περίοδος 15 - 19 Νοεμβρίου 2006.

Θα είμαστε σε όλες τις μπάντες από τα 160 έως και 6 μέτρα καθώς επίσης στα
VHF, UHF και στα SHF.

Πομποδέκτες που θα χρησιμοποιηθούν :
1 x TS-2000X (Kenwood), 1 x TS-2000 (Kenwood), 1 x TS-480 (Kenwood),
3 x FT-897D (Yaesu), 1 x TM-D700E (Kenwood)

Κεραίες:
VHF: 1 x 6 elem. Yagi & 1 x 4 elem. Quad & 1 x 9 elem. Yagi,
(Hor.pol)1 x 510 Diamond
UHF: 1 x 10 elem. Yagi &
V-U: 1 x 11 elem. Yagi
Στα HF: Buddipole, Fritzel, Beams, χειροποίητα monobander δίπολα για
τα 40,

τα 80 & τα 160m και ένα long wire με coupler.

Με λίγη τύχη στα SHF θα είμαστε συνεχώς με το Kenwood TS-2000X και 1 Yagi.
Θα προσπαθήσουμε επίσης και για δορυφορικές επαφές

Οι διαμορφώσεις που κυρίως θα «δουλέψουμε» είναι: SSB/CW/PSK/FSK441/ FM.

QSL manager: SV1HER

Για περισσότερες πληροφορίες :
http://users. att.sch.gr/ nkontopoul/ sx8f

Επιθυμία μας είναι και πραγματικά το ελπίζουμε, να κάνουμε πάρα πολλές επαφές με Έλληνες ραδιοερασιτέχνες σε όλες τις μπάντες.

Θα σας περιμένουμε να τα πούμε από τον αέρα
Tnx, 73 & good DX de SV1EEX - Νικηφόρος μέλος του SX8F

καλησπερα
για οσους τρεχουν τους διαγωνισμους (contest)
με διαφορα προγραμματα του ειδους και μετα περναν το
adif file στο βασικο τους logbook,υπαρχει ενα πολυ
καλο utility ωστε να εχουν διαφορες πληροφοριες οπως
το name-qslvia- operator- gridsquare- state κλπ πριν
τα περασουν στο log.
ειναι στην σελιδα του KO4BB at www.ko4bb.com και
ονομαζεται adiflookup.
φορτωνετε το adif αρχειο στο προγραμμα ,διαβαζει τις
πληροφοριες απο το qrz.com και εξαγει νεο adif με τις
πληροφοριες παλι σε adif μορφη.Επισης συνεργαζεται και
με το golist.
Προσωπικα εμενα με βοηθεισε πολυ στο να εχω το qsl-via
απο τα ειδικα διακριτικα που τρεχουν τους διαγωνισμους.

1799. ANNOUNCING THE SALE OF INTERNATIONAL RADIO

Yahoo group: thegreekhamradio
Date: 2006-11-15 00:04:44 UTC
From: VANGELIS
Topic: 1799 Message: 1799

ANNOUNCING THE SALE OF INTERNATIONAL RADIO

George Cutsogeorge, W2VJN and Georgia are pleased to announce that effective January
1st, 2007 International Radio will be under new ownership. We wish to thank
our many customers for their business and friendship over the almost ten
years we have owned this company. We have learned much and worked hard, and
it has all been good, but it is time for us to look ahead.

International Radio will be in the very capable hands of new owners Trey,
N5KO, and Mark, AG9A. Trey and Mark are dedicated radio amateurs who
appreciate all aspects of this hobby - especially contesting! They have
ideas for the future, and they will not only sustain Inrad; they will
improve it. We look forward to helping them succeed in any way we can. In
particular, George will stay involved in the development of new products.

For more than two years we have been assisted by Laurie, our employee
extraordinaire. Many of you know her and we know you join us in thanking her
for her hard work and dedication. We will keep her as a valued friend.

Our final day in business will be December 15th, 2006. International Radio
will then be CLOSED until January 1st, 2007. Watch the website for the
announcement of the annual New Year's Day Sale.

Topic: 1812 Message: 1813

Γεια σε όλους και Χρόνια Πολλά.

Προσωπικά πιστεύω, άσχετα με το τι θα βγάλει η δημοσκόπηση, ότι το
D-star (ή κάτι σαν αυτό) θα είναι το μόνο σύστημα που έχει τις προοπτικές να
επικρατήσει και να αντικαταστήσει τελικά όλων των ειδών τους επαναλήπτες μας
στο μακρινό μέλλον. Ένα επιπλέον πλεονέκτημα του : είναι αποκλειστικά και
μοναδικά ραδιοερασιτεχνικό αν και με μικρότερη ταχύτητα από το WiFi.

Τέλος πάλι προσωπικά ενδιαφέρομαι για το δίκτυο αυτό και αν δεν προχωρήσει ο
Σύλλογος εδώ σε κάτι τέτοιο, θα με ενδιέφερε η δημιουργία μιας ομάδας που θα
τοποθετήσει τον πρώτο σχετικό επαναλήπτη στην γειτονιά μας.
Όσοι πιστοί προσέλθετε.

Πολλά 73 και Καλή Χρονιά

Τάσος sv1rd

From: sxanthop
Topic: 1814   Message: 1814

Posted by: "Makis" sv1bsx@yahoo.gr sv1bsx
Sun Jan 14, 2007 6:21 pm (PST)
Ο AO-27 είναι πάλι ενεργός!

Μετά από μακρά περίοδο σιωπής (αν θυμάμαι καλά σιώπησε τον Μάιο '06) η επίγεια ομάδα ελέγχου κατόρθωσε και ενεργοποίησε πάλι τον γηραιό αυτό δορυφόρο (13 έτη σε τροχιά) και σύντομα θα είναι πάλι στη διάθεσή μας.

Ο AO-27 είναι FM-repeater με Uplink στο 145.850 kai Downlink στο 436.795 (Voice FM-Narrow). Δεν απαιτεί υπότονο. Είναι εξαιρετικός δορυφόρος, εύκολος στη πρόσβαση και ακούγεται σχετικά δυνατά.
Πριν μπεί σε περίοδο έκλειψης (Μάιος 2006)και σιγήσει, ο δορυφόρος αυτός ήταν προγραμματισμένος έτσι ώστε να λειτουργεί μόνο κατά την διέλευσή του επάνω από το Βόρειο ημισφαίριο του πλανήτη (δηλ. άνοιγε μόνο όταν πέρναγε επάνω από την Ευρώπη, Β.Αμερική κλπ). Με την τεχνική αυτή εξοικονομούσε ενέργεια στους συσσωρευτές του, οι οποίοι είναι εντελώς εξηντλημένοι. Παρ'όλα αυτά όμως, σε κάθε πέρασμα ήταν ενεργός και μας έδινε δυνατότητα για πολλά QSOs.

Ακόμη δεν έχουν γνωστοποιηθεί όλες οι τεχνικές λεπτομέρειες της "νεκρανάστασης" του AO-27, αν δηλ. θα λειτουργεί με το ίδιο πρόγραμμα που περιγράφω παραπάνω. Αν υπάρχει κάποια διαφοροποίηση, θα σας ενημερώσω αλλά μπορείτε να επισκεφθείτε και μόνοι σας τη σχετική ιστοσελίδα:

`http://www.umbrasi. com/AO27/ index.shtml`

Πάντως στα υπόψιν ότι, η πλέον κατάλληλη τροχιά για να συνομιλήσετε είναι κατά τις απογευματινές ώρες. Ερχόμενος ο δορυφόρος από το Νότο, ενεργοποιείται πλησιάζοντας την Μεσόγειο και σταματά την λειτουργία του περίπου μετά την Βόρειο Ευρώπη.

Σε αντίθεση με τον AO-51 που πρέπει να έχεις κερδίσει το... ΛΟΤΤΟ για να περάσεις, ο AO-27 είναι εύκολα προσβάσιμος.

Δοκιμάστε τον... και καλά QSOs !

73, Μάκης SV1BSX

RADIOAMATEUR ASSOCIATION of MAKEDONIA
R.A.A.M.'s BBS support

SV2DXC-1 BBS, station description:
==================================
- Qth : Thessaloniki, Makedonia, GREECE - KN10LO
- Hardware : PC PII 300MHZ, 128MB RAM, 4GB HD
- Software : Win98 & FBB Release $E. Multiconnect and multilingual
- 3 ports and 15 channels :

Port Frequency Bauds Transceiver Antenna Channels TNC
Power
----
1 144.650 1200 Kenwood TM-231 GP 6 DRSI 1200
5W
2 433.650 1200 Kenwood TM-431 GP 4 DRSI 1200
5W
3 438.150 9600 Kantronics D4-10 Yagi 8el 5 SYMEK TNC2H
5W
4 TELNET access with the call sv2ram.dynalias.net *

----
*pse send an e-mail to sv2rq@otenet.gr to get a password

73s de R.A.A.Makedonia

Η SV2RAM καταργήθηκε.

Η πρόσβαση με το telnet, όμως, είναι η ίδια όπως και στην sv2ram,
δηλαδή καλεί κανείς sv2ram.dynalias.net και με τα ίδια passwords.
Κι αυτό για να μην μπερδευτούμε με τα διάφορα.

Δεν βλέπω καμμία δραστηριότητα στον αέρα από τα nodes του Πηλίου,
οπότε μπορεί κανείς να την καλεί και από εκεί.

Αν θέλεις γράψε μου τις συχνότητες των nodes της ΕΕΡ της Θεσσαλονίκης
που ακούγονται, γιατί δεν ακούω κανένα j42.

Ελπίζω τις επόμενες ημέρες να κάνω μερικές ψιλορυθμίσεις στην sv2dxc
προς το καλύτερο. Προς στιγμήν πάει άριστα, πράγμα που δεν πίστευα ότι
θα γίνει και είναι αρκετά σταθερή κάτω από τα windows. Ίσως το

πρόβλημα που αντιμετώπιζα στο παρελθόν ήταν με την motherboard, ή την μνήμη που είχα στο PII 300 MHZ pc.
Τώρα πάει άριστα, αλλά με το BPQ φορτωμένο, δεν πρέπει να ζορίζει κανείς τον υπολογιστή με τίποτε επιπλέον.

Η BBS είναι όπως ήταν, δεν άλλαξε τίποτε και ίσως καλύτερα τώρα, γιατί έχει κατευθυνόμενη κεραία στα 9600 που κοιτά προς την πόλη και πρέπει να ακούγεται από παντού σχεδόν.
Τώρα που δεν γίνεται fwd από bbs σε bbs, είναι και περισσότερο καθαρό το 438.150 για τα 9600.
Με τους σταθμούς που επικοινωνώ για fwd με το telnet δεν άλλαξε τίποτε και πάμε πολύ καλά.
Επειδή οι πραγματικοί χρήστες είναι ελάχιστοι, κάπου 4 και ίσως και λιγότεροι και επειδή δεν βλέπω καθόλου κίνηση στο 144.650, ίσως καταργήσω και αυτήν την συχνότητα.

Μόλις την ετοιμάσω πλήρως θα στείλω και το μήνυμα allsv@grc

EUROCOM Newsletter
09.03.2007
Exhibition in the European Parliament, Brussels
1. Inauguration
Per EUROCOM Newsletter of 11.01.2007, we announced the setting up of
the exhibition "Amateur
Radio, a European Resource" in the European Parliament, Brussels.
The inauguration took place Monday 5 March 2007 at 18h00.
About 100 guests assisted. Among them was a group of Spanish hams who
visited the Parliament,
invited by MEP Fernando Fernandez-Martin, EA8AK.
The president of IARU Region1 and several presidents and
vice-presidents of national societies
were present, representing RSGB, DARC, REF-Union, URE, VERON, RAAG and
UBA. AMSAT
societies were represented by the president of AMSAT Italy. Shri Suri
VU2MY, chairman NIAR
(India), was invited by EA8AK.
Among other VIP we noted Joachim Strick, leader of NATO's Frequency
Management Office,
Freddy Baert and David Erzeel of the Belgian Institute of Post and
Telecommunications, Mathieu
Bolland Chairman SSETI, Jean-Marcel Thomas General Manager Euro Space
Center, Adriano
Graziosi (ON5GA) General Manager European Social and Economic
Committee (retired).
MEP Mechtild Rothe (Germany) welcomed the guests, saying how much she
appreciated radio
amateurs for their commitment in educational and emergency fields.
Next Gaston Bertels ON4WF, chairman EUROCOM WG, presented the amateur
radio service to
the audience, insisting on education, technical research and
development and emergency work.
The text of this presentation is hereto appended (see Annex).
Shri Suri VU2MY presented a gold medal to Fernando Fernandez-Martin
EA8AK for his support of
amateur radio in India. He offered a silver medal to ON4WF.
Finally, Ole Garpestad LA2RR, president IARU Region 1, officially

opened the Exhibition.
2. Exhibition
The Exhibition was installed Friday 2 March and removed Friday 9 March 2007 by Mark Allgar
M1MPA and Nick Evans of RSGB.
Tuesday 6 through Thursday 8 March 2007, the Exhibition was manned by several delegates of
national societies:
- Thilo Koots DL9KCE
- Dennis Härtig DL7RBI
- Jacques Mezan de Malartic F2MM
- Sotirios Vanikiotis SV1HER
- Don Field G3XTT
- John Pink G8MM
- Mark Haynes M0DXR
They accompanied MEP's and assistants who visited the Exhibition and asked many questions.
One Polish MEP was interested to become a radio amateur.
The Exhibition handout flyer, available in English, French and German, was distributed in several
hundreds mail boxes ("pigeon holes") of MEPs.
International Amateur Radio Union - Region 1
Gaston Bertels, ON4WF - EUROCOM WG Chairman
Avenue Paul Hymans 117/29 - B-1200 Brussels - Belgium
Tel : +32.2.771.67.74 Fax : +32.2.771.49.89 E-Mail :
gaston.bertels@...
News0307.rtf
3. Content
The content of the Exhibition was developed by an ad hoc working group in the course of a series of
teleconferences which became weekly in January 2007.
Members of the working group were:
- Gaston Bertels ON4WF
- Peter Kirby G0TWW
- Mark Allgar M1MPA
- Thilo Koots DL9KCE
- Dennis Härtig DL7RBI
- Jacques Mezan de Malartic F2MM
Input was provided by IARU Region 1 societies and AMSAT societies.
Peter Kirby G0TWW drafted texts and Mark Allgar M1MPA prepared the displays whereof the layout
was created by a professional stylist employed by RSGB. The working group discussed the projects
and oriented the development.
Five self supporting panels (2m x 3.20m) represent specific aspects of amateur radio:
- Emergency activities
- Space communications
- Personalities who are radio amateurs

- Training of the youth
- Careers directly influenced by amateur radio.

The text of these panels is in English, French and German.
Moreover several posters (1.50m x 1m) provide more detailed information in English on several topics:

- Who we are
- What we do
- Amateur Radio operators in Europe (statistics per country)
- EU legislation (R&TTY - EMC Directives)
- Amateur Radio in Space (ISS ☐ Columbus)
- AMSAT (Ionosfera ☐ Go Mars ☐ SSETI).

A handout flyer was printed in three languages, covering the topics presented in the Exhibition and providing the addresses of the IARU societies in the 27 countries of the European Union.
There were also exhibits:

- EMC box to demonstrate HF interference by several sources including PLT/BPL
- CW writer
- PSK31 (reception)
- DVD and Internet on large screen (a router was installed by Jacques Debouche ON5OO)
- Engineering model of Sputnik 40
- Engineering model of L/S-band antenna for Columbus.

4. Thanks
Many thanks to the members of the ad hoc working group and to the members of the team that installed and manned the Exhibition.
We also thank MEP Mechtild Rothe and her assistant Jeannette Ladzik and especially MEP Fernando Fernandez-Martin (EA8AK) and his assistant Ophelia Ferrari, who participated to some preparatory teleconferences.
73
Gaston Bertels ON4WF
EUROCOM WG chairman
Annex: 1
1 NS0307.rtf
« Amateur Radio, a European Resource »
Exhibition in the European Parliament Brussels
Opening ceremony 5 March 2007 at 18:00
Presentation by Gaston Bertels ON4WF
IARU Region 1 EUROCOM WG Chairman
Honourable Members of the European Parliament,
Ladies and Gentlemen,
From the very beginning of wireless telegraphy, individuals have been interested in the study of the properties of the mysterious electromagnetic waves. These individuals are called

"radio amateurs".
Amateur Radio, born 100 years ago, was officially recognized as a
radio service by the International
Radiotelegraphic Convention, Washington D.C. in 1927.
Presently, the International Radio Regulations of the International
Telecommunications Union, the ITU, a
specialized agency of the United Nations, provide these definitions:
Amateur service : A radio communication service for the purpose of
self-training, intercommunication and
technical investigations, carried out by amateurs, that is by duly
authorized persons interested in radio technique
solely with a personal aim and without pecuniary interest.
Amateur-satellite service : A radio communication service using space
stations on earth satellites for the same
purposes as those of the amateur service.
In 1925, delegates of the national amateur radio societies gathered in
the Sorbonne University, Paris and founded
the International Amateur Radio Union, the IARU, presently organized
in three Regions, covering the world.
In 1990, the IARU Region 1 set up the EUROCOM working group,
comprising the national societies of the
European Communities Member States, now the European Union.
EUROCOM scrutinizes the work of the European Commission and of the
European Parliament in domains of
special importance to the amateur radio service. When needed, action
is undertaken to draw attention on aspects
of European legislative projects where vi tal interests of our service
are at stake. This has been the case for the
Directive on Radio Equipment and Telecommunications Terminal
Equipment, the R&TTY Directive and more
recently for the Directive on Electromagnetic Compatibility, the EMC
Directive. In both cases, most of our
remarks have been taken into account, and we are grateful to the
Members of the European Parliament and to
the European Commission who supported our requests. One of the posters
in this exhibition is the expression of
our gratitude. Our special thanks to Members of the European
Parliament Fernando Fernandez-Martin, Mechtild
Rothe, Dr Peter Liese and Helmut Kuhne, who - among others ☐ submitted
and supported amendments
favourable to the Amateur Radio service during the legislative process.
With this exhibition, we want to present to you, among the many faces
of the amateur radio service, those which
are of special interest to the community:
- education
- technical research and development and
- emergency work.
In accordance with the very definition of the Amateur Radio service,
amateurs shall be duly authorized. The

national authorities determine the technical and regulatory matters
for Amateur Radio examinations. In Europe,
the programme is harmonized by the CEPT, le Comité Européen des Postes
et Télécommunications.
Candidates belong to all social categories and age groups, but one
thing is certain: Amateur Radio is the ideal
preparation of a future career in a wide range of science, technology
and engineering roles. Many young people
who qualify as Radio Amateurs continue to pursue higher education in
science, technology and engineering
disciplines. Radio Amateurs provide a valuable reservoir of skills for
communications, information and high
technology industries, and many amateurs are employed in these areas.
Specialized groups of Radio Amateurs develop new communication
techniques. A worldwide digital Amateur
Radio network has been developed 25 years ago, long before the
Internet. One of our objectives is optimum use
of the available electromagnetic spectrum, a most precious and limited
commodity. You can see a demonstration
of such a system in the exhibition.
Radio Amateurs have over 40 years experience of building and launching
satellites, creating reliable systems
based on COTS, commercial off the shelf electronic components. An
engineering model of one such satellite is
2 NS0307.rtf
shown in the exhibition. In 1997, to commemorate the 40th birthday of
space exploration, Russian cosmonaut
Pavel Vinogradov launched this scale 1/3 model of the original Sputnik
by hand from MIR during an Extra
Vehicular Activity. Sputnik 40 transmitted bip-bip signals on the
amateur radio 2m band. One year later, AMSAT
France, the French Amateur Radio Satellite society, built new
electronics for a spare model of Sputnik 40 and,
when the mini spacecraft was launched from MIR, recorded voice
messages of students were transmitted from
space to the youth of the world over Amateur Radio.
The Amateur Radio service closely collaborates with the European Space
Agency. AMSAT-UK, the British
Amateur Radio Satellite society, provides technical support and
communication facilities to SSETI, the Student
Space Exploration & Technology Initiative
Amateur Radio is also active on the International Space Station.
Astronauts, who have an Amateur Radio licence,
can operate the onboard Amateur Radio equipment, contact amateur
ground stations installed in schools and
answer questions from the students, direct from space. This activity
is supported by ARISS, Amateur Radio on
the International Space Station, an international working group of
national societies in countries participating to

the ISS.
Amateur Radio antennas will be installed on the space laboratory
Columbus, which will be attached to the
International Space Station later this year. We are working very hard
to collect funds for the Amateur Radio
equipment on the first ever European territory in Space. An
engineering model of the ARISS antennas on
Columbus is presented in the exhibition.
Beyond the orbital station there is the Moon and beyond the Moon are
the Planets. The German Radio Amateur
satellites society AMSAT-DL presently prepares a Mars Mission, a
satellite serving as a research platform and an
Amateur Radio relay between Mars and Earth.
In the same time, our Italian branch, AMSAT-Italy, is developing an
Amateur Radio satellite system aimed at
collecting scientific data to aid understanding the radio wave
propagation within the ionosphere. This project is
supported by the European Space Agency and by l'Union
Radio-scientifique Internationale.
Another aspect of Amateur Radio is Emergency work. For over fifty
years, Radio Amateurs across the world have
been providing frontline communications in times of emergency or
disaster. Each country has its own group of
trained Radio Amateurs who specialize in providing backup emergency
communications to organisations such as
fire, police and medical services. In recent times, Radio Amateurs
have provided backup communications during
the 9/11 terrorist attacks in the USA, the London and Madrid bombings,
the South-East Asia Tsunami and most
recently hurricane Katrina which hit the Gulf of Mexico and devastated
the city of New Orleans. December 2006,
President George W. Busch praised and thanked the Amateur Radio
community in the United States for their
service and commitment.
Thankfully, within the European Union we are not faced with the same
level of natural disasters that affect other
parts of the world. However, Radio Amateurs in all EUROCOM countries
can provide a high level of service,
should they be called upon to do so. Amateur Radio operators are able
to improvise and provide communications
when all else fails. This is a proven resource serving the community
365 days a year.
When the Tsunami struck South-East Asia, December 26, 2004 there was a
special Amateur Radio activity, a socalled
DX-pedition, going on in Andaman & Nicobar Islands. After the Tsunami
struck the islands at 6.29 am, the
Dxpedition was suspended and switched over to emergency
communications. Operated with a generator and
batteries, the Amateur Radio station was the main means of

communication with the main land thereafter.
Hundreds of messages were handled on behalf of the administration from different islands. Messages of health
and welfare of individuals from mainland and islands were handled also. Amateurs from the main land acted as
relay stations. Operations continued till the 15th of January 2005 when telecommunications were mostly restored
in different islands.
This Andaman and Nicobar DX-pedition was organized by the Hyderabad-based National Institute of Amateur
Radio (NIAR). We have the honour and the pleasure to welcome Mr Shri Suri, chairman of the Institute, who
personally participated to the emergency operations.
.
Ladies and Gentlemen,
The Exhibition "Amateur Radio, a European Resource" would not have been possible without the support of Mrs
Mechtild Rothe and Mr Fernando Fernandez -Martin who submitted a request to the Conference of Presidents and
the Quaestors of the European Parliament and that request was accepted. Thank you Madam, thank you Sir.
Our Thanks also to Miss Ophelia Ferrari, assistant of Mr Fernandez-Martin, who helped us through the many
steps in setting up the Exhibition, as well as to Mrs Jeannette Ladzik, assistant of Mrs Rothe and Miss Barbara
Siragusa, head of Art Com, the service in charge of cultural events.
Thank you ladies.
3 NS0307.rtf
This Exhibition is a joint effort of delegates of several Amateur Radio societies, especially the Radio Society of
Great Britain, der Deutscher Amateur Radio Club et le Réseau des Emetteurs Français, whereas others societies
such as the Amateur satellites societies of Italy, Germany, Great Britain and France provided valuable input.
Thanks to all.
Ladies and Gentlemen,
May I now introduce the President of the International Amateur Radio Union, Region 1, Mr Ole Garpestad who will
officially open the Exhibition.
Mr President, the floor is yours.

σύμφωνα με την πρόσφατη νομοθεσία
οι ραδιοερασιτέχνες δικαιούμαστε να έχουμε στην κατοχή μας
αλλά και να χρησιμοποιούμε δέκτες ευρείας κάλυψης.
Τέτοιοι δέκτες του εμπορίου αλλά και οι πομποδέκτες μας
μπορούν να ακούσουν στις συχνότητες που αναφέρεται ο φίλος
τις "ελεύθερες" αναλογικές εκπομπές οποιουδήποτε.
Η πολεμική αεροπορία γνωρίζει ότι αυτές οι εκπομπές
δεν προσφέρουν καμία ασφάλεια και οι πληροφορίες που μεταδίδονται
δεν είναι κάποιας διαβάθμισης (αδιαβάθμητες).
Ως εκ τούτου δεν βλέπω σε τί λάθος έπεσε ο συνάδελφος
και από που προκύπτει πως είναι αντικανονικός.

Όσοι θέλουν να μιλήσουν με ασφάλεια,
είτε είναι όπλα είτε σώματα ασφαλείας,
χρησιμοποιούν τεχνολογίες που προσφέρουν κρυπτοκάλυψη
και ασφάλεια επικοινωνίας.

Κοιν.: THEGREEKHAMRADIO@yahoogroups.com
Θέμα: [The Greek Ham Radio] N8S = SWAINS ISLAND DX-PEDITION

Αγαπητοί συνάδελφοι.

Την Τετάρτη 28-3-2007 αναχωρεί η ομάδα για την
DX-Pedition από το Swains Isl. και την Σαμόα, της
οποίας έχω την τιμή να είμαι μέλος.

Οι Ευρωπαίοι Ραδιοερασιτέχνες , μέλη της ομάδας , θα
συγκεντρωθούμε στο αεροδρόμιο της Φρανκφούρτης και απο
εκει,Los Angeles , Nadi(Fiji Isl) , Apia (Samoa) ,
Pago-Pago(Am. Samoa). Στο Pago-pago θα ενσωματωθούν
και οι Αμερικανοί χειριστές και αφου παραμείνουμε εκεί
για 2 μέρες , αναχωρούμε με ναυλωμένο πλοίο για το
Swains Isl. (24 ωρες ταξίδι).
Στο νησί θα εγκατασταθούν 3 camps (SSB, DIGITAL , CW)
με 300 μετρα απόσταση το ένα από το άλλο και 6 σταθμοί

που θα εκπέμπουν ταυτόχρονα.

Δεν θέλω να σας κουράσω με περισσότερες λεπτομέρειες.
Οσοι θέλετε να διαβάσετε περισσότερα , μπορείτε να
επισκευθείτε το http://www.yt1ad.info/n8s/index.html
οπου μπορειτε να βρείτε και τις συχνότητες των HF
καιVHF (EME) που θα γίνουν εκπομπές.

Εγώ "ανήκω" στο SSB και στο digital camp. Δυστυχώς,
πιστεύω ότι οι ικανότητές μου στο CW δεν είναι τέτοιες
που να μου επιτρέψουν να αντεπεξέλθω στο pileup που θα
δημιουργήσει η most wanted dxcc country.
χωρίς φυσικά αυτό να μου "απαγορεύει" το να είμαι και
εκεί σαν assistant operator.

Αυτό που ξέρω ότι ενδιαφέρει περισσότερο όλους σας,
είναι το πως θα γίνει να κάνουμε κάποιο sced για να
γινει πιο "άνετα" κάποια επαφή.

Για το SSB δεν πιστεύω να υπάρξει πρόβλημα, δίοτι
τουλάχιστον κατά την διάρκεια της δικής μου ΄"βάρδιας"
μπορώ να μιλήσω στα Ελληνικά και να αναφέρω την ακριβή
συχνότητα που θα ακούσω για τους Ελληνικους σταθμούς,
αρκετά "μακριά" από το προκαθωρισμένο split.

Για τις επαφές σε RTTY h BPSK31 το μόνο που μπορει να
γίνει, είναι στην κλίση "only SV stations pse"
η ακρόαση θα γίνεται 5 Khz =DOWN= απο την συχνότητα
εκπομπης , παλι μόνο και μόνο για την αποφυγή του
χάους. Θα προσπαθήσω να γίνει το ίδιο και στα CW χωρίς
όμως να μπορω να το υποσχεθώ.

Το ίδιο θα συμβεί και από το 5W5 όπου τις 2 πρώτες
μέρες θα βγούμε με το callsign 5W5AA και μετα για 5
μέρες, ο καθένας με το δικό του χαρακτηριστικό που θα
μας δωθεί από την Σαμόα.

Δυστυχώς για λόγους προτίστως οικονομικούς , αλλά και
κούρασης , το ταξιδι για το Tokelau (ZK3) αναβάλεται
για φέτος και θα πραγματοποιηθεί του χρόνου παραλληλα
με εκπομπές απο την 3D2/R (Rotuma isl).
Κλείνοντας, θάθελα να ευχηθώ σε όλους σας , "Καλό
Πάσχα" και καλή επιτυχία σε όλους που θα προσπαθήσουν
για το..... new one.

Πολλά 73s

Περικλή, δε νομίζω ότι ότι η συζήτηση για το θέμα προσβάλλει
κάποιο συνάδελφο ραδιοερασιτέχνη. Επειδή όμως μια τέτοια δημόσια
συζήτηση μπορεί να οδηγήσει κάποιους στρατιωτικούς σε σπασμωδικές
αντιδράσεις και να γίνει αφορμή για επιβολή παράλογων περιορισμών,
πιστεύω ότι καλόν είναι να αποφεύγεται σε ένα ραδιοερασιτεχνικό
forum.

Όπως στις γεννήσεις, έτσι και στη δικιά μας περίπτωση, έπρεπε να περάσουν 40 ημέρες μέχρι το νεογέννητο Διοικητικό Συμβούλιο να βγεί στη δημοσιότητα.
Έτσι η δομή του νέου Δ.Σ. είναι:

Πρόεδρος : SV2GWY Αναστασιάδης Δημήτριος
Αντιπρόεδρος : SV2CLG Λιάπης Γεώργιος
Γ. Γραμματέας : SV2CWV Δεβρελής Κωνσταντίνος
Ταμείο : SV2HRS Βογιατζής Νικόλαος
Μέλος : SV2ECG Μουχτόγλου Δημήτρης
Ευχηθείτε μας δύναμη και κουράγιο, για την πρόοδο του ραδιοερασιτεχνισμού, για την πρόοδο της ΕΡΒΕ

Εκ του Δ.Σ.της Ε.Ρ.Β.Ε.

Date: 2007-03-28 16:39:37 UTC
From: sxanthop
Topic: 1893 Message: 1893

SV AMateur SATellite Group

SX5AS Dx-pedition στιςΒραχονησίδες ΑΣΤΑΚΙΔΑ από 17-23 € Ιουλίου 2007.

Η γνωστή ομάδα των Ελλήνων Ραδιοερασιτεχνών που ενεργοποίησε τη Φαλκονέρα το περασμένο Νοέμβριο,αποτελούμενη από τους SV1JG Κλεάνθη, SV1RC Σπύρο,SV1EEX Νικηφόρο,SV1GRM Θεόδωρο,SW1GZL Λυκούργο & SV1HER Σωτήριο,έχουν προγραμματίσει μια νέα Dx-pedition στο σύμπλεγμα των τριών (3) ακατοίκητων βραχονησίδων ΑΣΤΑΚΙΔΑ στο Καρπάθιο πέλαγος (IOTA: EU-001)με ταυτόχρονη ενεργοποίηση του Φάρου της βραχονησίδας (WLOTA: L-0393)με το ειδικό διακριτικό SX5AS.

Θα είναι η πρώτη φορά που ενεργοποιούνται ραδιοερασιτεχνικά οι βραχονησίδες ΑΣΤΑΚΙΔΑ & ο Φάρος ταυτόχρονα.

Οι βραχονησίδες βρίσκονται δυτικά της Καρπάθου και βόρεια της Κάσου
Συντεταγμένες:Latitude: 35€ °53' 08"N, € ή 35.8856 N
Longitude: 26€ °49'15"E € ή 26.8208 E

Grid square: KM35jv.

Χρονική περίοδος από 17 - 23 Ιουλίου 2007.

Θα είμαστε σε όλες τις μπάντες από τα 160 μέτρα έως και 23 εκατοστά (από HF έως & SHF).Οι διαμορφώσεις που κυρίως θα «δουλέψουμε» θα είναι:SSB/CW/PSK/RTTY/ FSK441/FM Θα προσπαθήσουμε επίσης και για δορυφορικές επαφές στα 2 μέτρα - 23 cm FM..
QSL manager: SV1HER

Επιθυμία μας είναι και πραγματικά το ελπίζουμε, να κάνουμε πάρα πολλές επαφές με όσο το δυνατόν περισσότερους Έλληνες ραδιοερασιτέχνες σε όλες τις μπάντες.

Σας περιμένουμε και θέλουμε να σας ακούσουμε όλους, SV και SW.

From: sxanthop
Topic: 1896 Message: 1896

Την Πέμπτη 29/3/2007, ομάδα της ΕΡΒΕ αποτελούμενο από τους SV2HRV (Diana), SW2HQF (Θεμιστοκλής), SV2CWV (Κωνσταντίνος) και SV2GWY (Δημήτριος) επισκέφθηκε το 4ο Δημοτικό Σχολείο Ωραιοκάστρου, κατόπιν προσκλήσεως από τον δάσκαλο (και συνάδελφο SV2HSO) της ΣΤ' τάξης Κο Άρη Πατεράκη,

Με ομαδική δουλειά, χωρίς διακρίσεις αν είσαι μικρός ή μεγάλος, άνδρας ή γυναίκα, (αναφερόμενος στην Diana που εκτός από ΧΕΡΙ βοηθείας ήταν και φωτορεπόρτερ καλύπτοντας με υλικό όλη τη δραστηριότητα), τοποθετήθηκε ένας 8μετρος πτυσσόμενος ιστός με μία Diamond X-50 στην κορυφή και 0,5μ πιο κάτω μία G5RV. Οι πομποδέκτες ήταν ο HF KENWOOD 570, και το portable "βαλιτσάκι" V/U για Έκτακτες Καταστάσεις με το KENWOOD TM-D700, QRV και για APRS.

Το special shack τοποθετήθηκε σε αίθουσα διδασκαλίας με τα παιδιά από τις δύο τάξεις της ΣΤ' Δημοτικού.

Προσπαθήσαμε με απλά λόγια να τους δώσουμε να καταλάβουν τι είναι ο ραδιοερασιτεχνισμός, τι είναι ο ραδιοερασιτέχνης, με τι ασχολείται και τι χρειάζεται για να γίνει κάποιος ραδιοερασιτέχνης.

Πολύ εύκολα αφομοίωσαν το φωνητικό αλφάβητο που τους έδειξε ο SW2HQF (ίσως επειδή είναι πολύ κοντά στην ηλικία τους), ενώ οι απορίες για το APRS έπεφταν βροχή στον SV2CWV.

Ο SV2GWY με όσο το δυνατόν απλές έννοιες έπρεπε να εξηγήσει το μαγικό κόλπο της μεταφοράς της φωνής πολλά χιλιόμετρα μακριά. Και εδώ οι ερωτήσεις ήταν πολλές και μάλιστα πολύ σημαντικές όπως τι ακτινοβολία υπάρχει, εάν είναι βλαβερή και πως συγκρίνεται με αυτή των κινητών τηλεφώνων.

Με διακριτικό SZ2TSL/p έκαναν QSO στον αναμεταδότη R3 της Ε.Ρ.Β.Ε. με τον Θεόφιλο SV2GWF, οι op. Nickolas και Tina, οι οποίοι συλλάβισαν στο φωνητικό αλφάβητο τα ονόματά τους.

Έγιναν επίσης επαφές και στα HF, μάλιστα ο καλός συνάδελφος Ovic EK6TA (Αρμενία) χάρηκε πολύ όταν άκουσε από 28 παιδικές φωνές «goodmorning☐.

Το ενδιαφέρον τους ήταν πολύ μεγάλο, σε τέτοιο βαθμό έτσι ώστε στις 3,5 ώρες που ήμασταν εκεί, με το ζόρι βγήκαν για ένα δεκαπεντάλεπτο διάλειμμα.

Ο ενθουσιασμός τους, η φιλομάθεια και η περιέργεια για το καινούριο ήταν αυτό που μας εντυπωσίασε.

Η πιο αστεία ερώτηση από μέρους τους ήταν, «πόσο χρεώνεται το δευτερόλεπτο ομιλίας.», ενώ στην ερώτηση «ποιος θα ήθελε να γίνει ραδιοερασιτέχνης», όλα τα χεράκια ήταν σηκωμένα.

Μετά το τέλος του ham-Demo μερικοί γονείς και ιδιαίτερα ο δάσκαλος της Ε☐ τάξης ήθελε να δώσουμε ημερομηνία για μία ακόμη επίσκεψή μας για τις τάξεις της Ε☐.

Φυσικά και θα το επαναλάβουμε.

Μπορεί να ήταν μία κουραστική δραστηριότητα, για την προετοιμασία και την υλοποίησή της, αλλά η ηθική ανταμοιβή που εκλάβαμε μας δυναμώνει για να προσφέρουμε κάτι περισσότερο.

Για την Ε.Ρ.Β.Ε.

Vangelis, SV2BFN χθες στο πέρασμα νησιών Pago Pago ο διαγωνισμός για την ΕΠΙΠΛΕΟΝ (EXTRA) ΑΜΕΡΙΚΑΝΙΚΉ κατηγορία. Πριν από αυτόν περνά τους διαγωνισμούς για την τεχνική και γενική κατηγορία. ;

Αλλοι που χρειάστηκαν την ΑΜΕΡΙΚΑΝΙΚΗ κατηγορία έκαναν αυτής καλά επίσης, είναι εδώ ο κατάλογος: ;

1.Bogdanov Mladen, YU7NU, τ, γ, ε

2.Djeric Velimir, YZ1BX, G,E

3.Markovic Milovan YU1AU, ε

4.Aleksej Romanov, UA4HOX, T,G,

5.Tkachenko Ρωμαίος, UR0MC, τ, γ, ε,

6.Eulishov Evgenij, RK3AD, τ, γ, ε,

7.Vasiljenko Victor, RU4SU, τ, γ, ε ;

Όλα για το dx-pedition στο νησί βουκόλων πηγαίνουν καλά.

1906. Re: [The Greek Ham Radio] Re: invitations

Yahoo group: thegreekhamradio
Date: 2007-04-02 16:29:06 UTC
From: SV2GWY
Topic: 1900 Message: 1906

Αναφέρω και για άλλη μια φορά ότι είναι η προσωπική μου άποψη και νομίζω ότι θα συμβαδίσει τουλάχιστο με τα SV2..
Χλιαρή, αποδείχτηκε η μέχρι τώρα διαχείριση από τους αρμόδιους/αναρμόδιους που για δεκατόσα χρόνια κανείς δε θέλει να πιάσει αυτή τη "ζεστή" πατάτα γιατί το πολιτικό κόστος θα είναι μεγάλο. Οπαδική θα ήταν να βγαίναμε στους δρόμους ΞΑΝΑ (και θα το ξανακάναμε φυσικά αν χρειαστεί) αλλά και με αυτό αποδείχτηκε ότι δεν "ίδρωσε" κανένα αυτί.
Κάπως έτσι ξεκινήσανε την προπαγάνδα τους δειλά-δειλά και έφθασαν στο σημερινό σημείο, και είμαι σίγουρος ότι εφόσον δεν υπάρχει αντίδραση θα συνεχίσουν.
Θα σου πω μερικά παραδείγματα.
Εθεσαν στο τραπέζι 2 ζητήματα, το όνομα και τη σημαία, γνωρίζοντας ότι θα διαφωνήσουμε και έπρεπε να διαλέξουμε. Μετά την επιλογή ένα από τα δύο (φωτοτυπία των Ιμίων στο ένα νησάκι οι Τούρκοι και στο άλλο οι Έλληνες) όλοι για εσωτερική κατανάλωση ήταν κερδισμένοι.
Στο σύνταγμά τους αναφέρεται ότι δεν έχουν ούτε εδαφικές ούτε ιστορικές βλέψεις έναντι της Ελλάδος.
Ήδη κυκλοφορούν στο διαδίκτυο από το επίσημο κράτος χάρτες με διέξοδο στο Αιγαίο, και φυσικά δε μιλάω για τον Πειραιά.
Για τη δε ιστορία, ονόμασαν το αεροδρόμιό τους 'Αλέξανδρος ο Μέγας" και όχι "Μέγας Αλέξανδρος" και αυτό γιατί είναι διεθνής όρος στα αεροδρόμια να μην έχουν ίδια ονομασία. Εδώ που τα λέμε δεν είναι και ίδια.
Στην Κεντρική πλατεία των Σκοπίων τοποθετήθηκε άγαλμα του Φιλίππου του Β'.
Αν μη τι άλλο εάν αυτό δεν μας προσβάλλει (τουλάχιστο τα SV2).
Η δε προπαγάνδα τους ακούγεται στις low bands. Πολλές φορές τους ακούω και βλέπω και στο QRZ.com τις φωτογραφίες τους και απορώ, πως με 200ευρώ μηνιάτικο , έχουν 2 laptops, 1 Icom 756, 1 Acom 2000, TFT 42" για monitor και ποιος ξέρει τί τέρας θα ανεμίζει στους αιθέρες. Το μυαλό μου πάει στις επιδοτήσεις του κράτους.Να μην πω για την αναλογία αναμεταδοτών /ραδιοερασιτεχνών.
Ίσως φανεί εθνικιστικό αυτό το κείμενο, αλλά έτσι μεγάλωσα, έτσι εκπαιδεύτηκα στο σχολείο και ειλικρινά στεναχωριέμαι επειδή αυτές οι ιδέες είναι μόνο βορείως του Πηνειού.

Subject: [The Greek Ham Radio ] Re: invitations
```

το θέμα που ανοίγετε είναι λεπτό
και καλό θα ήταν να το αντιμετωπίσετε με σοβαρότητα
και όχι οπαδικά.
Κάποιος άνθρωπος προσπαθεί να επικοινωνήσει μαζί μας
στην γλώσσα μας χωρίς να γίνεται προσβλητικός,
χωρίς να χρησιμοποιεί ονόματα ή ονομασίες που μας προσβάλλουν
και φυσικά χωρίς να φταίει σε τίποτα
για τους συνειρμούς που σας ερεθίζουν τα συναισθήματα.
Προφανώς το prefix του το επέβαλε άλλη αρχή (itu)

και δεν εχει για τίποτα να ζητήσει συγνώμη.
Τα θέματα που έχουν να κάνουν με εξωτερική πολιτική
ας αφήσουμε να τα χειριστούν οι αρμόδιοι.

1908. Re: invitations

Yahoo group: thegreekhamradio
Date: 2007-04-03 05:33:36 UTC
From: Z32AF
Topic: 1898   Message: 1908

Καταρχήν είμαι ραδιο ερασιτέχνης Venci Ristov από το 1979 όταν ήμουν 14 έτους. Δραστηριοποιήθηκα πολύ στο παρελθόν στο HF και το VHF και ήδη απασχολήθηκα σχεδόν σε όλα για DXCC, WAZ, WPX, WAS κ.λπ... σε όλες τις ζώνες εκτός από 160 μ πού θα είναι ενεργός από την επόμενη εποχή. Επίσης είμαι πολύ ενεργός στους διαγωνισμούς συνήθως στο HF. Το πρώτο σημάδι κλήσης μου ήταν YZ5GRV και μετά από εκείνο το YZ5AA αλλά πριν από το εκείνο το ήμουν ενεργός ως YU5FAD και YT5G. Επίσης αρκετά συχνά εργάζομαι από έναν από το μεγαλύτερο σταθμό στην ΕΕ - YT6A.

Πρέπει να πω ότι είμαι πολύ έκπληκτος από SV2GWY. Με επιτρέψτε να εξηγήσω κάτι. Ο κύριος λόγος επειδή θέλησα για να είμαι μέρος αυτού 2 ανακλαστήρες είναι επειδή 7 μήνες πριν άρχισα να μαθαίνω την ελληνική γλώσσα, πριν από το εκείνο το εγώ ήξερε ακριβώς τους αριθμούς αλλά μόνο για να πει για να μην γράψει. Η ελληνική γλώσσα για τους αλλοδαπούς είναι πολύ βαριά αλλά ζω σε πόλη που είναι ακριβώς 1 χλμ από τα σύνορα και 70 χλμ από Θεσσαλονίκη και καθημερινός έχουμε το μέρος των επισκεπτών συνήθως από Θεσσαλονίκη. Σκέφτηκα ότι εάν έγινα μέλος εδώ που μπορώ να μάθω κάτι περισσότερο και μπορώ να μιλήσω με σας του τύπου για το θέμα θέλουμε (ΕΡΑΣΙΤΕΧΝΙΚΟ ΡΑΔΙΟΦΩΝΟ).

Περίπου η οικονομική κατάσταση εσείς αναφορά τι έχουμε συγκρίνει με τα χρήματα που κερδίσαμε. Όταν άρχισα να εργάζομαι το 1998 ο διευθυντής που μου έχει το μισθό $10.000 συν το επίδομα τουλάχιστον 50% αυτού του ποσού και ήμαστε έπειτα σε σοσιαλιστικό FR Γιουγκοσλαβία. Σήμερα στην πόλη μου υπάρχουν άνθρωποι που έχουν εκείνο τον μισθό (δεν είμαι ένας από τους) αλλά τι είναι παράξενος δεν μπορώ να καταλάβω. Κοιτάξτε γύρω από σας σε Θεσσαλονίκη και θα δείτε την τεράστια διαφορά.

Περίπου η πολιτική και η ιστορία - αυτό είναι ανακλαστήρας ραδιο ερασιτεχνών και δεν σκέφτομαι ότι είναι η θέση για αυτό το είδος συνομιλιών. Πάλι αυτό είναι πρώτη και τελευταία θέση αυτού του είδους από την πλευρά μου. Ήρθα εδώ με μόνο μια επιθυμία και εάν οι μεσολαβητές θέλουν θα μείνω εδώ και κατά διαστήματα θα τοποθετήσω μερικές πληροφορίες για το ερασιτεχνικό ραδιόφωνο και την τίποτα άλλο. Και δεν θα επαναλάβω σε οποιεσδήποτε συζητήσεις για άλλα πράγματα.

```
73' Z32AF
```

Θλιβερός για την κακή ελληνικά γλώσσα αλλά είμαι ακριβώς αρχάριος.

Αναφέρω και για άλλη μια φορά ότι είναι η προσωπική μου άποψη και νομίζω ότι θα συμβαδίσει τουλάχιστο με τα SV2..

Χλιαρή, αποδείχτηκε η μέχρι τώρα διαχείριση από τους αρμόδιους/αναρμόδιους που για δεκατόσα χρόνια κανείς δε θέλει να πιάσει αυτή τη "ζεστή" πατάτα γιατί το πολιτικό κόστος θα είναι μεγάλο. Οπαδική θα ήταν να βγαίναμε στους δρόμους ΞΑΝΑ (και θα το ξανακάναμε φυσικά αν χρειαστεί) αλλά και με αυτό

αποδείχτηκε ότι δεν "ίδρωσε" κανένα αυτί.

Κάπως έτσι ξεκινήσανε την προπαγάνδα τους δειλά-δειλά και έφθασαν στο σημερινό σημείο, και είμαι σίγουρος ότι εφόσον δεν υπάρχει αντίδραση θα συνεχίσουν.

Θα σου πω μερικά παραδείγματα.

Εθεσαν στο τραπέζι 2 ζητήματα, το όνομα και τη σημαία, γνωρίζοντας ότι θα διαφωνήσουμε και έπρεπε να διαλέξουμε. Μετά την επιλογή ένα από τα δύο (φωτοτυπία των Ιμίων στο ένα νησάκι οι Τούρκοι και στο άλλο οι Έλληνες) όλοι για εσωτερική κατανάλωση ήταν κερδισμένοι.

Στο σύνταγμά τους αναφέρεται ότι δεν έχουν ούτε εδαφικές ούτε ιστορικές βλέψεις έναντι της Ελλάδος.

Ήδη κυκλοφορούν στο διαδίκτυο από το επίσημο κράτος χάρτες με διέξοδο στο Αιγαίο, και φυσικά δε μιλάω για τον Πειραιά.

Για τη δε ιστορία, ονόμασαν το αεροδρόμιό τους 'Αλέξανδρος ο Μέγας" και όχι "Μέγας Αλέξανδρος" και αυτό γιατί είναι διεθνής όρος στα αεροδρόμια να μην έχουν ίδια ονομασία. Εδώ που τα λέμε δεν είναι και ίδια.

Στην Κεντρική πλατεία των Σκοπίων τοποθετήθηκε άγαλμα του Φιλίππου του Β'.

Αν μη τι άλλο εάν αυτό δεν μας προσβάλλει (τουλάχιστο τα SV2).

Η δε προπαγάνδα τους ακούγεται στις low bands. Πολλές φορές τους ακούω και βλέπω και στο QRZ.com τις φωτογραφίες τους και απορώ, πως με 200ευρώ μηνιάτικο , έχουν 2 laptops, 1 Icom 756, 1 Acom 2000, TFT 42" για monitor και ποιος ξέρει τί τέρας θα ανεμίζει στους αιθέρες. Το μυαλό μου πάει στις επιδοτήσεις του κράτους.Να μην πω για την αναλογία αναμεταδοτών /ραδιοερασιτεχνών.

Ίσως φανεί εθνικιστικό αυτό το κείμενο, αλλά έτσι μεγάλωσα, έτσι εκπαιδεύτηκα στο σχολείο και ειλικρινά στεναχωριέμαι επειδή αυτές οι ιδέες είναι μόνο βορείως του Πηνειού.

Δεν είναι το group για τέτοιες συζητήσεις, και αν δε συγχωρούμαι για αυτό παρακαλώ τους Owners και και moderators να με διαγράψουν. Μέλη θα βρεθούν και πάνω από την 41η πράλληλο.

From: sxanthop
Topic: 1910 Message: 1910

Καλησπέρα,

Μετά απο μερικές ημέρες όπου η sv2dxc bbs είχε τεθεί εκτός λειτουργίας λόγω του οτι κάηκε η motherboard, χάρη στις προσπάθειες και ταχύτατες ενέργειες του SV2RQ (Sakis) που ασχολείται και φιλοξενεί την bbs σε δικό του (πλέον) χώρο...η bbs λειτουργεί και πάλι κανονικά. Συχνότητες λειτουργίας 144.650 (1200b) - 433.650 (1200b επικοινωνία με digi πηλίου) - 438.150 (9600b).

Ευχαριστούμε και ελπίζουμε να συνεχισει να λειτουργεί αυτή η bbs γιατί μας δίνει ΠΟΛΛΕΣ, ΠΑΡΑ ΠΟΛΛΕΣ ΠΛΗΡΟΦΟΡΙΕΣ ραδιοερασιτεχνικού περιεχομένου.

Στην περιοχή 4 αν δεν κάνω λάθος δεν υπάρχει bbs που να μπορείς να συνδεθείς. Πρέπει λογικά να υπάρχει το digipeater του πηλίου στο 433.650 με ονομασία J44UAB. Λογικά θα μπορείς να κάνεις σύνδεση επάνω του και στην συνέχεια με help ή ? θα σου βγάλει μια βοήθεια για να ξεκινήσεις να "παίζεις". Λογικά αυτό μπορεί να συνδεθεί με κάποια Nodes όπως την SV2DXC-12 στην Θεσ/νίκη.

Αν δεν λειτουργεί το digi του πηλίου,δοκίμασε στην ίδια συχνότητα το J42UAB που είναι το digi στην Θεσ/νίκη (δεν ξέρω αν λειτουργεί κανονικά, έχω καιρό να το δοκιμάσω). Και τα 2 παραπάνω digipeaters σε ταχύτητα 1200 baud.

D68C and N8S are 2 different expeditions. N8S did this record in another category - tenth, generators etc. D68C was easy one from several stars hotel on Comoros Island.

Hi Giannis ...

TO Z32AF:

THE HISTORY IS THE SAME TO ALL HAMS AROUND EARTH... --- I AGREE

WHEN YOU WORKED A NEW ONE WHO CARES ABOUT FIVE STARS HOTEL OR A TENT
'' THE TWO WAY QSO IS THE ONE AND THE ONLY'' .

AND WHEN THE ANTENNA REFLECTS THE POWER DOESNT SENT THAT ''I AM
TRANSMITTING FROM A TENT''OR ''NOW I AM TO THE CONFORTABLE ROOM'' BUT
ONLY POWER... --- I AGREE, BUT ...

When K1B dx-pedition was over I have the same opinion like you have now. I
discussed many times with some of the members of K1B crew including YT1AD
(leader of team) and also with some very known dx-peditioners from around
the world. After many e-mails almost all of them were with the same opinion.
There is big difference between 5 star hotel DX - expedition and classic
style one and they have to be 2 different categories. These discussions were
on several different yahoo reflectors too.
I think that we have to recognise their fantastic work, they made something
unbelievable at the bottom of cycle 23.

THE QSOs RECORD IS 'D68C' AND EVERYONE KNOWS THAT : 168.000plus IS
BIGGER THAN 117.205 ---

FINALLY WHEN SOMEONE MAKES SOMETHING WRONG -MUST - HAVE THE POWER TO
RECOGNIZE IT!! --- I AGREE

73 FROM THESSALONIKI
GIANNIS
SV2FPU

P.S. Pictures from this fantastic DX-pedition you can find at:
http://www.dailydx.com/n8s.htm
P.S. 1 - From now on please write on Greek language - I did not became
member on this reflector to practice English :-)

1923. "CQ Kids"

Yahoo group: thegreekhamradio
Date: 2007-04-18 20:51:39 UTC
From: SV2GWY
Topic: 1923 Message: 1923

Μπορεί να είναι ο Χορός μας το Σάββατο 21/4/2007, ΑΛΛΑ ΔΕ θα πρέπει να ξεχνάτε το "Kids Round UP"

Ένα contest για παιδιά με ή χωρίς άδεια. Σκοπός έιναι να έρθουν πιο κοντά στο hobby μας όλα τα παιδιά, κάνοντας QSO από τα

80μ έως και τα UHF (εκτός των WARC bands).

Το Γενάρη έγινε κάτι αντίστοιχο αλλά δυστυχώς δεν ακούσαμε πολλές παιδικές φωνές, που φυσικά όλες βραβεύτηκαν με αναμνηστικό από την ARRL.

Είχαν πάρει μέρος:

Έφη και Αγγελική (SV2CWV & SV2HRV)

Θεμιστοκλής (SV2GWY)

Μανώλης (SV2HRS) και

Παναγιώτης (SV2BFN)-καταπληκτικός αλλά από ποιν θα έπαιρνε άραγε?-

Αυτή τη φορά είναι λίγο πιο πολύπλοκοι οι όροι, γιατί έχει και κατηγορίες οι οποίες θα πρέπει να τηρηθούν για να βγεί η βαθμολογία.

```
There are six categories.

4.1.1. M - Multiple operators (licensed or unlicensed kids) operating with a control
operator within the limits of the control operator's license and using the control
operator's call sign. Note: We recommend a group name (e.g., CARLY, Rose Family, Krazy
Kids, The Sopranos, The Wild Bunch, etc.) be used to identify a multiple entry as part of
your entry submission.
4.1.2. L - Single operator (Licensed kid) operating within the limits of his/her own call
sign.
4.1.3. C - Single operator (Licensed kid) operating with a control operator w ithin the
limits of the control operator's license and using the control operator's call sign.
4.1.4. U - Single operator (Unlicensed kid) operating with a control operator within the
limits of the control operator's license and using the control operator's call sign.
4.1.5. Y - Single operator. A licensed YL adult operator 18 years old or older at the start
of the contest.
4.1.6. O - Single operator. A licensed OM adult operator 18 years old or older at the start
of the contes
```

Σάββατο 21 Απριλιου και Κυριακή 22 Απριλίου 2007

Διάρκεια Contest:

Έναρξη: 1400 UTC Σάββατο
Λήξη : 2200 UTC Κυριακή

Mode και Bands:

Phone μόνο.

Frequency bands:

80M-70cm (No WARC bands)

Προτεινόμενες:

3.920
7.230
14.270
21.370
28.370
52.525
146.550

Ανταλλαγή:

Κράτος
Κατηγορία (M, L, C, U, Y ή O)
Μικρό όνομα

Σας εύχομαι καλή Διασκέδαση το Σάββατο και πολλά QSOs την Κυριακή από τις "αρμονικές σας"

Yahoo group: thegreekhamradio
Date: 2007-04-19 04:47:28 UTC
From: vangelis gekas
Topic: 1916   Message: 1924

Dear Sir:

It is quite apparent that you have never carried 2 tons equipment from a boat to shore, then set-up camp and antennas, carried qty 13 55 gallon drums of gas, purchased 6 genrators and maintained them every 8 hours, and then operated from a tent at 108 degrees F. with bugs everywere.

Please do not be ignorant!

Working from a hotel is not even close to working with power generator and tent.

God Bless you!

N8S is "1" in the Tent and Generator Class and #4 Over All in Total DX-peditions.

Signed David - K3LP

1925. Re: Θέμα: RE: [The Greek Ham Radio] DXE Swains Isl.- N8S - New worldrecord///WRONG-MISUNDERSTANTING

Yahoo group: thegreekhamradio
Date: 2007-04-19 10:40:15 UTC
From: sv2fpu@vip.gr
Topic: 1916 Message: 1925

ANSWER TO K3LP :

AND ALSO I WILL PROVIDE YOU ONE QUESTION (SCENARIO) FOR THINING AND ANWERING

--IF I AM A POOR HAM IN A SMALL VILLAGE SOMEWHERE IN EARTH AND I HAVE NO INTERNET ACCESS OR ANY OTHER DX INFOs NET, OR ANY OTHER HAMS CLOSE TO ME, TO INFORM ME ABOUT US (ACTIVITY FROM A NEW ONE DXCC etc)... AND ONE NIGHT HE FOUND ON THE AIR THE 'N8S' WITH HUGE PILEUP...AND TRIED TO WORK PLEASE ANSWER ME :

1) IF HE KNOWS AT THIS TIME THE DIFFICULTIES WHO HAS THE N8S AT THIS MOMENT (BAD WEATHER, BRAKE GENERATOR, FOOD QUALITY etc)?
2) IF HE RECOGNIZES FROM THE 'N8S TRANSMITTION' (ICOM 756 TX/RX PLUS ACOM AMPL.
PLUS YAGI ANTENNAs) THAT THE 'N8S TRANSMITTION' ACTIVATES FROM AN ATOLL IN CENTRAL PACIFIC AND THE CREW IS TIRED OR THIRSTY?
3) IF HE SEES IN A TV MONITOR FROM A ''BIG BROTHERs CAMERA'' WHATS HAPPEND NOW'' IN THE N8S CAMP?
I AM VERY SORRY SIR (BECAUSE THESE - DXPEDITIONERS - FILLINGS I HAD THE OPPORTUNITY TO LIVE IN MANY DXPEDITIONS I TOOK PART - 25HOURS OF CONTINIOUSLY OPERATING IN SSB AND CW...AND SOMEONE GUY FROM STATES SAIED
TO ME THAT I WORKED YOU, WENT TO MY OFFICE, RETURNED TO HOME, SLEEPED, ATE LUNCH AND ''YOU ARE STILL EXISTING IN THE SAME FREQUENCY...ARE YOU A ROBOT SIR? AND I ANSWERED ''YES I AM'' (HI HI) / J48ALO IOTA EU-072 2002) BUT NOBODY EXCEPT THE CREW KNOWS...THE DIFFICULTIES AND ALSO WITH NO RESPONSE EXCEPT THE CLOSE TO THE CREW PEOPLE

THATS THE REAL TRUTH

DEAR SIR

MY ASWER IS ALREADY EXIST IN YOUR TEXT (I FULLY AGREE WITH THIS) :

''N8S is "1" in the Tent and Generator Class

and #4 Over All in Total DX-peditions''

(BUT IT IS NOT CLEAR AND NOT AGREE WITH Z32AF's COMMENTS)

''NEW WORLD RECORD - N8S, Swains Isl. - 117.205

qso's''.

NOW ABOUT YOUR COMMENTS TO MY PERSON (RADIOAMATEUR SV2FPU) :

'' It is quite apparent that you have never carried 2
tons equipment from a boat to shore, then set-up camp

and antennas, carried qty 13 55 gallon drums of gas,
purchased 6 genrators and maintained them every 8
hours, and then operated from a tent at 108 degrees F.
with bugs everywere.

Please do not be ignorant!''

PLEASE LETS TAKE A LOOK AT MY ''S M A L L'' GREEK RADIOAMATEUR HISTORY

IN :

www.qrz.com,

www.whitetowerdxt.com

I DONT LIKE TO FOCUS MORE ON YOUR ''OUT OF RADIOAMATEUR SPIRIT'' COMMENTS :

SUCH US : ''It is quite apparent'' OR ''Please do not be ignorant!'' BECAUSE

THE MEANING OF THESE SAIED TO ME THAT YOU NEVER SEARCH ABOUT TO SEE

''WHO IS TALKING OVER THERE?''

ALSO IT IS NOT TO MY PERSONAL / RADIOAMATEUR / OFFICER OF THE HELLENIC

NAVY QUALITY TO DECREASE THE N8S DXPEDITION OR ANY MEMBER OF THE CREW OR ANY

HAM IN THE WORLD OPPOSED I WANT TO EXHORT WITH MY LITTLE POWER AND OTHERS

FRIENDS TO BE RADIOAMATEURS AND DXPEDITIONERS (TEACHER FOR MANY YEARS IN

MORSE).

FINALLY, IN ANY CASE I GAVE AT MY FIRST ANSWER TO Z32AF MY CONGRATULATIONS TO

ALL THE CREW : '' GOOD DAY TO ALL AND CONGRATULATIONS TO 'N8S CREW'.

SPECIALY TO VAGELIS SV2BFN FOR HIS EFFORT!!'' AND I WILL

GIVE AGAIN MY SINCERELY CONGRATULATIONS FOR ALL CREW OF N8S FOR

THEIR EFFORT, AND OFCOURSE FOR THE QSOs WORLD RECORD.

73 FROM GIANNIS

SV2FPU

Το μόνο που μπορώ να σκεφτώ είναι το Rapidshare ή κάτι αντίστοιχο για
να κάνετε την δουλειά σας.

Όσο για ραδιοερασιτεχνικά δίκτυα, ας μην το συζητήσουμε γιατί θα
πρέπει να βάλουμε τα κλάματα !

1940. Satgate telos !

Yahoo group: thegreekhamradio
Date: 2007-04-26 15:24:43 UTC
From: sxanthop
Topic: 1940   Message: 1940

<<<< Έπειτα από πολλά έτη λειτουργίας σαν σύστημα μεταφόρτωσης μηνυμάτων πάκετ μέσω των δορυφόρων UO-22, GO-32 και AO-51, το ραδιοερασιτεχνικό σύστημα Satgate θα σταματήσει οριστικά την λειτουργία του.

Το σύστημα αυτό πλαισιώθηκε τον καιρό της ακμής του από 35 επίγειους ανά τον κόσμο σταθμούς και για πάρα πολλά χρόνια αποτελούσε τον κύριο κορμό της παγκόσμιας ενημέρωσης των ραδ/χνών, όταν οι σημερινές μορφές επικοινωνίας, όπως το Ίντερνετ, ήταν ανύπαρκτες.

Η τεχνολογική του υπεροχή ήταν παροιμιώδης και αποτέλεσε υπόδειγμα εφαρμογής δορυφορικών ζεύξεων, με πολύ υψηλά στάνταρτς για την εποχή του.

Επικεφαλής ήταν ο David Medley, KI6QE.
Τον σημαντικότερο ρόλο όμως στο σύστημα έπαιξε ο Andrew Sellers, G8TZJ, ο οποίος δημιούργησε το λογισμικό χάρις στο οποίο το σύστημα Satgate μπορούσε να λειτουργεί σε εντελώς αυτοματοποιημένη βάση, χωρίς να επεμβαίνει ανθρώπινο χέρι.

Το Traffic των μηνυμάτων διεκινείτο στους σταθμούς BBS με την χρήση του γνωστού προγράμματος F6FBB και rout-αριζόταν από τους 35 επίγειους σταθμούς στους δορυφόρους με το WiSP-program .

Με αντίστοιχο download από τους δορυφόρους τα μηνύματα προωθούντο με τον αντίστροφο τρόπο στο επίγειο packet network, εντελώς αυτόματα!

Χάρις στο σύστημα αυτό, οι ραδι/χνες κατόρθωσαν να δημιουργήσουν ένα πρωτοποριακό, αξιόπιστο, ανεξάρτητο παγκόσμιο σύστημα προώθησης γραπτών μηνυμάτων που δεν είχε προηγούμενο και το οποίο εξυπηρέτησε τις επικοινωνιακές τους ανάγκες για 20 και πλέον έτη.

Δυστυχώς, λόγω περιορισμού διακίνησης μηνυμάτων, απώλειας από την ζωή κάποιων συναδέλφων και άλλων προβλημάτων, της ασφυκτικής ανταγωνιστικότητας του διαδικτύου κλπ., το σύστημα θα σταματήσει την λειτουργία του τις επόμενες μέρες.

Don't forget to join in on the fun of the 2007 Dayton Hamvention this year by live streaming video and audio and chat room. Many of you joined us last year. We will be broadcasting the 3 days of the Hamvention live at http://wa5kub.com may 18-20th.

We will also be broadcasting our 500 mile drive LIVE to hamvention. Watch us drive and chat with us and others around the world. We depart on W ed May 16th at approx
1300 GMT.

The web site is up and running right now (right now it has recorded video of hamvention) and we will be switching to live soon.

Please help us load test the system by going to http://wa5kub.com
And watching and chatting with us and others.

Also many of you watched the bird cam last year. This year we have a new live webcam of a birds nest and eggs and they are expected to hatch soon. Watch the mother bird fe ed and care for the babies.
That link is http://tmedlin.com/birdcam.html

Thanks and 73's

Tom WA5KUB

Ως επαρχιώτης, δε γνωρίζω το μέρος αλλά σας πιστεύω ότι είναι αξιόλογο. Παρότι σαφώς το προηγούμενο δεν ήταν καλό, έχω να παρατηρήσω ότι εμάς από την επαρχία μας βόλευε αφού γλιτώναμε αρκετή ώρα και δεν μπλέκαμε στην Αθήνα. Για παράδειγμα ήθελα γύρω στις δυόμισι ώρες από το Αγρίνιο για τον Ασπρόπυργο ενώ τώρα θα χρειαστώ πάνω από τρεις. Σε συνδυασμό με κάποια κοινωνική εκδήλωση, που με υποχρεώνει το Σάββατο να είμαι στο Αγρίνιο, είναι λίγο δυσκολότερο να έρθω φέτος, δυστυχώς. Επίσης αντίστοιχα στον Ασπρόπυργο ήταν κοντά οι μάντρες με τα στρατιωτικά υλικά. Ελπίζω στον καινούριο χώρο να μη συνεχιστεί η απαράδεκτη κατάσταση με το κάπνισμα. Δεν μπορούσαμε να αναπνεύσουμε από το τσιγάρο στον Ασπρόπυργο. Μακάρι να απαγορεύεται και να τηρείται η απαγόρευση στο γκάζι.

..OK, ευχαριστούμε ENG για την επιβεβαίωση.

Ναι, κι'εγώ πιστεύω ότι ο συγκεκριμένος χώρος είναι
πολύ καλή επιλογή.

Το προηγούμενο μέρος πάντα μου προξενούσε απορία.
Αρκετά χιλιόμετρα έξω από την Αθήνα,σ΄'ενα απομονωμένο
σημείο, απαιτούσε οπωσδήποτε κάποιο μεταφορικό μέσον
(εφοδιασμένο με ...GPS για όσους πήγαιναν 1η φορά) και
ήταν σ'ενα χώρο που προσωπικά δεν μου άρεσε ιδιαίτερα
(γι'αυτό άλλωστε δεν πήγαινα).

Αντίθετα στο Γκάζι μπορείς να πάς π.χ. και με το
τρένο, το λεωφορείο κλπ. Μπορείς να συνδυάσεις την
επίσκεψη σου στο Hamfest με μια βόλτα το Μοναστηράκι,
το οποίο απέχει μόλις 5-10 λεπτά της ώρας με τα πόδια,
να πιείς ένα καφέ ατενίζοντας την Ακρόπολι και γιατί
όχι, το απόγευμα ή την επομένη να κάνεις μία
δεύτερη επίσκεψη στο Hamfest.
Προβλέπω μεγάλη... κοσμοσυρροή φέτος !

73, Μάκης SV1BSX

From Magnesia Radio Amateur's Mail Group:

Η Ε.Ε.Ρ. ενημερώνει ότι η χρήση FM απαγορεύεται στην μπάντα των 6M .
Λόγω του ότι η εκχώρηση της υποζώνης αυτής είναι "προσωρινή" με κύριο
χρήστη τις ένοπλες δυνάμεις η χρησιμοποίηση της επιβάλλει ιδιαίτερη
προσοχή! Επίσης καλούνται οι σταθμοί να μην εκπέμπουν η κάνουν δοκιμές
στο 50.110 το λεγόμενο DX window. Η χρήση της συγκεκριμένης συχνότητας
είναι για δήλωση παρουσίας, πολύ σύντομες κλήσεις και αναγγελία QSY σε
διπλανές συχνότητες.

Αύριο 17 Μαΐου είναι η Παγκόσμια ημέρα Τηλεπικοινωνιών.

Η Ε.Ρ.Β.Ε. θα συμμετάσχει σε αυτή τη γιορτή, καταλαμβάνοντας κάποια

συχνότητα στο φάσμα 80~6m, με το διακριτικό της "SZ2TSL".

Θα χαρούμε πολύ να σας συμπεριλάβουμε στο log μας.

Για την Ε.Ρ.Β.Ε.

1959. IC-7700 νέο HF+6m σύντομα από την ICOM

Yahoo group: thegreekhamradio
Date: 2007-05-17 06:55:20 UTC
From: sv1eex
Topic: 1959   Message: 1959
Attachments: 2 described; binary payloads are missing from this source WARC

http://www.ab4oj.com/icom/ic7700/images/7700frt_lg.jpg

http://www.ab4oj.com/icom/ic7700/images/7700rear_lg.jpg

The new IC-7700 is a self-contained, top-performance HF/6m transceiver closely related to its "bigger brother", the IC-7800. Its main features are:

1.. Two independent DSP units (of the same type used in the IC-7800).

a.. One DSP is dedicated to the transmitter and receiver, and the other to the spectrum scope.

2.. HF/6m transmitter with a MOSFET PA delivering 200W output at full duty cycle.

3.. Quiet, built-in switch-mode mains power supply.

4.. Single HF receiver with I/Q second mixer, offering +40dBm 3rd-order intercept point*.

a.. The single receiver should be seen not as a disadvantage, but as a plus. The single receiver allows no-compromise RX performance at a reasonable price; BNC sockets on the rear panel, and CI-V, allow easy connection and synchronization of a second Icom transceiver such as the 756Pro3 as a secondary receiver. Many prospective IC-7700 buyers already own an IC-756Pro3. Add the IC-7700 to your existing Pro3 for the perfect contest station; use the IC-7700 as your main transceiver, and the IC-756Pro3 as a spotting receiver.
b.. Upgrade from your IC-765 or IC-775DSP, and get the benefits of a spectrum scope.

5.. Built-in automatic tracking RF preselector.

a.. The built-in tracking preselector, and relay-switched front end, offer unrivalled strong-signal HF performance.

6.. Built-in high-speed automatic antenna tuner.

a.. The tuner covers the HF and 6m bands.

7.. Selectable 15, 6 and 3 kHz roofing filters.
a.. As provided in the IC-7800.

8.. Precision OCXO with ±0.05ppm frequency stability and 10 MHz Reference I/O jack.

a.. The precision OCXO with 10 MHz REF I/O allows the IC-7700 to clock other equipment, or to be clocked from a higher-level master clock source.

9.. 7" color TFT LCD display.

a.. The display includes a simulated analogue multi-function meter.
b.. Rear-panel VGA socket for external video monitor.

10.. Multi-function spectrum scope with adjustable resolution bandwidth (RBW).

a.. The adjustable RBW permits spectral analysis of received signals. IMD products and spurs can be displayed.

11.. Built-in RTTY/PSK31 modem requiring only a USB keyboard.

a.. The built-in RTTY/PSK31 modem allows use of the IC-7700 as a complete digimode terminal, requiring only a keyboard. This is great for semi-portable operation (e.g. Field Day) or when shack space is at a premium.

12.. IF-DSP notch filter with adjustable parameters.

a.. The notch filter shape factor is selectable in 3 steps, and its maximum stopband attenuation is 70 dB.

13.. Multi-function noise blanker implemented in DSP.

14.. Separate, high-performance 6m receiver front end.

15.. Digital voice recorder.

16.. Front -panel USB ports for USB memory drive and keyboard.

a.. The USB memory drive socket permits use of pocket USB memory drives. No CF card is required.
Το μηχανάκι δεν κυκλοφορεί ακόμα μια και δεν έχει πάρει ακόμα έγκριση από το FCC. Εδώ είναι η μπροσούρα του (prerelease)

I find very difficult to understanding you and few others like you mindless!

I dont think you have right to call me a pirate I do not take over something what

Belongs to you or anybody, I am only obeying law of the country that I was born in

and what right you think someone has from the outside to dictate me and not only me also government of this land not to permit amateur radio or any other hobby.

Secondary you call me a pirate maybe because prefix we use not in ITU allocation list so what about 1A 1S also not in ITU list but you don't call them pirate and I am

sure that you hope to work them oneday only difference here is that they in DXCC

award list . I guess you know IARU, ARRL,RSGB,CIS and hundreds more are only civil organizations they are not in any position to separate who is legal or illegal ther are not law makers and that is exactly what they doing trying to keep politics out of amateur activity. Because of this I get to much support from all amateurs around the world except 12 of you SV3DCX, SV1EPP, SV1BDO, SV1CNS, SV1GSP, PA2RU, IU3X, G4ZOY, IK2IWU, YV5ANF, W3UR, G0KOM. by looking at this calls majority SV and greek friend like G0KOM. one can openly see that its politics. For bringing politics into our hobby I found every right to call you mindless. Current situation of NORTH CYPRUS (Turkish Republic of Northern Cyprus) politicians job does not concern amateurs I suggest KEEP POLITICS OUT FROM AMATEUR

RADIO

if you call someone a pirate for fun or something to do
I feel sorry for you.

unfortunate that I need to write this to you!!!!!

1963. Fw: ΑΠΟΤΕΛΕΣΜΑΤΑ ΕΞΕΤΑΣΕΩΝ

Yahoo group: thegreekhamradio
Date: 2007-05-22 15:15:03 UTC
From: SV2GWY
Topic: 1963   Message: 1963

Σήμερα το πρωϊ ανακοινώθηκαν τα αποτελέσμτα των εξετάσεων για απόκτηση πτυχίου ραδιοερασιτέχνη στη Νομαρχία Θεσσαλονίκης.

Οι ΕΠΙΤΥΧΌΝΤΕΣ είναι οι παρακάτω:

Αναστασιάδης
Βασιλικός
Βάσιος
Βατιλίδης
Βενετικίδης
Γιλέκη
Θεοδωρίδης
Κατραμίδης
Κατσαβουνίδης
Καφκόπουλος
Κεραμιδόγλου
Μαρίνης
Μιχαλακάκης
Μπακριατώρος
Μπερβερίδης Αλέξανδρος
Μπίρδας
Ξανθός
Πελεκάνης
Πορτσέλης
Ραπτόπουλος
Σαπακόλης
Σωτηρίου
Τζανιδάκη
Τσούκας
Φουντάς

Καλώς ήρθατε στην οικογένειά μας, και "σιδεροκέφαλοι" όπως συνηθίζεται.

Οι ΑΠΟΡΙΦΘΕΝΤΕΣ ήταν:

Γεωργιάδης
Καλογερόπουλος
Καρανάσιος
Κοκόρης
Κουσίδης
Μπερβερίδης Ιορδάνης
Νάκος
Παπαδόπουλος
Σκουτέλας
Τζιβανάκης

Τσαχπίνης
Φράγκου.

Παιδιά μην το βάζετε κάτω, η επόμενη περίοδος είναι πού μικρή και οι εξετάσεις είναι πολύ σύντομα. Θα προσπαθήσουμε πάλι όλοι μαζί για την ΕΠΙΤΥΧΙΑ

Από τα 42 άτομα, για την Κατηγορία 2 (SW) απέτυχαν οι 14 [ΕΠΙΤΥΧΙΑ 63%] ενώ για την κατηγορία 1 (SV) απέτυχαν και οι 21 [ΑΠΟΤΥΧΙΑ 100%].

Για την Κατηγορία SV για τρίτη συνεχόμενη φορά η ΑΠΟΤΥΧΙΑ είναι παταγώδης. Μήπως τελικά "δεν είναι στραβός ο γυαλός?"

Εμείς σα Δ.Σ. θα αναζητήσουμε τις αιτίες και θα προσπαθήσουμε για το καλύτερο.

Για την Ε.Ρ.Β.Ε.

1973. Εξεταστική στα Μορς

Yahoo group: thegreekhamradio
Date: 2007-06-01 22:19:10 UTC
From: SV2GWY
Topic: 1973   Message: 1973

Να συγχαρώ για άλλη μια φορά τους νέους συναδέλφους που ήρθαν στην μεγάλη οικογένειά μας.
ΣΙΔΕΡΟΚΕΦΑΛΟΙ, να ασπάζονται τα καλώς και να φλτράρουν τα κακώς κείμενα που γίνονται και ακούγονται στα Ερτζιανά.

Στη Νομαρχία Θεσσσαλονίκης για τρίτη συνεχόμενη φορά, η αποτυχία στην εξέταση Μορς ήταν παταγώδης. Έφθασε το 100%,

Εικοσιένας στους εικοσιένας.

Η σύμπτωση είναι ότι άλλαξε ο χειριστής και τις τρεις τελευταίες φορές είναι ο ίδιος.

Να επαναλάβω, "μήπως τελικά δεν είναι στραβός ο γυαλός?"

Η αγανάκτηση των εξεταζομένων, που από τον Οκτώβριο 2006 μέχρι και το Μάιο παρατούσαν δουλειές, οικογένειες και υποχρεώσεις για να παρακολουθήσουν τα μαθήματα είναι μεγάλη.

Είναι πολύ άδικο για πιθανή υπαιτιότητα του "κλειδιού" ή κάποιου προβλήματος του χειριστή να απορριφθούν από την Κατηγορία 1.

Συμμεριζόμενοι την αγανάκτηση των υποψηφίων, ήδη έχουμε ξεκινήσει διάλογο με την ιεραρχία του αρμοδίου τμήματος της Νομαρχίας Θεσσαλονίκης, με αίτημα

- την στελέχωση της Εξεταστικής Επιτροπής με έναν αντιπρόσωπο της ΕΡΒΕ (μας κατωχυρώνει και ο Ν2801) και
- ΔΙΑΠΡΑΓΜΑΤΕΥΟΜΑΣΤΕ την επανάληψη της εξέτασης στα σήματα Μορς.

Δυστυχώς υπάρχει QSB QRM και QRN. Τα κρατικά γρανάζια δεν είναι τόσο ευέλικτα λόγω έλειψης προσωπικού , αλλά εμείς θα προσπαθήσουμε χωρίς υπερβολές και "κορώνες" για το καλύτερο.

Ευχηθείτε μας καλή δύναμη και καλή επιτυχία.

Για την Ε.Ρ.Β.Ε.

`always QRV de sv2gwy`

PS: Όσοι καταφέρατε να κάνετε QSO με τον SV2BFN από τη Samoa με το διακριτικό 5W0SV, θα μπορείτε να παραλάβετε τις QSL κάρτες σας, από το stand της ΕΡΒΕ στο Hamfest, την Κυριακή 3/6/2007.

Dear sirs
My country may not be internationally recognised, but according to the rules of the country I am living in, I am still a proper Radio ham who has passed all the necessary exams and tests so my ability and rights to become a ham is not less than anyone else on this world.I am not a pirate as some people say. If you want to check the genuinity of my licence you may get in touch with the ANTRAK (TA Radio Amateurs' Association) or the "TGM" Telsiz Genel Mudurlugu" Ankara - Turkey, this is the goverment body which is equivalent of OFFCOMM of UK.

According to the Universal Human Rights every person has got the right to communicate freely. Even when someone is arrested will be given chance to phone to his lawyer or his/her family.

some people who are trying to breach the well known rule of ham spirit no politics should be involved in ham radio. Being a Turkish Cypriot was not my choice, no one has given me any choice to select a citizenship. I just happened to be born here in TRNC (Turkish Republic of Northern Cyprus) and I am proud of being a citizen of it. Enjoying this hobby should be my natural right as well as anyperson living on Earth. The 1B prefix has even been included in the DXCC directory book of the RSGB with the explanation that is not internationally recognised and being used by the North part of Cyprus. Best regards

Μάκη βλέπω ότι είμαστε συντονισμένοι, μιλάμε στο ίδιο μήκος κύματος, για να είμαστε και στο πνέυμα.

Κάποια groups πρέπει να είναι κλειστά, για παράδειγμα αυτό που έκανες εσύ, δε γνωρίζω ποιο είναι αλλά θα είχες τους λόγους σου.
Το ίδιο έκανα και εγώ σαν owner tou sz2tsl@yahoogroups που είναι μόνο για τα μέλη της ΕΡΒΕ και ο σκοπός που δημιουργήθηκε ήταν η έγκαιρη και έγκαιρη πληγροφόρηση των μελών μας για τις δραστηριότητές και τα θέματα που μας απασχολούν.
Ταυτόχρονα άνοιξε και στο forum του www.hwn.gr με τίτλο "SZ2TSL" ανοικτό σε οποιονδήποτε να ακούσει και να πει γνώμες.

Σαφώς ο "Ξένιος Δίας" επιβάλλει ευγένεια αλλά όχι σ΄αυτούς που μας καπηλεύονται.

Μάκη θα ήθελα να κουβεντιάσουμε και από κοντά, εάν θα είσαι αύριο στο HamFest θα με βρείς στο stand της ΕΡΒΕ.

Κύριοι 73 CU later

```

Χαιρετώ όλους,

γιατί θα γίνει boomerang Δημήτρη? δηλαδή τι? θα
φοβηθούμε μη τυχόν και παρεξηγηθούν οι διαστρεβλωτές
της ιστορίας μας ή αυτοί που μας παραδίδουν μαθήματα
"Ανθρωπίνων διακαιωμάτων" από την καταπατημένη Κύπρο ?
μη τρελαθούμε τελείως δηλαδή !

Συμφωνώ απολύτως επίσης με αυτό που ειπώθηκε, ότι θα
πρεπει τα μέλη του Group να είναι ραδιοερασιτέχνες και
μόνον.
Δεν καταλαβαίνω γιατί κάποιος θα πρέπει να μας λέει
εδώ την άποψή του κι 'εμείς να τον ακούμε, ενώ
στερείται διακριτικού. Δηλαδή δεν κατάλαβα... από που
ορμώμενος έχει θέση και άποψη και βάσει ποίας
εμπειρίας στον χώρο ? (που την βρήκε??)

"Βήμα" να έχουν όσοι είναι ραδιοερασιτέχνες
αδειούχοι. Αυτοί και μόνον αυτοί. Οι υπόλοιποι να
πάνε στο "καλό" και να μας "γράφουν".

'Οσον αφορά τους "βαρβάρους" (κατά το "πάς μή ''Ελλην
βάρβαρος"), να διαγραφούν επίσης.

Ανάλογο πρόβλημα είχα αντιμετωπίσει κι'εγώ σε κάποιο
άλλο Forum που είμαι Owner. Έτσι λοιπόν:

1) έκανα το Group "κλειστό", δηλαδή μόνο τα μέλη έχουν
δυνατότητα
πρόσβασης. Οι υπόλοιποι, ούτε τα μηνύματα δεν μπορούν
να διαβάσουν.

2) όταν υπάρχει αίτηση μέλους, επιβεβαιώνω αν όντως
είναι ραδιοερασιτέχνης. Αν δεν είναι, στο "καλό και να
μας γράφει". Η μόνη εξαίρεση είναι για ακροατές (SWL)
εφόσον όμως επιβεβαιώσω πρώτα την πραγματική τους
ιδιότητα.

3) για τους 'Ελληνες Ρ/Ε του εξωτερικού, εξυπακούεται
ότι αν δεν έχουν SV0xx διακριτικό, ασφαλώς και θα
γίνεται εξαίρεση. Δικό μας είναι το Group, ότι
θέλουμε κάνουμε. Δηλαδή τι? φοβόμαστε μη παρεξηγηθούν
οι γείτονές μας και μας κόψουν την καλημέρα?

Τέλος, για να εξοβελιστούν οι "βάρβαροι", θα πρέπει
Σπύρο να διορθώσεις την περιγραφή του Group. Εκεί θα
πρέπει ν'αναφέρει ευδιάκριτα ότι το Forum είναι
αποκλειστικά για 'Ελληνες ραδιοερασιτέχνες. Θα τους
στείλεις λοιπόν ένα Email, όπου θα τους εξηγείς ότι
"δεν πληρούν πλέον
τους ΝΕΟΥΣ όρους του Group" και θα διαγραφούν από
μέλη.
Απλό είναι.

Και δεν καταλαβαίνω γιατί σας έχουν πιάσει εδώ οι
"δημοκρατικές ευαισθησίες σας" σε θέματα που δεν
πρέπει. 'Οταν άλλοι διαστρεβλώνουν την ιστορία μας "εν
ψυχρώ", εμείς τώρα συζητάμε μη μας κατηγορήσουν για
αντιδημοκρατική συμπεριφορά??

ή έχουμε χάσει την ουσία του θέματος ή έχουμε...
παρανοήσει εντελώς μου φαίνεται!

73, Μάκης SV1BSX

Subject: Re: [The Greek Ham Radio] Re: 1b1ab

Χαιρετώ όλους,

γιατί θα γίνει boomerang Δημήτρη? δηλαδή τι? θα
φοβηθούμε μη τυχόν και παρεξηγηθούν οι διαστρεβλωτές
της ιστορίας μας ή αυτοί που μας παραδίδουν μαθήματα
"Ανθρωπίνων διακαιωμάτων" από την καταπατημένη Κύπρο ?
μη τρελαθούμε τελείως δηλαδή !

Συμφωνώ απολύτως επίσης με αυτό που ειπώθηκε, ότι θα
πρεπει τα μέλη του Group να είναι ραδιοερασιτέχνες και
μόνον.
Δεν καταλαβαίνω γιατί κάποιος θα πρέπει να μας λέει
εδώ την άποψή του κι 'εμείς να τον ακούμε, ενώ
στερείται διακριτικού. Δηλαδή δεν κατάλαβα... από που
ορμώμενος έχει θέση και άποψη και βάσει ποίας
εμπειρίας στον χώρο ? (που την βρήκε??)

"Βήμα" να έχουν όσοι είναι ραδιοερασιτέχνες
αδειούχοι. Αυτοί και μόνον αυτοί. Οι υπόλοιποι να
πάνε στο "καλό" και να μας "γράφουν".

'Οσον αφορά τους "βαρβάρους" (κατά το "πάς μή "Ελλην
βάρβαρος"), να διαγραφούν επίσης.

Ανάλογο πρόβλημα είχα αντιμετωπίσει κι'εγώ σε κάποιο
άλλο Forum που είμαι Owner. Έτσι λοιπόν:

1) έκανα το Group "κλειστό", δηλαδή μόνο τα μέλη έχουν
δυνατότητα
πρόσβασης. Οι υπόλοιποι, ούτε τα μηνύματα δεν μπορούν
να διαβάσουν.

2) όταν υπάρχει αίτηση μέλους, επιβεβαιώνω αν όντως
είναι ραδιοερασιτέχνης. Αν δεν είναι, στο "καλό και να
μας γράφει". Η μόνη εξαίρεση είναι για ακροατές (SWL)
εφόσον όμως επιβεβαιώσω πρώτα την πραγματική τους

ιδιότητα.

3) για τους 'Ελληνες Ρ/Ε του εξωτερικού, εξυπακούεται
ότι αν δεν έχουν SV0xx διακριτικό, ασφαλώς και θα
γίνεται εξαίρεση. Δικό μας είναι το Group, ότι
θέλουμε κάνουμε. Δηλαδή τι? φοβόμαστε μη παρεξηγηθούν
οι γείτονές μας και μας κόψουν την καλημέρα?

Τέλος, για να εξοβελιστούν οι "βάρβαροι", θα πρέπει
Σπύρο να διορθώσεις την περιγραφή του Group. Εκεί θα
πρέπει ν'αναφέρει ευδιάκριτα ότι το Forum είναι
αποκλειστικά για 'Ελληνες ραδιοερασιτέχνες. Θα τους
στείλεις λοιπόν ένα Email, όπου θα τους εξηγείς ότι
"δεν πληρούν πλέον
τους ΝΕΟΥΣ όρους του Group" και θα διαγραφούν από
μέλη.
Απλό είναι.

Και δεν καταλαβαίνω γιατί σας έχουν πιάσει εδώ οι
"δημοκρατικές ευαισθησίες σας" σε θέματα που δεν
πρέπει. 'Οταν άλλοι διαστρεβλώνουν την ιστορία μας "εν
ψυχρώ", εμείς τώρα συζητάμε μη μας κατηγορήσουν για
αντιδημοκρατική συμπεριφορά??

ή έχουμε χάσει την ουσία του θέματος ή έχουμε...
παρανοήσει εντελώς μου φαίνεται!

73, Μάκης SV1BSX

Hello om,

Due to a demand of some members i can only ask you if you can leave this group. THIS IS NOT (i repeat, NOT) MY Request, but a request of some members of the group. There opinion is that only SV-SW stations should be allowed in this group.

So, please leave the group. There are some members that are offended and already left the group because you join.

With best regards,

Είχα κι εγώ τις ίδιες σκέψεις περί αποχώρησής μου από το γκρουπ. Ένα γκρουπ που τον τελευταίο καιρό ελάχιστο ραδιοερασιτεχνικό ενδιαφέρον έχει. Μάλιστα τα πιο ενδιαφέροντα θέματα που είδα ήταν αυτά που έστειλε ο z32af : τα links για τα βίντεο καθώς και τις φωτογραφίες από το N8S. Ε... κι αυτόν εσείς θέλετε να τον διώξετε. Συγγνώμη αλλά αν είναι έτσι, φεύγω κι εγώ. Συμφωνώ με τον Αντώνη SV1ENG και είδα ότι τουλάχιστον άλλος ένας έχει τις ίδιες σκέψεις με μένα, κι έτσι άρχισα να ελπίζω ότι οι πολλοί θα έχουν την ίδια άποψη : "Είμαστε ραδιοερασιτέχνες - εραστές του ραδιοφώνου δηλαδή και συνεπώς φίλοι. Όλα τ' άλλα είναι έξω από μας"
Ας σταματήσει εδώ η δυσάρεστη κουβέντα όσο είναι καιρός. Όλοι μας κάνουμε λάθη και στους "χωρισμούς" και στις "ενώσεις". Και η ΕΕΡ στο πρόσφατο παρελθόν, δεν χειρίστηκε καλά,κατά τη γνώμη μου, το θέμα με την Τουρκία. Όμως αποτέλεσμα αυτού ήταν ότι αποκομίσαμε όλοι ευμενέστατα σχόλια από την Αμερική, από έναν τρίτο δηλαδή. Άρα ίσως και να κάναμε καλά και να κάνω εγώ λάθος. Στην Ξάνθη όπου ζούσα στο παρελθόν, είχα ένα φίλο που ο πατέρας του ήταν από το Άνω Νευροκόπι και η μάνα του από το Κάτω... Το Άνω είναι στη Βουλγαρία και το Κάτω στην Ελλάδα. Ακόμα όλοι ξέρετε ότι από τη Γευγελή που απ' ότι είδα στο qrz ζει ο φίλος μας z32af, κατάγονται πολλοί σημαντικοί Έλληνες. Όλοι είμαστε αδέρφια και άνθρωποι πάνω απ' όλα. Ακόμα περισσότερο όταν μιλάμε για ραδιοερασιτέχνες. Όχι απλά κάποιοι άνθρωποι αλλά άνθρωποι που έχουμε κοινά, ίδια, ενδιαφέροντα. Αντί λοιπόν να βγάζουμε κορώνες σαν αυτές των πολιτικών για να κερδίσουν τις εκλογές, ας δούμε τα πράγματα πιο ψύχραιμα, διατηρώντας βεβαίως τις απόψεις μας, αλλά μη σχετίζοντας αυτές, δηλητηριάζοντας έτσι το χόμπι μας και τις σχέσεις μας....
Βγήκαν καινούρια hf μηχανήματα που παρουσιάστηκαν στο Dayton πριν μια βδομάδα, καθώς και πολλά ενδιαφέροντα vhf, dxpeditions σημαντικότατες βγαίνουν ατον αέρα όπως το 3B7, hamfest είχαμε χθες και σήμερα, μπάχαλο τα κάναμε με το BS7 πριν λίγο καιρό, Έλληνες ραδιοερασιτέχνες πήγαν στα ξένα κι είδαν πράματα και θάματα.... αυτά δεν είναι ωραία θέματα;;; Δεν διάβασα σχετικά εδώ τίποτα.... Αντιθέτως φαίνεται ότι αραίωσαν τα καφενεία στα 80μ λόγω ζέστας και θέλουμε να μεταφέρουμε την κουβέντα εδώ... Αμ δε θα πάρω....

Κωνσταντίνος sv1dpi... και χωρίς 73 αυτή τη φορά γιατί τσαντίστηκα

Subject: [The Greek Ham Radio] Έλεος!!! αμάν πιά!

Βλεπω με αγανάκτηση και θλίψη
πως καποιοι απο εμας
αντι να ασχοληθουμε με τα dx ή οποιαδήποτε
άλλη ραδιοερασιτεχνική δραστηριότητα,
ασχολουμαστε με θεματα που δεν εχουμε
την σωστη κριση να χειριστουμε. Ετσι απλα.

Οταν δημιουργειται ενα forum μπαινουν κανονες
τους οποιους οποιος δεν ακολουθει
διαγραφεται ή γινεται banned.

Ή προκειμένου να γίνει κάποιος μέλος
πρέπει να εγκριθεί από τους adms ή τους mods.

Ποτε δεν ετυχε να δω σε καποιο forum που ειμαι μελος
να γινεται δημοψηφισμα προκειμενου καποιο αλλο μελος
να διαγραφει.

Ο τουρκοκυπριος ραδιοερασιτεχνης έκανε προπαγανδα
και ηταν προκλητικος σύμφωνα με την δική μου λογικη.
(Βέβαια ο καθένας λέει ο,τι θέλει και αυτός που τον ακούει
τον αξιολογεί και τον κρίνει, μπορεί να ισχυριστεί πως
είναι ο Ναπολέων, τί πρέπει να κάνουν οι Γάλλοι; να αρχίσουν τα
διαβήματα;)
Ο Ζ3 όμως ουτε προκάλεσε ούτε πέρασε εθνικές του θέσεις.
Ως εκ τουτου εχουμε πολλα πραγματα μπερδεμενα στο μυαλό μας,
αν δεν μπορουμε να ξεχωρίσουμε αυτα τα απλα πραγματακια
ας ασχοληθουμε με αυτα που ξερουμε να κανουμε.

Εχετε χωρισει την Ελλαδα σε αυτους που μενουν
κατω απο καποιο ποταμι και καποιους που μενουν πανω απο αυτο.
Εχετε διαχωρησει τους Ελληνες σε καλους και κακους
συμφωνα με το prefix τους.
Όσοι μένουν κάτω από την παράλληλο που ξεχωρίζει
τους "αμνούς απο τα ερήφια" αποκαλούνται κοροϊδευτικά "χαμουτζήδες".

Η λογικη σας ειναι επικινδυνη, το ιδιο και εσεις οταν
γνωστοποιειτε αυτα που σκεφτεστε.
Κανεις Ελληνας δεν ειναι περισσοτερο Έλληνας απο καποιον αλλο
ανάλογα με τον τόπο διαμονής του.

Αν κάποιος νομίζει πως κάποια άλλη πόλη
πρέπει να γινει πρωτεύουσα της Ελλάδας αντί της Αθήνας
ας μαζέψει υπογραφές και εγώ θα υπογράψω πρώτος το αίτημά του.

Κάποιοι κάφροι Ελληνάρες ραδιοερασιτέχνες
έχουν εκθέσει ξανά και ξανά το prefix μας
βρίζοντας και παρεμβάλοντας Ζ3 ή άλλα γειτονικά prefixes.

Φυσικά κανείς από αυτούς δεν έγραψε ένα γράμμα διαμαρτυρίας
σε έναν οργανισμό ή στην ένωση της πόλης του ή της χώρας του
ή αυτού του ραδιοερασιτέχνη που τον ενοχλεί ή υπαρξή του.
Είναι πιο εύκολο να "πατάει" πανω του.

Αυτά είχα να πω για την ποιότητα των Ελλήνων ραδιοερασιτεχνών,
φυσικά κάποιας θλιβερής μειοψηφίας, δεν είναι όλοι έτσι.
Η ποιότητα, η νοημοσύνη και το επίπεδο δεν επιβάλονται όμως.
Ας κάνουμε την αυτοκριτική μας ψύχραιμα
και ίσως αυτό κάπου βοηθήσει.

1994. Re: Έλεος!!! αμάν πιά!

Yahoo group: thegreekhamradio
Date: 2007-06-04 05:24:34 UTC
From: sv1eex
Topic: 1976   Message: 1994

Καλημέρα και καλή εβδομάδα.

Με προβληματισμό και εγώ είδα πως γράφτηκαν πάρα πολλά μηνύματα εναντίον του Z3. Θα μπορούσαν να είναι και εναντίον του κάθε ZA/TA/4X και άλλους πολλούς συναδέλφους που κατά καιρούς οι κυβερνήσεις τους έβλαψαν τον Ελληνισμό.Ομως πιστεύω όπως και ο Αντώνης πως ο Z3(όσο μη αρεστός και να μας είναιαφού ξεχυλίζει το πατριωτικό αίσθημα στους περισσότερους μας και καλά κάνει) δεν έδωσε κάποια αφορμή με την συμπεριφορά του ή με κάποιο άλλο τρόπο για να πιαστούμε και να τον διώξουμε. Δεν αισθάνομαι πως ο άνθρωπος αυτός πέρα από τον ενημερωτικό χαρακτήρα που είχε το κάθε post του είχε σκοπό να προκαλέσει ή να βλάψει το group. Εκτός αν έχουν γίνει και κάποια πράγματα παρασκηνιακά που δεν τα γνωρίζουμε.

Στο κάτω κάτω δεν φταίει αυτός που μπλέχτηκε σε παιχνίδια εξουσίας κάποιων στην κυβέρνηση τους και εκτός. Αυτά τα πράγματα με την αίτηση οικιοθελούς αποχώρησης μόνο σε μπελάδες θα μας βάλουν τελικά και θα τους δώσουμε τροφή για να λένε τα δικά τους.

Επίσης δεν έγινε κανενός είδους ψηφοφορία και δεν τέθηκε το θέμα στην κάλπη. Απλά κάποιοι συνάδελφοι το ζήτησαν σε περίοδο Σ/Κ που οι περισσότεροι από εμάς δεν μπορούσαν να δουν τι γράφτηκε και να θέσουν την αποψή τους επί τάπητος.

Καλό είναι λοιπόν να μην ασκούμε "πολιτική" με τις πράξεις μας αυτές.

Να θυμήσω πως επίσης ο άνθρωπος αυτός ήθελε να είναι μέλος μας και αν ακολουθήσουμε και τις απόψεις του Ισοκράτη στον Πανηγυρικό :

"Τοσούτον δ' απολέλοιπεν η πόλις ημών περί το φρονείν και λέγειν
τους άλλους ανθρώπους, ώσθ' οι ταύτης μαθηταί των άλλων διδάσκαλοι
γεγόνασι και το των Ελλήνων όνομα πεποίηκε μηκέτι του γένους αλλά
της διανοίας δοκείν είναι, και μάλλον Έλληνας καλείσθαι τους της
παιδεύσεως της ημετέρας ή τους της κοινής φύσεως μετέχοντας."

μάλλον θα πρέπει να το ξανασκεφτούμε στο μέλλον πριν διώξουμε κάποιον που δεν φαίνεται να ενοχλεί αλλά γράφει και ενημερώνει περισσότερο από πολλούς που κάθονται qrx.

73 με την ευχή να περιοριστούμε στο μέλλον στα του χομπυ όπως είπε ο dpi και άλλοι!

From: SV2GWY
Topic: 1995   Message: 1995

Η Αντιπροσωπία της Ε.Ρ.Β.Ε. έκανε αισθητή την παρουσία της στο HamFest της Αθήνας την Κυριακή 3 Ιουνίου 2007. Μπορεί ο χώρος της να ήταν μικρός λόγω συνοστισμού των εκθετών αλλά κέντρισε το ενδιαφέρον των επισκεπτών και περισσότερο το "βαλιτσάκι" ΟΕΑ που έγινε αντικείμενο φωτογραφιών και πολύ σίγουρα και αντιγράφων.

Σε γενικές γραμμές οι εντυπώσεις και τα σχόλια για τη διοργάνωση ήταν καλές με κάποιες λεπτομέρειες που σίγουρα την επόμενη χρονιά θα διορθωθούν. Λίγο ο χώρος των μεταχειρισμένων που ήταν μικρός, λίγο η ζέστη που επικρατούσε χωρίς κλιματισμό, αλλά αυτά είναι απλά τεχνικά θέματα που λύνονται εύκολα.

Εμείς σαν ΕΡΒΕ θα είμαστε πάντα παρόντες σε κάθε ραδιοερασιτεχνική δρστηριότητα προσπαθώντας να κερδίσει την προσοχή σας.

Για την ΕΡΒΕ

Επειδή το θέμα με ψιλο-πονάει γιατί με αφορά άμεσα θέλω να εκφράσω την άποψη μου για κάποια γεγονότα που συνέβησαν τις περασμένες ημέρες στην email λίστα της οποίας τυχαίνει να είμαι founder (thegreekhamradio):

Πριν λίγο καιρό λοιπόν και πάνω στις ημερομηνίες ενός μεγάλου dx-pedition, ζητάει να κάνει εγγραφή ένας συνάδελφος Z3 στην παραπάνω email list.

Η έγκριση δίνεται με το σκεπτικό οτι ο άνθρωπος θέλει να μάθει και να σχολιάσει την συγκεκριμένη dx-pedition μιας και συμμετέχει και συνάδελφος απο την δική του (ράδιο)χώρα.

Κάποιοι συνάδελφοι όμως παρεξηγήθηκαν μόλις ο συνάδελφος αυτός έβγαλε κάποιες (σωστές ανακοινώσεις) και πληροφορίες για την dx-pedtition αυτή.

Έτσι κάποιοι αναρωτήθηκαν αν θα έπρεπε να υπάρχουν ξένοι σταθμοί οι μη ραδιοερασιτέχνες στην list αυτήν.

Και εγώ ρωτάω: ΓΙΑΤΙ να μην υπάρχουν ; Γιατί να μην δίνεται η ευκαιρία σε άλλους να μάθουν για τον ελληνικό ραδιοερασιτεχνισμό; Τι δουλειά έχει μέσα στο hoby μας ο "ρατσισμός" και η πολιτική;

Γιατί θα πρέπει κάποιοι να προσβάλονται και να δημιουργούν προβλήματα και στην συνέχεια οι συνέπειες να είναι να αποχωρούν συνάδελφοι επειδή κάποιοι "επέβαλαν" μια κατάσταση ;

Η αλήθεια είναι οτι εγώ ζήτησα απο το συνάδελφο Z3 να αποχωρήσει λόγο του οτι φοβήθηκα οτι θα υπάρξει flame στο group για αυτό το θέμα και τελικά δεν είχα άδικο. Δυστηχώς δεν έχουμε μάθει να σκεφτόμαστε πριν μιλήσουμε και ειδικά οταν έχει να κάνει με κάτι που μπορεί να προκαλέσει μεγάλο κακό.

Θέλω να ζητήσω συγνώμη απο τους συναδέλφους που αποχώρησαν (αν τυχόν διαβάζουν ή διαβάσουν το post αυτό), όμως δεν μπορώ να κάνω τους συναδέλφους που καλώς ή κακώς δεν θέλουν να συνομιλούν ή να συνηπάρχουν με κάπόιους 3ους, να καταλάβουν οτι και αυτοί είναι απλοί άνθρωποι και πάνω απ'όλα ραδιοερασιτέχνες.

Με τα λύπης γράφω αυτά τα λόγια γιατί κάνω κόπο τόσα χρόνια (απο το 1999) να συγκεντρώσω κάποιους συναδέλφους σε μια email λίστα, έτσι ώστε να υπάρχει ενημέρωση σε ραδιοερασιτεχνικά θέματα και όλα "χαλάνε"

απο μια κουβέντα που θα πει κάποιος χωρίς να την σκεφτεί.

Αν μη τι άλλο, εύχομαι να μην ξανασυμβεί κάτι τέτοιο...ίσως σκεφτώ να διαγράψω την λίστα γιατί δεν μπορώ να ασχολούμε με τον κάθε ένα και τις απόψεις του. Εξάλλου απαγορεύονται ορισμένα πράγματα δια ροπάλου στις συνομιλίες μας στον αέρα σε όλες τις συχνότητες.

Τα παραπάνω λόγια, του συναδέλφου μας που συμμετείχε σ'αυτή την dx-pedition που τόσο συζητήθηκε και που φυσικά απο εκεί ξεκίνησε το "κακό" θα πρέπει να γίνουν μάθημα. Είναι επίσης ένας απο αυτούς που έχουν αποχωρήσει απο το group και θα το κάνει φτωχότερο κατα ΠΑΡΑ ΠΟΛΥ.

Να "ξανα-ευχαριστήσω" αυτούς που ανάφεραν το όλο ζήτημα και που έκαναν την φασαρία με αποτέλεσμα την διαγραφή/αποχώρηση μελών σε θέματα που ΜΟΝΟ ΠΟΛΙΤΙΚΑ μπορούν να χαρακτηριστούν.

Λυπάμε πραγματικά,

Dear Om Z32AF,

I am really sorry for the un-Greek behavor of some minority members of this group.
I wish you to know that since the coordinators of this group didn't manage to protect the radio-amateur character of the group (i.e. keeping out any political posts no matter what side they come from) I no longer want to be a member of it. Hope to catch you in the near future on air.
Best wishes from Lesvos Island

Βαγγέλη, εως ένα σημείο έχεις δίκιο. Ναι, πρέπει να προσέχουμε τι
γίνεται post σε αυτή τη λίστα αλλά είναι και δικαίωμα και ευθύνη του
καθενός να προσέχει τι λέει και πως εκφράζεται. Δεν θεώρησα ποτέ οτι
αυτή η λίστα θα πρέπει να "κλειδωθεί" σε βαθμό που όλα τα μηνύματα να
περνάμε απο review πριν γίνουν Post. Θεώρησα οτι όλοι έχουμε κοινή
λογική και όλοι μπορούμε να κρίνουμε αν είναι σωστά αυτά που λέμε ή όχι.

Δηστυχώς κάποιοι έχουν υπερβάλον ζήλο για κάποια ζητήματα που όμως δεν
χωράνε στον ραδιοερασιτεχνισμό. Την έχω ξαναπατήσει, παλιότερα με άλλο
ζήτημα και άλλο post. Δηστυχώς ούτε εκεί πρόλαβα τα χειρότερα. ΤΙ να
κάνουμε, άνθρωποι είμαστε δεν μπορούμε να κοντρολάρουμε όλες τις
καταστάσεις όταν ξεφεύγουν απο τον έλεγχο.

Σπύρο,

Χίλια συγνώμη που αναγκάστηκα να σε σχολιάσω αρνητικά για ότι έχει συμβεί στο group. Γνωρίζω ότι το έργο σου είναι μεγάλο και αυτή τη στιγμή μάλλον θα έπρεπε να έχεις την υποστήριξή μας παρά τις διαγραφές μας αλλά:

1. Εκτός των άμεσα υπευθύνων, ευθύνες έχεις και εσύ. Αντιλαμβάνομαι ότι είναι σχεδόν αδύνατο να ελέγχεις κάθε post που μπαίνει στο group. Οι ευθύνες σου πιστεύω ότι είναι στο κομμάτι ότι τα συγκεκριμένα post θα έπρεπε να διαγραφούν χωρίς δεύτερη κουβέντα μόλις πέφταν στην αντίληψή σου και να υπήρχε μία αυστηρή προειδοποίηση στους γράφοντες ότι την επόμενη φορά δεν θα διαγραφεί μόνο το μήνυμά τους αλλά και οι ίδιοι από μέλη.

2. Κατά την γνώμη μου θα έπρεπε να διαγραφούν άμεσα τα μέλη που προκάλεσαν το συγκεκριμένο θέμα και όχι ο συνάδελφος Z32AF (ο λόγος διαγραφής του - τουλάχιστο έτσι όπως του το εκθέτεις - είναι καθαρά αστείος δηλ. εάν σου ζητήσουμε 2-3 άτομα να στέλνονται "τσόντες" μέσω του group, θα το έκανες??).

3. Το γεγονός ότι την έχεις "ξαναπατήσει" θα έπρεπε να σε κάνει πιο αυστηρό σε τέτοια λεπτά ζητήματα.

Λυπάμαι που αναγκάστηκα πάλι να σε σχολιάσω αρνητικά αλλά πιστεύω ότι το μεγαλύτερο μέρος της ευθύνης το έχεις εσύ - όσο και καλοπροαίρετα και εάν ήθελες να συμπεριφερθείς. Ουσιαστικά πιστεύω ότι κάποιοι εκμεταλλεύτηκαν τις ευαισθησίες μας και η αλήθεια είναι ότι έχω μετανιώσει που διαγράφηκα από το group αλλά το ήθος μου δεν μου επιτρέπει να αναιρέσω. Θα ήθελα πολύ να ξαναγυρίσω γιατί όπως είπα και παραπάνω χρειάζεσαι την

υποστήριξή μας και όχι τις διαγραφές μας.
Δεν μπορώ όμως να κάνω πίσω στην
"μάλλον απερίσκεπτη" κίνησή μου να διαγραφώ
αντί να υποστηρίξω τις απόψεις μου. Εκεί
σου δίνω απόλυτο δίκαιο και ομολογώ
ότι η διαγραφή μου "εκ των υστέρων" ήταν
λάθος.
Λυπάμαι που δεν μπορώ να επανέλθω. Ίσως
εάν επισυνάψεις το παρόν σε κάποιο post
του group να σταματήσει το κύμα των

2015. ZHTOUNTAI MODERATORS

Yahoo group: thegreekhamradio
Date: 2007-06-05 09:03:59 UTC
From: sxanthop
Topic: 2015   Message: 2015

Λόγω των γεγονότων των προηγούμενων ημερών, ξαναβγάζω την ανακοίνωση
και ζητάω co-moderators για την λίστα.

Οι συνάδελφοι παρακαλούνται να στέλνουν την "αίτηση" τους στο
sv2evs@qsl.net

Προτίμηση θα δωθεί σε αδειούχους ραδιοερασιτέχνες.

Ευχαριστώ.

Blind radio amateur's plight featured on tv news
You may recall an item that appeared here recently concerning Robin
Wood, 61, a blind UK radio ham, who fears he may lose his
contact with the outside world if he is forced by his local
council to remove his antennas.

Redditch council in the West Midlands, has threatened to issue Robin
with an anti-social behaviour order if he doesn't remove the antennas,
which have been there for the past 15 years.

Central TV News have also covered this story. You can watch a video of
that news item here:
http://www.itvlocal.com/central/news/?player=CEN_News_26&void=67746

Attachments: 1 described; binary payloads are missing from this source WARC

Μπορείς αν θέλεις να εισάγεις χάρτες με drag and drop διαδικασία μέσα στο uiview όταν το έχεις ανοιχτό και να δώσεις τις συντεταγμένες δύο γνωστών σου σημείων σε ένα παράθυρο που θα ανοίξεί and that's all folks. Ο χάρτης σου θα είναι έτοιμος δημιουργώντας το .inf αρχείο. Όσο γαι χάρτες μπορείς να κάνεις capture απο το googlearth.

Υ.Γ. Σύρε μια εικόνα όταν έχεις ανοιχτό το πρόγραμμα μέσα στο παράθυρο για να πάρεις μια ιδέα.

Subject: [The Greek Ham Radio] ΧΑΡΤΕΣ ΓΙΑ ΤΟ UI-VIEW

Ψάχνω χάρτες για το ui-view. Έχω όλους τους κλασικούς που κυκλοφορούν σε sites συναδέλφων αλλά θα ήθελα κάτι πιο ξεχωριστό. Ίσως κάποιες αεροφωτογραφίες, ειδικά για Θεσσαλονίκη. Το qth είναι πια στο Ωραιόκαστρο και άλλαξαν τα δεδομένα. Αν κάποιος συνάδελφος γνωρίζει κάποιο σχετικό link ή κάτι άλλο ας βοηθήσει!

Ευχαριστούμε Κώστα για την ενημέρωση.

Εγώ να κάνω μια άλλη ενημέρωση, απ'ότι φαίνεται υπάρχει κάποιο πρόβλημα με τα email (γενικά απο οτι βλέπω;) και έρχονται διπλά (δηλαδή 2 φορές). Ελπίζω το πρόβλημα να διορθωθεί σύντομα.

2036. winconvers servers

Yahoo group: thegreekhamradio
Date: 2007-06-07 09:36:56 UTC
From: sxanthop
Topic: 2036   Message: 2036

Για όσους συνάδελφους έχουν κατεβάσει και χρησιμοποιούν το winconvers:
http://groups.yahoo.com/group/thegreekhamradio/files/WinConvers1.2.210.zip

μπορούν να προσθέσουν στους servers και τις παρακάτω 2 διευθύνσεις:

```
wj3g.no-ip.org

sm7gvf.dyndns.org

port 3600 channel 154
```

2037. ΧΑΡΤΕΣ

Αξίζει να αναφέρω μια όμορφη συλλογή χαρτών απο τον συνάδελφο SW1JRT
όχι σε χαμηλό zoom αλλα σε επίπεδο νομών για Ελλάδα και Ευρώπη
(για όσους δουλεύουν Aprs Βραχεών 300baud στους 10.149Mhz είναι ότι πρέπει)
Αναφέρομαι σε αυτούς τους χάρτες για την πολύ όμορφη παρουσίασή τους κ.α.
Δυστυχώς το Link που παραπέμπει στο κατέβασμά τους δεν δουλεύει (ίσως προσωρινά)
http://sw1jrt.homelinux.com/ . Αν δεν ενεργοποιηθεί σε σύντομο διάστημα ενημερώστε με
να τους ανεβάσω σε κάποιο server για να τους δείτε.

Να είσαι καλά για το url Δημήτρη. Δεν ήξερα οτι έχει βγει και version 2 του Jnos. Κατέβασα τον installer και τώρα να βρω λίγο χρόνο να "παίξω", γιατί τα έχω ξεχάσει και εγώ...περισσότερο με ax.25 ασχολούμε παρά με tcp/ip.

Έχω ανεβάσει και μια τελευταία συλλογή χαρτών για το UI View, που έχω συλλέξει τα τελευταία χρόνια απο διάφορους συναδέλφους της χώρας μας. Έχουν αφαιρεθεί οι διπλοί χάρτες καθώς και ορφανά αρχεία (δηλ. χωρίς τα συνοδευτικά τους .inf αρχεία) Όσοι ενδιαφέρονται μπορούν να τους κατεβάσουν στα παρακάτω τρία links
http://rapidshare.com/files/35957407/UIView_900_Various_Maps.zip.html
http://rapidshare.com/files/35947050/UIView_900_Various_Maps.z01.html
http://rapidshare.com/files/35946847/UIView_900_Various_Maps.z02.html

Υ.Γ. Πρέπει αρχικά να κατεβάσετε και τα τρία αρχεία και μετά να κάνετε αποσυμπίεση.

Απλά αναμεταδίδω τις σκέψεις και ιδέες του SV2HRY, που μας επλήσει με κάθε ευκαιρία....

Η απάντησή μου στο κείμενο του Σταύρου είναι ότι θα σηζητηθούν οι απόψεις του από πολλούς, δίνοντας τα εύσημα, αλλά δεν πρέπει να έχει αυτό το ύφος ένα επίσημο κείμενο προς τους "αρμόδιους/αναρμόδιους - υπεύθυνους/ανεύθυνους)...

Για το forum μας όμως είναι "λουκούμι" 10++

`always QRV de sv2gwy`

"Αγαπητοί Κύριοι

Δραττόμεθα της ευκαιρίας να επικοινωνήσουμε δια της παρούσης με εσάς, προσδοκώντας από βάθους καρδίας να τείνετε ευήκοον ους στις σκέψεις και τους προβληματισμούς μας. Οι προβληματισμοί αυτοί εκπορεύονται από τον τρόπο διεξαγωγής των εξετάσεων Πτυχίου Ραδιοερασιτέχνη και κυρίως το μέρος τους που αφορά τον κώδικα Morse. Εικάζουμε ότι γνωρίζετε και αν όχι σας το γνωστοποιούμε εμείς, ότι στις τελευταίες εξετάσεις, δεν υπήρξε ΟΥΤΕ ΕΝΑΣ επιτυχών στα Morse. Δοθέντος τούτου και συνυπολογίζοντας και τα παράπονα των εξεταζομένων για «περίεργα» και «ασαφή» θέματα, σκεφθήκαμε να μοιραστούμε μαζί σας την αγωνία μας για την πορεία του Ραδιοερασιτεχνισμού στη βόρεια Ελλάδα και να θέσουμε υπόψη σας κάποιες προτάσεις. Ως άνθρωποι που διακονούμε τις ραδιοεπικοινωνίες στον ελάχιστο ελεύθερο χρόνο που μας απομένει από τον βιοποριστικό κάματο και με μεγάλο προσωπικό οικονομικό κόστος, διαπνεόμαστε από ρομαντισμό επιθυμώντας να δούμε το χόμπι μας να ανδρώνεται στο στίβο της μίζερης ελληνικής πραγματικότητας, δίνοντας μια δημιουργικότατη διέξοδο από τα προβλήματα της καθημερινότητας, σε όλους αυτούς που λατρεύουν την τεχνολογία και τις επικοινωνίες, σε όλες τους τις εκφάνσεις. ’λλωστε ο Ραδιοερασιτεχνισμός δεν είναι «βίτσιο», όπως εσφαλμένα κάποιοι τον θεωρούν, αλλά μια ασχολία με ύψιστη κοινωνική προσφορά, ιδίως σε περιπτώσεις εκτάκτων αναγκών. Δυστυχώς όμως και ενώ ευελπιστούσαμε να βρούμε αρωγούς σε αυτή την προσπάθειά μας την επιτροπή εξετάσεων, εντούτοις διαπιστώσαμε, όπως άλλωστε και ΟΛΟΙ οι εξεταζόμενοι, την έλλειψη ζέσης από μέρους τους να ανταποκριθούν στις προσδοκίες μας. Δεν υπονοούμε ότι επιτροπή είναι ακατάλληλη, ή επιλήσμων των καθηκόντων της. Θεωρούμε μάλιστα ότι τα μέλη της καταβάλλουν φιλότιμες προσπάθειες να ανταποκριθούν υποδειγματικά στα καθήκοντά τους. Εδώ ακριβώς όμως φρονούμε ότι κάπου «εκτροχιάζεται το τραίνο». Η αιτία αγαπητοί κύριοι έχει όνομα και συναντάται σε διάφορους κλάδους της δημόσιας ζωής. Ονομάζεται «υπερβάλλων ζήλος». Είναι το ακριβώς αντίθετο άκρο της πλήρους αβελτηρίας και αμοραλισμού. Και τα δύο όμως αξίζουν την στηλίτευση,

την μομφή και τον ψόγο, επιζητώντας πάντα το modus viventi, τη μέση οδό, την χρυσή τομή. Υπό αυτό το σκεπτικό εκφράζουμε τον προβληματισμό μας σχετικά με τον κατά τα άλλα συμπαθέστατο κύριο της Υπηρεσίας Πολιτικής Αεροπορίας, που ιδροκοπώντας πάνω στο χειριστήριο, «πέτυχε» να μπερδέψει τους εξεταζόμενους, σε τέτοιο βαθμό, που πολλοί παράτησαν το γραπτό τους στη μέση. Στο «επίτευγμά» του αυτό συνέβαλαν τα πολλά λάθη, συνεπικουρούμενα από ένα φρενήρη σε πολλές περιπτώσεις ρυθμό, ακατάληπτο ακόμα και για επαγγελματίες του Πολεμικού Ναυτικού, αδόκιμο αλλά και πρωτόγνωρο στις εξετάσεις Ραδιοερασιτεχνών. Αν μάλιστα συνυπολογίσει κανείς, το γεγονός ότι έδωσε περισσότερα γράμματα από όσα είθισται να δίνονται (100), καθώς επίσης και το ότι έδωσε ΔΥΟ σειρές σημείων στίξης, εκ των οποίων κάποια ΔΕΝ χρησιμοποιούνται ΠΟΥΘΕΝΑ στη μπάντα CW, καταλαβαίνετε το μέγεθος της απογοήτευσης αυτών των εξεταζομένων. Απότοκο όλων αυτών ήταν, όπως άλλωστε αναμενόταν, η απόρριψη όλων.

Ας μην λησμονούμε όμως, ότι οι περισσότεροι από αυτούς, είναι ΙΔΙΩΤΙΚΟΙ υπάλληλοι που μετά δυσκολίας κατόρθωσαν να πάρουν άδεια από την εργασία τους, υπομένοντας το συνοφρυωμένο βλέμμα των προϊσταμένων τους και μάλιστα μη έχοντας γνώση, σε ένα ΕΥΛΟΓΟ χρονικό διάστημα πριν, της ακριβούς ημερομηνίας των εξετάσεων, κάτι που αποτελεί ένα άλλο «αγκάθι» που χρήζει ομοίως επαρκούς μέριμνας. Ας μην λησμονούμε επίσης ότι ΔΕΝ πρόκειται για μικρά παιδιά, αλλά για ώριμους επαγγελματίες οικογενειάρχες, οι οποίοι επί ΕΞΙ μήνες με βροχή και κρύο, παρατούσαν οικογένειες και εργασίες, ερχόμενοι στις ενώσεις και τις λέσχες των ραδιοερασιτεχνών, για πρακτική εξάσκηση στα Morse. Μια αξιοζήλευτη και αξιέπαινη αφοσίωση, που λίγοι άνθρωποι επιδεικνύουν για το χόμπι τους. Αν μη τι άλλο λοιπόν, τους οφείλουμε σεβασμό και αναγνώριση αυτής της προσπάθειας και όχι αποθάρρυνση και απόρριψη, όπως δυστυχώς είναι τα συναισθήματα από τα οποία εμφορούνται. Πολλοί από αυτούς δηλώνουν ευθαρσώς ότι αρνούνται πλέον να υποστούν την ίδια διαδικασία και θα περιμένουν την κατάργηση των Morse, όπως άλλωστε συμβαίνει ήδη σε πολλές χώρες. Όμως τα Morse αποτελούν ακρογωνιαίο λίθο του Ραδιοερασιτεχνισμού και όλοι όσοι ασχολούμαστε με αυτόν προσπαθούμε να προσελκύσουμε μέσω αυτών περισσότερους ΗΔΗ ασχολούμενους με το χόμπι, αλλά ΜΗ αδειοδοτημένους. Και εδώ τίθεται σε όλους μας το εύλογο ερώτημα, πώς μπορείς να πείσεις κάποιον να «παρατήσει την παρανομία» και να εισέλθει στη μακρά και επώδυνη διαδικασία των μαθημάτων, όταν οι εξετάσεις δεν ανταμείβουν τους καλά προετοιμασμένους, αλλά τουναντίον τους «τιμωρούν»;

Εξ αυτών λοιπόν ορμώμενοι και με πλήρη συναίσθηση ευθύνης απευθυνόμεθα σε εσάς, καταθέτοντας τις εξής ταπεινές προτάσεις.

1)Λιγότερος υπερβάλλων ζήλος από τα μέλη της Επιτροπής Εξετάσεων. Τους ευχαριστούμε για τις φιλότιμες προσπάθειές τους και τους διαβεβαιώνουμε μετά λόγου γνώσεως ότι δεν κινδυνεύει η Εθνική Ασφάλεια από τους υποψηφίους Ραδιοερασιτέχνες!

2) Διεξαγωγή της εξέτασης Morse κατά τα ειωθότα, δηλαδή 100 στοιχεία εκ των οποίων 75 γράμματα, 20 αριθμοί και ΠΕΝΤΕ σημεία στίξης με ταχύτητα 25 γραμμάτων περίπου το λεπτό.

3) Θέματα στα γραπτά που δεν αφήνουν περιθώρια παρερμηνειών ή διφορούμενων εξηγήσεων.

4) Λιγότερη αυστηρότητα από τους εξεταστές μέσα στην αίθουσα των εξετάσεων. Ας βάλουν οι ίδιοι τον εαυτό τους νοητά, στη θέση των εξεταζομένων!

5) Συγκεκριμενοποίηση και καθορισμός ΕΝΑ ΜΗΝΑ ΠΡΙΝ, της ακριβούς ημερομηνίας των εξετάσεων, ώστε οι εξεταζόμενοι να έχουν περιθώριο να προγραμματίσουν τις δουλειές τους πιο απρόσκοπτα.

Μην θεωρηθεί επουδενί ότι επιζητούμε με τις προτάσεις αυτές, την επιείκεια της επιτροπής, για τους υποψηφίους. Αυτό που διακαώς προσδοκούμε, είναι η από μέρους των μελών της επιβράβευση των προσπαθειών των προετοιμασμένων και όχι η επίδειξη αυστηρότητας με την απόρριψη όλων.

Ευελπιστώντας ότι οι προτάσεις μας, αλλά και οι προβληματισμοί μας θα βρουν γόνιμο έδαφος και στη δική σας σκέψη, θέτουμε τους εαυτούς μας στη διάθεσή σας για οποιαδήποτε περαιτέρω διευκρίνηση, απορία ή συζήτηση εκ του σύνεγγυς.

Ευχαριστούμε τα μέγιστα για τον πολύτιμο χρόνο σας."

Το πρόγραμμα πεδίον24, το οποίο αναπτύχθηκε από το Εργαστήριο Κινητών Ραδιοεπικοινωνιών του Εθνικού Μετσόβιου Πολυτεχνείου και το Εργαστήριο Ραδιοεπικοινωνιών του Αριστοτελείου Πανεπιστημίου Θεσσαλονίκης, έχει σκοπό τη συνεχή καταγραφή των επιπέδων της ηλεκτρομαγνητικής ακτινοβολίας σε διάφορες περιοχές της Ελλάδας.
Τα αποτελέσματα των μετρήσεων δημοσιεύονται καθημερινά στην παρούσα ιστοσελίδα.

Το πρόγραμμα «ΕΡΜΗΣ» είναι ένα σύστημα συνεχούς μέτρησης και ελέγχου της εκπεμπόμενης ηλεκτρομαγνητικής ακτινοβολίας ραδιοσυχνοτήτων στο περιβάλλον από το σύνολο των πηγών που υπάρχουν στην περιοχή εγκατάστασης του συστήματος. Μέσω αυτού του συστήματος παρέχεται η δυνατότητα μέτρησης και καταγραφής, σε 24ωρη βάση, της ακτινοβολίας ραδιοσυχνοτήτων του συγκεκριμένου γεωγραφικού χώρου, στην οποία συνεισφέρουν διάφορες πηγές, όπως κεραίες ραδιοφωνικών και τηλεοπτικών σταθμών, κεραίες κινητής τηλεφωνίας, κ.λ.π.
Τα αποτελέσματα των μετρήσεων δημοσιεύονται καθημερινά στις παρούσες ιστοσελίδες.

FIELD DAY 2007
Posted by: "Costas J. Dovas - SV4FFL" sv4ffl@raag.org magnesia_hams
Tue Jun 12, 2007 4:42 am (PST)
Επειδή αρκετοί ραδιοερασιτέχνες ήθελαν περισσότερες πληροφορίες,
σας ενημερώνω σχετικά ότι, το Field Day είναι πάντα την τέταρτη
εβδομάδα του Ιουνίου., ξεκινά στις 1800 UTC του Σαββάτου
και τελειώνει στις 2100 UTC της Κυριακής.
Το Field Day 2007 θα διεξαχθεί στις 23-24 Ιουνίου 2007.
Τους κανόνες του διαγωνισμού μπορείτε να τους διαβάσετε εδώ
http://www.arrl. org/contests/ forms/fd- 2007-rules. pdf

Συνεχίζοντας τις δραστηριότητες, και ιδιαίτερα της εκπαίδευσης, το
Δ.Σ. της Ε.Ρ.Β.Ε. σας καλεί στα γραφεία της,
Πολυκλτείτου 45 ’νω Τούμπα Θεσσαλονίκη, την Τετάρτη 20 Ιουνίου και ώρα
20:00 να παρακολουθήσετε
Εκπαιδευτικό Σεμινάριο με θέμα:

"P A C K E T"

Εισηγητής θα είναι ο συνάδελφος Σπύρος Ξανθόπουλος (SV2EVS).

Παρακαλώ όσοι ενδιαφέρεστε, δηλώστε συμετοχή στο info@...
(Ονοματεπώνυμο, διακριτικό κλήσης και κιν.τηλέφωνο είναι αρκετά)
μέχρι τις 13/6/2007.

Η πρόσκληση είναι ανοικτή προς όλους τους συναδέλφους μέλη ή όχι της
Ένωσης.

Για την Ε.Ρ.Β.Ε.

Σπυρο καλησπερα και καλη βδομαδα.
Δυστυχως την Τεταρτη θα ειμαι εκτος Θεσσαλονικης και δεν θα μπορεσω
να παρακαλουθησω το σεμιναριο.
Θα με ενδιεφερε ομως πολυ και θα ηταν μεγαλη εξυπηρετηση για εμενα
(και πιστευω και για αλλους συναδελφους που δεν θα μπορεσουν να
παρευρεθουν), η προωθηση τυχον εκπαιδευτικου υλικου (π.χ.
σημειωσεων, τυχον software κλπ).
Σου ευχομαι προκαταβολικα καλο κουραγιο και καλη επιτυχια και ελπιζω
να τα καταφερω στο επομενο σεμιναριο.

Το αίτημα έχει μεταφερθεί και στο group του συλλόγου έτσι ώστε να το
δουν και οι πιο αρμόδιοι. Σε ευχαριστώ για τις ευχές και εύχομαι σε
ένα προσεχές σεμινάριο ψηφιακών να μπορέσεις να παρευρεθείς. Υπάρχει
φυσικά και η κατ'ιδίαν "επίδειξη" των ψηφιακών είτε στον σύλλογο είτε
σε qth που διαθέτει packet/tnc.

Κατά την διάρκεια του Field Day 2007 της IARU 2 που θα πραγματοποιηθεί στις 23-24 Ιουνίου,

το DX Team του Συλλόγου Ραδιοερασιτεχνών Μαγνησίας θα είναι ενεργό από το Νότιο Πήλιο

με χρήση του διακριτικού SZ4SRM.

Σαν σημείο επιλέχθηκε ένα από τα πιο δυσπρόσιτα σημεία της Μαγνησίας, κυρίως για λόγους

εκπαίδευσης αλλά και για την μοναδική ηρεμία που προσφέρει ο συγκεκριμένος τόπος.

Όπως θα δείτε και στην αεροφωτογραφία πιθανή ενεργοποίηση θα γίνει στο αριστερό κάτω άκρο

του χάρτη ή εναλλακτικά στη δεξιά πινέζα.

Υπολογίζουμε να έχουν στηθεί 4 κεραιοσυστήματα για τα βραχέα καθώς και μία κατευθυντική

για τα vhf, ενώ επρόκειτο να δουλέψουμε όλες τις μπάντες των βραχεών με HF rig ICOM-737A,

ICOM 706MKII και ICOM-7000 από το μεσημέρι του Σαββάτου μέχρι το απόγευμα της Κυριακής.

Θα χαρούμε πολύ να έχουμε μία επαφή μαζί σας και stay tuned για το Field Day

του Σεπτέμβρη καθώς και σε μια μελλοντική expedition για ενεργοποίηση του φάρου Τρικέρων

που βρίσκεται κοντά στον οικισμό Γεροπλίνα.

2062. SEMINARIO PACKET - LIGES ORES META.

Yahoo group: thegreekhamradio
Date: 2007-06-20 20:31:47 UTC
From: sxanthop
Topic: 2062   Message: 2062

Καλησπέρα,

Θέλω να ευχαριστήσω το Δ.Σ της ΕΡΒΕ για την ιδέα που είχε να διεξαχθεί το σεμινάριο για το Packet. Η αίθουσα της λέσχης ήταν γεμάτη (έλειπαν και κάποιοι που σίγουρα ήθελαν να είναι εκεί) και επι σχεδόν 1,5 ώρα οι συνάδελφοι άκουγαν (πολλοί για πρώτη φορά) τι είναι το packet radio, σε τι μας ωφελεί και πως μπορούμε να το χρησιμοποιήσουμε.

Όπως αναφέρθηκε λοιπόν, όλες αυτές οι πληροφορίες που μοιραστήκαμε και που συζητήσαμε επι 1,5 και πλέον ώρα είναι μόνο η επιφάνεια αυτής της πτυχής του hobby μας (το packet radio). Οι δυνατότητες όπως ίσως κατάλαβαν οι συνάδελφοι είναι απλά πολλές ακόμα και για κάτι που θεωρείται ξεπερασμένο.

Σύμφωνα με τη άποψη μερικών απο το Δ.Σ, πρέπει (και μάλλον θα υπάρξει και συνέχεια) έτσι ώστε να πάμε και στα πιο "βαθιά νερά" πάνω σ'αυτό το mode και να δούμε την πραγματική αξία του.

Για περισσότερες πληροφορίες αναμείνατε...στον πομποδέκτη σας ή στην οθόνη του υπολογιστή σας. Έπετε και συνέχεια γιατί το packet radio δεν καταθέτει τα "όπλα" τόσο εύκολα. Αρκεί να υπάρχει η σωστή ΕΝΗΜΕΡΩΣΗ.

Παντελή ξέρεις οτι αυτή την συγκεκριμένη πτυχή του hobby, την αγαπάω
απο την στιγμή που έγινα ραδιοερασιτέχνης. Απλά να τονίσω οτι όπως
είπαμε και στο σεμινάριο, τα πράγματα είναι ΠΑΝ-ΕΥΚΟΛΑ, αφού πλέον δεν
χρειάζεται tnc και μπορεί κανείς και με την κάρτα ήχου να κάνει Packet.

Ας ελπίσουμε οτι κάποιοι θα ενδιαφερθούν λίγο περισσότερο. Έχει μέλλον
η "υπόθεση".

Ακόμα ένα σεμινάριο της ΕΡΒΕ, που αυτή τη φορά αφορούσε τις ψηφιακές ραδιοεπικοινωνίες, έλαβε χώρα στην αίθουσα εκπαίδευσης της Ένωσης. Δοθείσης της ευκαιρίας, θα ήθελα να ευχαριστήσω, φρονώντας ότι απηχώ τις απόψεις όλων, από βάθους καρδίας τον εκλεκτό συνάδελφο SV2EVS Σπύρο Ξανθόπουλο, για τον κόπο, τον χρόνο αλλά και την υπομονή να μας μεταλαμπαδεύσει τις γνώσεις του στα ψηφιακά δρώμενα, αλλά και να μας εμφυσήσει τη φλόγα της αναζήτησης σε ένα εξαιρετικά ενδιαφέρον και πρόσφορο πεδίο, που αποτελεί την σύζευξη του ραδιοερασιτεχνισμού με τους υπολογιστές. Προσδοκούμε όλοι το σεμινάριο αυτό να επαναληφθεί λίαν συντόμως και αν κρίνω από το ενδιαφέρον, μάλλον την επόμενη φορά δεν θα μας φτάσει η αίθουσα!
Σταύρος Ιωαννίδης SV2HRY

2066. P3CA, Cape Akamas DX Pedition 2007

P3CA, Cape Akamas DX Pedition 2007
Posted by: "Marios"
Tue Jun 26, 2007 12:45 am (PST)
We are happy to announce that on the weekend 7-8 July 2007 the team of

Manos 5B4AFQ
Kostas 5B4AIR
Andreas 5B8AP
Marios 5B8BE

Will be activating the Cape Akamas Lighthouse ARLHS CYP001, and take part in the Aegean VHF contest.
The callsign of the station will be P3CA.

We will be working

2m, 6m, HF and APRS on 144.800

FM, SSB & CW

For the latest information on the operating frequencies or any other news please visit

http://www.5b4ms. org/p3ca. html

This DXpedition is sponsored by CARS Limassol Section-5B4MS

Να καλωσορίσω όλα τα νέα μέλοι, ο τελευταίο είναι ο sv2gnc (Μιχάλης).

Ελπίζω κάποια στιγμή να επανέλθουν και αυτοί που έφυγαν βεβιασμένα
λόγω των γεγονότων που έχουν συμβεί..

2068. new Kenwood v/u features.

Yahoo group: thegreekhamradio
Date: 2007-06-28 17:31:14 UTC
From: sxanthop
Topic: 2068 Message: 2068

Μια πληροφορια που βρηκα σχετικα με το τι προκειτε να κανει το μηχανακι.

```
Then it's comfirmed!
The TM-D710 Data Communicator 144/440 MHz Dual Bander
have the following features:

* APRS Ready
* APRS Weather Station ready
* KISS II+ (kenwood Skycommand III+)
* NMEA 0183 GPS I/O port
* Built-in 1200/9600 bps TNC
* Echolink Ready
* High RF Power Output (V/U: 50 watt)
* 1000 multifunction Memory Channels
* Dual Receice on same band (V+V, U+U)
* NOAA Weather Alert/RX (US Only)
* Voice Guidance 6 Storage option (VGS-1)
* MCP Compatible with ARRL "TravelPlus"

73 de LA8OKA Martin
```

Πηγη:http://groups.yahoo.com/group/TM-D710_TM-V71

Αν ισχυουν οντως οι δυνατοτητες του, φαινετε πως η kenwood εκανε το επομενο πολυμιξερ. Το μονο που θα του λειπει ειναι ο τηλεχειρισμος του μιας και θα διαθετει και TNC και συνδεση για Echolink node αν καταλαβα καλα.

From: sxanthop
Topic: 2071 Message: 2071

Posted by: "Costas J. Dovas - SV4FFL" sv4ffl@raag.org magnesia_hams
Tue Jul 3, 2007 2:00 pm (PST)
ΘΕΜΑ : RAAG Field day 1-2 Σεπτ. 2007

Αγαπητοί φίλοι

Οι κανόνες του Field day από εφέτος αλλάζουν. Δείτε το κείμενο που ακολουθεί. Σχετική δημοσίευση υπάρχει και στο SV-NEA που κυκλοφορεί σε λίγες μέρες. Παρακολουθείτε τις ιστοσελίδες της E.E.P. για τυχόν ενημερώσεις ...

```
Field Day 2007
```

Σκοπός του Field Day είναι η επαφή των διαγωνιζομένων με σταθμούς εντός ή εκτός Ελλάδας, σε όλες τις μπάντες από τα 160 m μέχρι και

τα 70 cm, με τροφοδοσία εκτός δικτύου ΔΕΗ, με απώτερο στόχο την εκπαίδευσή τους στη λειτουργία και το χειρισμό του

ραδιοερασιτεχνικού τους σταθμού κάτω από συνθήκες φορητής ή κινητής εγκατάστασης.

Κανονισμοί:

Στο διαγωνισμό μπορούν να συμμετάσχουν μόνο Έλληνες ραδιοερασιτέχνες. Ξένοι ραδιοερασιτέχνες μπορούν να επικοινωνούν με

ελληνικούς σταθμούς, για να δίνουν βαθμούς, αλλά δεν μπορούν να διαγωνιστούν.
Στόχος είναι η επαφή με όσο το δυνατόν περισσότερους σταθμούς εντός ή εκτός Ελλάδος, σε όλες τις μπάντες από 160 m μέχρι και 70 cm (εξαιρούνται οι μπάντες WARC 30,17,12 m), με φορητό ή κινητό ραδιοερασιτεχνικό σταθμό, με τροφοδοσία εκτός δικτύου ΔΕΗ και σε απόσταση τουλάχιστον ενός χιλιομέτρου από τη μόνιμη ή εναλλακτική θέση του σταθμού τους .

Ημερομηνίες / Ώρες διεξαγωγής:
Από 1300 GMT του Σαββάτου 01/09/2007 μέχρι 1259 GMT της Κυριακής 02/09/2007.

Προσοχή να χρησιμοποιούνται μόνο οι προτεινόμενες από την IARU περιοχές για contest σε κάθε μπάντα!

Τύποι εκπομπής:
SSB ή CW

Κατηγορίες Συμμετοχής:

Κατηγορία Α: Όλες οι μπάντες HF εκτός από τις μπάντες WARC

Α1 Ένας σταθμός - Ένας χειριστής
Α2 Ένας σταθμός - Πολλοί χειριστές

Κατηγορία Β: Οι μπάντες VHF (144 MHz) και UHF (432 MHz)

Β1 Ένας σταθμός - Ένας χειριστής
Β2 Ένας σταθμός - Πολλοί χειριστές

Κλήση: CQ FIELDAY SSB CQ FD CW

Ανταλλαγή:

Κατηγορία Α: RS(T) και αύξων αριθμός QSO.

Κατηγορία Β: RS(T), αύξων αριθμός QSO.

και QTH Locator.

(Ο αύξων αριθμός συνεχίζει με την αλλαγή μπάντας)

Βαθμολογία:

Κατηγορία Α

α) Βαθμοί:
Για QSO με σταθμό στην Ευρώπη 2 βαθμοί.
Για QSO με σταθμό σε άλλη ήπειρο 3 βαθμοί..

Για QSO με φορητό σταθμό στην Ευρώπη 4 βαθμοί (/P /M)

Για QSO με φορητό σταθμό σε άλλη ήπειρο 6 βαθμοί (/P /M)

β) Multiplier :
Κάθε επαφή ανά DXCC, WAE χώρα ανά μπάντα = 1 multiplier
π.χ. 3 Γερμανικοί σταθμοί σε τρεις μπάντες: 3 multiplier
2 Γερμανικοί σταθμοί στα 15 m: 1 multiplier
Το τελικό σύνολο υπολογίζεται πολλαπλασιάζοντας το σύνολο των βαθμών
επί το σύνολο των multiplier .

Κατηγορία Β

α) Βαθμοί:

Ανάλογα με την χιλιομετρική απόσταση ανάμεσα στους σταθμούς, που
ορίζεται από τα QTH Locator τους (1 βαθμός /1 χιλιόμετρο), π.χ. αν

το δικό σας QTH Loc απέχει 450 χλμ από το QTH Loc του ανταποκριτή σας,
παίρνετε 450 βαθμούς.

(Ο υπολογισμός της απόστασης για όσους δεν χρησιμοποιήσουν το ειδικό
πρόγραμμα για το logging σε πραγματικό χρόνο μπορεί να γίνει και

εκ των υστέρων με πρόγραμμα που θα διατίθεται από την Ε.Ε.Ρ.)

β) Multiplier :

Για QSO με διαφορετικές χώρες 1 multiplier.

Για κάθε διαφορετικό QTH Locator 1 multiplier.

π.χ. QSO με τον πρώτο σταθμό SV: 1 multiplier σαν χώρα SV και 1 multiplier σαν QTH Loc.

QSO με τον επόμενο σταθμό SVσε νέο QTH Loc: 1 multiplier για το νέο QTH Loc μόνο

Το τελικό σύνολο υπολογίζεται πολλαπλασιάζοντας το σύνολο των βαθμών επί το σύνολο των multiplier.

Υποβολή Δήλωσης Συμμετοχής και Αποτελεσμάτων:

Οι δηλώσεις συμμετοχής και τα αποτελέσματα υποβάλλονται σε ειδικά έντυπα που διατίθενται από την Γραμματεία ή την Ιστοσελίδα της Ένωσης προσωπικά ή ταχυδρομικά με συστημένη επιστολή στη διεύθυνση:

Ε.Ε.Ρ. - Επιτροπή ΔΙΒ, Ταχ. Θυρίδα 3564, 102 10 ΑΘΗΝΑ

μέχρι την 30η Σεπτεμβρίου 2007.

Τα έντυπα θα χρησιμοποιηθούν για τελευταία φορά και το 2008.Από το 2009 και μετά η υποβολή θα γίνεται υποχρεωτικά μέσω των προγραμμάτων Super Duper και Super Duper Vhf η και άλλα που θα υποδειχθούν από την Ε.Ε.Ρ.

Όσοι ενδιαφέρονται να τα χρησιμοποιήσουν από εφέτος μπορούν να στείλουν e-mail στον sv1iw@raag.org για να τα προμηθευτούν μαζί με κατάλληλες οδηγίες.

Έπαθλα:

Στους πρώτους κάθε κατηγορίας θα απονεμηθούν πλακέτες και διπλώματα. Στους δεύτερους και τρίτους θα απονεμηθούν διπλώματα.

Δήλωση Συμμετοχής: http://www.raag. org/files/ fd_appl.pdf

Στην κατηγορία Α μπορούν να πάρουν μέρος μόνο σταθμοί SV.

Στην κατηγορία Β μπορούν να πάρουν μέρος σταθμοί SV και SW.

Mon Jul 9, 2007 4:30 am (PST)
SX5AS Dx-pedition στις Βραχονησίδες ΑΣΤΑΚΙΔΑ από 17-23 Ιουλίου 2007.

Η γνωστή ομάδα των Ελλήνων Ραδιοερασιτεχνών που ενεργοποίησε τη Φαλκονέρα
το περασμένο Νοέμβριο, αποτελούμενη τώρα από τους SV1JG Κλεάνθη, SV1RC
Σπύρο, SV1RP Γεώργιο, SV1EEX Νικηφόρο, SV1GRM Θεόδωρο, SW1GZL Λυκούργο,
SV1HER Σωτήριο SV1JCZ Δανιήλ, όλοι μέλη της Ένωσης Ελλήνων
Ραδιοερασιτεχνών,
έχουν προγραμματίσει μια νέα Dx-pedition στο σύμπλεγμα των τριών (3)
ακατοίκητων βραχονησίδων ΑΣΤΑΚΙΔΑ στο Καρπάθιο πέλαγος (IOTA: EU-001)
με ταυτόχρονη ενεργοποίηση του Φάρου της βραχονησίδας (WLOTA: L-0393)
με το ειδικό διακριτικό SX5AS.

Θα είναι η πρώτη φορά που ενεργοποιούνται ραδιοερασιτεχνικά οι
βραχονησίδες
ΑΣΤΑΚΙΔΑ & ο Φάρος ταυτόχρονα.

Οι βραχονησίδες βρίσκονται δυτικά της Καρπάθου και βόρεια της Κάσου
Συντεταγμένες:
Latitude: 35°53' 08"N, ή 35.8856 N
Longitude: 26°49'15"E ή 26.8208 E

```
Grid square: KM35jv.
```

Χρονική περίοδος από 17 - 23 Ιουλίου 2007.
Θα είμαστε σε όλες τις μπάντες από τα 160 μέτρα έως και 23 εκατοστά
(από HF
έως & SHF). Οι διαμορφώσεις που κυρίως θα «δουλέψουμε» θα είναι:
SSB/CW/PSK/RTTY/ FSK441/FM.
Θα προσπαθήσουμε επίσης και για δορυφορικές επαφές στα 2 μέτρα & 23
εκατοστά
σε διαμόρφωση FM..

```
QSL manager: SV1HER
```

Επιθυμία μας είναι και πραγματικά το ελπίζουμε, να κάνουμε πάρα πολλές
επαφές με όσο το δυνατόν περισσότερους Έλληνες ραδιοερασιτέχνες σε
όλες τις
μπάντες.
Σας περιμένουμε και θέλουμε να σας ακούσουμε όλους.

Για περισσότερες πληροφορίες και πιθανά skeds στο τηλέφωνο 693.2671602 ή
στο email: sv1her@raag. org

Παρακαλούνται οι συνάδελφοι να μην χρησιμοποιούν FM διαμόρφωση στις περιοχές από 144.000 - 144.399 καθώς επίσης και την περιοχή από 145.794 - 146.000 που χρησιμοποιείται αποκλειστικά για την επικοινωνία με δορυφόρους. Τέλος υπενθυμίζεται ότι η περιοχή από 144.400 - 144.490 χρησιμοποιείται αποκλειστικά από ραδιοφάρους και οποιαδήποτε εκπομπή εκεί εμποδίζει όσους προσπαθούν να τους ανασύρουν από τον θόρυβο ιδιαίτερα τους καλοκαιρινούς μήνες.

2081. The first 40 MHz amateur propagation beacon on the air.

Yahoo group: thegreekhamradio
Date: 2007-07-31 10:11:11 UTC
From: Costas J. Dovas - SV4FFL
Topic: 2081   Message: 2081

Το E.R.O. (The European Radiocommunications Office (ERO - σήμερα ERC)) της CEPT ξεκίνησε το 1993 την δεύτερη φάση διερεύνησης της διάδοσης σε συχνότητες από 29.7-960 MHz. Τα αποτελέσματα παρουσιάστηκαν στις διευθύνσεις των χωρών μελών τον Μάρτιο του 1995 με σκοπό να δημιουργηθεί ένας νέος πίνακας κατανομής συχνοτήτων που θα ίσχυε από το 2008. Μεταξύ άλλων προτάθηκε να θεωρούνται οι 70MHz ως νέα ραδιοερασιτεχνική περιοχή και οι περιοχή γύρω από τους 40.680 MHz προτάθηκε για φάρους (beacons) ελέγχου της διάδοσης.

Έτσι στις 26/7/2007 στις 18.20 UTC άρχισε να εκπέμπει ο φάρος OZ1IGY στους 40.021 MHz κοντά στο Jystrup (Ringsted) της Δανίας, JO55WM σε υψόμετρο 97m πάνω από την επιφάνεια της θάλασσας. Για την ώρα η ισχύς του φάρου είναι 22W σε διαμόρφωση F1A (FSK) σύμφωνα με τα πρότυπα της IARU Region 1 με στάνταρτ shift 250 Hz. Η κεραία είναι ένα δίπολο με κατεύθυνση 255 / 75 μοίρες. Η άδεια έχει ισχύ ενός έτους και τα αποτελέσματα της έρευνας πρέπει να αναφέρονται στο αρμόδιο γραφείο του E.R.O. Η άδεια είναι στην βάση της μη παρεμβολής και δεν δημιουργεί το δεδικασμένο για διεκδίκηση νέας ραδιοερασιτεχνικής περιοχής. Παρακαλούνται όσοι έχουν την δυνατότητα και ακούσουν το beacon να το αναφέρουν στο DX-summit και από εκεί θα παρθούν τα στοιχεία για τις αναφορές λήψης.

2085. Kenwood announces 144/430 (440)MHz FM dual bander TM-D710 series,

Yahoo group: thegreekhamradio
Date: 2007-08-01 12:42:03 UTC
From: sxanthop
Topic: 2085   Message: 2085

New Product Announcement
Kenwood announces 144/430 (440)MHz FM dual bander TM-D710 series,
equipped with "APRS®" data communication system capable of exchanging
positional information,
messages and operating frequency, enabling multi communication with
all amateur radio operators around the world

Main features of TM-D710 series
1. Bulit-in 1,200/9,600bps TNC compliant with AX.25 protocol
2. NMEA0183 GPS port
3. APRS® ready (position / message / operation frequency etc.)
4. APRS weather station ready
5. Large separate panel makes the series easy to operate
6. Large LCD with choice of two backlight colors
7. High-power output (VHF/UHF : 50W)
8. Dual receive on same band (VxV, UxU)
9. 1,000 multifunction memory channels
10. EchoLink® memory
11. EchoLink® Sysop mode for node terminal operation

ΑΝΑΚΟΙΝΩΣΗ

Η Ε.Ε.Ρ. ανακοινώνει ότι αναβάλλεται προς το παρόν ο καθιερωμένος διαγωνισμός Field Day 2007, που επρόκειτο να γίνει το ερχόμενο Σάββατο και Κυριακή 1 και 2 Σεπτεμβρίου 2007. Η κατάσταση εκτάκτου ανάγκης, στην οποία έχει κηρυχθεί όλη η χώρα λόγω των φονικών πυρκαγιών των τελευταίων ημερών, και η ως εκ τούτου πολυήμερη συμμετοχή αρκετών μελών μας στις Ομάδες Έκτακτης Ανάγκης επέβαλαν την απόφαση αυτή. Πληροφορίες για την ημερομηνία νέας διεξαγωγής του διαγωνισμού θα ανακοινωθούν από τα μέσα επικοινωνίας της Ε.Ε.Ρ.

Dear friends,

if I read about fire desaster around the globe it makes me sad,
The worst year I can remember..

Just today I received the news that in Croatia six fire fighter had been
trapped and burned to death

Looking to Greece the whole area aof Peleponais is in fire and far of
being
under cotnrol. It is said that apprx 60 persons, local citizenand fire
fighter
are dead.

Fortunatelly the historical places around Athen could be saved by an
enormous
effort of manpower for Greece but even from other countries.

The whole European community came to assist the Greece and even
Croatia with
planes (Germany with three helicopter and handcrews of member of the
Vol FB)
but no end of these fires are in sight.

France has send planes (CL415) and other countries are doing the same.

Unbelievable but the main reason of these fires are arson with the aim to
create "burned areas for the use of illegal holiday premises"

I will not point out the politic of the Greece but if I see that criminals
create such a desaster and see how many efforts by volunteers, from
Greece but
even from countris abroad are done to stop the desaster than I find no
understanding.

In Greece it is voting time and the preent Prime Minister has really
worry to
explain what the government has done to avoid the catastrophy.

A greece FB officer told to me:"It is so simple, if the government should
forbid the purchase of those destroyed areas and should destroy all the
illegal houses, the story would come to an end very quick!"

Fortunatelly in Germany we had no real important wildfires this year
due to a
very wheat summer..

With kindly regards
Klaus, a retired Fire Brigade Captain, even serving abraod

2107. TM-D700E tone problem on ptt (?)

Yahoo group: thegreekhamradio
Date: 2007-09-12 17:30:36 UTC
From: sxanthop
Topic: 2107   Message: 2107

Καλησπέρα σε όλους,

Πριν λίγο μιλώντας σε έναν επαναλήπτη διαπίστωσα οτι έκανε διακοπή στην εκπομπή μου ο υπότονος.

Αυτό γίνεται για ένα μικρό χρονικό διάστημα, ίσως δέκατα του δευτερολέπτου ή μερικά δευτερόλεπτα (περισσότερο στην μπάντα των UHF, μου φαίνεται οτι το κάνει ίσως όμως και να είναι τυχαίο αυτό που λέω). Ψάχνωντας την αιτία παρατήρησα οτι το βύσμα του μικροφώνου δεν πατούσε τόσο καλά στην είσοδο του μηχανήματος.

Επίσης έκανα και Full αλλά και VFO Reset χωρίς αποτέλεσμα.

Απο οτι καταλαβαίνω κάπου έχω πρόβλημα στο μικρόφωνο. Δεν έχω όμως άλλο για να το δοκιμάσω.

Έχει ξανα συμβεί σε κανέναν απο εσάς που έχετε kenwood και ειδικά το D700 ;

Μήπως να αρχίσω να ανυσηχώ ;

Ευχαριστώ.

Καλησπέρα Κώστα,

Ευχαριστώ για την απάντηση σου. Μου φαίνεται πολύ παράξενο, μετά απο τόσο καιρό που έχω το μηχάνημα να μην λειτουργεί σωστά ο υπότονος και δεν ξέρω τι να υποθέσω, γι'αυτό και έστειλα το μήνυμα εδώ μήπως έχει αντιμετωπίσει κανείς παρόμοιο πρόβλημα.

Χρησιμοποιώντας ένα φορητό που έχω για να ακούσω το αδιαμόρφωτο σήμα, ακούω ένα "θόρυβο-βομβο" το οπόιο προέρχεται προφανώς απο το μικρόφωνο, καθώς κουνώντας το πάνω-κάτω (το καλώδιο, όχι το κυρίως μέρος)...ο "θόρυβος" αυτός αλλάζει συχνότητα.

Δεν ξέρω αν όντως έχω εντοπίσει το πρόβλημα, αλλά πιστεύω οτι στις επόμενες μέρες θα το καταφέρω. Ελπίζω μόνο να μην είναι "εσωτερικό" πρόβλημα σαν αυτό που λες. Αυτό το εκτός συχνότητα, είναι κάτι που το καταλαβαίνει κανείς, π.χ εμποδίζει την πρόσβαση σου σε επαναλήπτες ;

> 73 de SW1IXP

Δεν ξέρω αν είναι αυτό που λες, θα το παρατηρήσω και θα δω τι γίνεται. Το πρόβλημα εμφανίστηκε ως γνωστόν χθες το απόγευμα. Μετά απο καμιά ώρα που μίλησα στον ίδιο επαναλήπτη δεν φάνηκε να υπάρχει πλέον. Μιλώντας και καλώντας και σε άλλους επαναλήπτες δεν ξανα συνέβει το πρόβλημα. Δεν ξέρω αν είναι κάτι που θα εμφανιστεί αργότερα, ελπίζω να ήταν όμως κάτι παροδικό.

Όσο για τον ήχο, τον άκουγα απο το φορητό που το είχα κολήσει στο αυτί μου...θα δοκιμάσω και σήμερα το μεσημέρι να δω τι συμπεριφορά θα υπάρχει απο το μηχάνημα και θα δω.

Πάντως ευχαριστώ για την απάντηση,

Thu Sep 20, 2007 3:16 am (PST)

(Η Ε.Ε.Ρ. σας ενημερώνει ότι η νέα ημερομηνία διεξαγωγής του Ελληνικού Field Day είναι στις 6 και 7 Οκτωβρίου 2007. Το Σαββατοκύριακο αυτό συμπίπτει με το Field Day της περιοχής 1 της IARU στα UHF & SHF. Καλό θα είναι οι συνάδελφοι που θα πάρουν μέρος να καλούν τόσο στα HF όσο και στα 2M CQ SV FIELD DAY για να είναι κατανοητό από τους συναδέλφους του εξωτερικού. Καλή επιτυχία σε όλους).

Καλησπέρα,

Οι πρώτες δοκιμές με τις νέες κεραίες του RU6 Θεσσαλονίκης δείχνουν οτι αυτό ακριβώς έλειπε απο τον επαναλήπτη αυτόν. Μπράβο σε αυτούς που δούλεψαν για να υπάρχει επιτέλους ένας ακόμα επαναλήπτης στην πόλη μας που να καλύπτει όσο καλύτερα γίνεται. Το ίδιο συμβαίνει και με το R3.

Όλες οι δοκιμές είναι ευπρόσδεκτες και τα report μπορείτε να τα στέλνετε είτε απο εδώ είτε χρησιμοποιώντας το qrz.com για να στέιλετε email στο Δ.Σ της ΕΡΒΕ με το callsign SZ2TSL.

2117. ERBE DX-CLUSTER.

Yahoo group: thegreekhamradio
Date: 2007-10-09 14:56:54 UTC
From: sxanthop
Topic: 2117 Message: 2117

Σας γνωστοποιώ δύο email του SV2BZQ:

"Προς το Δ.Σ. τις Ε.Ρ.Β.Ε.

Σας ενημερώνω ότι από χτες το βράδυ (5/10/2007) (περίπου 2,30 πμ)
λειτουργεί το DX-CLUSTER (σαν Software) στα γραφεία του συλλόγου μας.

Μετά από συνεννοήσεις με το εξωτερικό (για να μας δεχτούν να
συνδεθούμε επάνω τους σαν DXCLUSTER-node) από το βράδυ λειτουργεί
κανονικά μέσω του Ιντερνετ ,αλλά δεν λειτουργεί ακόμα μέσω ασυρμάτου
διότι όπως σας έχω ενημέρωση χρειαζόμαστε έναν πομποδέκτη και ένα TNC.

Τα στοιχεία για ενωθεί κάποιος με το Cluster είναι :

```
telnet sz2tsl.dyndns. org 8000
```

ή για οποίους θέλουν να συνδεθούν με πρόγραμμα Cluster :
sz2tsl.dyndns. org // πόρτα : 8000

και στο Login: δίνουν απλώς το Callsing τους .

Εκ μέρους τις ψηφιακής επιτροπής τις Ε.Ρ.Β.Ε.

```

A team of 9 Greek ham radio operators are going to activate the Syrian island of Arwad (AS-186) for the first time in the IOTA program, between November 1 and 13. Call will be YK9SV (issued).

Activity is on all HF bands with at least 2 stations round the clock, including 6 meters and using CW, SSB, RTTY and PSK.

2125. Fw: [CQ-Contest] cqww cw spotting report

Yahoo group: thegreekhamradio
Date: 2007-11-27 16:03:48 UTC
From: Kostas SV1DPI
Topic: 2125 Message: 2125

Κάνω forward την παρακάτω αναφορά επειδή κάποτε παρεξηγήθηκα κι αισθάνομαι ακόμα άσχημα γι' αυτό, έστω κι αν από τα παρακάτω φαίνεται ότι είχα δίκιο.
Γιατί όπως έγραψα και στο τελευταίο 59report πάνω απ' όλα μετράνε οι διαπροσωπικές σχέσεις...
Παρακάτω είναι η αναφορά του K1TTT για τους "κλέφτες" των cluster. Αυτούς δηλ. που χρησιμοποίησαν τα cluster για να σποτάρουν τον εαυτό τους. Από πέρσι η επιτροπή του cqww λαμβάνει υπόψιν την αναφορά αυτή και απορίπτει (disqualify) όσους δεν φέρθηκαν συναδελφικά. Σημειώνω ότι σε άλλα πιο μικρά contest, όπως το σλοβενικό, το ρώσικο, κ.α. το disqualify γίνεται εδώ και χρόνια γι' αυτές τις περιπτώσεις. Πλέον οι περισσότεροι που το κάνουν, απλά δεν ξέρουν ότι απαγορεύεται. Αυτή τη λογική εξυπηρετώ και προωθώ το email και τίποτα άλλο.
Κωνσταντίνος SV1DPI

2128. VX-2 memories to VX-3 ?

Yahoo group: thegreekhamradio
Date: 2007-12-05 19:20:14 UTC
From: sxanthop
Topic: 2128   Message: 2128

Καλησπέρα,

Θέλουμε να μεταφέρουμε στο vx-3 ενός συναδέλφου τις μνήμες απο το δικό μου φορητό yaesu VX-2. Το έχει δοκιμάσει κανείς; Το καλώδιο του υπολογιστή για το 2, λειτουργεί στο vx-3;

Ευχαριστώ,

Καλησπερα σε όλους,

Θα ήθελα να ενημερώσω όλα τα μέλοι της ένωσης ραδιοερασιτεχνών βορείου ελλάδος οτι υπάρχει ένα group του συλλόγου που γίνονται και διάφορες ανακοινώσεις που αφορούν τον σύλλογο αυτό.

Αν λοιπόν υπάρχουν μέλοι της ΕΡΒΕ που δεν είναι γραμμένα σε αυτό το group μπορούν να επισκευθούν την σελίδα του group http://groups.yahoo.com/group/sz2tsl/ και να ζητήσουν την εγγραφή τους σε αυτό.

2140. ΣΟΒΑΡΗ ΠΡΟΕΙΔΟΠΟΙΗΣΗ ....ΜΕ E- MAIL.

Yahoo group: thegreekhamradio
Date: 2008-01-09 11:59:16 UTC
From: yspiridakis
Topic: 2140 Message: 2140

ΣΟΒΑΡΗ ΠΡΟΕΙΔΟΠΟΙΗΣΗ !!!!!!! Παρακαλώ να είστε ιδιαίτερα προσεκτικοί, ιδιαίτερα εάν χρησιμοποιείτε αλληλογραφία μέσω internet όπως Yahoo , Hotmail , AOL κτλ. Η πληροφορία κυκλοφόρησε από την Microsoftκαι την Norton. Παρακαλώ στείλτε την σε όλους όσους γνωρίζετε και έχουν πρόσβαση στο Internet . Ίσως λάβετε ένα φαινομενικά άκακο e- mail με παρουσίαση Πάουερ Πόιντ (PowerPoint) και τίτλο ' Lifeisbeautiful. pps ' . Εάν το λάβετε, μην ανοίξετε το επισυναπτόμενό του για κανένα λόγο και διαγράψτε το αμέσως. Εάν ανοίξετετο αρχείο, ένα μήνυμα θα εμφανισθεί στην οθόνη σας λέγοντας: ' Itistoolatenow , yourlifeisnolongerbeautiful ', δηλαδή : ' Τώρα πια είναι αργά, η ζωή σας δεν είναι πλέον όμορφη'. Ως επακόλουθο θα χάσετε τα πάντα στον υπολογιστή σας και το άτομο που σας το έστειλε θα αποκτήσει πρόσβαση στο όνομά σας, στο e- mail σας και στο κωδικό ασφαλείας σας . Αυτός είναι νέος ιός!! ο οποίος ξεκίνησε πρόσφατα να κυκλοφορεί , ΠΡΕΠΕΙ ΝΑ ΚΑΝΟΥΜΕ ΟΤΙ ΕΙΝΑΙ ΔΥΝΑΤΟ ΓΙΑ ΝΑ ΣΤΑΜΑΤΗΣΕΙ ΑΥΤΟΣ Ο ΙΟΣ. Ο AOL επιβεβαίωσε ήδη την σοβαρότητα και τα προγράμματα antivirus δεν είναι ικανά να τον καταστρέψουν. Ο ιός δημιουργήθηκε από έναν χάκερ ο οποίος αυτοαποκαλείται ' lifeowner '. ΠΑΡΑΚΑΛΩ ΕΝΗΜΕΡΩΣΤΕ ΟΛΟΥΣ ΤΟΥΣ ΦΙΛΟΥΣ ΣΑΣ !!!!!

From: sxanthop
Topic: 2141 Message: 2141

Σήμερα 9-1-2008 ολοκληρώθηκαν με επιτυχία αρκετές από τις εργασίες της ψηφιακής επιτροπής .

Σας ενημερώνουμε ότι λειτουργούν κανονικά τα:

1) Echolink (με node 354939 ☐ RU380 (RU6) / ALINCO 599 + MFJ 1275)

2) APRS 9600 (4381.100 / 9k6 / KENWOOD D-700) με IGATE : sz2tsl.dyndns.org:1313

3) APRS 9600 DIGI (τοποθεσία ΚΟΥΡΙ ☐ 438,100 / 9κ6 / YAESU FT-7800 + SYMEC TNC-2H)

4) APRS 1200 DIGI (τοποθεσία ΚΟΥΡΙ ☐ 144,800 / 1κ2 / Icom + MFJ)

5) Cluster 1200 + Telnet (144.625 / 1k2 / KENWOOD D-710 + από Internet telnet sz2tsl.dyndns.org:8000)
Διακριτικό κλησης: SZ2TSL-2 χωρίς password

Λυπούμαστε για την ταλαιπωρία κάποιων συναδέλφων αυτό το χρονικό διάστημα αλλά λόγω

δοκιμών χρειάστηκε να κάνουμε πολλές επανεκκινήσεις στον υπολογιστή και επίσης να μείνει εκτός

λειτουργίας πολύ καιρό , λόγω πολύ QRL (δικό μου). Ελπίζω να μην υπάρξει άλλη ταλαιπωρία.

Αυτά που μένουν σε εκκρεμότητα είναι τα σεμινάρια που και αυτά θα γίνουν σε εύλογο χρονικό διάστημα.

Για οποιαδήποτε ερώτηση ή απορία είμαστε στη διάθεση σας .

Εκ τις Ψηφιακής Επιτροπής

ΠΡΟΣΚΛΗΣΗ

όλων των μελών της Ε.Ρ.Β.Ε. για την ΚΟΠΗ ΠΙΤΑΣ την Τετάρτη 30/1/2008 στις 18:00 στα γραφεία της Ένωσης και ταυτόχρονα θα διεξαχθεί Έκτακτη Γενική Συνέλευση για τη διεξαγωγή των αρχαιρεσιών.

Η υποβολή υποψηφιοτήτων στην τριμελή Εφορευτική Επιτροπή ξεκινά την Τετάρτη 16/1/2008 και λήγει την Τετάρτη 23/1/2008.

Εάν στις 30/1/2008 δε υφίσταται απαρτία, τότε οι ΕΚΛΟΓΕΣ θα γίνουν την Τετάρτη 6/2/2008 στα γραφεία της Ένωσης στις 18:00.

Για την Ε.Ρ.Β.Ε.

Δημήτριος Αναστασιάδης

2145. ΥΠΟΓΡΑΨΤΕ ΨΗΦΙΑΚΑ...ΕΙΝΑΙ ΓΙΑ ΤΟΝ ΤΟΠΟ ΜΑΣ ΕΙΝΑΙ ΣΗΜΑΝΤΙΚΟ

Yahoo group: thegreekhamradio
Date: 2008-01-14 12:58:34 UTC
From: Costas J. Dovas - SV4FFL
Topic: 2145 Message: 2145

ΥΠΟΓΡΑΨΤΕ ΚΑΙ ΣΤΕΙΛΤΕ ΤΟ ΣΕ ΟΣΟ ΠΙΟ ΠΟΛΛΟΥΣ ΜΠΟΡΕΙΤΕ

Όπως ανάφεραν προχθές οι ειδήσεις, η ΕΕ εξέδωσε ένα ψήφισμα για όλες τις μεσογειακές χώρες που επλήγησαν από φωτιές,
να δεσμευτούν ότι τα δάση που κάηκαν θα ξαναγίνουν δάση, διότι αυτό αφορά
ΟΛΗ ΤΗΝ ΠΕΡΙΟΧΗ ΚΑΙ ΟΧΙ ΜΟΝΟ ΚΑΘΕ ΧΩΡΑ ΞΕΧΩΡΙΣΤΑ.
Το ψήφισμα υπεγράφη από τις αντιπροσωπείες όλων των Μεσογειακών χωρών (Ιταλία, Ισπανία, Γαλλία, Πορτογαλία) και όλων των παρατάξεων... εκτός μίας:

guess who?...

Ο κ. Ρουσόπουλος είπε ως δικαιολογία ότι αυτό είναι παρέμβαση στο Σύνταγμα της Χώρας
βλέπε Άρθρο 24, περί 'δασικών εκτάσεων και δασών' !!...

Εκτός, αυτού, προχτές οι ειδήσεις ακόμα και των κρατικών καναλιών - αναφέραν οτι 2.000 και πλέον στρέμματα στη Ζαχάρω 'παραχωρήθηκαν για ήπια τουριστική ανάπτυξη' σε μεγάλα ξενοδοχειακά συγκροτήματα

Οφείλουμε να δείξουμε σε όλα τα κόμματα οτι δεν είμαστε σύμφωνοι και οτι δεν αδιαφορούμε: υπογράψτε το petition για την προστασία των δασών. Οι τωρινές 80.000 υπογραφές είναι πάρα πολύ λίγες - οφείλουμε να τις κάνουμε 2.000.000 , αφού η αίτηση αυτή θα σταλεί στη Βουλή, στο Ευρωπαϊκό Κοινοβούλιο αλλά και στον ΟΗΕ.

Η ΣΥΜΜΕΤΟΧΗ ΜΑΣ ΕΙΝΑΙ ΣΗΜΑΝΤΙΚΗ!

Παράδειγμα προς μίμηση και όχι προς αποφυγή

=====================
From Magnesia_Hams group:

Παραθέτω την QSL κάρτα απο τον Echolink κόμβο SU5HR συναδέλφου από την Αίγυπτο
μέσω του οποίου έγινε επαφή των SV4FFL, SW4LAX(mobile) με τον SU3AS Mahmut.
Αναφέρομαι σ'αυτή την επικοινωνία για να αφυπνίσω όσους συνάδελφους επιθυμούν, να προσφέρουν
λίγο χρόνο για επικοινωνία, ιδίως σε ραδιοχώρες που ο ραδιοερασιτεχνισμός είναι στο ξεκίνημά του.
Αυτός άλλωστε είναι και ο λόγος που το Echolink θα συνεχίσει την παρουσία του στον επαναλήπτη μας.

2150. AO-16 update.

Yahoo group: thegreekhamradio
Date: 2008-01-23 13:57:08 UTC
From: sxanthop
Topic: 2150 Message: 2150

Posted by: "SV1BSX" sv1bsx@yahoo.gr sv1bsx
Tue Jan 22, 2008 7:25 pm (PST)
Καλημερίζω το Group ....με πολύ ευχάριστα νέα !

Από χθές βράδυ, ακόμη ένας δορυφόρος προστέθηκε και πάλι στον
"αματερικό στόλο" !
Είναι ο AO-16, ο οποίος είχε μάλλον χαθεί, αλλά μετά από τις επίμονες
προσπάθειες
των αμερικανών συναδέλφων, επανακτήθηκε πλήρως !

Για την ιστορία, ο δορυφόρος αυτός είναι πασίγνωστος σε όσους
παλαιότερα είχαν ασχοληθεί με τους
λεγόμενους "Digital Satellites", καθότι η χρήση του ήταν μόνο για
ψηφιακά Modes και
ήταν ευρύτερα γνωστός σαν PACSAT. Με την ραγδαία εξέλιξη του Internet,
το traffic
του δορυφόρου μειώθηκε πολύ και είχαμε αναφερθεί πριν λίγο καιρό εδώ
στο Group
για το κλείσιμο του περίφημου Sat Gate, του οποίου ο AO-16 αποτελούσε
αναπόσπαστο κρίκο
μέσω του οποίου οι ραδιοερασιτέχνες περνούσαν την δεκαετία του '90 τα
μηνύματα των
Packet BBS παγκοσμίως, χρησιμοποιώντας δορυφόρους ! Τότε ήταν μια
καινοτόμος εφαρμογή
των δορυφόρων και γι' ακόμα μία φορά οι ραδιοερασιτέχνες έδειξαν στον
υπόλοιπο κόσμο
τις απίστευτες δυνατότητες που είχαν στις τηλεπικοινωνίες.

Μετά την βλάβη του, ο AO- 16 ανακτήθηκε μερικώς περίπου πριν 6 μήνες ,
αλλά όταν η ομάδα ελέγχου
προσπαθησε να ξαναφορτώσει το δορυφορικό λογισμικό που θα τον έθετε σε
κανονική λειτουργία,
απέτυχε 12 συνεχόμενες φορές!
Στη συνέχεια με πολύ υπομονή, έδωσαν μια σειρά απλών εντολών με σκοπό
να εκτελεσθεί
το λογισμικό με τρόπο έτσι ώστε, να παρακαμφθεί το σημείο που "κρέμαγε".

Η ομάδα ελέγχου που αποτελείται από τον Bruce Rahn WB9ANQ, τον Jim
White WD0E
και σύμβουλο τον Mark Hammond N8MH, τελικά κατόρθωσε να επαναφέρει με
απόλυτη επιτυχία
τον δορυφόρο σε λειτουργία, και από εχθές έχει δοθεί δοκιμαστικά προς
ραδιοερασιτεχνική
χρήση, όχι όμως πλέον σαν Digi-Sat, αλλά σαν Voice Satellite !

Οι πρώτες αναφορές δείχνουν ότι ακούγεται πανίσχυρα και είναι πολύ ευαίσθητος, όσον αφορά
τον δέκτη του. 'Εχει μόνο μια ιδιαιτερότητα:

το Uplink είναι FM και το DownLink SSB.

Για να τον δοκιμάσετε, θα εκπέμψετε FM στο 145.920 (Uplink) και θα κάνετε λήψη SSB στη συχνότητα
437.026 +- Doppler (Downlink) . Ο δορυφόρος εκπέμπει DSB, δηλαδή έχει και τις 2 πλευρικές (USB + LSB)
αλλά οι πρώτες αναφορές λέγουν ότι ακούγεται καλύτερα κάνοντας χρήση USB στον δέκτη μας.

Το πρωί τον... δοκίμασα (04.40 !) και πραγματικά εξεπλάγην από το δυνατό σήμα του. Πραγματικά
"μπουμπουνίζει" ! Έμπαινα πανεύκολα στον δορυφόρο με 5 μόλις Watts και το Downlink του
είναι πραγματικά απίστευτα δυνατό. Το μόνο πρόβλημα που παρατήρησα, είναι ότι έχει
ένα ισχυρό Fading κάθε 15 δευτερόλεπτα, αλλά δεν είναι κάτι ανησυχητικό, αντιμετωπίζεται.
Από την άλλη πλευρά όμως, έδειξε ότι είναι τόσο πολύ ευαίσθητος, που είμαι σίγουρος ότι
θα μπείτε ακόμα κι αν έχετε για κεραία μία ..Ground Plane !

Δοκιμάστε τον !

Σήμερα το μεσημέρι έχει δύο πολύ καλές διελεύσεις για τη χώρα μας, 13:50-14:05 & 15:30-15:45 Z.

Καλή επιτυχία και αναμένω... τις αναφορές λήψεως !

73, Μάκης SV1BSX

ALEXANDER THE GREAT CONTEST GROUP (GREECE)
```

Η ιδεα ξεκινησε από την κουβεντουλα με καποιους φιλους στα 160 μετρα,
οι περισσοτεροι από τους οποιους εχουμε συμμετασχει στο παρελθον στο
CQ WW 160 DX CONTEST. Σκεφτηκαμε λοιπον για φετος να συμμετασχουμε
αρχικα σε αυτό το διαγωνισμο (γιατι όχι και σε καποιο άλλο
μελλοντικα) και σαν ατομα, αλλα και σαν ομαδα, ώστε να ακουγεται και
η χωρα μας λιγακι.
Επι πλεον η συμμετοχη σε μια τετοια ομαδα οπου αθροιζονται οι βαθμοι
των συμμετεχοντων αξιοποιει και τις περιορισμενες βαθμολογικα
συμμετοχες, αλλα και δινει ερεθισμα για τη σχετικη ενασχοληση.
Ετσι κι αλλιως δεν υπαρχει καμμια δεσμευση από και σε κανενα να
συμμετασχει στην προσπαθεια. Οσοι περισσοτεροι τοσο το καλυτερο.Το
βασικο είναι ότι ολοι (οσοι τελικα στειλουν παραστατικα συμμετοχης)
πρεπει να αναφερουν το ονομα του γκρουπ στο σχετικο πεδιο, και ενας
να στειλει ένα καταλογο με ολους τους συμμετεχοντες στο γκρουπ.
Πρεπει να υπαρχουν τουλαχιστο τρεις συμμετοχες ώστε να θεωρειται
ομαδα.

73 και Καλη τυχη
Πανος Δαλακος SV1GRD

Για αποριες, παραλειψεις, διορθωσεις αλλα και δηλωσεις τελικης
συμμετοχης καποιου στο διαγωνισμο, ώστε να στειλω καποια στιγμη και
το συγκεντρωτικο καταλογο το τηλεφωνο μου είναι 6974 485 422 και το
μεηλ pdala@tee.gr

2154. Ενέργειες σε περίπτωση Σεισμού

Yahoo group: thegreekhamradio
Date: 2008-01-25 19:03:35 UTC
From: Costas J. Dovas - SV4FFL
Topic: 2154   Message: 2154

Πολύ ενδιαφέρουσα άποψη - προτροπή συναδέλφου απο την Κύπρο. Προκειμένου την πλήρη κατανόηση προσπάθησα
να το αποδώσω στα Ελληνικά. Ακολουθεί το πρωτότυπο κείμενο στα Αγγλικά απο την mail λίστα 5B4.
Εχθές το βράδυ, δεδομένου ότι τον κατάλαβα, επρόκειτο για ένα μικρό σεισμό 3.5R περίπου 10 μίλια νότια από την ακτή της Λεμμεσού.
Μόλις ένιωσα τον σεισμό άρχισα να καλώ όλους τους επαναλήπτες που είναι προσιτοί από το QTH μου. ΚΑΜΙΑ ΑΠΑΝΤΗΣΗ.
Η απάντηση στα γεγονότα, όπως σε σεισμούς, πρέπει να είναι άμεση επειδή ίσως αυτό που νιώθουμε χαμηλό στο κρεβάτι σας
στη Λεμμεσό να είναι ένας 6R σεισμός στη Λευκωσία. Η υποβολή έκθεσης κατά τη διάρκεια των σεισμών μέσα από τα repeaters
μπορεί να δώσει μια εκτίμηση του μεγέθους και της θέσης του επίκεντρου οποιουδήποτε σεισμού σε λιγότερο από 15-30 λεπτά,
έχοντας δει αυτό να συμβαίνει πολλές φορές σε μεγάλους και μικρούς σεισμούς στην Ελλάδα. Έτσι προκαλώ όλους σας, οι οποίοι
έχετε πρόσβαση στα repeaters, όταν αισθάνεστε ένα σεισμό ανοίξτε το φορητό σας πομποδέκτη και ποιος ξέρει, μπορεί πραγματικά
να σώσετε τη ζωή κάποιου.
73 de 5B8BE

```
Yesterday evening as I am sure some of you have fealt there was a small 3.5R earthqauke
about 10 miles south from the coastline of Limassol.
As soon as I fealt the tremmor I started calling on all the repeaters that are accessible
from my QTH. NO ANSWER.Response to events like
earthquakes should be immediate because maybe you fealt it low in your bed in Limassol but
it might have been a 6R earthquake at Nicosia...
Reporting during earthquakes over the repaters can give an estimate of magnitude and
location of the epicenter of any earthquake in less than
15-30 minutes and I have seen this happening a few times in big and small earthquakes in
Greece.
So I am urging all of you, who have access on the reapeaters, when you feel an earthquake
turn this bloody handelheld on...
who knows you might actually save someone's life

2159. Το Εγκληματικό "Παιχνίδι" του πνιγμού!!

Yahoo group: thegreekhamradio
Date: 2008-02-02 10:21:32 UTC
From: Costas J. Dovas - SV4FFL
Topic: 2159   Message: 2159
Attachments: 4 described; binary payloads are missing from this source WARC

Το Εγκληματικό "Παιχνίδι" του πνιγμού!!

Θέλω αρχικά να πω δυο πραγματάκια!!! ΑΥΤΟ ΔΕΝ ΕΙΝΑΙ ΠΑΙΧΝΙΔΙ!!!! ΜΗΝ ΔΟΚΙΜΑΖΕΤΑΙ ΤΕΤΟΙΑ "ΠΡΑΓΜΑΤΑ" ΠΟΥ ΜΠΟΡΟΥΝ ΝΑ ΑΠΟΒΟΥΝ ΜΟΙΡΑΙΑ ΓΙΑ ΤΗΝ ΖΩΗ ΣΑΣ!!!ΟΛΑ ΑΥΤΑ ΕΙΝΑΙ ΧΑΖΟΜΑΡΕΣ!!!Η ΖΩΗ ΕΙΝΑΙ ΜΠΡΟΣΤΑ ΣΑΣ!!

Μια τραγική πράξη μιμητισμού και εγκληματικής χρήσης του Internet αποκαλύφθηκε χθες στα Γιαννιτσά της Πέλλας. Ένας νεαρός αποπειράθηκε να δημιουργήσει συνθήκες πραγματικού απαγχονισμού προκειμένου να επαληθεύσει εάν η ασφυξία -όπως διάβασε σε κάποια ιστοσελίδα- προκαλεί στύση(ΠΡΑΓΜΑ ΠΟΥ ΦΥΣΙΚΑ ΔΕΝ ΙΣΧΥΕΙ)…Το περιστατικό συνέβη στις 30 Δεκεμβρίου . Ο 15χρονος έστησε την επιχείρηση απαγχονισμού μέσα στην τουαλέτα του σπιτιού της γιαγιάς του, θεωρώντας ότι την τελευταία στιγμή θα μπορούσε να απελευθερώσει το βρόχο… Κατέληξε στην εντατική… Είναι σε μηχανική υποστήριξη και δεν έχει διαφύγει τον κίνδυνο!!
Η απόπειρά του επιβεβαιώνει με τον πιο τραγικό τρόπο την ύπαρξη του εγκληματικού παιγνιδιού που σαρώνει σε διάφορες χώρες: Έφηβοι προκαλούν σκόπιμα στραγγαλισμό προκειμένου να βιώσουν την ευφορία που προκαλείται καθώς το αίμα επανέρχεται στο κεφάλι ύστερα από κάποια δευτερόλεπτα ασφυξίας.
Το εγκληματικό «choking game», ή αλλιώς το «παιχνίδι του πνιγμού» υπαγορεύει στους νέους να δέσουν μια ζώνη, ένα σκοινί ή ένα κασκόλ γύρω από λαιμό τους, αποκόπτοντας με αυτό τον τρόπο τη ροή του αίματος προς τον εγκέφαλο. Λίγο προτού χάσουν τις αισθήσεις τους, απελευθερώνουν την πίεση -την οποία ασκούν οι ίδιοι ή κάποιος φίλος τους- και για ελάχιστα δευτερόλεπτα αισθάνονται έντονη ευφορία, καθώς το αίμα που έχει συσσωρευτεί στις αρτηρίες ρέει ξανά προς τον εγκέφαλο. Πρόκειται, όπως εξηγούν οι γιατροί, για μια πρακτική εξαιρετικά εθιστική για νεαρούς, που όμως καταστρέφει τα εγκεφαλικά κύτταρα και προκαλεί εγκεφαλικό, καρδιακό επεισόδιο, ακόμη και θάνατο.
Το «choking game», το οποίο σκοτώνει κατά μέσο όρο 500 παιδιά κάθε χρόνο στις ΗΠΑ, κάνει το γύρο του κόσμου. Οι ερευνητές αναφέρουν πως συνηθίζεται μεταξύ παιδιών ηλικίας 9-16 ετών, ενώ περίπου 25% των παιδιών δηλώνει ότι το έχει δοκιμάσει έστω και μία φορά.

Οι μαρτυρίες είναι συγκλονιστικές…..
«Πριν χάσω το γιο μου, δεν είχα ακούσει ποτέ γι' αυτό το παιχνίδι. Αν το ήξερα, μπορεί να είχα δει τα σημάδια και να τον είχα βοηθήσει. Τώρα το μόνο που μπορώ να κάνω είναι να προσπαθήσω να βοηθήσω άλλες οικογένειες για να μη βιώσουν ποτέ τα συναισθήματα που βιώνω εγώ από εκείνη την ημέρα».
Το ανησυχητικότερο όλων όμως είναι ότι η συντριπτική πλειοψηφία των εφήβων που έχουν δοκιμάσει -ή και έχουν πεθάνει- από το choking game δεν είναι παιδιά που είχαν παρουσιάσει στο παρελθόν σημάδια ψυχολογικών διαταραχώνꞁ Αντιθέτως, γονείς και φίλοι των θυμάτων αναφέρουν ότι ήταν χαρούμενα κοινωνικά παιδιά, γεμάτα ενέργεια. Ακολούθησαν απλά τη μόδα, τη μόδα που λέει ότι όσο πιο κοντά φτάσεις στο θάνατο τόσο πιο cool είσαι…

Εκστρατεία ενημέρωσης
ΕΝΗΜΕΡΩΣΤΕ ΤΑ ΠΑΙΔΙΑ ΣΑΣ!!
Το http://www.stilllovingmygabriel.com/, ένα memorial αφιερωμένο στα θύματα του θανατηφόρου «παιχνιδιού», είναι αναμφισβήτητα από τους πιο συγκλονιστικούς ιστοτόπουςꞁ Γεμάτο από φωτογραφίες και στιγμές ζωής των αδικοχαμένων νεαρών αγγέλων, αγοριών κυρίως, δημιουργήθηκε από γονείς, συγγενείς και φίλους των νεκρών εφήβων. Όλοι όσοι δέχτηκαν να δημοσιεύσουν την ιστορία του δικού τους χαμένου παιδιού είναι μέλη της οργάνωσης GASP (Games Adolescents Shouldn't Play), που ιδρύθηκε από πολίτες στις ΗΠΑ και την αρωγή των αστυνομικών αρχών, με στόχο να εξαλειφθεί το «παιχνίδι του πνιγμού».
Το ειδικά διαμορφωμένο website της οργάνωσης (http://www.stop-the-choking-game.com/) που δέχεται εκατοντάδες χρήστες καθημερινά και πρόσφατα μεταφράστηκε και στα γαλλικά, διαθέτει πλούσιο ενημερωτικό υλικό.

Η GASP έχει κατηγορηθεί στο παρελθόν ότι με την εκστρατεία της γνωστοποιεί την ύπαρξη του choking game στους εφήβους και τους δελεάζει να το δοκιμάσουν. Τα στατιστικά στοιχεία ωστόσο αποδεικνύουν ότι η συντριπτική πλειοψηφία της νεολαίας (75%) γνωρίζει ήδη το «παιχνίδι του πνιγμού» και ο μοναδικός τρόπος με τον οποίο το πρόβλημα μπορεί να καταπολεμηθεί σε αυτή τη φάση είναι μέσω της πρόληψης που εγγυάται η σωστή ενημέρωση. Γι' αυτό ακριβώς, παρόμοια ενημερωτικά site -καθώς και συγκλονιστικά memorial όπως το http://www.chokinggame.net/VictimPicturesBios.html- δημιουργούνται συνεχώς τον τελευταίο καιρό στο Διαδίκτυο.

Πιστεύετε ότι πρέπει να ενημερώσουμε τα παιδιά μας για το «παιχνίδι του πνιγμού»;

ΝΑΙ ή ΟΧΙ ?
Εγώ θα σας πρότεινα πάντως να το κάνετε!Ενημερώστε τους . Μην αφήσετε να αναζητήσουν τις πληροφορίες μόνοι τους από site γιατί ψάχνοντας μπορεί να καταλήξουν σε κάποια site που είναι πολύ επικίνδυνα για τις ΖΩΕΣ ΤΟΥΣ!!
Είναι τράγικο να χάνονται Ζωές Νέων με αύτο τον τρόπο!!
ΚΑΝΤΕ ΚΑΤΙ!!! ΕΝΕΡΓΗΣΤΕ.....

Πηγή :http://www.e-tipos.com/ και http://www.agelioforos.gr/
Οι φώτος είναι από το ενημερωτικό site http://www.chokinggame.net/VictimPicturesBios.html και δυστυχώς απεικονιζουν θυματα αυτου του Εγκληματικού "παιχνιδιού"!!!

Θα ήθελα να σας ενημερώσω σχετικά με την ΔΗΜΙΟΥΡΓΡΕΙΑ « 23 ΝΕΩΝ ΕΛΛΗΝΙΚΩΝ AWARDS » στο γνωστό σόλους που ασχολούνται με τα ψηφιακά modes EPC CLUB .
Τα awards αυτά σκοπός της δημιουργίας τους είναι η προβολή της χώρας μας και ιδιαίτερα της Μακεδονίας , στους δύσκολους καιρούς που περνάμε με την αδιαλλαξία και τον αλυτρωτισμό των γειτόνων μας καθώς και η αναβάθμιση του ρόλου του Έλληνα ραδιοερασιτέχνη ως προς τους συναδέλφους του εξωτερικού που μέχρι τώρα αγωνιζόμασταν να συγκεντρώσουμε επαφές μαζί τους για να αποκτήσουμε τα βραβεία των χωρών τους τα οποία είχαν θεσπιστεί στον συγκεκριμένο χώρο εδώ και πολύ καιρό . Ήταν μια σκέψη που την επεξεργαζόμουν αρκετό καιρό τώρα μέσα στο μυαλό μου και τελικά πήρε σάρκα και οστά μόλις πρόσφατα με την βοήθεια των Jurij MMODFV (Big boss) του EPC CLUB και του Heinz DK5UR .
Όλα τα awards είναι ανέξοδο να τα αποκτήσει κάποιος και θα μπορεί να τα εκτυπώσει σε υψηλής ανάλυσης format κανοντάς τα ένα στολίδι για το sack στο ποιο θα αναρτηθούν και συγχρόνως ακόμα μια διαφήμιση του Ελληνικού πολιτισμού .
Χωρίζονται σε δυο κατηγορίες τα GENERAL (9 των αριθμό) και τα PERIPHERIES (14 των αριθμό) . Ως θέματα τους έχουν επιλεγεί μνημεία του αρχαίου , βυζαντινού Ελληνικού πολιτισμού καθώς και προσωπικότητες που σημάδεψαν με την παρουσία τους την Ελληνική ιστορία . Από λα αυτά δεν θα μπορούσε να απουσιάζει φυσικά το □γιο Όρος .
Μετά από αυτό θα πρέπει να ξέρουν όλοι οι φίλοι Έλληνες ραδιοερασιτέχνες από όλους τους νομούς της Ελλάδος που ασχολούνται με το BPSK mode ότι θα γίνουν most wanted για 3,500 και πλέον μέλη του EPC CLUB WW.
Περισσότερες πληροφορίες σχετικά θα ανακοινωθούν σε λίγες ημέρες από την από την επίσημη ιστοσελίδα του EPC CLUB στο http://eu.srars. org

Για την διάδοση του ραδιοερασιτεχνισμού και την προβολή της Ελλάδας μέσα από αυτόν

73 και 88

Οιπαρακάτω Ελληνες Ραδιοερασιτέχνες: SV1JG Cliff, SV1RC Σπύρος, SV1RP Γιώργος, SV1EEX Νικηφόρος, SV1GRM Θεόδωρος, SV1HER Σωτήρης & SV1JCZ Δανιήλ θα ενεργοποιήσουν την βραχονησίδα Στρογγυλή(IOTA: EU-001, GREEK IOTA: DKS 001) με ταυτόχρονη ενεργοποίηση του φάρου του νησιού. Ο φάρος ονομάζεται Υψηλή: WLOTA: L-0237, ARLHS: GRE-053,

θα είναι η πρώτη φορά που ενεργοποιείται ο φάρος και η βραχονησίδα για ραδιοερασιτεχνικούς σκοπούς

Η Στρογγυλή Καστελόριζου που επίσης είναι γνωστή ως Στρογγυλή ή Υψηλή είναι μια Ελληνική βραχονησίδα στην ανατολική Μεσόγειο θάλασσα περίπου 5 ναυτικά μίλια Νοτιο-Ανατολικά της νήσου Καστελόριζο. Η βραχονησίδα είναι περίπου 1.5 χλμ σε μήκος και περίπου 700μ σε πλάτος. Η συνολική της έκταση είναι περίπου 0.9 m2. Είναι μάλλον επίπεδη και καλύπτεται από χαμηλή βλάστηση. Η Στρογγυλή είναι η ανατολικότερη περιοχή της Ελληνικής επικράτειας, δεν κατοικείται και ο φάρος της είναι επίσης το πιο ανατολικό οικοδόμημα της Ελλάδας.

Συντεταγμένες: Γ.Μήκος: 36°06'49"N, ή 36.1136 N ..-.. Γ.Πλάτος: 29° 38'09"E, ή 29.6358 E

Grid square: KM46tc [βρίσκεται περίπου 7.8 mi (12.6 km) από το νότιο άκρο του grid square, 20.3 mi (32.7 km)από το ανατολικό άκρο του grid square]

Περίοδος 25 Ιουλίου - 04 Αυγούστου 2008.

Θα μπορείτε να μας ακούσε σε όλες τις μπάντες από 160m-2m και σε όλα τα δημοφιλή modes ωστε να μας δουλέψουν και συνάδελφοι κατηγορίας 2.

QSL manager: SV1HER

Για οποιαδήποτε διευκρίνηση, παρακαλώ, επικοινωνήστε με τον SV1HER στο: +30-693-2671602 ή μέσω email: sv1her@raag. org .&. Skype: sotirios.vanikiotis

Με εκτίμηση.

Σχεδόν τέσσερα χρόνια πέρασαν από το special Call SX.A/... και οι ευχάριστες αναμνήσεις είναι ακόμα νωπές.

Όσοι συνάδελφοι συμμετείχαν σε αυτό το εγχείρημα θα θυμούνται ότι αν και η διάρκειά των 100 ημερών ήταν μεγάλη για τους 100+ ραδιοερασιτέχνες και από τις 9 SV περιοχές, η άμιλλα και η ανιδιοτέλεια τους κράτησε μπροστά στα shacks μέρες και νύχτες με απώτερο σκοπό τον εορτασμό της Ολυμπιάδας «ΑΘΗΝΑ 2004», αλλά ταυτόχρονα, να βιώσουμε για μια φορά, το να είμαστε το επίκεντρο του ενδιαφέροντος, οι operators του pile up, φθάνοντας τις 150.000 QSOs, 200 DXCCs σε 10 bands.

Προσωπικά, ήταν η πρώτη μου εμπειρία με τα HF, και επίσης το έναυσμα για CQ και DX hunting, φτάνοντας μέχρι τώρα τις 13.000+ QSOs και τις 270 DXCCs, ενώ πάντα προσπαθώ να μη χάνω ευκαιρίες για συμμετοχή σε special Calls και ελληνικά ή διεθνή contests, καταλαμβάνοντας αξιοπρεπείς θέσεις.

Ο λόγος αυτού του προλόγου είναι να «προκαλέσω» όλους όσους θέλουν να ζήσουμε και πάλι ανάλογα συναισθήματα και ταυτόχρονα να αναδείξουμε σε όλο τον Ρ/Ε πληθυσμό, τα αυτονόητα για την Ελ;;;;;ητα της Μ;;;;;;;ς.

Φυσικά ένα τέτοιο εγχείρημα χρειάζεται την αρωγή ικανού αριθμού συναδέλφων για την επιτυχή οργάνωση της αποστολής. Σύμφωνα με το πλάνο χρειάζονται συμμετοχές από τους παρακάτω νομούς:

Ημαθίας, Θεσσαλονίκης, Κιλκίς, Κοζάνης, Πέλλας, Πιερίας, Φλώρινας, Χαλκιδικής, Ηλείας, Λάρισας, Μαγνησίας, Δράμας, Έβρου, Καβάλας, Ξάνθης, Σερρών και Κυκλάδων.

Παρακαλούνται όσοι συνάδελφοι ενδιαφέρονται να στηρίξουν με οποιοδήποτε τρόπο αυτήν την αποστολή ας αποστείλουν στο email: jim@nrg.com. gr τα παρακάτω στοιχεία:

Ονοματεπώνυμο, Διακριτικό κλήσης, διεύθυνση κατοικίας (απαίτηση Υ.Μ.Ε.), ID skype, ooVoo (αν υπάρχει), κινητό τηλέφωνο, συνθήκες εκπομπής (κεραίες, πομποδέκτες κλπ), modes λειτουργίας και στο περίπου ημέρες και ώρες διάθεσης για CQ.

Σε κάθε νομό θα ηγηθεί ένας συνάδελφος σε ρόλο «επιλοχία», που θα βάζει τις υπηρεσίες δηλ. τις μέρες, ώρες και mode καθενός, θα συγκεντρώνει τα ηλεκτρονικά (ΜΟΝΟΝ) logs και θα είναι αυτός που θα επικοινωνεί με το κέντρο διοργάνωσης.

Το special Call, η ακριβή ημερομηνία έναρξης και η διάρκεια των εκπομπών θα γνωστοποιηθούν μόλις αδειοδοτηθούμε από το Υ.Μ.Ε., όπως επίσης και οι υπόλοιπες λεπτομέρειες (γεγονός εορτασμού, πόντοι, awards, QSLs κλπ.

Είμαι σίγουρος ότι όλοι θα δώσετε το παρών γιατί το QRV θέλει.κότσια.

Καλησπέρα,

Για τους συναδέλφους που είναι portable/mobile με v/u που διαθέτει tnc (D700,D7,Alinco κ.ο.κ) λειτουργεί στην Θεσ/νίκη το gateway για cluster/convers στο 144.625 SV2TSL-12 (1200b) και SV2TSL-7 (9600b).

Φυσικά είναι απαραίτητη η χρήση ηλεκτρονικού υπολογιστή ή pda.

Καλησπέρα,

Για τους συναδέλφους που θέλουν να έχουν επικοινωνία με μια απο τις λίγες εναπομείναντες bbs της χώρας, μπορείτε να το κάνετε αυτό χρησιμοποιώντας το gate της bbs στο 433.650, όπου επίσης λειτουργεί digipeater στο πήλιο (j44uaa).

Υπάρχει μια ομάδα που είναι πρόθυμη να δώσει σε όλους εμάς τους Ρ/Ερασιτέχνες έναν δορυφόρο LEO με γραμμικό αναμεταδότη σε Mode-B, χωρίς να μας κοστίσει απολύτως τίποτα!

Η μόνη τους προσδοκία είναι να τους βοηθήσουμε λαμβάνοντας την τηλεμετρία του δορυφόρου για τους πρώτους τρεις μήνες της "ζωής" του δορυφόρου, βοηθώντας τους στο πείραμά τους.

Ακούγεται πάρα πολύ καλό για να είναι αληθινό ;

Λοιπόν, στην πραγματικότητα όχι μόνο είναι αληθινό, αλλά ο δορυφόρος θα είναι πραγματικότητα σε 2 μόλις εβδομάδες!

Για εκείνους που δεν έχουν παρακολουθήσει την ιστορία του Defli- C3, αυτή είναι ακριβώς η απαίτηση που έχουν από εμάς οι Ολλανδοί ερευνητές που δημιούργησαν τον δορυφόρο.

Είναι η πιό γλυκιά ευκαιρία που μας προσφέρουν μετά από πολύ χρόνο, και είναι σοφό από μέρους μας να ανταποκριθούμε με συντριπτική πλειοψηφία στο κάλεσμά τους.

Εάν συνεισφέρουμε ουσιαστικά στην προσπαθεια αυτή, θα καταστήσουμε σαφές στους υπεύθυνους για την ανάπτυξη παρόμοιων δορυφορικών προγραμμάτων τύπου cubesat ότι, τοποθετώντας κάποιο ερασιτεχνικό Transponder στον δορυφόρο, μας δελεάζουν να τους βοηθήσουμε έμπρακτα στα πειράματά τους και μπορούν να είναι βέβαιοι για την πλήρη υποστήριξή μας στη συλλογή της τηλεμετρίας.

Ο Delfi-C3 μας ενδιαφέρει πολύ για άλλους δύο ακόμη λόγους. Κατ' αρχάς, είναι πρώτη φορά όπου ερασιτεχνικός εξοπλισμός μετάδοσης φωνής (Transponder) θα πετάξει μέσα σ'ένα φτηνό δορυφορικό μοντέλο, όπως είναι οι "CubeSat's".

Εάν ο Delfi αποδείξει πώς αυτό μπορεί να γίνει πράξη , σίγουρα μπορούμε να αναμενουμε και άλλες ομάδες που θα ακολουθήσουν αυτο το παράδειγμα.

Ο Delfi-C3 έχει μεγέθος 30x10cm, πρακτικά δηλαδή είναι ένα κατασκεύασμα που έχει μέγεθος 3 συνηθισμένων cubesats.
Αν ακολουθηθεί μελλοντικά η τεχνική SDT (Software-Defined Transponder) θα μπορούσε να ελαχιστοποιηθεί η μονάδα αυτή από πλευράς μεγέθους τόσο, ώστε να μπορέσουμε να τοποθετήσουμε ένα αματερικό transponder μέσα σ'έναν ακόμη μικρότερο δορυφόρο Cubesat διαστάσεων 20x10 cm,

καθιστώντας το όλο σύστημα ακόμα πιό προσιτό από πλευράς τιμής.

Αφετέρου, το πείραμα του Delfi-C3 αναφέρεται στην ηλιακή τεχνολογία, κάτι που πρέπει όλοι να ελπίσουμε ότι θα προχωρήσει θετικά για να μας δώσει περισσότερα Watts στο διάστημα.

Εάν είστε επιφυλακτικοί απέναντι στους Cubesats, σκεφτόμενοι ότι δεν είναι "πραγματικοί δορυφόροι", ή εάν όλη αυτή ιστορία σας προκαλεί μελαγχολία επειδή η δορυφορική βιομηχανία μάλλον φαίνεται οτι μας έχει εξοστρακίσει από τις εξελίξεις, ίσως θα πρέπει να σκεφθείτε ότι μας δίδεται μια εξαιρετική ευκαιρία να επαναπροσδιορίσουμε τη θέση μας στα νέα δεδομένα, τουλάχιστον όσον αφορά τους LEO.

Συνεπώς:

1. Σιγουρευτείτε ότι η εγκατάστασή σας λειτουργεί καλά για λήψη στα 2μ. (Downlink του Delfi). Είναι προφανές ότι θα χρειαστείτε μία Yagi για να συλλέξετε την τηλεμετρία. Αν έχετε δυνατότητα χρήσης ενός προενισχυτή κεραίας χαμηλού θορύβου, τοποθετείστε τον στον ιστό σας.

2. Βεβαιωθείτε ότι η souncard του υπολογιστή σας που χρησιμοποιείτε για τα αματερικά σας προγράμματα, λειτουργεί καλά. Δοκιμή μπορεί να γίνει π.χ. με το APRS.

3. Βρείτε ένα λογισμικό αποδιαμόρφωσης 1200 bpsk. Το πρόγραμμα Java που έχει αναπτυχθεί από την ομάδα του Defli, πιθανότατα θα είναι διαθέσιμο σύντομα:

http://home. casema.nl/ b.ubbels/ Warbler.htm

Αν το "κατεβάσετε", κατόπιν δοκιμάστε το με τα ακουστικά αρχεία ("Wav" files) που είναι διαθέσιμα εκεί. 'Ισως θα πρέπει να ρυθμίσετε κατάλληλα το Audio, Volume και τις λοιπές παραμέτρους του Computer σας για το καλύτερο δυνατό αποτέλεσμα.

4. (ΜΟΝΟ για έμπειρους χειριστές *Satellite Experts*) Επισκεφθείτε τα ChatRooms του Delfi-C3 cubesat κατά τη διάρκεια και μετά από την εκτοξευση, για να βοηθήσετε -αν μπορείτε, απαιτείται εμπειρία- έτσι ώστε να προσδιοριστεί ο δορυφόρος σύντομα και να ληφθεί σωστά η τηλεμετρία.

5. Συλλέξτε την τηλεμετρία! Μερικοί συνάδελφοι που έχουν μεγάλα συστήματα για δορυφορική λήψη (HEO SATs), μπορούν να προσφέρουν στο σημείο αυτό πολύ μεγάλη βοήθεια.

73, Bruce VE9QRP

2184. What is D-Star ? (TI EINAI TO D-STAR) ?

Yahoo group: thegreekhamradio
Date: 2008-04-13 05:16:58 UTC
From: sxanthop
Topic: 2184 Message: 2184

With Digital Voice & High Speed Data
What is D-STAR?

D-STAR is a new ham radio system which offers digital voice and data communication. It connects repeater sites over microwave links and the Internet and forms a wide area ham radio network. The DSTAR system provides a new capability and functionality to the ham radio world and increases the efficiency of emergency communications.
What can the D-STAR system do?
128kbps digital data and 4.8kbps digital voice communication

The D-STAR system provides not only digital voice (DV mode) communication but also digital data transmission (DD mode). It can exchange various data files such as graphics, images, etc, at 128kbps.
Your voice and data can reach further than ever

Multiple repeater links by radio and the Internet provide long distance communication to virtually anywhere.
Internet application available

The D-STAR system uses the TCP/IP protocol, so when connected with a PC, web, e-mail and other Internet applications are available.
Wireless Internet Access

No matter where you travel within the DSTAR network, you can access the web, e-mail, text messages and multimedia messages.
Independent network

In DD mode, ID-1 can transfer data directly with another ID-1 without the use of a repeater. This is useful for establishing a simple network where a D-STAR repeater does not exist or D-STAR services are not required.
Increase efficiency of emergency communications

Out in the field, fast emergency information is the key. Send pictures and weather charts to or from a remote location with the ID-1. "A picture is worth a thousand words", and efficient send/receive opens up your repeater for other emergency communications.
D-STAR system will be upgraded

The D-STAR system will be enhanced and new D-STAR radios will be released, adding features and performance to the D-STAR system.
PC remote controller supplied

PC Controller 2The controller software is supplied with the ID-1. When the ID-1 is connected to a PC via a USB cable, most functions of the ID-1 can be controlled from the PC. In DD mode operation*, you can

browse web sites and send and receive e-mail as if the ID-1 is a 10W wireless network adapter.
* Ethernet port is required for DD mode operation.

PC Controller 1
Received Callsign ExampleUseful callsign functions

The ID-1 embeds your own and the called station's callsign in your transmission. When you input "CQCQCQ" as the intended station, you can make a CQ call in the area. The calling station's ID is displayed on the received station and a newly received callsign can be automatically stored in the memory.
Digital callsign squelch (DSQL) & Digital code squelch (CSQL)

The DSQL opens the squelch, only when your callsign is received. When you share a single callsign with a club or group members, the CSQL function allows you to set a CSQL code from 00 to 99 and provides quiet stand-by while other members are talking.
EMR mode operation

When you require the attention of all stations in the area, the Enhanced Monitor Request (EMR) mode operation allows the caller to bypass the CSQL and DSQL setting of the receivers station. During EMR mode operation, all receiving stations will hear your audio, even though they may be muted.
Short message in DV mode

Short messages of 20 characters max. can be sent in DV mode operation.
Analog FM mode operation

The ID-1 also operates in analog FM mode, allowing you to communicate with an analog FM transceiver. In FM mode operation, the ID-1 has CTCSS tone squelch and pocket beep functions for quiet stand-by.
Other features

* 950bps (approx.) data communication capability in DV mode
* AFC (Automatic Frequency Control) function*
* S-meter squelch
* Break-in communication
* Programmed, memory and select mode scan
* Stand-by beep
* FM and digital voice only.

Rear View

ID-1 Rear View
D-STAR repeater system

The D-STAR repeater is composed of a repeater controller, 1.2GHz digital voice repeater, digital data repeater, 10GHz microwave relay and the Internet gateway PC. For the signal is digital data, no information is lost due to conversion and multiple repeater relays are possible in this system. The D-STAR system repeater can perform 3

relay functions as shown in the following figures.
Single repeater

The D-STAR repeater operates similar to existing analog repeater. That is a simple relay of transmit and receive communication in 1.2GHz band.

Simngle Repeater Diagram
Microwave link

When D-STAR repeaters are connected via 10GHz microwave, the D-STAR system transfers a received data to another repeater site. You can also make a CQ call to a specified repeater area.

Microwave Link Diagram
Internet gateway relay

When D-STAR repeaters are connected with the Internet gateway, the D-STAR system relays the received data over the Internet. Microwave links and Internet gateways can be combined even during one contact. So your message will get through virtually to anywhere in the D-STAR system.

Subject: ΒΟΗΘΗΣΤΕ ΤΗΝ ΑΝΔΡΙΑΝΑ - ΔΙΑΔΟΣΤΕ ΤΟ ΚΑΙ ΕΣΕΙΣ

Βοηθήστε να σώσουμε την Ανδριάνα. Η εφημερίδα «ΚΟΣΜΟΣ» (28/3/2008, τηλ. 2610 362.305) καλεί κάθε ευαισθητοποιημένο πολίτη, κάθε συνάνθρωπο να συμβάλει για την σωτηρία της Ανδριάνας Συμεωνίδη.

Η Ανδριάνα εργαζόταν ως ωρομίσθια καθηγήτρια Γερμανικής φιλολογίας όταν στα 30 της χρόνια χτυπήθηκε από την λευχαιμία (καρκίνος).

Εδώ και μήνες (από τις 14/10/2007) νοσηλεύεται σε κλινική στο Περιφερειακό Πανεπιστημιακό Νοσοκομείο Ρίου (τηλ. 2610 999.111) και υποβάλλεται σε χημειοθεραπείες.

Όπως είπαν οι γιατροί (κ. Ζούμπος, κ. Σπυριδωνίδης, κ. Συμεωνίδης) η μόνη λύση για την «οξεία μυελογενή λευχαιμία» είναι η μεταμόσχευση μυελού.

Θα πρέπει επειγόντως να μεταφερθεί στο Φράιμπουργκ της Γερμανίας.

Βρέθηκε συμβατός δότης, όμως είναι ασύμβατος σε ένα αντιγόνο και η μεταμόσχευση είναι «υψηλού κινδύνου».

Μόνο στην Γερμανία υπάρχει η υποδομή και οι συνθήκες για τέτοιου είδους επεμβάσεις.

Η επέμβαση θα πρέπει να γίνει το πολύ σ☐ ένα μήνα. Όμως απαιτούνται περίπου 250.000 ευρώ.

Η οικογένεια Συμεωνίδη βρίσκεται σε αδιέξοδο. Όλο αυτό το χρονικό διάστημα εξουθενώθηκε οικονομικά και απευθύνεται πια στους συνανθρώπους τους μέσω της εφημερίδας.

Έχει ανοιχθεί ένας προσωπικός λογαριασμός στην Εμπορική Τράπεζα στο όνομα της Ανδριάνας Συμεωνίδη: Εμπορική Τράπεζα 55350078.

Ας βοηθήσουμε όλοι, από το υστέρημά μας. Ένα μικρό ποσό από όλους μας μπορεί να σώσει μια ανθρώπινη ζωή.

Ας βοηθήσουν και οι επιχειρήσεις ή οι φορείς...»

* Διασταυρώστε πρώτα μόνοι σας την περίπτωση, πάρτε στο νοσοκομείο (ρωτήστε) και μετά ας δώσουμε ότι μπορούμε.

Καλησπέρα,

Με χαρά πληροφορήθηκε οτι συνδέθηκαν και πάλι η SV2DXC BBS (θεσσαλονίκη)με την BBS του SV1IW στην Αθήνα μέσω του digipeater του πηλίου.

Για όποιον ενδιαφέρεται για περισσότερες πληροφορίες για την SV2DXC bbs, στείλτε μου μήνυμα στο sv2evs (at)qsl.net και για την bbs της Αθήνας μάλλον στον SV1IW ή αναζητήστε πρώτα πληροφορίες στο διαδίκτυο.

ΠΡΟΣΚΛΗΤΗΡΙΟ

για Special Call SX24 . . .

```
DRM - ELI - EVR - FLR - HLK - IMA - KLK - KVL

KYK - KZN - LRS - MGN - PEL - PIE - SRS - TSL - XAN
```

Η συγκεκριμένη δραστηριότητα αναφέρεται στους 24 αιώνες από τη γέννηση του Μεγάλου Αλεξάνδρου στην Πέλλα στις αρχές Ιουλίου 356 πΧ.

Στις χιλιετίες που πέρασαν οι Μακεδόνες άφησαν τα ίχνη τους σ' όλον τον τότε γνωστό κόσμο. Στην Ελλάδα υπάρχουν Μακεδονικά Μνημεία και Τάφοι σε 17 από τους 52 νομούς της νεώτερης Ελλάδας.

Σε αυτούς θα δραστηριοποιηθούν οι τοπικοί ραδιοερασιτέχνες από τα QTHs, ενώ θα γίνει προσπάθεια να πραγματοποιηθούν και εκπομπές από Αρχαιολογικούς χώρους την τελευταία ημέρα 22/6/2008, εφόσον οι εκάστοτε Εφορίες το επιτρέψουν, σε όλες τις εκχωρημένες διαμορφώσεις και συχνότητες.

Έτσι η διάρκεια αυτής της δραστηριότητας των 17 special Call, θα είναι 9 ημέρες, όπου κάθε Special Call θα μπορεί να είναι active ΚΑΘΕ ΜΕΡΑ, ΟΛΟ ΤΟ 24ΩΡΟ με μόνη λεπτομέρεια, ένα mode ανά μπάντα, δηλαδή δε μπορεί να είναι ταυτόχρονα για παράδειγμα το SX24LRS και SSB και BPSK ή CW στα 20m.

Τα Special Calls (αλφαβητικά) είναι:

Τα μηνύματα για συμμετοχή σε αυτή τη δραστηριότητα είναι αρκετά και όπως περίμενα και κάποιες παρατηρήσεις, όπως εύλογα και σωστά έθεσε ο Σταύρος SV2RM, από την Καστοριά, που σα Νομός έχει την Μακεδονική ταυτότητα χαραγμένη από τους Μακεδονικούς Αγώνες. Το event όμως που ενεργοποιούμε, αναφέρεται σε άλλη χρονική περίοδο.

Σίγουρα ΔΕΝ θα αποκλειστεί κανένας από αυτή την εκδήλωση.

Κάθε συμμετοχή και βοήθεια είναι ευπρόσδεκτη για να συμπληρωθεί η «παρέα».

Οι εκπομπές θα γίνουν σε όλες τις εκχωρημένες διαμορφώσεις και συχνότητες για την Υπηρεσία Ρ/Ε.

Σε κάθε Νομό θα υπάρχει ένας «επιλοχίας», που θα συντονίζει τις «υπηρεσίες» για όλη τη διάρκεια της δραστηριότητας, έτσι ώστε να «τρέχει» συνέχεια (όσο είναι εφικτό) το διακριτικό του Νομού καθ' όλο το 24ωρο,, προσέχοντας να μην είναι στην ίδια μπάντα ταυτόχρονα δύο με ίδιο ή διαφορετικό mode.

’λλη σπουδαιότερη ευθύνη, είναι η συλλογή των logs, που θα ΠΡΕΠΕΙ να είναι ΜΟΝΟ σε ηλεκτρονική μορφή (πχ. sx24srs.adi) και θα πρέπει να αποσταλεί σύντομα στον QSL manager.

Ακολουθεί ένας πίνακας παράδειγμα, για τη σωστή «αλυσίδα» των χειριστών, οι οποίοι θα πρέπει να δηλώσουν στον «επιλοχία» τις συνθήκες και τα modes εκπομπής, όπως και τις ώρες λειτουργίας που θα πρέπει να τηρηθούν σχολαστικά απ' όλους.

Θα πρέπει επίσης να υπάρχουν συχνότητες (simplex & repeaters) επικοινωνίας, όπως επίσης και κινητά τηλ. Επικοινωνίας.

Όλα τα στοιχεία κάθε «επιλοχία» θα είναι και στη διάθεση του QSL manager.

Οι συνάδελφοι που θα συμμετάσχουν σε αυτή τη δραστηριότητα θα γνωρίζουν λεπτομέρειες για το event του special call δίνοντας πληροφορίες γι' αυτό, όπως επίσης και για τα awards. Φυσικά και όλοι οι εμπλεκόμενοι θα μνημονευτούν στα δημοσιεύματα έντυπων, ηλεκτρονικών και τηλεοπτικών μέσων, όπως επίσης και θα τους αποσταλούν και «Ενθύμημα SX24MACEDONIA» .

Ήδη στο www.qrz.com υπάρχουν οι καταχωρήσεις με όλα τα Special Calls, με περιληπτική αναφορά της δραστηριότητας, log check, earth google locator και link στην κεντρική web page http://www.sx24mace donia.gr , όπως επίσης, σύντομα θα ενημερωθούν όλα τα διεθνή Radio Clubs για τη δραστηριότητα, αυτή με όλες τις λεπτομέρειες.

Θα αποσταλούν όλες οι QSL cards αμέσως, μέσω του Ελληνικού (SV) Bureau, ενώ θα δοθούν τρία είδη βραβείων (Awards), με έξοδα αποστολής 10?.

Κλάση
Νομοί
Βραβείο
Καρφίτσα
DVD

SILVER
5 ~ 9

BRONZE
10 ~14

GOLDEN
15 ~17

Τρεις Νομοί θα προσμετρώνται διπλά σαν «joker». Της Ημαθίας (Τάφος Φιλίππου Β'), της Πέλλας (γενέτειρας Μ.Αλεξάνδρου) και Θεσσαλονίκης (αδελφής Μ. Αλεξάνδρου).

Οι κάρτες στην μία όψη θα απεικονίζουν αρχαιολογικά θέματα και από τους 17 Νομούς ενώ στην πίσω, θα αναφέρονται τα στατιστικά στοιχεία της δραστηριότητας SX24. και φυσικά σε label τα στοιχεία των QSOs.

Τα τρία Βραβεία θα έχουν την ίδια απεικόνιση.

Το SILVER A4 ασπρόμαυρο, το BRONZE σε Α4 έγχρωμο και το GOLDEN A? έγχρωμο.

Στόχος είναι να δοθούν σε όλους, ανεξαρτήτως των special calls που θα κάνουν, και οι καρφίτσες με το Αστέρι της Βεργίνας και το DVD με θέμα τη Μακεδονία. Αυτό θα εξαρτηθεί από τον αριθμό των Βραβείων και των Προσφορών-Δωρεών από την Πολιτεία και τους ιδιώτες.

Στην προσπάθεια οργάνωσης αυτής της δραστηριότητας, σίγουρα κάτι θα παραλείφθηκε, κάτι θα έγινε λάθος. Εάν έχετε κάτι να παρατηρήσετε, να προσθέσετε να συμβουλέψετε, παρακαλώ επικοινωνήστε μαζί μου.

Με μεγάλη χαρά λαμβάνω καθημερινά μηνύματα ενδιαφέροντος για
συμμετοχή στο SX24... σχδεδόν από παντού.

Μέχρι τις 22/5 θα πρέπει να στείλω στο Υ.Μ.Ε. τον κατάλογο με τους
χειριστές. Ο χρόνος δεν είναι πολύς γιατί προϋποθέτει συνεννοήσεις
και προετοιμασία σε κάθε επίπεδο.

Ευχαριστώ τον HOA που με διόρθωσε στη διαβάθμιση των awards και αν
κάποιος αντιληφθεί κάτι λάθος ή έχει καμμιά ιδέα ευχαρίστως να τη
συζητήσουμε.

Για την αποφυγή παρερμηνειών και παρεξηγήσεων μερικά suffixτου
SX24... που τυχαίνει να είναι και suffix κάποιου συλλόγου, δεν έγινε
με σκοπό την αποκλειστική πρρόσκληση μόνο αυτού του συλλόγου. Απλά η
συγκεκριμένη συντόμευση αντιπροσωπεύει καλύτερα το Νομό. Για
παράδειγμα το SX24TSL δεν είναι δεσμευτικό και αποκλειστικό για την
ΕΡΒΕ (SZ2TSL), αντίθετα, όπως διατυπώθηκε από την πρώτη φορά στο
SVham και σε άλλα παρεμφερή groups, η ΠΡΟΣΚΛΗΣΗ είναι ανοικτή προς
όλους όσους έχουν QTH στους προαναφερόμενους Νομούς.

Θα χρειαστούμε όμως και τη βοήθεια και από άλλους, κι ας μην είναι
από τους 17 αυτούς Νομούς. Παράδειγμα η Χαλκιδική, όπου μόνο δύο
εξέφρασαν ενδιαφέρον. Μικρός αριθμός, οπότε θα δοθεί προτεραιότητα σε
συμμετοχές joker.

Οι χρόνος λιγοστεύει, γι΄αυτό QRQ..

Delfi-C3 : ευχάριστα νέα !
Posted by: "SV1BSX" sv1bsx@yahoo.gr sv1bsx
Sun May 18, 2008 8:37 am (PDT)
Χαιρετώ άπαντες,

πολύ ευχάριστα νέα διαβάσαμε για τον Delfi-C3 :

1.Κατά την διάρκεια της διέλευσης υπεράνω του σταθμού ελέγχου στην
Ολλανδία
(15-5-2008 @ 10:40 UTC), πραγματοποιήθηκε μικρής διάρκεια δοκιμή του
transponder
με το οποίο είναι εφοδιασμένος ο δορυφόρος.
Το αποτέλεσμα ήταν εξαιρετικά επιτυχές ! Ελήφθη άψογα το CW beacon
αλλά το σπουδαιότερο:
έγινε και δοκιμή του Uplink-Downlink σε SSB !

Το τεστ μπορείτε να το ακούσετε στο ακόλουθο URL:

```
http://www.delfic3. nl/photoblog/ wp-content/ uploads/2008/ 05/pe4wj_
transponder_ test.mp3
```

2. Οι Ολλανδοί ευχαριστούν θερμά όλους όσους έστειλαν τηλεμετρία του
δορυφόρου.
Η ανταπόκριση των Ρ/Ε παγκοσμίως ξεπέρασε κάθε προηγούμενο, καθότι
εστάλησαν
στον κεντρικό server περισσότερα από .... 130.000 AX.25 frames!

Πολύ ευχάριστο νέο η συμμετοχή 2 Ελλήνων Ρ/Ε στην προσπάθεια αυτή:
του Κώστα SW1IXP και του Δημήτρη, SW1JGW. Μάλιστα ο Κώστας έστελνε
καθημερινές
τηλεμετρίες στον server, βοηθώντας πάρα πολύ του Ολλανδούς στο δύσκολο
έργο των
πρώτων ημερών.
Σε συνομιλία που είχα με κάποιον Ολλανδό φίλο μου ανέφερε
χαρακτηριστικά ότι,
η αποστολή τηλεμετρίας από την Ελλάδα έχει ιδιαίτερη σημασία, καθότι
είμαστε το
νοτιο-ανατολικότερο σημείο της Ευρώπης και όταν ο δορυφόρος αρχίζει ν'
ανατέλλει από
τον Νότο (ή Ν-Α), κανένας άλλος Ευρωπαικός σταθμός δεν λαμβάνει τον
δορυφόρο.

ΜΠΡΑΒΟ σας λοιπόν παιδιά για την πολύ ωραία προσπάθεια !

3. Ο Delfi-C3 σύντομα θα "βαφτιστεί" από την AMSAT σαν OSCAR (Orbital
Satellite

Carrying Amateur Radio), οπότε θα ανήκει πλέον και επίσημα στην
οικογένεια των
ραδιοερασιτεχνικών δορυφόρων.
Το όνομα αυτού DO-64, ακρωνύμιο του Delfi-C3 OSCAR 64 (ή του
Dutch-OSCAR 64)

73, Μάκης SV1BSX

???????????? sv1dpi

QUOTE
FROM EI3IO,G3SDL

I'd like to discuss a few additional issues in respect of some of the information already provided. Firstly the DXCC list itself is a political list; just look at the principal requirements for DXCC status; UN recognition, ITU call-sign series or inclusion in (a) the U.S. Department of State's list of "Dependencies and Areas of Special Sovereignty" as having a local "Administrative Center," or (b) the United Nations list of "Non-Self-Governing Territories. Now what constitutes inclusion on the State Department's List, as TRNC would seem to qualify? - the politics and foreign policy of a powerful, important and sovereign nation.

Now lets look at this "illegal" call-sign prefix 1B. The ITU Radio Regulations (Article 19 and Appendix 42) do not provide for any call-sign which starts with the figure 0 or 1 or where a single letter followed by a figure forms the national identifier; in this case the second character is never 0 or 1. There is therefore a clear problem for 1B BUT now lets consider some call-signs which we know and love, which are also a problem but no one raises even a whisper of concern about them. 1A - a DXCC entity listed as an unofficial call-sign in the DXCC list - note in this case the word 'illegal' or 'unauthorised' call-sign is not used. Then there is S0 another disputed territory but not as disputed as TRNC; again it is not using a call-sign series conforming to the Radio Regulations of the ITU. S0 is also listed as an unofficial call-sign in the DXCC list. So are some of us not being just a little hypocritical when complaining about the use of 1B by TRNC as an illegal call-sign?

In terms of problems of recognition TRNC has similar problems to Kosovo, Palestine, Taiwan and Western Sahara. In amateur circles we've already seen stirrings of discontent with the disputed (by some) independence of Kosovo in recent times. However in the case of TRNC, no one can dispute that the United Nations Security Council issued two

resolutions (541 and 550) proclaiming that the Turkish Cypriot declaration of independence was illegal and requested that no other sovereign state should recognise the legality of the declaration and asked for its withdrawal.

So once we get into the world of politics and human relations things get blurred. Let us accept there are always international political problems in the World, whether its the politicisation of Antartica, who owns the Falklands/Malvinas, whether Macedonia should have a new name or whether the British Isles should be called the Western European Isles.

I for one wish the 1B licensees well - I understand that they are operating under difficult conditions but they are operating in accordance with the regulations of the State in which they live. I do not think that any person living in any of the disputed territories around the World should be denied the fun and enjoyment of operating an amateur radio station. I also understand the deep rooted problems between the two Cypriot communities but these need to be solved in an appropriate way through negotiation, NOT by invoking emotive statements in amateur radio news groups and email lists.

Best 73s to all
Dave EI3IO, G3SDL
soyer.ecesoy@...

??? ? ????????

DXCC rules prohibit recognition of states that are in rebellion. Those rules have denied DXCC accreditation to operations in Karen State (Burma/Myanmar), by rebels in Cambodia (XU1SS), rebels in Chechnya and many others over the years. TRNC is such a "rebel" area - in this case one with a local government established by action of the military of a foreign state in opposition to the internationally recognized government of Cyprus. TRNC is, in effect occupied territory. If TRNC had any legitimacy, ITU would issue a callsign block as they have for other entities (Palestine, Vatican, etc.).

Instead, TRNC receives as much status and legitimacy as a would be given to "Little Havana" in Miami if the Castro regime in Cuba were to declare it "independent of the United States."

As to some of the other "entities" questioned:

S0 Western Sahara is on the UN list of Self-Governing Territories

1A SMOM is a "legacy" entity that was on the DXCC list prior to the last rules update. Much like The Spratleys,

Scarborough Reef, Mt. Athos, etc. it would probably not be
eligible for "entity" status under the current rules

BV Taiwan, VR Hong Kong and XX Macau are all "legacy" entities
from the pre-2000 DXCC list. Hong Kong and Macau are both
on the US Department of State list of dependencies. Taiwan
is recognized on the Department of State "Independent States
in the World" list. Hong Kong and Macau both qualify under
current rules and it is debatable whether the "Independent
States of the World" list should be added to the DXCC rules
as another option for qualification.

Any entity that is created on the soil of and declared "independent"
from an internationally recognized government by the action of an
outside power as in the case of TRNC has no legitimacy in the
international community. For the Turkish government to promote
an "independent" TRNC while suppressing the legitimate desires of
the Kurds for self-determination is a crime against humanity

2214. Lighthouse Activation Trikeri - SY4LH

Yahoo group: thegreekhamradio
Date: 2008-06-06 07:56:23 UTC
From: Costas J. Dovas - SV4FFL
Topic: 2214   Message: 2214

The following Greek radio-amateurs

SV4AAQ Dimitris
SV4AFY Katerina

SV4FFF Kostas
SV4FFK Thanasis

SV4FFL Kostas
SV4JYI Panagiotis

SV4LAX George

will activate the Trikeri Lighthouse, with identification number ARLHS GRE-128.

Along with the expedition operators, the following radio-amateurs will participate for one day out of the two planned for the expedition:

SV4FFB John
SV4FFE George

SV4FFI John
SV4JYK Sotiris

SW4JYL Nikos
SW4LAD Dimitris

It is the first time that the specific lighthouse will be activated,

for radio-amateur purposes!!!

The Trikeri Lighthouse activation will take place during the first weekend of

July (5 & 6 July 2008), with the special callsign SY4LH.

The lighthouse is situated on Point Kavoulia, about a ten-minute hike from the Geroplina Settlement of Trikeri, in the Gulf of Pagasetikos.

Locator: 39.05.77N 23.03.05E

Gridsquare: KM19MC

you will be able to hear us on all bands, 160m-2m in such modes as

CW, SSB, PSK, RTTY, SSTV.

Initial estimates on the equipment status, have come to

HF Rigs: ICOM IC-737A, ICOM IC-706MKIIG, ICOM IC- 725, YAESU FT-757GX

VHF Rigs: ICOM IC-910 (for VHF use, in order to enable colleagues to run up points for the Aegean VHF Contest, that will be taking place that weekend),

Kenwood D710 (APRS), Kenwood D700 (DX Cluster),

Power Supply Units: 2 X Power Generators SGC950, Samlex 25A, Feroe 30A, Amarad 50A

Antennas: Pair HF Extended Double Zeppelin 20+20m with open wire 450 Ohm,

Single Dipole 40m (G5RV), single Vertical HF SpiderBeam 18m Fiberglass Pole,

Pair Ant. Coupler RUN4 1KW, single Ant. Coupler 200w, 3 PC with Logger32.

QSL Manager: SV4FFK

Website Info: www.sz4srm.gr/SY4LH

Should you require further information or clarification, please contact Costas SV4FFL on: +30 6945 886306 or via email: sv4ffl(at)raag.org

Date: 2008-06-06 07:56:26 UTC
From: Costas J. Dovas - SV4FFL
Topic: 2215 Message: 2215

Οι παρακάτω Έλληνες Ραδιοερασιτέχνες:

SV4AAQ Δημήτρης
SV4AFY Κατερίνα

SV4FFF Κώστας
SV4FFK Θανάσης

SV4FFL Κώστας
SV4JYI Παναγιώτης

SV4LAX Γιώργος

θα ενεργοποιήσουν τον Φάρο Τρίκερι με αριθμό αναγνώρισης ARLHS GRE-128.

Εκτός από τους χειριστές της αποστολής, σε μία από τις δύο ημέρες της dxpedition θα παραβρεθούν και οι:

SV4FFB Γιάννης
SV4FFE Γιώργος

SV4FFI Γιάννης
SV4JYK Σωτήρης

SW4JYL Νίκος
SW4LAD Δημήτρης

Είναι η πρώτη φορά που ενεργοποιείται ο συγκεκριμένος φάρος για ραδιοερασιτεχνικούς σκοπούς !!!

Η ενεργοποίηση του Φάρου Τρίκερι θα λάβει μέρος το πρώτο Σαββατοκύριακο του Ιουλίου (5-6 Ιουλίου 2008) με το ειδικό διακριτικό (Special Call) SY4LH

Ο Φάρος βρίσκεται στο ακρωτήρι Καβούλια σε απόσταση περίπου 10 λεπτών πεζοπορία από τον οικισμό Γεροπλίνα Τρικέρων στον Παγασητικό Κόλπο.

`Locator: 39.05.77N 23.03.05E`

`Gridsquare: KM19MC`

Θα μπορείτε να μας ακούσετε σε όλες τις μπάντες από 160m-2m σε modes όπως

`CW, SSB, PSK, RTTY, SSTV.`

Ο εξοπλισμός που αρχικά έχει υπολογιστεί θα αποτελείται από

HF Rigs: ICOM IC-737A, ICOM IC-706MKIIG, ICOM IC- 725, YAESU FT-757GX

VHF Rigs: ICOM IC-910 (για VHF χρήση προκειμένου να δώσουμε πόντους στους συναδέλφους που θα τρέξουν το Aegean VHF Contest αυτό το Σαββατοκύριακο),

Kenwood D710 (για APRS), Kenwood D700 (για Cluster),

Power Supply Units: 2 X H/Z SGC 950, Samlex 25A, Feroe 30A, Amarad 50A.

Antennas: Δύο HF Extended Double Zeppelin 20+20m with open wire 450 Ohm,

Ένα Dipole 40m (G5RV), μία Vertical HF SpiderBeam 18m Fiberglass Pole,

δύο Ant. Coupler RUN4 1KW και ένα Ant. Coupler 200w, 3 PC με το Logger32.

QSL Manager: SV4FFK

Website Info: www.sz4srm.gr/SY4LH

2228. LY755 from Lithuania will operate on the air

Yahoo group: thegreekhamradio
Date: 2008-07-03 05:56:21 UTC
From: Costas J. Dovas - SV4FFL
Topic: 2228   Message: 2228

Dear Sirs,
I would like to ask you to distribute this information about special event stations in Lithuania to your colleagues in your country.

We are glad to announce, that 8 special event stations with prefix LY755 from Lithuania will operate on the air
from July 6 till August 6, 2008 to celebrate State Day and the 755th anniversary Crowning of Lithuanian King Mindaugas.
July 6th, The Lithuanian State`s day (Mindaugas coronation day)
The 6th of July is the State Day, Crowning of Lithuanian King Mindaugas.
The state of Lithuania was created by King Mindaugas in the 13th century,
namely building of political, economic and cultural bridges to modern Europe.
After receiving Baptism from the Pope of Rome in 1253, King Mindaugas was the first leader of coutry to direct the nation to Western Europe.

Wed Jul 2, 2008 3:03 pm (PDT)
Με τους περισσότερους που έχω μιλήσει, είχαμε συνενννοηθεί για μια
συνάντηση ή καλύτερα "ΑΝΤΑΜΩΜΑ" που ακούγεται και καλύτερα, στο
HamFest της Λάρισας το Σεπτέμβριο, όπως γίνεται τα τελευταία χρόνια.
Η τοποθεσία βολύει την πλειοψηφία και ο χώρος είναι ιδανικός.

Δυστυχώς όμως το ΔΣ της Ε.Ρ.ΘΕ. αποφάσισε να το διοργανώσει την
Κυριακή στις 7 Σεπτεμβρίου που συμπίπτει με το Σαββατοκύριακο του
Field Day 2008.

Σίγουρα έχουν σοβαρούς λόγους που το αποφάσισαν αυτό, αλλά κατ' εμέ
προτεραιότητα έχουν άλλα και κυρίως ΑΜΑΤΕΡΙΚΟΥ περιεχομένου. ΜΕτά από
συζήτηση με τον πρόεδρο της SZ4THE, Βασίλη SV4IKL, δε νομίζω να
αλλάξουν ημερομηνία, οπότε θα πρέπει να βρεθεί μία άλλη ευκαιρία,
Πολύ πιθανόν στο HamFest της Θεσσαλονίκης. Γι' αυτ'ο ακόμα δεν έχει
ανακοινωθεί ακόμα τίποτα.

Πέρυσι το 2007, οι περισσότεροι θα θυμάστε ότι το field day 2007
μεταφέρθηκε για τον Οκτώβριο 2007 (λόγω πυρκαϊών στο Νομό Ηλίας), και
το "τρέχαμε" κυριολεκτικά μόνοι μας χωρίς να έχει κανένα ενδιαφέρον.
Η όρεξη λοιπόν για εξόρμηση στα χωράφια είναι περίσσια.
Στις 7 όμως Σεπτεμβρίου εγώ σίγουρα θα είμαι σε κάποιο field και απ'
ότι ξέρω και οι περισσότεροι, είτε σύλλογοι είτε μεμονομένοι
συνάδελφοι για "επιστροφή στη φύση".

Και μια και αναφέρομαι σε field day, ΠΡΟΤΕΙΝΩ και περιμένω προτάσεις
απόψεις και συμμετοχές γι' αυτό,

ΤΑ SX24... Special Calls και τα 21 (black-jack) να ξαναβγούν στον αέρα
το 2009, αλλά για 48 ώρες, κατά τη διάρκεια του Field Day 2009,
portable (ή κοντά) στους αρχαιολογικούς χώρους των 21 Νομών όπου
βρέθηκαν Μακεδονικά μνημεία.

Ο χρόνος που μεσολαβεί είναι αρκετός για συζητήσεις, προτάσεις και
γενικότερα αλή οργάνωση, άλλης μια επιτυχημένης expedition.

ΠΡΟΣΚΛΗΣΗ στο SX2FRB
Posted by: "SV2GWY" jim@nrg.com.gr sv2gwy
Fri Jul 4, 2008 12:55 pm (PDT)
Όλοι σίγουρα θα έχετε υπ' όψη σας ότι την επομενη Κυριακή 13/7/2008 θα ενεργοποιηθούν 8 σημεία στην Ελλάδα και ένα στην Τουρκία για την αναβίωση των "Φρυκτωριών" για την ’λωση της Τροίας, με την ευκαιρία συμπλήρωσης μισού αιώνα από την ίδρυση της Ε.Ε.Ρ.

Συγχαρητήρια στο Γιάννη SV1BJY (2μίδης) που το οργανώνει, συγχαρητήρια στην Ένωση που σηρίζει τέτοιες αποστολές και εύχομαι να τα 100στήσει.

Η κουβέντα μου με το Γιάννη για τις Φρυκτωρίες ξεκίνησε πριν από ένα χρόνο περίπου και έτσι μου ανέθεσε το διιακριτικό SX2FRB/A. Δυστυχώς όμως το "/A" δεν επετεύχθει όπως ήταν αναμενόμενο. Ή μάλλον ευτυχώς, γιατί 5,5 ώρες ανάβαση με κλίση 40' για 2033μ μέχρι την κορυφή του ’θωνα θα ήταν περιπέτεια, και δεν υπολογίζω και το χρόνο/ταλαιπωρία μετάβασης..

Το διακριτικό όμως έπρεπε να παραμείνει στη Χαλκιδική και όχι μακριά από το ’γιο Όρος. Έτσι Μετά από 2 απόπειρες επικοινωνίας σε διάφορες θέσεις, με καταστάσεις camel trophy στη Σιθωνία, επιτέυχθηκε επικοινωνία με Αθήνα με ισχύ μόνο 6W και σε απόσταση 39Km από το "/A".

Όσοι λοιπόν είστε "πέριξ" με ASL=0 ή θέλετε να έρθετε, θα μας βρείτε στις παρακάτω συντεταγμένες: N39,58,32 E023,57,48 GL:KM19XX. Η ΄πρόσβαση είναι σχετικά εύκολη αρκεί να μην είναι "χαμηλωμένο" το όχημά σας.

Ήδη, υπάρχει beacon στο APRS, ενώ σύντομα θα είναι και στο google earth στο link: http://aprs. fi/?call= sx2frb&mt= m&z=11&timerange =21600

Το SX2FRB team θε ξεκινήσει από Θεσσαλονίκη 0¨7:30~08:00, και σ' όλη τη διάρκεια της δραστηριότητας θα είμαστε QRV R5 και 144.575 CT:88,5. Περισσότερες πληροφοριές στο skype-ooVoo ID: sv2gwy, και στο email: sv2gwy@sx24macedoni a.gr

Η βοήθεια και η παρέα όλων, είναι καλοδεχούμενη,

για το SX2FRB,

`sv2gwy (Demetrios)`

PS: Το ΚΨΜ την Κυριακή θα είναι κλειστό, οπότε φροντίστε για υγρές και στερεές προμήθειες.

PS. Το 2μίδης = Διομίδης (επίτηδες το η = ι) που αν και Αχαιός κατά βάθος ήταν Πόντιος, όπως και άλλες μεγάλες προσωπικότητες της Αρχαίας

Ελλάδας, όπως ο Αρχιμίδης, ο Αριστίδης, ο Παχατουρίδης και "πολλά άλλα τεμέτερον παιδία"

ΔΕΛΤΙΟ ΤΥΠΟΥ

Αναβίωση των αρχαιοελληνικών δικτύων τηλεπικοινωνίας (Φρυκτωριών) από ραδιοερασιτέχνες

Την Κυριακή 13 Ιουλίου 2008 ραδιοερασιτέχνες απ☐ όλη την Ελλάδα θα συνδέσουν τηλεπικοινωνιακά την Τροία με τις Μυκήνες μέσω ραδιοερασιτεχνικών ασυρμάτων. Από τις ίδιες εκείνες τις κορυφές βουνών, που στην αρχαία Ελληνική Γραμματεία αναφέρεται ότι χρησιμοποιήθηκαν για να μεταφέρουν την είδηση του τέλους του Τρωικού πολέμου με χρήση φωτεινών σημάτων, από κορυφή σε κορυφή μέχρι τις Μυκήνες, οι ραδιοερασιτέχνες θα μεταδώσουν ένα μήνυμα ειρήνης και φιλίας των λαών, κάνοντας γνωστό στην ευρύτερη κοινωνία τον ραδιοερασιτεχνισμό ως μέσο προαγωγής αξιών που στηρίζουν διαχρονικά τον πολιτισμό μας.
Η εκδήλωση διοργανώνεται από την Ένωση Ελλήνων Ραδιοερασιτεχνών επ΄ευκαιρία των πενήντα χρόνων από την ίδρυσή της (1958-2008) και θα πραγματοποιηθεί με τη συνεργασία Ελλήνων και Τούρκων ραδιοερασιτεχνών.
Περισσότερες πληροφορίες μπορείτε να βρείτε στην ιστοσελίδα
http://www.raag.org/fryktories.htm

Για την Ε.Ε.Ρ.
Μανώλης Δαρκαδάκης, Πρόεδρος Δ.Σ. 6974-914.725

Το κείμενο του Αισχύλου «Αγαμέμνων», πάνω στο οποίο στηρίχτηκε ο σχεδιασμός της εκδήλωσης

Το απόσπασμα που ακολουθεί είναι η περιγραφή της μετάδοσης του μηνύματος. Η Κλυταιμνήστρα εξηγεί πώς έμαθε την πτώση της Τροίας:

« Δυνατή φωτιά άναψαν στην κορυφή της Ίδας και πολλές φωτιές μετά μας έφεραν διαδοχικά το μήνυμα: Από την Ίδα το μήνυμα της φλόγας πήγε στον κάβο Ερμή της Λήμνου και τρίτη η ψηλή κορυφή του ’θωνα δέχθηκε το φως. Με δύναμη η φλόγα γεφύρωσε το πέλαγος και έφθασε στις Βίγλες του Μακίστου, στην Εύβοια. Οι φρουροί προώθησαν το μήνυμα στον Εύριπο, στους ανθρώπους πάνω στο Μεσσάπιο. Κι αυτοί έβαλαν φωτιά σ' ένα σωρό με ρείκια και πάνω από τους κάμπους του Ασωπού έστειλαν το μήνυμα στην κορυφή του Κιθαιρώνα. Κι από κει πάλι με ζήλο πολύ προώθησαν το μήνυμα και το έστειλαν πάνω από την Γοργώπιδα λίμνη στο Αιγίπλαγκτο όρος. Και η φλόγα πέρασε τον Σαρωνικό και έφθασε σαν κεραυνός στις κορυφές του Αραχναίου και τέλος εδώ το λάβαμε, στων Ατρειδών τις στέγες, το φως αυτό, που προπάππος του είναι η φωτιά της Ίδας »

.......Auto merged post: sv1eex πρόσθεσε 1 λεπτά και 1 δευτερόλεπτα αργότερα ....

Αγαπητοί φίλοι και συνάδελφοι.

Θα βρίσκομαι στην φρυκτωρία του όρους Κιθαιρώνας στην Αν.Αττική. .

Οι εκπομπές μας θα ξεκινήσουν στις 10 το πρωί το πρωί του Σαββάτου και θα συνεχιστούν όλο το Σ/Κ.

Θα λάβουμε επίσης μέρος και στο IARU HF contest με το ειδικό διακριτικό και θα είναι δυνατό να μας ακούσετε σε όλες τις ραδιοερασιτεχνικές συχνότητες από 80μ-70 εκ + θα ακουστούμε σε LEO ραδιοερασιτεχνικούς δορυφόρους.

Κάνοντας επαφή με κάποιον σταθμό μας, σκεφθείτε: Στην ίδια θέση πριν 3.200 χρόνια κάποιος επικοινωνούσε με πιο απλά μέσα, μεταδίδοντας το τέλος του πολέμου και την επιστροφή των Ηρώων

Περισσότερα στο http://sx1fre.blogspot.com

Θα χαρώ να σας ακούσω από τον αέρα.

GREEK LIGHTHOUSES AWARD (GLHA)
Posted by: "PAVLIDIS SAVAS" sv2ael@yahoo.com SV2AEL
Mon Jul 21, 2008 8:43 am (PDT)
Επιτέλους ένας ακόμη στόχος έγινε πραγματικότητα.
Το ΒΡΑΒΕΙΟ ΜΕ ΤΟΥΣ ΕΛΛΗΝΙΚΟΥΣ ΦΑΡΟΥΣ είναι
γεγονός.

Με την βοήθεια φίλων και συνεργατών από το
Northern Greece Contest Team to GREEK LIGHTHOUSES AWARD μπορεί να
αποκτηθεί πλέον από Ελληνες και ξένους
ραδιοερασιτέχνες .
Είναι ένα δύσκολο και ταυτόχρονα εκλυστικό βραβείο
που σκοπό έχει να προβάλλει και να αναδείξει
τις ραδιοερασιτεχνικές δραστηριότητες από το σημαντικό
κληροδότημα της σύγχρονης Ελληνικής Ναυτικής Ιστορίας
, τους φάρους των Ελληνικών ακτών.
Η 10ετής τουλάχιστον ενασχόληση μου με τους
φάρους και έχοντας λάβει μέρος σε 3 διεθνή
συνέδρια με θέμα τους Ελληνικούς φάρους καθώς
και η πρόσφατη συνεργασία μου με το Αριστοτέλειο
Πανεπιστήμιο για την δημιουργία της Εκθεσης και
του Βιβλίου "Πέτρινοι Φάροι" είναι για μένα
πρόκληση να προσπαθήσω να δημιουργήσω συνθήκες
τέτοιες ώστε να δραστηριοποιηθούν αν όχι όλοι ,
όσο γίνεται περισσότεροι Ελληνικοί φάροι.
Οσοι φίλοι συναδελφοι ραδιοερασιτέχνες θέλουν να
εκπέμψουν από κάποιον φάρο μην διστάσουν να με
παρουν τηλέφωνο για να τους δώσω ότι βοήθεια
μπορώ τόσο σε χρηστικό επίπεδο (πληροφορίες για
τον φάρο , για την άδεια κ.λ.π.) όσο και
σε επίπεδο marketing (διαφήμιση, προβολή της εκδήλωσης
κ.λ.π.)

Παράλληλα μέσα από την ιστοσελίδα του βραβείου

```
GREEK LIGHTHOUSES AWARD (GLHA)

http://www.qsl. net/sv2ael/ glha/rules. htm
<http://www.qsl. net/sv2ael/ glha/rules. htm>
```

έχει αρχίσει μιά προσπάθεια καταγραφής όλων των
ραδιοερασιτεχνικών δραστηριοτήτων που έχουν γίνει σε
Ελληνικούς Φάρους ,έτσι ώστε να υπάρχει μια βάση
δεδομένων με καταγραφή των οργανωμενων
ραδιοερασιτεχνικών ομάδων αλλά και μεμονομένων

ραδιοερασιτεχνών που έκαναν active κάποιον φάρο.
Ελπίζω ότι ο μεγάλος σύλλογος του κέντρου αυτή
την φορά δεν θα μας αντιγράψει (όπως έγινε με
το βραβείο του ΜΕΓΑΛΟΥ ΑΛΕΞΑΝΔΡΟΥ και φθάσαμε
να έχουμε δύο (!!) βραβεια ΜΕΓΑΛΟΥ ΑΛΕΞΑΝΔΡΟΥ γιατί
κάποιοι αρέσκονται μόνον στο να αντιγράφουν...)
αλλά αντίθετα θα στηρίξει αυτή την προσπάθεια
βοηθώντας να δημιουργηθεί αυτή η βάση δεδομένων
με τις Δραστηριότητες από τους Ελληνικούς Φάρους.

Καλο καλοκαίρι σε όλους και καλά dx

Topic: 2243   Message: 2243

Καλημέρα. Αγόρασα ένα pda/κινητό και έχει και gps επάνω. Δίνω της συντεταγμένες στο google earth με τον τρόπο που έχει το destinator επάνω (xx.xxxxN xx.xxxxE) και με βγάζει ακριβώς στο σπίτι μου (άντε να με βγάζει με απόκλιση +- 1 τετράγωνο).

Χρησιμοποιώντας τώρα την αντιστοιχία για να βάλω τις σωστές (πλέον)συντεταγμένες μου στο UI-View, με βγάζει εντελώς εκτός από την τοποθεσία μου,βάση των χαρτών που έχω περασμένους.

Απορία: Είναι σωστά τα νούμερα που μου δίνει το Google Earth σε μορφή xx.xx.xxN xx.xx.xxE ?

Field Day 2008
Posted by: "Costas J. Dovas - SV4FFL" sv4ffl@raag.org magnesia_hams
Sun Aug 10, 2008 11:43 pm (PDT)
Αγαπητοί φίλοι

Οι κανόνες του Field day έχουν ήδη αλλάξει. Δείτε το κείμενο που ακολουθεί. Σχετική δημοσίευση υπάρχει και στο SV-NEA που κυκλοφόρησε εδώ και λίγες μέρες. Παρακολουθείτε τις ιστοσελίδες της Ε.Ε.Ρ. για τυχόν ενημερώσεις ...

`Field Day 2008`

Σκοπός του Field Day είναι η επαφή των διαγωνιζομένων με σταθμούς εντός ή εκτός Ελλάδας, σε όλες τις μπάντες από τα 160 m μέχρι και

τα 70 cm, με τροφοδοσία εκτός δικτύου ΔΕΗ, με απώτερο στόχο την εκπαίδευσή τους στη λειτουργία και το χειρισμό του

ραδιοερασιτεχνικού τους σταθμού κάτω από συνθήκες φορητής ή κινητής εγκατάστασης.

Κανονισμοί:

Στο διαγωνισμό μπορούν να συμμετάσχουν μόνο Έλληνες ραδιοερασιτέχνες. Ξένοι ραδιοερασιτέχνες μπορούν να επικοινωνούν με

ελληνικούς σταθμούς, για να δίνουν βαθμούς, αλλά δεν μπορούν να διαγωνιστούν.
Στόχος είναι η επαφή με όσο το δυνατόν περισσότερους σταθμούς εντός ή εκτός Ελλάδος, σε όλες τις μπάντες από 160 m μέχρι και 70 cm (εξαιρούνται οι μπάντες WARC 30,17,12 m), με φορητό ή κινητό ραδιοερασιτεχνικό σταθμό, με τροφοδοσία εκτός δικτύου ΔΕΗ και σε απόσταση τουλάχιστον ενός χιλιομέτρου από τη μόνιμη ή εναλλακτική θέση του σταθμού τους .

Ημερομηνίες / Ώρες διεξαγωγής:
Από 1300 GMT του Σαββάτου 06/09/2008 μέχρι 1259 GMT της Κυριακής 07/09/2008.

Προσοχή να χρησιμοποιούνται μόνο οι προτεινόμενες από την IARU περιοχές για contest σε κάθε μπάντα!

Τύποι εκπομπής:
SSB ή CW

Κατηγορίες Συμμετοχής:

Κατηγορία Α: Όλες οι μπάντες HF εκτός από τις μπάντες WARC

Α1 Ένας σταθμός - Ένας χειριστής
Α2 Ένας σταθμός - Πολλοί χειριστές

Κατηγορία Β: Οι μπάντες VHF (144 MHz) και UHF (432 MHz)

Β1 Ένας σταθμός - Ένας χειριστής
Β2 Ένας σταθμός - Πολλοί χειριστές

Στην κατηγορία Α μπορούν να πάρουν μέρος μόνο σταθμοί SV.

Στην κατηγορία Β μπορούν να πάρουν μέρος σταθμοί SV και SW.

Κλήση: "CQ FIELDAY" SSB "CQ FD" CW

Ανταλλαγή:

Κατηγορία Α: RS(T) και αύξων αριθμός QSO.

Κατηγορία Β: RS(T), αύξων αριθμός QSO και QTH Locator.

(Ο αύξων αριθμός συνεχίζει με την αλλαγή μπάντας)

Βαθμολογία:

Κατηγορία Α

α) Βαθμοί:
Για QSO με σταθμό στην Ευρώπη 2 βαθμοί.
Για QSO με σταθμό σε άλλη ήπειρο 3 βαθμοί..

Για QSO με φορητό/κινητό σταθμό στην Ευρώπη 4 βαθμοί (/P /M)

Για QSO με φορητό/κινητό σταθμό σε άλλη ήπειρο 6 βαθμοί (/P /M)

β) Multiplier :
Κάθε επαφή ανά DXCC, WAE χώρα ανά μπάντα = 1 multiplier
π.χ. 3 Γερμανικοί σταθμοί σε τρεις μπάντες = 3 multiplier
2 Γερμανικοί σταθμοί στα 15 m =1 multiplier
Το τελικό σύνολο υπολογίζεται πολλαπλασιάζοντας το σύνολο των βαθμών
επί το σύνολο των multiplier .

Κατηγορία Β

α) Βαθμοί:

Ανάλογα με την χιλιομετρική απόσταση ανάμεσα στους σταθμούς, που
ορίζεται από τα QTH Locator τους (1 βαθμός /1 χιλιόμετρο), π.χ. αν το
δικό σας QTH Loc απέχει 450 χλμ από το QTH Loc του ανταποκριτή σας,
παίρνετε 450 βαθμούς.

(Ο υπολογισμός της απόστασης για όσους δεν χρησιμοποιήσουν το ειδικό
πρόγραμμα για το logging σε πραγματικό χρόνο μπορεί να γίνει και εκ
των υστέρων με πρόγραμμα που θα διατίθεται από την Ε.Ε.Ρ.)

β) Multiplier :

Για QSO με διαφορετικές χώρες 1 multiplier.

Για κάθε διαφορετικό QTH Locator 1 multiplier.

π.χ. QSO με τον πρώτο σταθμό SV = 1 multiplier σαν χώρα SV και 1 multiplier σαν QTH Loc.

QSO με τον επόμενο σταθμό SVσε νέο QTH Loc = 1 multiplier για το νέο QTH Loc μόνο

Το τελικό σύνολο υπολογίζεται πολλαπλασιάζοντας το σύνολο των βαθμών επί το σύνολο των multiplier.

Υποβολή Δήλωσης Συμμετοχής και Αποτελεσμάτων:

Οι δηλώσεις συμμετοχής και τα αποτελέσματα υποβάλλονται σε ειδικά έντυπα που διατίθενται από την Γραμματεία ή την Ιστοσελίδα της Ένωσης προσωπικά ή ταχυδρομικά με συστημένη επιστολή στη διεύθυνση:

Ε.Ε.Ρ. - Επιτροπή ΔΙΒ, Ταχ. Θυρίδα 3564, 102 10 ΑΘΗΝΑ

μέχρι την 30η Σεπτεμβρίου 2008

.

Τα έντυπα θα χρησιμοποιηθούν για τελευταία φορά και το 2008.Από το 2009 και μετά η υποβολή θα γίνεται υποχρεωτικά μέσω των προγραμμάτων Super Duper και Super Duper Vhf η και άλλα που θα υποδειχθούν από την Ε.Ε.Ρ.

Όσοι ενδιαφέρονται να τα χρησιμοποιήσουν από εφέτος μπορούν να στείλουν e-mail στον sv1iw@raag.org για να τα προμηθευτούν μαζί με κατάλληλες οδηγίες.

Έπαθλα:

Στους πρώτους κάθε κατηγορίας θα απονεμηθούν πλακέτες και διπλώματα. Στους δεύτερους και τρίτους θα απονεμηθούν διπλώματα.

Δήλωση Συμμετοχής: http://www.raag. org/files/ fd_appl.pdf

Πολλά 73!

Ομάδα Ραδιοερασιτεχνών από την Κύπρο (5B8AP Αντρέας, 5B4MF Σπύρος και 5B4AFQ Μάνος) θα βρίσκεται κατά το Διεθνές Σαββατοκυρίακο Φάρων και Φαρόπλοιων (International Lighthouse and Lightship Weekend - ILLW, 16-17 Αυγούστου 2008) στο φάρο στο Ακρωτήριο Κίτι (ARLHS# CYP-004), κοντά στην πόλη της Λάρνακας. Υπολογίζουμε να βρισκόμαστε στο φάρο γύρω στις 8-9πμ το Σάββατο, να στήσουμε το σταθμό και να αρχίσουμε τις επαφές εντός περίπου μιας ώρας. Θα δουλέψουμε στα 10, 15 και 20m SSB. Θα γίνει επίσης προσπάθεια για επαφές στα 40 και 80m.

Θα παραμείνουμε στο φάρο όσο μας επιτρέψει η διάδοση, ο ζεστός καιρός και η διαθεσιμότητα των χειριστών.

Ελπίζουμε να τα πούμε στον αέρα!

73,

Αντρέας - 5B8AP

Digital Communication Conference, 9/26-28, Chicago - Register by 9/1
Posted by: "Mark Thompson" wb9qzb@... wb9qzb
Mon Aug 18, 2008 10:38 pm (PDT)
The ARRL/TAPR DCC (Digital Communications Conference) is being held in
Chicago on September 26 - 28, 2008.

The DCC will be at the Elk Grove Village Holiday Inn located in
Chicago's northwest suburbs near O'Hare airport with a free airport to
hotel shuttle and easily accessible from major interstate highways.

The DCC is the premiere, national, annual digital ham radio conference
covering ALL the Digital Voice & Data technologies from HF to Microwaves.

There will be BOTH Technical & Introductory presentations covering
all levels of experience with the digital modes and also an ARRL forum.

This year for the first time at the DCC there will be a D-STAR Friday
Night event. We plan to have innovators, pioneers & leaders in D-STAR
digital voice & data technology available to present and take your
questions.

Icom will be at the DCC and TAPR plans to have it's 70cm & 23cm D-STAR
digital voice & data repeaters operating at the DCC connected to the
internet gateway.

You can get more information about the DCC at: http://www.tapr.
org/dcc.html

A DCC advertisement is attached that can be published in your local
club newsletters.

Reigster before September 1st & save $10 on your registration fee.

You can register at:
https://www. tapr.org/ dccregistration. php

Look forward to seeing everyone at the DCC.
73, Mark, WB9QZB
Chicago, IL

Κατά την διάρκεια του "Field Day" 6 και 7 Σεπτεμβρίου απο τα Χανιά θα ενεργοποιήσουμε το χαρακτηριστικο J49CVD/p.
Το "Field Day" θα είναι αφιερωμένο στη μνήμη του συναδέλφου και φίλου μας SV9CVD (Αντώνη) που χάθηκε φέτος.
Ευχαριστώ
Γιάννης SV9AHZ

ARRL/TAPR Digital Communications Conference: "Pretty Interesting! "

The main presentation room at the 2008 ARRL/TAPR DCC provided ample seating and tables, as well as power supplies, for laptops. [Larry Wolfgang, WR1B, Photo]

Kermit Carlson, W9XA (left), and Rick Muething, KN6KB, go over the final arrangements just before Muething's presentation on audio/visual equipment. Carlson coordinated the a/v for the DCC. [Larry Wolfgang, WR1B, Photo]

Almost 150 aficionados of digital communications came to Chicago for the 27th annual ARRL/TAPR Digital Communications Conference (DCC) the weekend of September 26-28. This conference is an international forum for radio amateurs to meet, publish their work and present new ideas and techniques. Presenters and attendees had the opportunity to exchange ideas and learn about recent hardware and software advances, theories, experimental results, and practical applications. Not only was the conference technically stimulating, it was a weekend of fun for all who have more than a casual interest in any aspect of amateur digital electronics and communications; introductory sessions were scheduled throughout the conference to introduce new technical topics for both beginners and experts.

One of the attendees was QEX Editor Larry Wolfgang, WR1B, representing the ARRL. He gave a talk "Writing for Publication - It's Not Rocket Science (Even if You Are Writing About Rocket Science!)." Retired ARRL Chief Technology Officer Paul Rinaldo, W4RI, also represented the League, speaking on "SDR Outlook." Central Division Vice Director Howard Huntington, K9KM was present, as was ARRL Contributing Editor H. Ward Silver, N0AX.

Wolfgang gave his presentation on Friday morning and said he talked with many participants throughout the conference who told him that he had them enthused about writing something for QEX. "It also seemed like almost everyone there was making a point to stop me in the hallways or at mealtimes to tell me how much they are enjoying QEX, and to thank me for the effort I putting into the magazine," he said.

Friday was a full day of technical presentations, including "A Protocol for Multicast Weather Data Distribution over AX25," by Nick Luther, K9NL; "SuitSat-2 Update," by Steve Bible, N7HPR; "EcomScs and GateWayScs AX25 Packet Radio E-Mail," by John Blowsky, KB2SCS, and "Frequency and Other New Initiatives in APRS," by Bob Bruninga, WB4APR. The last presentation of the afternoon was "D-STAR Uncovered," by Peter Loveall, AE5PL.

The DCC provided a separate demonstration room for participants to bring and show off their latest projects. Participants were encouraged to bring their own equipment and display for all to see and learn. Wolfgang said he had some "play time" in this room after all the presentations on Friday. After dinner that evening, he said there was "a string of D-STAR presentations starting at 7 PM and lasting until after 10 PM. These were all very interesting presentations, including the D-RATS messaging software by Dan Smith, KK7DS. Peter Loveall, AE5PL, presented "D-PRS Update" about ways the D-STAR data links can be used to send and plot APRS position maps or interface to the APRS system. Robin Cutshaw, AA4RC, gave a presentation about DV-Dongle, a PC add-on that allows connection to D-STAR repeaters around the world through your PC and an Internet connection. Pretty interesting! "

In addition to the main technical presentations on Saturday, there was also a full day of introductory sessions, mostly about digital voice and D-STAR.

Also on Saturday, Matt Etttus, N2MJI, gave a report on the Ettus Research USRP2. Tom Clark, K3IO, gave an "AMSAT Update." Paul Wiedemeier, KE5LKY, presented his paper on "Using UDPcast to IP Multicast Data over Packet Radio." Paul Rinaldo, W4RI, gave his "SDR Outlook" that covered the international regulatory front and presented some of the concerns that some world governments have with regard to the flexibility of SDR. Scott Cowling, WA2DFI, gave an "HPSDR (High Performance Software Defined Radio) Update" during which he described the various circuit boards that make up the HPSDR project. He also demonstrated a complete working radio in the demo room. Jerry Shirar, N9XR, presented a paper called "Clocking the Data," concerning the use of an inverter and a crystal to form a Colpitts oscillator.

Victor Poor, W5SMM, gave an update on Winlink 2000. "He reported that there is one Web site, five Common Message Server sites around the world, 150 Radio Message Service Pactor Gateway sites, 800 RMS Packet Gateway sites and over 13,000 registered users," Wolfgang said. "He also mentioned that inactive users are purged from the system from time to time."

Rick Muething, KN6KB, described his "WINMOR Soundcard ARQ Mode for Winlink HF Digital Messaging." Wolfgang said that this was a much anticipated presentation: "Rick reported that WINMOR is 3 to 4 months from beta testing. His preliminary comparisons to Pactor 1, 2 and 3 use a simulator. He indicates that WINMOR will have better throughput than Pactor 1 and comparable to, or perhaps a bit better than Pactor

2, but not quite as good as Pactor 3. He indicated that the efficiency is within about 70 percent of Pactor ARQ."

The TAPR Annual Meeting was held after all the presentations on Saturday where the Board of Directors discussed the idea of coming back to the same hotel for next year's DCC. "The local group that supported DCC this year, including Mark Thompson, WB9QZB, and Kermit Carlson, W9XA, did a great job of providing AV support," Wolfgang said. "Ron Steinberg, K9IKZ, who owns a local audio/visual company, provided two large projection screens and projectors, so every presentation was shown on both sides of the room, as well as on a widescreen TV outside the room. The audio was very easy to hear, even if you were in the hall outside the room or in the demonstration room; the set-up was left there from the W9DXCC Convention the previous weekend. They offered to provide the same support for next year, if the DCC returned. So, the decision was made to break with tradition, and return to Chicago next year, September 25-27."

Phil Harman, VK6APH, presented the Sunday morning seminar, "Software Defined Radio Through the Looking Glass." Wolfgang said he found Harman's presentation to be understandable "at my level of knowledge, and he gave a lot of good insight into many of the design decisions that went into the High Performance Software Defined Radio Project. I found his descriptions of how the hardware and software work to be very interesting. The four hours went by quickly."

For more information on the 2008 Digital Communications Conference, please visit TAPR's DCC Web page.

2278. 51o Jamboree 2008 - J44VOL

Yahoo group: thegreekhamradio
Date: 2008-10-15 21:56:02 UTC
From: Costas J. Dovas - SV4FFL
Topic: 2278   Message: 2278

Για τρίτη συνεχή χρονιά, έτσι και φέτος,
το 7ο Σύστημα Ναυτοπροσκόπων Βόλου σε
συνεργασία με τον Σύλλογο Ραδιοερασιτεχνών Μαγνησίας,
το 3ο Σαββατοκύριακο του Οκτωβρίου θα πραγματοποιησει
τη παγκόσμια προσκοπική ραδιοκυματική δράση Jamboree On The Air.
Στις 18 και 19 Οκτωβρίου λοιπόν, εκατομμύρια πρόσκοποι απ' όλο τον κόσμο θα βρεθούν
στα βραχέα κύματα για να επικοινωνήσουν μεταξύ τους ανταλλάσοντας ιδέες,
εμπειρίες, χτίζοντας έτσι νέες γνωριμίες και φιλίες ενώ παράλληλα έρχονται σε επαφή
με το συγκλονιστικό χόμπι του Ραδιοερασιτεχνισμού!
Θα είμαστε ενεργοί με το ειδικό διακριτικό (Special Call) J44VOL
στα 40m, 20m, 17m, 15m SSB και CW
στο τοπικό δίκτυο Echolink με αρ. κόμβου 310175
καθώς και στο δίκτυο APRS.

```
cu on air
73!

SB DX ARL ARLD043
ARLD043 DX news

This week's bulletin was made possible with information provided by NC1L, SU1SK, QRZ DX, the OPDX Bulletin, DXNL, 425 DX News, The Daily DX, Contest Corral from QST and the ARRL Contest Calendar and WA7BNM web sites. Thanks to all.

MAURITIUS, 3B8. Jose, ON4LAC will be QRV as 3B8/ON4LAC from October 18 to November 6. QSL to home call.

SWAZILAND, 3DA0. David, GI4FUM and Daniel, ZS6JR will be QRV as 3DA0DJ and 3DA0EI, respectively, until October 27. In addition, Daniel will be active as 3DA0JOTA during JOTA. QSL via operators' instructions.

TUNISIA, 3V. During JOTA, look for 3V8SM to be QRV from Djerba Island, IOTA AF-083, as well as 3V8CB, 3V8SQ and 3V8ST. QSL via bureau.

SENEGAL, 6W. Operators DK8YY, DL4JS, DL8ALU, DL8AKI and DL1WA will be QRV as 6W/DL4JS from October 18 to 27. They will be active on all HF bands using CW, SSB and RTTY. They will be QRV as 6V7M in the Worked All Germany and upcoming CQ WW SSB contests. QSL via operators' instructions.

SIERRA LEONE, 9L. Operators I1HJT, I2YSB, IK1AOD, IK2CIO, IK2CKR, IK2DIA and IK2HKT are QRV as 9L1X from Sherbro Island, IOTA AF-056, until October 23. They may also be active as 9L1A, 9L1E, 9L1K and 9L1M. Activity is on 160 to 10 meters using CW, SSB and RTTY with

three stations active simultaneously. QSL direct via I2YSB.

BALEARIC ISLANDS, EA6. Adrian, AA5UK is QRV as EA6/AA5UK from Ibiza until October 29. Activity is on 160 to 10 meters using SSB, RTTY, SSTV and various other digital modes. He is also active on Satellite AO-51 and will be an entry in the upcoming CQ WW SSB contest. QSL to home call.

ARMENIA, EK. Special callsign EK2790 is active until October 19 in celebration of the 2,790th anniversary of Yerevan. In addition, operators EK2790DX, EK2790GB, EK2790KE, EK2790SA and EK2790TA have also been active. QSL via operators' instructions.

SURINAME, PZ. Look for OM2TW, OM5AW, OM5AA, OK1RK and OK1NY to be QRV as PZ5Z from October 21 to 30. Activity will be on 160 to 2 meters using all modes, including EME. QSL via OM2FY.

EGYPT, SU. Look for special event station SU8JOTA to be QRV from the Cairo International Scout Centre during JOTA. Activity will be on all bands, using CW and SSB, near the World Scout frequencies. They may also be active on the local VHF network and EchoLink. QSL via SU1SK.

CRETE, SV9. Ulf, DL5AXX is QRV as SV9/DL5AXX until October 21 while on holiday. He will be active as J49V in the Worked ALL Germany contest. QSL to home call.

TUVALU, T2. Anci, JA2ZL is QRV as T22ZL until October 21 while on vacation. Activity is on 80 to 10 meters using CW, SSB, RTTY and SSTV. QSL to home call.

BANABA ISLAND, T33. Toshi, JA8BMK is QRV as T33ZZ until October 23. Activity is on the HF bands, with an emphasis on the lower bands, using CW, SSB, RTTY, SSTV and PSK31. QSL direct to home call.

PALAU, T8. Operators JA7RPC and JF7RKV are QRV as T88RP and T88SB, respectively, until October 20. Activity is on 80 to 10 meters using CW and SSB. QSL to home calls.

ANDAMAN AND NICOBAR ISLANDS, VU4. In celebration of the National Institute of Amateur Radio's 25th anniversary, a group of operators will be QRV as VU4MY and VU4RG from Port Blair, IOTA AS-001, from October 23 to November 3. Activity will be on 150 to 10 meters using CW, SSB, RTTY and PSK. This includes an entry in the upcoming CQ WW SSB contest. QSL both calls via DJ7JC.

LAKSHADWEEP ISLANDS, VU7. As part of the 25th anniversary celebration of NIAR, a group of operators will be QRV as VU7SJ from Agatti Island, IOTA AS-011, and VU7NRO, IOTA AS-011, from October 23 to November 3. Activity will be on 160 to 10 meters using CW, SSB, RTTY and PSK. QSL VU7SJ via DL9GFB and VU7NRO direct via VU2UWZ.

THIS WEEKEND ON THE RADIO. The Jamboree-On-The-Air Event, ARRL EME Contest, NCCC Sprint, JARTS World Wide RTTY Contest, ARCI Fall CW QSO Party, Worked All Germany Contest, Stew Perry Topband Challenge, W/VE Islands QSO Party, PODXS 070 Club 160-Meter Great Pumpkin Sprint, Feld Hell Sprint, 50 MHz Fall Sprint, Asia-Pacific Fall CW Sprint, UBA ON 2-Meter Contest and the Illinois QSO Party will certainly keep contesters busy this upcoming weekend. The Run for the Bacon QRP CW Contest is scheduled for October 20. The ARRL School Club Roundup is scheduled for October 20 to 24. The SKCC CW Sprint and RSGB 80-Meter Club SSB Sprint are scheduled for October 22. Please see October QST, page 82, and the ARRL and WA7BNM contest web sites for details.

Καλημέρα,

Κάποια στιγμή εδώ είχε αναφερθεί ότι βάση νόμου μπορούμε να "χτίσουμε"
ένα "shack=καλύβα" σε ακάλυπτο χώρο...

μπορεί κανείς να το ξανακάνει post και να μας πει κάποιος που ξέρει αν
και πως καλυπτόμαστε;

Τι προϋποθέσεις υπάρχουν (τ.μ) ;

Καλησπέρα Σπύρο,

Για το ζήτημα που σε απασχολεί, μπορείς να βρεις σχετικό άρθρο μου στο τεύχος 80 του περιοδικού Ραδιοτηλεπικοινωνίες ή στο www.targ.gr
Να έχεις υπόψη σου ότι χρειάζεται οπωσδήποτε η συνδρομή Μηχανικού, γιατί όλη η γραφειοκρατία έχει να κάνει με την Πολεοδομία.
Στη διάθεσή σου για τυχόν διευκρινήσεις.

Καλημέρα Σπύρο,

Ο SV2FLJ (Αντώνης) ξέρω ότι είχε έντονο ενδιαφέρον και σοβαρή πρόθεση να εγκαταστήσει οικίσκο στην ταράτσα της οικοδομής του, δεν γνωρίζω όμως εάν τελικά υλοποίησε το σχέδιό του.
Προσωπικά δεν γνωρίζω κάποιον άλλο συνάδελφο που να έχει προβεί σε ανάλογες διαδικασίες.
Ισως από εδώ, δηλ. από το γκρουπ εμφανισθεί συνάδελφος που να έχει σχετική εμπειρία και να μπορεί να δώσει τα φώτα του στο πρακτικό μέρος της διαδικασίας.
Νομίζω ότι εάν απευθύνεις σχετικό ερώτημα και σε άλλα ελληνικά ραδιοερασιτεχνικά φόρα, οπωσδήποτε θα βρεθεί κάποιος συνάδελφος με σχετική εμπειρία.
Το δυσκολότερο όμως σημείο φοβάμαι ότι θα είναι η άγνοια, η δυσπιστία και η επιφυλακτικότητα της Πολεοδομίας στην οποία θα υποβάλεις την σχετική αίτηση.
Εν πάσει περιπτώσει, ακόμα και εάν δεν βρεθεί τελικά συνάδελφος με εμπειρία, εφόσον έχεις την πρόθεση και τη δυνατότητα να προβείς στο εγχείρημα, μη διστάσεις να ξεκινήσεις τις διαδικασίες.
Ασφαλώς και μπορείς να υπολογίζεις στη συνδρομή μου, εάν και εφόσον αυτή απαιτηθεί.

Δημοσιοποιήθηκε μια μελέτη φοιτητών του Πανεπιστημίου Κρήτης που καταδεικνύει ότι, αν η υπηρεσία Google Search είχε μαύρη οθόνη, λαμβάνοντας υπόψη την τεράστια παγκόσμια συχνότητα χρήσης της, σύμφωνα με υπολογισμούς, θα είχαν σωθεί... τουλάχιστον 750 μεγαβατώρες ανά χώρα για κάθε έτος!!!!! Η Google, ανταποκρινόμενη στη μελέτη, δημιούργησε μια "μαύρη" έκδοση της μηχανής αναζήτησης, που κάνει ακριβώς την ίδια δουλειά και ονομάζεται "Blackle". Η έκδοση αυτή εξοικονομεί μεγάλο ποσοστό ηλεκτρικής ενέργειας, που καταναλώνει τόσο το modem-router όσο και η οθόνη του υπολογιστή.

ΒΟΗΘΗΣΤΕ να διαδοθεί η σελίδα ΚΑΙ αλλάξτε την διεύθυνση του Google σε http://www.blackle.com

ΑΛΛΑΞΤΕ ΟΛΟΙ ΤΗΝ ΕΚΔΟΣΗ ΤΗΣ ΜΗΧΑΝΗΣ ΑΝΑΖΗΤΗΣΗΣ, ΕΞΟΙΚΟΝΟΜΕΙΣΤΕ ΗΛΕΚΤΡΙΚΗ ΕΝΕΡΓΕΙΑ ΕΧΟΝΤΑΣ ΤΑ ΙΔΙΑ ΑΠΟΤΕΛΕΣΜΑΤΑ ΣΤΗΝ ΑΝΑΖΗΤΗΣΗ ΚΑΙ ΒΟΗΘΗΣΤΕ ΝΑ ΔΙΑΘΩΘΕΙ!!!!

US ASTRONAUT SANDRA MAGNUS TALKS WITH SCHOOLS IN GREECE
Posted by: "sv2jje" sv2jje
Thu Feb 12, 2009 2:02 am (PST)
February 11, 2009

US ASTRONAUT SANDRA MAGNUS TALKS WITH SCHOOLS IN GREECE

Wednesday, 11 February 2009 at 07:43 UTC, i.e. 09:43 local time, 1st High School Alexandroupolis, Evros, Greece established a direct contact with US astronaut Sandra Magnus, KE5FYE on board the International Space Station. The Amateur Radio school station operated the contact with callsign SX7ISS.

Sandra answered all 20 questions which had been prepared by the students.

Audience in the meeting room counted over 200 students, while 700 more students listened to the space talk in the garden. Four schools participated to the event.

Special guests were the representative of Greek Minister of Telecommunications and the Director of Education of Evros.

3 TV stations, 2 radio stations and several newspapers granted the event national coverage.

Congratulations to the schools in Alexandroupolis and to the amateur radio team, comprising Manos Darkadakis SV1IW and Cliff Sacalis, SV1JG, respectively President and Vice President RAAG - Radio Amateur
Association of Greece.

```

Η Ελλάδα στην 5η θέση παγκοσμίως για την Ώρα της Γης

Μόλις 17 μέρες απομένουν για την Ώρα της Γης 2009 (Σάββατο, 28 Μαρτίου, 20:30) και η Ελλάδα δηλώνει δυναμικό παρών στο μεγαλύτερο συμμετοχικό γεγονός ενάντια στην κλιματική αλλαγή που διοργανώθηκε ποτέ στον πλανήτη. Περισσότεροι από 160 δήμοι και κοινότητες της χώρας έχουν ήδη δηλώσει επίσημα τη συμμετοχή τους, φέρνοντας την Ελλάδα στην πέμπτη θέση παγκοσμίως, ελάχιστα πίσω από τον Καναδά, ανάμεσα στις χώρες με την εντονότερη συμμετοχή στην Ώρα της Γης. Στην πρώτη θέση κατατάσσεται η γενέτειρα της πρωτοβουλίας, Αυστραλία ενώ την ακολουθούν η Γαλλία και το Βέλγιο.

Η ενθουσιώδης ανταπόκριση της τοπικής αυτοδιοίκησης και των πολιτών στο κάλεσμα του WWF Ελλάς έχει ως αποτέλεσμα η ελληνική παρουσία στην Ώρα της Γης να έχει ξεπεράσει το 10% του παγκόσμιου στόχου συμμετοχής που δεν είναι άλλος από τις 1000 πόλεις σε ολόκληρο τον κόσμο.

«Η Ελλάδα για ακόμα μια φορά αποδεικνύει ότι όταν θέλει - μπορεί. Η πέμπτη θέση της χώρας μας σε μια άτυπη παγκόσμια κατάταξη ανάμεσα στις χώρες που συμμετέχουν με τις περισσότερες πόλεις στην Ώρα της Γης έρχεται να το επαληθεύσει. Ωστόσο το μεγάλο στοίχημά μας είναι η ατομική συμμετοχή των πολιτών. Κάθε πολίτης που εγγράφεται ηλεκτρονικά στο http://www.earthhour.org/signup/gr:el δεν δηλώνει απλά τη συμμετοχή του στο μεγαλύτερο περιβαλλοντικό γεγονός στον πλανήτη - Συνυπογράφει μια παγκόσμια έκκληση προς τους ηγέτες των Ηνωμένων Εθνών και απαιτεί γενναίες αποφάσεις στην Παγκόσμια Συνδιάσκεψη για την Κλιματική Αλλαγή που θα πραγματοποιηθεί στην Κοπεγχάγη τον ερχόμενο Δεκέμβριο», δήλωσε ο Γιώργος Βελλίδης, Επικεφαλής του τμήματος Επικοινωνίας του WWF Ελλάς.

Πέραν της μαζικής κινητοποίησης δήμων και κοινοτήτων, πλήθος φορέων, σχολείων και επιχειρήσεων συμμετέχουν στην Ώρα της Γης, οργανώνοντας πρωτότυπες δράσεις. Περίπου 80 επιχειρήσεις και δεκάδες εκπαιδευτικά ιδρύματα έχουν μέχρι τώρα ενώσει τις δυνάμεις τους στον αγώνα ενάντια στην κλιματική αλλαγή, κλιμακώνοντας τις δραστηριότητές τους με στόχο την 28η Μαρτίου.

Προωθήστε αυτό το mail και δώστε τη δύναμή σας στο μήνυμα της Ώρας της Γης και στον αγώνα ενάντια στην κλιματική αλλαγή.

Με φιλικούς χαιρετισμούς,

Γιώργος Βελλίδης, Επικεφαλής Τμήματος Επικοινωνίας WWF Ελλάς

Η διατήρηση επαφής είναι τώρα πιο εύκολη - Προσκαλέστε τους φίλους σας από το Facebook και το Hotmail friends στον Messenger τώρα! Κάντε κλικ εδώ!

Η NASA ετοιμάζεται να εκτοξεύσει έναν μίνι δορυφόρο, σε μέγεθος κουτιού παπουτσιών, ο οποίος θα εξετάσει πώς μια καλλιέργεια ζυμομύκητα αντιδρά σε μυκητοκτόνες ουσίες σε συνθήκες έλλειψης βαρύτητας.

«Ο PharmaSat είναι ένα σημαντικό πείραμα που θα μας προσφέρει νέες πληροφορίες για την ευαισθησία των μικροβίων στα αντιβιοτικά στο διαστημικό περιβάλλον» δήλωσε στο Space.com ο Ντέιβιντ Νίζελ, ερευνητής του Πανεπιστημίου του Τέξας στο Γκάβεστον, ο οποίος συνεργάζεται στο πρόγραμμα με το Ερευνητικό Κέντρο Ames της NASA.

Ο «νανοδορυφόρος» προγραμματίζεται να τεθεί σε τροχιά με πύραυλο Minotaur-1 της αμερικανικής πολεμικής αεροπορίας ο οποίος θα εκτοξευτεί γύρω στις 05.00 τα ξημερώματα της Τετάρτης ώρα Ελλάδας από τις ανατολικές ακτές τις Βιρτζίνια.

Αντικειμενικός στόχος της εκτόξευσης είναι να τεθεί σε τροχιά ο δορυφόρος τηλεπικοινωνιών TacSat3, ενώ ο PharmaSat μεταφέρεται από τον πύραυλο ως δευτερεύον φορτίο.

Ο μίνι δορυφόρος θα τεθεί σε τροχιά σε ύψος 459 χιλιομέτρων και μία ώρα αργότερα οι μηχανικοί της NASA θα δώσουν την εντολή για την έναρξη του πειράματος.

Ο PharmaSat περιέχει ένα μικροβιολογικό εργαστήριο σε σμίκρυνση το οποίο μπορεί να παρακολουθεί την ανάπτυξη, την πυκνότητα και την υγεία των κυττάρων του ζυμομύκητα.

Οι μετρήσεις θα μεταδίδονται στη Γη σχεδόν σε πραγματικό χρόνο για διάστημα έως και 6 μηνών.

[b]Τις μεταδόσεις μπορούν να παρακολουθούν και ραδιοερασιτέχνες με τη βοήθεια του Πανεπιστημίου της Σάντα Κλάρα[/b].

Η εκτόξευση του PharmaSat έρχεται δυόμισι χρόνια μετά την αποστολή του GeneSat-1, ενός δορυφόρου παρόμοιου μεγέθους ο οποίος μελέτησε την ανάπτυξη στο Διάστημα του βακτηρίου Escherichia coli.

Ανάλογα πειράματα με ζωντανά μικρόβια διεξάγονται και στον Διεθνή Διαστημικό Σταθμό.

Πηγή:http://www.nooz.gr/page.ashx?pid=9&aid=299555&cid=15

Το δρόμο για την εγκατάσταση μικρών φωτοβολταϊκών συστημάτων στις στέγες των σπιτιών ανοίγει κοινή υπουργική απόφαση (ΚΥΑ) των υπουργείων Ανάπτυξης, ΥΠΕΧΩΔΕ και Οικονομίας που αναμένεται να τεθεί σε ισχύ εντός των ημερών.

Σύμφωνα με την ΚΥΑ κάθε πολίτης έχει τη δυνατότητα να εγκαταστήσει φωτοβολταϊκό στο σπίτι του έως και 10KW, χωρίς γραφειοκρατικές διαδικασίες σε πολεοδομίες, χωρίς υποχρέωση ανοίγματος βιβλίων στην εφορία ή αδειοδότησης από ΡΑΕ και ΥΠΑΝ.

Η τιμή αποπληρωμής θα είναι 55 λεπτά την κιλοβατώρα και ο παραγωγός θα αποπληρώνεται με συμψηφισμό από το λογαριασμό της ΔΕΗ.

Η απόφαση αφορά το ηπειρωτικό σύστημα και τα διασυνδεδεμένα νησιά και προορίζεται για το σύνολο των ιδιωτικών κτιρίων, ιδιωτικές κατοικίες και μικρές ή πολύ μικρές επιχειρήσεις.

Προβλέπονται επίσης απλές και γρήγορες διαδικασίες μέσω των τοπικών υπηρεσιών της ΔΕΗ και με βάση τα όσα ανακοίνωσε ο υπουργός Ανάπτυξης Κωστής Χατζηδάκης ο συνολικός χρόνος που θα απαιτείται είναι 70 μέρες, με κόστος διαδικασιών 300-500 ευρώ στην υλοποίηση έργων σύνδεσης.

Το συνολικό κόστος εγκατάστασης ενός φωτοβολταϊκού σταθμού 5KW ανέρχεται περίπου στα 25.000 ευρώ και με τις προβλεπόμενες τιμές αποπληρωμής η απόσβεση θα μπορεί να γίνει σε περίπου μια 5ετία

Mon Jun 15, 2009 3:20 pm (PDT)

Η μικρή μας ομάδα, θα είναι QRV στις 20~21 και 27~28 Ιουνίου 2009 με το special call SX2TMN από το Κέντρο Διάδοσης Επιστημών και Τεχνολογικό Μουσείο "ΝΟΗΣΙΣ" συμμετέχοντας στο INTERNATIONAL WEEKEND MUSEUM 2009.

Ευελπιστούμε το 2010, μετά από τις απαραίτητες μετατροπές σε συγκεκριμέννο χώρο του Μουσείου, να λειτουργήσει για πρώτη φορά για τα Ελληνικά δεδομένα, ΜΟΝΙΜΟΣ Ραδιοερασιτεχνικός Σταθμός Ασυρμάτου, όπως σε πολλά και διάσημα Μουσεία σαν της Λουκέρνης (HB9O), Γκρήνουϊτς (GB200T), Μονάχου (DL0DM), Στοκχόλμης (SK0TM), Κέμπριτζ (GB2IWM) και πόσα άλλα ανά τον κόσμο.

Οι QSL κάρτες που έλαβα από τα παραπάνω από προσωπικά QSOs, ήταν το ερέθισμα για να κινητοποιηθούμε και να συμπεριληφθεί και η Θεσσαλονίκη σε αύτην τήν ατελείωτη λίστα.

Το "ΝΟΗΣΙΣ" βρίσκεται απέναντι από το Εμπορικό Κέντρο "COSMOS" στο δρόμο από Θεσσαλονίκη προς Χαλκιδική. Θα το αναγνωρίσετε από την τεράστια ασημί σφαίρα, το Πλανητάριο.

Φυσικά, υπάρχει ανοικτή πρόσκληση προς όλους, αν και οι περισσότεροι θα είναι ASL=0m, και για όσους είναι μακριά, θα χαρούμε να τους ακούσουμε από τα 80μ έως και τα 2μ SSB, CW kai RTTY.

Περισσότερες πληροφορίες μπορείτε να δείτε στο SX2TMN

Καλησπέρα,

Γνωρίζει κανείς που μπορεί να προμηθευεί και να παραλάβει στην Ελλάδα arrow κεραία για τους δορυφόρους ?

Η ερώτηση είναι αν μπορεί να γίνει (ή καλύτερα ΕΧΕΙ γίνει) παραγγελία απο κάπου και να γίνει παραλαβή με ταχυδρομείο.

2375. Yaesu FT-450 vs What ?

Yahoo group: thegreekhamradio
Date: 2009-06-30 08:43:20 UTC
From: sxanthop
Topic: 2375 Message: 2375

Καλημέρα,

Σκέφτομαι σε λίγο καιρό να αγοράσω ένα βραχέο και το συγκεκριμένο μηχάνημα μου έχει κινήση την περιέργεια (yaesu ft-450).

Με τι λοιπόν θα μπορούσα να το συγκρίνω έτσι ώστε να κάνω την καλύτερη αγορά ? Θα ήθελα κάτι και με v/u όπως έχω ξαναπεί στο παρελθόν...αλλά σίγουρα ένα καθαρό hf/50mhz είναι "άλλου είδους" επιλογή νομίζω.

Ακούω τις απόψεις σας...

Τα χρήματα που μπορώ να δώσω να πω ότι είναι περίπου στα 700 ευρώ...

2380. National Jamboree BdP

Yahoo group: thegreekhamradio
Date: 2009-07-21 09:48:17 UTC
From: Costas J. Dovas - SV4FFL
Topic: 2380 Message: 2380

Hello together

You hear from all directions from summercamps with radio Stations...
Great...
There is also a national Jamboree this summer in Germany.
Here are some facts:
National Jamboree BdP (Bund deutscher Pfadfinder)
Buhlenberg (GPS koordinates : N49 38.912 E7 07.363)
Callsign: DP9S
Radio Team: Jochen DK8ZM ; Torsten DO6KT; Tobias DL4KWS, Flupy HB9KOM; Paul PA5UL; Torkil OZ2KIL
Dates: 29.7.2009 - 8.8.2009
Equipment: 2 HF Stations, 1 UKW SSB Station
Modes: SSB, FM, SSTV
Homepages with Infos: www.dp9s.de ; www.seitenweit.pfadfinden.de/ ; www.radio-scouting.de

We plan to work around the Scout frequencies.
Do you want a Sked with us you can write a Mail to: J.Sulovsky@...

Hope to hear you on the Scoutfrequencies during the summer...
YiS
Jochen DK8ZM/ DP9S

Έχω κάνει παραγγελία το Signalink USB απο το παρακάτω site:

`http://www.gianora-hsu.ch/`

Μου είπαν ότι θα μου το στείλουν με το 13pin DIN Cable γιατί το άλλο που είναι προφανώς το 8pin, έχει εξαντληθεί.

Αυτό το καλώδιο είναι της παράλληλης θύρας ;

Επίσης, γνωρίζει κανείς αν έχουν παρουσιαστεί προβλήματα με την διαμόρφωση με αυτό το καλώδιο; Διαβάζω ότι υπάρχουν κάποια προβλήματα.

Για σου Σπύρο
για κοίτα και
εδώ>http://www.houseofradio.gr/modules.php?name=catalog&file=product_info&manufacturers_id=&products_id=996
Εγώ το χρησιμοποιώ απο τις πρώτες μέρες που εισήχθη στη Ελλάδα ΑΠΡΟΛΗΜΑΤΙΣΤΑ!!(αλλα με το Yaesu 2000).Φυσικά και υπάρχουν τα παρελκόμενα για το Icom 7000 (με ενα μικρο επιπλέον αντιτιμο)και το (αχρείαστο) service στην πόρτα σου!!Επιπλέον στην ίδια περιοχή τιμής παίρνεις οτι πιθανόν θα ήθελες, με αυτό το interface, που το signalink ούτε τα φαντάζεται!!!!

2412. 2m/qrp QSO PARTY (phone & digi)

Yahoo group: thegreekhamradio
Date: 2009-11-12 14:51:54 UTC
From: sxanthop
Topic: 2412 Message: 2412

Σας καλούμε σε ένα qso party στα 2m/qrp στις 22/11/09 με ώρα έναρξης 11πμ αμέσως μετά τις ανακοινώσεις του R1.
Ώρα λήξης μέχρι να πεινάσουμε!

Συχνότητες:

SSB
144.250 ☐ 144.350MHz (εκτός του 144.300+/- 5KHz)

PSK31
144.135MHz (ssb)

RTTY
145.300MHz (fm) (παρακαλούμε τους συναδέλφους στη συχνότητα αυτή να αποφύγουν για λίγο τυχόν επικοινωνίες με μικρόφωνο σεβόμενοι το bandplan και δείχνοντας κατανόηση).

Ισχύς εξόδου μέχρι 10W.
Απαραίτητη προϋπόθεση να γνωρίζετε και να δηλώνετε το locator της περιοχής σας.

Θα προτιμούσαμε πάρα πολύ, να συμμετέχετε με φορητούς σταθμούς τροφοδοτούμενους με μπαταρία, όπως θα κάνουμε και εμείς (καιρού επιτρέποντος).

Σκοπός του qso party πέρα από την χαρά της ραδιοεπικοινωνίας, είναι να βελτιωθούμε στη χρήση φορητών συσκευών, στην τήρηση των διαδικασιών ραδιοεπικοινωνίας, στην εφαρμογή του bandplan και στην καλή συμπεριφορά στον αέρα.

Μπορείτε να στείλετε τις qsl κάρτες σας μέσω bureau ή απευθείας (βλ. http://www.qrz.com) συνοδευόμενες, μόνο με ένα φάκελο με τα στοιχεία σας στη θέση του παραλήπτη για απάντηση (S.A.E.).

Να είστε όλοι εκεί!

2417. ΔΕΝΔΡΟΦΥΤΕΥΣΗ ΣΤΗ ΘΕΣΗ "ΚΟΚΚΙΝ ΑΡΑΣ" ΤΟΥ ΠΕΝΤΕΛΙΚΟΥ ΟΡΟΥΣ

Yahoo group: thegreekhamradio
Date: 2009-12-10 11:21:43 UTC
From: sxanthop
Topic: 2417   Message: 2417

ΑΓΑΠΗΤΟΙ ΣΥΝΑΔΕΛΦΟΙ,

ΣΤΙΣ 13 ΔΕΚΕΜΒΡΙΟΥ 2009 ΘΑ ΓΙΝΕΙ Η ΤΡΙΤΗ ΔΕΝΔΡΟΦΥΤΕΥΣΗ ΣΤΗ ΘΕΣΗ "ΚΟΚΚΙΝΑΡΑΣ" ΤΟΥ ΠΕΝΤΕΛΙΚΟΥ ΟΡΟΥΣ ΣΤΙΣ 10 ΠΜ.

ΣΤΗΝ ΕΚΔΗΛΩΣΗ ΣΥΜΜΕΤΕΧΟΥΝ ΚΑΙ ΟΙ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΕΣ ΤΗΣ ΑΤΤΙΚΗΣ ΕΙΤΕ ΩΣ ΜΕΛΗ ΣΥΛΛΟΓΩΝ, ΕΙΤΕ ΣΑΝ ΠΑΡΕΕΣ.

Η ΟΛΗ ΕΚΔΗΛΩΣΗ ΘΑ ΚΑΛΥΦΘΕΙ ΓΙΑ ΠΡΩΤΗ ΦΟΡΑ ΜΕΣΩ SSTV ΣΤΗ ΣΥΧΝΟΤΗΤΑ 144.520 MHZ ΜΕ ΔΙΑΜΟΡΦΩΣΗ FM ΚΑΙ 144.540 USB ΣΤΑ VHF, ΚΑΙ 433.400 ΜΕ ΔΙΑΜΟΡΦΩΣΗ FM ΚΑΙ 432.500 USB ΣΤΑ UHF.

ΚΑΙ ΣΤΙΣ ΔΥΟ ΔΙΑΜΟΡΦΩΣΕΙΣ ΘΑ ΧΡΗΣΙΜΟΠΟΙΗΘΕΙ ΣΑΝ ΤΡΟΠΟΣ ΜΕΤΑΔΟΣΗΣ Ο SCOTTIE DX ΩΣΤΕ ΝΑ ΕΧΟΥΜΕ ΤΗΝ ΚΑΛΥΤΕΡΗ ΔΥΝΑΤΗ ΠΟΙΟΤΗΤΑ ΕΙΚΟΝΑΣ.

ΟΣΟΙ ΣΥΝΑΔΕΛΦΟΙ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΕΣ ΔΕΝ ΕΧΟΥΝ ΤΟΝ ΚΑΤΑΛΛΗΛΟ ΕΞΟΠΛΙΣΜΟ ΓΙΑ ΤΗ ΛΗΨΗ ΣΗΜΑΤΩΝ ΤΗΛΕΟΡΑΣΗΣ ΒΡΑΔΕΙΑΣ ΣΑΡΩΣΕΩΣ ☐ SSTV, ΜΠΟΡΟΥΝ ΝΑ ΠΑΡΑΚΟΛΟΥΘΗΣΟΥΝ ΣΕ ΠΡΑΓΜΑΤΙΚΟ ΧΡΟΝΟ ΤΗΝ ΕΚΔΗΛΩΣΗ ΜΕΣΩ INTERNET ΣΤΙΣ ΙΣΤΟΣΕΛΙΔΕΣ:

http://users.forthnet.gr/ath/sv1nk/live_sstv.htm ή
http://users.forthnet.gr/ath/sv1nk/live_sstv_gr.htm

Η ΕΚΔΗΛΩΣΗ ΘΑ ΜΕΤΑΔΟΘΕΙ ΚΑΙ ΠΡΟΣ ΤΗΝ ΔΙΕΘΝΗ ΡΑΔΙΟΕΡΑΣΙΤΕΧΝΙΚΗ ΚΟΙΝΟΤΗΤΑ ΜΕΣΩ ΤΗΣ ΙΣΤΟΣΕΛΙΔΑΣ:

`http://www.worldsstv.com/`

ΤΟ ΠΑΡΑΘΥΡΟ ΣΤΟ ΟΠΟΙΟ ΦΙΛΟΞΕΝΟΥΜΑΙ ΒΡΙΣΚΕΤΑΙ ΣΥΝΗΘΩΣ ΣΤΗ ΣΕΛΙΔΑ 5 ΑΛΛΑ ΥΠΑΡΧΕΙ ΜΙΑ ΜΕΤΑΚΙΝΗΣΗ +/- ΜΙΑ ΣΕΛΙΔΑ ΑΝΑΛΟΓΑ ΜΕ ΤΗΝ «ΚΙΝΗΣΗ» ΠΟΥ ΥΠΑΡΧΕΙ.

ΟΣΟΙ ΣΥΝΑΔΕΛΦΟΙ ΘΕΛΟΥΝ ΜΠΟΡΟΥΝ ΝΑ ΣΤΕΙΛΟΥΝ QSL ΚΑΡΤΑ ΜΕ ΑΝΑΦΟΡΑ ΣΗΜΑΤΩΝ ΓΙΑ ΤΟ RSV ΜΕ ΤΟ ΟΠΟΙΟ ΜΑΣ ΕΛΑΒΑΝ ΚΑΙ ΘΑ ΛΑΒΟΥΝ ΕΠΙΒΕΒΑΙΩΣΗ ΛΗΨΗΣ.
ΕΠΙΒΕΒΑΙΩΣΗ ΛΗΨΗΣ ΘΑ ΛΑΒΟΥΝ ΚΑΙ ΟΣΟΙ ΠΑΡΑΚΟΛΟΥΘΗΣΟΥΝ ΤΗ ΜΕΤΑΔΟΣΗ ΤΩΝ ΕΙΚΟΝΩΝ SSTV ΑΠΟ ΤΟ INTERNET ΑΡΚΕΙ ΝΑ ΣΤΕΙΛΟΥΝ ΜΕ e-mail ΣΤΟ sv1nk@hotmail.com ΤΟ ΔΙΑΚΡΙΤΙΚΟ ΤΟΥΣ ΚΑΙ ΕΠΙΣΥΝΑΠΤΟΝΤΑΣ ΕΝΑ ΑΝΤΙΓΡΑΦΟ ΤΗΣ ΕΙΚΟΝΑΣ ΠΟΥ ΕΙΔΑΝ ΣΕ ΜΟΡΦΗ JPG.

ΚΑΤΑ ΤΗ ΔΙΑΡΚΕΙΑ ΤΗΣ ΔΕΝΔΡΟΦΥΤΕΥΣΗΣ ΘΑ ΕΚΠΕΜΠΕΙ ΡΑΔΙΟΦΑΡΟΣ ΜΕΣΩ APRS ΜΕ ΤΟ ΕΞΗΣ ΚΕΙΜΕΝΟ :SZ1GRC ☐ DENDROFITEFSI ΚΑΙ ΤΙΣ ΣΥΝΤΕΤΑΓΜΕΝΕΣ ΤΟΥ ΣΗΜΕΙΟΥ.
ΣΥΧΝΟΤΗΤΑ SIMPLEX ΕΠΙΚΟΙΝΩΝΙΑΣ 145.550 MHZ (FM) ΣΤΑ VHF, ΚΑΙ 433.550 MHZ ΣΤΑ UHF.

ΓΙΑ ΟΠΟΙΑΔΗΠΟΤΕ ΕΠΙΠΛΕΟΝ ΠΛΗΡΟΦΟΡΙΑ ΣΤΕΙΛΤΕ e-mail sv1nk@hotmail.com.
ΑΝ ΘΕΛΕΤΕ ΕΝΗΜΕΡΩΣΤΕ ΟΣΟΥΣ ΠΕΡΙΣΣΟΤΕΡΟΥΣ ΣΥΝΑΔΕΛΦΟΥΣ ΜΠΟΡΕΙΤΕ ΓΙΑ ΤΗΝ ΔΕΝΔΡΟΦΥΤΕΥΣΗ ΑΛΛΑ ΚΑΙ ΓΙΑ ΤΟ ΓΕΓΟΝΟΣ ΤΗΣ ΜΕΤΑΔΟΣΗΣ ΣΕ SSTV.
ΕΙΝΑΙ ΜΙΑ ΚΑΛΗ ΕΥΚΑΙΡΙΑ ΓΙΑ ΝΑ ΣΤΕΙΛΕΤΕ ΑΝΑΦΟΡΕΣ ΛΗΨΗΣ Η ΑΚΟΜΗ ΚΑΛΥΤΕΡΑ ΚΑΙ ΑΝΤΙΓΡΑΦΑ ΤΩΝ ΕΙΚΟΝΩΝ ΠΟΥ ΘΑ ΛΑΒΕΤΕ ΣΤΟ SHACK ΣΑΣ ΠΡΟΚΕΙΜΕΝΟΥ ΝΑ ΑΞΙΟΛΟΓΗΣΟΥΜΕ ΤΙΣ ΔΥΝΑΤΟΤΗΤΕΣ ΑΥΤΟΥ ΤΟΥ ΝΕΟΑΝΕΡΧΟΜΕΝΟΥ MODE

ΠΟΛΛΑ 73 ΣΕ ΟΛΟΥΣ ΚΑΙ ΚΑΛΕΣ ΛΗΨΕΙΣ SSTV

γραφει ο Αμερικάνος ότι το μπυρό του του έκανε μερικά ωραία δώρα. Μεταξύ άλλων αναφέρει το SX7A λέγοντας ότι έκανε μόνο πεντέμισι χρόνια να το πάρει, προφανώς ειρωνικά. Και πού είσαι ακόμη φίλε. Εγώ είμαι από την Ελλάδα και περιμένω το sx5a και το sx8a (και προφανώς πολλοί ακόμη από το εξωτερικό). Μάλιστα για το sx5a κάποιος με παρακάλεσε μήπως και βρω άκρη να το πάρει direct, λέγοντας μου ότι έχει στέιλει δύο φορές χωρίς απάντηση. Εννοείτε ότι τα email μου σε φιλους Ροδίτες είναι ακόμη αναπάντητα. Γιατί ρε παιδιά εκτιθόμαστε;

IARU Region 2 Requests Frequencies Be Kept Clear After Massive Earthquake Strikes Haiti
(Jan 13, 2010 [REVISED Jan 13, 2010 13:45 ET]) -- On Tuesday, January 12 at 4:53 PM Haiti time (2153 UTC), a magnitude 7.0 earthquake hit 10 miles (15 kilometers) west of Port-au-Prince, the island nation's capital. Communications in and out of Haiti have been disrupted. No word has been received as of yet from any of Haitian Amateur Radio operators. The ARRL encourages US amateurs to be aware of the emergency operations on the following frequencies: 7.045 and 3.720 MHz (IARU Region 2 nets), 14.265, 7.265 and 3.977 MHz (SATERN nets), and 14.300 MHz (Intercontinental Assistance and Traffic Net); the International Radio Emergency Support Coalition (IRESC) is also active on EchoLink node 278173.

«εν τη ενωσει η ισχυσ»

Τις τελευταίες εβδομάδες όλοι βιώσαμε, είτε στους δρόμους, είτε στην εργασία μας, είτε στον καναπέ μας, το διαχρονικό και ατέρμονο σήριαλ των «δίκαιων αιτημάτων» των αγροτών. Σοβαρά και μεγάλα τα προβλήματά τους, με ευθύνες που καταλογίζονται προς κάθε κατεύθυνση.

Προσωπική μου άποψη, είναι ότι τεράστιο κομμάτι ευθύνης έχουν οι ίδιοι οι αγρότες, διότι δεν έχουν ένα ενιαίο οργανωμένο και συλλογικό όργανο να διαχειρίζεται τα θέματά τους, είτε αγοράς πρώτης ύλης είτε πώλησης των προϊόντων τους, είτε εκπροσώπησής τους με την Πολιτεία, αλλά αντίθετα αποδιοργανώθηκαν ή διαλύθηκαν οι Συνεταιρισμοί με αποτέλεσμα να αγοράζουν τα απαραίτητα ακριβότερα, και να πωλούν τα αγαθά τους όσο-όσο στους εμπόρους. Μα το βασικότερο είναι η εικόνα διάσπασης και διχογνωμίας ανάμεσα στις περιφερικές ομάδες που ΔΕΝ συνεργάζονται-συνεννοούνται, με αποτέλεσμα τα προβλήματά τους να παραμένουν άλυτα και χωρίς να φαίνεται και «φως στον ορίζοντα».

Κάπως έτσι, είμαστε και εμείς οι Ραδιοερασιτέχνες. Υπάρχουν σε κάθε νομό ένα, δύο ή και πέντε σύλλογοι (αχ Θεσσαλονίκη μου), ορισμένες περιθωριακές ομάδες (ανήκω και εγώ σε μία από αυτές) που όλοι με τον τρόπο τους ασκούν την Υπηρεσία Ραδιοερασιτέχνη.

«Υπηρεσία Ραδιοερασιτέχνη», ευρύς όρος που μεταφράζεται αναλόγως των δραστηριοτήτων, όπως Dxing, Contesting, HamFesting, constructing, Award□n, SpecialCall□n, ΟΕΑ□n, QSL□n, αγοράζειν, πουλάειν, αρθρογράφειν, Προεδρεύειν, κοροϊδεύειν τον κόσμον και άλλα πολλά.

Κατά τη διάρκεια όλων των παραπάνω ασχολιών μας, παρουσιάζονται διάφορα θέματα που χρήζουν συζήτησης, διευθέτησης, επίλυσης. Θέματα μεμονωμένων Ρ/Ε μεταξύ τους, θέματα μεταξύ Συλλόγων-Ενώσεων, θέματα μεταξύ όλων των παραπάνω με το Κράτος, ακόμα και με Διεθνή θεσμικά Όργανα.

Τουλάχιστο στα περισσότερα (ανεπτυγμένα) Ευρωπαϊκά κράτη, η διάρθρωση του ham Radio είναι Πυραμιδική, δηλαδή πολλοί Ρ/Ε απαρτίζουν τους Συλλόγους-Ενώσεις-Λέσχες-Ομάδες σαν Πρωτοβάθμια Όργανα και όλα υπό την σκέπη μιας ανώτερης βαθμίδας, την ΟΜΟΣΠΟΝΔΙΑ. Το ανώτερο θεσμικό όργανο όλων των Ρ/Ε που θα εργάζεται για το καλό όλων και θα τους αντιπροσωπεύει επί ίσοις όροις εντός και εκτός συνόρων.

Πριν από μερικά χρόνια στον 21ο αιώνα, ιδρύθηκε μία Ομοσπονδία από πρωτοβουλία μόλις έξι (6) συλλόγων. Πολύ καλή κίνηση για να ξεκινήσει το όχημα, αλλά δυστυχώς πολύ σύντομα QRT. Έγινε ένα συνέδριο, μοιράστηκαν κάποια χρήματα και έκτοτε ουδέν.

Προτείνω λοιπόν, την δημιουργία μιας ΟΜΟΣΠΟΝΔΙΑΣ με καθολική συμμετοχή των Συλλόγων-Ενώσεων-Λεσχών-Ομάδων απ□ όλη τη Χώρα, με σκοπό την βελτίωση των σχέσεων μεταξύ μας, και την εργασία όλων μας για τη αναβάθμιση και ανάπτυξη του hobby στην Ελλάδα.

Δεν το βλέπω σκόπιμο να αναστηθεί η ήδη υπάρχουσα Ομοσπονδία, όπου το ΔΣ της αποδείχθηκε «λίγο» των προσδοκιών και των απαιτήσεων, ούτε είναι θεμιτό να εγερθούν αισθήματα «Προεδρεύειν» γιατί, ΑΥΤΑ είναι που μας καθηλώνουν.

Η διαλογική συζήτηση και η καλοπροαίρετη τοποθέτηση θα μας αναβαθμίσει και θα μας κάνουν καλύτερους.

Για το λόγο αυτό, έχει δημιουργηθεί ένα group στο Yahoo, (όπως το Svham, the greekhamradio κλπ), σαν ένα ξεκίνημα για το σκοπό αυτό. Το group αυτό ΔΕΝ λειτουργεί ανταγωνιστικά έναντι των υπολοίπων, αλλά αντίθετα θα συλλέγει

γνώμες, διαφωνίες, παρατηρήσεις επί του συγκεκριμένου θέματος. Η άποψη του καθενός θα γνωστοποιείται άμεσα σε όλους και με τη διαλογική συζήτηση σίγουρα θα βγει το σωστότερο συμπέρασμα.

Ήδη σ☐ αυτό το group έχουν προσκληθεί και Ενώσεις, Σύλλογοι, Ομάδες, τα στοιχεία των οποίων αναζητήθηκαν στο διαδίκτυο. Επίσης το κείμενο αυτό έχει αποσταλεί στα γνωστά περιοδικά του χώρου, έντυπα ή ηλεκτρονικά, ενώ έχει αναρτηθεί και στα περισσότερα SV forums.

Ζητώ τη βοήθεια όλων, για την γνωστοποίηση αυτής της κίνησης και την προτροπή όλων των θεσμικών οργάνων στη χώρα μας,

gia to SV re g@motto,

Καλησπέρα,

Πριν λίγο καιρό αγόρασα ένα ρολόι που συγχρονίζει με το σύστημα dcf77, απο έναν πομπό στην Γερμανία. Είχα και απο παρελθόν ένα μίνι σταθμό καιρού που επίσης συγχρονίζει με το ίδιο σύστημα, αλλά ποτέ δεν το έχει καταφέρει να το κάνει μέχρι τώρα. Έψαχνα εδώ και μέρες να βρω τι φταίει και έχω καταλήξει ότι μάλλον είναι η ποιότητα του ρέυματος που δέχομαι στο shack (τραγικό). Αυτό το κατάλαβα γιατί γυρνώντας ένα ραδιόφωνο στην συχνότητα του dcf77 (77,5khz) ακούω μόνο θόρυβο...και αυτό συμβαίνει σε όποια πρίζα ρεύματος και αν βάλω το ράδιο. Επίσης το vx-2 που δεν ακούει εκεί σωστά, ακούει και αυτό τον θόρυβο.

Παιδιά, γίνεται να κάνω κάτι για να φύγει αυτός ο θόρυβος που υπάρχει ?

Please, βοηθήστε έναν συνάδελφο που θέλει απλά να κάνει λήψη του σήματος του dcf77 !!!

Αγαπητέ «Δημήτριε»
Μετά το ηχηρό κέλευσμα και την αθρόα προσέλευση προς διαλογισμό και αναζήτηση λύσεων στο φλέγον πρόβλημα της εκπροσώπησης των Ραδιοερασιτεχνών, επέτρεψέ μου σαν παλαιότερος ερασιτέχνης να περιγράψω με λίγα λόγια το πώς και το γιατί οδηγηθήκαμε σ' αυτή την διάλυση.
Είναι γνωστό σε όλους τους λαούς της υφηλίου το πόσο ηλίθιος ως λαός είμαστε οι Έλληνες. Δεν αναφέρομαι σε εξαιρέσεις αλλά στον κανόνα.
Εκεί που εργαζόμουνα συνήθιζαν να λένε για μας « ότι κάνει ένας έλληνας δεν μπορούν να το κάνουν δέκα αμερικάνοι, και ότι δέκα έλληνες μαζί δεν μπορούν να κάνουν ότι ένας αμερικάνος». Αυτοί είμαστε.
Νομίζω ότι γεύτηκα τόσα πολλά από την «ομαδικότητα» μας την κοινωνική και πολιτική συνείδηση που προτίμησα να αλλάξω επάγγελμα και χόμπι σε κάτι πιο μοναχικό. Επέλεξα να ζω σε ακριτικό νησί και να επικοινωνώ μόνο με φίλους δοκιμασμένους στο χρόνο και την οικογένεια μου.
Μετά τα τόσα καταθλιπτικά «Δημήτριε» να σου δηλώσω ότι αν καταφέρεις και βρεις δέκα «αγνούς» ερασιτέχνες στο χόμπι, να είσαι ευγνώμων στο θεό που σου χάρισε τέτοια τύχη. Για να το συγκεκριμενοποιήσω λέγοντας «αγνούς» εννοώ.
1. Να μην έχουν ή προσδοκούν οποιασδήποτε μορφής επαγγελματική διασύνδεση με το χόμπι και τους ανθρώπους του.
2. Να μην επιδιώκουν κάποιας μορφής αναγνώριση προσωπική, κοινωνική ή πολιτική.
3. Να είναι διαθέσιμοι για δύο ώρες της εβδομάδας να προσφέρουν στο χόμπι.
4. Να αγαπούν αυτό που κάνουν γιατί έτσι γουστάρουν.
Όταν λοιπόν τους βρεις, κάνε ένα παρεάκι και άσε τα περί Ομοσπονδίας και «πραττείν άλογα». Οι λόγοι είναι πολλοί εκτός του προαναφερθέντος, δηλαδή της παντελούς έλλειψης παιδείας. Αν θες εδώ οφείλει η Πολιτεία να έχει τον πρώτο λόγο, γιατί απλά όταν θα μας χρειαστούν δεν θα μας έχουν, χωρίς οργάνωση και υποστήριξη. Μην πάει ο νους σας μόνο στις πυρκαγιές, υπάρχουν άπειρα πεδία δράσης αρκεί να ξεκολλήσουν τα μυαλά τους και να εκμεταλλευτούν τις δυνατότητες της κοινωνίας που υπηρετούν.
Αυτά τα ολίγα και θα μου επιτρέψεις και ασχοληθώ με το σκύλο μου που τρίβει το μπατζάκι για βόλτα.
73ς σε όλους SV8/SV2BWS
Υστ.
προς λύση κάθε παρεξήγησης βάζω το Δημήτριος σε εισαγωγικά

Και όμως φταίει ο θόρυβος...φαινομενικά από ότι δείχνει η συγκεκριμένη φωτογραφία δεν είμαστε μέσα στην εμβέλεια του σταθμού...όμως αν δεις εδώ:
http://en.wikipedia.org/wiki/File:Dcf_weite.jpg
και "επίσημα" στην wikipedia εδώ: http://en.wikipedia.org/wiki/DCF77

θα δεις ότι επισήμως κι'όλας από τους ίδιους εκεί...είμαστε μέσα και με μεγάλη άνεση.

Κώστα σε ευχαριστώ για την απάντηση.

Δηστυχώς η πηγή από ότι φαίνεται είναι το ρεύμα που έρχεται στο σπίτι. Ακόμα και κάτω στο ισόγειο που μένουν οι δικοί μου υπάρχει ακριβώς η ίδια παρεμβολή...που γίνεται πολύ υσχηρή όταν πλησιάζω σε πρίζα ρεύματος. Το ίδιο και στο σπίτι της αδελφής μου, στην ίδια οικοδομή (διαφορετικές "χελώνες").

Υποψήφια συσκευή δεν υπάρχει, σαφώς είναι χειρότερα κοντά στο ψυγείο, αλλά πιθανότερο αυτό που φταίει είναι το ρεύμα. Τώρα για να βάλω φερίτες κάπου, δεν νομίζω να καταφέρω τίποτα, αφού τα συστήματα αυτά λειτουργούν με μπαταρίες. Δεν νομίζω να κερδίσω τίποτα...στην ουσία, ακόμα και έξω απο το σπίτι, ακόμα και σε μερικά καλώδια όπως η κάθοδος της κεραίας βραχέων...αυτός ο θόρυβος ακούγεται πάρα πολύ ακόμα και στο φορητό. Τι εννοείς να βάλω φερίτες στην πρίζα ?

Με βάση την παρεμβολή που άκουει το φορητό (vx-2) έβαλα τον σταθμό σε κάποιο σημείο του σπιτιού που το φαινόμενο δεν είναι ΤΟΣΟ έντονο...αν συγχρονίσει, απλά είμαι τυχερός...αν όχι...κρίμα !

2456. Ελληνικα

Yahoo group: thegreekhamradio
Date: 2010-03-10 07:29:30 UTC
From: Demetre
Topic: 2456   Message: 2456

Καλημέρα συνάδελφοι,

Εδώ και λίγο καιρό άρχισε πάλι το παλιό πρόβλημα με τούς Ελληνικούς χαρακτήρες στα μηνύματα. Από εχθές προσπαθώ να διαβάσω τα τελευταία μηνύματα που επιμένουν να μου βγάζουν κινέζικα τα γράμματα. Τα μηνύματα είναι γραμμένα σε unicode UTF8, South European ISO-8859-3, Windows Greek 1253, Greek ISO-8859-7, και διάφορα άλλα που δεν κατάφερα τελικά να βρω !

Για να κάνουμε την ζωή μας πιο εύκολη, αρκετές δυσκολίες έχουμε καθημερινά, ας καθορίσει ο administrator μια γραμματοσειρά και ας σταματήσουμε να γράφουμε με τα πιο απίθανα Ελληνικά.

Προτείνω την χρήση unicode, πλέον οι πλειοψηφία των λειτουργικών συστημάτων διαχειρίζονται τα Ελληνικά ως unicode, ας κάνουμε λοιπών τις σχετικές ρυθμίσεις στους υπολογιστές μας και ας σταματήσουμε να δυσκολεύουμε την ζωή μας…

Εγώ πάντα ελέγχο τι κωδικοποίηση έχει ο browser μου την συγκεκριμένη στιγμή και πάντα το αλλάζω σε ελληνική. Μερικές φορές έχει unicode. Πιστεύω ότι από εκεί δημιουργείται το πρόβλημα.

```

Συνάδελφε SV1HER

(Στείλε το ενημερωτικό δελτίο στο e-mail ενός φίλου σου για να γραφτεί και αυτός στην λίστα αποδεκτών στέλνοντας το e-mail του στην διεύθυνση raag-hq@...)

Για την ενημέρωση σου:

Περιστέρι καλεί ISS

`OR4ISS THIS IS SX1ISS`

Η Ε.Ε.Ρ. διοργανώνει σε συνεργασία με την Ελληνική Αστρονομική Ένωση, Το Σύλλογο Γονέων και Κηδεμόνων του 18ου Δημοτικού Σχολείου Περιστερίου, την πρώτη επαφή Ελληνικού Δημοτικού σχολείου με το Διαστημικό σταθμό (ISS) στο πρόγραμμα ARISS (Amateur Radio in International Space Station) την Τρίτη 16 Μαρτίου 2010 και ώρα 13:37.

Αν κάποιος συνάδελφος ενδιαφέρεται να παρακολουθήσει και να βοηθήσει στην όλη προσπάθεια μπορεί να επικοινωνήσει με τον SV1IW στο e-mail sv1iw [at] raag.org η τον SV1HER στο e-mail sv1her [at] raag.org και στο 693-2671602.

Η όλη προσπάθεια έχει τεθεί υπό την αιγίδα του Υπουργείου Μεταφορών και Επικοινωνιών και του Δήμου Περιστερίου.

Παρακαλούνται οι συνάδελφοι να διατηρήσουν τις συχνότητες 145.800 και όλες τις ενδιάμεσες 25KHz πάνω η κάτω από αυτήν ελεύθερες από κάθε χρήση. Λόγω προκαθορισμένου ραντεβού ο Διεθνής Διαστημικός Σταθμός θα μιλήσει μόνο με τον σταθμό SX1ISS. Τέλος κλιμάκιο της Ε.Ε.Τ.Τ. θα είναι σε ετοιμότητα την ημέρα της επαφής διασφαλίζοντας την ομαλή διεξαγωγή της.

Περισσότερες πληροφορίες http://www.raag.org/v-files/ISS-18o_Dimotiko_Peristeri.pdf

```
--------------------------------------------------------------------------------
```

Πολλά 73!

RAAG WEB TEAM

DX Packet Cluster:

telnet sz1sv.redirectme.net telnet sv1iw.redirectme.net:7300

http//:sz1sv.redirectme.net/webcluster (δεν λειτουργεί προσωρινά)

http://sv1iw.redirectme.net/cgi-bin/webcluster

Υπενθυμίζουμε ότι η ανώτατη ισχύς ραδιοεραστεχνικού σταθμού βάσει της ισχύουσας νομοθεσίας είναι για μεν την κατηγορία 1 (SV) από 1.8-29.7 MHz 500W από 50MHz-440MHz 100W και πάνω από τους 1240MHz 50W, για δε την κατηγορία 2 (SW) από 144MHz-440MHz 50W και πάνω από τους 1240MHz 10W (σε όλες τις περιπτώσεις αναφερόμαστε σε ισχύ εξόδου κορυφής πριν την κεραία).

Όλοι οι επαναλήπτες VHF της Ε.Ε.Ρ. είναι με διαμόρφωση narrow, φροντίστε να χρησιμοποιείτε το ίδιο εύρος διαμόρφωσης, διαφορετικά να μιλάτε χαμηλότερα στο μικρόφωνο για να σας "περνάει" ο επαναλήπτης.

Στα 6M απαγορεύεται η εκπομπή FM, επίσης η συχνότητα 50.110 είναι για μικρές κλήσεις και αναγγελία QSY σε άλλη συχνότητα.

Απαγορεύεται από τον νόμο η εκπομπή με χρήση άλλου διακριτικού. Αν κάποιοι παρανομούν η πράξη τους δεν απαλλάσσει τους υπόλοιπους από την ευθύνη!

Βοηθείστε να γίνει το APRS δίκτυο χρήσιμο, μην χρησιμοποιείτε πλέον τα path: RELAY, TRACEN-n, WIDEN-n παρά μόνο το WIDE2-2 για fixed και mobile.

Τα e-mail δεν δίνονται σε κανένα! Αν όμως κάποιος δεν επιθυμεί να είναι στην λίστα αποδεκτών παρακαλούμε να αποστείλει σχετικό μηνυμα στην ηλεκτρονική δ/νση raag-hq@...

Γειά σας,

Θέλω να κάνω μια ερώτηση,

Έβαλα windows 7 γνήσια σε ένα εντελώς καινούργιο υπολογιστή...και πέρασα και το Ui-View32 V. 2.03

Όταν προσπαθώ να κάνω button κάποιους χάρτες, την πρώτη φορά μου είπε ότι το έκανε, δεν εμφανίσε τίποτα, φυσικά στα κουμπιά και όταν επιλέγω να το ξανακάνω, μου λέει ότι υπάρχει το button, εγώ όμως δεν το βλέπω.

Γνωρίζει κανείς γιατί συμβαίνει αυτό ?

2475. νέος ελληνικός APRS-IS Tier 2 server

Yahoo group: thegreekhamradio
Date: 2010-04-04 12:17:06 UTC
From: atrias
Topic: 2475   Message: 2475

Με χαρά μου σας ενημερώνω ότι ο T2GREECE, ένας Ελληνικός APRS-IS server στο μεγαλύτερο παγκόσμιο Tier 2 δίκτυο, είναι online εδώ και λίγα 24ωρα!
Λεπτομ^1;ρειες για το server 56;πορείτε να δε^3;τε εδώ:

`http://greece.aprs2.net:14501/`

και για το APRS Tier2 Network εδώ:

`http://www.aprs2.net/`

Οι διαθέσιμες πόρτες είναι:
1314 - μόνο μηνύματα
10152 - πλήρες aprs-is feed χωρίς δυνατότητα φίλτρου (συνδεθείτε μόνο αν πραγματι 54;ά το χρειάζεσ`4;ε!)
14578 - Ελληνικό feed (προτείνεται γ 53;α Έλληνες χρή`3;τες)
14579 - η θέση σας + 500κμ (πρέπει να στείλετε beacon για να λάβετε δεδομένα!)

Το The Greek Hamradio ήρθε πρώτο συνάδελφε (βλέπε ημερομηνία δημιουργίας του στην κεντρική σελίδα). Το γιατί δημιουργούνται τόσα, αυτό είναι άλλο θέμα.

2483. BPSK31 - 3/6/10

Yahoo group: thegreekhamradio
Date: 2010-05-27 08:20:17 UTC
From: spiros_xanthopoulos
Topic: 2483 Message: 2483

Σας καλούμε στο καλοκαιρινό qso party στα 2m mode BPSK31
Ημερομηνία 3/06/10.
Έναρξη 15:00 (UTC) λήξη 21:00 (UTC).
Συχνότητες: 144.135MHz (USB)
Απαραίτητη προϋπόθεση των qso η ανταλλαγή του διακριτικού, της αναφοράς λήψης και του locator του σημείου εκπομπής σας.
Ενθαρρύνουμε όπως πάντα, τη συμμετοχή φορητών σταθμών, τροφοδοτούμενων με μπαταρία και με μικρή ισχύ λειτουργίας. Η /p λειτουργία βοηθά στην ετοιμότητα των σταθμών αλλά και αποτελεί μία καλή προετοιμασία για το Field Day.
Σκοπός του qso party πέρα από την χαρά της ραδιοεπικοινωνίας και της γνωριμίας νέων φίλων, είναι να αυξηθεί η χρήση ψηφιακών εκπομπών και ιδιαίτερα του psk31 στις υψηλές συχνότητες.
Ιδιαίτερη προσοχή χρειάζεται στην αυστηρή εφαρμογή του IARU Region1 Bandplan. Συνεπώς, οι εκπομπές στη συχνότητα 144.135MHz πρέπει να είναι αποκλειστικά και μόνο ψηφιακές σε mode USB.
Τυχόν συνεννοήσεις κλπ. κατά τη διάρκεια του qso πάρτι, μπορούν να γίνονται στην συχνότητα 145.400MHz (+/-15KHz) FM. Ζητούμε την κατανόηση σας για την απρόσκοπτη διεξαγωγή των simplex επικοινωνιών.
Για το καλοκαιρινό qso πάρτι επιλέξαμε μόνο ψηφιακές επικοινωνίες. Για εκπομπές σε άλλα mode συστήνουμε το Aegean vhf contest στις 3 - 4/7/10.
Μπορείτε να στείλετε τις qsl κάρτες σας μέσω bureau ή απευθείας στον σταθμό με τον οποίο είχατε επαφή. Για απευθείας αποστολές, στείλτε επιπλέον ένα φάκελο με τα στοιχεία σας στη θέση του παραλήπτη για απάντηση (S.A.E.).
Οι κάρτες θα απαντηθούν με τον ίδιο τρόπο που θα παραληφθούν.
Δώστε το παρόν στις συχνότητες!

2489. Re: [The Greek Ham Radio] d-star

Yahoo group: thegreekhamradio
Date: 2010-05-29 06:24:05 UTC
From: Ioannis Kokovidis
Topic: 2488 Message: 2489

Καλημέρα Σπύρο!!Μιά χαρά σε κατάλαβα φίλε!!Μιά χαρά!!Στο προηγούμενο σημείωμα ανέπτυξα "φαιδρά" τις αντιρρήσεις μου ή μάλλον καλύτερα τους ενδοιασμούς μου για το Dstar στην Ελλάδα όπως κατάλαβες!!Όμως πέρα από αυτά υπάρχει και η "σκληρή" πραγματικότητα!!!Χρησιμοποιώντας το σύστημα περισσότερο και καθημερινά αντιλαμβάνεσαι και πιό πολλά χρηστικά προβλήματα!! Για παράδειγμα...Αν δεν έχεις πρόσβαση 100% στόν επαναλήπτη (ή σε κάποιο mirror του) ΔΕΝ ΓΙΝΕΤΑΙ ΣΩΣΤΑ Η ΑΠΟΚΩΔΙΚΟΠΟΙΗΣΗ με αποτέλεσμα να μήν ακούγονται αυτά που λές ΚΑΘΟΛΟΥ!!Εάν
είσαι mobile θα έχεις σίγουρα προβλήματα.Σκέψου να είσαι φορητός!!! (Χθές ακόμα δέν άκουγα τον HUC που ήταν mobile πρός Περαία!! Δέν γινότανε αποκωδικοποίηση γιατί το σήμα ήταν παλλόμενο,καθότι mobile,)Τώρα σκέψου το εδαφικό ανάγλυφο της Ελλάδας για να καταλάβης ότι αυτό που λέω περί ουτοπίας μάλλον ευσταθεί!!!Σε άλλη περίπτωση,θα πρέπει να γεμίσουμε επαναλήπτες την Ελλάδα (πιό πολλούς και από την κινητή τηλεφωνία) για να έχουμε καθαρό σήμα (αυτό πού το DStar επαγγέλλεται!!!) Πράμμα που το βλέπω ΑΔΥΝΑΤΟ με τα επικρατώντα στη χώρα μας!!!Πάμε
τώρα στη μετάδοση δεδομένων!! Οι μόνοι σταθμοί ,σήμερα , που υποστηρίζουν DD (Digita Data) είναι ο εξής ΕΝΑΣ Ο SV3G της Τρίπολης!!! Ο SV1P της Αθήνας ΔΕΝ ΕΙΝΑΙ DD Είναι DV (Digital Voice) Για αυτό και οι "πατέντες" τόν γέμισαν προβλήματα!!.Ναί ξέχασα!!Κατά τά λεγόμενα του HNL θα μπή σύντομα και στην Θεσσαλονίκη (SV2F) 1,2 module .Αρα Φίλε μιλάμε για" νηπιακής κατάστασης σύστημα" ακόμα!!! ΙΔΩΜΕΝ!!!!!

Η Ένωση Ραδιοερασιτεχνών Βορείου Ελλάδας (Ε.Ρ.Β.Ε.)

και η Ένωση Ελλήνων Ραδιοερασιτεχνών (Ε.Ε.Ρ.)

διοργανώνουν ημερίδα για την ενημέρωση των συναδέλφων Ραδιοερασιτεχνών με θέμα

Σύγχρονες Ψηφιακές Επικοινωνίες Φωνής και Δεδομένων.

Η ημερίδα θα πραγματοποιηθεί την Κυριακή 24 Οκτωβρίου 2010,

ώρα έναρξης 10:30 π.μ.
στα εντευκτήρια της Ε.Ρ.Β.Ε. στην οδό Πολυκλείτου 45, ’νω Τούμπα.

Την παρουσίαση του θέματος θα κάνει ο Μάνος Δαρκαδάκης SV1IW, εκ μέρους της Ε.Ε.Ρ.

Μετά την παρουσίαση θα επακολουθήσει συζήτηση.

Η είσοδος είναι ελεύθερη για όλους τους συναδέλφους Ραδιοερασιτέχνες.

Σεμινάριο ψηφιακών από το .Σ.Ε.Ρ

Για μια ακόμη φορά, ο Σύλλογος μας βρίσκεται στη πρώτη γραμμή των εξελίξεων και κοντά στον συνάδελφο Ραδιοερασιτέχνη της Περιφέρειας.

Με αφορμή την πρόσφατη συνεργασία του Σ.Ε.Ρ με την Ραδιολέσχη Φλώρινας, σε θέματα αναμεταδοτών και όχι μόνο, έφτασε η ώρα να πραγματοποιηθεί και το πολυπόθητο σεμινάριο ψηφιακών ραδιοεπικοινωνιών.
Ο Σύλλογος μας, δείχνει εμπράκτως ότι σέβεται τους Ραδιοερασιτεχνικούς φορείς της Επαρχίας και πορεύεται σε κοινή γραμμή.

Στα πλαίσια διευκόλυνσης των συναδέλφων της Βορειοδυτικής Ελλάδος, καλούμε τους ραδιοερασιτέχνες της Φλώρινας, Κοζάνης, Αμύνταιου, Καστοριάς, Πτολεμαΐδας, Γρεβενών, Καρδίτσας και λοιπών γύρω περιοχών, να μας τιμήσουν με την παρουσία τους, στο σεμινάριο με Θέμα "Ψηφιακές Επικοινωνίες Υπηρεσίας Ραδιοερασιτέχνη".

Η εν λόγω εκδήλωση θα πραγματοποιηθεί στις 24 Οκτωβρίου 2010 και ώρα 10.00 πμ, στην αίθουσα του Εργατικού Κέντρου Φλώρινας.

Για περισσότερες πληροφορίες, επικοινωνήστε με τον συνάδελφο SV1EDZ Βελισσάρη Δημήτρη στο τηλέφωνο 6943-082730 ή με τον Πρόεδρο της Ραδιολέσχης Φλώρινας SV2FAV Βοζινίδη Κώστα στο τηλέφωνο 6975-885423.

Στην διάθεση σας για οποιαδήποτε διευκρίνηση.

Ο Πρόεδρος
Δρακακάκης Μιχάλης

ΠΡΟΣΚΛΗΣΗ
Το Σάββατο 16 Οκτωβρίου μετά τις 10:00 π.μ.
ο Σύλλογος Ραδιορασιτεχνών Μαγνησίας, όπως και κάθε χρόνο,
θα βρίσκεται στο 7ο Σύστημα Ναυτοπροσκόπων Μαγνησίας
(στον Ἀναυρο πίσω απο το ΝΟΒ)
με σκοπό την τηλεπικοινωνιακή υποστήριξη του θεσμού JOTA.
Η προσέλευση των προσκόπων θα γίνει απο τις 15:30 έως 17:30
όπου θα γίνουν επικοινωνίες με άλλα συστήματα προσκόπων απ' όλο τον κόσμο..
Αν εκδηλωθεί ανάλογο ενδιαφέρον θα μπορέσουμε να επαναλάβουμε το event
και την Κυριακή 17 Οκτώβρη.

Για την ενημέρωση σου:

Κλασσικός Μαραθωνίος Δρόμος

Λόγω του Κλασσικού Μαραθωνίου δρόμου στον οποίον συμμετέχουν 26.000 αθλητές απ□ όλο τον κόσμο, την Κυριακή 31 Οκτωβρίου και από ώρα 0500 έως 1800, οι επαναλήπτες R1 και R7 της Ένωσης Ελλήνων Ραδιοερασιτεχνών (ΕΕΡ) καθώς και οι RU91 και RU97 του Συλλόγου Ραδιοερασιτεχνών Ελλάδος (ΣΡΕ) θα χρησιμοποιηθούν αποκλειστικά για την κάλυψη του αγώνα, σε συνεργασία με το ΣΕΓΑΣ.Ως εκ τούτου παρακαλούμε να μην γίνει χρήση των επαναληπτών από συναδέλφους Ραδιοερασιτέχνες για την απρόσκοπτη διεξαγωγή του αγώνα. Η κάλυψη του Φετινού Μαραθωνίου θα γίνει σε συνεργασία από τις Ομάδες Έκτακτης Ανάγκης της ΕΕΡ, του ΣΡΕ και της ΠΡΟ Θεσσαλονίκης.

Ευχαριστούμε όλους τους συνάδελφους για την κατανόηση και την συνεργασία.

Dear Dr Ellis Evans,

Thank you for signing the "THE NATION SPEAKS - “NO!, not in my name’’" petition at iPetitions.com.
Your signature is valuable and makes a real difference. Please encourage others to sign the petition as well. Forward the text below to everyone who might be interested:

------- FORWARD THIS TO YOUR FRIENDS -------
Hi,

I wanted to draw your attention to this important petition that I recently signed:

"THE NATION SPEAKS - “NO!, not in my name’’"
http://www.ipetitions.com/petition/joininghandsinhealth/

I really think this is an important cause, and I'd like to encourage you to add your signature, too. It's free and takes just a few seconds of your time.

Thanks!
----

p.s. If you would like to start your own free petition, you can do so at
http://www.ipetitions.com/start-petition

UNSUBSCRIBE: This email is a one-time correspondence from iPetitions to confirm your petition signature and you will not be contacted again regarding this

matter. You are not part of any iPetitions mailing list and there is nothing to "unsubscribe" from.

Did you receive this email in error? Sometimes people enter wrong email addresses when they sign a petition. If you think this has happened, please send us an email at support@... and explain the problem. Thank you!

2551. Δοκιμές στους 144MHZ την Κυρια κή

Yahoo group: thegreekhamradio
Date: 2010-11-19 09:36:38 UTC
From: spiros_xanthopoulos
Topic: 2551   Message: 2551

Πέμπτη, 18 Νοεμβρίου 2010
Δοκιμές στους 144MHZ την Κυριακή...
Μετά από την επιτυχία του UHF Party που οργάνωσε το Athens QRP net στην Πάρνηθα την προηγούμενη Κυριακή, οι Τούρκοι συνάδελφοι μας που συμμετείχαν από την απέναντι πλευρά ενθουσιάστηκαν πολύ και ετοιμάζουν να κάνουν κάτι παρόμοιο στα VHF, στο ίδιο ψηλό σημείο που ήταν την προηγούμενη φορά.
Αυτό θα πραγματοποιηθεί την Κυριακή που μας έρχεται 21/11/2010.
Οι ραδιοερασιτέχνες που θα βρίσκονται εκεί θα είναι μάλλον 4.
TA3TTT, TB3JJ, TA3X και ο γνωστός TA3BS.
Συχνότητα κλήσης USB 144300 QSY 144310
Θα ξεκινήσουν εκπομπές από 10 ώρα Ελλάδος η 8.00 UTC
Επίσης για ραδιοερασιτέχνες που δεν έχουν SSB θα καλέσουν σε FM διαμόρφωση περίπου 11.30 ώρα Ελλάδος, η UTC 9.30 στην συχνότητα 145425.
Είναι επίσης πιθανό να καλέσουν δοκιμαστικά και σε ελληνικούς επαναλήπτες φωνής.
Θα έχουν κατευθυνόμενες κεραίες.
Το στίγμα της τοποθεσίας είναι
http://maps.google.com/maps?f=q&q=38.58 ... 0Turkey%29

2553. Λήψη στην πολύ ενδιαφέρουσα ζώνη των VLF

Yahoo group: thegreekhamradio
Date: 2010-12-06 20:53:48 UTC
From: Costas J. Dovas - SV4FFL
Topic: 2553 Message: 2553
Attachments: 1 described; binary payloads are missing from this source WARC

Λήψη στους 135,6 Khz απο σταθμό EFR.
Αν έχετε αυτορυθμιζόμενα ρολόγια DCF39/49
είναι το πρότυπο και η ζώνη που χρησιμοποιούν
καθώς κι άλλες συσκευές για συχρονισμό της ώρας.
Πρόκειται για FSK με shift 340hz, 200baud ταχύτητα
με κωδικοποίηση Ascii 8-even parity και όπως βλέπετε
χρειάστηκε να κάνουμε invert.
Κάτω δεξιά στη φωτό έχω τις παραμέτρους που θα χρειαστείτε
για να αποκωδικοποιήσετε και εσείς αυτά τα σήματα
με το Mixw. Η λήψη έγινε με Yaesu FT-920 και κεραία
Vertical 11m τοποθετημένη στην ταράτσα κτιρίου 10 μέτρων
περίπου στις 21:53 ώρα Ελλάδας.
Ψάχνοντας στο ίντερνετ είδα ότι πρόκειται για τον
http://qrg.dk1ny.ath.cx/details.php?id=19239 στη Βουδαπέστη
με διακριτικό HGA22 (EFR Telecontrol Lakihegy, HUN)
Αν και τα λαμβανόμενα frame όπως βλέπετε αναφέρουν το διακριτικό
DCF39/49 (δεν μπορώ να καταλάβω γιατί) οι οποίοι είναι Γερμανικοί σταθμοί
τους οποίους σε πρώτη προσπάθεια σήμερα δεν μπόρεσα να ακούσω
στις συχνότητες που ακολουθούν.
129,10 DCF49 EFR Telecontrol Mainflingen, DEU
139,00 DCF39 EFR Telecontrol Burg, DEU

Επίσης εδώ θα βρείτε μια πολύ ωραία λίστα με συχνότητες που σίγουρα
θα βρείτε ενδιαφέρουσα από το site του IK4HDQ http://ik4hdq.net/doc/0to5MHz.htm

73's και καλή επιτυχία ;-) de SV4FFL

2554. Ραδιοερασιτεχνική εφαρμογή για το i-phone...

Yahoo group: thegreekhamradio
Date: 2010-12-08 20:40:38 UTC
From: spiros_xanthopoulos
Topic: 2554 Message: 2554

Ο συνάδελφος Χρήστος SW1NJX έκανε μια εφαρμογή για το iphone της Apple η οποία είναι διαθέσιμη από το App Store. Λέγεται SVLand και στην ουσία είναι ένας χάρτης με τα βασικά Repeaters. Η εφαρμογή είναι δωρεάν και την κατεβάζει οποιοσδήποτε έχει iphone. Ο Χρήστος περιμένει να το δείτε και να το χρησιμοποιήσετε. Επικοινωνείστε με τον ίδιο για εντυπώσεις ή υποδείξεις ενώ για περισσότερες πληροφορίες:
http://drmac.gr/?page_id=201
http://itunes.apple.com/us/app/svland/id406817344?mt=8
Ευχαριστούμε Χρήστο...

Από: Kostas Stamatis <sv1dpi@...>
Θέμα: [The Greek Ham Radio] ARRL 10m contest
Προς: "REFLECTOR ΕΛΛΗΝΙΚΟΣ" <thegreekhamradio@yahoogroups.com>
Ημερομηνία: Παρασκευή, 10 Δεκέμβριος 2010, 7:52

Αυτό το Σαββατοκύριακο είναι το contest της ARRL για τα 10μ. Όπως
καταλαβαίνει κάποιος γίνεται μόνο στα 10μ. Για πολλοστή φορά θα πάρουμε
μέρος ως ΕΡΔΕ με το διακριτικό SZ1A. Αν μας ακούσετε καλέστε μας όπως
επίσης, αν μπορείτε να μας σποτάρετε (εφόσον μας κάνετε) στα κλάστερς.
Αναλυτικά οι κανόνες του διαγωνισμού στα Ελληνικά (όπως κι άλλοι κανόνες),
στη διεύθυνση http://users.otenet.gr/~sv1dpi/gr/articles/contestrules.html

From: spiros_xanthopoulos
Topic: 2558 Message: 2558

Γειά σας,

Έχει κανείς το πιο πάνω συνδυασμό μηχανημάτων (signalink usb,echolink ic7000);

Έχω ένα πρόβλημα όταν το signalink είναι σε idle κατάσταση και η μπάρα του echolink (για εγκατάσταση σε link mode) είναι συνέχεια πολύ υψηλά.

Κάθε βοήθεια δεκτή.

Συνάδελφε Κατ' αρχάς Χρόνια πολλά και καλά Χριστούγεννα.
Ενδιαφέρομαι για το τροφοδοτικό, αλλά δεν ξέρω αν θα ήταν εύκολο να το στείλεις στην Κύπρο και αν φυσικά δεν είναι τα μεταφορικά ποιο ακριβά από το τροφοδοτικό hi hi.
όπως και να είναι εύχομαι χρόνια πολλά σε εσένα και την οικογένεια σου.

πολλά 73

Δεν έχω ιδέα συνάδελφε...εγώ είχα μνήμη για έναν επαναλήπτη περιοχής 4 και τώρα με ενημέρωσαν και έστειλα για να τον δοκιμάσουν και άλλοι και να ενημερωθούν.

2587. ECHOLINK CONFERENCE GREEKNET

Yahoo group: thegreekhamradio
Date: 2011-02-05 14:43:00 UTC
From: spiros_xanthopoulos
Topic: 2587   Message: 2587

Γεια σας,

Ενημερώνονται οι συνάδελφοι που χρησιμοποιούν το echolink,ότι λειτουργεί ένα νέο Conference room (δωμάτιο) με ονομασία GreekNet.

Εκεί μπορούμε να συνδέουμε διάφορους σταθμούς και έτσι όλοι να μπορούν να επικοινωνήσουν με διαφορετικούς σταθμούς την ίδια στιγμή.

```
http://www.echolink.org/faq_installation.htm
. Will EchoLink run on a PDA, such as an
iPhone or a Windows Mobile device?
An edition of EchoLink for the Apple iPhone and iPod touch is now available, free of
charge, at the App Store.
You must already be a validated EchoLink user before you can use
this edition of the program; if
you are not already validated, please download and install the Windows
version on a PC first, then
follow the validation procedure as outlined on this site.
An edition of
EchoLink for Android is also available, from the Android Market.
However, there are no plans to offer
EchoLink for other mobile platforms. Please note that Windows
PC applications such as EchoLink cannot be installed on a Windows Mobile
device.
```

Είναι λογικό, το Android καθώς και το iPhone έχουν κυριαρχήσει στην αγορά των mobile devices και η πίτα για τα Windows Mobile έχει μειωθεί εξαιρετικά.

2606. Κόμβος Cluster

Yahoo group: thegreekhamradio
Date: 2011-02-22 09:02:42 UTC
From: Giannis Giannakosian
Topic: 2606   Message: 2606

Θα ήθελα να σας ενημερώσω ότι λειτουργεί κόμβος cluster και όσοι επιθυμούν μπορούν να συνδεθούν σε αυτόν για να βλέπουν και να στέλνουν τα dx spots, χωρίς να χρειάζετε να συνδεθείτε σε κάποιον άλλο κόμβο του εξωτερικού. Το καινούριο software (ARC6) που "τρέχει" αυτήν την στιγμή στον κόμβο αν και είναι ακόμη beta έκδοση είναι πολύ γρήγορο για τους users και ανάλογα με την πόρτα που χρησιμοποιεί ο user μπορεί να βλέπει τα dx spots μαζί με τους skimmers ή μόνο τα dx
spots.
Περισσότερες πληροφορίες θα βρείτε στο http://www.sv4ffb.blogspot.com/

```
Telnet>IP: sv4ffb.no-ip.org>port: 7373 (include skimmers spots).   (ARC6)
Telnet>IP: sv4ffb.no-ip.org>port: 7374 (without skimmers spots).  (ARC6)
Telnet>IP: sv4ffb.no-ip.org>port: 7300  (Old ARC4)
WebCluster: http://sv4ffb.no-ip.org/
```

Είμαι στην ευχάριστη θέση να σας ενημερώσω για τη δημιουργία ενός Forum με θέμα την ραδιοερασιτεχνική ψηφιακή τεχνολογία D-Star. Θα ήταν ευχαρίστησή μας, η εγγραφή σας και η συμμετοχή στη συζήτηση γύρω από το θέμα. Ελπίζουμε στην ανταλλαγή απόψεων που θα βελτιώσουν τον σχεδιασμό και τον τρόπο χρήσης του συστήματος, με τελικό στόχο την επίτευξη ενός αποδοτικότερου δικτύου.
Η εγγραφή, η συμμετοχή και η ανάγνωση των μηνυμάτων είναι ανοιχτή για όλους τους ενδιαφερόμενους. Η ονομασία του Group είναι Dstar-Greece@yahoogroups.com και η ηλεκτρονική διεύθυνση
http://groups.yahoo.com/group/Dstar-Greece

Subject: ΟΧΙ στα Πυρηνικά Εργοστάσια Ακούγιου & Σινώπης (Τουρκία) ! // STOP Nuclear Plants in Akkuyu & Sinop (Turkey) !

Το Πανεπιστήμιο Αιγαίου έλαβε την πρωτοβουλία συλλογής υπογραφών, προκειμένου να σταματήσει η ανέγερση των δυο πυρηνικών εργοστασίων σε περιοχές της Τουρκίας. Η επιτυχία αυτού του εγχειρήματος εξαρτάται τόσο από την συμμετοχή σας όσο και από τη διάδοση του παρόντος μηνύματος.
Στην διεύθυνση http://petition.aegean.gr/stopnuclearplants/ θα βρείτε το αναλυτικό κείμενο και θα έχετε τη δυνατότητα υπογραφής αυτού.

Ευελπιστούμε στην υποστήριξή σας.

The University of the Aegean has taken the initiative of collecting signatures against the construction of two nuclear plants in Turkey. The success of this attempt lies both on your participation and the dissemination of this message.
By visiting the website: http://petition.aegean.gr/stopnuclearplants/ you will have the opportunity to read the full article and you will also be given the chance to participate in the petition.

We count on your support.

```

Παίρνω το θάρρος από προηγούμενη συνεργασία μας, που αποδείχθηκε ΕΠΙΤΥΧΗΜΕΝΗ, και σας καλώ για άλλη μια φορά για συμμετοχή σε άλλη μια Ραδιοερασιτεχνική δραστηριότητα.

Το θέμα είναι η διεξαγωγή των Special Olympics 2011 στην Αθήνα από τις 25/6 έως και τις 4/7/2011, όπου είναι οι Τελετές Έναρξης και Λήξης.

Σίγουρα δεν έχουν την αίγλη και τη δημοσιότητα των Ολυμπιακών Αγώνων, αλλά το ότι θα συμμετάσχουν ΑΜΕΑ από 175 χώρες και το σπουδαιότερο θα διεξαχθούν στην Αθήνα είναι μια άλλη ευκαιρία να αποδείξουμε ότι εμείς οι έλληνες μπορούμε και πάλι να δώσουμε το παρών ΑΞΙΟΠΡΕΠΩΣ, ακόμα και σε δύσκολες εποχές.

Ήδη πριν από 2 χρόνια είχα κάνει μία νύξη για τους Special Olympics sto SVham, και μια που "ο καιρός εγγύς γαρ", αν είναι να το πραγματοποιήσουμε θα πρέπει να οργανώσουμε από τώρα.

Θυμάμαι για τους Ολυμπιακούς 2004 από το Φεβρουάριο ο Σάββας SV2AEL είχε ξεκινήσει το "Προσκλητήριο" φθάνοντας τους 125 χειριστές σε όλα SV.

Και δε διαψεύσθηκε. 146.000+ QSOs, 202 DXCC, ALL 40 Zones, χιλιάδες QSL cards στάλθηκαν via SV Bureau.

Αλλά το σημαντικότερο για μένα ήταν η συμμετοχή. Από το 2002 που είχα πάρει την άδειά μου περιπλανιόμουν περισσότερο στα V/U repeaters παρά στα HF.

Η ευκαιρία που μου δόθηκε να νοιώσω τι εστί CQ ήταν η αφορμή να συνεχίσω, να συνεχίζω και θα συνεχίζω...

για το SV re g@m otto.

Έχω κάνει κάποια προεργασία στο internet, η εμπειρία που αποκτήθηκε αποδεικνύεται σημαντική και έτσι τα βήματα θα είναι πιο μελετημένα και χωρίς απρόοπτα (ελπίζω).

Έχουν εντοπιστεί οι αρρυθμίες και παρατράγουδα όταν γίνεται κάτι ιδιαίτερα μεγάλο και πιστεύω ότι με πνεύμα συνεργασίας και διάθεση για προσφορά και βοήθεια όλα θα ξεπεραστούν.

Μπορείτε να δείτε το βασικό σκεπτικό στο http://SX-A. blogspot. com ενώ στο qrz.com είναι απλές παρουσίες των διακριτικών πχ http://www.qrz. com/callsign/ sx7a

Όσοι ενδιαφέρονται να συμμετάσχουν ας στείλουν απαντητικό email στο sv2gwy(at)nrg. com.gr. Σε αυτούς θα δοθούν και θα ζητηθούν περισσότερες λεπτομέρειες σχετικά με το Ημερολόγιο εκπομπών, την υλικοτεχνική υποδομή, την ευχέρεια κλπ.

Είμαι σίγουρος ότι οι περισσότεροι από εσάς θα αποδεχθείτε την πρόταση. Μπορεί η διάρκεια να είναι μικρή και οι μέρες ελάχιστες συγκριτικά με το 2004, αλλά υπάρχει θέση για όλους.

Στον εθενοντισμό ΔΕΝ περισσεύει κανείς.

Γνώμες, προτάσεις και ιδέες πάντα είναι καλοδεχούμενες γιατί αυτά θα μας κάνουν καλύτερους.

always QRV,

de SV2GWY / Demetrius

by EFENPRESS

Όπως ίσως έχετε ακούσει από μέρα σε μέρα αναμένεται στις ιστοσελίδες του www.opengov.gr το κείμενο της νέας διαβούλευσης για την τροποποίηση της Υ.Α. που αφορά τον κανονισμό λειτουργίας Ραδιοερασιτεχνών. Η νέα Υ.Α. είναι εκείνη η οποία αλλιώς εμφανίστηκε στον Αύγουστο του 2010 και αλλιώς προέκυψε μετά το τέλος της διαβούλευσης. Παρόλα αυτά το ΥΥΜΔ αφού έκανε τις αλλαγές που προκύπτουν από προτάσεις μας, έκρινε ότι είχε κινηθεί γρήγορα και έκανε και άλλες αλλαγές σε τέτοιο βαθμό που χρειάζεται και νέα διαβούλευση προκειμένου να τύχει της αποδοχής όλων μας. Δυστυχώς η νέα Υ.Α. πέρα από εκείνα που είπαμε και επέρισυ και που πιστεύουμε σε γενικές γραμμές διορθώνει αρκετά πράγματα σε σχέση με την παλιά, έχει τουλάχιστον μια νέα πρόταση τροποποίησης που θεωρούμε καταστροφική για τον ραδιοερασιτεχνισμό αν στο τέλος εφαρμοστεί. Η τροποποίηση έχει σχέση με την επιτρεπόμενη ισχύ των ραδιοερασιτεχνικών πομποδεκτών και μας γυρίζει πίσω και από τον πρώτο νόμο που εκδόθηκε ποτέ για ραδιοερασιτέχνες τον 1244 του1972. Σύμφωνα με τις πληροφορίες μας η αλλαγή προτείνεται από το γραφείο του Υφυπουργού κου Σ. Βούγια και προσπαθεί να περάσει μια λανθασμένη, κατά την άποψη μας, αλλά και ατεκμηρίωτη ισχύ για τους ραδιοερασιτέχνες που να μην ξεπερνά τα 100W ERP!!!

Για τον λόγο αυτό παρακαλώ σε πρώτη φάση να ενημερωθούν όλα τα μέλη από τα Διοικητικά Συμβούλια των Συλλόγων και στην συνέχεια τα μέλη σας. Για περισσότερες διευκρινίσεις και λεπτομέρειες που θα βοηθήσουν στο να αντιτάξετε ισχυρά επιχειρήματα, είμαι στην διάθεση όλων σας τηλεφωνικά η μέσω e-mail προκειμένου και να ενημερώσετε τα μέλη σας σωστά αλλά και για να στείλετε σωστές απόψεις στην επερχόμενη διαβούλευση. Θεωρούμε ότι πρέπει να υπάρξει μια κοινή αντίδραση και θέση, βασιζόμενοι σε επιχειρηματολογία και όχι σε αυθαιρεσίες όπως αυτές που βασίζεται η πρόταση του Υπουργείου που ας σημειωθεί ότι έχει προκαλέσει πολλές αντιδράσεις και εκ των έσω. Η προσπάθεια μας είναι να ανατρέψουμε αυτή την προσπάθεια συρρίκνωσης της λειτουργίας μας και εξομοίωση μας με τις εταιρείες κινητής τηλεφωνίας η τους ραδιοτηλεοπτικούς σταθμούς που εκπέμπουν σε full ισχύ (και παραπάνω πολλές φορές από την νόμιμη), 24 ώρες το 24ωρο 365 μέρες τον χρόνο. Επαναλαμβάνω ότι το θέμα είναι πολύ σοβαρό αφορά όλους μας (αφού είναι πολύ πιθανή η εξομοίωση SV και SW) και απαιτεί το ίδιο σοβαρή αντιμετώπιση σε ατομικό η συλλογικό επίπεδο.

2639. SZ3HAG Επαναλήπτης D-star Πελοποννήσου

Yahoo group: thegreekhamradio
Date: 2011-05-16 10:56:36 UTC
From: spiros_xanthopoulos
Topic: 2639 Message: 2639

Είμαστε στην ευχάριστη θέση να σας ενημερώσουμε για την δοκιμαστική ενεργοποίηση ενός νέου UHF επαναλήπτη, στην ευρύτερη περιοχή της Πελοποννήσου.

Στην παρούσα φάση, λειτουργεί τοπικά και προσφέρει δυνατότητα πρόσβασης από την Τρίπολη, Καλαμάτα, Σπάρτη, Μεγαλόπολη και μεγάλο οδικό άξονα της καινούριας Εθνικής οδού.
Προς το παρόν δεν είναι ενεργοποιημένος ο Gateway σύνδεσης στο Ελληνικό & Παγκόσμιο δίκτυο.

Οι πρώτες δοκιμές με τους σταθμούς SV3BPA (Παναγιώτης), SW3OQM (Στέλιος) από την πόλη της Καλαμάτας και του SV1EDZ (Δημήτρης) με mobile από Σπάρτη προς Αρτεμίσιο, έδειξαν πολύ καλά αποτελέσματα με πιθανή δυνατότητα βελτίωσης.
Σταθμοί από την Αθήνα (Χαλάνδρι) και κινητός σταθμός στην Αττική Οδό (κόμβος Κατεχάκη) μας έδωσαν αναφορά S5-7.

Ο χάρτης ραδιοκάλυψης που βλέπεται, αφορά κινητό σταθμό με κεραία μηδενικής απολαβής και ευαισθησία δέκτη -110 dBm.
Σύντομα θα γίνουν οι τελευταίες εργασίες, προκειμένου να λειτουργήσουν όλες οι ψηφιακές δυνατότητες του συστήματος.

Οι συχνότητες λειτουργίας του επαναλήπτη είναι:
TX 439.025 MHz
RX 431.425 MHz
ID SZ3HAG

Παρακαλούμε τους συναδέλφους που έχουν δυνατότητα δοκιμών, να μας ενημερώσουν για τα αποτελέσματα στο email sv1edz@gmail.com και hag@hag.gr

Όπως γνωρίζετε από το απόγευμα της Δευτέρας 16 Μαΐου αναρτήθηκε η διαβούλευση της Νέας Υπουργικής Απόφασης στον ιστότοπο http://www.opengov.gr

Η Ε.Ε.Ρ. σας προτρέπει να προσέξετε τα ακόλουθα άρθρα:

1. Άρθρο 21 παρ. 2 - Στην επιτρεπόμενη ισχύ των ραδιοερασιτεχνικών σταθμών έχουμε παγκόσμια πρωτοτυπία αφού δεν αναφέρεται ρητά η επιτρεπόμενη ισχύς σε Watt P.E.P. Επίσης υπεισέρχονται πιθανές Τεχνικές Μελέτες Ακτινοβολιών (αφού πρώτα γίνει η μοντελοποίηση των κεραιών και του περιβάλλοντα χώρου με εξειδικευμένο λογισμικό) και μετρήσεις της Ε.Ε.Α.Ε.

2. Άρθρο 10 παρ.4 Δεν διευκρινίζεται ρητά ποιος φορέας επιβλέπει το ραδιοερασιτεχνικό φάσμα. Η Ε.Ε.Τ.Τ. που αναφέρει η παρούσα Υ.Α. απαλλάσσεται από την δικαιοδοσία της σε ραδιοερασιτέχνες σύμφωνα με τον νόμο 3431/2006.

Άρθρο 27 παρ. 6 – Διατηρείται το παλιό καθεστώς εξέτασης των υποψηφίων, χωρίς να δίνεται κάποιο δεσμευτικό χρονικό περιθώριο για το πότε ο νέος τρόπος θα τεθεί σε εφαρμογή. Συνεχίζεται έτσι απρόσκοπτα η “παραγωγή” ραδιοερασιτεχνών με full προνόμια πλέον με “μεθόδους” που όλοι υποψιαζόμαστε...

Καλούνται όλοι οι συνάδελφοι να πάρουν θέση και να αποστείλουν στην διαβούλευση όσο περισσότερα σχόλια μπορούν.

Αναλυτικά όλα τα άρθρα και αντίστοιχες παρατηρήσεις με βοηθητικά κείμενα που μπορείτε να χρησιμοποιείτε ελεύθερα για τα σχόλια σας στην διαβούλευση, μπορείτε να βρείτε στις ιστοσελίδες της Ε.Ε.Ρ. http://www.raag.org

Εννοούσα τι χαρακτηριστικά έχουν δώσει μέχρι τώρα...π.χ SV2/SW2 K** ή κάτι τέτοιο τέλος πάντων..όχι όσων αφορά τις κατηγορίες.

Καλημέρα/Καλησπέρα σε όλους,

Δοκιμαστικά ξεκίνησα μια νέα ραδιοερασιτεχνική ιστοσελίδα.

Παρακαλώ ρίξτε μια ματιά και θα ήθελα να ακούσω τις απόψεις σας.

Γεια σου Σπυρο & καλη βδομαδα.

Καλυτερα να θεσεις το ερωτημα με τη μορφη "εαν θα γινουν εξετασεις γι'αυτην την περιοδο ή οχι"
Γιατι δεν δοκιμαζεις να επικοινωνησεις απευθειας με την αρμοδια Υπηρεσια ?
Σε καθε περιπτωση και βασει της σχετικης εμπειριας, νομιζω οτι ειναι καπως προωρο το ζητημα, δεδομενου οτι εχουν υπαρξει χρονιες που η δευτερη εξεταστικη περιοδος ελαβε χωρα το μηνα Νοεμβριο.....
Καλη τυχη στην αναζητηση σου !!!

2658. Re: [The Greek Ham Radio] εξετάσεις ραδιοερασιτεχνών θεσσα λονίκης.Ημερομηνία ?

Yahoo group: thegreekhamradio
Date: 2011-09-07 08:49:42 UTC
From: TRANSVALIDIS COSTAS
Topic: 2655 Message: 2658

Σπύρο, σχετικά με το ερώτημα που έθεσες, έχω μία εύλογη απορία :
Οπως φαντάζομαι θα γνωρίζεις, δημοσιεύθηκε ήδη ο πολυαναμενόμενος νέος κανονισμός λειτουργίας και ισχύει από 2/9/2011 (ΦΕΚ Β, τ. 1969, σ. 27087 επ.). Σύμφωνα με το άρθρο 27 παρ. 6 αυτού, από την έναρξη ισχύος του καταργείται ο προηγούμενος κανονισμός λειτουργίας. Σύμφωνα όμως με την επόμενη παράγραφο του ίδιου άρθρου, οι εξετάσεις με το νέο σύστημα θα διενεργηθούν γιά πρώτη φορά μετά την έκδοση σχετικής εγκυκλίου του Γ. Γραμ. Επικοινωνιών.

Δεν γνωρίζω βέβαια εάν αυτή τη στιγμή έχει ήδη εκδοθεί η εγκύκλιος αυτή και εάν όλες οι ΑΠΥ είναι έτοιμες από πλευράς υλικοτεχνικής υποδομής να διενεργήσουν εξετάσεις με το νέο ηλεκτρονικό σύστημα εξετάσεων, αν όμως δεν έχει ακόμα εκδοθεί η εγκύκλιος, τότε πως θα διενεργούνται οι εξετάσεις ? Ασφαλώς δεν μπορούν να γίνουν με το παλιό σύστημα, δεδομένου ότι ο προηγούμενος κανονισμός έχει καταργηθεί στο σύνολό του και δεν έχει προβλεφθεί με κάποια μεταβατική διάταξη ότι μέχρι την έκδοση της σχετικής εγκυκλίου οι εξετάσεις θα
διενεργούνται με το παλιό σύστημα ....
Κατά συνέπεια, εκτιμώ ως σφόδρα πιθανή τη μη διενέργεια των εξετάσεων (τουλάχιστον) γιά την περίοδο αυτή, εκτός εάν προηγηθεί η έκδοση της ανωτέρω εγκυκλίου και είναι οι ΑΠΥ πραγματικά σε θέση να διοργανώσουν εξετάσεις σύμφωνα με το νέο σύστημα.
Μέχρι τότε, υπομονή και καλό κουράγιο (το τελευταίο δεν είναι δικό μου, το είχε πρίν από λίγο καιρό ο Ολι Ρεν, αν το θυμάσαι....)

Ενημέρωση από την ΕΕΡ & την IARU / Emergency Communications
Παρακαλούμε ενημερώστε να μην χρησιμοποιούνται ή να γίνεται με προσοχή χρήση στις συχνότητες 3.643, 3.760 MHz και 7.045-7.060 MHz μέχρι και την Δευτέρα 7 Νοεμβρίου.

Italian Amateurs involved in flood response

Friday, 04 November 2011 23:03

Following flash flooding in the Liguria and Tuscany regions of North West Italy last week which killed 10 people, further heavy rain has struck the region killing more people in flooding. The Amateur Radio Voluntary communications group RNRE has been asked by their government to provide additional radio communications in the affected areas from Friday 4th November until at least Monday 7th November.

HF Frequencies which may be used in Italy are 3.643, 3.760MHz and 7.045-7.060MHz. Amateurs are asked to listen carefully before using these frequencies to avoid causing QRM to emergency nets

(516) 681-2922 / k2mga@...

FOR IMMEDIATE RELEASE: January 24, 2012

ARRL & CQ Sign Agreement to Provide
ARRL's Logbook of The World Support for CQ's Awards

(Hicksville, NY and Newington, CT - Jan. 24, 2012) - CQ Communications, Inc. (CQ) and ARRL - the national association for Amateur Radio, have signed an agreement to begin providing support for CQ-sponsored operating awards by the ARRL's Logbook of the World (LoTW) electronic confirmation system.. The agreement was announced jointly today by ARRL Chief Operating Officer Harold Kramer, WJ1B, and CQ Communications President Richard Ross, K2MGA.

CQ's awards will be the first non-ARRL awards supported by LoTW and will be phased in, beginning with the CQ WPX award. Additional CQ awards will follow. The ARRL's LoTW system, an interactive database recording contacts between radio amateurs was created in 2003 and has been adopted by 47,500 radio "hams" worldwide. It already has records of 400 million contacts and grows weekly. The target date for beginning LoTW support for WPX is April 1, 2012. Amateurs will be able to use LoTW logs to generate lists of confirmed contacts to be submitted for WPX credit. Standard LoTW credit fees and CQ award fees will apply.

ARRL Chief Executive Officer David Sumner, K1ZZ, observed that this step gives radio amateurs throughout the world an inexpensive and convenient means of gaining credits toward CQ's popular operating awards. "LoTW has significantly increased interest and participation in the ARRL's DXCC, Worked All States and VUCC awards programs. We anticipate a similarly positive response to the addition of the CQ WPX award. Amateurs will be able to spend more time operating and less time chasing QSL cards."

CQ President Richard Ross, K2MGA, said he is very pleased to be able to move forward with Logbook support for CQ awards. "We have had excellent results with electronic confirmations for several years," he said, "and I am glad that we are now able to begin expanding that convenience to those participants in our award programs who use Logbook of the World. We look forward to a smooth launch for WPX, and to the expansion of LoTW support to include the rest of our award programs as well."

ARRL (www.arrl.org) is the national association for Amateur Radio in the United States and publisher of its membership journal QST. CQ Communications, Inc. (www.cqcomm.com) is publisher of CQ Amateur Radio and several other magazines. There are currently over 700,000 Amateur Radio licensees in the USA and approximately 2.5 million worldwide.

To learn more go to < www.arrl.org/logbook-of-the-world>.

Ο ΣΥ.ΠΑ.Π. σε συνεργασία με την Ε.Ε.Ρ. θα βοηθήσει τεχνικά στην διεξαγωγή συνομιλίας παιδιών του 5ου Λυκείου Κατερίνης με τον ISS Διεθνή Διαστημικό Σταθμό αποσκοπώντας στην προαγωγή του Ραδιοερασιτεχνισμού & την μελέτη θεμάτων σχετικών με το διάστημα.

Η ημέρα διεξαγωγής της επαφής έχει προκαθοριστεί και είναι η Παρασκευή 2 Μαρτιου 2012

Και η ώρα έναρξης της εκδήλωσης 17:30.

Οσοι επιθυμούν μπορούν έρθουν ελεύθερα και όσοι μείνουν σπίτι μπορούν να συνδεθούν μέσω διαδικτύου και να παρακολουθήσουν ζωντανά την εκδήλωση στις παρακάτω διευθύνσεις.

http://www.5ogelkaterinis.gr

http://vod.sch.gr/video/iptv/646

http://www.ustream.tv/channel/lyceum5thkaterini-ariis-project

Παρακαλώ να αποφύγεται την χρήση συχνοτήτων στην περιοχή των 2m VHF simplex ή σε επαναλήπτες, για τις ώρες της εκδήλωσης, προς αποφυγή παρεμβολών και επηρεασμών.

Για την ημέρα εκείνη έχει κληθεί η ΕΕΤΤ να κάνει εκκαθάριση συχνοτήτων και επιτήρηση για την ομαλή διεξαγωγή της επαφής με το κατάλληλο όχημα που διαθέτει.

Ευχαριστώ.
73 de SV2KGA - DM1SV Αδάμος

ARISS contact planned with students in Katerini, Greece

An International Space Station school contact has been planned Friday March 2 2012 at approximately 17:03:52 UTC with participants at 5th Geniko Lykeio Katerinis, Katerini, Greece.

17:03:52 UTC = 18:03;52 CEWT and 19:03:52 EEWT (local time in Greece).

The contact will be performed by the amateur radio station SX2ISS and the downlink signals will be audible over Eastern Europe on 145.800 MHz FM.

5th Geniko Lykeio Katerinis is an upper high school with approximately 440 students, aged 14 to 19. It is a new school (established in 2007). There are two schools in two buildings forming a letter "U". The other school is the 2nd Lyceum of Katerini with another 450 students. The new school has many interesting features for its students, parents and the local community. The school has won prizes and honours in various fields (cultural, athletic, scientific) and its graduates have been accepted in major universities in Greece.

Participants will ask as many of the following questions as time allows:

1. Savvas (17): While in space, do you realize the time passing by faster or slower than on earth?
2. Eva (18): Were you inspired by astronauts or ex-astronauts to become an astronaut as well?
3. Dimitris (17): For how long are you trained before going to space?
4. Yannis (17): Have there been any experiment regarding the reproduction of humans or other species in space ?
5. Diony(18): Does your team fully change each semester?
6. Milena(18): Which earth observation made the greatest impression to you?
7. Anastasia(17): What are you dealing with currently?
8. Dina(18): Are you working on the structure of matter and if yes, what does your research include, in a few words?
9. Theodore (17): Do the conditions of space favour the conduct of some experiments that cannot be performed in the conditions of the earth?
10. Olga(17): To become an astronaut, did your family encourage you on this decision?
11. Emilios (17): How do you feel when you meet your family on earth?
12. Karina (18): Do you communicate with your family and how often?
13. Konstantinos (16): Do you study about weather conditions. Can you predict storms? For example?
14. Giota (16): How are your living conditions beyond earth?
15. Despoina(16): Does the global financial crisis affect the astronauts?
16. Sara(16) : Which was your latest discovery?
17. Theophilos (17): Is it hard to live in space?
18. Heleni(16): How is your everyday life?
19. Trinity (16): Does the food you eat contain any kind of vitamins?
20. Elefteria(16): Did you find any difficulties on choosing this job?

ARISS is an international educational outreach program partnering the participating space agencies, NASA, Russian Space Agency, ESA, CNES, JAXA, and CSA, with the AMSAT and IARU organizations from participating countries.

ARISS offers an opportunity for students to experience the excitement of Amateur Radio by talking directly with crewmembers on-board the International Space Station. Teachers, parents and communities see, first hand, how Amateur Radio and crewmembers on ISS can energize youngsters' interest in science, technology, and learning.

Gaston Bertels, ON4WF
ARISS Chairman

Με επιτυχία διεξήχθη, την Παρασκευή 2 Μαρτίου και ώρα 19:03 (τοπική ώρα) η προγραμματισμένη επαφή των μαθητών του 5ου Γενικού Λυκείου Κατερίνης με τον αστροναύτη Donald R. Pettit, KD5MDT, του Διεθνούς Διαστημικού Σταθμού, στα πλαίσια του προγράμματος περιβαλλοντικής εκπαίδευσης του σχολείου "Ματιές στο Σύμπαν και στη Γη από τους τεχνητούς δορυφόρους".
Ο ΣΥ.ΡΑ.Π. ευχαριστεί τον οργανισμό ARISS Europe για το ενδιαφέρον και τη βοήθειά του δια του συναδέλφου Francesco De Paolis, IK0WGF, μέντορα της προσπάθειάς μας, την Ε.Ε.Ρ και όλους τους συναδέλφους που με οποιονδήποτε τρόπο ενεπλάκησαν στην επιτυχή πραγμάτωση της επαφής.
Περισσότερο απ' όλους οφείλουμε να ευχαριστήσουμε τους συμμετέχοντες μαθητές για το έκδηλο ενδιαφέρον τους και την άψογη συνεργασία τους.
Μόλις συγκεντρωθεί το οπτικοακουστικό υλικό της εκδήλωσης θα αναρτηθεί προς ενημέρωσή σας.

`http://www.syrap.gr/gr/?%C5%F0%E9%EA%E1%E9%F1%FC%F4%E7%F4%E1`

ΕΕΡ:
Έγινε με μεγάλη επιτυχία η επαφή σχολείου της ΚΑΤΕΡΙΝΗΣ, και συγκεκριμένα του 5ου Γενικού Λυκείου Κατερίνης με τον Διεθνή Διαστημικό Σταθμό (ISS) στις 2 Μαρτίου 2012 και ώρα 17:03 UTC. Από την μεριά του ISS την επαφή έκανε ο Donald R. Pettit KD5MDT. Το όλο εγχείρημα ήταν προϊόν της συνεργασίας μεταξύ του Συλλόγου Ραδιοερασιτεχνών Πιερίας (ΣΥ.ΡΑ.Π.) και της Ένωσης Ελλήνων Ραδιοερασιτεχνών.

Προς διάθεση οι πλακέτες του Θωρηκτού Αβέρωφ (SX100A).

Οι αναμνηστικές πλακέτες από την εκδήλωση του Δεκεμβρίου στο θωρηκτό Αβέρωφ είναι πλέον διαθέσιμες. Μπορείτε να κρατήσετε την ανάμνηση ενός QSO σας με το διακριτικό SX100A. Παρακαλούμε μαζί με την παραγγελία μην ξεχάσετε να μας πείτε με ένα e-mail (raag-hq@...) ποιο QSO θέλετε (εφόσον κάνατε παραπάνω από ένα) να αποτυπωθεί στην πλακέτα.

Υπάρχουν επίσης αντίστοιχες πλακέτες και για τους χειριστές του SX100A.

Για τη παραγγελία σας ακολουθήστε αυτό το link http://www.raag.org/news.asp?ITMID=449&LANG=GR και κάντε κλικ στη κάτω πλακέτα.

2690. Triathlon-DX-Contest

Yahoo group: thegreekhamradio
Date: 2012-03-11 16:59:19 UTC
From: Kostas Stamatis
Topic: 2690   Message: 2690

Είμαστε στην ευχάριστη θέση να ανακοινώσουμε τη δημιουργία ενός νέου Ελληνικού contest: το Triathlon-Dx-Contest. Όλα άρχισαν τον Αύγουστο του 2011, όταν ο Μιχάλης SV5BYR, συνέλαβε την ιδέα. Το όραμα άρχισε να παίρνει σάρκα και οστά τον Δεκέμβριο του 2011, όταν μια παρέα Ελλήνων ραδιοερασιτεχνών έγιναν κοινωνοί αυτής της ιδέας και άρχισαν να συζητούν για τις λεπτομέρειες του διαγωνισμού.

Είμαστε σήμερα ανακοινώνουμε επίσημα τον διαγωνισμό, καλώντας, αφενός τους προγραμματιστές να προσαρμόσουν τα προγράμματά τους αφετέρου όλους εσάς να τον αγκαλιάσετε και να βοηθήσετε στην επιτυχή διεξαγωγή του.

Ο διαγωνισμός θα διεξάγεται το πρώτο Σάββατο του Φεβρουαρίου κάθε τρέχοντος έτους, θα έχει διάρκεια 24 ώρες και θα αναπαριστά πιστά το αγώνισμα Τρίαθλον. Το αγώνισμα Τρίαθλον αποτελείται από 3 διαφορετικά αθλήματα: Κολύμβηση, Ποδηλασία, Τρέξιμο. Τα αθλήματα γίνονται σε διαδοχική σειρά δίχως διακοπή και νικητής είναι αυτός που συγκεντρώνει την υψηλότερη βαθμολογία και στα τρία. Έτσι θα είναι και ο διαγωνισμός μας, με τη διαφορά ότι τα τρία αγωνίσματα θα είναι: RTTY, SSB και CW σε διαδοχική σειρά φυσικά. Αυτή είναι και η μεγάλη διαφορά αυτού του διαγωνισμού, αφού τα τρία modes ακολουθούν το ένα το άλλο και δεν εναλλάσσονται. Ως αποτέλεσμα αυτού, να μην μπορεί κάποιος να κερδίσει το διαγωνισμό παρά μόνο αν συμμετάσχει και στα τρία modes. Ο πρώτος διαγωνισμός θα γίνει το Σάββατο 2 Φεβρουαρίου 2013. Από την άλλη κι αφού μιλάμε για Ελληνικό contest, δίνεται ιδιαίτερη βαρύτητα στην επικοινωνία με Ελληνικούς σταθμούς

Σε όλα τα παραπάνω προσθέστε το εξαιρετικό δώρο για το νικητή, που θα είναι δεκαήμερη φιλοξενία για 2 άτομα σε ξενοδοχείο της Ελλάδας!!! Μάλλον θα είναι το πρώτο contest παγκοσμίως που το έτερον ήμισυ, θα μας παροτρύνει για μεγαλύτερη συμμετοχή αντί να γκρινιάζει όπως συνήθως…

Τους αναλυτικούς κανονισμούς του διαγωνισμού στα αγγλικά και στα Ελληνικά (μελλοντικά και σε άλλες γλώσσες), μπορείτε να βρείτε στη διεύθυνση

Βασίλειε, σε ευχαριστώ γιά την ενημέρωση !!!
Το RTTY δεν το έχω δουλέψει ποτέ, τα άλλα 2 mode OK.
Επιπλέον, δεν έχω εγκαταστήσει ακόμα τη βάση μου στο νέο γραφείο, οπότε και να ήθελα, δεν μπορώ.
Αν όμως, θέλεις να σε ξεκουράσω σε κάποια φάση, ευχαρίστως......
Ελπίζω να έπιασες το υπονοούμενο.....
Ασφαλώς μόνο σε CW , να μην μας πάρουν και με το ψιλό.

73 - Κώστας

1: Τα νέα ερωτηματολόγια εξετάσεων για την απόκτηση πτυχίου ραδιοερασιτέχνη!
Το Υ.Υ.Μ.Δ. δημοσίευσε τα ερωτηματολόγια για το νέο σύστημα εξέτασης για την απόκτηση πτυχίου ραδιοερασιτέχνη μαζί με ένα πρόγραμμα αυτοαξιολόγησης.
Δείτε εδώ http://www.raag.org/news.asp?ITMID=459&LANG=GR

2: Άρθρο 30 παράγραφος 8 του νέου υπό ψήφιση νόμου ...
Χωρίς να μπορώ να το επιβεβαιώσω 100% πληροφορηθήκαμε στην Ε.Ε.Ρ. ότι η παράγραφος 8 του άρθρου 30 απεσύρθη (για μια ακόμα φορά) και ελπίζουμε να μην τριτώσει το κακό!
Ευχαριστούμε και πάλι όσους ενεπλάκησαν ενεργά και σε αυτή μας την προσπάθεια.

Καλημέρα,

Δεν φαίνεται να λειτουργεί η ρύθμιση από το button για τα Volt στο συγκεκριμένο τροφοδοτικό μου. Παλιά δούλευε κανονικά, αλλά τώρα στο display η βελόνα δεν αλλάζει θέση.

Γνωρίζει κανείς τι μπορώ να κάνω εκτός να το ανοίξω για να δω αν ο διακόπτης έχει χαλάσει;

2705. C4MG - DXpedition to Agios Georgios island - AS-120

Yahoo group: thegreekhamradio
Date: 2012-06-20 15:04:05 UTC
From: Andreas Papagapiou
Topic: 2705 Message: 2705

(English text follows)

C4MG - DXpedition στο νησάκι Άγιος Γεώργιος - AS-120

*Μέλη του Ομίλου Ραδιοερασιτεχνών Λευκωσίας σχεδιάζουν να ενεργοποιήσουν το νησάκι <<Άγιος Γεώργιος>> στα ανοικτά της χερσονήσου του Ακάμα, στην Κύπρο *(IOTA AS-120), το Σάββατο και Κυριακή 23-24 Ιουνίου 2012. Έχουν περάσει τρια χρόνια από την τελευταία ενεργοποίηση του νησιού, το Σεπτέμβρη του 2009.

Μέρες και ώρες: Ελπίζουμε να είμαστε στον αέρα από τις 06:00 GMT του Σαββάτου 23/6 μέχρι τις 14.00 GMT της Κυριακής 24/6.

Σταθμοί: Τρείς σταθμοί με μέγιστη ισχύ 100W θα δουλεύουν ταυτόχρονα.

Κεραίες: 2 x Big SteppIR BigIR verticals, HF2V, homebrew 3el yagi for 50MHz / 2el yagi 10/12/17m

Μπάντες: 10-80m, κυρίως SSB αλλά επίσης και λίγο CW. Επίσης, πιστεύουμε για πρώτη φορά από το AS120, σχεδιάζουμε να δουλέψουμε και στα 6m (με ελπίδες για καλή διάδοση).

DX: Θα προσπαθήσουμε να επικεντρωθούμε σε σταθμούς DX που θα δουλέψουν το AS120 για πρώτη φορά

ΔΙΑΚΡΙΤΙΚΟ: C4MG

QSL MANAGER: 5B4KH

Ακολουθήστε μας στο twitter, *@**C**4MG**_AS**120*

C4MG - DXpedition to Agios Georgios island - AS-120

*T*he Nicosia Amateur Radio Club is planning to activate the "Agios Georgios" islet off the coast of Akamas, Cyprus. (IOTA AS-120) on Saturday and Sunday June 23-24 2012. It's been three years since the island was last activated in Sept 2009.

Dates and times: We hope to be on the air by 06:00 GMT on Saturday 23rd and operate through Sunday the 24th at 14.00 GMT.

Stations: 3 x 100W stations operating at the same time.

Antennas: 2 x Big SteppIR BigIR verticals, HF2V, homebrew 3el yagi for 50MHz / 2el yagi 10/12/17m

Bands: 10-80m, mostly SSB but also some CW. Also, we think for the first time from AS120, operation is planned on 6m (pray for 6m propagation).

DX: We will try to focus on DX stations needing AS120 for an all-time new one

CALLSIGN: C4MG

Καλησπέρα σε όλους

Σπυρίδωνα,
είναι απορίας άξιον που "δεν γνωρίζεις" τι βλέπει η Χαλκιδική απο επαναλήπτες για να χρησιμοποιήσει κάποιος ραδιοερασιτέχνης ...
Βέβαια δεν ξεκαθαρίζεις από που από την Χαλκιδική.
Έχουμε και λέμε:
R5 Πήλιο,
R3b Κατερίνη (Όλυμπος),
R7 Παγγαίο,
RU2 Παγγαίο
R7b Θάσος
R4 Λέσβος ("Όλυμπος)
και απο τη βόρεια πλευρά της όλα τα repeaters και links που υπάρχουν στους όμορους νομούς και το R6 στο Χορτιάτη το R3 στη Θεσσαλονίκη.
Χρειάζεται και άλλος ένας επαναλήπτης στη Χαλκιδική;

Μια απορία δικιά μου τώρα: Γιατί δεν έστειλες το EMAIL σου αυτό, στους συλλόγους που αναφέρεσαι αλλά το γράφεις εδώ σε αυτή τη λίστα;
Πως θέλεις να σου απαντήσουν οι σύλλογοι; Θα το μαντέψουν;
Γι αυτό θα μείνεις με την απορία!

Βασίλη ναι, έτσι είναι όπως τα γράφεις. Παλιά υπήρχε R0 145.600 αλλά εδώ και χρόνια δεν λειτουργεί τίποτα στην περιοχή και απλά μου κάνει εντύπωση που ούτε ένας! σύλλογος δεν ενδιαφέρθηκε να εγκατασταθεί έστω ένα λινκ κάποιου repeater στην Χαλκιδική. Είναι κρίμα, γιατί πολύ κόσμος πηγαίνει εκεί όπως είπα και στο προηγούμενο post μου.

Subject: Σχετ: [The Greek Ham Radio] Re: Chalkidiki - no repeater ?

Καλησπέρα
Μια συμπλήρωση.Στη Λέσβο υπάρχει και λειτουργεί και το R6 (145.750 ,υποτ.107,2)που βρίσκεται μάλιστα στη δυτική πλευρά του νησιού.

Καλησπέρα σε όλους

Σπυρίδωνα,
είναι απορίας άξιον που "δεν γνωρίζεις" τι βλέπει η Χαλκιδική απο επαναλήπτες για να χρησιμοποιήσει κάποιος ραδιοερασιτέχνης ...
Βέβαια δεν ξεκαθαρίζεις από που από την Χαλκιδική.
Έχουμε και λέμε:
R5 Πήλιο,
R3b Κατερίνη (Όλυμπος),
R7 Παγγαίο,
RU2 Παγγαίο
R7b Θάσος
R4 Λέσβος ('Ολυμπος)
και απο τη βόρεια πλευρά της όλα τα repeaters και links που υπάρχουν στους όμορους νομούς και το R6 στο Χορτιάτη το R3 στη Θεσσαλονίκη.
Χρειάζεται και άλλος ένας επαναλήπτης στη Χαλκιδική;

Μια απορία δικιά μου τώρα: Γιατί δεν έστειλες το EMAIL σου αυτό, στους συλλόγους που αναφέρεσαι αλλά το γράφεις εδώ σε αυτή τη λίστα;
Πως θέλεις να σου απαντήσουν οι σύλλογοι; Θα το μαντέψουν;
Γι αυτό θα μείνεις με την απορία!

73
Σωτήριος Βανικιώτης - SV1HER

Βασίλη ναι, έτσι είναι όπως τα γράφεις. Παλιά υπήρχε R0 145.600 αλλά εδώ και χρόνια δεν λειτουργεί τίποτα στην περιοχή και απλά μου κάνει εντύπωση που ούτε ένας! σύλλογος δεν ενδιαφέρθηκε να εγκατασταθεί έστω ένα λινκ κάποιου repeater στην Χαλκιδική. Είναι κρίμα, γιατί πολύ κόσμος πηγαίνει εκεί όπως είπα και στο προηγούμενο post μου.

να εξηγούμε για να μην παρεξηγούμε: μένω με την απορία,γιατί μιλάω για πρόσβαση κυρίως με φορητό και όχι με την βάση.

Εγώ προσωπικά:1.δεν ανοίγω το R7b 2. Δεν μπορώ να ανοίξω το RU στο παγγαίο ούτε το R7 της Καβάλας. Οπότε μένουν R3b και R5 (πέρα από τα τοπικά θεσ/νίκης). Που τα φορητά δεν έχουν πρόσβαση από παντού.

Επίσης αυτό που ήθελα να εκφράσω είναι ότι σε συλλόγους αν απευθυνθεί κανείς, μιας και το έχω κάνει στο παρελθόν σε τοπικούς εδώ θεσ/νίκη είπαν ότι δεν έχουν αρμοδιότητα να ζητήσουν άδεια και ότι και να βάλουν επαναλήπτη στην χαλκιδική δεν θα μιλάει κανείς παρά μόνο οι κυνηγοί. Θέλω απλά να τονίσω ότι είναι κρίμα που δεν υπάρχει κάτι ήδη τόσα χρόνια,όχι να κατηγορήσω Δ.Σ και τέτοια. Να είναι αυτή η κουβέντα το έναυσμα για να στηθεί κάτι τοπικό/link για πρόσβαση στη χαλκιδική και όχι με γύρω λύσεις που με φορητό δεν έχεις πρόσβαση.

Η Χ510 μου πάντως ακόμα και με 50w,δεν ανοίγει επαναλήπτες περιοχή 7.

2718. Alinco DM-330MVE ερώτηση

Yahoo group: thegreekhamradio
Date: 2012-10-03 07:54:01 UTC
From: spiros_xanthopoulos
Topic: 2700   Message: 2718

Για χαρά σε όλους:

Γνωρίζει κανείς αν και πως μπορώ να ζητήσω (σε κατάστημα ηλεκτρονικών ειδών προφανώς) το διακόπτη που έχει το Alinco DM-330MV για την αλλαγή volt στο μπροστινό μέρος του; Ευχαριστώ.

Σπύρο, εννοείς τον Voltage adjustment διακόπτη που όταν είναι στη μέση
δίνει 13,8 μάλλον. Επειδή είναι διπλός, δηλαδή και noise off - set volume
control, δεν είμαι σίγουρος ότι θα τον βρεις σε καταστήματα ηλεκτρονικών.
Μόλλον στη Alinco πρέπει να απευθυνείς ή σε κάποιο ξένο internet forum με
εξαρτηματα κι ανταλλακτικά.73 de SV2BWD

2725. 2o GTC CW Cup

Yahoo group: thegreekhamradio
Date: 2012-10-06 16:13:40 UTC
From: spiros_xanthopoulos
Topic: 2725 Message: 2725

Πηγή:email.

2o GTC CW Cup

Η Επιτροπή του GTC CW Cup σας υπενθυμίζει ότι το 2ο GTC CW Cup θα διεξαχθεί στις 6 Οκτωβρίου 2012 ☐ 1200UTC έως και τις 7 Οκτωβρίου 2012 ☐ 1200UTC. Θα είμαστε όλοι εκεί και θα χαρούμε ιδιαίτερα να σας ακούσουμε στον αέρα. Ήταν πράγματι θαυμάσιο να δούμε τόσο πολλά νέα μέλη να εγγράφονται στο GTC έπειτα από τη διεξαγωγή του 1ου GTC CW Cup, με αποτέλεσμα η σημερινή λίστα μελών της Ελληνικής Λέσχης Τηλεγραφίας να αριθμεί πλέον 282 μέλη (έως τις 19 Σεπτεμβρίου 2012) !! Για το φετινό GTC CW Cup, εφαρμόζονται οι ανανεωμένοι κανονισμοί που σας επισυνάπτουμε και επίσης υπάρχει ειδικό λογισμικό για contest, που υποστηρίζει το GTC CW Cup και γράφτηκε από τον Kresimir, 9A5K, το οποίο διατίθεται δωρεάν από το επίσημο site του GTC. Μπορείτε να κατεβάσετε το λογισμικό ακολουθώντας το εξής link: http://www.raag.org/displayITM1.asp?ITMID=516&LANG=GR

Στους νικητές των κατηγοριών Α και Β θα απονεμηθεί, ξανά αυτή τη χρονιά, από ένα πανέμορφο τρόπαιο . !! Σας παρακαλούμε να διαβάσετε προσεκτικά τους νέους κανονισμούς και να συμμορφωθείτε με αυτούς !! Ελπίζουμε να σας ακούσουμε κατά τη διεξαγωγή του 2ου GTC CW Cup! Πολλά 73 και 55 Στάθης Μαλιάκης, SV5DKL E.C.M. ☐ Greek Telegraphy Club G.T.C. #028 GTC CW Cup Contest Manager Πολλά 73! RAAG WEB TEAM

DX Packet Cluster: telnet sz1sv.redirectme.net telnet sv1iw.dyndns.org:7300 WEB Cluster: http://sv1iw.dyndns.org/cgi-bin/webcluster Στατιστικά: http://sv1iw.dyndns.org/mrtg/mrtg/stats.html XRF073 O Ελληνικός πειραματικός D-Star Reflector Υπενθυμίζουμε ότι η ανώτατη ισχύς ραδιοεραστεχνικού σταθμού βάσει της ισχύουσας νομοθεσίας είναι για μεν την κατηγορία 1 (SV) από 1.8-29.7 MHz 400W από 50MHz-440MHz 100W και πάνω από τους 1240MHz 50W, για δε την κατηγορία Εισαγωγικού επιπέδου (SY) στις περιοχές 7-14-21-28 -144MHz-430MHz 10W (σε όλες τις περιπτώσεις αναφερόμαστε σε ισχύ εξόδου κορυφής πριν την κεραία). Όλοι οι επαναλήπτες VHF της Ε.Ε.Ρ. είναι με διαμόρφωση narrow, φροντίστε να χρησιμοποιείτε το ίδιο εύρος διαμόρφωσης, διαφορετικά να μιλάτε χαμηλότερα στο μικρόφωνο για να σας "περνάει" ο επαναλήπτης. Στα 6Μ απαγορεύεται η εκπομπή FM, επίσης η συχνότητα 50.110 είναι για μικρές κλήσεις και αναγγελία QSY σε άλλη συχνότητα. Απαγορεύεται από τον νόμο η εκπομπή με χρήση άλλου διακριτικού. Αν κάποιοι παρανομούν η πράξη τους δεν απαλλάσσει τους υπόλοιπους από την ευθύνη!

Βοηθείστε να γίνει το APRS δίκτυο χρήσιμο, μην χρησιμοποιείτε πλέον τα path: RELAY, TRACEN-n, WIDEN-n παρά μόνο το WIDE2-2 για fixed και mobile. Τα e-mail δεν δίνονται σε κανένα! Αν όμως κάποιος δεν επιθυμεί να είναι στην λίστα αποδεκτών παρακαλούμε να αποστείλει σχετικό μηνυμα στην ηλεκτρονική δ/νση raag-hq@raag.org

θα χαρούμε πολύ....να γίνουμε πολλοί
Thu Oct 18, 2012 6:21 am (PDT) . Posted by:
"SV2GWY Demetrius" sv2gwy

Μετά από σκέψη και σταθμίζοντας τον παράγοντα ότι σχεδόν ποτέ δεν έχει διαγωνισθεί Ελληνική ομάδα στο CQ WW SSB CONTEST (http://www.cqww. com) που θα λάβει χώρα το Σαββατοκύριακο 27 και 28 Οκτωβρίου στην κατηγορία MULTI OPERATORS - TWO TRANSCEIVERS , αποφασίσαμε να....το κάνουμε το εγχείρημα με το callsign J42T .(http://www.j42t. net/)

Επειδή όπως καταλαβαίνετε θα υπάρχουν 2 σταθμοί «runner» 48 ώρες στις μπάντες, χρειάζεται η επάνδρωση των σταθμών με αρκετούς χειριστές έτσι ώστε το contest να είναι απόλαυση και όχι μαρτύριο.

Θα χρησιμοποιηθεί το shack του SV2BFN στην Περαία.

Όσοι συνάδελφοι έχουν κέφι να συμμετάσχουν ας στείλουν ένα Email στην διεύθυνση sv2bfn<at>yahoo. com ή sv2gwy<at>otenet. gr μέχρι και την Τετάρτη 24 Οκτωβρίου , αναφέροντας απλά το call sign τους, το κινητό τους τηλέφωνο και αν είναι δυνατόν τις ώρες που μπορούν να χειρίσουν έτσι ώστε να βγεί ένα πρόγραμμα εκπομπής των σταθμών.

'Ολοι είναι καλοδεχούμενοι . Επίσης τα τηλ επικοινωνίας είναι : 6944282959 και 6936578000.

Σε λίγες ημέρες, για 48 ώρες το "J42T" θα "τρέχει το WW SSB Contest 2012 στην Κατηγορία Mutli operators TWO transmitters από τις 00:00 27-10-2012 έως και 23:59UTC 28-10-2012.

Οι χειριστές θα είναι :
SV2BFN Vangelis
SV2BNP Panos
SV2DCD Leonidas
SV2GWY Demetrius
SV2HWR Pantelis
SV7LNK Vasilis
SV7LNX Nikos
SV7LOS Natassa
SV7OPY Kostas

και Guests:
SV2DGH Christos
SV2HNC Sakis

Πομποδέκτες:
TX/RX 1 : Kenwood TS-2000 + Acom 1000
TX/RX 2 : Yeasu FT-2000 + kW PA amp
TX/RX 1 backup : Icom IC-7000 + Heithkit
TX/RX 2 backup : IC-706MKII

Κεραίες:
10/15/20/40m : 4el. Steppir
10/15/20m : Cushcraft MA5B
10/15/20/40m : Cushcraft R8
40m : Cushcraft D40
80m : Vertical lamda/4 w 120 radials
160m : Inverted V @ 30m

Εκτός από τα HF μπορείτε να μας δείτε και σε web cams www.ustream.tv/channel/j42t και www.ustream.tv/channel/j42t-1

Μείνετε συντονισμένοι,

Για το J42T

Hello all
Excuse me for writing in English.
Replies are ok in Greek.

I am doing some research for Club Log and need to ask Manos SV9JI a question about his old callsign SV1IT, which he used in the 1970s.
Does anyone have an email address for Manos, please?

Thanks for your help.

Hello Allan
I don't know him personally but if you don't get any other answers, it's better to ask Manos SV9BMJ as he is president of Radio amateur association of Crete. His email is sv9bmj@...
also George sv9djo is very helpful. Find him at gmeth@...

2732. TRIATHLON DX CONTEST 2/2/2013

Yahoo group: thegreekhamradio
Date: 2013-01-13 18:54:45 UTC
From: Kostas SV1DPI
Topic: 2732 Message: 2732

Σε λίγες μέρες, *στις 2 Φεβρουαρίου *θα γίνει το *πρώτο Τρίαθλον*, ένας _*Ελληνικός *_διαγωνισμός. Είναι μια Ελληνική προσπάθεια για την οποίαμπορείτε να ενημερωθείτε στη διεύθυνση

`_http://triathlon-dx-contest.gr <http://triathlon-dx-contest.gr/>`

_

Στο Τρίαθλον **οι Ελληνικοί σταθμοί* είναι ιδιαίτερα σημαντικοί*, αφού *δίνουν περισσότερους πόντους *(+3) σε σχέση με τους υπολοίπους *και μετρούν ως πολλαπλασιαστές *μαζί με τις DXCC ραδιοχώρες. Συνεπώς *είναι πολύ σημαντικό να είναι το δυνατόν περισσότεροι Ελληνικοί σταθμοί στον αέρα*, ώστε να υπάρχει ακόμη περισσότερο ενδιαφέρον για το διαγωνισμό.

Παράλληλα θα έχετε την ευκαιρία για τους παραπάνω λόγους, *να **ζήσετε το πρώτο σας pileup*, όσο μικρός κι αν είναι ο σταθμός σας. Μη χάσετε την ευκαιρία να νιώσετε αυτή τη συγκίνηση... Θα εκτιμήσετε διαφορετικά το χόμπι μας. Μη φωνάζετε μόνο σταθμούς. *Καλέστε **CQ*. Είναι σίγουρο ότι κάποιοι θα σας απαντήσουν.

*Παράλληλα ο διαγωνισμός αυτός έχει εξαιρετικό ενδιαφέρον, αφού *εμπλέκει τα τρία δημοφιλέστερα contest **modes σ' ένα και μόνο διαγωνισμό*. Έτσι αρχίζει στις 2 ώρα Ελλάδας, ξημερώματα Σαββάτου 2 Φεβρουαρίου *με RTTY. Στις 10 το πρωί περνάμε στο SSB και στις 6 το απόγευμα του Σαββάτου (πάντα ώρα Ελλάδας) συνεχίζουμε και τελιώνουμε με 8 ώρες CW.

*Μελετήστε τους κανονισμούς *(θα τους βρείτε στο site). Έτσι αποκτά ακόμη περισσότερο ενδιαφέρον για σας ο διαγωνισμός κι ετοιμαστείτε να νιώσετε τη χαρά της συμμετοχής σ' ένα διεθνή διαγωνισμό... και πού ξέρεις; ίσως κερδίσετε και το μεγάλο δώρο: *10ήμερη δωρεάν παραμονή σ' ένα από τα επτά ξενοδοχεία της **XENOS GROUP HOTELS**στη Ζάκυνθο*.

Αν δεν έχετε το χρόνο ή δεν γνωρίζετε και τα τρία Modes, μπορείτε να συμμετάσχετε και *να διεκδικήσετε βραβείο μόνο σε ένα *ή και δύο από τα τρία. Μπορείτε ακόμα να *φτιάξετε μια ομάδα *και να διεκδικήσετε βραβείο και στο Ομαδικό τρίαθλο: ένας στο RTTY, ένας στο SSB κι ένας στο CW. Σπεύσατε όμως γιατί πρέπει *να δηλώσετε το όνομα της ομάδας καθώς και τους παίχτες σας**, **_πριν _αρχίσει ο διαγωνισμός...*

Περιμένουμε να σας ακούσουμε και να στηρίξετε αυτή την Ελληνική προσπάθεια...

Αγαπητοί Συνάδελφοι
Η «ηλεκτρονική συνταγογράφηση» έχει και μια άλλη διάσταση,που πιθανόν δεν είχε περάσει καν από το μυαλό μας. Συνδυάζεται με το νόμο 3984 με τον οποίο είμαστε όλοι δότες οργάνων με «εικαζόμενη συναίνεση», και με το ορισμό του «εγκεφαλικού θανάτου», δηλαδή με το κώμα, από το οποίο πολλοί έχουν ανανήψει. Κατά την άποψη του ΙΝΚΑ εγκυμονούν κίνδυνοι για εμάς και τα παιδιά μας.
Παρακαλώ διαβάστε το έγγραφο του ΙΝΚΑ και τη σχετική δήλωση με τις οδηγίες.

Καλημέρα, καλό μήνα.

Έχει κάνει κάποιος αλλαγή το ανεμηστηράκι του D700 τελευταία; Ακούγεται στο ptt που γίνεται όταν ανοίγει και μετά όλα καλά. Αν του ρίξω λίγο σπρέϊ λέτε να συνέλθει; Είναι αρκετών ετών με καθημερινή χρήση (λειτουργία, όχι κατ'ανάγκη ptt).

2745. Σχετ: [The Greek Ham Radio] Kenwood D700 ερώτηση

Yahoo group: thegreekhamradio
Date: 2013-03-01 17:41:54 UTC
From: Ioannis Kokovidis
Topic: 2744 Message: 2745

Σπύρο ,καλησπέρα.
'Αν φτάσει να ακούγεται το ανεμιστηράκι,λίγα είναι τά ψωμιά του...Μιά γρήγορη επισκευή...Βγάλε (μέ τρόπο!!) τό ανεμιστηράκι και...καθάρισέ το απ' τις σκόνες ΚΑΛΑ !!!ΝΑ ΓΥΑΛΙΣΕΙ !!!Αν είσαι τυχερός θά γλυτώσεις τα παρακατω.... Μέ σπρέι μπορεί να συνέλθει γιά λίγο(ιδίως ,άν δουλεύει συνέχεια) αλλά δέν βλέπω πώς θα λιπανθούν τά κουζινετάκια (δέν έχουν ρουλμάν αυτά τα μικρά μοτέρ) διότι είναι κλειστού τύπου.Δέν είναι εμφανές τό πίσω άκρο..'Απαξ και τό ανοίξεις...τετέλεσται....Είναι πολύ δύσκολο να ξανασυναρμολογήσεις τά "βουρτσάκια".Αν είσαι τυχερός και ο θόρυβος βγαίνει απο το κουζινετάκι που είναι από την πλευρά του ανεμιστήρα ,τότε,ρίξε λίγο σπρέι πού να περιέχει λιπαντικό (π.χ. WD 40)..Τό πόσο θά "αντέξει"...Θά δείξει....Επίσης μή ξεχάσεις να καθαρίσεις καλά
τό ανεμιστηράκι..Αυτή η βλάβη παρουσιάζεται συνήθως γιατί ποτέ-μα-ποτέ δεν τα καθαρίζουμε από τις κολλημένες σκόνες (που καταλήγουν να γίνουν...γλίτσα) και έτσι περιστρέφεται έκκεντρα με αποτέλεσμα να "φάει" τα κουζινέτα... Γιά αλλαγή σέ βλέπω,πιό σίγουρα...Δύσκολα να βρείς ολόιδιο μ'αυτό αλλά μήν πτοείσαι..Στήν αγορά θά βρείς πολλά που να ταιριάζουν στήν "πατούρα" του...Είναι πανομοιότυπα μέ αυτά των παιχνιδιών μέ κόστος γύρω στά 5Ε.Πρόσεχε μόνο να είναι 12v και να ταιριάζει το πάχος και τό μήκος του άξονα....Γιά την φορά περιστροφής,άν γυρίζει ανάποδα,άλλαξε την πολικότητα των δύο καλωδίων...Συνήθως ...πετυχαίνει!!!!
Αυτά και ...καλή τύχη...
Γιάννης Κοκοβίδης

2746. D-star update

Yahoo group: thegreekhamradio
Date: 2013-03-06 12:05:36 UTC
From: spiros_xanthopoulos
Topic: 2746   Message: 2746

Προώθηση μηνήματος από το D-star group για την ενημέρωση που αφορά το δίκτυο D-star στην Ελλάδα (δεν φέρω καμία ευθύνη για τυχόν προσωπικές ή όχι διαφορές).

```
1. D-star Network
From: DIMITRIS VELISSARIS

Message

```

Καλησπέρα σε όλους τους φίλους του D-star.

Επειδή όλοι με καλούν για να μάθουν τι συνέβει και έκλεισε το ψηφιακό
δίκτυο D-star, οφείλω να δώσω ορισμένες εξηγήσεις.

1ον: Για καθαρά προσωπικούς λόγους, δήλωσα πως δεν επιθυμώ πλέον να είμαι ο
διαχειριστής του δικτύου του Σ.Ε.Ρ

2ον: Έδωσα όλους τους κωδικούς και τους σκληρούς δίσκους που χρειάζεται στο
Δ.Σ του Σ.Ε.Ρ για την διαχείριση του δικτύου του.

3ον: Ζήτησα να μου επιστραφεί όλος ο 'περιφερειακός' εξοπλισμός των κόμβων
(Κεραίες - Υπολογιστές - τροφοδοτικά - UPS - Ικριώματα κ.τ.λ) αφού
επρόκειτο για εξοπλισμό που είχε αγορασθεί απο εμένα και τον προσέφερα με
την μορφή απλής χρήσης περιορισμένης χρονικής διάρκειας.

4ον: Ζήτησα απο το Σ.Ε.Ρ την απεγκατάσταση και επιστροφή όλου του
εξοπλισμού του κόμβου SV1U του όρους Υμηττός, ενημερώσαμε τον ιδιοκτήτη που
φιλοξενεί τον εξοπλισμό στο χώρο του για την απεγκατάσταση του υπάρχοντος
εξοπλισμού και την αντικατάστασή του με άλλον (ιδιοκτησίας του Σ.Ε.Ρ) και
τελικώς μου επεστράφη όλος ο εξοπλισμός.
Επρόκειτο φυσικά για συσκευές που αγόρασα με προσωπικα μου χρήματα απο την
Ελληνική αντιπροσωπεία της εταιρίας ICOM.

5ον: Έγινε νέα πρόταση Σ.Ε.Ρ - SV1EDZ και λοιπών Συλλόγων, για τον
ανασχεδιασμό του υπάρχοντος δικτύου και δικαιότερης κατανομής-παραχώρησης
των συσκευών αναμεταδοτών που προσέφερε η εταιρία ICOM (Αφοί Παρισσινού)
προς τον Σ.Ε.Ρ, ώστε να μπορέσει να υπάρξει αμεσότερη και
αποτελεσματικότερη άρση πιθανών βλαβών στους κόμβους.

6ον: Η εταιρία Αφοί Παρισσινού, υπέγραψε νέο συμφωνητικό με το Σ.Ε.Ρ, που
αναφέρει πως στο Σύλλογο προσφέρονται 2 ψηφιακοί αναμεταδότες, αντί των 5
που αρχικά είχε συμφωνηθεί.

Οι υπόλοιποι 3 αναμεταδότες παρέχονται πλέον δωρεάν στους ακόλουθους Συλλόγους:

1. Ραδιολέσχη Φλώρινας με διακριτικό αναμεταδότη SZ2RLF
2. Σύλλογος Ραδιοερασιτεχνών Ν.Σερρών με διακριτικό SZ7SER
3. Ένωση Ραδιοερασιτεχνών Ν.Ιωαννίνων με διακριτικό SZ6IOA

Εδώ να σημειώσουμε πως αυτοί οι Σύλλογοι, φιλοξενούσαν τους κόμβους εδώ και 2 χρόνια και έχουν αποκτήσει την τεχνογνωσία που χρείαζεται για την επίβλεψη και συντήρηση του εξοπλισμού.

7ον: Ο εξοπλισμός που μου επεστράφη απο το Σ.Ε.Ρ (Κεραίες - Υπολογιστές - τροφοδοτικά - UPS - Ικριώματα κ.τ.λ), θα τον μεταβιβάσω με χαρτί δωρεάς, στους Συλλόγους που ανέλαβαν τους τρεις κόμβους (Φλώρινα - Ιωάννινα - Σέρρες) ώστε να κλείσει εντελώς το κεφάλαιο ιδιοκτησίας του εξοπλισμού και να περαστεί στα περιουσιακά τους στοιχεία.

8ον: Ο πλήρης εξοπλισμός του κόμβου SV1U (αξίας 4.000 ευρώ) που βρίσκεται στα χέρια μου, θα δωθεί με χαρτί δωρεάς σε Σύλλογο της επαρχίας που θα σας γνωστοποιηθεί σύντομα.

Προσωπικά, λόγω της φύσης της επαγγελματικής μου ενασχόλησης, επισκέπτομαι εξαιρετικά ευαίσθητους χώρους και η εχεμύθεια είναι το βασικό μου χαρακτηριστικό.

Θα στείλω λοιπόν ένα μήνυμα σε ορισμένους που έσπευσαν να μας πούνε μέχρι και κλέφτες, προσπάθώντας να εκμεταλλευτούνε την κατάσταση, πέρνωντας τηλέφωνα όπου βρούν μπας και καταφέρουν να συνεργαστεί κάποιος με αυτούς και γίνει δεκτή η παραχώρηση δικών τους αναμεταδοτών.

Προσέξτε ΄κύριοι΄ τι λέτε δεξια-αριστερά γιατί θα σας γυρίσει μπούμερανγκ.

Να ξέρετε πως οι Συνάδελφοι στην επαρχία ξύπνησαν και δεν 'τρώνε΄πλέον το παραμύθι σας.

Όταν κάνανε τα πρώτα βήματα και έπρεπε να τους βοηθήσετε, τους αγνοούσατε και προχωρούσατε μόνοι λέγοντας πως είναι βλάχοι και δεν αξίζουν χέρι βοηθείας, τώρα τους παρακαλάτε αλλά δεν σας κάνουν τη χάρη.

Για τους φίλους λέμε, πως σύντομα το ψηφιακό δίκτυο θα επαναλειτουργήσει και θα μπορούμε να τα λέμε καθημερινά.

Με αγάπη για τον Ραδιοερασιτεχνισμό

SV1EDZ

Ευχαριστώ για τα tips Γιάννη. Θα το φυσήξω σε κάποια φάση και ελπίζω να γλιτώσω την αλλαγή του. Βέβαια είναι αρκετών ετών των μηχάνημα αλλά αυτή τη στιγμή δεν είμαστε για αγορές/αλλαγές (παλιές καλές εποχές). Τώρα όσον αφορά το αν καταφέρω κάτι, θα κάνω κάποιο post αν δεν γίνει κάτι. Το θέμα είναι που βρίσκουμε άλλο ανεμιστηράκι ίδιο και με τις ίδιες ιδιότητες (να ανάβει όταν γίνεται ptt και όταν ζεσταίνεται το μηχάνημα (προφανώς). Εκτός και αν λειτουργεί μόνο σε ptt.

Σπύρο ,καλημέρα και καλή εβδομάδα
Δέν είναι το μοτέρ ειδικό...Ένα απλό μοτέρ ,κάνει,αρκεί νά "ταιριάξει" στήν βάση του..Το PTT γίνεται από το ίδιο το μηχάνημα,από την πλακέτα του..Θά δείς όταν το ανοίξεις...Τό μόνο πού θα χρειαστείς ,ίσως,τήν τροφοδοσία του παλιού..Το καλωδιάκι...Ψάξε στά καταστήματα ηλεκτρονικών ανταλλακτικών..Στόν Γεωργιάδη είχα βρεί εγώ ,παλιότερα, τέτοια...Τώρα τί να σου πώ.....Τό δικό μου,πάντως,που άλλαξα,δουλεύει ακόμα....Εδώ και χρόνια ακατάπαυστα (Το D700 το "έπαιζα" σάν APRS WX station,SV2LLJ-2) 7/24.....Πάντως και η επισκευή του από τα σέρβις του "χώρου" μας,δέν
είναι και τόσο πανάκριβη...Αυτό πού παίζει σήμερα σάν SV1EJJ-9 έτσι το έκανα και δουλεύει ακόμα μιά χαρά...Καί με την ευκαιρία τούς λές και του κάνουν και έναν καλό έλεγχο στόν αναλυτή κλπ....
Καλή μέρα καί καλή εβδομάδα σε όλους..73

2753. Amateur radio response to the severe flooding in Bueno s Aires and La Plata in Argentina

Yahoo group: thegreekhamradio
Date: 2013-04-05 22:21:00 UTC
From: Sotirios A.Vanikiotis - SV1HER
Topic: 2753   Message: 2753

Καλημέρα
Η παρακάτω ενημέρωση έφτασε από τον Jorge, LU1AS σχετικά με τη δράση των ραδιοερασιτεχνών ΟΕΑ στο Buenos Aires και La Plata στην Αργεντινή.

"The flooding rains have been very strong in the city of Buenos Aires and surrounding areas, and in the city of La Plata, which is the capital of the Province of Buenos Aires, located 60 kilometers south of the City of Buenos Aires. So far 57 people have died, 51 of them in La Plata.

The frequencies that are being used on 40 meters are 7070 and 7120, in addition to VHF and UHF repeaters kept on alert for the radio club La Plata, LU8DZE.
There are also a lot of communication activity through Facebook Emergenciaslu Amateur group, maintained by the sera, Amateur Radio Emergency Service of Argentina. "

Παρακαλώ ενημερώστε και του συναδέλφους στη περιοχή σας να μείνουν όσο το δυνατόν ελεύθερες οι συχνότητες 7.070 και 7.120 των βραχέων κυμάτων.
Επίσης αν είναι εφικτό αναρτήστε το τις ιστοσελίδες των συλλόγων σας, στο facebook κ.λ.π.

Σας ευχαριστούμε.

Εξετάσεις ραδιοερασιτεχνών - Χανιά
Από τη Διεύθυνση Μεταφορών και Επικοινωνιών της Περιφερειακής Ενότητας Χανίων ανακοινώνεται ότι οι εξετάσεις υποψηφίων για την απόκτηση πτυχίου Ραδιοερασιτέχνη, Α΄ περιόδου 2013, έχουν προγραμματισθεί για τη Δευτέρα 27 Μαΐου. Οι εξετάσεις θα διενεργηθούν σε αίθουσα της Διεύθυνσης Μεταφορών και Επικοινωνιών της Περιφερειακής Ενότητας Χανίων, στις 09:00 π.μ. και θα διεξαχθούν αποκλειστικά με ηλεκτρονικό τρόπο, με τη χρήση εγκατεστημένου μηχανογραφικού συστήματος εξετάσεων. Η κατάθεση δικαιολογητικών από τους υποψήφιους ραδιοερασιτέχνες για τη συμμετοχή στις εξετάσεις θα πρέπει να γίνει μέχρι 20 Μαΐου 2013.

- - -

Εξετάσεις ραδιοερασιτεχνών - Τρίκαλα
Προκηρύσσονται εξετάσεις της Α☐ περιόδου 2013 για απόκτηση πτυχίου Ραδιο-ερασιτέχνη. Οι εξετάσεις θα γίνουν στην αίθουσα εξετάσεων της Διεύθυνσης Μεταφορών και Επικοινωνιών Π.Ε. Τρικάλων (Συν. Σωτήρα) την Πέμπτη 30-5-2013 και ώρα 08.30 π.μ.. Όσοι επιθυμούν να λάβουν μέρος στις εξετάσεις θα πρέπει να καταθέσουν σχετική αίτηση με πλήρη δικαιολογητικά στην Υπηρεσία μέχρι και την Πέμπτη 23-5-2013 και ώρα 13.30 μ.μ. Η εξέταση θα γίνει με χρήση Η/Υ σε ερωτηματολόγια πολλαπλών επιλογών σύμφωνα με τα όσα προβλέπονται στην υπ. αριθμό 38200/1136/11-8-2011 (ΦΕΚ 1969 Β΄/2-9-2011) απόφαση του Υπουργού Υποδομών Μεταφορών & Δικτύων. Οι υποψήφιοι για να τους επιτραπεί η συμμετοχή τους στις εξετάσεις θα επιδεικνύουν στην επιτροπή την αστυνομική τους ταυτότητα ή κάθε άλλο αποδεικτικό μέσο των στοιχείων ταυτότητάς τους. Για περισσότερες πληροφορίες οι ενδιαφερόμενοι μπορούν να απευθύνονται στην Υπηρεσία μας στο Τεχνικό Τμήμα, τις ώρες 08:30-13:00 καθημερινά ή στα τηλέφωνα 2431353329 και 2431353300. 2759. Εκδρομή στην 21η Ραδ/χνική Συνάντηση Αθηνών

Yahoo group: thegreekhamradio
Date: 2013-05-22 07:12:14 UTC
From: Costas J. Dovas - SV4FFL
Topic: 2759   Message: 2759

Κυριακή 9 Ιουνίου 2013 ο Σύλλογος Ραδ/χνων Μαγνησίας θα μισθώσει λεωφορείο προκειμένου να επισκεπτούμε το μεγαλύτερο Ham Fest της χώρας μας!! Παρακαλούνται όσοι επιθυμούν να συμμετάσχουν ας επικοινωνήσουν μαζί μου στο 6945-886306 (Wind) ή μεσω sms (SV4FFL Κώστας). Βασική προϋπόθεση να προκαταβάλουμε όλοι τα χρήματα ώστε να γίνει έγκαιρα η κράτηση σε τουριστικό γραφείο. Το κόστος κατ' άτομο είναι 25€ και θα ξεκινήσουμε στις 5:00 ενώ η επιστροφή από Αθήνα θα γίνει στις 16:00 μετά την κλήρωση λαχειοφόρου της εκδήλωσης. Καλό είναι όσοι θα παραβρεθούν στα εγκαίνια της λέσχης μας αυτό το απόγευμα να κατοχυρώσουν τη συμμετοχή τους. Ευπρόσδεκτοι και οι συνάδελφοι από τη Λάρισα και τα περίχωρα καθώς υπάρχει δυνατότητα επιβίβασής τους από το Βελεστίνο όπως σε παρόμοιες εκδρομές στο παρελθόν. Είναι ευκαιρία να ταξιδέψουμε όλοι μαζί και να περάσουμε μια όμορφη μέρα συζητώντας για το πολυαγαπημένο μας χόμπι. Μη το χάσετε. Να είστε όλοι εκεί!!

From: spiros_xanthopoulos
Topic: 2760 Message: 2760

Συνάδελφε SV2EVS

(Στείλε το ενημερωτικό δελτίο στο e-mail ενός φίλου σου για να γραφτεί και αυτός στην λίστα αποδεκτών στέλνοντας το e-mail του στην διεύθυνση raag-hq@raag.org)

Για ενημέρωση σου.

Το Σαββατοκύριακο 8 και 9 Ιουνίου 2013 διοργανώνουμε για 21η χρονιά την καθιερωμένη Πανελλήνια Ραδιοερασιτεχνική Συνάντηση □ Ham fest 2013, που προσελκύει αρκετές εκατοντάδες ραδιοερασιτέχνες από όλη την Ελλάδα. Η φετινή διοργάνωση θα πραγματοποιηθεί στο

Εκθεσιακό Κέντρο Περιστερίου

που περικλείεται από τις οδούς Αγίου Βασιλείου, Δωδεκανήσου και Αναπαύσεως, Περιστέρι.

Συντεταγμένες : 38°01□02□ Βόρειο (38°01728N) και 23°41□16□ Ανατολικό (23°68769E).

Ώρες λειτουργίας:

Σάββατο 8/6 από 12:00 μ. έως 8:00 μ.μ.

Κυριακή 9/6 από 9:00 π.μ. έως 4:00 μ.μ.

Στη συνάντηση θα πάρουν μέρος ως εκθέτες αντιπρόσωποι, έμποροι και κατασκευαστές με συσκευές, κατασκευές, παρελκόμενα και άλλα υλικά τηλεπικοινωνιών, επιστημονικές εκδόσεις και άλλα συναφή προϊόντα, με σκοπό την ενημέρωση των ραδιοερασιτεχνών καθώς και την επίδειξη, προώθηση και διάθεση τηλεπικοινωνιακού και λοιπού εξοπλισμού νέας τεχνολογίας. Ειδικός χώρος έχει προβλεφθεί για τη λειτουργία «Ραδιοερασιτεχνικής Αγοράς Μεταχειρισμένων», για συναδέλφους ραδιοερασιτέχνες απ□ όλη την Ελλάδα.

***Ειδικά εφέτος στο Ham fest θα υπάρχει ζωντανή επίδειξη από εκθέτες, των τελευταίων μοντέλων πομποδεκτών της Icom, Kenwood, Yaesu και Flex Radio.

Επίσης η πρόσβαση στο Ham fest γίνεται ακόμα ευκολότερη από τον νέο σταθμό Metro
«Ανθούπολη» που βρίσκεται μόλις 150 μέτρα από το εκθεσιακό κέντρο Περιστερίου.***

Περισσότερες πληροφορίες εδώ: http://www.raag.org/displayITM1.asp?ITMID=351&LANG=GR

Πολλά 73!

```
RAAG WEB TEAM

DX Packet Cluster:

Telnet clusters: telnet sz1sv.no-ip.org telnet sv1iw.dyndns.org:7300

web cluster: http://sv1iw.dyndns.org/cgi-bin/webcluster

cluster statistics: http://sv1iw.dyndns.org/mrtg/mrtg/stats.html
```

Υπενθυμίζουμε ότι η ανώτατη ισχύς ραδιοεραστεχνικού σταθμού βάσει της ισχύουσας νομοθεσίας είναι για μεν την κατηγορία 1 (SV) από 1.8-29.7 MHz 500W από 50MHz-440MHz 100W και πάνω από τους 1240MHz 50W, για δε την κατηγορία Εισαγωγικού επιπέδου (SY) στις περιοχές 7-14-21-28 -144MHz-430MHz 10W (σε όλες τις περιπτώσεις αναφερόμαστε σε ισχύ εξόδου κορυφής πριν την κεραία).

Όλοι οι επαναλήπτες VHF της Ε.Ε.Ρ. είναι με διαμόρφωση narrow, φροντίστε να χρησιμοποιείτε το ίδιο εύρος διαμόρφωσης, διαφορετικά να μιλάτε χαμηλότερα στο μικρόφωνο για να σας "περνάει" ο επαναλήπτης.

Στα 6 & 4M απαγορεύεται η εκπομπή FM, επίσης η συχνότητα 50.110 είναι για μικρές κλήσεις και αναγγελία QSY σε άλλη συχνότητα.

Απαγορεύεται από τον νόμο η εκπομπή με χρήση άλλου διακριτικού. Αν κάποιοι παρανομούν η πράξη τους δεν απαλλάσσει τους υπόλοιπους από την ευθύνη!

Βοηθείστε να γίνει το APRS δίκτυο χρήσιμο, μην χρησιμοποιείτε πλέον τα path: RELAY, TRACEN-n, WIDEN-n

παρά μόνο το WIDE2-2 για fixed και mobile.

Τα e-mail δεν δίνονται σε κανένα! Αν όμως κάποιος δεν επιθυμεί να είναι στην λίστα αποδεκτών παρακαλούμε να αποστείλει σχετικό μηνυμα στην ηλεκτρονική δ/νση raag-hq@raag.org

2766. Re: [The Greek Ham Radio] SX3TM SPECIAL CALLSIGN FOR 2013 AEGEAN VHF CONTEST, SX3TM

Yahoo group: thegreekhamradio
Date: 2013-07-01 20:10:09 UTC
From: Kostas SV1DPI
Topic: 2763 Message: 2766

πρώτον καλή επιτυχία Βασίλη...
Δεύτερον αν δείτε το πρωτότυπο μήνυμα του Βασίλη και διαλέξτε άλλη κωδικοποίηση (Ελληνικά) είτε στον explorer είτε στον email client, θα μπορέσετε να το διαβάσετε κανονικά... Συνήθως αυτή η εντολή βρίσκεται κάπου εκεί που λέει προβολή ή κάτι τέτοιο. Το ίδιο και συ Βασίλη αν το στείλεις αλλάζοντας τη default κωδικοποίηση σε utf-8 θα το δουν περισσότεροι...
Τρίτον μιλάει για μια dxpedition στον Ταϋγετο με διακριτικό SX3TM κατά το προσεχές Aegean Contest

2772. Trikeri Lighthouse Activation

Yahoo group: thegreekhamradio
Date: 2013-09-02 15:47:21 UTC
From: Costas J. Dovas - SV4FFL
Topic: 2772 Message: 2772

Please share as you like the following DXpedition

http://j44lh.blogspot.gr/

The following Greek radio-amat

eurs:

SV4FFL Costas

SV4FFK Thanasis

SV4FFO Nikos

SV4FFX Tasos

SV4/SV8GGI Kostas

SV4AAQ Dimitris

SV4AFY XYL Katerina

will activate, for second time after 5 years, the Trikeri Lighthouse, with identification number ARLHS GRE-128. You can browse our old SY4LH DXpedition back to 2008 here.

The Trikeri Lighthouse activation will take place during 07 - 10 September with the special callsign J44LH.

The lighthouse is situated on Point Kavoulia, about a ten-minute hike from the Geroplina Settlement of Trikeri, in the Gulf of Pagasitikos.

Locator: 39.05.77N 23.03.05E Gridsquare: KM19MC

You will be able to hear us on all bands, 160m-6m in such modes as CW, SSB, PSK, RTTY.

Equipment: YAESU FT-897, ICOM IC-706MKIIG, Yaesu FT-101ZD.

Antennas: HF Extended Double Zeppelin 20+20m, Multiband Delta Loop (40-10M), 10m endfed Vertical, 3 PC with MixW & Wintest.

QSL Manager: SV4FFL

Καλησπέρα,

Υπάρχει κανείς που να γνωρίζει αν υπάρχει λίστα με Repeaters και Links που να είναι όσο το δυνατόν περισσότερο στην πραγματικότητα;

Μια λίστα που κοιτάω αλλά δεν ξέρω αν ισχύουν είναι:

```
https://maps.google.gr/maps?q=http://maps.google.com/maps/ms%3Fhl%3Del%26ie%3DUTF8%26sourc
e%3Dembed%26oe%3DUTF8%26msa%3D0%26msid%3D116668704417986512719.00044beb2a4e66cce292b%26out
put%3Dkml&hl=el&t=m&vpsrc=0&z=6
```

Καλησπέρα,

Ξεκινάει ένα καινούργιο site το http://www.hamfest.eu

Ο σκοπός του θα είναι η ενημέρωση για hamfests, αγγελίες και διάφορα νέα.

Είναι ακόμα σε αρχική μορφή....αλλά θα αλλάξει μορφή σε λίγο καιρό.

Στείλτε mail με γνώμες απόψεις για το τι μπορεί να περιέχει

Από την ανακοίνωση τύπου της dxpedition στο Melsih Reef
**
Leaderboard:
**After a team discussion the Leaderboard will*not*be used for VK9MT. We will be uploading to Clublog so you can check whether you're in the log. We decided that the optional Leaderboard function would not help in achieving our stated goal of providing an ATNO for as many as possible.

Με λίγα λόγια λέει ότι δε θα υπάρχουν οι γνωστοί πίνακες που λένε ότι ο τάδε έκανε νι επαφές με το σταθμό και στην ουσία εξυπηρετουν τη ματαιοδοξία μας και τίποτα άλλο, εμποδίζοντας τους μικρότερους σταθμούς να κάνουν ένα new one. Ενώ δεν είχα λόγο να κάνω μια dxpedition στα 20μ αφού την είχα confirmed από παλιότερα, τελικά την κάνω και στα 3 modes για να μπορέσω να βγω πρώτος στο sz1a ή πρώτος στην Ελλάδα, την Ευρώπη, κλπ. Χαιρετίζω λοιπόν την απόφαση του VK9MT κι ελπίζω να παραδειγματιστούν και οι υπόλοιπες dxpedtion στο μέλλον

2794. sv2i repeater

Yahoo group: thegreekhamradio
Date: 2014-08-28 13:02:26 UTC
From: spiros_xanthopoulos
Topic: 2794 Message: 2794

SV2I repeater
Μετά από προσπάθεια αρκετών μηνών πήραμε τις απαραίτητες άδειες για την εγκατάσταση δύο νέων αναμεταδοτών του επαναλήπτη SV2I.
Ο ένας αναμεταδότης εγκαταστάθηκε την Τετάρτη 13 Αυγούστου στο Λιτόχωρο και ο άλλος εγκαταστάθηκε την Τρίτη 19 Αυγούστου στον Κόλινδρό και λειτουργούν ικανοποιητικά.
Αυτοί οι τρείς μη επανδρωμένοι σταθμοί την υπηρεσίας ραδιοερασιτέχνη αποτελούν ένα σύστημα επικοινωνίας που έχει στόχο να καλύψει τουλάχιστον τον Νομό Πιερίας όσο ποιο καλά γίνεται.
Ο επαναλήπτης SV2I καλύπτει μέσω των VHF τον κεντρικό όγκο του νομού δηλαδή την πόλη της Κατερίνης, ανατολικά παράλια και δυτικά προς τα βουνά όλα τα χωριά που δεν είχαν κάλυψη πριν την αλλαγή θέσης που έγινε.
Ο Αναμεταδότης του Λιτοχώρου, μέσω των UHF, στόχο έχει την κάλυψη του Ολύμπου όσο αυτό είναι δυνατόν, αλλά και ταυτόχρονα με τον επαναλήπτη VHF καλύπτει την νότια πλευρά του νομού Πιερίας.
Ο Αναμεταδότης του Κολινδρού, μέσω των UHF, στόχο έχει την κάλυψη του βορείου τμήματος του νομού Πιερίας αν και η εμβέλεια του εκτείνεται αρκετά ποιο πέρα καλύπτοντας την πεδιάδα της Ημαθίας, μέρος του νομού Θεσσαλονίκης και Χαλκιδικής.
Όσοι θα χρησιμοποιήσετε το σύστημα, για την ευκολία σας, καλό είναι να τοποθετήσετε σε τρείς μνήμες του πομποδέκτη σας τις παρακάτω συχνότητες και παραμέτρους έτσι καθώς κινήστε ανά περιοχή να επιλέγεται τον ποιο προσβάσιμο επαναλήπτη ή αναμεταδότη.

Επαναλήπτης SV2I Δήμος Κατερίνης
Συχνότητα RX 145,6875MHZ/ TX -0.600MHZ (145.0875MHZ) ενεργοποίηση του υπότονου 67HZ στην εκπομπή.

Αναμεταδότης SV2I Δήμος Δίου – Ολύμπου
Συχνότητα RX/TX 430.6625MHZ ενεργοποίηση του υπότονου 67HZ στην εκπομπή.

Αναμεταδότης SV2I Δήμος Πύδνας - Κολινδρού
Συχνότητα RX/TX 430.6875MHZ ενεργοποίηση του υπότονου 67HZ στην εκπομπή.

Κατά την χρήση του συστήματος SV2I θα πρέπει να αφήνουμε λίγο μεγαλύτερα κενά από ότι συνήθως και να αφήνουμε τον χρόνο που χρειάζεται για να κλείνουν οι εκπομπές των μηχανημάτων στα VHF & UHF, με αυτό τον τρόπο δίνουμε την ευκαιρία σε κάποιον τρίτο να μπει στην κουβέντα μας και αποφεύγουμε πατήματα και παρεξηγήσεις.
Αν δύο σταθμοί θελήσουν να χρησιμοποιήσουν τον ίδιο αναμεταδότη ταυτόχρονα υπάρχει η περίπτωση να μην μπορούν μα ακουστούν μεταξύ τους .
Σε μία τέτοια περίπτωση ο τρίτος ανταποκριτής ίσως να που ακούει από την συχνότητα του επαναλήπτη θα πρέπει να αναλάβει να δίνει το μικρόφωνο με την σειρά ώστε να μην μπλέκονται τα άλλα δύο σήματα.

Το παρών μπορείτε να το κοινοποιήσετε και σε άλλους Ραδιοερασιτέχνες εντός ή εκτός Νομού Πιερίας.

73 de SV2KGA – DM1SV Αδάμος

Ευχαριστω τον SV2GQN για την ενημέρωση.

Date: Sun Dec 7, 2014 9:35 am ((PST))

http://www.dstar.gr/?p=977 http://www.dstar.gr/?p=977

ΠΑΡΑΚΑΛΩ ΔΙΑΔΩΣΤΕ ΤΟ ΟΠΟΥ ΜΠΟΡΕΙΤΕ!!!!!!!

Με ιδιαίτερη λύπη πληροφορήθηκα την κλοπή του συνόλου του εξοπλισμού του κόμβου SV2U μαζί με τον εξοπλισμό του αναλογικού επαναλήπτη που στεγάζεται στον ίδιο χώρο.

Δεν είναι η πρώτη φορά που ακούμε τέτοια περιστατικά στην περιοχή, καθώς πρόσφατα μάθαμε για την κλοπή του αναλογικού επαναλήπτη R2b στο όρος Βίτσι.

Δεν θέλω να θεωρήσω τα τελευταία περιστατικά, στοχευμένη κίνηση προς το καινούριο Δ.Σ της Ραδιολέσχης Καστοριάς, αλλά σίγουρο είναι πως μετά από τόσα χρόνια παντελούς αδράνειας βρέθηκε μια ομάδα συναδέλφων να βγάλει από την αφάνεια την περιοχή.

Ταυτόχρονα στέλνω μήνυμα στους ‘πονηρούς’ της συγκεκριμένης ιστορίας, πως κανείς δεν είναι αλάνθαστος και ήδη βρέθηκαν στοιχεία για την υπόθεση.

Στην συγκεκριμένη περίπτωση, θεωρώ πως σαν ‘κοινότητα’ του Διασυλλογικού Reflector 045, δεν μπορούμε να μείνουμε αδρανείς και να επιτρέψουμε σε ορισμένα λαμόγια, να αναγκάσουν την Ραδιολέσχη Καστοριάς να ‘κατεβάσει ρολά’ και να επιστρέψει σε εποχές που δεν είμαστε καθόλου υπερήφανοι.

Πρόταση μου είναι λοιπόν η δημιουργία ενός κοινού κουμπαρά που με την συνδρομή όλων μας, θα συγκεντρώσουμε τον απαραίτητο εξοπλισμό ή χρήματα ώστε ο ψηφιακός κόμβος της Καστοριάς, να είναι και πάλι κοντά μας στο Διασυλλογικό σύστημα REF045.

Η κίνηση αυτή θα έχει απόλυτη διαφάνεια και θα τοποθετηθεί στην ιστοσελίδα www.dstar.gr http://www.dstar.gr/, ώστε να φαίνεται άμεσα ποιος συνάδελφος συμμετείχε και τι ακριβώς έχει προσφέρει με καθημερινή ενημέρωση.

Το ποσό ή ο εξοπλισμός που πρέπει να συγκεντρωθεί, δεν είναι κάτι υπερβολικό και με την συμμετοχή όλων μας θα πρόκειται για μια πολλή μικρή επιβάρυνση.

Παρακάτω ακολουθεί πίνακας των υλικών που πρέπει να συγκεντρωθεί και το κόστος απόκτησης:

*7/12/2014 Ημέρα Κυριακή *

1. Μεταχειρισμένοι πομποδέκτες UHF συχνοτήτων (Κόστος 300
ευρώ)
2. Πλακέτα ψηφιακής δικτύωσης D-star (Κόστος 310
ευρώ)
3. Τροφοδοτικό 10A με κύκλωμα φόρτισης μπαταρίας (Κόστος 70
ευρώ)
4. Κεραία βάσεως UHF συχνοτήτων
(Κόστος
60 ευρώ)
5. Καλώδιο χαμηλών απωλειών
(Κόστος 30 ευρώ)
6. Κουτί & λοιπά παρελκόμενα
(Κόστος 80 ευρώ)

Το συνολικό κόστος αυτών των υλικών, ανέρχεται στα *850 ευρώ*.

Αφού η πρωτοβουλία είναι απολύτως δική μου, θα ήθελα να κάνω την αρχή και να ξεκινήσω προσφέροντας 2 UHF πομποδέκτες του οίκου Motorola με ειδικό Data Connector που είναι απαραίτητο για την περαιτέρω αξιοποίηση τους.

Άρα οι ανάγκες λιγοστεύουν και ο στόχος γίνεται ευκολότερος για όλους μας.

Ο καινούριος πίνακας υλικών διαμορφώνεται ως εξής:

*7/12/2014 Ημέρα Κυριακή *

1. Μεταχειρισμένοι πομποδέκτες UHF συχνοτήτων

(Κόστος 0 ευρώ) *ΠΡΟΣΦΟΡΑ **SV**1EDZ*

1. Πλακέτα ψηφιακής δικτύωσης D-star

(Κόστος 310 ευρώ)

1. Τροφοδοτικό 10A με κύκλωμα φόρτισης μπαταρίας

(Κόστος 70 ευρώ)

1. Κεραία βάσεως UHF συχνοτήτων

(Κόστος 60 ευρώ)

1. Καλώδιο χαμηλών απωλειών

(Κόστος 30 ευρώ)

1. Κουτί & λοιπά παρελκόμενα

(Κόστος 80 ευρώ)

Το συνολικό κόστος πλέον των υλικών, ανέρχεται στα *550 ευρώ*.

Όποιος συνάδελφος Ραδιοερασιτέχνης ευαισθητοποιηθεί και θέλει να βοηθήσει προσφέροντας χρήματα ή μπορεί να καλύψει σε μορφή δωρεάς κάποιο από τα αναγραφόμενα υλικά (Γιατί μόνο ενωμένοι θα πάμε μπροστά και το κακό δεν αργεί να χτυπήσει την πόρτα μας), παρακαλώ να ακολουθήσει τις παρακάτω οδηγίες:

Να επικοινωνήσει με εμένα (Δημήτρης Βελισσάρης SV1EDZ) στα ακόλουθα τηλέφωνα:

Whats up 6943-082730 ή Vodafone 6951-799003

Με τον πρόεδρο της Ραδιολέσχης Καστοριάς (Βασίλης Μυρκόπουλος SV2ESV) στο τηλέφωνο:

Wind 6937-485635

Ώστε να λάβει και τις απαραίτητες πληροφορίες που χρειάζεται.

Έφτασε η ώρα να αποδείξουμε πως δεν είμαστε απλά γνωστοί-άγνωστοι πίσω από το μικρόφωνο του ακριβοπληρωμένου πομποδέκτη μας, αλλά είμαστε μια μεγάλη οικογένεια και στεκόμαστε δίπλα στους συναδέλφους που μας έχουν ανάγκη.

Σας περιμένουμε όλους (*Ατομικά ή Συλλογικά*) να δείξετε έμπρακτα την αλληλεγγύη σας, στην Ραδιολέσχη Καστοριάς που δοκιμάζεται το τελευταίο χρονικό διάστημα.

Με εκτίμηση

Βελισσάρης Δημήτρης

Καλησπέρα σε όλους,

Με χαρά σας ενημερώνω για μια νέα ιστοσελίδα που αφορά τον ραδιοερασιτεχνισμό. Είναι το www.hamfest.eu όπου είναι στην φάση τελικού σχεδιασμού.

Η σελίδα θα αφορά νέα για τον ραδιοερασιτεχνισμό, αγγελίες αλλά και πολλά ακόμα (εκπλήξεις). Μπορείτε να γραφτείτε στο newsletter της σελίδας και σε λίγο καιρό θα λαμβάνετε email ενημερωτικού χαρακτήρα πάνω στο χόμπυ μας, αλλά και πολλά ακόμα.

Αν κάποιος έχει το FT-900, ψάχνουμε μηχάνημα για να συγκριθεί με κάποιο που έχει πρόβλημα.
